VOTING PROCEDURES/REVOKING YOUR PROXY

You can vote by telephone, the Internet, mail or in person.

You can vote your shares by telephone, the Internet, mail or in person at the Meeting. Your proxy card contains instructions for voting by telephone or the Internet, which are the least expensive and fastest methods of voting. To vote by mail, complete, sign and date your proxy card, or your broker's voting instruction card if your shares are held by your broker, and return it in the enclosed return envelope.

Under Arizona law, a majority of the shares entitled to vote on any single matter which may be brought before the Meeting will constitute a quorum. Business may be conducted once a quorum is represented at the Meeting. Except as otherwise specified by law or in our Articles of Incorporation or Bylaws, if a quorum exists, action on a matter other than the election of directors will be deemed approved if the votes cast in favor of the matter exceed votes cast against it.

Contents

Directors are elected by a plurality of votes.

Directors are elected by a plurality of the votes cast by the shares entitled to vote if a quorum is present. A plurality means receiving the largest number of votes, regardless of whether that is a majority. Withheld votes will be counted as being represented at the Meeting for quorum purposes but will not have an effect on the vote.

You may cumulate your votes for directors.

In the election of directors, each shareholder has the right to cumulate his votes by casting a total number of votes equal to the number of his shares of common stock multiplied by the number of directors to be elected. He may cast all of such votes for one nominee or distribute such votes among two or more nominees. For any other matter that may properly come before the Meeting, each share of common stock will be entitled to one vote.

You can revoke your proxy after sending it in by following these procedures.

Any shareholder giving a proxy has a right to revoke that proxy by giving notice to UniSource Energy in writing directed to the Corporate Secretary, UniSource Energy Corporation, One South Church Avenue, Suite 1820, Tucson, Arizona 85701, or in person at the Meeting at any time before the proxy is exercised. Those who fail to return a proxy or fail to attend the Meeting will not count towards determining any required plurality, majority or quorum.

The shares represented by an executed proxy will be voted for the election of directors or withheld in accordance with the specifications in the proxy. If no specification is made in an executed proxy, the proxy will be voted in favor of the nominees as set forth herein.

Proxy Solicitation

We will bear the entire cost of the solicitation of proxies. Solicitations will be made primarily by mail. In addition, we may make additional solicitation of brokers, banks, nominees and institutional investors pursuant to a special engagement of DF King & Co., Inc., at a cost of approximately \$10,500 plus reasonable out-of-pocket expenses. Solicitations may also be made by telephone, facsimile or personal interview, if necessary, to obtain reasonable representation of shareholders at the Meeting. Our employees may solicit proxies but they will not receive additional compensation for such services. We will request brokers or other persons holding shares in their names, or in the names of their nominees, to forward proxy materials to the beneficial owners of such shares or request authority for the execution of the proxies. We will reimburse brokers and other persons for reasonable expenses they incur in sending these proxy materials to you if you are a beneficial holder of our shares.

PROPOSAL TWO: RATIFICATION OF SELECTION OF INDEPENDENT AUDITOR

The Audit Committee has selected PricewaterhouseCoopers, LLP ("Pricewaterhouse") as the Company's independent auditor for the fiscal year 2007, and the Board is asking the shareholders to ratify that selection. Although current law, rules, and regulations, as well as the charter of the Audit Committee, require the Audit Committee to engage, retain, and supervise the Company's independent auditor, the Board considers the selection of the independent auditor to be an important matter of shareholder concern and is submitting the selection of Pricewaterhouse for ratification by shareholders as a matter of good corporate practice.

Under Arizona law, if a quorum of shareholders is present at the Meeting, the ratification of the selection of PricewaterhouseCoopers as independent auditor for 2007 will require that the votes cast in favor of its ratification

9

exceed the votes cast against its ratification. Abstentions and broker non-votes are counted for purposes of determining whether a quorum exists at the Meeting but are not counted and have no effect on the results of the vote for independent auditor.

The Board recommends that you vote “FOR” the ratification of the selection of the independent auditor.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee is made up of six directors who are independent based upon independence criteria established by our Board, which criteria are in compliance with applicable NYSE listing standards. The Board previously adopted a written charter for the Compensation Committee. The Compensation Committee Charter is available for inspection on the Company’s website at www.UNS.com. The Compensation Committee is in compliance with its charter.

The Compensation Committee has reviewed and discussed with management the “Compensation Discussion and Analysis” section required by Item 402(b) of SEC Regulation S-K and contained in this Proxy Statement. Based on such review and discussions, the Compensation Committee recommended to the Board that the “Compensation Discussion and Analysis” section be included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2006 and the 2007 Proxy Statement.

Respectfully submitted,

THE COMPENSATION COMMITTEE

The following Compensation Discussion and Analysis contains statements regarding future individual and Company performance targets and goals. UniSource Energy specifically cautions investors not to apply these statements to other contexts.

COMPENSATION DISCUSSION AND ANALYSIS

COMPENSATION PHILOSOPHY

Objectives of the Compensation Program

We base our executive compensation policies and decisions with respect to our Named Executives on the achievement of the following objectives:

1. Attract, motivate and retain highly-skilled executives;

Contents

2. Link the delivery of compensation to the achievement of critical short- and long-term financial and strategic objectives, creation of shareholder value and provision of safe, reliable and economically available electric and gas service;
3. Align the interests of management with those of our stakeholders and encourage management to think and act like owners, taking into account the interests of the public that the Company serves;
4. Maximize the financial efficiency of the compensation program to avoid unnecessary tax, accounting and cash flow costs; and
5. Encourage management to achieve outstanding results through appropriate means by delivering compensation in a manner consistent with established and emerging corporate governance best practices.

In support of the above objectives, UniSource Energy provides a balanced total compensation program that consists of four components:

base salary;
short-term performance-based incentive compensation;
long-term performance-based incentive compensation; and
benefits and perquisites.

Each of these components is described in more detail below and in the narrative and footnotes to the supporting tables. The following illustrates how the above objectives are reflected in our compensation program:

Attracting, Retaining and Motivating Executive Talent

In support of our objective to attract, retain and motivate highly-skilled employees, we provide our Named Executives with compensation packages that are competitive with those offered by other electric and gas services companies of comparable size and complexity.

The Compensation Committee generally targets base salary and short-term incentive opportunities, as well as the allocation among those elements of compensation for the Named Executives, at the median market rates of selected comparable companies. Long-term incentive opportunities are targeted at the 75th percentile of such market rates. Target compensation for individual executives range above or below those benchmarks based on a variety of factors, including each executive's skill set and experience relative to the general market, the importance of the position to the Company and the difficulty of replacing the executive, and the executive's past and expected future contribution to our success.

In addition to providing competitive direct compensation opportunities, the Company also provides certain indirect compensation and benefits programs that are intended to assist in attracting and retaining high quality executives. These programs include pension and retirement programs and are described in more detail below and in the narratives that accompany the tables that follow this Compensation Discussion and Analysis section.

Linking Compensation to Performance

Our compensation program seeks to link the actual compensation earned by our Named Executives to their performance and that of the Company. We achieve this goal primarily through two elements of our compensation package: (i) short-term cash awards and (ii) equity-based compensation. To ensure that the most senior executives are held most accountable for achieving our financial, operational and strategic objectives and for creating shareholder

value, we believe that the percentage of pay at risk should increase with the level of responsibility within the Company. The target amounts of performance-based pay programs (i.e., cash incentive and equity-based compensation) comprise approximately 55% to 65% of the total direct compensation opportunity for our Named Executives. Non-variable compensation, such as salary and perquisites, are de-emphasized in the total compensation program to reinforce the linkage between compensation and performance.

Aligning the Interests of our Named Executive Officers with Stakeholders

Our compensation program also seeks to align the interests of our Named Executives with those of our key stakeholders, including customers, employees and shareholders. We use the short-term incentive compensation component to focus the Named Executives on the importance of providing safe and reliable customer service, creating a safe work environment for our employees and improving financial performance by linking a significant portion of their short-term cash incentive compensation to achievement of these objectives. We primarily rely on the equity compensation element of our compensation package to align the interests of the Named Executives with those of shareholders through a mix of stock options and stock awards that vest based on the achievement of performance goals set by the Compensation Committee. We also encourage senior executives to accumulate a substantial stake in the Company.

Maximizing the Financial Efficiency of the Program

In structuring the total compensation package for our Named Executives, the Compensation Committee evaluates the accounting cost, cash flow implications and tax deductibility of compensation to mitigate financial inefficiencies to the greatest extent possible. For instance, as part of this process, the Compensation Committee evaluates whether compensation costs are fixed or variable and places a heavier weighting on variable pay elements to calibrate expense with the achievement of operating performance objectives and delivery of value to shareholders. In addition, the Compensation Committee takes into account the objective of having the incentive-based compensation components qualify for tax deductibility under Section 162(m) of the Internal Revenue Code, as amended (the “Code”). See discussion under “Impact of Regulatory Requirements” on page 19. The Compensation Committee also considers the cash flow and share dilution implications of cash versus equity-based incentive plans. In managing overall costs under the variable incentive plans, the Compensation Committee sets annual budgets with regard to total expense and the dilutive impact on shareholders. These budgets are set at levels determined to be reasonable and sustainable by the Company in relation to costs incurred by peer companies.

Adhering to Corporate Governance Best Practices

The Compensation Committee seeks to continually update the executive officer compensation program to reflect corporate governance best practices. For example, the Compensation Committee has established formal stock ownership guidelines that encourage each Named Executive to accumulate a meaningful amount of Company stock. Additionally, equity-based awards contain a “double-trigger” vesting provision, which provides for accelerated vesting in the event of a future change in control only if the executive is adversely impacted by the transaction.

As the Compensation Committee analyzes and discusses executive compensation in its meetings, it considers certain factors for purposes of establishing salaries and variable compensation opportunities. Factors that are considered in its assessment include the following:

- total compensation, taking into account all equity awards granted since the executive started with the Company, total wealth accumulation and future compensation opportunities, as depicted in tally sheets;
 - internal pay equity;
 - stock ownership and retention policies, including hold-until-retirement policies;
 - competitive environment for Named Executives, and what relevant competitors pay; and
 - the need to provide each element of compensation and the amounts targeted and delivered.

Contents**Benchmarking**

To provide a foundation for the executive compensation program, UniSource Energy participates in an annual executive compensation survey of the energy services industry and periodically reviews the senior executive compensation levels and practices among a peer group of companies intended to represent our competitors for business and talent. The peer group is reviewed periodically and includes the 16 electric and gas utility companies named below that are comparable to UniSource Energy in terms of size as measured by annual revenues and market capitalization. UniSource Energy's revenues and market capitalization are generally consistent with the median of the peer companies.

AGL Resources Inc.	DPL Inc.	Northwest Natural Gas Co.	Southern Union Co.
Avista Corp.	Duquesne Light Company	Otter Tail Power Company	Southwest Gas Corp.
CH Energy Group Inc.	El Paso Electric Co.	PNM Resources Inc.	UIL Holdings Corp.
Cleco Corporation	IDACORP Inc.	South Jersey Industries	Westar Energy Inc.

A comprehensive review of UniSource Energy's executive compensation levels and aggregate long-term incentive cost and share usage practices relative to peer group was most recently conducted in October 2005.

The benchmark information is supplemented with information from Frederic W. Cook and Co., Inc., the independent consultant retained by the Compensation Committee, relating to general market trends, changes in regulatory requirements related to executive compensation and emerging best practices in corporate governance.

ELEMENTS OF COMPENSATION**Base Salary**

We believe that competitive base salaries are necessary to attract and retain executive talent critical to achieving the Company's business goals. In general, our Named Executives' base salaries are targeted to the median of the benchmark companies described above. However, individual salaries can and do vary from the benchmark median data based on such factors as individual performance, potential for future advancement, the importance of the executive's position to the Company and the difficulty of replacement, current responsibilities, length of time in the current position, and, for recently hired executives, their prior compensation packages.

Increases to Named Executives' base salaries are considered annually by the Compensation Committee. In approving base pay increases for executives other than the CEO, the Compensation Committee also considers recommendations made by the CEO.

In December 2006, the Compensation Committee approved the following base salary increases for the Named Executives for 2007:

<i>Name</i>	<i>2006 Base Pay</i>	<i>Approved 2007 Base Pay</i>
James S. Pignatelli	\$670,000	\$695,000
Kevin P. Larson	\$290,000	\$300,000
Dennis R. Nelson	\$290,000	\$295,000
Michael J. DeConcini	\$290,000	\$300,000
Raymond S. Heyman	\$290,000	\$300,000

Short-Term Incentive Compensation (Cash Incentive Awards)

The Compensation Committee provides for short-term incentive compensation payments under the Performance Enhancement Plan (“PEP”) in order to tie a significant portion of the Named Executives’ annual compensation to the Company’s annual financial and operational performance. Each year the Compensation Committee establishes targets that are expressed as a percentage of salary, objective performance criteria that must be met in order for payouts to be made and other terms and conditions of awards under the PEP. Each of these components is discussed below. We typically approve short-term incentive metrics in the first quarter.

The Compensation Committee generally attempts to align target cash incentive opportunities for each Named Executive with the median rate for equivalent positions at the benchmark companies. In 2006, target incentive opportunities under the PEP for the Named Executives ranged from 50% to 80% of base salary, depending on position and were payable in cash. Depending upon achievement of the objective performance goals, a Named Executive’s actual payout may be above or below the targeted amount. The maximum potential award for any participant in the PEP, including the Named Executives, was 150% of the target cash incentive amount. For years prior to 2007, the Compensation Committee had the discretion to increase, reduce or eliminate an award regardless of whether the performance goals applicable to the Named Executive’s incentive award have been achieved.

In 2006, the performance criteria approved by the Compensation Committee and applicable to all Named Executives and other non-union employees were earnings per share (“EPS”), cost containment (“O&M”) and customer service and core business goals relating to customer service, regulatory, reliability and safety. The customer service and core business goals included, among others, customer service response time average at or below 3 minutes, community service of at least 35,000 hours volunteered by employees, Springerville Unit 3 and Luna generation project implementation, various operational reliability goals, and OSHA incident rates at or below national average. The EPS and O&M goals were weighted 30% each and the operational goals were weighted 40%. The EPS range was \$1.65 to \$2.05 per basic share, the O&M expense range was \$228 million to \$238 million, and the customer service and core business goals range was 200 to 600 points (which are calculated in accordance with a formula that takes into account the relative weighting of each customer service or core business goal). Each of the three major goals had an individual threshold, and payouts under the PEP can occur along a range of 15% to 150% of target. These measures and the individual weightings were selected by the Compensation Committee to ensure an appropriate focus on profitable growth and expense control, as well as operational and customer service excellence. We believe that the cash incentive compensation plan represents the interests of various stakeholders, including customers, employees, and shareholders.

For 2006 performance, the Company achieved its basic EPS goal at a level of 115% of target, or \$1.91 per share, its cost containment goal at 75% of target, or \$235.5 million, and its customer service and core business goals at 100% of target, or 400 points. Accordingly, the total weighted achievement level was 97% of target for 2006. In February 2007, the Compensation Committee determined that the cash incentive funding under the PEP would be 100%, with adjustments made to individual Named Executive’s awards to reflect individual performance. See Footnote 3 of the Summary Compensation Table for the payouts under the 2006 PEP awards.

In February 2007, the Compensation Committee approved the short-term PEP program for 2007. The structure of the 2007 program remains the same as 2006, but certain changes were made, including replacement of Basic EPS with Diluted EPS and greater emphasis on customer service, safety and core business goals.

Long-Term Incentive Compensation (Equity Awards)

We provide long-term incentives in the form of various types of equity awards to help achieve several key compensation objectives. We believe that equity awards, in tandem with our executive stock ownership guidelines

discussed below, encourage ownership of Company stock by executive officers, which in turn aligns the interest of

14

Contents

those officers with the interest of our shareholders. In addition, the vesting provisions applicable to the awards encourage a focus on long-term operating performance, link compensation expense to the achievement of multi-year financial results and help to retain executive officers.

The UniSource Energy Corporation 2006 Omnibus Stock and Incentive Plan (the “2006 Omnibus Plan”) was approved by our shareholders in 2006 and permits the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, and performance units. This plan gives the Company flexibility in providing competitive long-term incentive compensation.

Annually, during the first quarter, the Compensation Committee approves the long-term incentive awards to be granted for the upcoming year. This includes the type of equity to be granted, as well as the size of the awards for Named Executives. In determining the type and aggregate size of awards to be provided, as well as the performance metrics that will apply, the Compensation Committee considers the strategic goals of the Company, trends in corporate governance, accounting impact, tax deductibility, cash flow considerations, the impact on EPS and the number of shares that would be required to be allocated for the award and the resulting impact to shareholders.

Long-term incentive opportunities are expressed as a multiple of salary. The long-term incentive multiple is then applied to the Named Executive’s base salary to determine the size of the award. The long-term incentive multiple, which is 100% for each Named Executive, was established in 2003 to retain the executives in light of a then pending merger. The value of the Named Executives’ long-term incentive multiples, which is generally consistent with the 75th percentile of benchmark practice, has been maintained for the Named Executives to strengthen the retention value of the compensation program following the termination of the proposed merger transaction in 2004. The impact of the proposed merger transaction on executive officer compensation is described in greater detail in “Elements of Post-Termination Compensation - Change in Control”.

During 2004 and 2005, the Company did not have shares available for stock awards under a shareholder approved incentive plan so it adopted a cash incentive based long-term incentive plan (“LTIP”) during that period. Under the 2004 LTIP, the Named Executives received payouts based on the achievement of three performance goals during 2004, which were EPS, TEP operating cash flow and UniSource Energy consolidated operating cash flow. The achievement level for the 2004 performance period was 120% of target and the Named Executives received payouts beginning in 2005 in three installments under the 2004 LTIP, the last of which is reflected in the Summary Compensation Table below. The 2005-2007 LTIP is based on the achievement of two performance goals, EPS and UniSource Energy consolidated operating cash flow, over the three-year period 2005-2007. Actual 2005 and 2006 results, together with projections for 2007, indicate that the three-year performance results will likely fall short of the threshold payout level.

For 2006, management recommended and the Compensation Committee approved long-term incentive awards consisting of stock options and performance shares. We believe that our long-term incentive program is well-balanced in that it focuses the Named Executives on increasing shareholder value and achieving longer-term financial goals. Options are designed, in part, to reward longer term success in Company performance that is reflected in increases in share price and performance shares are designed, in part, to reward achievement of financial performance objectives whether or not reflected in actual share price in the short term. In addition, performance shares support important financial efficiency objectives by ensuring that cost is variable and incurred by the Company only to the extent that financial goals are achieved.

The 2006-2008 performance share awards are tied to the achievement of Basic EPS (defined as EPS applied to undiluted outstanding shares) and cash flow goals over a three-year performance period. These goals were selected since they are considered to be the most significant drivers of long-term value creation for our shareholders. The goals are equally weighted and the Named Executives can earn 0% to 150% of the target shares based on actual

achievement of the goals. Under the 2006-2008 long-term award, a cumulative Basic EPS range of \$5.80 to \$6.38 and a cumulative cash flow from operations range of \$879.6 million to \$901.1 million must be achieved over the 2006-2008 period in order to meet their target. For 2006, Basic EPS was \$1.91 per share and cash flow was \$282.5

Contents

million which will contribute towards the cumulative three-year performance period. These targets and goals are disclosed in the limited context of UniSource Energy's compensation programs and should not be understood to be statements of management's estimates of results or other guidance. UniSource Energy specifically cautions investors not to apply these statements to other contexts. See the Grants of Plan-Based Awards Table on page 22 for the minimum, target and maximum awards for each of the Named Executives.

The 2006-2008 stock option and performance awards were made in May 2006 following shareholder approval of the 2006 Omnibus Plan. Future long-term incentive awards are expected to be granted by the Compensation Committee during the first quarter following the close of the fiscal year. When the Compensation Committee approves grants of plan-based equity awards, the exercise price is set at the market closing price of UniSource Energy common stock on the date that the grant is made, consistent with recent developments in SEC rules and guidelines. Awards are not coordinated with the release of material non-public information.

In addition, the Company does not typically provide for off-cycle stock option grants and has no specific number of shares under the 2006 Omnibus Plan set aside for such grants. However, occasionally in connection with a new hire of an executive, such a grant may be made to the extent approved by the Compensation Committee. The exercise price of any off-cycle option granted to a newly hired executive will be the closing market price on the date that the Compensation Committee approves any such award, consistent with the pricing practices associated with on-cycle plan-based equity awards.

Stock option grants and performance share awards are intended to qualify as performance-based compensation under Section 162(m) of the Code, which ensures that awards granted to the CEO and other Named Executives are tax deductible by the Company.

In March 2007, the Compensation Committee approved awards of stock options and performance shares to the Named Executives under a 2007-2009 stock option and performance award. The terms of the stock options and the design of the performance share plan are similar to the 2006-2008 long-term incentive program described above and in the footnotes to the Grants of Plan-Based Awards Table, although for the 2007-2009 long-term award, Diluted EPS has replaced Basic EPS.

OTHER COMPENSATION

Perquisites

The Company provides Named Executives with limited personal benefits and perquisites. These are not tied to any formal individual or Company performance criteria but are intended to enhance the attraction and overall retention value of the executive compensation program and be responsive to similar benefits provided to executives and other key personnel in other similar companies in the industry. Executive officers, along with managers and certain other supervisory personnel, are provided with the use of a vehicle and related vehicle operating costs of fuel and car insurance are paid for by the Company. In addition, the Company from time to time reimburses certain executives for business or similar social club initiation fees and periodic special assessments. Finally, the Company also reimburses executives for the travel expenses of their spouses incurred in connection with the annual Board strategic retreat. For identification of specific perquisites and associated values that are set forth in accordance with applicable SEC requirements, refer to the Summary Compensation Table on page 20.

Retirement Benefits

Our Named Executives are also eligible to participate in certain employee benefits plans and arrangements offered by the Company. These include the Tucson Electric Power Company 401(k) Plan, the Tucson Electric Power Company

Salaried Employees Retirement Plan (the “Retirement Plan”), the Tucson Electric Power Company Excess Benefits Plan (the “Excess Benefits Plan”) and the Management and Directors Deferred Compensation Plan (the “DCP”). A description of the pension and other retirement plans is provided under “Elements of Post-Employment Compensation-Retirement and Other Benefits,” below.

ELEMENTS OF POST-EMPLOYMENT COMPENSATION

Termination and Change in Control

In 1998, TEP, a wholly owned subsidiary of the Company, entered into Change in Control Agreements (“Change in Control Agreements” or “Agreements”) with all of the then Named Executives to help keep them focused on their work responsibilities during the uncertainty that accompanies a change in control, to provide benefits for a period of time following certain terminations of employment after a change in control event or transaction and to help us attract and retain key personnel.

For the purpose of the Agreements, a change in control includes the acquisition of beneficial ownership of 30% of the common stock of UniSource Energy, certain changes in the Board, approval by the shareholders of certain mergers or consolidations or certain transfers of the assets of UniSource Energy. The Agreements provide that each officer shall be employed by TEP or one of its subsidiaries or affiliates, in a position comparable to his current position, with compensation and benefits, which are at least equal to his then current compensation and benefits, for an employment period of five years after a change in control (subject to earlier termination due to the officer’s acceptance of a position with another company or termination for cause).

The Agreements are in effect until the later of: (i) five years after the date either TEP or the officer gives written notice of termination of the Agreement, or (ii) if a change in control occurs during the term of the Agreements, five years after the change in control. On March 29, 2004, a change in control occurred for purposes of the Agreements when our shareholders, at a special meeting, approved the acquisition agreement that provided for an affiliate of Saguaro Utility Group L.P. to acquire all of our outstanding shares of common stock.

On March 3, 2005, TEP provided the officers of the Company with written notice of termination of the Agreements effective March 3, 2010, the fifth anniversary of the date of the written notice of termination. In December 2006, the CEO of the Company and one other Named Executive, Dennis R. Nelson, waived all rights they otherwise would have had for the remaining effective period under their Agreements and terminated the Agreements to which they and TEP had been party.

During the remaining term of the Agreements currently in effect, in the event that an officer’s employment is terminated by TEP (with the exception of termination due to the officer’s acceptance of another position or for cause), or if the officer terminates employment because of a reduction in position, responsibility, compensation or for certain other stated reasons prior to March 3, 2010, the officer is entitled to severance benefits in the form of: (i) a lump sum payment equal to the present value of three times the sum of annual salary and target bonus (“cash severance”), (ii) the present value of the additional amount (including any amount under the Excess Benefits Plan) the officer would have received under the Retirement Plan if the officer had continued to be employed for the five-year period after a change in control occurs, plus (iii) the present value of any employee award under the 2006 Omnibus Plan or any successor plan, which is outstanding at the time of the officer’s termination (whether vested or not), prorated based on length of service. Such officer is also entitled to continue to participate in TEP’s health, death and disability benefit plans for five years after the termination. The Agreements further provide that TEP will make a payment to the officer to offset any golden parachute excise taxes that may be imposed in accordance with Code sections 280G and 4999. Any payments made in respect of such excise taxes are not deductible by us. Cash severance would also be paid under the Agreements if an officer dies or becomes disabled prior to March 3, 2010. Refer to “Potential Payments upon Termination or Change in Control” on page 27 for quantification of potential amounts payable under the Agreements.

Beginning in 2006, all long-term incentive awards contain a “double trigger” vesting provision, which provides for accelerated vesting only if outstanding awards are not assumed by an acquirer or the Named Executive is terminated without cause within 24 months of a change in control. The double trigger, which is viewed as a corporate governance

“best practice”, ensures that the Named Executives do not receive accelerated benefits unless they are adversely affected by the change in control.

17

Contents

Other than the Agreements described above, we have not entered into any other severance agreements or employment agreements with any Named Executives except that in December 2006, TEP entered into an employment agreement for a term of six months with Dennis R. Nelson in conjunction with the termination of his Change in Control Agreement. At the time the Company and Mr. Nelson entered into such agreement, Mr. Nelson announced his intention to retire in June 2007. The employment agreement with Mr. Nelson, Senior Vice President, Utility Services, terminates upon his retirement on June 1, 2007. The employment agreement provides that TEP will pay Mr. Nelson a fixed salary of not less than his current annual salary of \$295,000, subject to periodic review and increase by the Board of Directors, and for Mr. Nelson's continued participation in TEP's compensation and employee benefit plans. The agreement provides that TEP will pay Mr. Nelson a severance payment in the event that TEP terminates Mr. Nelson's employment for reasons other than cause, disability or death, or, if Mr. Nelson terminates his employment following (1) a material reduction of his responsibilities; (2) a material reduction of compensation; (3) relocation or reassignment beyond 50 miles from the location that he works currently; or (4) certain liquidation, dissolution, consolidation or merger transactions involving the company. Severance is to be paid in a lump sum cash payment and the amount will equal any annual target bonus owing but unpaid for 2006, \$300,000 (less any amount paid in respect of the 2006 target bonus), and a prorated annual target bonus for the year of the termination. In addition, the agreement provides that Mr. Nelson will receive service credit for eligibility and benefits purposes until June 1, 2007 and will be entitled to participate in the Company retiree medical plan regardless of the actual date his employment is terminated.

The Compensation Committee and the Board are currently in the process of evaluating future alternatives associated with change-in-control protection that may be offered to Named Executives who have not been party to a Change in Control Agreement. For additional information on amounts that would be payable to those Named Executives who currently have Agreements still in effect, refer to the Potential Payments upon Termination or Change in Control Table on page 27.

Retirement and Other Benefits

Benefits Generally

The Company offers retirement and other core benefits to its employees, including executive officers, in order to provide them with a reasonable level of financial support in the event of illness or injury and to enhance productivity and job satisfaction. The benefits are the same for all employees and executive officers and include medical and dental coverage, disability insurance and life insurance. In addition, the Tucson Electric Power Company 401(k) Plan and the Retirement Plan provide a reasonable level of retirement income reflecting employees' careers with the Company. All employees, including executive officers, participate in these plans; the cost of these benefits (other than the Retirement Plan) is partially borne by the employee, including each executive officer. To the extent that any officer's retirement benefit exceeds Internal Revenue Service ("IRS") limits for amounts that can be paid through a qualified plan, the Company also offers non-qualified retirement plans, including the Excess Benefits Plan and the DCP. These plans provide only the difference between the calculated benefits and the IRS limits.

Tucson Electric Power Company Excess Benefits Plan

The Retirement Plan is subject to Code limitations on the amount of compensation that can be taken into account and on the amount of benefits that can be provided. The Excess Benefits Plan provides retirement benefits to officers in addition to the maximum amount of benefits payable under the Retirement Plan. The Excess Benefits Plan retirement benefit is calculated generally using the same pension formula as the Retirement Plan formula but with some modifications. Compensation for purposes of the Excess Benefits Plan is determined without regard to IRS limits on compensation and by including voluntary salary reductions to the DCP, and any annual incentive payment received under the PEP. The retirement benefit payable from the Excess Benefits Plan is reduced by the benefit payable to that

person from the Retirement Plan.

18

Contents

Benefits under the Excess Benefits Plan are provided to officers but, with limited exceptions, are not generally available to other employees. These benefits are not tied to any formal individual or Company performance criteria but are intended to enhance the attraction and retention value of the executive compensation program and are consistent with similar competitive compensation benefits made available to executives in the industry.

UniSource Energy Corporation Management and Directors Deferred Compensation Plan

The DCP allows participants (which include directors, officers and managers) the opportunity to accumulate tax-deferred capital by allowing them to defer a portion of their pay on a pre-tax basis. A participant may elect to defer a percentage of his salary or any bonus up to 100%.

The DCP provides Named Executives and other participants with the opportunity to defer a portion of their base salary and bonus into various investment alternatives, including UniSource Energy stock units. Additionally, we credit the DCP accounts of executives participating in our 401(k) Plan with the additional amount of UniSource Energy matching contributions that the participant would have been entitled to under our 401(k) Plan but for certain Code limits. We believe this plan assists with our attraction and retention objectives since it provides an industry-competitive and tax-efficient benefit to our executives. The DCP is not funded by the Company and participants have an unsecured contractual commitment by the Company to pay amounts owed under the DCP. Additional details on the DCP are provided in the narrative and footnotes to the Non-Qualified Deferred Compensation Table on pages 26-27.

STOCK OWNERSHIP POLICY

To further support our objective of aligning management and shareholder interests, we adopted a formal stock ownership policy, which encourages all officers to accumulate a substantial ownership stake in Company shares. The policy has the following key features:

- Participants are encouraged to accumulate Company shares with a target value of a multiple of their base salary, ranging from one times base salary for Vice Presidents to five times for our CEO. The Named Executives other than the CEO have a target value equal to three times their base salary.
- If a participant has not yet reached the applicable target ownership requirement, he is expected to retain a portion of the net after-tax shares acquired from any stock option exercise, vesting of restricted stock or payments related to the performance share program. The applicable retention rates are 100% for the CEO, 50% for the other Named Executives and 25% for the other Vice Presidents.
- Unexercised stock options, unvested stock options and unearned performance shares do not count towards meeting the ownership guidelines.

Annually, management provides a report to the Compensation Committee regarding the number and value of the shares held by each officer subject to the guidelines. As of December 31, 2006, all executives who were hired before 2005, including the CEO, have achieved their target ownership level; five officers appointed subsequently are making progress toward meeting the guidelines.

IMPACT OF REGULATORY REQUIREMENTS

Under Section 162(m) of the Code, certain items of compensation paid to the CEO and to each of the other Named Executives in excess of \$1,000,000 annually are not deductible for federal income tax purposes unless the compensation is awarded under a performance-based plan approved by the shareholders. With respect to

performance-based compensation, Section 162(m) of the Code requires that performance metrics be set within 90 days of the commencement of the performance period. Accordingly, the Compensation Committee schedules its meetings so that the incentive-based compensation programs designed to provide performance-based compensation, within the meaning of Code section 162(m), are approved during the first quarter of the year. To

Contents

the extent that the Company complies with the performance-based compensation provision of Section 162(m), the awards granted to the CEO and other Named Executives are tax deductible by the Company.

The Compensation Committee believes that it is in the best interest of the Company to receive maximum tax deductibility for compensation paid to the Named Executives under Section 162(m) of the Code, although to maintain flexibility in compensating Named Executives in a manner designed to promote varying corporate goals, the Compensation Committee may award compensation that is not fully deductible under certain circumstances. The Company's compensation plans reflect the Compensation Committee's intent and general practice to pay compensation that the Company can deduct for purposes of federal income tax. Executive compensation decisions, however, are multifaceted. The Compensation Committee reserves the right to pay amounts that are not tax deductible to meet the design goals of our executive compensation program.

The Compensation Committee also considers other financial implications when developing and implementing the Company's compensation program, including accounting costs, cash flow impact and potential share dilution.

(2) The amounts included in the "Option Awards" column represent the compensation expense recognized by the Company for stock option awards granted to the Named Executives in 2006 and a 2005 stock option award to Mr. Heyman, calculated in accordance with FAS 123R. The Company's FAS 123R assumptions used in these calculations are set forth on pages 136-140 of our annual report on Form 10-K filed with the SEC on February 28, 2007 and available on the Company's website at www.UNS.com. Since Mr. Pignatelli and Mr. Nelson are retirement eligible, their accruals were accelerated and expensed in 2006 rather than over a three-year vesting period.

(3) The Non-Equity Incentive Plan Compensation listed on this table reflects the second of three installments associated with the 2004 long-term incentive plan awards plus the payout under the 2006 PEP awards. The 2006 payouts under the 2004 long-term incentive plan awards were as follows: Mr. Pignatelli, \$250,500; Mr. Larson, \$92,184; Mr. Nelson, \$110,220; Mr. DeConcini, \$98,196. The PEP awards included in this column were paid during the first quarter of 2007 and are as follows: Mr. Pignatelli, \$617,000; Mr. Larson, \$167,000; Mr. Nelson, \$138,000; Mr. DeConcini, \$167,000; and Mr. Heyman, \$167,000.

(4) This column reflects the change in the actuarial present value of the accumulated benefit under all defined benefit plans (the Retirement Plan and Excess Benefits Plan). Our non-qualified DCP does not provide participants with above-market earnings. Our non-qualified DCP offers participants a menu of investment options and these accounts provide participants with a return based on their selection of investment opportunities.

(5) The amounts in the "All Other Compensation" column include the following payments that we made on behalf of the Named Executives:

Name	Year	Car Benefit (\$)	Qualified Plan 401(k) Matching Contributions (\$)	Non-Qualified Plan 401(k) Matching Contributions (\$)	Club Memberships (\$)	Spouse Travel (\$)	Total (\$)
James S. Pignatelli	2006	1,566	9,900	5,100	1,080	0	17,646
Kevin P. Larson	2006	2,062	9,900	3,081	0	309	15,352
Dennis R. Nelson	2006	1,471	9,900	3,098	0	0	14,469
Michael J. DeConcini	2006	398	9,900	3,081	1,080	309	14,768
Raymond S. Heyman	2006	684	9,900	3,081	0	355	14,020

The "Car Benefits," "Club Memberships," and "Spouse Travel" columns include the incremental cost to the Company of such benefits. For the car benefit, the incremental cost includes the cost of fuel and maintenance of a vehicle provided to the Named Executive for personal use. The Company also pays for the auto insurance, but that cost is very small and cannot be quantified because the insurance is provided through a comprehensive policy that covers many insurable risks and the underwriters do not provide any cost allocation information. Spouse travel costs include airfare for the Named Executives' spouses for the annual Board retreat.

We have no employment agreements with our Named Executives other than a 6-month employment agreement with Mr. Nelson, which will expire in June 2007 when Mr. Nelson will be retiring. See discussion in "Elements of Post-Employment Compensation-Termination and Change in Control" at pages 17-18.

Contents**GRANTS OF PLAN-BASED AWARDS—2006**

The following table sets forth information regarding plan-based awards to our Named Executives in 2006. The compensation plans under which the grants in the following table were made are generally described in the “Compensation Discussion and Analysis” section, beginning on page 10 and include the UniSource Energy PEP, which provides for non-equity (cash) performance awards, and the 2006 Omnibus Plan, which provides for equity-based performance awards including stock options and performance shares.

(1) The amounts shown in this column reflect the range of payouts (50%-150%) targeted for 2006 performance under the Company's PEP, as described in the "Short-Term Incentive Compensation" section of the Compensation Discussion and Analysis above. These amounts are based on the individual's current salary and position. The amount of cash incentive actually paid under the PEP for 2006 is reflected in the Summary Compensation Table above.

(2) The amounts shown in this column reflect the range (50%-150%) of grants in the form of performance shares targeted for 2006 performance under the 2006 Omnibus Plan for long-term incentive compensation, as described in the "Long-Term Incentive Compensation" section of the Compensation Discussion and Analysis above.

(3) Stock options granted under the 2006 Omnibus Plan are described in the Outstanding Equity Awards at Fiscal Year-End Table below. Options are granted at 100% of the fair market value on the date of grant; they vest in one-third increments over a three year period and expire after 10 years.

(4) Exercise price for the May 5, 2006 stock option award was \$30.55, which was the average of the high and the low price of the Company's common stock on the NYSE on the grant date. The definition of the "Fair Market Value" in the UniSource Energy 2006 Omnibus Plan was amended in September 2006, from the average of the high and the low prices to the close on the date of grant to conform to new SEC rules and guidelines.

(5) This amount has been determined in accordance with FAS 123R based on the fair value of our common stock as of the grant date of \$30.55 per share. For Mr. Nelson, 50% of the amount reflected in this column for his performance share grant is expected to be forfeited because of his retirement in June 2007.

OPTION EXERCISES AND STOCK VESTED

The following table includes certain information with respect to the options exercised by our Named Executives during the year ended December 31, 2006:

Name	Option Awards	
	Number of Shares Acquired on Exercise (#)(1)	Value Realized on Exercise (\$)(2)
James S. Pignatelli	13,109	224,164
Dennis R. Nelson	163,952	2,497,882
Michael J. DeConcini	3,971	68,281

(1) Of shares exercised, the following amounts were due to options that otherwise would have expired during the year: James S. Pignatelli, 13,109 and Michael J. DeConcini, 3,971. Mr. Pignatelli and Mr. DeConcini retained all of the shares acquired through the exercise of the options indicated above.

(2) For options that are exercised in cashless transactions, we base this value on the spread between the exercise price and the actual price at which the shares of common stock are sold in the market. For options that are exercised and retained by the Named Executive, we base this value on the spread between the exercise price and the actual market price of our common stock at the time of exercise.

PENSION BENEFITS

The following table shows the present value of accumulated benefits payable to each of the Named Executives, including the number of years of service credited to each such Named Executive, under each of the Retirement Plan and the Excess Benefits Plan determined using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements as set forth on pages 131-136 of the Company's Annual Report on Form 10-K. Information regarding the Retirement Plan and the Excess Benefits Plan can be found under the heading "Retirement

and Other Benefits” on page 18.

(1) The Retirement Plan is intended to meet the requirements of a qualified benefit plan for Code purposes, and is funded by the Company and made available to all eligible employees. The Retirement Plan provides an annual income upon retirement based on the following formula:

1.6% x years of service (up to 25 years) x final average pay

Final average pay is calculated as the average of basic monthly earnings on the first of the month following the

employee's birthday during the five consecutive plan years in which basic monthly earnings were the highest, within the last 15 plan years before retirement. Years of service are based on years and months of employment. A Retirement Plan participant is fully vested in his or her retirement benefit after five years of service. The maximum benefit available under the Retirement Plan is an annual income of 40% of final average pay (as defined above). Plan compensation for purposes of determining final average pay is limited by IRS compensation limits under Code Section 401(a)(17). For 2006, the limit was \$220,000 in annual income.

NON-QUALIFIED DEFERRED COMPENSATION

UniSource Energy sponsors the DCP for directors, officers and certain other employees of UniSource Energy. Under the DCP, employee participants are allowed to defer up to 100% of base salary and cash bonuses and non-employee director participants are allowed to defer up to 100% of their cash compensation. This deferral plan also allows the executive employee participants to obtain the 401(k) Company match beyond the IRS-prescribed contribution and salary limitations of the Company's 401(k) Plan. The Company makes contributions to the DCP coincident with the deferrals made by the participants. The deferrals are used to purchase trust owned life insurance which is held in a rabbi trust. The deferred amounts are valued daily as if invested in one or more of a number of investment funds, each of which may appreciate or depreciate in value over time. The choice of investment funds is determined by the individual participant.

(1) In the event of retirement or voluntary termination, each of the Named Executives would be entitled to receive vested and accrued benefits payable from the Retirement Plan and the Excess Benefits Plan, but no form or amount of any such payment would be increased or otherwise enhanced nor vesting accelerated with respect to such plans. In addition, no accelerated vesting of options or performance shares would occur. Retirement Plan and Excess Benefits Plan information for the Named Executives is set forth in the Pension Benefits Table above. Mr. Heyman is not vested in the retirement plans as of December 31, 2006.

(2) If a change in control occurs, and an officer's employment is terminated by TEP (other than due to the officer's acceptance of another position or for cause), or if the officer terminates employment because of a reduction in salary, responsibility, compensation or for certain other stated reasons, the officer is entitled to severance benefits. These include: a) severance payout, b) pro-rated bonus, c) accelerated vesting of stock options, d) performance shares payout, e) enhanced retirement benefits, f) medical benefits continuation, and g) tax gross-up. In December 2006, James S. Pignatelli and Dennis R. Nelson, waived all rights under their Change in Control Agreements and terminated the Agreements to which they and TEP had been party. Mr. Heyman does not have a Change in Control Agreement. For additional discussion on change in control agreements, refer to "Elements of Post Employment Compensation-Termination and Change in Control" on page 17 in the "Compensation Discussion and Analysis" section.

(3) Amounts in this column reflect the value of unvested options that would be accelerated upon the death or disability of the Named Executives. Amounts are calculated based on the difference between the market price of common stock at December 31, 2006 and the exercise price for all unvested options. There is no acceleration of performance shares. In addition, in the event of death, the Named Executive's survivor would be entitled to receive a death benefit in the form of a lump sum or survivor annuity which is principally funded from the Retirement Plan and Excess Benefits Plan. The amount payable to the survivor would be less than the amount that would otherwise have been payable to the Named Executive had the Named Executive survived and received retirement benefits under the Retirement Plan and Excess Benefits Plan. There would be no enhancements as to form, amount or vesting of such benefits in the event of a Named Executive's death. The survivor would also receive life insurance proceeds from the life insurance coverage provided by the Company under the employee life insurance benefit.

In addition, in the case of a termination of Mr. Nelson's employment for reasons other than cause, disability or death, or if Mr. Nelson terminates his employment following (1) a material reduction of his responsibilities, (2) a material reduction of compensation, (3) relocation or reassignment beyond 50 miles from the location where he currently works, or (4) certain liquidation, dissolution, consolidation or merger transactions involving the Company, Mr. Nelson will be entitled to certain severance benefits. These benefits are described in "Elements of Post-Employment Compensation - Termination and Change in Control" on page 17.

EQUITY COMPENSATION PLAN INFORMATION

Equity Compensation Plans

Our only equity-based compensation plan that has not been approved by shareholders is the DCP. Shareholder approval of the DCP has not been required because the provisions of the DCP permit the Company to payout deferred shares accumulated under the DCP in the form of cash. Under the DCP, certain eligible officers and other employees selected for participation, and non-employee members of the Board, may elect to defer a percentage of the compensation or fees that would otherwise become payable to the individual for his services to us. We also credit DCP accounts of employees participating in our 401(k) Plan with the additional amount of UniSource Energy matching contributions that the participant would have been entitled to under the 401(k) Plan if certain Code limits did not apply to limit the amount of UniSource Energy matching contributions made under the 401(k) Plan. Each participant in the DCP may elect that his deferrals be credited in the form of deferred shares instead of cash. Deferred

shares are bookkeeping entries that, when payable, will be paid in the form of an

28

Contents

equivalent number of shares of UniSource Energy common stock, subject to shareholder approval prior to the issuance of any such shares, or in cash if the Company so elects. Deferred shares accrue dividend equivalents, credited in the form of additional deferred shares, as dividends are paid by UniSource Energy on its issued and outstanding common stock. Each participant elects the time and manner of payment (lump sum or installments) of his deferred shares under the DCP. Any shares used to satisfy our common stock obligations under the DCP will be shares that have been purchased on the open market. To date, payment of deferred amounts have been only in the form of cash.

Equity Compensation

The following table sets forth information as of December 31, 2006, with respect to UniSource Energy's equity compensation plans.

<u>Plan Category</u>	Number of Shares of UniSource Energy Common Stock to be Issued Upon Exercise of Outstanding <u>Options and Rights</u>	Weighted-Average Exercise <u>Price of Outstanding Options</u>	Number of Shares of UniSource Energy Common Stock Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Shares Reflected in the First <u>Column</u>)
Equity Compensation Plans Approved by Shareholders (1)	1,662,742 (2)	\$18.59 (3)	2,020,778 (4)
Equity Compensation Plans Not Approved by Shareholders	60,292 (5)	--	-- (6)
Total	1,723,034	--	--

(1) The equity compensation plans approved by shareholders are the UniSource Energy Corporation 1994 Omnibus Stock and Incentive Plan ("1994 Stock and Incentive Plan"), the UniSource Energy Corporation 1994 Outside Director Stock Option Plan (the "1994 Directors Plan") and the 2006 Omnibus Plan. The 1994 Stock and Incentive Plan and the 1994 Directors Plan were superseded by the 2006 Omnibus Plan. The 1994 plans remain in effect until all awards have expired or terminated or shall have been exercised or fully vested, and any stock thereto shall have been purchased or acquired.

(2) Includes options outstanding as to 1,388,328 shares, stock units, dividend equivalent stock units and restricted stock units (payable in an equivalent number of shares) outstanding as to 274,414 shares.

(3) Calculated based on the outstanding options and exclusive of outstanding stock units.

(4) The 1994 Stock and Incentive Plan expired in accordance with its terms, effective February 3, 2004. On March 30, 2006, the Compensation Committee terminated the 1994 Directors Plan effective January 1, 2006, contingent upon shareholder approval of the 2006 Omnibus Plan. The Compensation Committee further resolved that no awards would be issued under the 1994 Directors Plan after December 31, 2006 (once the 2006 Omnibus Plan was adopted). Awards authorized under the 1994 Directors Plan include options, restricted stock, stock units

Contents

and dividend equivalents. The 2006 Omnibus Plan was approved by shareholders in May 2006. Both the 1994 Stock and Incentive Plan and the 1994 Directors Plan remain nominally in effect with respect to currently outstanding awards. No shares that were available to be issued under the 1994 Directors Plan at the time of its termination are available for awards under the 2006 Omnibus Plan with respect to awards that are forfeited, terminated, canceled or expired.

(5) Deferred shares credited under the DCP.

(6) There is no explicit share limit under the DCP. The number of shares to be delivered with respect to the DCP in the future depends on the levels of fees and compensation that participants elect to defer under the DCP. Any UniSource Energy shares used to satisfy our common stock obligations under the DCP will be shares that have been purchased on the open market.

Contents

(2) In 2006, each non-employee director received a \$20,000 annual cash retainer, \$1,000 for each Board meeting attended and \$1,000 for each committee meeting attended. For each of Lawrence J. Aldrich, Barbara M. Baumann, Elizabeth T. Bilby, Harold W. Burlingame, Kenneth Handy and Joaquin Ruiz, 100% of fees earned in 2006 were deferred into the DCP.

(3) Each non-employee director received an annual restricted stock unit award valued at \$40,000 in 2006. Values reflected in the table are consistent with FAS 123R grant date fair value. The directors were awarded 1,309.5 restricted stock units on May 5, 2006, the date of the annual shareholder meeting, at a fair market value share price of \$30.55. The restricted stock unit awards vest after one year and are distributed in January following termination of Board Service. The award price for the annual director equity award was the average of the high and the low of the Company's common stock on the NYSE on the award date. The definition of the "Fair Market Value" in the 2006 Omnibus Plan was amended in September 2006, from the average of the high and the low price to the close on the date of grant in order to conform to new SEC rules and guidelines.

(4) The non-employee director committee chairpersons and Lead Director received retainers in the form of restricted stock units in 2006. The chairperson and Lead annual retainers were as follows: Audit and Lead Director, \$20,000; all other committee chairs, \$15,000.

CORPORATE GOVERNANCE

Each director attended at least 75% of the aggregate total of Board meetings and meetings of committees of which they are a member. Additionally, the non-management Directors met at regularly scheduled executive sessions without management present. Mr. Carter, a

non-management director, presided over and was the Lead Director at these executive sessions.

The Company does not have a formal policy with respect to attendance of Board members at annual meetings of shareholders, but encourages such attendance. All of the Board members attended the 2006 Annual Meeting.

Box 31771, Tucson, Arizona 85751-1771, or by e-mail at unscorpgov@earthlink.net. Shareholders or other interested parties wishing to communicate with the Board regarding financial matters may contact the Chairperson of the Audit Committee either by mail, addressed to Chairperson, Audit Committee, UniSource Energy Corporation, P.O. Box 30201, Tucson, Arizona 85751-0201, or by e-mail at unscorpaudit@earthlink.net.

Items that are unrelated to a director's duties and responsibilities as a Board member may be excluded from consideration, including, without limitation, solicitations and advertisements, junk mail, product-related communications, job referral materials such as resumes, surveys and material that is determined to be illegal or otherwise inappropriate.

DIRECTOR INDEPENDENCE CRITERIA

The Board has adopted Director Independence Standards to comply with NYSE rules for determining independence, among other things, in order to determine eligibility to serve on the Audit Committee, the Compensation Committee and the Corporate Governance and Nominating Committee. The Director Independence Standards, amended as of February 9, 2007, are available on our website at www.UNS.com and are available in print to any shareholder who requests it.

No director may be deemed independent unless the Board affirmatively determines, after due deliberation, that the director has no material relationship with the Company either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company. In each case, the Board broadly considers all the relevant facts and circumstances from the standpoint of the director as well as from that of persons or organizations with which the director has an affiliation and applies these standards.

Annually, the Board determines whether each director meets the criteria of independence. Based upon the foregoing criteria, the Board has deemed each director to be independent, with the exceptions of Mr. Bickle, Ms. Bilby and Mr. Pignatelli. In December 2006, the Board reviewed the independence criteria in connection with a reassessment of the independence status of Mr. Aldrich. In considering whether Mr. Aldrich is independent, the Board considered his prior relationship with Valley Ventures III, LP, a venture capital fund in which Millennium has invested. Mr. Aldrich had been a general partner of the company that manages Valley Ventures III, LP through December 2005, at which time Mr. Aldrich terminated his role and interest as a general partner, but maintained a non-voting financial interest in Valley Ventures III, LP. As a result of the termination of his role as a general partner, the Board concluded that the relationship no longer precluded the determination that he is

Contents

independent. As a result of those deliberations and the application of the independence criteria, the Board determined that Mr. Aldrich is now independent. For each other director who is deemed independent, there were no other transactions, relationships or arrangements that were considered by the Board in determining that the director is independent. See “Transactions with Management and Others” below.

Board Committees

The Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee reviews and recommends corporate governance principles, interviews potential directors and nominates and recommends to the shareholders and directors, as the case may be, qualified persons to serve as directors. The Corporate Governance and Nominating Committee also reviews and recommends membership for all the committees to the Board and reviews applicable rules and regulations relating to the duties and responsibilities of the Board. Our Corporate Governance and Nominating Committee held four meetings in 2006 and was in compliance with its written charter.

The Corporate Governance and Nominating Committee identifies and considers candidates supplied by shareholders and Board members. The Corporate Secretary, as directed by the Corporate Governance and Nominating Committee, prepares portfolios for candidates that include confirmation of the candidate’s interest, independence, biographical information, review of business background and experience and reference checks. The Corporate Governance and Nominating Committee then evaluates candidates using, in large part, the criteria set forth in the next paragraph and any other criteria the Corporate Governance and Nominating Committee deems appropriate, and conducts a personal interview with each candidate. Upon completion of this process, formal invitations are extended to accept election to the Board.

The Corporate Governance and Nominating Committee has not adopted specific minimum qualifications with respect to a committee-recommended Board nominee, but desirable qualifications are set forth in the Corporate Governance Guidelines and include prior community, professional or business experience that demonstrates leadership capabilities, the ability to review and analyze complex business issues, the ability to effectively represent the interests of our shareholders while keeping in perspective the interests of our customers, the ability to devote the time and interest required to attend and fully prepare for all regular and special Board meetings, the ability to communicate and work effectively with the other Board members and personnel and the ability to fully adhere to any applicable laws, rules or regulations relating to the performance of a director’s duties and responsibilities.

While no formal policy exists, the Corporate Governance and Nominating Committee does consider recommendations for Board nominees received from our shareholders. The deadline for consideration of recommendations for next year’s annual meeting of the shareholders is December 4, 2007. Recommendations must be in writing and include detailed biographical material indicating the candidate’s qualifications and a written statement from the candidate of his willingness and availability to serve. Recommendations should be directed to the Corporate Secretary, UniSource Energy Corporation, One South Church Avenue, Suite 1820, Tucson, Arizona 85701. The Board will consider nominees on a case-by-case basis and does not believe a formal policy is warranted at this time due to a manageable volume of nominations.

Each member of our Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee is independent based upon independence criteria established by our Board, which criteria are in compliance with applicable NYSE listing standards.

Compensation Committee

The Compensation Committee operates under the provisions of a committee charter, which can be found at www.UNS.com. The Compensation Committee Charter can be revised by action taken by the Compensation Committee. Under the terms of its charter, the Compensation Committee is required to consist of not fewer than three members of the Board who meet the independence requirements of the NYSE. In 2006, the Compensation Committee had six members who met those independence requirements.

In 2006, the Compensation Committee held six formal meetings, most of which were followed by an executive session in which management did not participate. The Compensation Committee Chair sets the agenda for each meeting, and in advance of each meeting reviews the agenda with management. The annual schedule of meetings is approved by the Board during the fourth quarter for the following year. In connection with Compensation Committee meetings, each Compensation Committee member receives a briefing book prior to each meeting that details each topic to be considered. The Compensation Committee Chair reports to the Board on Compensation Committee decisions and key actions following each meeting. The Compensation Committee members also complete a written assessment of the Compensation Committee's performance, with the last such assessment completed in September 2006.

The Board of Directors has delegated authority to the Compensation Committee to set CEO compensation levels, and to review and approve compensation for all of the Company's executives, including any equity compensation awarded under the 2006 Omnibus Plan. Under the terms of its charter, the Compensation Committee may delegate certain actions to management of the Company in connection with executive compensation. Day-to-day administration of director and executive compensation matters has been delegated to certain Company management personnel, with oversight provided by the Compensation Committee.

Compensation Consultant

The Compensation Committee has retained the services of Frederic W. Cook and Co., Inc. ("Cook"), a nationally recognized compensation consulting firm that serves as an independent advisor in matters related to executive compensation and benefits and director compensation. Representatives from Cook are available to Compensation Committee members on an ongoing basis and attend Compensation Committee meetings, as requested, either in person or telephonically. The Compensation Committee has sole discretion over the terms and conditions of the retention of consultants it retains. Cook maintains no other economic relations with the Company and does not provide any services to the Company other than those provided directly to the Compensation Committee.

The Compensation Committee Chair customarily provides assignments to Cook. In its role as executive compensation consultant to the Compensation Committee, Cook assists with peer group selection, the benchmarking of individual compensation levels, and the design of incentive plans and other compensation arrangements in which Company management participates. In furnishing this assistance, Cook provides competitive data and technical considerations, and recommends changes to the pay program and pay levels for consideration by the Compensation Committee.

Role of Executives in Establishing Compensation

Certain executives, including the CEO, the Chief Financial Officer ("CFO") and the General Counsel to the Company, routinely attend regular sessions of Compensation Committee meetings. The CEO makes recommendations to the Compensation Committee with respect to changes in compensation for senior executive positions (other than the CEO) and payouts under the annual incentive plan. The CEO also makes suggestions to the Compensation Committee regarding the design of incentive plans and other programs in which senior management participates.

Contents

The CFO provides information regarding short-term and long-term compensation targets, as well as updates on the progress of short- and long-term objectives. Additional Company personnel with expertise in and responsibility for compensation and benefits provide information regarding executive and director compensation, including cash compensation, equity awards, pensions, deferred compensation and other related information.

The Audit Committee

The Audit Committee reviews current and projected financial results of operations, selects a firm of independent registered public accountants to audit our financial statements annually, reviews and discusses the scope of such audit, receives and reviews the audit reports and recommendations, transmits its recommendations to the Board, reviews our accounting and internal control procedures with our internal audit department from time to time, makes recommendations to the Board for any changes deemed necessary in such procedures and performs such other functions as delegated by the Board. Our Audit Committee held seven meetings in 2006 and was in compliance with its written charter, as amended on December 2, 2005 and attached to this Proxy Statement as Appendix A.

Upon the recommendation of the Audit Committee, our Board adopted a Code of Ethics for our directors, officers and employees.

The Finance Committee

The Finance Committee reviews and recommends to the Board long-range financial policies, objectives and actions required to achieve those objectives. Specifically, the Finance Committee reviews capital and operating budgets, current and projected financial results of operations, short-term and long-range financing plans, dividend policy, risk management activities and major commercial banking, investment banking, financial consulting and other financial relations of UniSource Energy. Our Finance Committee held four meetings in 2006 and was in compliance with its written charter.

The Environmental, Safety and Security (“ESS”) Committee

The ESS Committee reviews the Company’s structure and operations to assess whether significant operating risks in the areas of environmental, safety and security have been identified and appropriate mitigation plans have been implemented. The ESS Committee also reviews the processes in place which are designed to ensure compliance with all environmental, safety and security related legal and regulatory requirements, as well as reviews with management the impact of proposed or enacted laws or regulations related to environmental, safety and security issues. Our ESS Committee held three meetings in 2006 and was in compliance with its written charter.

Compensation Committee Interlocks and Insider Participation

All members of the Compensation Committee during fiscal year 2006 were independent directors, and no member was an employee or former employee. No Compensation Committee member had any relationship requiring disclosure under “Transactions with Management and Others” on page 36. During fiscal year 2006, none of our executive officers served on the compensation committee (or its equivalent) or board of directors of another entity whose executive officer(s) served on our Compensation Committee.

Copies of Charters, Guidelines and Code of Ethics

TRANSACTIONS WITH MANAGEMENT AND OTHERS

Related Person Transactions Policy

In February 2007, the Board adopted a written policy on the review of related person transactions (which is available on our website at www.UNS.com) that specifies that certain transactions involving directors, nominees, executive officers, significant shareholders and certain other related persons in which the Company is or will be a participant and are of the type required to be reported as a related person transaction under Item 404 of Regulation S-K shall be reviewed by the Audit Committee for the purpose of determining whether such transactions are in the best interest of the Company. The policy also establishes a requirement for directors, nominees and executive officers to report transactions involving a related party that exceeds \$120,000 in value. We are not aware of any transactions entered into since adoption of the policy that did not follow the procedures outlined in the policy.

Melissa O'Brien

For 2007, the Company has engaged Melissa O'Brien, who is the daughter of the CEO, to provide regulatory consulting services to the Company and its subsidiaries primarily related to energy regulatory matters. During 2006, Ms. O'Brien was affiliated with the Wrona Law Firm of Park City, Utah ("Wrona"). In 2006, Wrona billed the Company for services in the amount of approximately \$100,000, all of which was for work performed by Ms. O'Brien. Prior to her employment with the Wrona Law Firm, Ms. O'Brien was employed by the Troutman Sander Law Firm as a regulatory attorney; in this capacity she represented utility companies in rate proceedings. In February 2007, Ms. O'Brien terminated her affiliation with Wrona and entered into a consulting agreement with the Company to continue providing regulatory services. It is anticipated that billings for Ms. O'Brien's work in 2007 will exceed \$100,000.

Haddington Energy Partners II LP

Millennium was authorized by its Board of Directors in 2000 to invest \$15 million, in aggregate, over a three- to five-year period in Haddington Energy Partners II LP ("HEP II"). Mr. Bickle, a member of our Board, is a member and owns 30% of Haddington Ventures LLC, a private equity fund and the general partner of HEP II. Mr. Bickle also is a voting member of the investment committee that makes decisions with respect to Haddington Ventures investments. As of December 31, 2006, Millennium had invested \$15 million under this commitment since its inception in exchange for approximately 31% ownership of the limited partner interest, and has received distributions of \$15 million. Millennium continues to have an additional interest in two investments that have not been monetized. Millennium has no remaining funding commitment to Haddington. Millennium's total investment balance in Haddington at December 31, 2006 was \$5 million. Mr. Bickle has advised the Board that the approximate dollar value of his interest in Millennium's investment is \$313,000, contingent upon monetization of Millennium's remaining interest in HEP II.

AUDIT COMMITTEE REPORT

The Committee

The Audit Committee is made up of seven financially literate directors who are independent based upon independence criteria established by our Board, which criteria are in compliance with applicable NYSE listing standards. Our Board has determined that while each member of the Audit Committee has accounting and/or related financial management expertise, Mr. Handy is the Audit Committee financial expert for the purposes of Item 407(d)(5) of SEC Regulation S-K. In addition to Mr. Handy, there are four other financial experts on the Audit Committee. Each financial expert is independent as that term is used in Item 7(d)(3)(iv) of Schedule 14A under the Securities Exchange Act of 1934, as amended. The Board previously adopted a written charter for the Audit Committee. The Audit Committee Charter is included as Appendix A to this Proxy Statement. The Audit Committee has complied with its charter, including the requirement to meet periodically with our independent auditor, internal audit department and management to discuss the auditor's findings and other financial and accounting matters.

In connection with our December 31, 2006 financial statements, the Audit Committee has: (i) reviewed and discussed the audited financial statements with management, (ii) discussed with PricewaterhouseCoopers, LLP, our independent auditor, the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AIPCA, Professional Standards, Vol. 1 AU Sec. 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T, (iii) received from PricewaterhouseCoopers, LLP the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Standard Board Standard No. 1, Independence Discussions with Audit Committees), as adopted by the Company Accounting Oversight Board in Rule 3600T, and (iv) discussed with PricewaterhouseCoopers, LLP its independence.

Based on the review and discussions referred to in items (i) through (iv) of the above paragraph, the Audit Committee recommended to the Board that the audited financial statements for 2006 be included in the Annual Report on Form 10-K for filing with the SEC.

Pre-Approved Policies and Procedures

Rules adopted by the SEC in order to implement requirements of the Sarbanes-Oxley Act of 2002 require public company audit committees to pre-approve audit and non-audit services. Our Audit Committee has adopted a policy pursuant to which audit, audit-related, tax and other services are pre-approved by category of service. Recognizing that situations may arise where it is in our best interest for the auditor to perform services in addition to the annual audit of our financial statements, the policy sets forth guidelines and procedures with respect to approval of the four categories of service designed to achieve the continued independence of the auditor when it is retained to perform such services for us. The policy requires the Audit Committee to be informed of each service and does not include any delegation of the Audit Committee's responsibilities to management. The Audit Committee may delegate to the Chairman of the Audit Committee the authority to grant pre-approvals of audit and non-audit services requiring Audit Committee approval where the Audit Committee Chairman believes it is desirable to pre-approve such services prior to the next regularly scheduled Audit Committee meeting. The decisions of the Audit Committee Chairman to pre-approve any such services from one regularly scheduled Audit Committee meeting to the next shall be reported to the Audit Committee.

Contents**Fees**

The following table details fees paid to PricewaterhouseCoopers, LLP for professional services during 2005 and 2006. The Audit Committee has considered whether the provision of services to us by PricewaterhouseCoopers, LLP, beyond those rendered in connection with their audit and review of our financial statements, is compatible with maintaining their independence as auditor.

	<u>2005</u>	<u>2006</u>
Audit Fees	\$ 1,939,820	\$ 1,677,681
Audit-Related Fees	\$ 59,875	\$ 45,000
Tax Fees	\$ 40,465	\$ 4,470
All Other Fees	\$ 3,228	\$ 3,243
Total	\$ 1,840,813	\$ 1,601,213

Audit fees include fees for the audit of our consolidated financial statements included in our Annual Report on Form 10-K and review of financial statements included in our Quarterly Reports on Form 10-Q. Audit fees also include services provided by PricewaterhouseCoopers, LLP in connection with the audit of the effectiveness of internal control over financial reporting and on management's assessment of the effectiveness of internal control over financial reporting, comfort letters, consents and other services related to SEC matters and financing transactions, statutory and regulatory audits, and accounting consultations to the extent necessary for PricewaterhouseCoopers, LLP to fulfill their responsibilities under generally accepted auditing standards.

Audit-related fees during 2006 principally include fees for employee benefit plan audits. During 2005, audit-related fees related primarily to fees for employee benefit plan audits and services related to extending the depreciable life of utility plants.

Tax fees include tax compliance, tax advice and tax planning.

All other fees consist of fees for all other services other than those reported above and, in 2005 and 2006, principally include subscription fees for research tools.

All services performed by PricewaterhouseCoopers, LLP are approved in advance by the Audit Committee in accordance with the Audit Committee's pre-approval policy for services provided by the independent auditor.
