CVRD negotiates with Dongkuk the construction of a steel plant in the State of Ceará

Rio de Janeiro, November 14, 2007 Companhia Vale do Rio Doce (CVRD) is currently negotiating with Dongkuk Steel, one of the largest steel producers in South Korea, the construction of an integrated steel slab plant in the Industrial District of Pecém, in the Brazilian State of Ceará. The memorandum of understanding (MOU) is expected to be signed in November 20, 2007.

The viability study of this project is expected to be completed in coming months. The project encompasses the construction of an integrated coal-based steel slab plant with an initial production capacity of 2.5 million tons per year, with the possibility to be expanded to 5 million tons per year. The investment for the first phase of this project is expected to be US\$2 billion.

This initiative is consistent with CVRD's strategy of attracting new investments in the steel industry in Brazil, through minority stakes, thereby increasing iron ore consumption in the country. This is the third largest steel project CVRD is undergoing in the past three years, including ThyssenKrupp CSA in the State of Rio de Janeiro, and Baosteel CSV, in the State of Espírito Santo, Brazil, increasing the country's steel production capacity by 12.5 million tons with investments around US\$10 billion.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian and Canadian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore and nickel business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
