ALLIED CAPITAL TO ACQUIRE SUNSOURCE INC.

WASHINGTON, DC - JUNE 19, 2001 -- Allied Capital Corporation (NYSE: ALD) and SunSource Inc. (AMEX: SDP & SDP.PR) today announced that Allied Capital intends to acquire SunSource Inc. ("SunSource" or the "Company") to create a privately owned portfolio company controlled by Allied Capital. The two companies have signed a definitive merger agreement, which provides that Allied Capital will pay approximately \$72 million, or approximately \$10.38 per SunSource common share in stock or cash for all of the outstanding common equity of SunSource, subject to certain adjustments. Management of SunSource will participate with Allied Capital in the buyout transaction and will retain an approximate 6% ownership position on a fully diluted basis in the Company.

SunSource is an existing Allied Capital portfolio company, which obtained \$30 million of subordinated debt financing from Allied Capital during the fourth quarter of 2000. SunSource is one of the leading providers of value-added services and products to retail and industrial markets in North America. The Company is organized primarily in two business segments, The Hillman Group, Inc. ("Hillman") and SunSource Technology Services, LLC ("Technology Services" or "STS"). Hillman provides merchandising services and products, such as fasteners and related hardware items, keys and accessories and identification items to retail outlets, primarily hardware stores, home centers and mass merchants. Technology Services offers a full range of technology-based products and services in the fluid power industry to small, medium and large manufacturers. The Company also owns a significant interest in Kar Products, a distributor of maintenance and repair products and inventory management services to commercial and industrial customers in the U.S. and Canada.

Bill Walton, Chairman and CEO of Allied Capital, remarked, "We believed SunSource was an excellent candidate for our mezzanine capital when we first financed the Company last year, and we believe that by becoming a majority owner of this Company we can provide the necessary access to capital and other resources to further the growth and expansion of the various business segments. SunSource is a leader in its market niches, and is exactly the type of company we target for investment."

Maurice Andrien, CEO of SunSource, said, "This is a positive transaction for SunSource shareholders. Allied Capital is a much larger public company with a liquid stock that has a strong regular quarterly dividend. By approving this transaction, SunSource shareholders will increase their liquidity through the receipt of cash or the stock of a large investment company."

Allied Capital's investment in SunSource will be structured to provide a current return through interest, dividends and management fee income. The investment in SunSource will include

subordinated debt and common stock. In addition, Allied Capital believes there is an opportunity to increase the value of the portfolio company over time.

Necessary approvals to complete the transaction include an affirmative vote of SunSource shareholders. SunSource's publicly traded trust preferred securities will remain outstanding, and will not be converted or exchanged, and will continue to trade on the AMEX under the symbol SDP.PR, upon consummation of the merger.
