Notes to Consolidated Financial Statements

1. The Consolidated Financial Statements are unaudited, but in the opinion of management include all adjustments necessary for a fair presentation of the results of the interim period. Financial results of the interim period are not necessarily indicative of results that may be expected for any other interim period or for the fiscal year. The balance sheet as of December 30, 2000 was derived from audited financial statements. Accumulated other comprehensive income consists of foreign currency translation adjustments.

Prior year manufacturing segment delivery revenue has been reclassified to net sales from cost of sales in accordance with the Financial Accounting Standards Board (FASB) Emerging Issues Task Force No. 00-10 "Accounting for Shipping and Handling Fees and Costs," which was adopted by the Company in the fourth quarter of 2000.

2. For each of the dates indicated, inventories consisted of the following (in thousands):

	June 30, 2001	December 30, 2000
	-----	-----
New and pre-owned manufactured homes	\$114,751	\$143,892

3. The income tax provision (benefit) differs from the amount of income tax determined by applying the applicable U.S. statutory federal income tax rate to pretax income (loss) as a result of the following differences (in thousands):

4. The Company has a revolving credit agreement, maturing in May 2003, with a group of banks for a \$75 million secured line of credit. The facility may be increased to \$90 million upon a majority vote of the

Edgar Filing: CHAMPION ENTERPRISES INC - Form 10-Q

bank group. The agreement allows for letters of credit up to \$35 million. Availability under the credit agreement is limited to a borrowing base calculated based on qualifying assets. For the second quarter of 2001, the calculated borrowing base averaged \$73 million and the June 2001 calculated borrowing base was \$75 million. As of June 30 2001, the Company had no cash borrowings and \$35 million of letters of credit outstanding under the facility.

For the quarter ended June 30, 2001, manufacturing EBITA includes \$1.0 million of non-cash fixed asset impairment charges related to closed plants. For the six month period ended June 30, 2001, manufacturing EBITA includes \$3.3 million of non-cash fixed asset impairment charges related to closed plants, and retail EBITA (loss) includes \$3.2 million of non-cash fixed asset impairment charges and \$2.2 million of lease termination and other costs associated with closures of retail sales centers. In the three and six months ended July 1, 2000, manufacturing EBITA includes \$1.7 million of employee termination benefits paid upon the closure of three homebuilding facilities and a \$4.4 million gain from a property insurance settlement. Retail floor plan interest expense not charged to retail EBITA totaled \$2.2 million and \$4.9 million for the three and six months ended June 30, 2001 and \$3.2 million and \$6.6 million for the three and six months ended July 1, 2000, respectively.

Page 6 of 16

6. As is customary in the manufactured housing industry, the majority of Champion's manufacturing sales to independent retailers are made in connection with repurchase agreements with lending institutions that provide wholesale floor plan financing to the retailers. Pursuant to these agreements, for a period of either 12 or 15 months from invoice date of the sale of the homes and upon default by the retailer and repossession by the financial institution, the Company is obligated to purchase the related floor plan loans or repurchase the homes from the lender. The maximum potential repurchase obligation at June 30, 2001 was \$320 million, without reduction for the resale value of the homes. This amount compares to \$430 million at the beginning of the year and \$560 million a year ago. Losses incurred upon the repurchase of homes totaled \$3.3 million for the six months ended June 30, 2001 and \$2.0 million for the same period a year ago.

At June 30, 2001 the Company was contingently obligated for additional purchase price of up to \$80 million related to its 1999 and 1998 acquisitions. Management currently believes that payment of none of this contingent purchase price is reasonably possible.

Champion is contingently obligated for approximately \$35 million under letters of credit and \$48 million under surety bonds as of June 30, 2001.

Edgar Filing: CHAMPION ENTERPRISES INC - Form 10-Q

7. During the quarter ended June 30, 2001, Champion closed two homebuilding facilities, resulting in non-cash fixed asset impairment charges of \$1.0 million which were recorded in selling, general and administrative expenses. For the year-to-date period, non-cash fixed asset impairment charges and lease termination and other costs related to closed operations totaled \$9.7 million.
8. Substantially all of the Company's subsidiaries are guarantors of indebtedness under the \$200 million Senior Notes. Separate financial statements for each guarantor subsidiary are not included in this filing because each guarantor subsidiary is fully, unconditionally, jointly and severally liable for the Senior Notes. In addition, the parent company issuer has no independent assets or operations and the non-guarantor subsidiaries of the Company, individually or in the aggregate, are minor in relation to consolidated totals of the Company. There are no significant restrictions on the ability of the parent company or any guarantor subsidiary to obtain funds from its subsidiaries by dividend or loan.
9. During June 2001, Champion restructured the payment terms of a deferred purchase price liability totaling \$32 million that was originally scheduled for payment in cash in June 2002. In July, 2001 \$6 million of the obligation was paid in cash. The remaining \$26 million is due in quarterly installments of \$2 million without interest, and is payable, at Champion's option, in cash or common stock. A payment is not due following the quarter ended March 2002.
10. Subsequent to quarter end, Champion issued \$20 million of a newly designated class of convertible preferred stock. The preferred stock has a seven-year term with a 5% annual dividend, which is payable in either cash or common stock, at Champion's option, and is convertible into common stock at a conversion price of \$15.93 per share during the first six months. Six months after issuance the conversion price will be adjusted to 120% of the common stock's market value, subject to certain limitations. Following 24 months of issuance, the preferred stock is redeemable by the investor in either cash or common stock at the Company's option. At the investor's option, an additional \$12 million of preferred stock can be purchased over the next 21 months on similar terms.
11. In July 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets," which requires that goodwill not be amortized but instead be tested for impairment based on a reporting unit's fair value versus its carrying value. During the third and fourth quarters of 2001, the Company will perform the transitional impairment tests required in order to determine each reporting unit's fair value, and thus the impact to the Company's financial statements. Champion will

Edgar Filing: CHAMPION ENTERPRISES INC - Form 10-Q

adopt SFAS 142 in January 2002. The adoption of this pronouncement will eliminate goodwill amortization expense, which currently approximates \$0.18 per diluted share annually or \$0.045 per quarter.

Consolidated revenues decreased 20% for the quarter and 29% year-to-date. The effects of challenging industry conditions, including tightened consumer credit standards and high consumer repossession levels continue to impact net sales. As a result of these conditions we are operating fewer manufacturing facilities and retail sales centers than a year ago. During the past twelve months we have closed and consolidated eight manufacturing facilities and 83 sales centers.

Gross margin dollars for the three and six months ended June 30, 2001 were \$9 million and \$48 million less than in 2000, respectively. The decrease in gross margin dollars for the quarter is due to the \$105 million decline in consolidated net sales, partially offset by reduced material cost of sales and the net effect of the following items that occurred last year. Gross margin dollars for the three months ended July 1, 2000 included a \$5 million charge for additional write down of the repurchased homes from the 1999 independent retailer bankruptcy and \$1.7 million of employee termination benefits paid

Page 9 of 16

10

upon the closure of three homebuilding facilities, partially offset by a \$3.5 million reduction in the intercompany profit in inventory as a result of lower manufacturing margins and declining inventories at the retail segment. Second quarter 2001 gross margin as a percent of sales improved versus the prior year primarily due to the prior year items mentioned above and current quarter lower material costs. The decrease in gross margin dollars for the six months is primarily due to the \$314 million decline in consolidated net sales partially offset by lower material costs in the current period and the second quarter 2000 items discussed above.

Second quarter 2001 selling, general and administrative expenses ("SG&A") include a \$1 million non-cash fixed asset impairment charge due to the closure of two manufacturing facilities, but are lower than in 2000 due to operating fewer homebuilding facilities and sales centers and the reduction in sales. SG&A for the three months ended July 1, 2000 were reduced by a \$4.4 million gain from a property insurance settlement. The increase in quarterly SG&A as a percentage of sales is also due to these items plus the impact of lower sales on fixed SG&A costs. SG&A for the six month period ended June 30, 2001 was comparable to the prior year. Lower SG&A in the current year from operating fewer manufacturing facilities and sales centers and the reduction in sales was offset by \$6.5 million of fixed asset impairment charges and \$2.2 million of lease termination and other costs related to the closing of four homebuilding facilities and 30 retail sales centers and the prior year gain of \$4.4 million.

Manufacturing sales declined 20% and 30% for the three and six month periods ended June 30, 2001, respectively. Challenging market conditions continue to affect sales volume with Champion's wholesale homes and floors sold declining 36.9% and 33.3% this year versus the same period last year. According to data reported by the National Conference of States on Building Codes and Standards, U.S. industry wholesale shipments for the first half of 2001 decreased 34.7% in homes and 32.0% in floors from the comparable 2000 period. Our average home wholesale price increased 10% versus the same quarter last year, primarily due to the increase in multi-section mix. Of our total wholesale shipments for the quarter, 87% were to independent retailers and 13% were to company-operated sales centers. Due to market conditions, we closed two manufacturing facilities in this year's second quarter in addition to two facilities we closed in the first quarter.

Page 10 of 16

11

Second quarter manufacturing EBITA declined only 3% despite a 20% decline in sales. Manufacturing EBITA for the second quarter 2001 was favorably affected by lower material costs, partially offset by a \$1 million fixed asset impairment charge from the closure of two manufacturing facilities. Segment EBITA for the three months ended July 1, 2000 includes \$1.7 million of employee termination

Edgar Filing: CHAMPION ENTERPRISES INC - Form 10-Q

benefits paid upon the closure of three homebuilding facilities and a \$4.4 million gain from a property insurance settlement.

Segment EBITA has declined by \$24 million or 73% for the six months ended June 30, 2001 versus the same period in 2000 primarily due to lower gross margin dollars from the 30% reduction in manufacturing sales, \$3.3 million of fixed asset impairment charges for the closure of four homebuilding facilities and the prior year \$4.4 million insurance settlement gain. These items are partially offset by reduced material costs in the current period and the prior year \$1.7 million charge for employee termination costs. EBITA margins as a percentage of sales have declined for the same reasons mentioned above.

Although dealer orders can be cancelled at anytime without penalty, and unfilled orders are not necessarily an indication of future business, the Company's unfilled orders for wholesale housing at June 30, 2001 totaled approximately \$43 million, compared to \$15 million at December 30, 2000 and \$28 million a year ago.

Sales centers at period end	230	291	(21%)
-----------------------------	-----	-----	-------

Retail sales decreased 22% and 29% for the three and six month periods ended June 30, 2001, respectively. The sales decline is primarily due to challenging industry conditions and a decline in the number of sales centers. We operated 230 sales centers at June 30, 2001 compared to 291 one year ago.

Based on data reported by Statistical Surveys, Inc., we believe that industry retail sales of new homes in the first five months of 2001 dropped approximately 37% from prior year levels. Our average new home selling price increased by 12% versus the same quarter last year, primarily due to the sale of a greater proportion of higher-priced, multi-section homes.

Retail EBITA for the quarter ended June 30, 2001 declined \$6 million compared to the same quarter last year primarily due to reduced gross margin from the \$38 million reduction in retail sales. In addition, retail segment gross margin as a percentage of sales has decreased due to the Company's efforts to reduce inventory and sell older homes. Our company-owned stores have reduced the average number of new homes in inventory per sales center to 15 new homes at June 30, 2001 compared to 18 new homes last quarter and a year ago. Retail EBITA for the six months ended June 30, 2001 decreased by \$26 million compared to the same period a year ago. The decline in the segment margin is primarily due to the \$97 million reduction in sales and \$5.4 million of costs to close 30 sales centers. Additionally, reduced income from loan origination fees, insurance and other commissions as a result of lower sales volume impacted margins.

REPURCHASE OBLIGATIONS

The Company enters into repurchase agreements with lending institutions that provide wholesale floor plan financing to independent retailers. At June 30, 2001 the maximum contingent repurchase obligation was approximately \$320 million, without reduction for the resale value of the homes. For the six months ended June 30, 2001, Champion paid \$17.0 million and incurred losses of \$3.3 million for the repurchase of 562 homes resulting from defaults by independent retail companies. In the same period last year, the Company incurred losses of \$2.0 million and paid \$6.4 million for the repurchase of 220 homes.

LIQUIDITY AND CAPITAL RESOURCES

Cash balances totaled \$36 million at June 30, 2001. For the six months ended June 30, 2001, cash provided by operations was \$28 million. Expenditures during 2001 included \$3 million for capital improvements, \$10 million for payments related to 1998 acquisitions, and \$2 million for investments in and advances to unconsolidated subsidiaries. Approximately \$29 million was used to reduce the Company's floor plan payable.

During 2001, accounts receivable and accounts payable increased due to seasonality and year end levels generally being low due to the holidays and vacations. Inventories and floor plan payable decreased during the six month period ended June 30, 2001 due to continued efforts to reduce inventories throughout our retail organization in response to industry conditions.

The Company has a \$75 million revolving credit agreement, maturing in May 2003, with a group of banks. The facility may be increased to \$90 million upon a majority vote of the bank group. The agreement allows for letters of credit up to \$35 million. Availability under the credit agreement is limited to a

Edgar Filing: CHAMPION ENTERPRISES INC - Form 10-Q

borrowing base calculated based on qualifying assets. For the second quarter of 2001, the calculated borrowing base averaged \$73 million and the June 2001 calculated borrowing base was \$75 million. At the end of June 2001, there were \$35 million of letters of credit and no cash borrowings outstanding under the credit facility, resulting in loan availability of \$40 million. Through June 2001, we were in compliance with the agreement's financial performance covenants and believe that we will be in compliance throughout 2001.

In June 2001 we restructured the payment terms of a deferred purchase price liability totaling \$32 million that was originally scheduled for payment in cash in June 2002. In July 2001, \$6 million of the obligation was paid in

Page 12 of 16

13

cash. The remaining \$26 million is due in quarterly installments of \$2 million without interest, and is payable, at our option, in cash or common stock. A payment is not due following the quarter ended March 2002.

In July 2001 Champion issued \$20 million of a newly designated class of convertible preferred stock. The preferred stock has a seven-year term with a 5% annual dividend, which is payable in either cash or common stock, at Champion's option, and is convertible into common stock at a conversion price of \$15.93 per share during the first six months. Six months after issuance the conversion price will be adjusted to 120% of the common stock's market value, subject to certain limitations. Following 24 months of issuance, the preferred stock is redeemable by the investor in either cash or common stock at the Company's option. At the investor's option, an additional \$12 million of preferred stock can be purchased over the next 21 months on similar terms.

Champion plans to spend less than \$10 million in 2001 on capital expenditures. Borrowings under the bank credit facility may be necessary in the future for capital improvements and to meet seasonal working capital needs. The Company does not plan to pay cash dividends in the near term.

Currently, there are five primary national floor plan lenders, which finance a substantial portion of floor plan borrowings of Company-owned and independent retailers. We finance most of the new home inventory at our Company-owned stores through borrowings from floor plan lenders.

Conseco Finance (Conseco) is our primary floor plan lender, with \$59 million of borrowings outstanding at the end of the quarter. In March 2001, we reached an agreement with Conseco to reduce our floor plan borrowings with them to \$60 million by June 30, 2001 and \$40 million by September 30, 2001. Since June 2000 we have reduced our floor plan borrowings with Conseco by over \$60 million through inventory reductions and proceeds from new floor plan lines of credit with two other financial institutions. Additional reductions of Conseco floor plan borrowings will occur by reducing inventory, obtaining additional financing from other lenders and using cash from operations.

The Company believes that its cash balances, including the proceeds from the July 2001 preferred stock issuance, cash flows from operations and availability under its bank line of credit facility and floor plan arrangements will be adequate to meet its anticipated financing needs, operating requirements and capital expenditures for the next twelve months. We are seeking alternative finance sources in order to further reduce our floor plan borrowings with Conseco. We may also seek additional sources of capital. However, there can be no assurance that we will be able to secure additional floor plan borrowings or additional capital. In the event the Company is required to further reduce its

Edgar Filing: CHAMPION ENTERPRISES INC - Form 10-Q

total floor plan borrowings or the availability under its credit facility or operating cash flow is insufficient to finance its operations and alternative financing or capital is unavailable, there could be an adverse impact on our liquidity.

FORWARD LOOKING STATEMENTS

Certain statements contained in this report, including the Company's plans, anticipated capital expenditures, new market initiatives, and the adequacy of cash to meet financing needs, could be construed as forward looking statements within the meaning of the Securities Exchange Act of 1934. In addition, Champion or persons acting on its behalf may from time to time publish or communicate other items which could also be construed to be forward looking statements. Statements of this sort are or will be based on the Company's estimates, assumptions and projections, and are subject to risks and uncertainties, including those contained in Champion's most recently filed Annual Report on Form 10-K, that could cause actual results to differ materially from those included in the forward looking statements.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those expected, estimated or projected. The Company does not undertake to update its forward looking statements or risk factors to reflect future events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company's floor plan borrowings at June 30, 2001 were \$85 million and are subject to interest primarily based on the U.S. prime interest rate. A 100 basis point increase in the prime rate would result in additional annual interest cost of \$0.9 million, assuming average floor plan borrowings of \$85 million.
