Press Release

CVRD signs agreement to develop a new alumina refinery

Rio de Janeiro, July 23, 2007 Companhia Vale do Rio Doce (CVRD) announces that it has signed a memorandum of understanding to develop a new alumina refinery in northern Brazil with Hydro, a leading Norwegian producer of aluminum.

The new refinery will be located in Barcarena, in the Brazilian state of Pará, Brazil. The plant is to be developed in four stages, each one with 1.85 million metric tons per year (Mtpy) of alumina production and with a final total output of 7.4 Mtpy.

Construction is expected to begin mid 2008, following Board approval. Hydro will hold a 20% stake in the project and will have the right to participate in further expansions.

CVRD will supply the bauxite for the new refinery from its wholly owned Paragominas mine. Currently Paragominas supplies part of Alunorte bauxite needs through a 244 Km pipeline linking the mine to the refinery. CVRD (57%) and Hydro (34%) are shareholders of Alunorte, the world's largest alumina refinery.

This initiative is consistent with CVRD's strategic focus on bauxite and alumina. The strategic focus on the upstream of the aluminum production chain is strongly supported by CVRD's competitive advantages derived from the development of large reserves of high quality bauxite, world class alumina operations and a highly efficient logistics network.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian and Canadian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore and nickel business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
