Proposals

We intend to present four proposals to the stockholders at the meeting:

1. Election of eight directors.
2. Amendment of Amended and Restated 2003 Non-Employee Directors' Stock Option Plan.
3. Amendment of 2003 Stock Option Plan.
4. Ratification of the appointment of Grant Thornton LLP as Advanced Energy's independent registered public accounting firm for 2007.

We do not know of any other matters to be submitted to the stockholders at the meeting. If any other matters properly come before the meeting, the proxy holders intend to vote the shares they represent as the Board of Directors may recommend.

Record Date and Share Ownership

If you owned shares of Advanced Energy common stock in your name as of the close of business on Monday, March 12, 2007, you are entitled to vote on the proposals that are presented at the meeting. On that date, which is referred to as the record date for the meeting, 45,021,647 shares of Advanced Energy common stock were issued and outstanding and were held by approximately 657 stockholders of record, according to the records of American Stock Transfer & Trust Company, Advanced Energy's transfer agent.

Voting Procedures

Each share of Advanced Energy common stock that you hold entitles you to one vote on each of the proposals that are presented at the annual meeting. The inspector of the election will determine whether or not a quorum is present at the annual meeting. A quorum will be present at the meeting if a majority of the shares of common stock entitled to vote at the meeting are represented at the meeting, either by proxy or by the person who owns the shares. Advanced Energy's transfer agent will deliver a report to the inspector of election in advance of the annual meeting, tabulating the votes cast by proxies returned to the transfer agent. The inspector of election will tabulate the final vote count, including the votes cast in person and by proxy at the meeting.

If a broker holds your shares, this proxy statement and a proxy card have been sent to the broker. You may have received this proxy statement directly from your broker, together with instructions as to how to direct the broker concerning how to vote your shares. Under the rules for Nasdaq-quoted companies, brokers cannot vote on certain matters without instructions from you. If you do not give your broker instructions or discretionary authority to vote your shares on such matters and your broker returns the proxy card without voting on a proposal, your shares will be recorded as "broker non-votes" with respect to the proposals on which the broker does not vote.

Broker non-votes and abstentions will be counted as present for purposes of determining whether a quorum is present. If a quorum is present, directors will be elected by a plurality of the votes and each of the other matters described in this proxy statement will be approved by a majority of the votes cast on the proposal. Broker non-votes and abstentions will have no effect on the outcome of any of the matters described in this proxy statement.

Table of Contents

The following table reflects the vote required for each proposal and the effect of broker non-votes and abstentions on the vote, assuming a quorum is present at the meeting:

Proposal	Vote Required	Effect of Broker Non-Votes and Abstentions
Election of directors	The eight nominees who receive the most votes will be elected	No effect
Amendment of Amended and Restated 2003 Non-Employee Directors Stock Option Plan	Majority of the shares present at the meeting (by proxy or in person) and voting For or Against the proposal	No effect

Ratification of the appointment of Grant Thornton LLP as Advanced Energy's independent registered accounting firm for 2007	Majority of the shares present at the meeting (by proxy or in person) and voting For or Against the proposal	No effect

If any other proposals are properly presented to the stockholders at the meeting, the number of votes required for approval will depend on the nature of the proposal. Generally, under Delaware law and the by-laws of Advanced Energy, the number of votes which may be required to approve a proposal is either a majority of the shares of common stock represented at the meeting and entitled to vote, or a majority of the shares of common stock represented at the meeting and casting votes either for or against the matter being considered. The enclosed proxy card gives discretionary authority to the proxy holders to vote on any matter not included in this proxy statement that is properly presented to the stockholders at the annual meeting.

The Audit and Finance Committee also conducts financial reviews with Advanced Energy's independent registered public accounting firm prior to the release of financial information in the Company's Forms 10-K and 10-Q.

Management has primary responsibility for Advanced Energy's financial statements and the overall reporting process, including systems of internal controls. The independent registered public accounting firm audits the annual financial statements prepared by management, expresses an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of Advanced Energy in conformity with accounting principles generally accepted in the United States and discusses with the Audit and Finance Committee any issues they believe should be raised.

Report of the Audit and Finance Committee

The Audit and Finance Committee has reviewed Advanced Energy's audited financial statements and met together and separately with both management and Grant Thornton LLP, the Company's current independent registered public accounting firm to discuss Advanced Energy's quarterly and annual financial statements and reports prior to issuance. In addition, the Audit and Finance Committee has discussed with the independent registered public accounting firm the matters outlined in Statement on Accounting Standards No. 61 (Communication with Audit Committees) to the extent applicable and received the written disclosures and the letter from the independent registered public accounting firm required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Audit and Finance Committee has also discussed with the independent registered public accounting firm their independence.

Based on our review and discussion of the foregoing matters and information, the Audit and Finance Committee recommended to the Board of Directors that the audited financial statements be included in Advanced Energy's 2006 Annual Report on Form 10-K. The Audit and Finance Committee has recommended the appointment of Grant Thornton LLP as the Company's independent registered public accounting firm for 2007, subject to shareholder approval.

PROPOSAL NO. 2

AMENDMENT OF AMENDED AND RESTATED 2003 NON-EMPLOYEE DIRECTORS STOCK OPTION PLAN

The Board of Directors of Advanced Energy is submitting for stockholder approval an amendment of the Amended and Restated 2003 Non-Employee Directors Stock Option Plan (the Directors Plan). We currently are authorized to issue up to 250,000 shares of common stock under the Directors Plan. As of December 31, 2006, 105,000 of such shares remained available for issuance. On February 21, 2007, the Board of Directors approved, subject to approval by the stockholders of Advanced Energy, an increase in the number of common shares reserved for issuance under the plan from 250,000 shares to 750,000 shares. On July 24, 2006, the Board of Directors of Advanced Energy approved, subject to shareholder approval, the non-employee director compensation structure as described on page 8 which increases the number of restricted stock units awarded to directors upon initial election or appointment to the Board of Directors and annually on the date of re-election at the annual meeting; and awards to each non-employee director re-elected at the 2007 annual meeting of stockholders a one-time grant of 10,000 restricted stock units upon such re-election.

General Nature of the Directors Plan

The principal purposes of the Directors Plan are to provide incentives for independent directors to further the growth, development and financial success of Advanced Energy by personally benefiting through the ownership of Advanced Energy's common stock, and to obtain and retain the services of such individuals who are considered essential to the long term success of Advanced Energy through the grant or issuance of restricted stock, restricted stock units, and/or stock appreciation rights. Prior to the 2006 Amendment to the Directors Plan, grants of nonqualified stock options (NSOs) were included as part of the Directors Plan.

The principal features of the Directors Plan are summarized below, but the summary is qualified in its entirety by reference to the Directors Plan itself, which is included as Appendix A to this proxy statement.

Shares Reserved

Under the Directors' Plan, the aggregate number of shares of common stock that may be issued through restricted stock, restricted stock units, and/or upon the exercise of NSOs is 250,000 shares.

On March 12, 2007, the closing price of Advanced Energy's common stock on the Nasdaq Stock Market was \$21.10 per share.

Table of Contents

The shares of common stock available for issuance under the Directors' Plan are previously authorized and unissued shares. The Directors' Plan provides for appropriate adjustments in the number of shares subject to the Directors' Plan and to outstanding NSOs, restricted stock units, and shares of restricted stock thereunder in the event of a merger, consolidation, reorganization, recapitalization, stock dividend, stock split, reverse stock split, separation, liquidation or other change in the corporate structure or capitalization affecting Advanced Energy's shares. Shares subject to expired, surrendered or unexercisable NSOs, restricted stock, or restricted stock units, as applicable, are available for future issuance under the Directors' Plan.

Administration

The Directors' Plan is administered by a committee selected by the Board of Directors, consisting of at least two individuals each of whom is either a member of the board and not a non-employee director, or a senior officer of Advanced Energy who is not a member of the board.

The administrator is solely responsible for the interpretation, implementation and application of the Directors' Plan. With the approval of the Board of Directors, the administrator may suspend or discontinue the plan or revise or amend it in any respect whatsoever; provided, however, that without approval of the Company's stockholders no revision or amendment shall change the number of shares available for issuance under the plan (except in the event of a change in corporate structure or capitalization affecting the shares), change the designation of the class of individuals eligible to receive options or materially increase the benefits accruing to the Non-Employee Directors under the plan.

Awards Under the Directors' Plan

Currently, the Directors' Plan provides that a non-employee director will automatically receive 5,000 restricted stock units on the first date elected or appointed as a member of the board, and 2,000 restricted stock units on any date re-elected as a member of the board by Advanced Energy's stockholders. Restricted stock units awarded to non-employee directors vest as to 25% of the underlying shares on each annual anniversary of the grant date until fully vested on the fourth anniversary of the grant date.

The Directors' Plan also provides that a non-employee director, at the discretion of the administrator, may be awarded stock appreciation rights, which are rights to receive in cash the amount that the fair market value of a share exceeds a stated exercise price.

Any options previously granted under the Directors' Plan are not considered incentive stock options within the meaning of Section 422 of the Internal Revenue Code. Options granted under the Directors' Plan have an exercise price of at least 100% of fair market value of a share on the date of option grant. Fair market value means the closing sales price of a share on such date as reported on the principal exchange or market on which shares are then listed or admitted for trading.

An NSO granted upon the date first elected or appointed as a member of the board was immediately exercisable as to one-third of the shares subject to the grant, then another one-third on each of the next two anniversaries of the date granted. NSOs that were issued upon re-election vested immediately on the date granted.

The proposed amendment increases the amount of restricted stock units granted to non-employee directors on the first date elected or appointed as a member of the board from 5,000 to 15,000 restricted stock units; increases the amount of restricted stock units granted to non-employee directors annually on the date of re-election at the annual meeting from 2,000 to 6,000 restricted stock units; and awards to each non-employee director re-elected at the 2007 annual meeting of stockholders a one-time grant of 10,000 restricted stock units upon such re-election, with such award to

vest over a period of four years.

Terms of Awards

Awards of previously issued stock options under the Directors Plan generally expire after the earlier of (i) six months after the date the non-employee director ceases to be a member of the board, including by reason of death; (ii) the occurrence of a change in control; and (iii) the 10th anniversary of the date of grant. If a director has served

Table of Contents

continuously as a member of the board for at least five years, the period under subsection (i) above is eighteen months.

Generally, the exercise price may be paid in cash. At the discretion of the administrator, the exercise price may be paid by tender of shares of Advanced Energy stock having a fair market value not less than the exercise price, provided that these shares were owned by the non-employee director for a period of at least six months, or not acquired directly or indirectly from Advanced Energy.

Certain change of control transactions, such as a sale of Advanced Energy, may cause awards granted under the Directors Plan to vest, unless the awards are continued or substituted for in connection with the change of control transaction. In the event of a change of control, options will become fully exercisable as of the date which is seven days before the change in control transaction. Options that are not exercised by the date of the change of control transaction shall terminate and cease to be outstanding. Restricted stock and restricted stock units shall vest upon consummation of the change in control transaction.

In the event of any change in corporate structure or capitalization affecting shares, such as stock splits and other similar events, the Compensation Committee will make appropriate adjustments in outstanding awards and the number of shares available for issuance under the Directors Plan.

Certain Federal Income Tax Consequences

The federal income tax consequences of the Directors Plan under current federal income tax law are summarized in the following discussion which deals with the general tax principles applicable to the Directors Plan, and is intended for general information only. Alternative minimum tax and other federal taxes and foreign, state and local income taxes are not discussed, and may vary depending on individual circumstances and from locality to locality.

For federal income tax purposes, there are no immediate tax consequences of receiving an award of restricted stock units under the Directors Plan. A grantee who is awarded restricted stock units will be required to recognize ordinary income in an amount equal to the fair market value of shares issued to such grantee at the end of the restriction period or, if later, the payment date. If Advanced Energy complies with applicable reporting requirements, it will be entitled to a business expense deduction in the same amount and generally at the same time as the grantee recognizes ordinary income.

With respect to NSOs previously granted under the Directors Plan, upon exercise the optionee generally will realize ordinary income, and if Advanced Energy complies with applicable reporting requirements, it will be entitled to a business expense deduction in an amount equal to the difference between the option exercise price and the fair market value of the stock at the date of exercise.

The foregoing summarizes the principal United States federal income tax consequences to Advanced Energy and to non-employee directors who are residents in the United States. The summary is based on the current provisions of the Internal Revenue Code and the regulations thereunder and on Advanced Energy's understanding, in consultation with its legal counsel, of the current administrative practices of the Internal Revenue Service. Non-employee directors have been advised to obtain independent advice from their own tax advisors.

Required Vote

Approval of the proposed amendment to the Amended and Restated 2003 Non-Employee Directors Stock Option Plan requires the affirmative (**FOR**) vote of a majority of the shares of common stock cast on the matter. For purposes of determining the number of votes cast on the matter, only those cast For or Against are included. Abstentions and

broker non-votes are not included.

The Board of Directors recommends a vote FOR the amendment to the Amended and Restated 2003 Non-Employee Directors Stock Option Plan.

PROPOSAL NO. 3

AMENDMENT OF 2003 STOCK OPTION PLAN

The Board of Directors of Advanced Energy is submitting for stockholder approval an amendment of the 2003 Stock Option Plan (the 2003 Plan). We currently are authorized to issue up to 3,250,000 shares of common stock under the 2003 Plan. As of December 31, 2006, 1,125,298 of such shares remained available for issuance. On February 21, 2007, the Board of Directors approved, subject to approval by the stockholders of Advanced Energy, an increase in the number of common shares reserved for issuance under the plan from 3,250,000 shares to 6,750,000 shares. The Board of Directors has also approved, subject to approval by the stockholders of Advanced Energy, an amendment to the 2003 Plan to provide that a participant under the 2003 Plan is granted 90 days from the date of separation, regardless of the reason for separation, to exercise rights under the 2003 Plan. For grants made following the ratification of this amendment, participants will no longer be entitled to 180 days from the date of an involuntary separation without cause to exercise rights under the 2003 Plan.

General Nature of the 2003 Plan

The principal purposes of the 2003 Plan are to provide incentives for employees to further the growth, development and financial success of Advanced Energy by personally benefiting through the ownership of Advanced Energy s common stock, and to obtain and retain the services of such individuals who are considered essential to the long term success of Advanced Energy through the grant or issuance of options, restricted stock, restricted stock units and stock appreciation rights (collectively, Awards).

The principal features of the 2003 Plan are summarized below, but the summary is qualified in its entirety by reference to the 2003 Plan itself, which is included as Appendix B to this proxy statement.

Shares Reserved

Under the 2003 Plan, the aggregate number of shares of common stock that may be issued upon the exercise of options or any other Award is 3,250,000 shares.

On March 12, 2007, the average of the high and low price for a share of Advanced Energy s common stock on the NASDAQ Stock Market was \$21.23.

The shares of common stock available for issuance under the 2003 Plan are previously authorized and unissued shares. The 2003 Plan provides for appropriate adjustments in the number of shares subject to the 2003 Plan and to outstanding Awards thereunder in the event of a merger, consolidation, reorganization, recapitalization, stock dividend, stock split, reverse stock split, separation, liquidation or other change in the corporate structure or capitalization affecting Advanced Energy s shares. Available for future issuance under the 2003 Plan are (i) shares subject to expired, surrendered or unexercisable awards; (ii) shares which are forfeited; and (iii) shares retained by Advanced Energy upon the exercise of an option to satisfy the related withholding taxes.

Administration

The 2003 Plan is administered by the Compensation Committee, consisting of at least two members of the Board of Directors who are independent directors as defined by Rule 4200(a)(14) of the National Association of Securities Dealers listing standards.

The administrator is authorized to determine the individuals who will receive Awards (the Participants), fix the number of shares that each Participant may purchase, to determine the exercise price of the awards, whether options are to be incentive stock options (ISOs) or non-qualified stock options (NSOs), and to set the terms and conditions of each option, including the period over which the Award becomes exercisable, and all other matters relating to the administration and operation of the 2003 Plan. The administrator is also authorized to suspend or discontinue the 2003 Plan or revise and amend it in any respect whatsoever; provided, however, that without approval of Advanced Energy's stockholders no revision or amendment shall change the number of shares issuable, or effectively reduce the exercise price of any outstanding option under the 2003 Plan.

Table of Contents

Awards Under the 2003 Plan

The 2003 Plan provides that the administrator may grant options, both ISOs within the meaning of Section of 422 of the Internal Revenue Code and options which do not qualify as ISOs within the meaning of Section 422 of the Internal Revenue Code or NSOs, restricted stock, restricted stock units, and stock appreciation rights. Each award will be set forth in a separate written agreement.

Fair market value means the closing sale price of a share on such date as reported on the principal exchange or market on which shares are then listed or admitted for trading.

The exercise price of a NSO granted under the 2003 Plan may not be less than the fair market value of a share on the date of the option grant, and usually will become exercisable (at the discretion of the administrator) in one or more installments after the grant date. NSOs may not be granted for any term exceeding 10 years after the grant date.

ISOs will be designed to comply with the provisions of the Internal Revenue Code and will be subject to certain restrictions contained in the Internal Revenue Code. Among such restrictions, ISOs must have an exercise price not less than the fair market value of a share on the date of the option grant, may only be granted to employees, must expire within a specified period of time following the optionee's termination of employment, and must be exercised within 10 years after the date of grant; but may be subsequently modified to disqualify them from treatment as ISOs. In the case of an ISO granted to an individual who owns stock possessing at least 10% of the combined voting power of all classes of Advanced Energy, the 2003 Plan provides that the exercise price must be at least 110% of the fair market value of a share on the date of grant and the ISO must expire no later than the fifth anniversary of the date of its grant. The aggregate fair market value determined at the time of grant of shares with respect to which an ISO is first exercisable by a Participant during any calendar year cannot exceed \$100,000.

Restricted stock may be awarded to a person meeting the eligibility requirements discussed above. In general, restricted stock may not be sold, or otherwise transferred until vested. Holders of restricted stock, unlike recipients of options, will have voting rights and will receive dividends if declared by Advanced Energy, prior to vesting. The terms of all stock appreciation rights are determined by the 2003 Plan administrator.

Restricted stock units may be awarded to a person meeting the eligibility requirements discussed above. In general, restricted stock units are subject to the transferability restrictions applicable to options and will be forfeited upon termination of a Participant's service if they have not vested. Holders of restricted stock units will have no voting rights or rights to receive dividends until the date of issuance of restricted stock shares.

Stock appreciation rights may be awarded to a person meeting the eligibility requirements discussed above. In general, stock appreciation rights award a Participant the right to receive in cash the amount that the fair market value of a share exceeds a stated exercise price. The terms of all stock appreciation rights are determined by the 2003 Plan administrator.

Terms of Awards

The dates on which Awards under the 2003 Plan first become exercisable and on which they expire will be set forth in individual Award agreements. These agreements generally will provide that Awards expire upon termination of the Participant's employment, although the administrator may provide that such Awards continue to be exercisable following a termination, or because of the Participant's death, disability or otherwise.

Generally, the exercise price may be paid in cash, by check, or in cash equivalent. At the discretion of the administrator, the exercise price may be paid by tender of shares of Advanced Energy stock having a fair market value not less than the exercise price.

At the time of certain change of control transactions, such as a sale of Advanced Energy, the surviving, continuing, successor, or purchasing corporation (the Acquirer) may either assume Advanced Energy's rights and obligations with respect to outstanding options or substitute for outstanding options substantially equivalent options for the Acquirer's stock. In the case of restricted stock and restricted stock units, an Acquirer has no obligation to assume or substitute an award of unvested shares, and any such shares will be forfeited.

Table of Contents

In the event of any change in corporate structure or capitalization affecting shares, such as stock splits and other similar events, the Compensation Committee will make appropriate adjustments in outstanding awards and the number of shares available for issuance under the 2003 Plan, including the individual limitations on awards.

Certain Federal Income Tax Consequences

The federal income tax consequences of the 2003 Plan under current federal income tax law are summarized in the following discussion which deals with the general tax principles applicable to the 2003 Plan, and is intended for general information only. In addition, the tax consequences described below are subject to the limitations of Internal Revenue Code Section 162(m), as discussed in further detail below. Alternative minimum tax and other federal taxes and foreign, state and local income taxes are not discussed, and may vary depending on individual circumstances and from locality to locality.

For federal income tax purposes, the recipient of NSOs granted under the 2003 Plan will not have taxable income upon the grant of the option, nor will Advanced Energy then be entitled to any deduction. Generally, upon exercise of NSOs the optionee will realize ordinary income, and Advanced Energy will be entitled to a deduction, in an amount equal to the difference between the option exercise price and the fair market value of the stock at the date of exercise.

An optionee generally will not recognize taxable income upon either the grant or exercise of an ISO. However, the amount by which the fair market value of the shares at the time of exercise exceeds the exercise price will be an item of tax preference for the optionee for purposes of the alternative minimum tax. Generally, upon the sale or other taxable disposition of the shares of common stock acquired upon exercise of an ISO, the optionee will recognize income taxable as capital gains in an amount equal to the excess, if any, of the amount realized in such disposition over the option exercise price, provided that no disposition of the shares has taken place within either (a) two years from the date of grant of the ISO or (b) one year from the date of exercise. If the shares of stock are sold or otherwise disposed of before the end of the one-year and two-year periods specified above, the difference between the ISO exercise price and the fair market value of the shares on the date of exercise generally will be taxable as ordinary income; the balance of the amount realized from such disposition, if any, generally will be taxed as capital gain. If the shares of stock are disposed of before the expiration of the one-year and two-year periods and the amount realized is less than the fair market value of the shares at the date of exercise, the optionee's ordinary income generally is limited to the excess, if any, of the amount realized in such disposition over the option exercise price paid. Advanced Energy (or other employer corporation) generally will be entitled to a tax deduction with respect to an ISO only to the extent the optionee has ordinary income upon sale or other disposition of the shares of stock.

An option will only qualify as an ISO to the extent that the aggregate fair market value of the shares with respect to which the option becomes exercisable for the first time in any calendar year is equal to or less than \$100,000. For purposes of this rule, the fair market value of shares shall be determined as of the date the ISO is granted. To the extent an ISO is exercisable for shares in excess of this \$100,000 limitation, the excess shares shall be taxable under the rules for NSOs described above.

A Participant to whom restricted stock is issued will not have taxable income upon issuance and Advanced Energy will not then be entitled to a deduction, unless an election is made under Section 83(b) of the Internal Revenue Code. However, when restrictions on shares of restricted stock lapse, such that the shares are no longer subject to repurchase by us, the Participant will realize ordinary income and we will be entitled to a deduction in an amount equal to the fair market value of the shares at the date such restrictions lapse, less the purchase price. If an election is made under Section 83(b) with respect to restricted stock, the Participant will realize ordinary income at the date of issuance equal to the difference between the fair market value of the shares at that date less the purchase price therefore and Advanced Energy will be entitled to a deduction in the same amount.

There are no immediate tax consequences of receiving an award of restricted stock units under the 2003 Plan. A Participant who is awarded restricted stock units will be required to recognize ordinary income in an amount equal to the fair market value of shares issued to such grantee at the end of the restriction period or, if later, the payment date. If Advanced Energy complies with applicable reporting requirements and with the restrictions of

Table of Contents

Section 162(m) of the Internal Revenue Code, it will be entitled to a business expense deduction in the same amount and generally at the same time as the Participant recognizes ordinary income.

No taxable income is generally recognized by the Participant upon the receipt of a stock appreciation right, but upon exercise of the stock appreciation right, the cash received generally will be taxable as ordinary income to the Participant in the year of such exercise. Advanced Energy generally will be entitled to a compensation deduction for the same amount that the Participant recognizes as ordinary income.

Under Internal Revenue Code Section 162(m), in general, income tax deductions of publicly-traded companies may be limited to the extent total compensation (including base salary, annual bonus, stock option exercises and nonqualified benefits paid in 1994 and thereafter) for certain executive officers exceeds \$1 million in any one taxable year. However, under Internal Revenue Code Section 162(m), the deduction limit does not apply to certain performance-based compensation established by an independent compensation committee which conforms to certain restrictive conditions stated under the Internal Revenue Code and related regulations. The 2003 Plan has been structured with the intent that Awards granted under the 2003 Plan may meet the requirements for performance-based compensation and Internal Revenue Code Section 162(m), at the administrator's discretion. Restricted stock granted under the 2003 Plan may qualify as performance-based under Internal Revenue Code Section if it vests based solely upon the performance criteria.

The foregoing summarizes the principal United States federal income tax consequences to Advanced Energy and to optionees who are residents in the United States. The summary is based on the current provisions of the Internal Revenue Code and the regulations thereunder and on Advanced Energy's understanding, in consultation with its legal counsel, of the current administrative practices of the Internal Revenue Service. Participants have been advised to obtain independent advice from their own tax advisors.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

Our Company's long-term success depends on our ability to fulfill the expectations of our customers in a competitive environment and deliver value to shareholders. To achieve these goals, it is critical that we be able to attract, motivate, and retain highly talented individuals at all levels of the organization who are committed to the Company's values and objectives.

The Company's executive compensation programs are based on the same objectives that guide the Company in establishing all of its compensation programs:

Compensation should be based on the level of job responsibility, individual performance, and Company performance. As employees progress to higher levels in the organization, an increasing proportion of their pay should be linked to Company performance and shareholder returns because those employees are more able to affect the Company's results.

Compensation should reflect the value of the job in the marketplace. To attract and retain a highly skilled workforce, we must remain competitive with the pay of other premier employers who compete with us for talent.

Compensation should reward performance. Our programs should deliver top-tier compensation for top-tier individual performance and Company success, and should deliver correspondingly lower compensation where performance falls short of expectations. In addition, objectives of pay-for-performance and retention must be balanced.

Compensation should foster the long-term focus required for the Company's success. While many Company employees receive a mix of both annual and longer-term incentives, employees at higher levels have an increasing proportion of their compensation tied to longer-term performance because they are in a greater position to influence longer-term results.

To be effective, employees must be able to understand how performance-based compensation programs affect their pay, both directly through individual performance accomplishments and indirectly through the Company's achievement of its strategic and operational goals.

While compensation programs and individual pay levels will always reflect differences in job responsibilities, geographies, and marketplace considerations, the overall structure of the compensation and benefit programs should be broadly similar and egalitarian across the organization.

Overview of Compensation Program

The Compensation Committee

The Compensation Committee of the Board has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Compensation Committee strives to develop and maintain competitive, progressive programs that attract, retain and motivate high-caliber executives, foster teamwork and maximize the long-term success of Advanced Energy by appropriately rewarding individuals for their

achievements. We believe that the total compensation of executives should be based on both individual performance and the Company's operating results. As a result, our executive compensation program includes cash bonuses and equity-based incentives in addition to base salary.

From January 2006 until July 2006, the Compensation Committee consisted of Mr. Spedden (Chairman), Messrs. Bronson and Doan, and Dr. Posner. In July 2006, Mr. Rohrs replaced Mr. Bronson as a member of the Compensation Committee. Each of the members of the Compensation Committee is a non-employee director within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934, an outside director within the meaning of Section 162(m) under the Internal Revenue Code and an independent director within the meaning of

Table of Contents

Rule 4200(a)(15) of the Marketplace Rules of the Nasdaq National Market. The Compensation Committee met five times in 2006.

The Compensation Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and that aligns interests of executives with those of the stockholders by rewarding performance above established goals, with the ultimate objectives of exceeding corporate expectations and improving stockholder value. The Compensation Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that each element of compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies.

On occasion, the Compensation Committee meets with the Company's Chief Executive Officer and other senior executives in order to obtain recommendations with respect to the Company's compensation programs and practices for executives and other employees. With support from market compensation data, management makes recommendations to the Compensation Committee on the base salaries, bonus targets and equity compensation for the executive team and other employees. The Compensation Committee considers, but is not bound to and does not always accept, management's recommendations with respect to executive compensation.

While management attends certain meetings of the Compensation Committee, the Compensation Committee also regularly holds executive sessions not attended by any members of management or by non-independent directors. The Compensation Committee makes all compensation decisions for the executive officers and approves recommendations regarding equity awards to all officers of the Company. The Chief Executive Officer annually reviews the performance of each executive officer (other than Chief Executive Officer himself, whose performance is reviewed by the Compensation Committee in executive session). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual stock options or other equity award amounts, are presented to the Compensation Committee. The Compensation Committee can exercise its discretion in modifying those recommended options.

The Compensation Committee has the authority to engage its own independent advisors to assist in making determinations with respect to the compensation of executives and other employees. The Compensation Committee engaged Compensation Strategies in 2006 to provide updated market data regarding the compensation practices of Advanced Energy's peer companies along with comparisons of the Company's practices with respect to best practices within the industry. Compensation Strategies, Inc. has not provided any other services to the Company and has received no compensation other than with respect to the services provided to the Compensation Committee.

Benchmarking

In making compensation decisions, the Compensation Committee compares compensation paid to executives of a peer group of companies. The peer group typically includes a range of companies with which the Compensation Committee believes the Company competes for talent or from which the Company is likely to recruit talent. For 2006, the Compensation Committee considered major high technology competitors for executive talent and companies of a size and scope at least similar to that of Advanced Energy as measured by market capitalization, revenue, net income and total shareholder return, and as appropriately size-adjusted. For 2006, the companies comprising this group of peer companies (the Compensation Peer Group) were:

Applied Films Corp.	Credence Systems Corp.	Novellus Systems., Inc.
Applied Materials, Inc.	Cymer	Photon Dynamics, Inc.
Asyst Techs., Inc.	Entegris, Inc	Photronics, Inc.

Atmi, Inc.	FSI Int l, Inc.	Rudolph Techs., Inc.
Axcelis Techs., Inc.	KLA-Tencor Corp.	Ultratech, Inc.
Brooks Automation, Inc.	LAM Research Corp.	Varian Semiconductor Equipment Associates.
Cognex Corp.	Mattson Tech., Inc.	Veeco Instruments, Inc.
Coherent, Inc.	MKS Instruments, Inc.	

Table of Contents

To assist in the benchmarking process, the Compensation Committee in 2006 specifically requested that Compensation Strategies conduct reviews of the Company's total compensation program for officers and directors of the Company as well as for other senior managers and executives as compared to the Compensation Peer Group. Compensation Strategies provided the Compensation Committee with relevant market data, competitive assessments of the Company's compensation practices compared to those of the Compensation Peer Group, and alternatives to consider when making compensation decisions for the executive officers of the Company.

Components of Executive Compensation

For the fiscal year ended December 31, 2006, the principal components of compensation for named executive officers were: (1) Base Salary, (2) Performance-Based Incentive Compensation, (3) Long-Term Equity Incentive Compensation, (4) Personal Benefits and Perquisites, and (5) Other Compensation.

Base Salary

The Company provides executive officers and other employees with a base salary to compensate for services rendered during the fiscal year. Base salaries are set at levels sufficient to attract and retain highly talented executives capable of fulfilling the Company's key objectives while encouraging the executives to strive for performance-based and long-term incentives in addition to their base salaries. Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility.

2006 base salaries for the executive officers as shown on the Summary Compensation Table were set between the 40th and 60th percentile of the salaries paid to executive officers in comparable positions as reported by the Compensation Peer Group. In fixing the base salary of each executive, including any merit increase awarded over the prior year, the Compensation Committee also considered individual performance of the executive, including the executive's future potential and the scope of his or her responsibilities and experience; an internal review of the executive's current total compensation, both individually and relative to other executive officers; and financial performance of the Company during the prior year.

Performance-Based Incentive Compensation

The Company provides executive officers and other employees with annual cash incentive bonuses linked to specific, near-term goals. The Company provides this element of compensation to executives to motivate superior performance and results during the fiscal year, including the achievement of key strategic initiatives and operating results beyond normal and acceptable expectations.

In 2006, the executive officers, including the Chief Executive Officer, were eligible to participate in incentive awards to be distributed from a bonus pool based upon the company's operating results in 2006. Under the bonus plan, the company funded a bonus pool equal to 10% of the company's 2006 operating income, plus stock-based compensation expense, provided that 2006 annual revenue was at least \$320 million and post-bonus operating income was at least 10%. Based on this formula, the funded bonus pool amount for 2006 was \$8.6 million.

Individual participants were eligible for bonuses under the plan based upon each participant's pre-established target bonus, accomplishment of specific individual performance objectives determined by management, overall individual performance, and consideration of the total size of the bonus pool. While base salaries are set to be centered at the 50th percentile as compared to those for comparable positions as reported by the Compensation Peer Group, the Compensation Committee targets incentive compensation at approximately the 65th percentile in order to provide higher incentive compensation opportunity and reward exceptional goal achievement, thereby allowing total compensation to be more competitive as a whole while taking into account business cyclicity. Target bonuses for

executives in 2006 were:

Chief Executive Officer 70% of base salary

Executive Vice Presidents including Chief Operating Officer and Chief Financial Officer 50% of base salary

Table of Contents

Senior Vice Presidents, Vice Presidents and other key leaders up to 30% of base salary

Individual performance objectives applicable to the participants were set based upon profitability, growth, quality or other goals that would exceed performance expectations under the Company's 2006 annual operating plan. Individual performance objectives were set to reward exceptional individual performance with bonus modifiers based on the individual's performance above target amounts, up to a maximum of 150% of such participant's target bonus. In accordance with the goal of retaining key talent, an executive was required to remain an employee for the entire fiscal year to be eligible for any award under the incentive bonus plan.

In February 2007, the Compensation Committee awarded full year 2006 cash bonuses to the Executive Officers and to eligible employees based upon results of operations that exceeded expectations in the full year 2006. For the year ending 2006, the Compensation Committee awarded to Dr. Betz an individual performance modifier of 1.45 to his target bonus amount of 70% of base salary in recognition of Dr. Betz's accomplishments in completing the business turnaround of the Company and in positioning the Company for growth in new markets. With the performance modifier of 1.45, Dr. Betz's incentive award earned under the bonus plan was \$542,923. The Compensation Committee approved management's recommendation that Mr. Rhoades be awarded an individual performance modifier of 1.50 in recognition of his accomplishments in substantially improving operating margins, inventory management, and below-the-line costs which contributed directly to the Company's exceptional operating results for 2006. With the performance modifier of 1.50 to his target bonus amount of 50% of base salary, Mr. Rhoades' incentive award earned under the bonus plan was \$254,025. The Compensation Committee also approved management's recommendation that Mr. Firestone be awarded an individual performance modifier of 1.40 in recognition of his accomplishments in implementing significant improvements in governance processes and in building relationships within the investor community. With the performance modifier of 1.40 to his target bonus amount of 50% of base salary, Mr. Firestone's incentive award earned under the bonus plan (as prorated for term of service) was \$77,501.

Certain of the executive officers and other key leaders were also eligible in 2006 for additional incentive bonuses relating to two specific Company growth objectives. Under this plan, additional bonus pool fundings of \$500,000 each were available for achievement of target goals relating to (a) increasing revenue or achieving design wins with respect to a specified customer in the company's core markets, and (b) penetrating emerging and new markets using the company's core technology. In February 2007, the Compensation Committee authorized the payment of \$500,000 of the additional incentive bonus based upon achievement of the second of the two objectives, to be shared among 11 participants deemed by the Compensation Committee to have contributed directly to the achievement of the objective. Dr. Betz, Mr. Rhoades, and Mr. Guilmart were each awarded an equal share of \$45,596 of the additional incentive bonus, while Mr. Firestone was awarded a prorated share of \$20,481 based on their time in service during 2006.

Long-Term Equity Incentive Compensation

The Company provides executive officers and other employees with long-term equity incentives. In 2006, these incentives were provided in the form of stock options and restricted stock units that vest over a period of time, typically four years. The Company provides this element of compensation to executives in order to align their interests with those of the Company's shareholders and focus their attention on the long-term performance of the company.

Equity-based incentives are granted under the Company's stockholder-approved 2003 Stock Option Plan, as amended January 31, 2005. The Compensation Committee has granted equity awards at its scheduled meetings or by unanimous written consent, and the grants become effective and are priced based on the closing price on the date of such approval. All stock option grants have a per share exercise price equal to the fair market value of the Company's common stock on the grant date. The grant dates of equity compensation awards to executives are not set in anticipation of the release of material non-public information that is likely to result in changes to the price of the

Company's stock.

In 2006, the Company continued its practice of awarding a portion of executive officers' equity-based incentives in the form of time-vested restricted stock units. The number of options and restricted stock units granted to each executive officer in 2006 as shown on the Summary Compensation Table was based upon a review by the

Table of Contents

Compensation Committee of each executive officer's base salary, bonus potential, and individual performance and accomplishments, with the result in each case aimed at achieving total equity compensation between the 40th and 60th percentile of the total equity compensation paid to executive officers in comparable positions as reported by the Compensation Peer Group, based upon data contained in market research commissioned by the Compensation Committee in 2004.

Following presentation of the supplemental compensation study in 2006 by Compensation Strategies, the Compensation Committee determined that equity-based incentives awarded to executives for 2006 had trailed market trends for the Compensation Peer Group. No adjustments to 2006 equity awards were made by the Compensation Committee. In approving equity awards to executives for 2007, however, the Compensation Committee took into account the revised market data. The Compensation Committee also determined that the practice of awarding a portion of equity compensation to executives in the form of restricted stock units should be discontinued, and that future awards would be in the form of stock options only. The Compensation Committee also determined that the amount of total executive equity-based compensation should be raised beginning in 2007 to target at approximately between the 60th to 70th percentile of that awarded for comparable positions as reported by the Compensation Peer Group, in order to place greater emphasis on the goals of retention and growth and to ensure stronger alignment between executive performance and shareholder interests.

Personal Benefits and Perquisites

As U.S. employees, the executives were eligible to participate in health, welfare, and paid time off benefits, as offered to our U.S. workforce, designed to attract and retain its workforce in a competitive marketplace. These benefits help ensure that the Company has a healthy and focused workforce through reliable and competitive health and other personal benefits.

All U.S. employees of the Company, including the executive officers, are eligible to participate in the Company's 401(k) savings plan and are eligible to receive matching contributions by the Company 25 percent of the first 6 percent of compensation contributed to the plan by the employee.

In 2006, each of Dr. Betz, Mr. Rhoades, Mr. Firestone, and Mr. Guilmart were paid car allowances of \$15,750, \$6,825, \$1,802, and \$6,825, respectively, in accordance with historical practices. As of fiscal year 2007, these allowances have been eliminated as a component of executive compensation.

Other Compensation

The Company is a party to a Change in Control (CIC) Agreement with each of the Chief Executive Officer, Chief Operating Officer, and the Chief Financial Officer. The CIC agreements provide each of these executives with severance payments and certain benefits in the event of a termination without Cause or other involuntary termination. The Company entered into the CIC agreements in order to keep management focused on the Company's stated corporate objectives irrespective of whether the achievement of such objectives makes the Company attractive for acquisition, and to avoid the distraction and loss of key management that could occur in connection with a rumored or actual change in corporate control.

In the event of an executive's termination without cause in the absence of an actual or pending change in control, the executive is entitled to receive: (a) all then accrued compensation and a pro-rata portion of executive's target bonus for the year in which the termination is effected, (b) a lump sum payment equal to the executive's then current annual base salary plus his or her target bonus for the year in which the termination is effected, (c) continuation of insurance and other benefits for 12 months following the date of termination, (d) an amount equal to the contributions that would have been made to the company's retirement plans on behalf of executive, if the executive had continued to be

employed for 12 months following the date of termination, and (e) reimbursement, up to \$15,000, for outplacement services.

In the event of an executive's termination without cause following an actual or during a pending change in control, the executive is entitled to receive: (a) all then accrued compensation and a pro-rata portion of executive's target bonus for the year in which the termination is effected, (b) a lump sum payment equal to 1.75 times (i) the executive's then current annual base salary plus (ii) his or her target bonus for the year in which the termination is

effected, (c) continuation of insurance and other benefits for 21 months following the date of termination, (d) an amount equal to the contributions that would have been made to the company's retirement plans on behalf of executive, if the executive had continued to be employed for 21 months following the date of termination, and (e) reimbursement, up to \$15,000, for outplacement services. In addition, all stock options and other equity awards then held by the executive so terminated become fully vested and exercisable.

Tax and Accounting Implications

Section 162(m) of the Internal Revenue Code of 1986 generally limits to \$1 million the corporate deduction for compensation paid to certain executive officers, unless the compensation is performance-based (as defined in Section 162(m)). Each of the Board of Directors and the Compensation Committee has carefully considered the potential impact of this limitation on executive compensation and has determined it to be in the best interests of Advanced Energy and the stockholders to seek to qualify as tax deductible virtually all executive compensation. The Board of Directors and the Compensation Committee also recognize the need to consider factors other than tax deductibility in making compensation decisions and thus reserve the flexibility to award compensation that is not necessarily performance-based.

Compensation Committee Interlocks and Insider Participation

The current members of the Compensation Committee are Mr. Spedden (Chairman), Messrs. Doan and Rohrs, and Dr. Posner. None of such directors is or has been an officer or employee of Advanced Energy, nor has any of such persons had a direct or indirect interest in any business transaction with Advanced Energy involving an amount in excess of \$120,000 or any other interlock relationship required to be reported under the rules of the Securities and Exchange Commission.

During 2006, no executive officer of Advanced Energy served as a member of the board of directors or compensation committee of another company that has any executive officers or directors serving on Advanced Energy's Board of Directors or its Compensation Committee.

Policies and Procedures with Respect to Related Party Transactions

The Board is committed to upholding the highest legal and ethical standards of conduct in fulfilling its responsibilities and recognizes that transactions with the Company involving related parties can present a heightened risk of potential or actual conflicts of interest. Accordingly, as a general matter, it is the policy of the Company to avoid related party transactions.

Although the Company has not memorialized its policy with respect to related party transactions, discussion of related party transactions is included as an agenda item for Audit and Finance Committee meetings as needed. The Audit and Finance Committee discusses in detail every related party transaction identified by the Company's directors and officers. The Audit and Finance Committee, all of whose members are independent directors, must review and approve all related party transactions for which such approval is required under applicable law, including SEC and

Nasdaq rules. Current SEC rules define a related party transaction to include any transaction, arrangement or relationship in which the Company is a participant and in which any of the following persons has or will have a direct or indirect interest:

an executive officer, director or director nominee of the Company;

any person who is known to be the beneficial owner of more than 5% of the Company's common stock;

any person who is an immediate family member (as defined under Item 404 of Regulation S-K) of an executive officer, director or director nominee or beneficial owner of more than 5% of the Company's common stock;

Table of Contents

any firm, corporation or other entity in which any of the foregoing persons is employed or is a partner or principal or in a similar position or in which such person, together with any other of the foregoing persons, has a 5% or greater beneficial ownership interest.

In addition, the Audit and Finance Committee is responsible for reviewing and investigating any matters pertaining to the integrity of management, including conflicts of interests and adherence to the Company's Code of Ethical Conduct. Under the Code of Ethical Conduct, directors, officers and all other members of the workforce are expected to avoid any relationship, influence or activity that would cause or even appear to cause a conflict of interest.

Certain Relationships and Related Transactions

Advanced Energy leases its executive offices and certain manufacturing facilities in Fort Collins, Colorado from Prospect Park East Partnership and from Sharp Point Properties, LLC,. Aggregate payments under such leases for 2006 totaled approximately \$3.2 million. Douglas S. Schatz, Chairman of the Board of Advanced Energy, holds a 26.67% member interest in each of these leasing entities. Mr. Schatz did not participate in the negotiations of these leases. At the time of the negotiations, Advanced Energy compared the lease rates and other terms of similar properties in the Fort Collins area. Advanced Energy believes that the lease rates and other terms of the leases with Prospect Park East Partnership and Sharp Point Properties, LLC are no less favorable to Advanced Energy than could have been obtained from a third-party lessor of similar property. Future minimum lease payments related to these properties is \$17.9 million.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires Advanced Energy's executive officers and directors and persons who own more than ten percent of the outstanding common stock (reporting persons) to file with the Securities and Exchange Commission an initial report of ownership on Form 3 and changes in ownership on Forms 4 and 5. The reporting persons are also required to furnish Advanced Energy with copies of all forms they file. Based solely on its review of the copies of forms received by it and written representations from the reporting persons, Advanced Energy believes that each of the reporting persons timely filed all reports required to be filed in 2006 or with respect to transactions in 2006.

AMENDED AND RESTATED FEBRUARY 15, 2006

1. *PURPOSE.* The purpose of the Plan is to attract and retain the services of experienced and knowledgeable non-employee directors of Advanced Energy Industries, Inc., and to provide an incentive for such directors to increase their proprietary interests in the Company's long-term success and progress.

2. *DEFINITIONS.* Whenever the following terms are used in the Plan, they shall have the meaning indicated below, unless a different meaning is required by the context.

(a) Administrator means the administrative committee described in Section 3.

(b) Board means the board of directors of the Company.

(c) Company means Advanced Energy Industries, Inc., a Delaware corporation.

(d) Non-Employee Director means any member of the Board who is a non-employee director within the meaning of Rule 16b-3(b)(3)(i) under Section 16 of the Securities Exchange Act of 1934 ("1934 Act").

(e) Plan means this Advanced Energy Industries, Inc. Amended and Restated 2003 Non-Employee Directors Stock Option Plan.

(f) Share means one share of common stock of the Company.

3. *ADMINISTRATION.* The Plan shall be administered by a committee selected by the Board consisting of at least 2 individuals each of whom is either (i) a member of the Board and not a Non-Employee Director or (ii) a senior officer of the Company who is not a member of the Board. Subject to the provisions of the Plan, the Administrator shall have the authority to determine all other matters relating to administration and operation of the Plan. All questions of interpretation, implementation, and application of the Plan shall be determined by the Administrator in its sole discretion. Such determinations shall be final and binding on all persons.

4. *SHARES SUBJECT TO THE PLAN.* The maximum number of Shares that may be issued pursuant to awards granted under the Plan is two hundred fifty thousand (250,000), subject to adjustment as provided in Section 6(b) and subject to limited re-issuance as indicated below. If an award expires, is surrendered, or in the case of options becomes unexercisable without having been exercised in full, the unissued or retained Shares shall become available for future grant under the Plan. Other Shares that actually have been issued under the Plan pursuant to an award shall not be returned to the Plan and shall not become available for future grant under the Plan.

5. *ELIGIBILITY.* A Non-Employee Director may receive awards under this Plan on the terms and conditions set forth in Sections 6 and 7. No other person may benefit under this Plan.

6. *GENERAL TERMS AND CONDITIONS.*

(a) Automatic Grants. On and after the date of the annual meeting of the Company's stockholders to be held in 2006, and subject to adjustment under Section 6(b), a Non-Employee Director will automatically receive five thousand (5,000) Restricted Stock Units on the date first elected or appointed as a member of the Board and (ii) two thousand (2,000) Restricted Stock Units on any date re-elected (or first elected after an appointment) as a member of the Board by the Company's stockholders. Any such grant will be subject to the terms and conditions set forth in this Plan, and will be evidenced by written notice in such form as the Administrator shall determine. Pursuant to Section 7, the form of award granted may be changed from time to time by resolution of the Board of Directors.

(b) Changes in Capitalization or Corporate Transaction. In the event of any merger, consolidation, reorganization, recapitalization, stock dividend, stock split, reverse stock split, separation, liquidation or other change in the corporate structure or capitalization affecting the Shares, appropriate adjustment shall be made by the

Table of Contents

Administrator in the kind, price, and number of shares of stock (including, but not limited to, the maximum number of Shares reserved under the Plan) that are or may become subject to the Plan. If in connection with the change the Company ceases to exist, the surviving or successor entity must either assume the Company's rights and obligations with respect to outstanding awards or substitute for outstanding awards substantially equivalent awards for equity interests in the entity. If there is no surviving or successor entity, a Non-Employee Director's outstanding option shall become fully vested and exercisable as of the date seven (7) calendar days before the change. Restricted Stock and Restricted Stock Units shall vest upon consummation of the change. The exercise of any option that was permissible solely by reason of the change shall be conditioned upon consummation of the change. Options that are neither assumed, substituted nor exercised as of the time of the change shall terminate and cease to be outstanding.

(c) Amendment. The Administrator shall have the power to modify, extend, or renew an outstanding award granted under this Plan, in a manner consistent with the terms of the Plan, provided that any such action may not significantly impair the award holder's rights without his or her consent. However, the Company will not reduce the exercise price of any outstanding option or cancel outstanding options and grant replacement options with a lower exercise price without the prior approval of the shareholders.

7. AWARDS.

(a) Awards may take the form of Restricted Stock Units, Restricted Stock and/or Stock Options. The form of award granted under the Plan may be changed from time to time by resolution of the Board of Directors. Restricted Stock Units will be granted upon approval of this amended and restated Plan.

(b) Restricted Stock Units

i) Vesting. Restricted Stock Units shall vest over a period of time to be established by the Administrator at the time of grant. Each award of Restricted Stock Units may be subject to a different vesting schedule. At the time of the grant, the Administrator may, in its sole discretion, prescribe restrictions in addition to or other than the expiration of the vesting period, including the satisfaction of corporate or individual performance objectives, which may be applicable to all or any portion of the Restricted Stock Units.

ii) Payment for Shares. At the time Shares are issued to the Non-Employee Director pursuant to Restricted Stock Units, the Non-Employee Director shall be required, to the extent required by applicable law, to purchase such Shares from the Company at a purchase price equal to the aggregate par value of the Shares represented by such Restricted Stock. The purchase price, if any, shall be payable in cash or, in the discretion of the Administrator, in consideration for past Services rendered to the Company or for such other form of consideration determined by the Administrator.

iii) Withholding Taxes. The Company shall have the right to deduct from the Shares issuable pursuant to Restricted Stock Units, or to accept from the Non-Employee Director the tender of, a number of whole Shares having a fair market value, as determined by the Administrator, equal to all or any part of the federal, state, local and foreign taxes, if any, required by law to be withheld by the Company with respect to the Restricted Stock Units or the Shares acquired pursuant thereto. Alternatively or in addition, in its sole discretion, the Company shall have the right to require Non-Employee Director, through payroll withholding, cash payment or otherwise, to make adequate provision for any such tax withholding obligations of the Company arising in connection with the Restricted Stock Units or the Shares acquired pursuant thereto.

iv) Termination of Service. Unless otherwise provided in an Award Agreement or in writing after the Award Agreement is issued, upon the termination of the Non-Employee Director's Service, any Restricted Stock Units held by such Non-Employee Director that have not vested, or with respect to which all applicable restrictions and conditions have not lapsed, shall immediately be deemed forfeited. Upon forfeiture of Restricted Stock Units, the grantee shall

have no further rights with respect to such award.

v) Transferability. Restricted Stock Units granted under the Plan are not transferable by the Non-Employee Director; provided, however, that a restricted stock unit may be transferred upon the approval of the Administrator (in its sole discretion) by appropriate instrument pursuant to a domestic relations order described in Rule 16a-12 of the 1934 Act or to an inter vivos or testamentary trust in which the option is to be passed to the Non-Employee Director's beneficiaries upon the Non-Employee Director's death or by gift

to his or her immediate family (consisting of the Non-Employee Director's child, stepchild, grandchild, parent, stepparent, grandparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships). Any other purported transfer shall be null and void.

vi) *Rights of a Holder*. A Non-Employee Director shall have no rights as a shareholder with respect to the Shares covered by his or her Restricted Stock Units until the date of the issuance to him or her of a share certificate for the Shares, and no adjustment will be made for dividends or other rights for which the record date is prior to the date the certificate is issued. A holder of Restricted Stock Units shall have no rights other than those of a general creditor of the Company. Restricted Stock Units shall represent an unfunded and unsecured obligation of the Company, subject to the terms and conditions of the applicable award agreement.

(c) Restricted Stock

i) *Vesting*. An award under this section may condition the vesting of Shares on the performance of future services by the eligible person, and may alternatively or additionally condition the vesting of Shares on such other performance-related conditions that the Administrator shall impose in its sole discretion.

ii) *Transferability*

(1) An unvested Share will not be transferable by the Non-Employee Director until it becomes vested. The Company shall receive a stock power duly endorsed in blank with respect to restricted Shares, and the related stock certificate shall bear the following legend:

(a) The transferability of this certificate and the shares of stock represented hereby are subject to the restrictions, terms and conditions (including forfeiture provisions and restrictions against transfer) contained in the Advanced Energy Industries, Inc. 2003 Non-Employee Directors' Stock Option Plan and an award agreement entered into between the registered owner of such shares and Advanced Energy Industries, Inc. A copy of the plan and agreement is on file in the office of the Secretary of Advanced Energy Industries, Inc.

(2) Such legend shall be removed from the certificate only after the Shares vest. Each certificate issued with respect to Shares subject to this section, together with the stock powers related to the Shares, shall be deposited by the Company with a custodian designated by the Company (and which may be the Company or an affiliate).

iii) *Voting Rights and Dividends*. Unvested Shares may be voted by the holder of such Shares. Dividends payable with respect to unvested Shares will be paid to the holder of the Shares without regard to restrictions.

(d) Options

i) *Options Are Not Qualified*. Options granted under the Plan are not incentive stock options described in Internal Revenue Code Section 422.

ii) *Transferability*. Options granted under the Plan are not transferable by the Non-Employee Director and shall be exercisable during the Non-Employee Director's lifetime only by the Non-Employee Director; provided, however, that an option may be transferred upon the approval of the Administrator (in its sole discretion) by appropriate instrument pursuant to a domestic relations order described in Rule 16a-12 of the 1934 Act or to an inter vivos or testamentary trust in which the option is to be passed to the Non-Employee Director's beneficiaries upon the Non-Employee Director's death or by gift to his or her immediate family (consisting of the Non-Employee Director's child, stepchild, grandchild, parent, stepparent, grandparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships). Except as provided in Section 7(d)(vi), no option or

interest therein may be otherwise transferred, assigned, pledged, or hypothecated by a Non-Employee Director, whether by operation of law or otherwise, or be made subject to execution, attachment, or similar process. Any such purported assignment, sale, transfer, delegation, or other disposition shall be null and void.

Table of Contents

iii) *Exercise Price*. The exercise price of an option shall be not less than one hundred percent (100%) of the fair market value of a Share on the date of grant. The fair market value of a Share as of any date means the closing sale price of a Share on such date (or previous business day if such date is not a business day) on the principal exchange or market on which Shares are then listed or admitted to trading. If, for any reason, the preceding rule cannot be applied to determine fair market value, then the Administrator shall make a good faith determination of fair market value.

iv) *Vesting*. An option shall be immediately and fully exercisable (i.e., vested) on the date granted; provided, however, that the option awarded on the date first elected or appointed as a member of the Board shall instead (i) be immediately exercisable to the extent of one-third of the Shares subject to the option upon grant, then another one-third of such Shares on each of the next two anniversaries of the date granted, and (ii) become fully exercisable upon a Change in Control while the optionee is a member of the Board, as provided in Section 10. Notwithstanding clauses (i) and (ii) of the preceding sentence, no additional vesting will occur after the date the Non-Employee Director ceases to be a member of the Board.

v) *Payment of Exercise Price*. An option may be exercised in whole or in part (to the extent exercisable) at any time and from time to time. The purchase price of Shares purchased under an option will be paid in full to the Company incident to the exercise of the option by delivery of consideration equal to the product of the option price and the number of Shares purchased. Such consideration may be paid (i) in cash, (ii) at the discretion of the Administrator, in shares of Company common stock either already owned by the Non-Employee Director, or (iii) any combination thereof. The fair market value of such common stock as delivered shall be valued as of the day prior to delivery. The Administrator can determine that additional forms of payment will be permitted. To the extent permitted by the Administrator and applicable laws and regulations (including, but not limited to, federal tax and securities laws, regulations and state corporate law), an option may also be exercised in a cashless exercise by delivery of a properly executed exercise notice together with irrevocable instructions to a broker designated by the Administrator to deliver promptly to the Company the amount of sale or loan proceeds to pay the purchase price. A Non-Employee Director shall have none of the rights of a stockholder until the Shares are issued.

vi) *Exercise After Death*. In the event of the death of a Non-Employee Director who holds an exercisable option under the Plan, the Non-Employee Director's option shall (subject to Section 9) be exercisable by the legal representative or the estate of such decedent, by any person or persons whom the decedent shall have designated in writing on forms prescribed by and filed with the Company or, if no such designation has been made, by the person or persons to whom the decedent's rights have passed by will or the laws of descent and distribution. To the extent permitted by applicable law and the rules promulgated under Section 16(b) of the 1934 Act, the Administrator may permit a Non-Employee Director to designate in writing during the Non-Employee Director's lifetime a beneficiary to receive and exercise stock options in the event of the Non-Employee Director's death.

8. *STOCK APPRECIATION RIGHTS*. The Administrator may award a right to receive in cash the amount that the Fair Market Value of a Share exceeds a stated exercise price (a stock appreciation right or SAR) to a person eligible under Section 5 on such terms that the Administrator shall determine, consistent with the terms of this Plan. A SAR shall be subject to the same general terms that apply to an option granted hereunder, including (but not limited to) the terms set forth in Sections 6, 7, 9 and 10 as appropriately modified. An exercised SAR will reduce the Shares reserved for issuance under the Plan under Section 4.

9. *TERMINATION OF OPTIONS*. An option shall cease to be exercisable after the earlier of (i) six (6) months after the date the Non-Employee Director ceases to be a member of the Board (including by reason of death), (ii) the occurrence of a Change in Control and (iii) the 10th anniversary of the date of grant; provided, however, that in the case of a Non-Employee Director who has served continuously as a member of the Board for at least five (5) years, the period described in clause (i) shall be eighteen (18) months.

10. *CHANGE IN CONTROL.* A Non-Employee Director's outstanding option shall become fully exercisable as of the date seven (7) calendar days before a Change in Control. Restricted Stock and Restricted Stock Units shall vest upon consummation of the Change in Control. The exercise of any option that was permissible solely by reason of a Change in Control shall be conditioned upon consummation of the Change in Control. Options

A-4

Table of Contents

that are not exercised as of the Change in Control shall terminate and cease to be outstanding. A Change in Control means a single Ownership Change Event or combination of proximate (in time, purpose, cause and effect, and/or the identity of the parties involved) Ownership Change Events (collectively, a Transaction) wherein the stockholders of the Company immediately before the Transaction do not retain immediately after the Transaction, in substantially the same proportions as their ownership of shares of the Company's voting stock immediately before the Transaction, direct or indirect beneficial ownership of more than 50% of the total combined voting power of the outstanding voting stock of the Company or the company or companies to which the assets of the Company were transferred (the

Transferee Company(s)), as the case may be. For purposes of the preceding sentence, indirect beneficial ownership shall include, without limitation, an interest resulting from ownership of the voting stock of one or more companies which, as a result of the Transaction, own the Company or the Transferee Company(ies), as the case may be, either directly or through one or more subsidiary companies. An Ownership Change Event means (i) the direct or indirect sale, exchange or transfer of the voting stock of the Company, (ii) a merger or consolidation in which the Company is a party, (iii) the sale, exchange or transfer of all or substantially all of the assets of the Company, or (iv) a liquidation or dissolution of the Company. The Administrator shall have sole discretion to determine whether any particular facts and circumstances constitute an Ownership Change Event or a Transaction, and its determination shall be final, binding and conclusive.

11. *SECURITIES LAW COMPLIANCE.* All awards under this plan shall be subject to compliance with all applicable requirements of federal, state or foreign law with respect to such securities. Options may not be exercised if the issuance of Shares upon exercise would constitute a violation of any applicable federal, state or foreign securities laws or other law or regulations or the requirements of any stock exchange or market system upon which the Shares may then be listed. In addition, no option may be exercised unless (i) a registration statement under the Securities Act of 1933 (1933 Act) shall at the time of exercise of the option be in effect with respect to the Shares issuable upon exercise of the option, or (ii) in the opinion of legal counsel to the Company, the Shares issuable upon exercise of the option may be issued in accordance with the terms of an applicable exemption from the registration requirements of the 1933 Act. The inability of the Company to obtain from any regulatory body having jurisdiction the authority, if any, deemed by the Company's legal counsel to be necessary to the lawful issuance and sale of any shares hereunder shall relieve the Company of any liability in respect of the failure to issue or sell such shares as to which such requisite authority shall not have been obtained. As a condition to the exercise of any option, the Company may require a Non-Employee Director to satisfy any qualifications that may be necessary or appropriate, to evidence compliance with any applicable law or regulation and to make any representation or warranty with respect thereto as may be requested by the Company.

12. *MISCELLANEOUS.*

(a) *No Stockholders' Rights.* A Non-Employee Director shall have no rights as a stockholder with respect to the Shares covered by his or her awards until the date of the issuance to him or her of a stock certificate for the Shares.

(b) *No Right to Serve.* Neither the Plan, nor the granting of an award, nor any other action taken under the Plan, shall be evidence of any agreement or understanding, express or implied, that a Non-Employee Director has a right to continue as a member of the Board for any period of time or rate of compensation.

(c) *Claims.* Any person who makes a claim for benefits under the Plan or under any award agreement entered into pursuant to the Plan shall file the claim in writing with the Administrator. Written notice of the disposition of the claim shall be delivered to the claimant within 60 days after filing. If the claim is denied, the Administrator's written decision shall set forth (i) the specific reason or reasons for the denial, (ii) a specific reference to the pertinent provisions of the Plan or award agreement on which the denial is based, and (iii) a description of any additional material or information necessary for the claimant to perfect his or her claim and an explanation of why such material or information is necessary. No lawsuit may be filed by the claimant until a claim is made and denied pursuant to this

subsection.

(d) Attorneys Fees. In any legal action or other proceeding brought by either party to enforce or interpret the terms of the award agreement, the prevailing party shall be entitled to recover reasonable attorneys fees and costs.

A-5

(e) Company Free to Act. An award grant shall not affect in any way the right or power of the Company or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations, or other changes in the Company's capital structure or its business, or any merger or consolidation of any member of the Company or any issue of bonds, debentures, or preferred or preference stocks affecting the Shares or the rights thereof, or of any rights, options, or warrants to purchase any capital stock of the Company, or the dissolution or liquidation of the Company, any sale or transfer of all or any part of its assets or business, or any other corporate act or proceedings of the Company, whether of a similar character or otherwise.

(f) Severability. If any provision of the Plan or award agreement, or its application to any person, place, or circumstance, is held by an arbitrator or a court of competent jurisdiction to be invalid, unenforceable, or void, that provision shall be enforced to the greatest extent permitted by law, and the remainder of this Plan and award agreement and of that provision shall remain in full force and effect as applied to other persons, places, and circumstances.

(g) Governing Law. This Plan and the award agreement shall be governed by and construed in accordance with the laws of the State of Colorado applicable to contracts wholly made and performed in the State of Colorado.

(h) Exchange Requirements. So long as Shares are listed on any established stock exchange or traded on the NASDAQ National Market or the NASDAQ SmallCap Market, the applicable requirements of any such exchange or market shall be hereby incorporated by reference.

(i) Compliance with Section 16. So long as any of the Company's equity securities are registered pursuant to Section 12(b) or 12(g) of the 1934 Act, with respect to awards granted to or held by Section 16 insiders, the Plan will comply in all respects with Rule 16b-3 or any successor rule or rule of similar application under Section 16 of the 1934 Act or rules thereunder, and, if any Plan provision is later found not to be in compliance with such exemption under Section 16, that provision shall be deemed modified as necessary to meet the requirements of such applicable exemption.

13. *EFFECTIVE DATE OF THE PLAN*. The Plan will become effective upon adoption by the Board, subject to approval by the Company's stockholders. The Plan shall terminate on the 10th anniversary of its adoption.

14. *AMENDMENT OF THE PLAN*. With the approval of the Board, the Administrator may suspend or discontinue the Plan or revise or amend it in any respect whatsoever; provided, however, that without approval of the Company's stockholders no revision or amendment shall change the number of Shares issuable under the Plan (except as provided in Section 6(b)), change the designation of the class of individuals eligible to receive awards, or materially increase the benefits accruing to Non-Employee Directors under the Plan.

IN WITNESS WHEREOF, the undersigned Secretary of the Company certifies that this Plan was amended and restated by the Board on February 15, 2006, effective as of the same date.

**ADVANCED ENERGY INDUSTRIES, INC.
2003 STOCK OPTION PLAN
Adopted February 12, 2003**

1. *Purpose.* The purpose of the Plan is to provide an incentive to attract, retain and reward individuals performing services for the Company, and to motivate such individuals to contribute to the growth and profitability of the Company.

2. *Definitions.* Whenever the following terms are used in the Plan, they shall have the meaning indicated below, unless a different meaning is required by the context.

(a) *Administrator* means either the Board or a committee of at least two Board members to which the Board allocates administration of the Plan.

(b) *Board* means the board of directors of the Corporation.

(c) *Code* means the Internal Revenue Code of 1986, as amended.

(d) *Company* means, collectively, the Corporation and any parent corporation or subsidiary corporation of the Corporation as defined in Code §424(e) and §424(f), respectively.

(e) *Corporation* means Advanced Energy Industries, Inc., a Delaware corporation.

(f) *Fair Market Value* means, with respect to a Share as of any date, the closing sale price of a Share on such date (or previous business day if such date is not a business day) on the principal exchange or market on which Shares are then listed or admitted to trading. If, for any reason, the preceding rule cannot be applied to determine fair market value, then the Administrator shall make a good faith determination of fair market value.

(g) *ISO* means an incentive stock option within the meaning of Code §422.

(h) *NSO* means an option that is not an ISO.

(i) *Participant* means a person who has received a grant or award under the Plan. If a grant or award is assigned pursuant to Section 6(c), the term *Participant* shall mean the assignee when required by the context.

(j) *Plan* means this Advanced Energy Industries, Inc. 2003 Stock Option Plan.

(k) *Service* means the Participant's employment or service with the Company, whether in the capacity of an employee, a director, or a consultant.

(l) *Share* means one share of common stock of the Corporation.

3. *Administration.* The Plan shall be administered by the Administrator. Subject to the provisions of the Plan, the Administrator shall have the authority to select the persons to be granted options under this Plan, to fix the number of shares that each Participant may purchase, to determine the exercise price of options granted, to set the terms and conditions of each option (including the period over which the option becomes exercisable), and to determine all other matters relating to administration and operation of the Plan. All questions of interpretation, implementation, and application of the Plan shall be determined by the Administrator in its sole discretion. Such determinations shall be final and binding on all persons. No member of the Board or committee that acts as Administrator shall be liable for

any act or omission on such member's own part, including but not limited to the exercise of any power or discretion given to such member under the Plan, except for those acts or omissions resulting from such member's own gross negligence or willful misconduct.

4. *Shares Subject to the Plan.* The maximum number of Shares that may be issued pursuant to this Plan is three million two hundred and fifty thousand (3,250,000), subject to adjustment as provided in Section 6(e), and subject to limited re-issuance as indicated below. If an option expires, is surrendered, or becomes unexercisable without having been exercised in full, or if any unissued Shares are retained by the Corporation upon exercise of an option in order to satisfy any withholding taxes due with respect to such exercise, the unissued or retained Shares shall become available for future grant under the Plan (unless the Plan has terminated). If unvested Shares are forfeited, such Shares shall also become available for future grant under the Plan, but the total number of such forfeited Shares that become available may not exceed twice the maximum number set forth above (subject to

B-2

Table of Contents

adjustment as provided in Section 6(e)). Other Shares that actually have been issued under the Plan pursuant to an option shall not be returned to the Plan and shall not become available for future grant under the Plan.

5. Eligibility. The Administrator may grant an option or options to any employee or consultant of the Company, as selected in the sole discretion of the Administrator. No individual may receive aggregate grants or awards under this Plan that exceed 25% of the number of Shares reserved for issuance under Section 4 (subject to adjustment as provided in Section 6(e)).

6. General Terms and Conditions.

(a) Option Agreements. Each option granted under the Plan shall be authorized by action of the Administrator and shall be evidenced by a written agreement in such form as the Administrator shall from time to time approve, which agreement shall comply with and be subject to the terms and conditions of the Plan.

(b) ISOs or NSOs. Options granted under the Plan shall be designated by the Administrator as either ISOs or NSOs. The Company does not represent or warrant that an option intended to be an ISO qualifies as such. To the extent that the aggregate Fair Market Value (determined as of the date the option is granted) of the Shares with respect to which ISOs are exercisable for the first time by any individual during any calendar year (under all plans of the Company) exceeds one hundred thousand dollars (\$100,000), the option shall be treated as an NSO. If an ISO is exercised more than three (3) months after the date on which the Participant ceases to be an employee (other than by reason of death or permanent and total disability as defined in Code §22(e)(3)), the option will be treated as an NSO, and not an ISO, as required by Code §422.

(c) Transferability. Options granted under the Plan are not transferable by the Participant and shall be exercisable during the Participant's lifetime only by the Participant; provided, however, that an option may be transferred upon the approval of the Administrator (in its sole discretion) by appropriate instrument pursuant to a domestic relations order described in Rule 16a-12 of the 1934 Act or to an inter vivos or testamentary trust in which the option is to be passed to the Participant's beneficiaries upon the Participant's death or by gift to the Participant's immediate family (consisting of the Participant's child, stepchild, grandchild, parent, stepparent, grandparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, and shall include adoptive relationships). No option or interest therein may be otherwise transferred, assigned, pledged, or hypothecated by the Participant, whether by operation of law or otherwise, or be made subject to execution, attachment, or similar process. Any such purported assignment, sale, transfer, delegation, or other disposition shall be null and void.

(d) Modification, Extension, and Renewal. The Administrator shall have the power to modify, extend, or renew outstanding options and authorize the grant of new options in substitution therefor, provided that any such action may not have the effect of significantly impairing any rights or obligations of any option previously granted without the consent of the affected Participant. However, the Company will not reduce the exercise price of any outstanding option or cancel outstanding options and grant replacement options with a lower exercise price without prior approval of the shareholders.

(e) Changes in Capitalization or Corporate Transaction. In the event of any merger, consolidation, reorganization, recapitalization, stock dividend, stock split, reverse stock split, separation, liquidation or other change in the corporate structure or capitalization affecting the Shares, appropriate adjustment shall be made by the Administrator in the kind, option price, and number of shares of stock (including, but not limited to, the maximum number of Shares reserved under the Plan) that are or may become subject to options and other awards granted or to be granted under the Plan. If in connection with the change the Corporation ceases to exist, the surviving or successor entity must either assume the Corporation's rights and obligations with respect to outstanding options or substitute for outstanding options substantially equivalent options for equity interests in the entity. If there is no surviving or successor entity, a

Participant's outstanding option must be exercised before the change, or the option will terminate and cease to be outstanding.

7. Exercise.

(a) Exercise Price. The exercise price of an option shall be not less than the Fair Market Value of a Share on the date of the grant of the option.

B-3

Table of Contents

(b) Time of Exercise. An option shall become exercisable as specified in the option agreement; provided, however, that (i) an option shall not be exercisable after the 10th anniversary of the date of grant and (ii) unless expressly provided otherwise in the option agreement, an option shall not be exercisable to the extent its exercise would result (determined at the time of exercise) in compensation not deductible by the Corporation under Code §162(m) (unless a failure to exercise will result in the termination of the option).

(c) Special Rules for 10% Owners. The exercise price of an ISO granted to an individual who owns stock possessing more than ten percent (10%) of the combined voting power of all classes of stock of the Corporation shall not be less than one hundred ten percent (110%) of the Fair Market Value of a Share on the date of grant. No ISO granted to an individual who owns stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Corporation shall be exercisable after the expiration of five (5) years from the date of grant. For purposes of determining whether an individual owns stock possessing more than 10 percent (10%) of the total combined voting power of all classes of stock of the Corporation, the individual shall be considered as owning the stock owned, directly or indirectly, by or for his or her brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants. Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust shall be considered as being owned proportionately by or for its shareholders, partners, or beneficiaries. Stock with respect to which the individual holds an option shall not be counted.

(d) Notice of Exercise. Participants may exercise only by providing written notice to the Corporation at the address specified in the option agreement, accompanied by full payment for the Shares to be purchased. After receiving proper notice of exercise and payment, the Corporation shall issue a certificate(s) for the Shares purchased, registered in Participant's name (or in Participant's name and the name of Participant's spouse as community property or as joint tenants with a right of survivorship).

(e) Taxes and Withholding. The Company shall have the right to deduct from the Shares issuable upon the exercise of an option, or to accept from the Participant the tender of, a number of whole Shares having a fair market value, as determined by the Administrator, equal to all or any part of the federal, state, local and foreign taxes, if any, required by law to be withheld by the Company with respect to such option or the Shares acquired upon the exercise thereof. Alternatively or in addition, in its sole discretion, the Company shall have the right to require Participant, through payroll withholding, cash payment or otherwise, including by means of a cashless exercise (as described in Section 8(b)), to make adequate provision for any such tax withholding obligations of the Company arising in connection with the option, or the Shares acquired upon the exercise thereof.

8. Payment of Exercise Price. Payment of any option's exercise price may be made in cash, by check or cash equivalent. At the sole discretion of the Administrator, the exercise price may be made as follows:

(a) By Tender of Stock. Payment may be made by tender (or by attestation) to the Corporation of Shares owned by Participant having a fair market value (as determined by the Administrator without regard to any restrictions on transferability applicable to such Shares by reason of federal or state securities laws or agreements with the Corporation's underwriter) not less than the exercise price; provided that, an option may not be exercised by tender to the Corporation of Shares to the extent such tender would constitute a violation of the provisions of any law, regulation or agreement restricting the redemption of the Shares. Unless otherwise provided by the Administrator, an option may not be exercised by tender to the Corporation of Shares unless such Shares either have been owned by the Participant for more than six (6) months or were not acquired, directly or indirectly, from the Corporation.

(b) By Cashless Exercise. The Administrator reserves, at any and all times, the right, in the Administrator's sole and absolute discretion, to establish, decline to approve or terminate any program or procedures for the exercise of options by payment by the assignment of the proceeds of a sale or loan with respect to some or all of the Shares being

acquired upon the exercise of the option, including, without limitation, through an exercise complying with the provisions of Regulation T as promulgated from time to time by the Board of Governors of the Federal Reserve System.

(c) By Promissory Note. Payment may be made by the Participant's promissory note in a form approved by the Administrator, except that no promissory note shall be permitted if the exercise of an option using a promissory note would be a violation of any law. Any permitted promissory note shall be on such terms as the Administrator

B-4

Table of Contents

shall determine; provided that (i) the note (including interest) shall be full recourse, (ii) interest shall be payable in at least annual installments at a current market interest rate, (iii) the note shall be secured by the Shares acquired, and (iv) the remaining balance of the note (including accrued interest) shall be due and payable within 90 days of termination of Participant's Service for any reason. Unless otherwise provided by the Administrator, if the Corporation at any time is subject to the regulations promulgated by the Board of Governors of the Federal Reserve System or any other governmental entity affecting the extension of credit in connection with the Corporation's securities, any promissory note shall comply with such applicable regulations, and Participant shall pay the unpaid principal and accrued interest, if any, to the extent necessary to comply with such applicable regulations.

(d) By Other Consideration. Payment may be made by such other consideration or by any combination of cash, stock, cashless exercise, promissory note or other consideration as may be approved by the Administrator from time to time to the extent permitted by applicable laws.

9. Termination of Options.

(a) Termination of Service. If a Participant's Service terminates, his or her rights to exercise an option then held shall be limited. Participant's Service shall not be deemed to have terminated merely because of a change in the capacity in which the Participant renders Service or a change in the Company, provided that there is no interruption or termination of Participant's employment or service. Participant's Service with the Company shall be treated as continuing intact while the Participant is on military, sick leave, or other bona fide leave of absence (such as temporary employment by the government) approved by the Company if the period of such leave does not exceed 90 days, or, if longer, so long as the Participant's right to reemployment with the Corporation is guaranteed either by statute or by contract. Where the period of leave exceeds 90 days and where the Participant's right to reemployment is not guaranteed either by statute or by contract, Service will be deemed to have terminated on the 91st day of such leave. Subject to the foregoing, the Administrator, in its sole discretion, shall determine whether Participant's Service has terminated and the effective date thereof.

(b) Involuntary Separation without Cause. Except as otherwise provided in paragraphs (c) through (f), if a Participant leaves the company involuntarily without cause, Participant shall have the right for a period of 180 calendar days after the date of separation to exercise the option to the extent Participant was entitled to exercise the option on that date; provided, however, that the date of exercise is in no event after the expiration of the term of the option. To the extent the option is not exercised within this period, the option will terminate.

(c) Termination by Disability. If a Participant becomes disabled (within the meaning of Code §22(e)(3)) while in Service, Participant or his or her qualified representative shall have the right for a period of twenty-four (24) months after the date on which Participant's Service ends to exercise the option to the extent Participant was entitled to exercise the option on that date, provided the date of exercise is in no event after the expiration of the term of the option. To the extent the option is not exercised within this period, the option will terminate.

(d) Termination by Retirement. If a Participant terminates Service without cause from the Company after reaching age 60 and with 5 or more years of continuous service with the Company, Participant shall have 3 years from date of retirement to exercise the option to the extent Participant was entitled to exercise the option on that date; provided, however, that the date of exercise is in no event after the expiration of the term of the option. To the extent the option is not exercised within this period, the option will terminate. Determination of retirement shall be at the sole discretion of the Committee.

(e) Termination after Death. If a Participant dies while in Service, the person who acquired the right to exercise the option by bequest or inheritance or by reason of the death of the Participant shall have the right for a period of twelve (12) months after the date of death to exercise the option to the extent Participant was entitled to exercise the option

on that date, provided the date of exercise is in no event after the expiration of the term of the option. To the extent the option is not exercised within this period, the option will terminate.

(f) Termination for Cause or Voluntary Separation. If a Participant's Service is terminated by the Company for Cause or the Participant voluntarily leaves the Company, Participant shall have no right to exercise the option, and the option will terminate. Cause means that Participant is determined by the Administrator to have committed an act of embezzlement, fraud, dishonesty, or breach of fiduciary duty to the Company, or to have deliberately disregarded the rules of the Company, under circumstances that could normally be expected to result in loss,

B-5

Table of Contents

damage, or injury to the Company, or because Participant has made any unauthorized disclosure of any of the secrets or confidential information of the Company, has induced any client or customer of the Company to break any contract with the Company, has induced any principal for whom the Company acts as agent to terminate the agency relationship, or has engaged in any conduct that constitutes unfair competition with the Company.

(g) Option Agreement. The option agreement may provide rules different from those set forth in subsections (a) through (e).

10. Change in Control. An option's term may be affected by a Change in Control, as described in this section.

(a) Optional Assumption or Substitution. At the time of a Change in Control, the surviving, continuing, successor or purchasing corporation or parent corporation thereof, as the case may be (the Acquiror), may either assume the Corporation's rights and obligations with respect to outstanding options or substitute for outstanding options substantially equivalent options for the Acquiror's stock. If the Acquiror is the same corporate entity as the Corporation, or its successor by merger, a reaffirmation of the option shall be treated as an assumption, and a failure to reaffirm shall be treated as a failure to assume.

(b) No Assumption or Substitution Termination. Options that are neither assumed nor substituted for by the Acquiror in connection with a Change in Control, nor exercised as of the time of the Change in Control, shall terminate and cease to be outstanding.

(c) Definition. For purposes of this Plan, a Change in Control means a single Ownership Change Event or combination of proximate (in time, purpose, cause and effect, and/or the identity of the parties involved) Ownership Change Events (collectively, a Transaction) wherein the stockholders of the Corporation immediately before the Transaction do not retain immediately after the Transaction, in substantially the same proportions as their ownership of shares of the Corporation's voting stock immediately before the Transaction, direct or indirect beneficial ownership of more than 50% of the total combined voting power of the outstanding voting stock of the Corporation or the corporation or corporations to which the assets of the Corporation were transferred (the Transferee Corporation(s)), as the case may be. For purposes of the preceding sentence, indirect beneficial ownership shall include, without limitation, an interest resulting from ownership of the voting stock of one or more corporations which, as a result of the Transaction, own the Corporation or the Transferee Corporation(s), as the case may be, either directly or through one or more subsidiary corporations. An Ownership Change Event means (i) the direct or indirect sale, exchange or transfer of the voting stock of the Corporation, (ii) a merger or consolidation in which the Corporation is a party, (iii) the sale, exchange or transfer of all or substantially all of the assets of the Corporation, or (iv) a liquidation or dissolution of the Corporation. The Board shall have sole discretion to determine whether any particular facts and circumstances constitute an Ownership Change Event or a Transaction, and its determination shall be final, binding and conclusive.

11. Restricted Stock Awards.

(a) General Rule. The Administrator may award Shares to a person eligible under Section 5, subject to such terms and conditions consistent with this Plan that the Administrator shall impose as set forth in a separate award agreement.

(b) Vesting. An award under this section may condition the vesting of Shares on the performance of future services by the eligible person, and may alternatively or additionally condition the vesting of Shares on such other performance-related conditions that the Administrator shall impose in its sole discretion.

(c) Transferability. An unvested Share will not be transferable by the Participant until it becomes vested. The Company shall receive a stock power duly endorsed in blank with respect to restricted Shares, and the related stock

certificate shall bear the following legend:

The transferability of this certificate and the shares of stock represented hereby are subject to the restrictions, terms and conditions (including forfeiture provisions and restrictions against transfer) contained in the Advanced Energy Industries, Inc. 2003 Stock Option Plan and an award agreement entered into between the registered owner of such shares and Advanced Energy Industries, Inc. A copy of the plan and agreement is on file in the office of the Secretary of Advanced Energy Industries, Inc.

Such legend shall be removed from the certificate only after the Shares vest. Each certificate issued with respect to Shares subject to this section, together with the stock powers related to the Shares, shall be deposited by the Company with a custodian designated by the Company (and which may be the Company or an affiliate).

(d) Voting Rights and Dividends. Unvested Shares may be voted by the holder of such Shares. Dividends payable with respect to unvested Shares will be paid to the holder of the Shares without regard to restrictions.

(e) Change in Control. An Acquiror described in Section 10(a) shall have no obligation to assume or substitute an award of unvested Shares, and any such Shares not assumed or substituted in connection with a Change in Control shall be forfeited generally in the manner described in Section 10(b).

12. Stock Appreciation Rights. The Administrator may award a right to receive in cash the amount that the Fair Market Value of a Share exceeds a stated exercise price (a stock appreciation right or SAR) to a person eligible under Section 5 on such terms that the Administrator shall determine, consistent with the terms of this Plan. An SAR shall be subject to the same general terms that apply to an option granted hereunder, including (but not limited to) the terms set forth in Sections 6, 7, 9 and 10 as appropriately modified. An exercised SAR will reduce the Shares reserved for issuance under the Plan under Section 4.

13. Securities Law Compliance.

(a) General Rules. All awards under this Plan shall be subject to compliance with all applicable requirements of federal, state or foreign law with respect to such securities. Options may not be exercised if the issuance of Shares upon exercise would constitute a violation of any applicable federal, state or foreign securities laws or other law or regulations or the requirements of any stock exchange or market system upon which the Shares may then be listed. In addition, no option may be exercised unless (i) a registration statement under the Securities Act shall at the time of exercise of the option be in effect with respect to the Shares issuable upon exercise of the option, or (ii) in the opinion of legal counsel to the Corporation, the Shares issuable upon exercise of the option may be issued in accordance with the terms of an applicable exemption from the registration requirements of the Securities Act. The inability of the Corporation to obtain from any regulatory body having jurisdiction the authority, if any, deemed by the Corporation's legal counsel to be necessary to the lawful issuance and sale of any shares hereunder shall relieve the Corporation of any liability in respect of the failure to issue or sell such shares as to which such requisite authority shall not have been obtained.

(b) Conditions of Exercise. As a condition to the exercise of any option, the Corporation may require Participant to satisfy any qualifications that may be necessary or appropriate, to evidence compliance with any applicable law or regulation and to make any representation or warranty with respect thereto as may be requested by the Corporation.

14. Miscellaneous.

(a) No Right to an Option. Nothing in the Plan shall be construed to give any person any right to benefit under the Plan.

(b) No Employment Rights. Neither the Plan nor the granting of an option nor any other action taken pursuant to the Plan shall constitute or be evidence of any agreement or understanding, express or implied, that the Company will utilize Participant's services for any period of time, or in any position, or at any particular rate of compensation.

(c) No Stockholders' Rights. Participant shall have no rights as a shareholder with respect to the Shares covered by his or her options until the date of the issuance to him or her of a share certificate for the Shares, and no adjustment

will be made for dividends or other rights for which the record date is prior to the date the certificate is issued.

(d) Claims. Any person who makes a claim for benefits under the Plan or under any option agreement entered into pursuant to the Plan shall file the claim in writing with the Administrator. Written notice of the disposition of the claim shall be delivered to the claimant within 60 days after filing. If the claim is denied, the Administrator's written decision shall set forth (i) the specific reason or reasons for the denial, (ii) a specific reference to the pertinent provisions of the Plan or option agreement on which the denial is based, and (iii) a

description of any additional material or information necessary for the claimant to perfect his or her claim and an explanation of why such material or information is necessary. No lawsuit may be filed by the claimant until a claim is made and denied pursuant to this subsection.

(e) Attorneys Fees. In any legal action or other proceeding brought by either party to enforce or interpret the terms of the option agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs.

(f) Confidentiality. The terms and conditions of the option agreement, including without limitation the number of Shares for which the option is granted, are confidential. The Participant shall not disclose the terms of the option to any third party, except to Participant's financial or legal advisors, tax preparer or family members, unless disclosure is required by law.

(g) Corporation Free to Act. An option grant shall not affect in any way the right or power of the Corporation or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations, or other changes in the Corporation's capital structure or its business, or any merger or consolidation of any member of the Company or any issue of bonds, debentures, or preferred or preference stocks affecting the Shares or the rights thereof, or of any rights, options, or warrants to purchase any capital stock of the Corporation, or the dissolution or liquidation of the Corporation, any sale or transfer of all or any part of its assets or business, or any other corporate act or proceedings of the Corporation, whether of a similar character or otherwise.

(h) Severability. If any provision of the Plan or option agreement, or its application to any person, place, or circumstance, is held by an arbitrator or a court of competent jurisdiction to be invalid, unenforceable, or void, that provision shall be enforced to the greatest extent permitted by law, and the remainder of this Plan and option agreement and of that provision shall remain in full force and effect as applied to other persons, places, and circumstances.

(i) Substitution/Assumption. The Company may substitute or assume outstanding options granted by another company by either (i) granting an option under this Plan in substitution of such other company's option or (ii) assuming such option as if it had been granted under this Plan if the terms of such assumed option are consistent with this Plan. Such substitution or assumption will be permissible if the holder of the substituted or assumed option would have been eligible to be granted an option under this Plan if the other company had applied the rules of this Plan to such grant. In the event of an assumption hereunder, the terms and conditions of the option will remain unchanged, except that the exercise price and the number and nature of shares issuable upon exercise of any such option will be adjusted appropriately in the manner described in Code §424(a). If the Company substitutes a new option for the old option, such new option may be granted with a similarly adjusted exercise price.

(j) Exchange Requirements. The requirements of any stock exchange or other established market (such as the NASDAQ), on which the Corporation's common stock is traded, are hereby incorporated into this Plan by reference.

(k) Governing Law. This Plan and the option agreement shall be governed by and construed in accordance with the laws of the State of Colorado applicable to contracts wholly made and performed in the State of Colorado.

15. Effective Date of the Plan. The Plan will become effective upon adoption by the Board, subject to approval by the Corporation's stockholders within one year. Options may be granted under the Plan at any time after the Plan's adoption and before the Plan's termination. The Plan shall terminate on the 10th anniversary of its adoption.

16. Amendment of the Plan. The Board may suspend or discontinue the Plan or revise or amend it in any respect whatsoever; provided, however, that without approval of the Corporation's stockholders no revision or amendment shall change the number of Shares issuable under the Plan (except as provided in Section 6(e)), change the designation

of the class of individuals eligible to benefit under the Plan, or materially increase the benefits accruing to Participants.

IN WITNESS WHEREOF, the undersigned Secretary of the Corporation certifies that this Plan was adopted by the Board on February 12, 2003, and effective as of the same date.

Amendment No. 1 to
Advanced Energy Industries, Inc.
2003 Stock Option Plan

January 31, 2005

This Amendment No. 1 amends the Advanced Energy Industries, Inc. 2003 Stock Option Plan adopted February 12, 2003 (the *Plan*).

1. A new paragraph (f) is added to Section 11 [Restricted Stock Awards] to read as follows:

(f) *Restricted Stock Units.* Awards of Restricted Stock also may take the form of Restricted Stock Units, which shall be subject to an Award Agreement between the Company and the applicable Participant.

(i) *Vesting.* Restricted Stock Units shall vest over a period of time to be established by the Administrator at the time of grant. Each award of Restricted Stock Units may be subject to a different vesting schedule. At the time of the grant, the Administrator may, in its sole discretion, prescribe restrictions in addition to or other than the expiration of the vesting period, including the satisfaction of corporate or individual performance objectives, which may be applicable to all or any portion of the Restricted Stock Units.

(ii) *Payment for Shares.* At the time Shares are issued to the Participant pursuant to Restricted Stock Units, the Participant shall be required, to the extent required by applicable law, to purchase such Shares from the Company at a purchase price equal to the aggregate par value of the Shares represented by such Restricted Stock. The purchase price, if any, shall be payable in cash or, in the discretion of the Administrator, in consideration for past Services rendered to the Company or for such other form of consideration determined by the Administrator.

(iii) *Withholding Taxes.* The Company shall have the right to deduct from the Shares issuable pursuant to Restricted Stock Units, or to accept from the Participant the tender of, a number of whole Shares having a fair market value, as determined by the Administrator, equal to all or any part of the federal, state, local and foreign taxes, if any, required by law to be withheld by the Company with respect to the Restricted Stock Units or the Shares acquired pursuant thereto. Alternatively or in addition, in its sole discretion, the Company shall have the right to require Participant, through payroll withholding, cash payment or otherwise, to make adequate provision for any such tax withholding obligations of the Company arising in connection with the Restricted Stock Units or the Shares acquired pursuant thereto.

(iv) *Termination of Service.* Unless otherwise provided in an Award Agreement or in writing after the Award Agreement is issued, upon the termination of the Participant's Service, any Restricted Stock Units held by such Participant that have not vested, or with respect to which all applicable restrictions and conditions have not lapsed, shall immediately be deemed forfeited. Upon forfeiture of Restricted Stock Units, the Grantee shall have no further rights with respect to such award.

(v) *Transferability.* Awards of Restricted Stock Units shall be subject to the transferability restrictions applicable to options granted under this Plan, as set forth in Section 6(c).

(vi) *Rights of a Holder.* Participant shall have no rights as a shareholder with respect to the Shares covered by his or her Restricted Stock Units until the date of the issuance to him or her of a share certificate for the Shares, and no adjustment will be made for dividends or other rights for which the record date is prior to the date the certificate is issued. A holder of Restricted Stock Units shall have no rights other than those of a general creditor of the Company. Restricted Stock Units shall represent an unfunded and unsecured obligation of the Company, subject to the terms and

conditions of the applicable Award Agreement.

(vii) *Amendment*. The Administrator shall have the power to modify, extend, or renew outstanding Restricted Stock Units or authorize the grant of new Restricted Stock Units in substitution therefor, provided that any such action may not have the effect of significantly impairing any rights or obligations of any Restricted Stock Unit previously granted without the consent of the affected Participant.

The Administrator shall have the power to interpret the provisions of the Plan that, prior to this amendment, were applicable to options granted pursuant to the Plan and/or the Shares issuable on exercise thereof, to be applicable also to Restricted Stock Units and/or the shares subject thereto.
