PROXY STATEMENT

**FOR ANNUAL MEETING OF SHAREHOLDERS OF
MOOG INC.
TO BE HELD IN THE AUDITORIUM OF THE ALBRIGHT-KNOX ART GALLERY
1285 ELMWOOD AVENUE, BUFFALO, NEW YORK
ON FEBRUARY 5, 2003**

This Proxy Statement is furnished to shareholders of record on December 20, 2002 by the Board of Directors of MOOG Inc. (the Company) in connection with the solicitation of proxies for use at the Annual Meeting of Shareholders on Wednesday, February 5, 2003, at 9:15 a.m., and at any adjournments thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. This Proxy Statement and accompanying proxy will be mailed to shareholders on or about January 3, 2003.

If the enclosed form of proxy is properly executed and returned, the shares represented thereby will be voted in accordance with the instructions thereon. Unless otherwise specified, the proxy will be deemed to confer authority to vote the shares represented by the proxy FOR Proposal 1, the election of directors, FOR Proposal 2, the Moog Inc. 2003 Stock Option Plan, and FOR Proposal 3, the ratification of KPMG LLP as independent auditors for the fiscal year 2003.

Any proxy given pursuant to this solicitation may be revoked by the person giving it insofar as it has not been exercised. Any revocation may be made in person at the meeting, or by submitting a proxy bearing a date subsequent to that on the proxy to be revoked, or by written notification to the Secretary of the Company.

GENERAL

The Board of Directors has fixed the close of business on December 20, 2002 as the record date for determining the holders of common stock entitled to notice of and to vote at the meeting. On December 20, 2002, the Company had outstanding and entitled to vote, a total of 13,057,399 shares of Class A common stock (Class A shares) and 2,112,446 shares of Class B common stock (Class B shares.)

Holders of Class A shares are entitled to elect at least 25% of the Board of Directors, rounded up to the nearest whole number, so long as the number of outstanding Class A shares is at least 10% of the number of outstanding shares of both classes of common stock. Currently, the holders of Class A shares are entitled, as a class, to elect three directors of the Company, and the holders of the Class B shares are entitled, as a class, to elect the remaining seven directors. Other than on matters relating to the election of directors or as required by law, where the holders of Class A shares and Class B shares vote as separate classes, the record holder of each outstanding Class A share is entitled to a one-tenth vote per share and the record holder of each outstanding Class B share is entitled to one vote per share on all matters to be brought before the meeting.

The Class A director and the Class B directors will be elected by a plurality of the votes cast by the respective class. The other matters submitted to the meeting may be adopted by a majority of the votes cast, a quorum of 6,528,701 Class A shares and 1,056,224 Class B shares being present. The record holders of 9% Cumulative Convertible Exchangeable Preferred Shares, Series B, \$1.00 par value (Series B Preferred Stock) are not entitled to vote on the scheduled matters upon which action is to be taken at the meeting.

In accordance with New York law, abstentions and broker non-votes are not counted in determining the votes cast in connection with the approval of the 2003 Stock Option Plan or with the ratification of the selection of KPMG LLP as auditors of the Company for the 2003 fiscal year. However, abstentions and broker non-votes will have the effect of a negative vote on the 2003 Stock Option Plan, which requires a majority of Class A and Class B shares voting as one class. Votes withheld, including broker non-votes, in connection with the election of one or more nominees for director will not be counted and will have no effect.

Moog Family Agreement as to Voting

The Moog Family Agreement as to Voting is an agreement among the following relatives of the late Jane B. Moog: her children, Constance Kent Moog Silliman, Nancy Moog Aubrecht, Douglas B. Moog and Susan M. Mitchell; her adult grandchildren; her son-in-law, Richard A. Aubrecht; her daughter-in-law, Jeanne M. Moog; and Albert K. Hill, former legal counsel to the Company. The agreement relates to 165,098 Class A shares and 365,813 Class B shares, exclusive of currently exercisable options, owned of record or beneficially by the parties to the agreement other than Mr. Hill. Mr. Hill's shares are not covered by the agreement.

Each of the named parties granted an irrevocable proxy covering that person's shares of stock subject to the agreement to certain parties to the agreement who are required to take any action and cause all shares subject to the agreement to be voted as may be determined by the vote of any four of: Richard A. Aubrecht, Constance Kent Moog Silliman, Jeanne M. Moog, Douglas B. Moog, Susan M. Mitchell and Albert K. Hill.

The agreement contains restrictions on the ability of any party to remove all or any shares of stock from the provisions of the agreement and further provides for each of the parties who have the right to vote in certain instances to have successors named by them. In addition, the transfer in any manner of any shares of the Company is subject to the agreement.

The agreement, by its terms, continues in force until December 31, 2015, and is automatically renewed from year to year after that date unless any party to the agreement gives notice to the other parties of his election to terminate the agreement at least 90 days before December 31 of that year. The agreement also terminates upon the occurrence of certain events.

One of the three classes of the Board of Directors of the Company is elected annually to serve three-year terms. Four directors are to be elected at the meeting, of which one is to be a Class A director and three of which are to be Class B directors. The nominees will be elected to hold office until 2006 and the election and qualification of their successors. COMPENSATION OF DIRECTORS

Non-employee directors are paid \$5,000 per quarter and reimbursed for expenses incurred in attending Board and committee meetings. They received aggregate remuneration of \$92,000 for the fiscal year ended September 28, 2002.

The Company's 1998 Stock Option Plan provides that options to purchase Class A shares may be granted to non-employee directors of the Company. During fiscal year 2002, Messrs. Hendrick, Kayser, Gray and Myers each were granted options to purchase 750 Class A shares at an exercise price per share equal to the fair market value of a Class A share on the date of grant. In addition, in association with a change in the Company's Deferred Compensation Plan for Officers and Directors Messrs. Gray, Hendrick, Myers and Kayser were granted options to purchase 2,488, 9,027, 5,076 and 4,303 shares, respectively, at \$34.29. The options were granted for a period of ten years and become exercisable on the first anniversary of the grant.

The Board of Directors recommends a vote For the nominees for Class B director and For the nominee for Class A director.

COMPENSATION COMMITTEE REPORT

The Executive Compensation Committee (the Compensation Committee) determines the compensation of corporate officers and oversees the administration of executive compensation programs. The Compensation Committee is composed solely of independent, non-employee directors of the Company. Messrs. Gray, Hendrick, Myers and Kayser served on the Compensation Committee during the past fiscal year. The Compensation Committee is responsible for all elements of executive compensation including base salary, management profit sharing and other benefit programs for key executives.

The goals of the Company's executive compensation program are to:

1. Pay competitively to attract, retain and motivate superior executives who must operate in a highly competitive and technologically specialized environment, and
2. Relate total compensation for each executive to overall Company performance as well as individual performance, and
3. Align executives' performances and financial interests with shareholder value.

It is the Company's policy to consider the deductibility of executive compensation under applicable income tax rules, as one of many factors used to make specific compensation determinations consistent with the goals of the Company's executive compensation program. Presently, and for the foreseeable future, Section 162(m) of the Internal Revenue Code, relating to the nondeductibility of individual annual executive compensation payments in excess of \$1 million, will not cause any compensation to be paid by the Company to be nondeductible.

Salaries

Base salary ranges are developed after considering the recommendations of professional compensation consultants who conduct annual compensation surveys of similar companies. Base salaries within these ranges are targeted to be above average and competitive in relation to salaries paid for similar positions in comparable

companies. On an annual basis, the Compensation Committee reviews management recommendations for executives' salaries utilizing the results of survey data for comparable executive positions. Individual salary determinations within the established ranges are made based on position accountabilities, experience, sustained individual performance, overall Company performance, and peer comparisons inside and outside the Company, with each factor being weighed reasonably in relation to other factors.

Management Profit Sharing

Under the Management Profit Sharing Plan, which is a part of an overall Employee Profit Sharing Plan approved by the Board of Directors, an individual executive's annual profit share is determined by multiplying the base salary by the product of the Company's percent improvement in earnings per share and a multiple which varies with the executive's accountabilities. The Company uses percent improvement in earnings per share as the performance parameter because it is a principal financial performance measurement used by share investors and the general financial community.

The plan is intended to motivate executives toward the achievement of goals which are directly aligned with shareholder interests. Officers of the Company participate in this plan with all other key executives. There have been fiscal years when management has temporarily suspended the entire profit share plan or paid only a portion of the plan. A management profit share was paid to executives for fiscal year 2002. Such profit share was payable to executive officers on January 2, 2003, the date the Compensation Committee established for payment.

Stock Options

Stock option plans are used to relate the long-term financial interests of executives with those of shareholders.

The Company had an Incentive Stock Option Plan which expired on December 31, 1992. All options granted under this plan have been exercised or expired. All stock options granted under this plan were priced at the fair market value of the underlying stock as of the date of the grant.

The shareholders of the Company, on February 11, 1998, approved a new Stock Option Plan providing for the grant of options which may be Incentive Stock Options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, or non-qualified stock options, or a combination of both, as determined by the Stock Option Committee. The Stock Option Plan, which will terminate on December 31, 2007, covers a total of 900,000 shares of the Company's Class A common stock, \$1.00 par value, reserved for the grant of options to directors, officers, and other key employees. The Stock Option Plan provides that the option price shall be at least equal to the fair market value of the Company's Class A common stock at the time of the grant. The Plan is administered by a committee appointed by the Board of Directors comprised of at least four directors, each of whom is a Disinterested Board Member.

During fiscal year 2002, Messrs. Brady, Green, Maskrey, Banta and Aubrecht received options for 12,000, 9,000, 19,494, 9,000 and 9,000 shares, respectively, and all executive officers and directors as a group received options for a total of 149,888 shares. Of the options granted, options for 96,000 shares have an exercise price of \$19.85, and options for 53,888 shares have an exercise price of \$34.29, and are exercisable not less than one year and ending not more than ten years after the date upon which they were granted. See page 11 for table of Option Grants in Last Fiscal Year.

See page 14 regarding Proposal 2 for the Moog 2003 Stock Option Plan.

Other Compensation Plans

In order that the total aggregated compensation package provided officers meets the Company's goals, officers are provided certain additional benefit plans as discussed on pages 12 through 14. These plans are comparable to those provided to executives in companies surveyed by the Company's professional compensation consultants.

Compensation of the Chief Executive Officer

The Compensation Committee determines the Chief Executive Officer's salary and other compensation elements based on performance. The salary is established within a salary range recommended by an independent compensation consulting firm.

The Company continues to closely manage its business plans in response to changing demands in a more competitive global marketplace. The Company also continues to evaluate strategic acquisitions to strengthen its market position. Management has continued to improve overall financial performance. The fiscal year 2002 results again improved over the prior year.

Mr. Brady has been Chief Executive Officer since 1988, and Chairman since 1996. His dedicated leadership continues to be a vital guiding force for the Company in meeting the challenges of today's diverse global business environment and uncertain economic landscape. His efforts not only have resulted in improved Company performance during fiscal 2002, but positions the Company for continued success in the future.

The Compensation Committee believes that its actions have been an effective implementation of the Company's overall compensation policies.

STOCK PRICE PERFORMANCE GRAPH**1997 2002**

The following graph compares the cumulative total shareholder return on the Company's Class A Common Stock with that of the NYSE Composite Index, a major index of the New York Stock Exchange and the S&P Aerospace/ Defense Index, an industry index published by Standard and Poor's Corporation. The comparison for each of the periods assumes that \$100 was invested on September 30, 1997 in each of the Company's Class A Common Stock, the stocks included in the NYSE Composite Index and the S&P Aerospace/ Defense Index. In addition, 30,000 options to purchase shares of Class A common stock are outstanding at September 28, 2002 under the Company's 1983 Incentive Stock Plan, which terminated effective December 31, 1992.

EMPLOYEES RETIREMENT PLAN

Under the Company's Employees Retirement Plan, benefits are payable monthly upon retirement to participating employees of the Company based upon compensation and years of service and subject to limitations imposed by the Employee Retirement Income Security Act of 1974 (ERISA). The Employees Retirement Plan is administered by a Retirement Plan Committee and covers all employees with one year of service and a minimum of 1,000 hours of employment.

Edgar Filing: MOOG INC - Form DEF 14A

Benefits payable under the Plan are determined on the basis of compensation and credited years of service. It is a career average plan. Effective January 1, 1998, Plan compensation for prior service as of October 1, 1990, is the base annual rate of pay, plus overtime pay and shift differential compensation for calendar year 1989, or the base annual rate of pay as of January 1, 1988, if higher.

Future service compensation is the basic annual rate of pay for the preceding plan year plus overtime and shift differential compensation, limited to \$200,000 (as indexed) through September 30, 1994, and \$150,000 (as indexed) thereafter.

The prior service benefit is 1.15% of the first \$20,000 of prior service compensation, plus 1.75% of the excess, multiplied by prior service, but not less than the accrued benefit as of September 30, 1990, determined under the prior Plan.

The future service benefit for each year of credited service is 1.15% of the first \$20,000 of future service compensation for such year, plus 1.75% of the excess. Any participant with five years or more of service receives a minimum pension of \$2,400 per year, reduced pro rata for credited service of less than 15 years.

SUPPLEMENTAL RETIREMENT PLAN

The Company also has a Supplemental Retirement Plan applicable to eligible officers of the Company with at least 10 years of continuous service upon retirement at age 65 or older.

The Supplemental Retirement Plan provides benefits for an eligible officer at age 65 with 25 years of service equal to 65% of the average of the highest consecutive three year base salary plus the highest annual profit share within three years of such officer prior to retirement, less any benefits payable under the Employees Retirement Plan, and also less one-half the primary Social Security benefit of such officer at age 65. An officer 60 or more years of age, whose combined chronological age and years of service equal or exceed 90, may elect early retirement and receive reduced benefits. A reduced benefit is available for officers 65 years of age with between 10 and 25 years of service.

A participant's benefits are vested in the event of an involuntary termination of employment other than for cause, as defined in the Supplemental Retirement Plan. For purposes of the Supplemental Retirement Plan, a change in duties, responsibilities, status, pay or perquisites which follows a change of control of the Company, as defined therein, is deemed an involuntary termination.

The projected annual benefits, based on the last three years compensation, payable at normal age 65 retirement for each of the Named Executives under the Employees Retirement Plan and the Supplemental Retirement Plan including one-half of the estimated primary Social Security benefit are:

Name	Projected Annual Benefit Payable At Normal Retirement Age
Robert T. Brady	\$392,181
Robert H. Maskrey	263,809
Joe C. Green	249,317
Robert R. Banta	233,540
Richard A. Aubrecht	208,316

EMPLOYMENT TERMINATION BENEFITS AGREEMENTS

Certain executive officers of the Company, including those named in the Summary Compensation Table, have entered into Employment Termination Benefits Agreements (the Termination Agreements) with the Company.

The Termination Agreements provide that upon death, disability or retirement, the executive will receive those benefits provided to him by the Company under all its benefit plans. Where employment is terminated

for cause, as defined in the Termination Agreements, the executive is entitled to the cash equivalent of any unutilized vacation, but is not entitled to participate in any profit share award or incentive compensation payable after the date of termination. In such circumstances, the right to exercise any stock options is also terminated. Upon a voluntary termination, the executive receives employment benefits up to the date of termination, as well as the cash value of any unutilized vacation benefits and stock options may be exercised. In the event of a voluntary termination, the executive is not entitled to receive any profit share award or incentive compensation payable after termination.

Upon an involuntary termination other than for cause, the executive is immediately vested under the Supplemental Retirement Plan and is entitled to receive for one year, certain perquisites and insurance benefits. The executive also receives amounts otherwise payable under the Management Profit Sharing Plan. Stock options may be exercised, or if not then exercisable, the executive is entitled to cash in an amount equal to the difference between the then current market value of the Company Common Stock underlying the option and the option's exercise price. The executive is entitled to the cash value of unutilized vacation benefits, as well as to the continuation of base compensation plus profit share and any bonus for between 12 and 36 months, based on years of service. Where involuntary termination occurs by reason of a change of control of the Company, as defined in the Termination Agreements, the executive receives the benefits otherwise provided for an involuntary termination, with accelerated vesting of compensation continuation.

During the term of the Termination Agreements, and in the event of involuntary termination upon a change of control, until the last payment to the executive is made under the Termination Agreements, the executive may not compete with the Company.

DIRECTORS AND OFFICERS INDEMNIFICATION INSURANCE

On October 25, 2002, the Company renewed an officers and directors indemnification insurance policy written by The Chubb Group. The renewal was for a one-year period at an annual premium of \$159,000. The policy provides indemnification benefits and the payment of expenses in actions instituted against any director or officer of the Company for claimed liability arising out of their conduct in such capacities. No payments or claims of indemnification or expenses have been made under any such insurance policies purchased by the Company at any time.

PROPOSAL 2 APPROVAL OF MOOG INC. 2003 STOCK OPTION PLAN

The Board of Directors has approved the adoption of a new stock option plan, the Moog Inc. 2003 Stock Option Plan (the 2003 Plan or the Plan) for 600,000 Class A shares, subject to approval by the shareholders at this Annual Meeting. The affirmative vote of a majority of the votes cast with respect to this proposal by the holders of Class A shares and Class B shares entitled to vote is required for the adoption of this proposal.

The Board of Directors believes that it is in the Company's best interest to adopt the 2003 Plan, since shares available under the predecessor 1998 Stock Option Plan are nearly exhausted. Shareholders are being requested at the Annual Meeting to consider and approve the adoption of the 2003 Plan by the Company. For the full text of the 2003 Plan, see Exhibit A to this Proxy Statement.

Type of Awards

The Plan would provide for grants of incentive stock options intended to meet the requirements of Section 422 of the Internal Revenue Code of 1986, as amended (the Code), and non-qualified stock options. Under the Plan, incentive stock options and non-qualified stock options would be available for grant to officers and key personnel of the Company. Non-qualified stock options would also be available for grant to non-employee directors under the Plan.

Purpose

The purpose of the 2003 Plan is to further the Company's growth and development by providing to non-employee directors and officers and other key employees who are in a position to contribute materially to the prosperity of the Company, through ownership of stock of the Company, an incentive to increase their interest in the Company's welfare and continue their services and to afford a means through which the Company can attract to its service other employees of outstanding ability.

Administration

The 2003 Plan will generally be administered by the Stock Option Committee (the Committee) or such other committee designated and authorized by the Board of Directors (the Board) to administer the Plan. The Committee shall consist of not less than two members of the Board, each of whom is a Disinterested Board Member (as defined in the Plan). The Committee will have the sole authority and discretion to select employees to participate in the Plan, to grant options, to specify the terms and conditions of such options (within the limitations of the Plan), to do all things necessary and proper for the administration of the Plan, and otherwise to interpret and construe the terms and provisions of the Plan and any agreements governing options granted thereunder. The Board must approve any grant of non-qualified stock options to a non-employee director and such non-employee director must abstain from voting on such grant. The Committee, as it may deem advisable, may issue rules and regulations for the administration of the Plan. When so directed by the Committee, appropriate officers of the Company shall execute and deliver on behalf of the Company such options, agreements and other instruments as the Committee may determine necessary to the implementation of the Plan. The Committee may adopt and/or construe an appropriate form for any such options or agreements and instruments, which forms shall contain such provisions or conditions as the Committee deems necessary or advisable in carrying out the purposes of the Plan, provided, however, that no such provision or condition shall be inconsistent with the Plan. The Committee may correct any defect or supply any omission or reconcile any inconsistency in the 2003 Plan or in any option or agreement in the manner and to the extent it shall deem expedient to carry it into effect. The Committee's determinations shall be conclusive.

Participation and Limitations

Options may be granted under the 2003 Plan only to non-employee directors, full-time salaried officers and key employees of the Company and its subsidiaries. Incentive stock options may not be granted under the Plan to any person who, at the time of the grant, is the beneficial owner of more than 10% of the combined voting power of all classes of voting securities then outstanding of the Company (a 10% Beneficial Owner) unless such incentive stock options are granted at a price equal to at least 110% of the fair market value of the Class A shares at the date of grant. In addition, incentive stock options held by 10% Beneficial Owners may not be exercisable for more than five years from the date of grant. The aggregate fair market value of Class A shares (determined at the time the option is granted) with respect to which incentive stock options are exercisable for the first time by an option holder during any calendar year shall not exceed \$100,000. In addition, the maximum number of Class A shares with respect to which any optionee may be granted options during any calendar year shall not exceed 30,000 Class A shares.

Shares Available for Grant

The 2003 Plan authorizes the Committee to grant awards up to November 26, 2012. Subject to equitable adjustment, 600,000 Class A shares have been reserved by the Board of Directors for issuance upon exercise of options granted under the 2003 Plan.

The shares sold under the 2003 Plan may either be authorized and unissued shares or issued shares reacquired by the Company. Unless and until the Board of Directors determines to purchase shares in the market for the purpose of the Plan or to use treasury shares, the shares sold under the Plan shall be authorized and unissued shares reserved for such purpose. In the event that any options granted under the Plan terminate

or expire for any reason without having been exercised in full, the shares not purchased under those options shall be available again for purposes of the Plan.

Terms and Conditions of Options

Nothing contained in the 2003 Plan or in any resolution adopted or to be adopted by the Board of Directors or the shareholders of the Company shall constitute the granting of an option thereunder. The granting of an option pursuant to the Plan and the acquisition of any rights as an option holder shall take place only when the Committee (or the Board in the case of an option granted to a non-employee director) authorizes the issuance of an option, and a formal written and executed option agreement is delivered to the holder of the option.

An option shall be deemed to have been granted on the date fixed in the resolution of the Committee (or the Board in the case of an option granted to a non-employee director) authorizing the granting of such option, provided such date shall not be prior to the date of the adoption of such resolution. If no date is fixed by such resolution, the option shall be deemed to have been granted on the date of adoption of the resolution, provided that the agreement relating to the option is executed and delivered within thirty days therefrom, otherwise the option shall be deemed to have been granted on the date of delivery of such agreement to the optionee.

Purchase Price and Payment

The purchase price of each Class A share under each option granted to an officer or key employee will be determined by the Committee but may not be less than the fair market value of a Class A share (110% in the case of an incentive stock option granted to a 10% Beneficial Owner) on the date the option is granted, as determined in good faith by the Committee. The purchase price of each Class A share under each option granted to a non-employee director will be determined by the Board but may not be less than the fair market value of a Class A share on the date the option is granted, as determined in good faith by the Board, and the non-employee director shall abstain from voting on such determination. Such payment may be rendered in or by duly endorsed certificates representing the option holder's ownership of other shares of the Company's Common Stock.

Exercise of an Option

As specified by the 2003 Plan, no option granted under the Plan may be exercised after ten years from the date of its grant. Each option granted shall be exercisable only during such period as the Committee (or the Board in the case of an option granted to a non-employee director) may determine, provided the period ends not more than ten years after the date upon which the option is granted, except as discussed below with respect to a change in control, termination of employment or termination of directorship of non-employee directors. Within such limits each option shall provide, as determined by the Committee (or the Board in the case of an option granted to a non-employee director), the time or times at which and the number of Class A shares for which it may be exercised. Unless otherwise provided in the Committee's (or the Board's) action, each option shall be exercisable in whole or in part (in blocks of 25 shares or any multiple thereof) at any time during the term of the option.

Options granted under the Plan may be exercised by the delivery of written notice signed by the option holder to the Company at its principal executive offices stating the option holder's election to exercise the option and specifying the number of Class A shares with respect to which the option holder is exercising the option. Such notice must be accompanied by payment in full of the exercise price for the shares, in cash or shares of Company Common Stock.

An option holder will have no rights with respect to the shares underlying an option granted under the Plan until such option is exercised in the manner provided by the related option agreement and such shares are actually issued to him.

Holding Period

As a condition to the grant of an option, except for options exercised on account of death, disability, termination of employment, termination of service as a director, or a change in control, the option holder will be required to hold the shares of stock received on exercise for a minimum of three years before disposing of the shares. If following the exercise of an option, the shareholder dies, or becomes disabled, terminates employment, or terminates service as a director, or if there is a change in control, the holding period will terminate and the shareholder (or shareholder's estate) may sell or dispose of the shares. If the option holder pays the purchase price with shares of Company stock, the holding period will not be imposed on the shares acquired on exercise.

Termination of Employment

All outstanding, unexpired options granted under the 2003 Plan that are held by persons whose employment with the Company terminates due to death or disability while employed by the Company, or by persons who terminate their employment with the Company for any other reason, shall become exercisable and may be exercised by such persons (or the legal representative of an option holder's estate) until the earlier of one year from the date of termination of employment or the stated expiration date of the options. Options held by persons whose employment is terminated for cause, as determined in the sole discretion of the Committee, shall expire immediately.

Termination of Directorship of Non-Employee Director

An option granted to a non-employee director whose term as a director terminates for any reason while a director of the Company shall become exercisable and may be exercised by such director (or by the legal representative of the director's estate) until the earlier of one year from the date of such termination or the stated expiration date of the options.

Change in Control

In the event of a Change in Control (as defined in the 2003 Plan) of the Company, all outstanding, unexpired options shall become exercisable as of the date of the Change in Control.

Non-Transferability of Options

An option granted under the 2003 Plan will generally be non-transferable by the optionee (except by will or the laws of descent and distribution), and is exercisable only by the optionee during his lifetime. The Committee (or the Board in the case of options granted to non-employee directors), however, may, in its sole discretion, authorize all or a portion of the non-qualified options granted to an optionee to be granted on terms which permit the transfer by the optionee to certain family members (or trusts or partnerships for the benefit of or owned only by certain family members) provided there is no consideration for the transfer. Subsequent transfers of transferred options are prohibited, except transfers by will or the laws of descent and distribution. Transferred options remain subject to the same terms and conditions as were applicable immediately before transfer, including the three-year holding period originally imposed on the optionee who transferred the options.

Amendment or Termination

The 2003 Plan will authorize the Board to adopt amendments without the approval of shareholders whenever the Board deems an amendment advisable. However, the Board may not, without stockholder approval, adopt any amendment which, if not approved by shareholders, would cause the Plan or grants made thereunder not to be exempt under Section 16 of the Securities and Exchange Act of 1934 pursuant to Rule 16b-3. No termination or amendment of the 2003 Plan may, without the consent of the option holder, adversely affect outstanding options.

The 2003 Plan will terminate on November 26, 2012; however, options granted under the Plan that are outstanding upon the expiration of the Plan will not be terminated or otherwise affected by such expiration.

Federal Tax Aspects

Incentive Stock Options

Generally, a person who is granted an incentive stock option is not required to recognize taxable income at the time of the grant or at the time of exercise and the Company is not entitled to a deduction at the time of grant or at the time of exercise of an incentive stock option. Under certain circumstances, however, an option holder may be subject to the alternative minimum tax with respect to the exercise of his incentive stock options. Generally, the gain realized but not recognized upon the exercise of an incentive stock option (equal to the difference between the fair market value of the shares received upon exercise of the incentive stock option and the purchase price paid for such shares) is included in the option holder's alternative minimum taxable income and, depending upon the option holder's overall tax situation, he may be required to pay alternative minimum tax on such gain.

If an option holder does not dispose of the shares acquired pursuant to the exercise of an incentive stock option before the later of two years from the date of grant of the option and one year from the transfer of the shares to him, any gain or loss realized on a subsequent disposition of the shares will be treated as capital gain or loss. Under such circumstances, the Company will not be entitled to any deduction for federal income tax purposes. An option holder must also own the shares of stock acquired upon exercise of an incentive stock option for more than twelve months for the gain or loss realized on the sale to qualify as long-term capital gain or loss.

If an option holder disposes of the shares received upon the exercise of an incentive stock option either (1) within one year of the transfer of the shares to him or (2) within two years after the incentive stock option was granted, the option holder will generally recognize ordinary compensation income equal to the lesser of (a) the excess of the fair market value of the shares on the date the incentive stock option was exercised over the purchase price paid for the shares upon exercise and (b) the amount of gain realized on the sale. Any gain realized in excess of the compensation income recognized, and any loss realized, will be long-term or short-term capital gain or loss, depending upon the length of the period the option holder held the shares. If an option holder is required to recognize ordinary compensation income as a result of the disposition of shares acquired on the exercise of an incentive stock option, the Company, subject to general rules relating to the reasonableness of the option holder's compensation and the limitation under Section 162(m) of the Code, will be entitled to a deduction for an equivalent amount.

If an option holder exercises an incentive stock option by transferring shares of Company Common Stock to the Company to pay all or part of the purchase price, the option holder will not recognize gain or loss with respect to the already owned shares exchanged. The number of shares of stock received upon exercise of the incentive stock option equal to the number of shares exchanged will have a basis and holding period equal to the basis and holding period the option holder had in the shares exchanged. The remaining shares received will have a basis equal to the cash paid, if any, on the exercise.

Non-Qualified Stock Options

A person who is granted a non-qualified stock option does not have taxable income at the time of grant, but does have taxable income at the time of exercise equal to the difference between the purchase price of the shares and the fair market value of the shares on the date of exercise. Subject to general rules relating to the reasonableness of the option holder's compensation and the limitation under Section 162(m) of the Code, the Company is entitled to a corresponding deduction for the same amount.

If an option holder exercises a non-qualified stock option by transferring shares of Company Common Stock to the Company to pay all or part of the purchase price, the option holder will not recognize gain or loss with respect to the already owned shares exchanged. The number of shares of stock received upon exercise of the non-qualified stock option equal to the number of shares exchanged will have a basis and holding period

equal to the basis and holding period the option holder had in the shares exchanged. The fair market value of the additional shares received will be includible in the option holder's income upon exercise and the option holder's basis in such shares will equal such value.

Section 162 (m)

Section 162(m) of the Code generally limits to \$1 million the amount of compensation paid to certain covered employees of a publicly held corporation (generally, the corporation's chief executive officer and four most highly compensated executive officers other than the chief executive officer) that can be deducted by the corporation for the year. Certain performance-based compensation, the material terms of which are disclosed to the corporation's stockholders and approved by a majority vote of the stockholders, is exempt from the \$1 million limitation. Based on regulations promulgated under Section 162(m), grants of stock options to covered employees under the Plan would appear to qualify for the exemption from the \$1 million limitation as performance-based compensation.

New Plan Benefits

To date, no option grants have been made under the 2003 Plan. It is not determinable at this time what benefits, if any, each of the persons or groups eligible to receive grants under the 2003 Plan will receive under the Plan because awards to key employees under the 2003 Plan are at the discretion of the Committee.

The exercise or base price of each stock option will be determined by the Committee, but will not be less than the fair market value of each share of stock issued under the 2003 Plan. The closing price of the Class A shares as reported on the New York Stock Exchange on December 20, 2002 was \$30.54 per share; and the aggregate market value of the Class A shares available for issuance under the 2003 Plan was \$18,324,000.

The Board of Directors recommends a vote FOR the adoption of the 2003 Stock Option Plan.

PROPOSAL 3 SELECTION OF INDEPENDENT AUDITORS

MOOG INC.

2003 STOCK OPTION PLAN

I. PURPOSE

1.1 *General.* Moog Inc., a New York corporation (the *Company*), establishes this 2003 Stock Option Plan (the *Plan*) to further the *Company's* growth and development by providing to non-employee directors and officers and other key employees who are in a position to contribute materially to the prosperity of the *Company*, through ownership of stock of the *Company*, an incentive to increase their interest in the *Company's* welfare and continue their services and to afford a means through which the *Company* can attract to its service other employees of outstanding ability.

1.2 *Form of Options.* Options granted under the *Plan* may be incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (the *Code*), or non-qualified stock options (*i.e.*, stock options which are not incentive stock options), or a combination of both, as determined by the Committee (as defined below) at the time of grant.

II. ADMINISTRATION

2.1 *Stock Option Committee.* The *Plan* shall generally be administered by the Stock Option Committee (*Committee*) of the Board of Directors of the *Company* (*Board*). The *Committee* shall consist of not less than two members of the *Board*, each of whom is a Disinterested Board Member. For purposes of the *Plan*, the term Disinterested Board Member means a member of the *Board* who (a) is not a current employee of the *Company* or any subsidiary of the *Company* (*Subsidiary*), (b) is not a former employee of the *Company* or a *Subsidiary* who receives compensation for prior services (other than benefits under a tax-qualified retirement plan) during the taxable year, (c) has not been an officer of the *Company* or a *Subsidiary*, (d) does not receive remuneration from the *Company* or a *Subsidiary*, either directly or indirectly, in any capacity other than as a director, and (e) does not possess an interest in any other transaction, and is not engaged in a business relationship, for which disclosure would be required pursuant to Item 404(a) or (b) of Regulation S-K under the Securities Act of 1933, as amended. The term Disinterested Board Member shall be interpreted in such manner as shall be necessary to conform to the requirements of Section 162(m) of the *Code* and Rule 16b-3 promulgated under the Securities Exchange Act of 1934 (*Exchange Act*). Except as otherwise provided herein, the *Committee*, to be appointed by the *Board*, shall have full and complete power and authority to do all things necessary and proper for the administration of the *Plan*, including the power to interpret and construe its terms and provisions and to determine the individuals selected to receive options, the times when they shall receive them, the number and class of shares to be subject to each option, whether any option is an incentive stock option or a non-qualified stock option, and the option price. Notwithstanding any other provision of the *Plan*, non-employee directors may only be granted non-qualified stock options under the *Plan*, the *Board* must approve any grant of non-qualified stock options to a non-employee director and such non-employee director must abstain from voting on such grant.

2.2 *Rules and Regulations.* The *Committee*, as it may deem advisable, may issue rules and regulations for the administration of the *Plan*. When so directed by the *Committee*, appropriate officers of the *Company* shall execute and deliver on behalf of the *Company* such options, agreements and other instruments as the *Committee* may determine necessary to the implementation of the *Plan*. The *Committee* may adopt and/or construe an appropriate form for any such options or agreements and instruments, which forms shall contain such provisions or conditions as the *Committee* deems necessary or advisable in carrying out the purposes of the *Plan*, provided, however, that no such provision or condition shall be inconsistent with the *Plan*.

2.3 *Defects or Omissions.* The *Committee* may correct any defect or supply any omission or reconcile any inconsistency in the *Plan* or in any option or agreement in the manner and to the extent it shall deem expedient to carry it into effect, and shall be the sole and final judge of such expediency. The *Committee's* determination shall be conclusive.

III. STOCK SUBJECT TO THE PLAN

3.1 *Number of Shares.* Shares of the Company's Class A Common Stock, \$1.00 par value (Class A Common Stock) shall be subject to the Plan. The total number of shares of Class A Common Stock which may be sold pursuant to options granted under the Plan shall not exceed 600,000 shares, as adjusted as provided in Section 3.2. The shares sold under the Plan may either be authorized and unissued shares or issued shares reacquired by the Company. Unless and until the Board determines to purchase shares in the market for the purpose of the Plan or to use treasury shares, the shares sold under the Plan shall be authorized and unissued shares reserved for such purpose. In the event that any options granted under the Plan terminate or expire for any reason without having been exercised in full, the shares not purchased under those options shall be available again for the purpose of the Plan.

3.2 *Adjustments.* Notwithstanding any provision of the Plan, in the event of any change in any shares of the outstanding Class A Common Stock or Class B Common Stock of the Company by reason of a stock dividend, recapitalization, merger, consolidation, split-up, combination or exchange of shares, or action of like nature, the aggregate number and class of shares as to which options may be granted to any individual and the number and class of shares subject to each outstanding option and the option prices shall be appropriately adjusted by the Committee, whose determination shall be conclusive.

IV. PARTICIPATION AND LIMITATIONS

4.1 *Participants.* Options may be granted only to non-employee directors, full-time salaried officers and key employees of the Company or any Subsidiary.

4.2 *Annual Limitations.* To the extent that the aggregate fair market value (determined as of the time the option is granted) of the shares of Class A Common Stock of the Company with respect to which options are exercisable for the first time by any individual during any calendar year under the Plan (and incentive stock options under all plans of the Company or of any parent corporation or subsidiary corporation, as defined in Sections 424(e) and (f) of the Code) exceeds \$100,000, such options shall be treated as non-qualified stock options. The maximum number of shares of Class A Common Stock with respect to which any optionee may be granted options during any calendar year shall not exceed 30,000 shares.

4.3 *Voting Power Limitation Applicable to Incentive Stock Options.* If an incentive stock option is to be granted to an individual who at the time the option is granted owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company (as determined under Section 424(d) of the Code), the option price set out in the applicable portion of Section 5.1 hereof shall read "but shall not be less than 110% of its Fair Market Value" and the period of exercise set out in the applicable portion of Section 6.1 hereof shall read "and ending not more than five years after the date on which option is granted."

V. PURCHASE PRICE AND PAYMENT

5.1 *Determination.* The purchase price of a share of Class A Common Stock under each option granted to an officer or key employee shall be determined by the Committee, but shall not be less than 100% of its Fair Market Value at the time of granting of the option, as determined in good faith by the Committee. The purchase price of a share of Class A Common Stock under each option granted to a non-employee director shall be determined by the Board, but shall not be less than 100% of its Fair Market Value at the time of granting of the option, as determined in good faith by the Board, and the non-employee director shall abstain from voting on such determination.

5.2 *Payment.* Upon exercise of the option the purchase price of the shares being purchased shall be paid in full with cash or with stock of the Company.

5.3 *Use of Proceeds.* The proceeds from the issuance of Class A Common Stock upon the exercise of an option are to be added to the funds of the Company available for its general corporate purposes.

VI. EXERCISE OF OPTION AND HOLDING PERIOD

6.1 *Period of Exercise* Each option granted under the Plan shall be exercisable only during such period as the Committee (or the Board in the case of an option granted to a non-employee director) may determine, provided the period ends not more than ten years after the date upon which the option is granted, except as such period may be modified under the provisions of Articles VII or IX. Within such limits each option shall provide, as determined by the Committee (or the Board in the case of an option granted to a non-employee director), the time or times at which and the number of shares of Class A Common Stock for which it may be exercised. Unless otherwise provided in the Committee's or the Board's action, each option shall be exercisable in whole or in part (in blocks of 25 shares or any multiple thereof) at any time during the term of the option. The holder of an option shall have no rights as a shareholder with respect to shares subject to the option until such shares have been issued to him upon exercise of the option.

6.2 *Holding Period.* As a condition to the grant of an option under the Plan, and subject to Section 6.3, except for options exercised on account of death, Disability (as defined in Section 6.3), termination of employment, termination of service as a director, or a Change in Control (as defined in Section 7.2), all shares of stock received on exercise of an option must be held by the individual exercising the option for not less than three years from the date of exercise. If an option holder pays the purchase price on exercise with shares of company stock, the holding period will not be imposed, and the individual will be permitted to sell or otherwise dispose of the shares acquired on exercise.

6.3 *Termination of Holding Period.* Upon the occurrence of any of the following events or circumstances, the holding period imposed under Section 6.2 will terminate and the individual (or the legal representative of the individual's estate) holding the shares acquired upon the exercise of an option under this Plan will be permitted to sell or otherwise dispose of the shares of stock:

- (a) death of the shareholder;
- (b) disability within the meaning of Section 22(e)(3) of the Code (Disability) of a shareholder;
- (c) a Change in Control (as defined in Section 7.2); or
- (d) the shareholder's termination of employment with the Company or termination of service as a director of the Company.

VII. CHANGE IN CONTROL

7.1 *Acceleration of Exercisability.* In the event of a Change in Control of the Company, all outstanding, unexpired options shall become exercisable as of the date of the Change in Control.

7.2 *Definition.* A Change in Control shall be deemed to have occurred if:

- (a) any person, as such term is used in Section 13(d) and 14(d) of the Exchange Act (other than (i) the Company or (ii) any corporation owned, directly or indirectly, by the Company or the stockholders of the Company in substantially the same proportions as their ownership of stock of the Company), is or becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing 25% or more of the combined voting power of the Company's then-outstanding securities;
- (b) during any period of two consecutive years, there is elected 25% or more of the members of the Board of the Company without the approval or the nomination of such members by a majority of that portion of the Board consisting of members who were serving at the beginning of the two-year period;
- (c) the stockholders of the Company approve a merger or consolidation of the Company with any other corporation, other than (i) a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent more than 80% of the combined voting power of the voting securities of the Company, or such surviving entity, outstanding immediately after

such consolidation; or (ii) a merger or consolidation effected to implement a recapitalization of the Company (or similar transaction) in which no person (as defined above) acquires more than 25% of the then-outstanding securities; or

(d) the stockholders of the Company approve an agreement for the sale or disposition by the Company of all or substantially all of the Company's assets.

VIII. LIMITATIONS ON TRANSFERABILITY OF OPTIONS

8.1 *General.* Except as otherwise provided herein and in the option agreement, no option granted under the Plan shall be transferable otherwise than by will or the laws of descent and distribution, and an option may be exercised, during his lifetime, only by the optionee.

8.2 *Discretion to Permit Certain Transfers.* Notwithstanding Section 8.1 of the Plan, the Committee (or the Board in the case of an option granted to a non-employee director) may, in its sole discretion, for non-qualified stock options only, authorize all or a portion of the options granted to an optionee to be on terms which permit the transfer by such optionee to (a) the spouse, children, grandchildren, brothers or sisters of the optionee (Immediate Family Members), (b) a trust or trusts for the benefit of one or more of such Immediate Family Members, or (c) a partnership in which any of such Immediate Family Members are the only partners; provided, however, that (i) there may be no consideration for such transfer and the option agreement pursuant to which such options are granted must be approved by the Committee (or the Board in the case of an option granted to a non-employee director) and (ii) subsequent transfers of transferred options shall be prohibited except transfers by will or the laws of descent and distribution. Following transfer, any transferred options shall continue to be subject to the same terms and conditions as were applicable immediately prior to transfer, and the effects of termination of employment or termination of directorship of non-employee directors, described in Article IX, shall continue to apply to such options with respect to the original optionee or holder of the option and following any such termination, transferred options shall be exercisable by the transferee only to the extent and for the periods specified in Article IX. Optionees transferring options in accordance with this Section 8.2 remain subject to the withholding tax requirements of Section 13.3 with respect to the transferred options. Transferees will be subject to the same three year holding period described in Section 6.2 as originally applied to the optionee who transferred the options.

IX. ACCELERATION OF VESTING

9.1 *Acceleration of Vesting.* Upon the occurrence of any of the following events or circumstances (Acceleration Event), all options granted pursuant to this Plan will thereupon vest and become immediately exercisable:

- (a) death of an officer or key employee while in the employ of the Company;
- (b) death of a non-employee director while serving as a director of the Company;
- (c) Disability (as defined in Section 6.3) of an officer, a key employee, or a non-employee director;
- (d) except as hereinafter otherwise provided, retirement or termination of employment with the Company by an officer or key employee for any reason;
- (e) termination of a non-employee director's service as a director of the Company for any reason; and
- (f) Change in Control within the meaning of Section 7.2.

9.2 *Exercise Following Acceleration Event.* Upon the occurrence of an Acceleration Event, outstanding options may be exercised by the holder or by the legal representative of the option holder's estate for a period of one year from the occurrence of the Acceleration Event, but in no event after the expiration date of the option.

9.3 *Termination for Cause.* Notwithstanding the foregoing, if the employment with the Company of an officer or key employee holding options is terminated for cause, as to which the Committee will be the sole and exclusive judge, the options shall expire immediately.

X. AMENDMENT AND TERMINATION OF PLAN

10.1 *Term.* Unless the Plan has been terminated as hereinafter provided, the Plan shall terminate on November 26, 2012 and no option shall be granted under it thereafter. The Board may, at any time prior to that date, terminate the Plan.

10.2 *Amendment.* The Board may also amend the Plan by making such changes and additions to it as the Board deems advisable; provided, however, that the Board may not, without further approval by the shareholders of the Company, adopt any amendment which, if not approved by shareholders, would cause the Plan or grants made hereunder not to be exempt from Section 16(b) of the Exchange Act pursuant to Rule 16b-3 promulgated thereunder, or any successor rule. No termination or amendment of the Plan may, without the consent of the holder of an option then existing, terminate his option or materially and adversely affect his rights under the option.

XI. EFFECTIVE DATE

11.1 *Shareholder Approval.* The Plan shall become effective when it has been approved by the vote of the holders of a majority of the shares of Class A Common Stock and Class B Common Stock of the Company outstanding and entitled to vote at a meeting of shareholders.

XII. TIME OF GRANTING OF OPTIONS

12.1 *Formal Granting.* Nothing contained in the Plan or in any resolution adopted or to be adopted by the Board or the shareholders of the Company shall constitute the granting of an option hereunder. The granting of an option pursuant to the Plan and the acquisition of any rights as an option holder shall take place only when the Committee (or the Board in the case of an option granted to a non-employee director) authorizes the issuance of an option, and a formal, written and executed option agreement is delivered to the holder of the option.

12.2 *Ten Year Limit.* Options may be granted under the Plan within ten years from the date the Plan is adopted by the Board or the date the Plan is approved by the shareholders of the Company, whichever is earlier.

XIII. MISCELLANEOUS PROVISIONS

13.1 *Option Date.* An option shall be deemed to have been granted on the date fixed in the resolution of the Committee (or the Board in the case of an option granted to a non-employee director) authorizing the granting of such option, provided such date is not prior to the date of the adoption of such resolution. If no date is fixed by such resolution, the option shall be deemed to have been granted on the date of adoption of the resolution, provided that the agreement relating to the option is executed and delivered within thirty days therefrom, otherwise the option shall be deemed to have been granted on the date of delivery of such agreement to the optionee.

13.2 *Indemnification of Board and Committee.* Without limiting any other rights of indemnification, the members of the Board and the Committee shall be indemnified by the Company against the reasonable expenses (including attorneys' fees, judgments, fines, and amounts paid in settlement) actually incurred as a result of any action, suit or proceeding, or any appeal therein (such claim), to which they or any of them may be a party by reason of any action taken or failure to act under or in connection with the Plan, and against all amounts paid by them in settlement of such claim, to the full extent permissible under Sections 721 through 726 of the Business Corporation Law of the State of New York; provided that within sixty days after

institution of any such claim, the Board or Committee member involved offers the Company in writing the opportunity, at its own expense, to handle and defend the same.

13.3 *Taxes.* The Company shall be entitled to deduct from any payment under the Plan, regardless of the form of such payment, the amount of all applicable income and employment taxes required by law to be withheld with respect to such payment or may require the optionee to pay to it the amount of such taxes prior to and as a condition of making such payment. The Committee (or the Board in the case of an option granted a non-employee director) may allow an optionee to pay the amount of such taxes by withholding from the shares of Common Stock to be delivered upon exercise of an option, a number of shares of Common Stock with a Fair Market Value, as determined in good faith by the Committee (or the Board in the case of an option granted to a non-employee director), equal to the amount of such taxes, or by permitting the optionee to deliver to the Company shares of Common Stock having a Fair Market Value, as determined in good faith by the Committee (or the Board in the case of an option granted to a non-employee director), equal to the amount of such taxes.
