INDEPENDENT AUDITORS' REPORT

Employee Benefits Committee of
Public Service Enterprise Group Incorporated:

We have audited the accompanying statements of net assets available for benefits of the Public Service Enterprise Group Incorporated Thrift and Tax-Deferred Savings Plan (Plan) as of December 31, 2002 and 2001, and the related statement of changes in net assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2002 and 2001, and the changes in net assets available for benefits for the year ended December 31, 2002 in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2002 and 2001 and
for the year ended December 31, 2002

1. DESCRIPTION OF THE PLAN

General

The following description of the Public Service Enterprise Group Incorporated (Company) Thrift and Tax-Deferred Savings Plan (Plan) is provided for general information purposes only. Participants (any person who has an interest in the Trust Fund) should refer to the Plan Document for more complete information.

The Plan is a defined contribution plan covering substantially all non-bargaining unit employees of the Company, and its Participating affiliates,

Edgar Filing: PUBLIC SERVICE ENTERPRISE GROUP INC - Form 11-K

who are eligible on the date of hire. The Company's Employee Benefits Committee is the named fiduciary of the Plan and controls and manages its operation and administration. Deutsche Bank Trust Company Americas (Trustee) serves as the trustee of the Plan. Hewitt Associates is the recordkeeper of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The majority of the Plan's investment assets are held in a trust account by the Trustee and consist of an undivided interest in an investment account of the Master Employee Benefit Trust (Master Trust), a master trust established by the Company and the Trustee.

During 2002, through a subsidiary, the Company acquired Wisvest Connecticut LLC. As a result of this transaction, the savings plan of the acquired company was merged with and into the Plan and the PSEG Employee Savings Plan (Savings Plan), effective December 31, 2002, and Participant account balances of \$4,223,854 were transferred into the Plan as of December 31, 2002.

The Plan was amended effective January 1, 2002. Effective with that date, catch-up contributions of an additional \$1,000 in pre-income tax deposits for employees age 50 or older in 2002 were permitted, maximum permitted employee contribution increased from 25% to 50%, acceptance of after-tax rollovers and rollovers from financial institutions were permitted, Internal Revenue Service (IRS) minimum distribution requirements were adopted for post age 70 1/2 distributions, the suspension period for making deposits to the Plan after a hardship withdrawal was decreased from one year to six months and the Enterprise Stock Fund was converted to an Employee Stock Ownership Plan (ESOP) with the result that Participants were permitted to have dividends on Company stock held in that Fund made in cash.

Contributions

A Participant's Employer begins matching contributions when that Participant has completed a Year of Service, as defined in the Plan, with his/her employer.

6

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Each year, Participants may contribute from 1% to 8 % of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code (IRC) limitations. The Company contributes 50% as its matching contribution to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Prior to March 1, 2002, employer contributions in excess of 6% and up to 8% of compensation were made in shares of the Company's Common Stock, and were not available for transfer to any other investment fund or withdrawal from the Plan prior to the Participant's termination of employment.

Effective March 1, 2002, employer contributions are made in cash and invested according to the Participant's then current investment election and all shares of Company Stock held in a Participant's account are eligible for transfer to any other investment fund. In addition, a Participant may elect to make supplemental deposits to such Funds in increments of 1% of compensation up to an additional 42% (17% prior to January 1, 2002) of compensation (Supplemental

Edgar Filing: PUBLIC SERVICE ENTERPRISE GROUP INC - Form 11-K

Deposits), subject to certain limitations, without any corresponding matching Employer Contribution. Participants may designate such Basic and/or Supplemental Deposits as post-income tax contributions (Nondeferred Deposits) or pre-income tax contributions (Deferred Deposits).

Each Participant may, within any Plan Year, make one or more additional lump sum deposits on a nondeferred basis in minimum amounts of \$250 and in such total amounts which, when aggregated with such Participant's Basic Deposits and Supplemental Deposits, do not exceed 50% of his or her Compensation for that Plan Year and subject to the limitations of the IRC. Prior to January 1, 2002, the maximum permitted annual employee contribution was limited to 25%.

Participant Accounts

Individual accounts are maintained for each Plan Participant. Each Participant's account is credited with the Participant's contributions, the Company's matching contributions, and Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled under the Plan is the accrued vested balance of his/her individual account as of any date.

Employee Stock Ownership Plan Fund (ESOP Fund) Participants receive quarterly payments directly from the Trustee equal to the dividends paid to the Trustee on the shares of the Company's Common Stock held for their account in the ESOP Fund.

7

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Participant Loans

Participants may borrow from their fund accounts up to a maximum of \$50,000 reduced by the highest outstanding loan balance during the past twelve months, whichever is less. The loans are secured by the balance in the Participant's account and bear interest at rates commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions. During 2002, the rate of interest on loans granted to Participants was 4.75%. During 2001, the rate of interest on loans ranged from 6.0% to 9.5%.

No amounts may be loaned directly from any ESOP Account, from any portion of a Participant's Savings Account attributable to transfers from the Cash Balance Plan of Public Service Enterprise Group Incorporated (Cash Balance Plan), from assets held in the Schwab Personal Choice Retirement Account (PCRA) Fund, or, prior to March 1, 2002, from any portion of the Enterprise Common Stock Fund attributable to employer contributions made in shares of Company Common Stock. No Participant may have more than two loans outstanding at any time.

Payment of Benefits

On termination of service due to death, disability, or retirement, a Participant may elect to receive a lump-sum amount equal to the value of the Participant's vested interest in his or her account.

Edgar Filing: PUBLIC SERVICE ENTERPRISE GROUP INC - Form 11-K

Forfeitures

Any nonvested portion of the Participant's Account, determined as of the date of severance from employment, shall be forfeited and shall be applied thereafter to reduce a subsequent contribution or contributions of the Employer as provided in the Plan. If such former Participant is rehired by an Employer on or before the end of and is employed by an Employer at the end of the fifth Plan Year after the Plan Year in which such severance occurred, then such nonvested portion of the Participant's Account shall be reinstated by the Employer and the Participant's right thereto shall be determined as if the Participant had not terminated employment, provided that the Participant repays to the Plan the amount of any distribution paid to him or her on account of the severance from employment. Unallocated forfeitures are used to reduce future Employer Contributions. For the years ending December 31, 2002 and 2001, these forfeitures amounted to \$194,090 and \$152,786, respectively.

Vesting

Except for amounts transferred from the Cash Balance Plan into the Plan, Employer Contributions to a Participant's Thrift Account are fully vested. Amounts transferred from the Cash Balance Plan follow the Cash Balance Plan vesting regulations and vest upon the earliest of a Participant's completion of five years of service with an Employer. All amounts credited to a Participant's ESOP Fund are fully vested.

8

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Penalties Upon Withdrawal

If a Participant withdraws vested Employer Contributions and/or Deposits before they have been in the Plan for twenty-four months, such Participant will lose the matching Employer Contributions on Deposits made during the subsequent three months. Distributions to Participants electing to withdraw Nondeferred Deposits and Employer Contributions are made as soon as practicable after such elections are received by the Plan's Record Keeper. Nondeferred Deposits may be withdrawn at any time but certain penalties may apply. Deferred Deposits may not be withdrawn during employment prior to age 59-1/2 except for reasons of extraordinary financial hardship and to the extent permitted by the IRC (hardship withdrawals). Distributions to Participants of approved hardship withdrawals are made as soon as practicable after such approval.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets

Edgar Filing: PUBLIC SERVICE ENTERPRISE GROUP INC - Form 11-K

available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. The mutual funds invest in various securities including U.S. Government securities, corporate debt instruments and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Participants' account balances and the amount reported in the statement of net assets available for Plan benefits.

Investment Valuation and Income Recognition (Master Trust Fund)

The investments in the Master Trust are stated at fair value except for its benefit-responsive investment contracts with the Stable Value Fund, which are recorded at contract value, which

9

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

approximates fair value. The Plan's investments in the guaranteed annuity contracts of the Stable Value Fund are with various insurance companies and other financial institutions, and are recorded at contract value, which approximates fair value, and is calculated as cost plus accumulated interest less withdrawals. Quoted market prices are used to value all other investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Temporary investments are stated at cost, which approximates fair market value. Dividend income is recorded on the ex-dividend date. The loans to Participants are valued at outstanding principal balance plus accrued interest, which approximates fair value.

Investment gains and losses from securities transactions are computed using an adjusted cost basis as prescribed by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure.

Payment of Benefits

Benefit payments to Participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the plan but have not yet been paid were \$286,795 and \$396,747 as of December 31, 2002 and 2001, respectively.

Administrative Expenses of Plan

All expenses incurred for the administration of the Plan, including taxes and brokerage costs, are deducted from the Master Trust Fund.

Transfers of the ESOP Fund to Thrift Account

Participants are permitted to transfer all, but not less than all, of the shares

Edgar Filing: PUBLIC SERVICE ENTERPRISE GROUP INC - Form 11-K

of the Company's Common Stock from their ESOP Fund to their Thrift Accounts. To effect such transfers, the Trustee will sell the shares of the Company's Common Stock held in the ESOP Fund and invest the proceeds in the Thrift Account Investment Funds designated by the Participant. The cash value of each share of the Company's Common Stock transferred will be equal to the price per share of the Company's Common Stock actually received by the Trustee. Any such transfer is treated as a rollover contribution.

3. INVESTMENT OF THE PLAN AND SAVINGS PLAN IN THE MASTER TRUST

Certain of the Plan's investment assets are held in a trust account by the Trustee and consist of an undivided interest in an investment account of the Master Trust. Use of the Master Trust permits the commingling of trust assets with the assets of the Thrift Plan for investment and administrative purposes. Although assets of both plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the

10

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. As of December 31, 2002 and 2001, the Plan's interests in such assets of the Master Trust were approximately 61%.

To date, no action has been taken by the IRS on this application. However, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.
