SUNGARD DATA SYSTEMS INC.**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation:

SunGard Data Systems Inc. (SunGard) was acquired on August 11, 2005 (the Transaction) in a leveraged buy-out by a consortium of private equity investment funds associated with Bain Capital Partners, The Blackstone Group, Goldman Sachs & Co., Kohlberg Kravis Roberts & Co., Providence Equity Partners, Silver Lake and TPG (collectively, the Sponsors).

SunGard is a wholly owned subsidiary of SunGard Holdco LLC, which is wholly owned by SunGard Holding Corp., which is wholly owned by SunGard Capital Corp. II (SCCII), which is a subsidiary of SunGard Capital Corp. (SCC). All four of these companies were formed for the purpose of facilitating the Transaction and are collectively referred to as the Holding Companies. SCC, SCCII and SunGard are separate reporting companies and, together with their direct and indirect subsidiaries, are collectively referred to as the Company .

The Company has four reportable segments: Financial Systems (FS), Higher Education (HE), Public Sector (PS) and Availability Services (AS). The consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries. All significant intercompany transactions and accounts have been eliminated.

The accompanying interim consolidated financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), consistent in all material respects with those applied in the Company s Annual Report on Form 10-K for the year ended December 31, 2009. Interim financial reporting does not include all of the information and footnotes required by GAAP for annual financial statements. The interim financial information is unaudited, but, in the opinion of management, includes all adjustments, consisting only of normal recurring adjustments necessary to provide a fair statement of results for the interim periods presented. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending December 31, 2010.

The presentation of certain prior year amounts has been revised to conform to the current year presentation.

Recent Accounting Pronouncements

The Financial Accounting Standard Board issued new revenue recognition guidance for arrangements with multiple deliverables. The new guidance, whose scope excludes software revenue recognition, modifies the fair value requirements for revenue recognition by providing best estimate of selling price in addition to vendor specific objective evidence, or VSOE , and vendor objective evidence, now referred to as third-party evidence, or TPE , for determining the selling price of a deliverable. Since the Company will be able to use an estimate of the selling price for the deliverables in an arrangement, all deliverables will be separate units of accounting, provided (a) a delivered item has value to the customer on a standalone basis, and (b) if the arrangement includes a general right of return relative to the delivered item, delivery or performance of the undelivered item is considered probable and substantially in the control of the Company. As a result of the requirement to use the best estimate of the selling price when VSOE or TPE of the selling price cannot be determined, the residual method is no longer permitted. The new guidance is effective for fiscal years beginning on or after June 15, 2010. The Company is currently evaluating the impact of this revenue guidance, but does not expect the guidance to have a material impact on the consolidated financial statements.

Table of Contents**2. Goodwill:**

The following table summarizes changes in goodwill by segment (in millions):

	Cost					Accumulated Impairment			
	FS	HE	PS	AS	Subtotal	PS	AS	Subtotal	Total

3. Clearing Broker Assets and Liabilities:

Clearing broker assets and liabilities are comprised of the following (in millions):

	December 31, 2009	March 31, 2010
Segregated customer cash and treasury bills	\$ 153	\$ 39
Securities owned	40	86
Securities borrowed	116	130
Receivables from customers and other	23	20
Clearing broker assets	\$ 332	\$ 275
Payables to customers	\$ 163	\$ 63
Securities loaned	95	102
Customer securities sold short, not yet purchased	9	14
Payable to brokers and dealers	27	59
Clearing broker liabilities	\$ 294	\$ 238

Segregated customer cash and treasury bills are held by the Company on behalf of customers. Clearing broker securities consist of trading and investment securities at fair market values, which are based on quoted market rates. Securities borrowed and loaned are collateralized financing transactions which are cash deposits made to or received from other broker/dealers. Receivables from and payables to customers represent amounts due or payable on cash and margin transactions.

4. Derivatives:

The Company uses interest rate swap agreements to manage the amount of its floating rate debt in order to reduce its exposure to variable rate interest payments associated with the senior secured credit facilities. Each of these swap agreements is designated as a cash flow hedge. SunGard pays a stream of fixed interest payments for the term of the swap, and in turn, receives variable interest payments based on LIBOR. The net receipt or payment from the interest rate swap agreements is included in interest expense. The Company does not enter into interest rate swaps for speculative or trading purposes. A summary of the Company's interest rate swaps follows:

Table of Contents

Inception	Maturity	Notional Amount (in millions)	Interest rate paid	Interest rate received (LIBOR)
February 2006	February 2011	\$ 800	5.00%	3-Month
January 2008	February 2011	\$ 750	3.17%	3-Month
January/February 2009	February 2012	\$ 1,200	1.78%	1-Month
January/February 2010	May 2013	\$ 500	1.99%	3-Month
Total / Weighted Average interest rate		\$ 3,250	2.93%	

The fair values of interest rate swaps designated as cash flow hedging instruments, included in other accrued expenses on the consolidated balance sheets, are \$70 million and \$69 million as of December 31, 2009 and March 31, 2010, respectively.

The table below summarizes the impact of the effective portion of interest rate swaps on the balance sheets and statements of operations for the three months ended March 31, 2009 and 2010 (in millions):

	Three months ended March 31,		Classification
	2009	2010	
Gain (loss) recognized in Accumulated Other Comprehensive Loss (OCI)	\$ (4)	\$ 2	OCI
Gain (loss) reclassified from accumulated OCI into income	(15)	(22)	Interest expense and amortization of deferred financing fees

The Company has no ineffectiveness related to its swap agreements.

The Company expects to reclassify in the next twelve months approximately \$79 million from OCI into earnings related to the Company's interest rate swaps based on the borrowing rates at March 31, 2010.

5. Fair Value Measurements:

The following table summarizes assets and liabilities measured at fair value on a recurring basis at March 31, 2010 (in millions):

Liabilities				
Clearing broker liabilities customer securities sold short, not yet purchased	\$ 9	\$	\$	\$ 9
Interest rate swap agreements		70		70
	\$ 9	\$ 70	\$	\$ 79

A Level 1 fair value measure is based upon quoted prices in active markets for identical assets or liabilities. A Level 2 fair value measure is based upon quoted prices for similar assets and liabilities in active markets or inputs that are observable. A Level 3 fair value measure is based upon inputs that are unobservable (for example, cash flow modeling inputs based on assumptions).

Cash and cash equivalents money market funds and Clearing broker assets U.S. treasury bills are recognized and measured at fair value in the Company's financial statements. Clearing broker assets and liabilities securities owned and customer securities sold short, not yet purchased are recorded at closing exchange-quoted prices. Fair values of the interest rate swap agreements are calculated using a discounted cash flow model using observable applicable market swap rates and assumptions and are compared to market valuations obtained from brokers.

The following table presents the carrying amount and estimated fair value of the Company's debt, including current portion and excluding the interest rate swaps, as of December 31, 2009 and March 31, 2010 (in millions):

	December 31, 2009		March 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Floating rate debt	\$ 4,967	\$ 4,815	\$ 4,937	\$ 4,879
Fixed rate debt	3,348	3,507	3,343	3,476

The fair value of the Company's floating rate and fixed rate long-term debt is primarily based on market rates.

6. Comprehensive Income (Loss):

Comprehensive income (loss) consists of net income (loss) adjusted for other increases and decreases affecting stockholder's equity that are excluded from the determination of net income (loss). The calculation of comprehensive income (loss) follows (in millions):

	Three Months Ended March 31,	
	2009	2010

In accordance with the Management Agreement between the Company and affiliates of the Sponsors, the Company recorded \$5 million and \$4 million of management fees in sales, marketing and administration expenses during the three months ended March 31, 2009 and 2010, respectively. At each of December 31, 2009 and March 31, 2010, \$4 million was included in other accrued expenses.

10. Supplemental Guarantor Condensed Consolidating Financial Statements:

SunGard's senior notes are jointly and severally, fully and unconditionally guaranteed on a senior unsecured basis and the senior subordinated notes are jointly and severally, fully and unconditionally guaranteed on an unsecured senior subordinated basis, in each case, subject to certain exceptions, by substantially all wholly owned, domestic subsidiaries of SunGard (collectively, the Guarantors). Each of the Guarantors is 100% owned, directly or indirectly, by SunGard. None of the other subsidiaries of SunGard, either direct or indirect, nor any of the Holding Companies guarantee the senior notes and senior subordinated notes (Non-Guarantors). The Guarantors and SunGard Holdco LLC also unconditionally guarantee the senior secured credit facilities.

The following tables present the financial position, results of operations and cash flows of SunGard (referred to as Parent Company for purposes of this note only), the Guarantor subsidiaries, the Non-Guarantor subsidiaries and Eliminations as of December 31, 2009 and March 31, 2010, and for the three-month periods ended March 31, 2009 and 2010 to arrive at the information for SunGard on a consolidated basis. SCC and SCCII are neither parties nor

guarantors to the debt issued as described in the notes to consolidated financial statements included in the Company's Form 10-K for the year ended December 31, 2009.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Introduction**

The following discussion and analysis supplement the management's discussion and analysis in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 and presume that readers have read or have access to the discussion and analysis in this filing. The following discussion and analysis includes historical and certain forward-looking information that should be read together with the accompanying Consolidated Financial Statements, related footnotes, and the discussion below of certain risks and uncertainties that could cause future operating results to differ materially from historical results or from the expected results indicated by forward-looking statements. The following discussion reflects the results of operations and financial condition of SCC, which are materially the same as the results of operations and financial condition of SCCII and SunGard. Therefore, the discussions provided are applicable to each of SCC, SCCII and SunGard unless otherwise noted.

Results of Operations:

The following table sets forth, for the periods indicated, certain amounts included in our Consolidated Statements of Operations, the relative percentage that those amounts represent to consolidated revenue (unless otherwise indicated), and the percentage change in those amounts from period to period.

Three Months Ended March 31, 2010 Compared To Three Months Ended March 31, 2009

Income from Operations:

Our total operating margin was 6% for the three months ended March 31, 2010, compared to 7% for the three months ended March 31, 2009 primarily due to the decline in the AS operating margin, partially offset by a \$17 million increase in license fees.

Financial Systems:

The FS operating margin was 17% and 16% for the three months ended March 31, 2010 and 2009, respectively. The operating margin improvement is primarily due to a \$20 million increase in software license fees primarily resulting from recognition of \$15 million of license fee backlog that existed at December 31, 2009, partially offset by the impact of currency exchange rates.

Higher Education:

The HE operating margin was 26% and 20% for the three months ended March 31, 2010 and 2009, respectively, primarily due to employee-related cost reductions and the impact of a customer user conference held in the first quarter of 2009 that is planned for the second quarter of 2010.

Public Sector:

The PS operating margin was 17% and 19% for the three months ended March 31, 2010 and 2009, respectively, due primarily to a decrease in license fees, partially offset by improvement in the U.K. business.

Availability Services:

The AS operating margin was 19% and 24% for the three months ended March 31, 2010 and 2009, respectively. The lower margin was primarily due to increases in employee-related costs, including approximately \$5 million related to headcount reductions, mostly in North America, facility expansions which increased the fixed cost base in advance of anticipated revenue growth and increased depreciation and amortization, and the impact of a change in the mix of revenue from recovery services which typically use shared resources to managed services which use dedicated resources.

Revenue:

Total revenue decreased \$86 million or 6% for the three months ended March 31, 2010 compared to the first quarter of 2009. Organic revenue decreased 9% in the first quarter of 2010 compared to the prior year period, primarily because of a \$122 million decline in broker/dealer revenue, partially offset by the increase in license fees and software rental revenue. Organic revenue is defined as revenue for businesses owned for at least one year and further adjusted for the effects of businesses sold in the previous twelve months and the impact of currency exchange rates. This organic revenue decline was attributed to one of our broker/dealer businesses with the increases in license fees and software rental revenue offsetting other revenue declines.

Financial Systems:

FS revenue decreased \$83 million or 11% in the first quarter of 2010 from the prior year period. Organic revenue decreased 13% in the quarter. Excluding the broker/dealer business, organic revenue was up 4%. Professional services revenue increased \$5 million or 4%. Revenue from license and resale fees included software license revenue of \$40 million, an increase of \$20 million compared to the same quarter in 2009, reflecting the recognition in 2010 of \$15 million that was in backlog at December 31, 2009.

Higher Education:

HE revenue decreased \$12 million or 9% for the three months ended March 31, 2010 compared to the corresponding period in 2009 due to a decrease in organic revenue. HE services revenue decreased \$11 million, primarily due to revenue associated with a customer user conference held in the first quarter of 2009 that is planned for the second quarter of 2010 and a decrease in professional services. Revenue from license and resale fees included software license revenue of \$5 million in the three months ended March 31, 2010, unchanged from the prior year period.

Table of Contents

Public Sector:

PS revenue increased \$10 million or 11% for the three months ended March 31, 2010 compared to the corresponding period in 2009. Organic revenue increased 5%. Revenue from license and resale fees included software license revenue of \$2 million and \$5 million in the three months ended March 31, 2010 and 2009, respectively.

Availability Services:

AS revenue decreased \$1 million in the first quarter of 2010 from the prior year period. Organic revenue decreased 3% in the quarter. In North America, revenue decreased 3% overall and 4% organically, where decreases in recovery services and professional services revenue exceeded growth in managed services. Revenue in Europe increased 12%, but grew 3% organically.

Costs and Expenses:

Cost of sales and direct operating expenses as a percentage of total revenue was 48% and 51% in the three-month periods ended March 31, 2010 and 2009, respectively, largely the result of the lower volumes of the broker/dealer business previously mentioned. Also impacting the period were higher FS consultant expenses and AS facilities costs, partially offset by lower costs associated with the HE customer user conference that was held in the first quarter of 2009.

Sales, marketing and administration expenses as a percentage of total revenue was 22% and 20% in the three-month periods ended March 31, 2010 and 2009, respectively. Increases in sales, marketing and administration expenses were primarily due to increases in AS, FS and corporate employment-related expense and advertising costs, partially offset by reduced FS facilities costs and HE employment-related expenses.

Because AS product development costs are insignificant, it is more meaningful to measure product development expenses as a percentage of revenue from software and processing solutions. For the three months ended March 31, 2010 and 2009, product development costs were 11% and 9% of revenue from software and processing solutions, respectively.

Depreciation and amortization as a percentage of total revenue was 6% and 5% in the three-month periods ended March 31, 2010 and 2009, respectively primarily due to capital expenditures supporting AS.

Merger costs are costs incurred for the shutdown of the professional trading portion of the broker/dealer business. We expect to incur up to an additional \$10 million related to this shutdown during the remainder of 2010.

Interest expense was \$159 million and \$151 million for the three months ended March 31, 2010 and 2009, respectively. The increase in interest expense was due primarily to interest rate increases mainly due to amending the term loan in 2009 and increased average borrowings under our receivables facility, partially offset by reduced borrowings under our revolving credit facility.

Other income was \$7 million for the three months ended March 31, 2009. The change is primarily attributable to \$7 million of foreign currency translation gains related to our Euro denominated term loan in the three months ended March 31, 2009.

The effective income tax rates for the three months ended March 31, 2010 and 2009 were a benefit of 36% and 21%, respectively. The rate in the first quarter of 2010 reflects the expected mix of taxable income in various jurisdictions as well as our ability to fully utilize foreign tax credits. The rate in the first quarter of 2009 reflects limitations on our ability to utilize certain foreign tax credits.

Accreted dividends on SCCII's cumulative preferred stock were \$47 million and \$42 million for the three months ended March 31, 2010 and 2009, respectively. The increase in dividends is due to compounding. No dividends have been declared by SCCII.

Liquidity and Capital Resources:

At March 31, 2010, cash and equivalents were \$637 million, a decrease of \$27 million from December 31, 2009. Cash flow provided by operations was \$79 million in the three months ended March 31, 2010 compared to cash flow used in operations of \$72 million in the three months ended March 31, 2009. The increase in cash flow from operations is due primarily to the termination in December 2008 of our off-balance sheet accounts receivable securitization program and a \$50 million tax refund received in the first quarter of 2010.

Table of Contents

Net cash used in investing activities was \$81 million in the three months ended March 31, 2010, comprised of cash paid for property and equipment and other assets and one business acquired in each of our FS and AS segments. Net cash used in financing activities was \$18 million for the three months ended March 31, 2010, primarily related to quarterly principal payments on the term loans. At March 31, 2010, no amount was outstanding under the revolving credit facility and \$251 million was outstanding under the receivables facility, which represented the full amount available for borrowing based on the terms and conditions of the facility. In early 2010, we entered into interest rate swap agreements, with an aggregate notional amount of \$500 million, which expire in May 2013 under which we pay fixed interest payments (at 1.99%) for the term of the swaps and, in turn, receive variable interest payments based on three-month LIBOR.

At March 31, 2010, contingent purchase price obligations that depend upon the operating performance of certain acquired businesses could total \$55 million, all of which could be due in the next 12 months. We also have outstanding letters of credit and bid bonds that total approximately \$40 million.

At March 31, 2010, we have outstanding \$8.28 billion in aggregate indebtedness, with additional borrowing capacity of \$803 million under the revolving credit facility (after giving effect to outstanding letters of credit).

We expect our available cash balances, cash flows from operations, combined with availability under the revolving credit facility and receivables facility, to provide sufficient liquidity to fund our current obligations, projected working capital requirements and capital spending for a period that includes at least the next 12 months.

Covenant Compliance

Adjusted EBITDA is used to determine compliance with certain covenants contained in the indentures governing SunGard's senior notes due 2013 and 2015 and senior subordinated notes due 2015 and in SunGard's senior secured credit facilities. Adjusted EBITDA is defined as EBITDA further adjusted to exclude certain adjustments permitted in calculating covenant compliance under the indentures and senior secured credit facilities. We believe that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA are appropriate to provide additional information to investors to demonstrate compliance with the financing covenants.

The breach of covenants in SunGard's senior secured credit facilities that are tied to ratios based on Adjusted EBITDA could result in a default under that agreement and the lenders could elect to declare all amounts borrowed due and payable. Any such acceleration would also result in a default under the indentures. Additionally, under SunGard's debt agreements, our ability to engage in activities such as incurring additional indebtedness, making investments and paying dividends is also tied to ratios based on Adjusted EBITDA.

Adjusted EBITDA is calculated as follows (in millions):

	Three Months Ended March		Last Twelve Months
	31,		March 31,
	2009	2010	2010
Net income (loss)	\$ (34)	\$ (54)	\$ (1,138)

Table of Contents

- (a) Purchase accounting adjustments include the adjustment of deferred revenue and lease reserves to fair value at the date of the Transaction and subsequent acquisitions made by the Company and certain acquisition-related compensation expense.
- (b) Non-cash charges include stock-based compensation and loss on the sale of assets.
- (c) Restructuring and other charges include debt refinancing costs, severance and related payroll taxes, reserves to consolidate certain facilities, settlements with former owners of acquired companies and certain other expenses associated with acquisitions made by the Company.
- (d) Pro forma adjustments represent the full-year impact of savings resulting from post-acquisition integration activities.
- (e) Other includes gains or losses related to fluctuation of foreign

currency exchange rates impacting the foreign-denominated debt, management fees paid to the Sponsors and franchise and similar taxes reported in operating expenses, partially offset by certain charges relating to the receivables facility.

The covenant requirements and actual ratios for the twelve months ended March 31, 2010 are as follows. All covenants are in compliance.

	Covenant Requirements	Actual Ratios
Senior secured credit facilities ⁽¹⁾		
Minimum Adjusted EBITDA to consolidated interest expense ratio	1.70x	2.53x
Maximum total debt to Adjusted EBITDA	6.25x	5.08x
Senior notes due 2013 and 2015 and senior subordinated notes due 2015 ⁽²⁾		
Minimum Adjusted EBITDA to fixed charges ratio required to incur additional debt pursuant to ratio provisions	2.00x	2.52x

(1) The senior secured credit facilities require us to maintain an Adjusted EBITDA to consolidated interest expense ratio starting at a minimum of 1.70x for the four-quarter period ended December 31, 2009 and increasing over time to 1.80x by the end of 2010 and 2.20x by the end of 2013. Consolidated interest expense is defined in the senior secured credit facilities as consolidated

requirements would constitute a default under the senior secured credit facilities. If our lenders failed to waive any such default, our repayment obligations under the senior secured credit facilities could be accelerated, which would also constitute a default under our indentures.

- (2) SunGard's ability to incur additional debt and make certain restricted payments under our indentures, subject to specified exceptions, is tied to an Adjusted EBITDA to fixed charges ratio of at least 2.0x, except that we may incur certain debt and make certain restricted payments and certain permitted investments without regard to the ratio, such as the ability to incur up to an aggregate principal amount of

\$5.75 billion under credit facilities (inclusive of amounts outstanding under the senior credit facilities from time to time; as of March 31, 2010, we had \$4.69 billion outstanding under the term loan facilities and available commitments of \$803 million under the revolving credit facility), to acquire persons engaged in a similar business that become restricted subsidiaries and to make other investments equal to 6% of our consolidated assets. Fixed charges is defined in the indentures governing the Senior Notes due 2013 and 2015 and the Senior Subordinated Notes due 2015 as consolidated interest expense less interest income, adjusted for acquisitions, and further adjusted for

non-cash
interest and the
elimination of
interest expense

Table of Contents**Certain Risks and Uncertainties**

Certain of the matters we discuss in this Report on Form 10-Q may constitute forward-looking statements. You can identify forward-looking statements because they contain words such as believes, expects, may, will, should, approximately, intends, plans, estimates, or anticipates or similar expressions which concern our strategy, plans and intentions. All statements we make relating to estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. All of these forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those we expected. We derive most of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. Some of the factors that we believe could affect our results include: our high degree of leverage; general economic and market conditions; the condition of the financial services industry, including the effect of any further consolidation among financial services firms; the integration of acquired businesses, the performance of acquired businesses, and the prospects for future acquisitions; the effect of war, terrorism, natural disasters or other catastrophic events; the effect of disruptions to our systems and infrastructure; the timing and magnitude of software sales; the timing and scope of technological advances; customers taking their information availability solutions in-house; the trend in information availability toward solutions utilizing more dedicated resources; the market and credit risks associated with clearing broker operations; the ability to retain and attract customers and key personnel; risks relating to the foreign countries where we transact business; the ability to obtain patent protection and avoid patent-related liabilities in the context of a rapidly developing legal framework for software and business-method patents; and a material weakness in our internal controls. The factors described in this paragraph and other factors that may affect our business or future financial results are discussed in our filings with the Securities and Exchange Commission, including this Form 10-Q. We assume no obligation to update any written or oral forward-looking statement made by us or on our behalf as a result of new information, future events or other factors.

Item 3. Quantitative and Qualitative Disclosures about Market Risk:

We do not use derivative financial instruments for trading or speculative purposes.

At March 31, 2010, we had total debt of \$8.28 billion, including \$4.94 billion of variable rate debt. We have entered into interest rate swap agreements which fix the interest rates for \$3.25 billion of our variable rate debt. Swap agreements with a notional value of \$800 million effectively fix our interest rates at 5.00% and expire in February 2011. Swap agreements expiring in February 2011 with a notional value of \$750 million effectively fix our interest rates at 3.17%. Swap agreements expiring in February 2012 with a notional value of \$1.2 billion effectively fix our interest rates at 1.78%. Swap agreements expiring in May 2013 with a notional value of \$500 million effectively fix our interest rates at 1.99%. Our remaining variable rate debt of \$1.69 billion is subject to changes in underlying interest rates, and, accordingly, our interest payments will fluctuate. During the period when all of our interest rate swap agreements are effective, a 1% change in interest rates would result in a change in interest of approximately \$17 million per year. Upon the expiration of each interest rate swap agreement in February 2011, February 2012 and May 2013, a 1% change in interest rates would result in a change in interest of approximately \$32 million, \$44 million and \$49 million per year, respectively.

Item 4T. Controls and Procedures:

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this Report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this Report were effective.

No change in our internal control over financial reporting occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
