ASHFORD HOSPITALITY TRUST, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2007
(Unaudited)

1. Organization and Description of Business

Ashford Hospitality Trust, Inc. and subsidiaries (the Company) is a self-advised real estate investment trust (REIT), which commenced operations on August 29, 2003 when it completed its initial public offering (IPO) and concurrently consummated certain other formation transactions, including the acquisition of six hotels (initial properties). The Company owns its lodging investments and conducts its business through Ashford Hospitality Limited Partnership, its operating partnership. Ashford OP General Partner LLC, its wholly-owned subsidiary, serves as the sole general partner of the Company's operating partnership.

As of June 30, 2007, the Company owned 104 hotel properties directly and 17 hotel properties through equity investments with joint venture partners, which represents 28,908 total rooms or 27,443 net rooms excluding those attributable to joint venture partners. Of the total 121 hotel properties, 120 are located in the United States and one is located in Canada. As of June 30, 2007, the Company also owned approximately \$72.9 million of mezzanine or first-mortgage loans receivable.

For federal income tax purposes, the Company elected to be treated as a REIT, which imposes limitations related to operating hotels. As of June 30, 2007, 120 of the Company's hotel properties were leased or owned by wholly-owned subsidiaries of the Company that are treated as taxable REIT subsidiaries for federal income tax purposes (collectively, such subsidiaries are referred to as Ashford TRS). Ashford TRS then engages third-party or affiliated hotel management companies to operate the hotels under management contracts. Hotel operating results related to these properties are included in the consolidated results of operations. As of June 30, 2007, the remaining hotel property was leased on a triple-net lease basis to a third-party tenant who operates the hotel. Rental income from this operating lease is included in the consolidated results of operations.

Remington Lodging & Hospitality, L.P. and Remington Management, L.P. (collectively, Remington Lodging), both primary property managers for the Company, are beneficially wholly owned by Mr. Archie Bennett, Jr., the Company's Chairman, and Mr. Montgomery J. Bennett, the Company's President and Chief Executive Officer. As of June 30, 2007, Remington Lodging managed 38 of the Company's 121 hotel properties while third-party management companies managed the remaining 83 hotel properties.

As of June 30, 2007, 122,613,582 shares of common stock, 2,300,000 shares of Series A preferred stock, 7,447,865 shares of Series B preferred stock, 8,000,000 shares of Series C preferred stock, and 13,512,425 units of limited partnership interest held by entities other than the Company were outstanding and 20,585 shares of common stock were held as treasury stock. During the six months ended June 30, 2007, the Company completed the following transactions:

On March 27, 2007, the Company issued 838,500 shares of restricted common stock to its executive officers and certain employees.

On April 11, 2007, the Company issued 8,000,000 shares of Series C cumulative redeemable preferred stock to a financial institution.

On April 24, 2007, the Company issued 48,875,000 shares of common stock in a follow-on public offering.

On May 15, 2007, the Company issued 16,000 shares of common stock to its directors as compensation for serving on the Board of Directors through May 2008.

During the six months ended June 30, 2007, the Company acquired 57,426 shares of treasury stock, of which 36,841 shares were reissued in connection with the aforementioned common stock grants.

During the six months ended June 30, 2007, 1,333 unvested shares of restricted common stock were forfeited.

2. Basis of Presentation

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, these financial statements do not include certain information and disclosures required by GAAP for complete financial statements. However, in the opinion of management, all adjustments, consisting of normal recurring adjustments and accruals, considered necessary for a fair presentation have been included.

In addition, the following items affect the Company s reporting comparability related to its consolidated financial statements:

The operations of the Company s hotels have historically been seasonal. This seasonality pattern causes fluctuations in the Company s operating results. Consequently, operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

Marriott International, Inc. (Marriott) manages 46 of the Company s properties. For these 46 Marriott-managed hotels, the fiscal year reflects twelve weeks of operations for the first three quarters of the year and sixteen weeks for the fourth quarter of the year. Therefore, in any given quarterly period, period-over-period results will have different ending dates. For Marriott-managed hotels, the second quarters of 2007 and 2006 ended June 15th and June 16th, respectively.

Certain previously reported amounts have been reclassified to conform to the current presentation. These consolidated financial statements should be read in conjunction with the Company s audited consolidated financial statements

Table of Contents

and footnotes for the year ended December 31, 2006, included in the Company's Form 10-K, as filed with the Securities and Exchange Commission on March 9, 2007. The accounting policies used in preparing these consolidated financial statements are consistent with those described in such Form 10-K.

3. Significant Accounting Policies Summary

Principles of Consolidation The Company's consolidated financial statements include the Company and its majority-owned subsidiaries and its majority-owned joint ventures in which the Company has a controlling interest. All significant intercompany accounts and transactions between consolidated entities have been eliminated in these consolidated financial statements.

Revenue Recognition Hotel revenues include room, food, beverage, and ancillary revenues such as long-distance telephone service, laundry, and space rentals. Rental income from operating leases represents rental income recognized on a straight-line basis associated with the hotel property leased to a third-party tenant on a triple-net lease basis. Interest income from notes receivable represents interest earned on the Company's mezzanine and first-mortgage loans receivable portfolio. Asset management fees relate to asset management services performed on behalf of a related party, including risk management and insurance procurement, assistance with taxes, negotiating franchise agreements and equipment leases, monitoring compliance with loan covenants, preparation of capital and operating budgets, and property litigation management. Hotel revenues and asset management fees are recognized as the related services are delivered.

Foreign Currency Translations Financial information related to the Company's hotel property located in Montreal, Canada, is maintained in the local currency. Results of operations are translated to U.S. dollars using the average exchange rates during the period while assets and liabilities are translated using the exchange rate in effect at the balance sheet date. Translation adjustments are reflected in the consolidated statements of owners' equity as a component of accumulated other comprehensive income. Gains or losses from foreign currency transactions, however, are reflected in the consolidated statements of operations.

Use of Estimates The preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Management Agreements In connection with the Company's acquisitions of Marriott Crystal Gateway hotel in Arlington, Virginia, on July 13, 2006 and the 51-hotel CNL portfolio on April 11, 2007, the Company assumed certain existing management agreements. Based on the Company's review of these management agreements, the Company concluded that the terms of certain management agreements are more favorable to the respective managers than typical current market management agreements. As a result, the Company recorded unfavorable contract liabilities related to these management agreements as of the respective acquisition dates based on the present value of expected cash outflows over the initial terms of the related agreements, which are amortized as reductions to incentive management fees on a straight-line basis over the initial terms of the related agreements.

Investment in Hotel Properties Hotel properties are generally stated at cost. However, the initial properties contributed upon the Company's formation are stated at the predecessor's historical cost, net of any impairment charges, plus a minority interest partial step-up related to the acquisition of minority interest from third parties associated with four of the initial properties. In addition, included in the 51-hotel CNL portfolio acquired on April 11, 2007, are 17 hotel properties owned by joint ventures, of which the Company acquired between 70%-89% ownership interest. For these hotel properties, the carrying basis attributable to the joint venture partners' minority ownership is recorded at the predecessor's historical cost, net of any impairment charges, while the carrying basis attributable to the Company's majority ownership is recorded based on the allocated purchase price of the Company's ownership interest in the joint ventures. All improvements and additions which extend the useful life of hotel properties are capitalized.

Impairment of Investment in Hotel Properties Hotel properties are reviewed for impairment whenever events or changes in circumstances indicate that the carrying values of such hotel properties may not be recoverable. The Company tests for impairment in several situations, including when current or projected cash flows are less than historical cash flows, when it becomes more likely than not that a hotel property will be sold before the end of its

previously estimated useful life, and when events or changes in circumstances indicate that a hotel property's net book value may not be recoverable. In evaluating the impairment of hotel properties, the Company makes many assumptions and estimates, including projected cash flows, holding period, expected useful life, future capital expenditures, and fair values, which considers capitalization rates, discount rates, and comparable selling prices. If an asset was deemed to be impaired, the Company would record an impairment charge for the amount that the property's net book value exceeds its fair value. To date, no such impairment charges have been recognized.

Depreciation and Amortization Expense Depreciation expense is based on the estimated useful life of the Company's assets, while amortization expense for leasehold improvements is based on the shorter of the lease term or the estimated useful life of the related assets. Presently, hotel properties are depreciated using the straight-line method over lives which range from 15 to 39 years for buildings and improvements and 3 to 5 years for furniture, fixtures, and equipment. While the Company believes its estimates are reasonable, a change in estimated lives could affect depreciation expense and net income (loss) as well as the gain or loss on the potential sale of any of the Company's hotels.

Restricted Cash Restricted cash includes reserves for debt service, real estate taxes, and insurance, as well as excess cash flow deposits and reserves for furniture, fixtures, and equipment replacements of approximately 4% to 6% of property revenue for certain hotels, as required by certain management or mortgage debt agreement restrictions and provisions.

Assets Held For Sale and Discontinued Operations The Company records assets as held for sale when management has committed to a plan to sell the assets, actively seeks a buyer for the assets, and the consummation of the sale is considered probable and is expected

within one year. The related operations of assets held for sale are reported as discontinued if a) such operations and cash flows can be clearly distinguished, both operationally and financially, from the ongoing operations of the Company, b) such operations and cash flows will be eliminated from ongoing operations once the disposal occurs, and c) the Company will not have any significant continuing involvement subsequent to the disposal.

Notes Receivable The Company provides mezzanine and first-mortgage financing in the form of loans receivable, which are recorded at cost, adjusted for net origination fees and costs. Premiums, discounts, and net origination fees are amortized or accreted as an adjustment to interest income using the effective interest method. Loans receivable are reviewed for potential impairment at each balance sheet date. A loan receivable is considered impaired when it becomes probable, based on current information, that the Company will be unable to collect all amounts due according to the loan's contractual terms. The amount of impairment, if any, is measured by comparing the recorded amount of the loan to the present value of the expected cash flows or the fair value of the collateral. If a loan was deemed to be impaired, the Company would record a reserve for loan losses through a charge to income for any shortfall. To date, no such impairment charges have been recognized.

In accordance with Financial Accounting Standards Board Interpretation No. 46, Consolidation of Variable Interest Entities, as revised (FIN No. 46), variable interest entities, as defined, are required to be consolidated by their primary beneficiaries if the variable interest entities do not effectively disperse risks among parties involved. The Company's mezzanine and first-mortgage loans receivable are each secured by various hotel properties or partnership interests in hotel properties and are subordinate to primary loans related to the secured hotels. All such loans receivable are considered to be variable interests in the entities that own the related hotels, which are variable interest entities. However, the Company is not considered to be the primary beneficiary of these hotel properties as a result of holding these loans. Therefore, the Company does not consolidate such hotels for which it has provided financing. Interests in entities acquired or created in the future will be evaluated based on FIN No. 46 criteria, and such entities will be consolidated, if required. In evaluating FIN No. 46 criteria, the Company's analysis involves considerable management judgment and assumptions.

Guarantees Upon acquisition of the 51-hotel CNL portfolio on April 11, 2007, the Company assumed guarantees, which represent funds provided by third-party hotel managers to guarantee minimum returns for certain hotel properties. As the Company is obligated to repay such amounts through increased incentive management fees over the remaining terms of the related management agreements or through cash reimbursements, such guarantees are recorded as other liabilities. As of June 30, 2007, these liabilities totaled approximately \$943,000.

Due From Third-Party Hotel Managers Due from third-party hotel managers primarily consists of amounts due from Marriott related to cash reserves held at the Marriott corporate level related to capital, insurance, real estate taxes, and other items.

Derivative Instruments and Hedging Activities Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted (SFAS No. 133), establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. As required by SFAS No. 133, the Company records all derivatives on the balance sheet at fair value. Accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

For derivatives designated as fair value hedges, changes in the fair value of the derivative and the hedged item related to the hedged risk are recognized in earnings. For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings, while the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings. The Company assesses the effectiveness of each hedging relationship by comparing the changes in fair value or cash flows of the derivative hedging instrument with the changes in fair value or cash flows of the designated hedged item or transaction. For derivatives not designated as hedges, changes in the fair value are recognized in earnings.

The Company's objective in using derivatives is to increase stability related to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate swaps and caps as part of its cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. Interest rate caps designated as cash flow hedges provide the Company with interest rate protection above the strike rate on the cap and result in the Company receiving interest payments when actual rates exceed the cap strike.

Income Taxes As a REIT, the Company generally will not be subject to federal corporate income tax on the portion of its net income (loss) that does not relate to taxable REIT subsidiaries. However, Ashford TRS is treated as a taxable REIT subsidiary for federal income tax purposes. In accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes, the Company accounts for income taxes related to Ashford TRS using the asset and liability method under which deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. For the three and six months ended June 30, 2007 and 2006, the (provision for) benefit from income taxes relates to the net income (loss) associated with Ashford TRS.

Segments The Company presently operates in two business segments within the hotel lodging industry: direct hotel investments and hotel financing. Direct hotel investments refers to owning hotels through either acquisition or new development. Hotel financing refers to owning subordinate hotel-related mortgage receivables through acquisition or origination.

Stock-based Compensation The Company accounts for stock-based compensation using the fair-value method. In connection with the Company's formation, the Company established an employee Incentive Stock Plan (the "Stock Plan"). Under the Stock Plan, the Company periodically issues shares of restricted and non-restricted common stock. All such shares are charged to compensation expense on a straight-line basis over the vesting period based on the Company's stock price on the date of issuance. Under the Stock Plan, the Company may issue a variety of additional performance-based stock awards, including nonqualified stock options. As of June 30, 2007, no performance-based stock awards aside from the aforementioned stock grants have been issued.

Earnings (Loss) Per Share Basic earnings (loss) per common share is calculated by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding during the period. Diluted earnings (loss) per common share reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares, whereby such exercise or conversion would result in lower earnings per share. The following table reconciles the amounts used in calculating basic and diluted earnings (loss) per share for the three and six months ended June 30, 2007 and 2006 (in thousands, except share and per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Income (loss) from continuing operations less preferred dividends - basic	\$ (11,854)	\$ 6,975	\$ (6,776)	\$ 8,593
Weighted average common shares outstanding - basic	108,138,363	55,711,214	90,275,311	53,828,335
Incremental diluted shares related to unvested restricted shares		213,519		537,519
Weighted average common shares outstanding - diluted	108,138,363	55,924,733	90,275,311	54,365,854
Income (loss) per share from continuing operations - basic	\$ (0.11)	\$ 0.13	\$ (0.08)	\$ 0.16
Income (loss) per share from continuing operations - diluted	\$ (0.11)	\$ 0.12	\$ (0.08)	\$ 0.16

For the three and six months ended June 30, 2007, incremental diluted shares related to unvested restricted stock of approximately 66,000 and 464,000, respectively, are excluded from the diluted earnings per share calculation as such shares are anti-dilutive. For the three and six months ended June 30, 2007, dividends related to convertible preferred shares of approximately \$1.6 million and \$3.1 million, respectively, and weighted average convertible preferred shares outstanding of approximately 7.4 million and 7.4 million, respectively, are excluded from the diluted earnings per share calculation as such shares are anti-dilutive. For the three and six months ended June 30, 2007, minority interest income (expense) related to limited partners of approximately (\$451,000) and \$800,000, respectively, and weighted average units of limited partnership interest of approximately 13.5 million and 13.5 million, respectively, are excluded from the diluted earnings per share calculation as such units are anti-dilutive.

For the three and six months ended June 30, 2006, dividends related to convertible preferred shares of approximately \$1.5 million and \$3.0 million, respectively, and weighted average convertible preferred shares outstanding of approximately 7.5 million and 7.5 million, respectively, are excluded from the diluted earnings per share calculation as such shares are anti-dilutive. For the three and six months ended June 30, 2006, minority interest expense related to

limited partners of approximately \$1.8 million and \$2.8 million, respectively, and weighted average units of limited partnership interest of approximately 10.8 million and 10.9 million, respectively, are excluded from the diluted earnings per share calculation as such units are anti-dilutive.

Recent Accounting Pronouncements In June 2006, the Emerging Issues Task Force (EITF) ratified EITF No. 06-3,

How Taxes Collected from Customers and Remitted to Government Authorities Should be Presented in the Income Statement (That Is, Gross versus Net Presentation). EITF No. 06-3 is effective for interim and annual periods beginning after December 15, 2006, with earlier application permitted. EITF No. 06-3 relates to taxes assessed by a governmental authority imposed on revenue-producing transactions, such as sales taxes. EITF No. 06-3 states that gross versus net income statement presentation of such taxes is an accounting policy decision requiring disclosure. EITF No. 06-3 further requires disclosure of the amount of such taxes reflected at gross, if any. The Company records all sales net of such taxes.

In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (FIN No. 48), effective January 1, 2007. FIN No. 48 prescribes a recognition threshold and measurement attribute for the recognition and measurement of a tax position taken in a tax return. FIN No. 48 requires that a determination be made as to whether it is more likely than not that a tax position taken, based on its technical merits, will be sustained upon examination, including resolution of any appeals and litigation processes. If the more-likely-than-not threshold is met, the tax position must be measured to determine the amount of benefit, if any, to recognize in the financial statements. FIN No. 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, Accounting for Income Taxes, but does not apply to tax positions related to FASB Statement No. 5, Accounting for Contingencies. The Company or its subsidiaries file income tax returns in the U.S. federal jurisdiction and various states. Tax years 2003 through 2006 and 2002 through 2006 remain subject to potential examination by certain federal and state taxing authorities, respectively. No income tax examinations are currently in process. As the Company determined no material unrecognized tax benefits or liabilities exist, the adoption of FIN No. 48, effective January 1, 2007, did not impact the Company's financial condition or results of operations. The Company classifies interest and penalties related to underpayment of income taxes as income tax expense.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS No. 157), effective for financial statements issued for fiscal years beginning after November 15, 2007. SFAS No. 157 provides guidance for using fair value to measure assets and liabilities. SFAS No. 157 also requires expanded information about the extent to which assets and liabilities are measured at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS No. 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value, and does not expand the use of fair value in any new circumstances. The Company is currently evaluating the effects the adoption of SFAS No. 157 will have on its financial condition or results of operations.

Table of Contents

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159), effective for financial statements issued for fiscal years beginning after November 15, 2007. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with opportunities to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The Company is currently evaluating the effects the adoption of SFAS No. 159 will have on its financial condition or results of operations.

In June 2007, the AICPA issued Statement of Position No. 07-1, *Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies* (SOP No. 07-1), effective for financial statements issued for fiscal years beginning after December 15, 2007. SOP No. 07-1 clarifies when companies or their investments fall within the scope of investment-company accounting guidance. Investment-company accounting requires, among other things, that investments be carried at fair value with changes in fair value recorded in the statement of operations. The Company is currently evaluating the effects the adoption of SOP No. 07-1 will have on its financial condition or results of operations.

4. Investment in Hotel Properties

Investment in Hotel Properties consists of the following as of June 30, 2007 and December 31, 2006 (in thousands):

	June 30, 2007	December 31, 2006
Land	\$ 576,273	\$ 217,930
Buildings and improvements	3,606,804	1,379,946

Accumulated depreciation	(180,566)	(105,926)
Investment in hotel properties, net	\$ 4,279,054	\$ 1,632,946

On April 11, 2007, the Company acquired a 51-property hotel portfolio from CNL Hotels and Resorts, Inc. for approximately \$2.4 billion. Pursuant to this agreement, the Company acquired 100% of 33 properties and 70%-89% of 18 properties through existing joint ventures. In addition, on April 11, 2007, the Company acquired the remaining 15% joint venture interest in the Hyatt Regency Dearborn in Detroit, Michigan, for approximately \$7.5 million. Considering closing costs and unfavorable contract liabilities assumed, these acquisitions generated an increase in Investment in Hotel Properties of approximately \$2.7 billion, which includes the historical cost basis related to the joint venture partners' minority ownership.

On May 21, 2007, the Company acquired a Marriott Residence Inn and a Hampton Inn, both in Jacksonville, Florida, for approximately \$35.8 million. Considering closing costs, this acquisition generated an increase in Investment in Hotel Properties of approximately \$35.7 million with the remainder of the purchase price related to working capital.

5. Assets Held for Sale and Discontinued Operations

As of December 31, 2006, the Company had 17 assets, including 15 hotel properties and two office buildings, classified as assets held for sale and discontinued operations. Subsequent to December 31, 2006, Company management made a strategic decision to initiate sales efforts related to its Embassy Suites hotel in Phoenix, Arizona. As a result, the Company classified assets and operating results related to this hotel as held for sale as of all subsequent balance sheet dates and income from discontinued operations for all periods reported, respectively. During the six months ended June 30, 2007, the Company completed the following transactions related to assets classified as held for sale and discontinued operations:

COMPLETED SALES:

On February 6, 2007, the Company sold its Marriott located in Trumbull, Connecticut, for approximately \$28.3 million. As the Company acquired this property on December 7, 2006, no gain or loss was recognized on the sale.

On February 8, 2007, the Company sold its Fairfield Inn in Princeton, Indiana, for approximately \$3.2 million. In connection with this sale, the Company recognized a gain of approximately \$1.4 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On April 24, 2007, the Company sold its Radisson Hotel in Indianapolis, Indiana, for approximately \$5.4 million. In connection with this sale, the Company recognized a gain of approximately \$2.7 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On April 26, 2007, the Company sold its Fairfield Inn in Evansville, Indiana, for approximately \$5.5 million. In connection with this sale, the Company recognized a gain of approximately \$531,000, of which related income tax gains were deferred through a 1031 like-kind exchange.

Table of Contents

On April 27, 2007, the Company sold its Embassy Suites in Phoenix, Arizona, for approximately \$25.0 million. In connection with this sale, the Company recognized a gain of approximately \$8.5 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On May 2, 2007, the Company sold its Radisson Hotel in Covington, Kentucky, and an office building for approximately \$22.4 million. In connection with this sale, the Company recognized a gain of approximately \$3.4 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On May 18, 2007, the Company sold its portfolio of seven TownePlace Suites hotels for approximately \$57.5 million. In connection with this sale, the Company recognized a gain of approximately \$18.2 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

DEFINITIVE SALES AGREEMENTS REACHED:

On April 3, 2007, the Company reached a definitive agreement to sell its Hampton Inn in Horse Cave, Kentucky, for approximately \$3.4 million. As of June 30, 2007, the carrying value of this hotel was approximately \$2.9 million. Consequently, the Company expects to recognize a gain on this sale.

For the three and six months ended June 30, 2007 and 2006, financial information related to the Company's assets included in income from discontinued operations was as follows (in thousands):

Table of Contents

At June 30, 2007 and December 31, 2006, LIBOR was 5.32% and 5.32%, respectively.

On January 30, 2007, the Company completed a \$20.0 million draw on its \$150.0 million credit facility, due August 16, 2008.

On February 6, 2007, in connection with the Company's sale of its Marriott located in Trumbull, Connecticut, for approximately \$28.3 million, the Company paid down its \$212.0 million mortgage note payable, due December 11, 2009, by approximately \$28.0 million. Consequently, the \$212.0 million mortgage loan secured by seven hotels outstanding at December 31, 2006 became the \$184.0 million mortgage loan secured by six hotels outstanding at June 30, 2007. In connection with this pay-down, the Company wrote-off unamortized loan costs of approximately \$212,000.

On March 8, 2007, the Company terminated its \$100.0 million credit facility, due December 23, 2008. This credit facility never had an outstanding balance. In connection with this termination, the Company wrote-off unamortized loan costs of approximately \$490,000.

On April 9, 2007, the Company drew \$45.0 million on its \$47.5 million credit facility, due October 10, 2008.

On April 10, 2007, the Company repaid its \$45.0 million outstanding balance on its \$150.0 million credit facility, due August 16, 2008, and terminated the facility. In connection with this termination, the Company wrote-off unamortized loan costs of approximately \$1.2 million.

On April 11, 2007, in connection with its acquisition of a 51-property hotel portfolio from CNL Hotels and Resorts, Inc. for approximately \$2.4 billion plus closing costs of approximately \$96.0 million, the Company executed a \$928.5 million, ten-year, fixed-rate loan at an average blended interest rate of 5.95%, a \$555.1 million, two-year, variable-rate loan with three one-year extension options at an interest rate of LIBOR plus 1.65%, and a \$325.0 million, one-year, variable-rate loan with two one-year extension options at an interest rate of LIBOR plus 1.5%, and assumed fixed-rate debt of approximately \$562.1 million (or approximately \$432.3 million net of debt attributable to joint venture partners), representing eleven fixed-rate loans with an average blended interest rate of 6.01% and expiration dates ranging from 2008 to 2025. In addition, the Company executed a \$200.0 million credit facility with an interest rate of LIBOR plus a range of 1.55% to 1.95% depending on the loan-to-value ratio, which matures April 9, 2010 with two one-year extension options, requires interest-only payments through maturity, and requires quarterly commitment fees ranging from 0.125% to 0.20% of the average undrawn balance during the quarter. To fund this acquisition, the Company drew approximately \$50.0 million on this credit facility. Regarding the assumed debt of approximately \$562.1 million, the Company preliminarily recorded these loans at premiums totaling approximately \$2.7 million as the fixed interest rates on many of these loans exceeds current interest rates the Company would otherwise incur on similar financial instruments. The debt premiums are amortized as an adjustment to interest expense over the terms of the related loans using the effective interest method.

On April 11, 2007, in connection with its acquisition of the remaining 15% joint venture interest in the Hyatt Regency Dearborn in Detroit, Michigan, for approximately \$7.5 million, the Company assumed debt attributable to the joint venture partner of approximately \$4.6 million. The Company acquired the other 85% interest pursuant to its acquisition of the 51-property hotel portfolio on April 11, 2007, as discussed above.

On April 16, 2007, the Company drew \$25.0 million on its \$200.0 million credit facility, due April 9, 2010.

On April 24 and 25, 2007, with proceeds received from its follow-on public offering completed April 24, 2007, the Company paid down the \$45.0 million outstanding balance on its \$47.5 million credit facility, due October 10, 2008, paid off the \$325.0 million variable-rate loan, due April 9, 2008, and paid down its \$555.1 million variable-rate loan, due May 9, 2009, by approximately \$180.1 million. These three debt payments were made on April 25, 2007, April 24, 2007, and April 25, 2007, respectively. In connection with these repayments, the Company wrote-off unamortized loan costs of approximately \$1.9 million related to the repayment of the \$325.0 million loan and incurred prepayment penalties of approximately \$559,000 related to the \$180.1 million repayment.

On May 3, 2007, the Company repaid \$25.0 million on its \$200.0 million credit facility, due April 9, 2010.

On May 18, 2007, in connection with the Company's sale of its portfolio of seven TownePlace Suites hotels for approximately \$57.5 million, the Company paid down approximately \$32.0 million related to its mortgage loan due July 1, 2015. Consequently, the \$487.1 million mortgage loan secured by 32 hotels outstanding at December 31, 2006 became the \$455.1 million mortgage loan secured by 25 hotels outstanding at June 30, 2007. In connection with this

pay-down, the Company wrote-off unamortized loan costs of approximately \$205,000 and incurred prepayment penalties of approximately \$1.5 million.

On May 22, 2007, the Company modified its \$200.0 million credit facility, due April 9, 2010, to increase its capacity to \$300.0 million.

8. Derivative Instruments and Hedging Activities

Derivatives owned by the Company as of June 30, 2007 and December 31, 2006 as well as derivative-related transactions completed by the Company during the six months ended June 30, 2007 are described below:

On October 28, 2005, the Company purchased a 7.0% LIBOR interest rate cap with a \$45.0 million notional amount, which matures October 15, 2007, to limit its exposure to rising interest rates on \$45.0 million of its variable-rate debt. The Company designated the \$45.0 million cap as a cash flow hedge of its exposure to changes in interest rates on a corresponding amount of variable-rate debt. On February 9, 2006, the Company paid down the related hedged \$45.0 million revolving mortgage loan, due October 10, 2008, to \$100 and discontinued hedge accounting related to this derivative as it no longer qualified as a cash flow hedge.

On December 6, 2006, the Company purchased a 6.25% LIBOR interest rate cap with a \$212.0 million notional amount, which matures December 11, 2009, to limit its exposure to rising interest rates on \$212.0 million of its variable-rate debt. The Company designated the \$212.0 million cap as a cash flow hedge of its exposure to changes in interest rates on a corresponding amount of variable-rate debt. On February 6, 2007, the Company paid down the related hedged \$212.0 million mortgage loan, due December 11, 2009, by approximately \$28.0 million and discontinued hedge accounting related to \$28.0 million of this derivative. Consequently, the Company recognized hedge ineffectiveness related to this \$28.0 million as other income increase (decrease) of approximately \$13,000 and (\$471), respectively, for the three and six months ended June 30, 2007. For the three and six months ended June 30, 2006, no hedge ineffectiveness was recognized.

On December 6, 2006, the Company purchased a 6.25% LIBOR interest rate cap with a \$35.0 million notional amount, which matures December 11, 2009, to limit its exposure to rising interest rates on future variable-rate debt that the Company intends to draw over the next two years as capital expenditures are incurred. As this cap did not meet applicable hedge accounting criteria, it is not designated as a cash flow hedge.

On April 11, 2007, the Company purchased four 6.0% LIBOR interest rate caps with a total notional amount of approximately \$555.1 million, which mature May 9, 2009, to limit its exposure to rising interest rates on \$555.1 million of its variable-rate debt. On April 25, 2007, the Company paid down the related hedged \$555.1 million mortgage loan, due May 9, 2009, by approximately \$180.1 million and terminated a corresponding amount of these caps. As the remaining \$375.0 million of these caps did not meet applicable hedge accounting criteria, such derivatives are not designated as cash flow hedges.

Regarding derivatives not qualifying as cash flow hedges, changes in fair value are recognized in earnings. For the three and six months ended June 30, 2007, approximately \$53,000 and \$32,000, respectively, was recognized as other income related to these derivatives. For the three and six months ended June 30, 2006, fair value changes related to such derivatives was nominal.

As of June 30, 2007 and December 31, 2006, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations. Additionally, the Company does not use derivatives for trading or speculative purposes.

As of June 30, 2007 and December 31, 2006, derivatives with a fair value of approximately \$413,000 and \$222,000 were included in other assets, respectively. For the three and six months ended June 30, 2007, the change in accumulated other comprehensive income (loss) of approximately \$84,000 and (\$147,000), respectively, for all

derivatives is separately disclosed in the consolidated statements of comprehensive income (loss). For the three and six months ended June 30, 2006, the change in accumulated other comprehensive income (loss) of approximately (\$349,000) and (\$712,000), respectively, for all derivatives is separately disclosed in the consolidated statements of comprehensive income (loss).

Amounts reported in accumulated other comprehensive income (loss) related to derivatives are reclassified to interest expense as interest payments are made on the Company's variable-rate debt. During the next twelve months, the Company estimates that approximately \$23,000 will be reclassified from accumulated other comprehensive income (loss) existing at June 30, 2007 to increase interest expense.

9. Employee Stock Grants

All shares issued under the Company's Stock Plan are charged to compensation expense on a straight-line basis over the vesting period based on the Company's stock price on the date of each issuance. For the three and six months ended June 30, 2007, the Company recognized compensation expense of approximately \$1.9 million and \$3.0 million, respectively, related to these shares. For the three and six months ended June 30, 2006, the Company recognized compensation expense of approximately \$1.8 million and \$2.7 million, respectively, related to these shares. As of June 30, 2007, the unamortized value of the Company's unvested shares of restricted stock was approximately \$15.4 million, with an average remaining vesting period of approximately 1.73 years.

Table of Contents

For the six months ended June 30, 2007, the Company completed the following transactions related to its Stock Plan:

On March 27, 2007, the Company issued 712,500 shares of restricted common stock to its executive officers. Such shares vest over four years.

On March 27, 2007, the Company issued 126,000 shares of restricted common stock to certain employees. Such shares vest over three years.

On May 15, 2007, the Company issued 16,000 shares of common stock to its directors as compensation for serving on the Board of Directors through May 2008. Such shares vested immediately.

During the six months ended June 30, 2007, 1,333 unvested shares of restricted common stock were forfeited. For the six months ended June 30, 2007, the following table summarizes information regarding the Company's Stock Plan:

	Share Count	Weighted Average Grant Price
Unvested shares at December 31, 2006	939,623	\$ 11.74
Shares granted on March 27, 2007	838,500	12.39
Shares granted on May 15, 2007	16,000	12.06
Shares forfeited on June 21, 2007	(1,333)	12.41
Shares vested during the six months ended June 30, 2007	(376,193)	11.53
Unvested shares at June 30, 2007	1,416,597	\$ 12.18

10. Capital Stock

Common Stock - During the six months ended June 30, 2007, the Company acquired 57,426 shares of treasury stock for approximately \$700,000 in connection with the Company's Stock Plan, which allows employees to tender vested shares of restricted common stock to the Company at current market prices to cover individual federal income taxes withheld on such shares as such shares vest. During the six months ended June 30, 2007, the Company reissued 36,841 treasury shares as common stock granted to its executives, certain employees, and directors under its Stock Plan.

On April 13, 2007, the Company filed a Form S-3 related to the registration of an indeterminate value of securities for potential future issuance, including common stock, preferred stock, debt, and warrants. The Company prepaid filing fees for the issuance of \$1.0 billion of said securities.

On April 24, 2007, in a follow-on public offering, the Company issued 48,875,000 shares of its common stock at \$11.75 per share, which generated gross proceeds of approximately \$574.3 million. However, the aggregate proceeds to the Company, net of underwriters' discount and offering costs, was approximately \$548.2 million. The 48,875,000 shares issued include 6,375,000 shares sold pursuant to an over-allotment option granted to the underwriters. These net proceeds along with cash on hand were used to pay-down the \$45.0 million outstanding balance on its \$47.5 million credit facility, due October 10, 2008, payoff the \$325.0 million variable-rate loan, due April 9, 2008, and pay-down its \$555.1 million variable-rate loan, due May 9, 2009, by approximately \$180.1 million. These three debt payments were made on April 25, 2007, April 24, 2007, and April 25, 2007, respectively.

Preferred Stock - In accordance with the Company's charter, the Company is authorized to issue 50 million shares of preferred stock, which, as of June 30, 2007, includes both Series A cumulative preferred stock, Series B cumulative convertible redeemable preferred stock, and Series C cumulative redeemable preferred stock.

On April 11, 2007, the Company issued 8.0 million shares of Series C cumulative redeemable preferred stock at \$25 per share for approximately \$200.0 million less a commitment fee of approximately \$6.3 million. Series C preferred stock has no maturity date. Dividends are payable quarterly, when and as declared, at a rate of three-month LIBOR

plus 2.5% through the first 18 months and three-month LIBOR plus a range of 4.25% to 8.0% depending on the net debt to total assets ratio thereafter. Dividends are payable on the 15th day of January, April, July, and October of each year, or if such day is not a business day, the next succeeding business day. Before 18 months and after 78 months from the date of issuance, Series C preferred stock is redeemable at the Company's option for cash, in whole or from time to time in part, at a redemption price of \$25 per share plus accrued and unpaid dividends, if any, at the redemption date. Between 18 months and 78 months from the date of issuance, Series C preferred stock is not redeemable, except in certain limited circumstances relating to the ownership limitation necessary to preserve the Company's qualification as a REIT. In general, the holders of Series C preferred stock have no voting rights.

Common Stock and Units Dividends During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$45.3 million, or \$0.21 per diluted share per quarter, related to both common stockholders and common unit holders, of which approximately \$41.2 million and \$4.1 million related to each, respectively. During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$1.5 million, or \$0.19 per diluted share per quarter, related to Class B unit holders.

Series A Preferred Stock Dividends During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$2.5 million, or \$0.5344 per diluted share per quarter, related to Series A preferred stockholders.

Table of Contents

Series C Preferred Stock Dividends During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$3.5 million, based on LIBOR plus 2.5% for the period outstanding, related to Series C preferred stockholders. In addition, the Company recognized non-cash preferred dividends of approximately \$705,000 related to the amortization of the discount attributable to the increasing-rate preferred dividend clause effective 18 months after issuance.

11. Minority Interest

Minority Interest In Consolidated Joint Ventures Minority interest in consolidated joint ventures represents net income (loss) attributable to joint venture partners that own 11%-30% of 17 hotel properties acquired on April 11, 2007.

Minority Interest Related To Limited Partners - Minority interest related to limited partners represents the limited partners proportionate share of the equity in the operating partnership. Minority interest related to limited partners represents dividends to Class B common unit holders plus an allocation of net income (loss) available to common shareholders after deducting dividends to Class B common unit holders based on the common unit holders weighted average limited partnership percentage ownership throughout the period. As of June 30, 2007 and December 31, 2006, all units of limited partnership interest represent 9.92% and 15.63% minority interest ownership, respectively.

12. Related Party Transactions

Under management agreements with related parties owned by the Company's Chairman and its Chief Executive Officer, the Company pays such related parties a) monthly property management fees equal to the greater of \$10,000 (CPI adjusted) or 3% of gross revenues as well as annual incentive management fees, if certain operational criteria are met, b) market service fees on approved capital improvements, including project management fees of up to 4% of project costs, and c) other reimbursements as approved by the Company's independent directors. As of June 30, 2007, these related parties managed 38 of the Company's 121 hotels while unaffiliated management companies managed the remaining 83 hotel properties.

Under agreements with both related parties and unaffiliated hotel managers, the Company incurred property management fees, including incentive property management fees, of approximately \$17.0 million and \$24.5 million for the three and six months ended June 30, 2007, respectively, and approximately \$6.2 million and \$12.0 million for the three and six months ended June 30, 2006, respectively. Incentive property management fees are included in indirect expenses on the consolidated statements of operations.

Regarding the \$17.0 million incurred for the three months ended June 30, 2007, approximately \$2.6 million and \$14.4 million relates to related parties and third parties, respectively. Regarding the \$24.5 million incurred for the six months ended June 30, 2007, approximately \$5.2 million and \$19.4 million relates to related parties and third parties, respectively.

Regarding the \$6.2 million incurred for the three months ended June 30, 2006, approximately \$2.5 million and \$3.7 million relates to related parties and third parties, respectively. Regarding the \$12.0 million incurred for the six months ended June 30, 2006, approximately \$4.6 million and \$7.4 million relates to related parties and third parties, respectively.

Under these agreements with related parties, the Company also incurred market service and project management fees related to capital improvement projects of approximately \$1.7 million and \$2.9 million for the three and six months ended June 30, 2007, respectively, and approximately \$1.1 million and \$2.8 million for the three and six months ended June 30, 2006, respectively.

In addition, these related parties fund certain corporate general and administrative expenses on behalf of the Company, including rent, payroll, office supplies, travel, and accounting. The related parties allocate such charges to the Company based on various methodologies, including headcount and actual amounts incurred. For the three and six months ended June 30, 2007, such costs were approximately \$1.2 million and \$2.4 million, respectively. For the three and six months ended June 30, 2006, such costs were approximately \$1.0 million and \$2.0 million, respectively.

Management agreements with related parties include exclusivity clauses that require the Company to engage such related parties, unless the Company's independent directors either (i) unanimously vote to hire a different manager or developer or (ii) by a majority vote elect not to engage such related party because special circumstances exist or, based on the related party's prior performance, it is believed that another manager or developer could materially improve the performance of such management duties.

13. Commitments and Contingencies

Restricted Cash - Under certain management and debt agreements existing at June 30, 2007, the Company escrows payments required for insurance, real estate taxes, and debt service. In addition, for certain properties with underlying debt, the Company escrows 4% to 6% of gross revenue for capital improvements.

Franchise Fees - Under franchise agreements existing at June 30, 2007, the Company pays franchisors royalty fees between 2.5% and 6% of gross room revenue as well as fees for marketing, reservations, and other related activities aggregating between 1% and 3.75% of gross room revenue. These franchise agreements expire from 2011 through 2027. When a franchise term expires, the franchisor has no obligation to renew the franchise. A franchise termination could have a material adverse effect on the operations or the underlying value of the affected hotel due to loss of associated name recognition, marketing support, and centralized reservation systems provided by the franchisor. A franchise termination could also have a material adverse effect on cash available for distribution to stockholders. In addition, if the Company terminates a franchise prior to its expiration date, the Company may be liable

Table of Contents

for up to three times the average annual franchise fees incurred for that property.

Management Fees - Under management agreements existing at June 30, 2007, the Company pays a) monthly property management fees equal to the greater of \$10,000 (CPI adjusted) or 3% of gross revenues, or in some cases 3% to 7% of gross revenues, as well as annual incentive management fees, if applicable, b) market service fees on approved capital improvements, including project management fees of up to 4% of project costs, for certain hotels, and c) other general fees at current market rates as approved by the Company's independent directors. These management agreements expire from 2007 through 2027, with renewal options on agreements with related parties of up to 25 additional years. In addition, if the Company terminates a management agreement related to any of its initial properties prior to its expiration due to sale of the property, it may be liable for all estimated management fees due under the management agreement's remaining term. However, this termination fee may be avoided in certain circumstances by substitution of a similar property. If the Company terminates a management agreement related to any of its hotels prior to its expiration, it may be liable for estimated management fees through the remaining term of the related contract or, in certain circumstances, substitute a new management agreement related to a different hotel.

Litigation - The Company is currently subject to litigation arising in the normal course of its business. In the opinion of management, none of these lawsuits or claims against the Company, either individually or in the aggregate, is likely to have a material adverse effect on the Company's business, results of operations, or financial condition. In addition, management believes the Company has adequate insurance in place to cover any such significant litigation.

As of June 30, 2007 and December 31, 2006, aside from the Company's \$72.9 million and \$103.0 million notes receivable portfolio, respectively, all assets of the Company primarily relate to the direct hotel investments segment. In addition, for the three and six months ended June 30, 2007 and 2006, all capital expenditures incurred by the Company relate to the direct hotel investments segment.

As of June 30, 2007 and December 31, 2006, all of the Company's owned hotels are domestically located, except for the Hyatt Regency in Montreal, Canada, acquired April 11, 2007. In addition, at June 30, 2007 and December 31, 2006, all hotels securing the Company's notes receivable are domestically located with the exception of one hotel securing an \$18.2 million loan receivable located in Nevis, West Indies.

Table of Contents**16. Business Combinations**

On February 24, 2006, the Company acquired the Marriott at Research Triangle Park hotel property in Durham, North Carolina, from Host Marriott Corporation for approximately \$28.0 million in cash. The Company used proceeds from its sale of two hotels on January 17, 2006 and its follow-on public offering on January 25, 2006 to fund this acquisition.

On April 19, 2006, the Company acquired the Pan Pacific San Francisco Hotel in San Francisco, California, from W2001 Pac Realty, L.L.C. for approximately \$95.0 million in cash and immediately re-branded the property as a JW Marriott. The Company used proceeds from two credit facility draws of approximately \$88.9 million and \$15.0 million to fund this acquisition. Marriott contributed \$5.0 million related to the re-branding of this property, which the Company recorded, net of certain reimbursements to Marriott, as deferred incentive management fees. Deferred incentive management fees are amortized as a reduction to management fees on a straight-line basis over the term of the management agreement, which expires in 2026.

On July 13, 2006, the Company acquired the Marriott Crystal Gateway hotel in Arlington, Virginia, from EADS Associates Limited Partnership for approximately \$107.2 million. The purchase price consisted of the assumption of approximately \$53.3 million of mortgage debt, the issuance of approximately \$42.7 million worth of Class B limited partnership units, which equates to 3,814,842 units valued at \$11.20 per unit, approximately \$2.5 million in cash paid in lieu of units, the reimbursement of capital expenditures costs of approximately \$7.2 million, and other net closing costs and adjustments of approximately \$1.5 million. For accounting purposes, these Class B units were valued at approximately \$40.6 million or \$10.64 per unit, which represents the average market price of the Company's common stock from five business days before the definitive agreement was finalized on May 18, 2006 to five business days after such date. In addition, the Company assumed the existing management agreement which expires in 2017 with three ten-year renewal options. The management agreement provides for a base management fee of 3% of the hotel's gross revenues plus certain incentive management fees. Based on the Company's review of this management agreement, the Company concluded that the terms are more favorable to the manager than a typical current-market management agreement. As a result, the Company recorded an unfavorable contract liability of approximately \$15.8 million related to this management agreement, which is being amortized as a reduction to incentive management fees on a straight-line basis over the initial term of the management agreement.

On November 9, 2006, the Company acquired the Westin O'Hare hotel property in Rosemont, Illinois, from JER Partners for approximately \$125.0 million in cash. This hotel represents a replacement property in a reverse 1031 like-kind exchange. To fund this acquisition, the Company used cash available on its balance sheet and proceeds from a \$101.0 million mortgage loan executed on November 16, 2006.

On December 7, 2006, the Company acquired a seven-property hotel portfolio (MIP Portfolio) from a partnership of affiliates of Oak Hill Capital Partners, The Blackstone Group, and Interstate Hotels and Resorts for approximately \$267.2 million in cash. Of the seven acquired hotels, five were considered core hotels while two were considered non-core hotels classified as held for sale. To fund this acquisition, the Company used cash available on its balance sheet, proceeds from a \$25.0 million draw on a credit facility, and proceeds from a \$212.0 million mortgage loan executed on December 7, 2006.

On April 11, 2007, the Company acquired a 51-property hotel portfolio (CNL Portfolio) from CNL Hotels and Resorts, Inc. (CNL) for approximately \$2.4 billion plus closing costs of approximately \$96.0 million. The Company acquired 100% of 33 properties and 70%-89% of 18 properties through existing joint ventures. To fund this acquisition, the Company utilized several sources as follows: a) borrowings of approximately \$928.5 million of ten-year, fixed-rate debt at an average blended interest rate of 5.95%, approximately \$555.1 million of two-year, variable-rate debt with three one-year extension options at an interest rate of LIBOR plus 1.65%, and approximately \$325.0 million of one-year, variable-rate debt with two one-year extension options at an interest rate of LIBOR plus 1.5%, b) the sale of 8.0 million shares of Series C Cumulative Redeemable Preferred Stock for approximately \$200.0 million less a commitment fee of approximately \$6.3 million at a dividend rate of LIBOR plus 2.5%, c) assumed fixed-rate debt of approximately \$562.1 million (or approximately \$432.3 million net of debt attributable to joint venture partners), representing eleven fixed-rate loans with an average blended interest rate of 6.01% and expiration dates ranging from 2008 to 2025, and d) a \$50.0 million draw on a newly executed \$200.0 million credit

facility with an interest rate of LIBOR plus a range of 1.55% to 1.95% depending on the loan-to-value ratio, which matures April 9, 2010 with two one-year extension options, and requires interest-only payments through maturity. With respect to this acquisition, the Company assumed certain existing management agreements. Based on the Company's preliminary review of these management agreements, the Company believes that the terms of certain management agreements are more favorable to the manager than typical current-market management agreements. As a result, the Company recorded an unfavorable contract liability of approximately \$10.4 million related to these management agreements, which is being amortized as a reduction to incentive management fees on a straight-line basis over the initial terms of the related management agreements.

On April 11, 2007, the Company acquired the remaining 15% joint venture interest in the Hyatt Regency Dearborn in Detroit, Michigan, for approximately \$7.5 million, which represents approximately \$2.9 million in cash and assumed debt of approximately \$4.6 million. The Company acquired the other 85% interest pursuant to its acquisition of CNL Portfolio, which was consummated April 11, 2007, as discussed above.

On May 21, 2007, the Company acquired a Marriott Residence Inn and a Hampton Inn, both in Jacksonville, Florida, from MS Resort Holdings LLC for approximately \$35.8 million in cash. These hotel properties were previously owned by CNL and were acquired by the Company related to its acquisition of the CNL Portfolio on April 11, 2007. The Company used proceeds from its sale of seven hotels on May 18, 2007 and cash available on its balance sheet to fund this acquisition.

In connection with these acquisitions, the accompanying consolidated financial statements include the results of the acquired hotels

since the acquisition dates, all purchase prices were the result of arms-length negotiations, no value was assigned to goodwill or other intangible assets, and purchase price allocations related to certain acquisitions completed within the last year are preliminary subject to further internal review and third-party appraisals.

The following unaudited pro forma statements of operations for the six months ended June 30, 2007 and 2006 are based on the Company's historical consolidated financial statements adjusted to give effect to the completion of the aforementioned acquisitions and the related debt and equity offerings to fund these acquisitions as if such transactions occurred at the beginning of the periods presented (in thousands, except per share amounts):

17. Subsequent Events

On July 2, 2007, the Company sold its Hampton Inn in Horse Cave, Kentucky, for approximately \$3.5 million. As of June 30, 2007, the carrying value of this hotel was approximately \$2.9 million. Consequently, the Company expects to recognize a gain on this sale.

On July 18, 2007, the Company issued 8.0 million shares of 8.45% Series D cumulative preferred stock at \$25 per share for approximately \$200.0 million less underwriting discounts and commissions of approximately \$6.3 million. Series D preferred stock has no maturity date, and the Company is not required to redeem the shares at any time. Prior to July 18, 2012, Series D preferred stock is not redeemable, except in certain limited circumstances, as described in our charter. However, on and after July 18, 2012, Series D preferred stock will be redeemable at the Company's option for cash, in whole or from time to time in part, at a redemption price of \$25 per share plus accrued and unpaid dividends, if any, at the redemption date. Series D preferred stock dividends are payable quarterly, when and as declared, at the rate of 8.45% per annum of the \$25 liquidation preference (equivalent to an annual dividend rate of \$2.11 per share). The dividend rate increases to 9.45% per annum if these shares are no longer traded on a major stock exchange. In general, the holders of Series D preferred stock have no voting rights.

On July 18, 2007, with proceeds received from the issuance of Series D preferred stock discussed above, the Company redeemed its 8.0 million shares of Series C preferred stock for approximately \$200.0 million and received a refund of

related commitment fees of approximately \$4.3 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS:

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere herein. This report contains forward-looking statements within the meaning of the federal securities laws. Ashford Hospitality Trust, Inc. (the Company or we or our or us) cautions investors that any forward-looking statements presented herein, or which management may express orally or in writing from time to time, are based on management's beliefs and assumptions at that time. Throughout this report, words such as anticipate, believe, expect, intend, may, might, plan, estimate, project, should, will, result, and other similar expressions, which solely to historical matters, are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors beyond our control. Should one or more of these risks

or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution investors that while forward-looking statements reflect our good-faith beliefs at the time such statements are made, said statements are not guarantees of future performance and are affected by actual events that occur after such statements are made. We expressly disclaim any responsibility to update forward-looking statements, whether as a result of new information, future events, or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which were based on results and trends at the time those statements were made, to anticipate future results or trends.

Some risks and uncertainties that may cause our actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, those discussed in our Form 10-K as filed with the Securities and Exchange Commission on March 9, 2007. These risks and uncertainties continue to be relevant to our performance and financial condition. Moreover, we operate in a very competitive and rapidly changing environment where new risk factors emerge from time to time. It is not possible for management to predict all such risk factors, nor can management assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as indicators of actual results.

EXECUTIVE OVERVIEW:

We are a real estate investment trust (REIT) that commenced operations upon completion of our initial public offering (IPO) and related formation transactions on August 29, 2003. As of June 30, 2007, we owned 121 hotels, including 17 hotels through equity investments with joint ventures, and approximately \$72.9 million of mezzanine or first-mortgage loans receivable. Of these 121 hotels, five were contributed upon our formation, eight were acquired in 2003, 16 were acquired in 2004, 29 were acquired in 2005, ten were acquired in 2006, and 53 were acquired in 2007. As of June 30, 2007, 118 of the 121 owned hotels were classified in continuing operations while the remaining three were classified as discontinued operations.

For the three months ended June 30, 2007 and 2006, the 61 non-comparative hotel properties acquired since March 31, 2006 that are included in continuing operations contributed approximately \$235.2 million and \$22.3 million to our total revenue and operating income, respectively, for 2007, and approximately \$4.3 million and negative \$232,000 to our total revenue and operating income, respectively, for 2006.

For the six months ended June 30, 2007 and 2006, the 62 non-comparative hotel properties acquired since December 31, 2005 that are included in continuing operations contributed approximately \$284.7 million and \$26.4 million to our total revenue and operating income, respectively, for 2007, and approximately \$8.2 million and \$163,000 to our total revenue and operating income, respectively, for 2006.

Based on our primary business objectives and forecasted operating conditions, our key priorities or financial strategies include, among other things:

acquiring hotels with a favorable current yield with an opportunity for appreciation,

implementing selective capital improvements designed to increase profitability,

directing our hotel managers to minimize operating costs and increase revenues,

originating or acquiring mezzanine loans, and

other investments that our Board of Directors deems appropriate.

Throughout 2006 and the first half of 2007, strong economic growth in the United States economy combined with improved business demand generated strong RevPar growth throughout the lodging industry. For the remainder of 2007, forecasts for the lodging industry continue to be favorable.

RESULTS OF OPERATIONS:

Marriott International, Inc. (Marriott) manages 46 of the Company s properties. For these 46 Marriott-managed hotels, the fiscal year reflects twelve weeks of operations for the first three quarters of the year and sixteen weeks for the

fourth quarter of the year. Therefore, in any given quarterly period, period-over-period results will have different ending dates. For Marriott-managed hotels, the second quarters of 2007 and 2006 ended June 15th and June 16th, respectively.

RevPAR is a commonly used measure within the hotel industry to evaluate hotel operations. RevPAR is defined as the product of the average daily room rate (ADR) charged and the average daily occupancy achieved. RevPAR does not include revenues from food and beverage or parking, telephone, or other guest services generated by the property. Although RevPAR does not include these ancillary revenues, it is generally considered the leading indicator of core revenues for many hotels. We also use RevPAR to compare the results of our hotels between periods and to analyze results of our comparable hotels. RevPAR improvements attributable to increases in occupancy are generally accompanied by increases in most categories of variable operating costs. RevPAR improvements attributable to increases in ADR are generally accompanied by increases in limited categories of operating costs, such as management fees and franchise fees.

Comparison of the Three Months Ended June 30, 2007 and June 30, 2006

Revenue. Total revenue for the three months ended June 30, 2007 increased approximately \$235.5 million or 205.1% to approximately \$350.3 million from total revenue of approximately \$114.8 million for the three months ended June 30, 2006. The increase was primarily due to approximately \$231.0 million in incremental revenues attributable to the 61 hotel properties acquired since March 31, 2006 that are included in continuing operations and approximately \$5.6 million increase in revenues for comparable hotels, primarily due to increases in room revenues, offset by a decrease of approximately \$1.1 million in income earned on the Company's mezzanine loans receivable portfolio as a result of a decline in the average balance outstanding compared to the same period last year.

Room revenues at comparable hotels for the three months ended June 30, 2007 increased approximately \$4.8 million or 5.7% compared to the same quarter of 2006, primarily due to an increase in RevPar from \$95.02 to \$100.4, which consisted of a 6.2% increase in ADR and a 0.5% decrease in occupancy. Due to the continued recovery in the economy and consistent with industry trends, several hotels experienced significant increases in ADR and relatively flat occupancy. In addition to improved market conditions, certain hotels also benefited in 2007 from increasing or garnering more favorable group room-night contracts, eliminating less favorable contracts, and charging higher rates on transient business. Although occupancy increased at several hotels, renovations at certain hotels in 2007 reduced room availability, which offset these increases.

Food and beverage revenues at comparable hotels for the three months ended June 30, 2007 increased approximately \$1.2 million or 7.4% compared to the same quarter of 2006 primarily due to increased occupancy at certain hotels, increased prices overall, and increased banquets at certain hotels.

Other revenues for the three months ended June 30, 2007 compared to the same period of 2006 increased approximately \$11.7 million due to approximately \$12.3 million in incremental revenues attributable to the 61 hotel properties acquired since March 31, 2006 that are included in continuing operations offset by a slight decline of

approximately \$542,000 at comparable hotels primarily due to decreased space rentals at certain hotels. Interest income from notes receivable decreased to approximately \$2.9 million for the three months ended June 30, 2007 compared to approximately \$3.9 million for the same quarter of 2006 due to a decrease in the average mezzanine loans portfolio balance outstanding during the three months ended June 30, 2007 compared to the same period last year.

Asset management fees were approximately \$331,000 for the three months ended June 30, 2007 compared to approximately \$318,000 for the same quarter of 2006. Asset management fees relate to 27 hotel properties owned by affiliates for which the Company provided asset management and consulting services. The Company acquired 21 of these hotel properties from said affiliates on March 16, 2005, and the affiliates subsequently sold the remaining six hotel properties. However, the affiliates, pursuant to an agreement, continue to guarantee a minimum annual fee of approximately \$1.2 million through December 31, 2008.

Hotel Operating Expenses. Hotel operating expenses, which consists of room expense, food and beverage expense, other direct expenses, indirect expenses, and management fees, increased approximately \$151.0 million or 217.7% for the three months ended June 30, 2007 compared to the same quarter of 2006, primarily due to approximately \$148.0 million of expenses associated with the 61 hotel properties acquired since March 31, 2006 that are included in continuing operations. In addition, hotel operating expenses at comparable hotels experienced an increase of approximately \$2.9 million or 4.5% for the three months ended June 30, 2007 compared to the same quarter of 2006 primarily due to increases in rooms, food and beverage, and indirect expenses.

Table of Contents

Rooms expense at comparable hotels increased approximately \$898,000 or 5.0% for the three months ended June 30, 2007 compared to the same quarter of 2006 primarily due to increased occupancy at certain hotels, virtually flat costs at hotels experiencing comparable occupancy due to the fixed nature of maintaining staff, and increased prices overall. The increase in food and beverage expense at comparable hotels is consistent with the related increase in food and beverage revenues. Indirect expenses at comparable hotels increased approximately \$1.5 million or 4.9% for the three months ended June 30, 2007 compared to the same quarter of 2006. Indirect expenses primarily increased as a result of:

increased hotel-level general and administrative expenses due to increased salaries and staffing needs consistent with increased revenues, and

increased franchise fees due to increased room revenues at certain hotels in 2007.

Property Taxes, Insurance, and Other. Property taxes, insurance, and other increased approximately \$12.6 million or 210.0% for the three months ended June 30, 2007 compared to the same quarter of 2006 due to approximately \$12.6 million of expenses associated with the 61 hotel properties acquired since March 31, 2006 that are included in continuing operations. Aside from additional costs incurred at these acquired hotels, property taxes, insurance, and other expense was flat in the second quarter of 2007 compared to the second quarter of 2006.

Depreciation and Amortization. Depreciation and amortization increased approximately \$49.1 million or 440.1% for the three months ended June 30, 2007 compared to the same quarter of 2006 primarily due to approximately \$47.8 million of depreciation associated with the 61 hotel properties acquired since March 31, 2006 that are included in continuing operations. Aside from these additional hotels acquired, depreciation and amortization increased approximately \$1.3 million in the first quarter of 2007 compared to the first quarter of 2006 as a result of capital improvements made at several comparative hotels since March 31, 2006.

Corporate General and Administrative. Corporate general and administrative expense increased to approximately \$7.1 million for the three months ended June 30, 2007 compared to approximately \$5.3 million for the same period of 2006, which includes an increase in non-cash expenses associated with stock-based compensation from approximately \$1.8 million in 2006 compared to approximately \$1.9 million in 2007. The overall increase is primarily the result of increased headcount due to the acquisition of a 51-property hotel portfolio on April 11, 2007. As a percentage of total revenue, however, corporate general and administrative expense decreased to approximately 2.0% in 2007 from approximately 4.7% in 2006 due to corporate synergies inherent in overall growth.

Operating Income. Operating income was approximately \$44.0 million and \$23.0 million for the three months ended June 30, 2007 and 2006, respectively, which represents an increase of approximately \$21.0 million as a result of the aforementioned operating results.

Interest Income. Interest income increased approximately \$409,000 to approximately \$975,000 for the three months ended June 30, 2007 from approximately \$566,000 for the comparable 2006 quarter primarily due to interest earned on funds received from borrowings and equity offerings during the second quarter of 2007 in excess of interest earned on funds received from borrowings and equity offerings during the second quarter of 2006.

Interest Expense and Amortization of Loan Costs. Interest expense and amortization of loan costs increased approximately \$33.7 million to approximately \$45.5 million for the three months ended June 30, 2007 from approximately \$11.8 million for the same quarter of 2006. The increase in interest expense and amortization of loan costs is associated with the higher average debt balance over the course of the two comparative periods.

Write-off of Loan Costs and Exit Fees. On April 10, 2007, the Company repaid its \$45.0 million outstanding balance on its \$150.0 million credit facility, due August 16, 2008, and terminated the facility. In connection with this termination, the Company wrote-off unamortized loan costs of approximately \$1.2 million. On April 24 and 25, 2007, with proceeds received from its follow-on public offering completed April 24, 2007, the Company paid off its \$325.0 million variable-rate loan, due April 9, 2008, and paid down approximately \$180.1 million related to its \$555.1 million variable-rate loan, due May 9, 2009. In connection with these repayments, the Company wrote-off unamortized loan costs of approximately \$1.9 million and incurred prepayment penalties of approximately \$559,000. On May 18, 2007, in connection with the Company's sale of seven TownePlace Suites hotels, the Company paid down approximately \$32.0 million related to its mortgage loan due July 1, 2015. In connection with this pay-down, the

Company wrote-off unamortized loan costs of approximately \$205,000 and incurred prepayment penalties of approximately \$1.5 million. On May 30, 2006, the Company repaid its then outstanding \$11.1 million balance on its mortgage loan, due April 1, 2011, which resulted in the write-off of unamortized loan costs of approximately \$102,000.

Provision for Income Taxes. As a REIT, the Company generally will not be subject to federal corporate income tax on the portion of its net income that does not relate to taxable REIT subsidiaries. However, the Company leases all of its hotel properties, except one, to Ashford TRS, which is treated as a taxable REIT subsidiary for federal income tax purposes. For the three months ended June 30, 2007 and 2006, the provision for income taxes of approximately \$36,000 and \$103,000, respectively, relates to the net income associated with Ashford TRS. For the three months ended June 30, 2007 and 2006, an additional benefit from (provision for) income taxes of approximately (\$6.9 million) and \$18,000 is included in discontinued operations, respectively. For the three months ended June 30, 2007, the provision for income taxes included in discontinued operations primarily relates to gains on sales of properties.

Minority Interest In Consolidated Joint Ventures. Minority interest in consolidated joint ventures represents net income (loss) attributable to joint venture partners that own 11%-30% of 17 hotel properties acquired on April 11, 2007.

Minority Interest Related to Limited Partners. Minority interest related to limited partners represents an (increase) reduction to net income of approximately (\$451,000) and \$1.8 million for the three months ended June 30, 2007 and 2006, respectively. Upon formation of the Company on August 29, 2003, minority interest in the operating partnership was established to represent the limited

Table of Contents

partners proportionate share of equity in the operating partnership. Minority interest represents an allocation of net income (loss) available to common unit holders based on these common unit holders weighted-average limited partnership percentage ownership throughout the period plus dividends related to Class B unit holders.

Income (Loss) from Continuing Operations. Income (loss) from continuing operations was approximately (\$4.8 million) and \$9.7 million for the three months ended June 30, 2007 and 2006, respectively, which represents a decrease of approximately \$14.5 million as a result of the aforementioned operating results.

Income from Discontinued Operations, Net. During the three months ended June 30, 2007, the Company classified operations from 16 assets, including 14 hotel properties and two office buildings, as discontinued. During that time, 12 of these assets, including 11 hotel properties and one office building, were sold, which resulted in gains totaling approximately \$33.3 million. During the three months ended June 30, 2006, the Company classified operations from 14 assets, including 12 hotel properties and two office buildings, as discontinued.

Net Income. Net income was approximately \$21.1 million and \$11.0 million for the three months ended June 30, 2007 and 2006, respectively, which represents an increase of approximately \$10.1 million as a result of the aforementioned operating results and gains on sales of properties in 2007.

Preferred Dividends. During the three months ended June 30, 2007, the Company declared cash dividends of approximately \$1.2 million, or \$0.5344 per diluted share per quarter, for Series A preferred stockholders, approximately \$1.6 million, or \$0.21 per diluted share per quarter, for Series B preferred stockholders, and approximately \$3.5 million for Series C preferred stockholders. In addition, during the three months ended June 30, 2007, the Company recognized non-cash preferred dividends of approximately \$705,000 related to the amortization of the Series C preferred stock discount attributable to the increasing-rate preferred dividend clause effective 18 months after issuance. During the three months ended June 30, 2006, the Company declared cash dividends of approximately \$1.2 million, or \$0.5344 per diluted share, for Series A preferred stockholders, and approximately \$1.5 million, or \$0.20 per diluted share, for Series B preferred stockholders.

Net Income Available to Common Shareholders. Net income available to common shareholders was approximately \$14.1 million and \$8.3 million for the three months ended June 30, 2007 and 2006, respectively, which represents an increase of approximately \$5.7 million as a result of the aforementioned operating results, gains on sales of properties in 2007, and preferred dividends.

Comparison of the Six Months Ended June 30, 2007 and June 30, 2006

Revenue. Total revenue for the six months ended June 30, 2007 increased approximately \$287.8 million or 133.4% to approximately \$503.6 million from total revenue of approximately \$215.8 million for the six months ended June 30, 2006. The increase was primarily due to approximately \$276.5 million in incremental revenues attributable to the 62 hotel properties acquired since December 31, 2005 that are included in continuing operations and approximately \$12.9 million increase in revenues for comparable hotels, primarily due to increases in room revenues, offset by a decrease of approximately \$1.6 million in income earned on the Company's mezzanine loans receivable portfolio as a result of a decline in the average balance outstanding compared to the same period last year.

Room revenues at comparable hotels for the six months ended June 30, 2007 increased approximately \$10.1 million or 6.2% compared to the same period of 2006, primarily due to an increase in RevPar from \$90.98 to \$97.70, which consisted of a 7.5% increase in ADR and a 0.1% decrease in occupancy. Due to the continued recovery in the economy and consistent with industry trends, several hotels experienced significant increases in ADR and relatively flat occupancy. In addition to improved market conditions, certain hotels also benefited in 2007 from increasing or garnering more favorable group room-night contracts, eliminating less favorable contracts, and charging higher rates on transient business. Although occupancy increased at several hotels, renovations at certain hotels in 2007 reduced room availability, which offset these increases.

Food and beverage revenues at comparable hotels for the six months ended June 30, 2007 increased approximately \$3.7 million or 12.0% compared to the same period of 2006 primarily due to increased occupancy at certain hotels, increased prices overall, and increased banquets at certain hotels.

Other revenues for the six months ended June 30, 2007 compared to the same period of 2006 increased approximately \$13.3 million due to approximately \$14.1 million in incremental revenues attributable to the 62 hotel properties acquired since December 31, 2005 that are included in continuing operations offset by a decline of approximately

\$826,000 at comparable hotels primarily due to decreased space rentals at certain hotels.

Interest income from notes receivable decreased to approximately \$6.2 million for the six months ended June 30, 2007 compared to approximately \$7.9 million for the same period of 2006 due to a decrease in the average mezzanine loans portfolio balance outstanding during the six months ended June 30, 2007 compared to the same period last year.

Asset management fees were approximately \$663,000 for the six months ended June 30, 2007 compared to approximately \$636,000 for the same period of 2006. Asset management fees relate to 27 hotel properties owned by affiliates for which the Company provided asset management and consulting services. The Company acquired 21 of these hotel properties from said affiliates on March 16, 2005, and the affiliates subsequently sold the remaining six hotel properties. However, the affiliates, pursuant to an agreement, continue to guarantee a minimum annual fee of approximately \$1.2 million through December 31, 2008.

Hotel Operating Expenses. Hotel operating expenses, which consists of room expense, food and beverage expense, other direct expenses, indirect expenses, and management fees, increased approximately \$186.5 million or 140.4% for the six months ended June 30, 2007 compared to the same period of 2006, primarily due to approximately \$181.2 million of expenses associated with the 62

Table of Contents

hotel properties acquired since December 31, 2005 that are included in continuing operations. In addition, hotel operating expenses at comparable hotels experienced an increase of approximately \$5.3 million or 4.2% for the six months ended June 30, 2007 compared to the same period of 2006 primarily due to increases in rooms, food and beverage, and indirect expenses.

Rooms expense at comparable hotels increased approximately \$1.4 million or 4.1% for the six months ended June 30, 2007 compared to the same period of 2006 primarily due to increased occupancy at certain hotels, virtually flat costs at hotels experiencing comparable occupancy due to the fixed nature of maintaining staff, and increased prices overall. The increase in food and beverage expense at comparable hotels is consistent with the related increase in food and beverage revenues. Indirect expenses at comparable hotels increased approximately \$2.2 million or 3.8% for the six months ended June 30, 2007 compared to the same period of 2006. Indirect expenses primarily increased as a result of:

- increased hotel-level general and administrative expenses due to increased salaries and staffing needs consistent with increased revenues, and

- increased franchise fees due to increased room revenues at certain hotels in 2007.

Property Taxes, Insurance, and Other. Property taxes, insurance, and other increased approximately \$15.4 million or 137.8% for the six months ended June 30, 2007 compared to the same period of 2006 due to approximately \$15.1 million of expenses associated with the 62 hotel properties acquired since December 31, 2005 that are included in continuing operations. Aside from additional costs incurred at these acquired hotels, property taxes, insurance, and other expense increased approximately \$361,000 for the six months ended June 30, 2007 compared to the same period of 2006 primarily resulting from increased property insurance rates, particularly related to Florida hotels, and increased property value tax assessments at certain hotels.

Depreciation and Amortization. Depreciation and amortization increased approximately \$56.0 million or 264.6% for the six months ended June 30, 2007 compared to the same period of 2006 primarily due to approximately \$54.1 million of depreciation associated with the 62 hotel properties acquired since December 31, 2005 that are included in continuing operations. Aside from these additional hotels acquired, depreciation and amortization increased approximately \$1.9 million for the six months ended June 30, 2007 compared to the same period of 2006 as a result of capital improvements made at several comparative hotels since December 31, 2005.

Corporate General and Administrative. Corporate general and administrative expense increased to approximately \$11.7 million for the six months ended June 30, 2007 compared to approximately \$10.1 million for the same period of 2006, which includes an increase in non-cash expenses associated with stock-based compensation from approximately \$2.7 million in 2006 compared to approximately \$3.0 million in 2007. The increase is primarily the result of increased headcount due to the acquisition of a 51-property hotel portfolio on April 11, 2007. As a percentage of total revenue, however, corporate general and administrative expense decreased to approximately 2.3% in 2007 from approximately 4.7% in 2006 due to corporate synergies inherent in overall growth.

Operating Income. Operating income was approximately \$68.8 million and \$40.5 million for the six months ended June 30, 2007 and 2006, respectively, which represents an increase of approximately \$28.4 million as a result of the aforementioned operating results.

Interest Income. Interest income increased approximately \$413,000 to approximately \$1.5 million for the six months ended June 30, 2007 from approximately \$1.1 million for the comparable 2006 period primarily due to interest earned on funds received from borrowings and equity offerings during 2007 in excess of interest earned on funds received from borrowings and equity offerings during 2006.

Interest Expense and Amortization of Loan Costs. Interest expense and amortization of loan costs increased approximately \$38.5 million to approximately \$62.2 million for the six months ended June 30, 2007 from approximately \$23.7 million for the same period of 2006. The increase in interest expense and amortization of loan costs is associated with the higher average debt balance over the course of the two comparative periods.

Write-off of Loan Costs and Exit Fees. On February 6, 2007, in connection with the Company's sale of its Marriott located in Trumbull, Connecticut, the Company paid down approximately \$28.0 million of its mortgage loan, due December 11, 2009. In connection with this pay-down, the Company wrote-off unamortized loan costs of

approximately \$212,000. On March 8, 2007, the Company terminated its \$100.0 million credit facility, due December 23, 2008. In connection with this termination, the Company wrote-off unamortized loan costs of approximately \$490,000. On April 10, 2007, the Company repaid its \$45.0 million outstanding balance on its \$150.0 million credit facility, due August 16, 2008, and terminated the facility. In connection with this termination, the Company wrote-off unamortized loan costs of approximately \$1.2 million. On April 24 and 25, 2007, with proceeds received from its follow-on public offering completed April 24, 2007, the Company paid off its \$325.0 million variable-rate loan, due April 9, 2008, and paid down approximately \$180.1 million related to its \$555.1 million variable-rate loan, due May 9, 2009. In connection with these repayments, the Company wrote-off unamortized loan costs of approximately \$1.9 million and incurred prepayment penalties of approximately \$559,000. On May 18, 2007, in connection with the Company's sale of seven TownePlace Suites hotels, the Company paid down approximately \$32.0 million related to its mortgage loan due July 1, 2015. In connection with this pay-down, the Company wrote-off unamortized loan costs of approximately \$205,000 and incurred prepayment penalties of approximately \$1.5 million. On March 24, 2006, in connection with the sale of eight hotel properties, the buyer assumed approximately \$93.7 million of mortgage debt, due July 1, 2015. Related to this assumption, the Company wrote-off unamortized loan costs of approximately \$687,000. On May 30, 2006, the Company repaid its then outstanding \$11.1 million balance on its mortgage note payable, due April 1, 2011, which resulted in the write-off of unamortized loan costs of approximately \$102,000.

Benefit from (Provision for) Income Taxes. As a REIT, the Company generally will not be subject to federal corporate income tax on the portion of its net income that does not relate to taxable REIT subsidiaries. However, the Company leases all of its hotel properties, except one, to Ashford TRS, which is treated as a taxable REIT subsidiary for federal income tax purposes. For the six months ended June 30, 2007 and 2006, the benefit from (provision for) income taxes of approximately \$1.2 million and (\$228,000), respectively,

Table of Contents

relates to the net (loss) income associated with Ashford TRS. For the six months ended June 30, 2007 and 2006, an additional provision for income taxes of approximately \$7.6 million and \$10,000 is included in discontinued operations, respectively. For the six months ended June 30, 2007, the provision for income taxes included in discontinued operations primarily relates to gains on sales of properties.

Minority Interest In Consolidated Joint Ventures. Minority interest in consolidated joint ventures represents net income (loss) attributable to joint venture partners that own 11%-30% of 17 hotel properties acquired on April 11, 2007.

Minority Interest Related to Limited Partners. Minority interest related to limited partners represents a reduction to net income of approximately \$800,000 and \$2.8 million for the six months ended June 30, 2007 and 2006, respectively. Upon formation of the Company on August 29, 2003, minority interest in the operating partnership was established to represent the limited partners' proportionate share of equity in the operating partnership. Minority interest represents an allocation of net income (loss) available to common unit holders based on these common unit holders' weighted-average limited partnership percentage ownership throughout the period plus dividends related to Class B unit holders.

Income from Continuing Operations. Income from continuing operations was approximately \$3.1 million and \$14.0 million for the six months ended June 30, 2007 and 2006, respectively, which represents a decrease of approximately \$11.0 million as a result of the aforementioned operating results.

Income from Discontinued Operations, Net. During the six months ended June 30, 2007, the Company classified operations from 18 assets, including 16 hotel properties and two office buildings, as discontinued. During this time, 14 of these assets, including 13 hotel properties and one office building, were sold, which resulted in gains totaling approximately \$34.7 million. During the six months ended June 30, 2006, the Company classified operations from 24 assets, including 22 hotel properties and two office buildings, as discontinued. During that time, ten of these hotel properties were sold.

Net Income. Net income was approximately \$32.6 million and \$18.5 million for the six months ended June 30, 2007 and 2006, respectively, which represents an increase of approximately \$14.1 million as a result of the aforementioned operating results and gains on sales of properties in 2007.

Preferred Dividends. During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$2.5 million, or \$0.5344 per diluted share per quarter, for Series A preferred stockholders, approximately \$3.1 million, or \$0.21 per diluted share per quarter, for Series B preferred stockholders, and approximately \$3.5 million for Series C preferred stockholders. In addition, during the six months ended June 30, 2007, the Company recognized non-cash preferred dividends of approximately \$705,000 related to the amortization of the Series C preferred stock discount attributable to the increasing-rate preferred dividend clause effective 18 months after issuance. During the six months ended June 30, 2006, the Company declared cash dividends of approximately \$2.5 million, or \$0.5344 per diluted share, for Series A preferred stockholders, and approximately \$3.0 million, or \$0.20 per diluted share, for Series B preferred stockholders.

Net Income Available to Common Shareholders. Net income available to common shareholders was approximately \$22.7 million and \$13.0 million for the six months ended June 30, 2007 and 2006, respectively, which represents an increase of approximately \$9.7 million as a result of the aforementioned operating results, and gains on sales of properties in 2007, and preferred dividends.

Funds From Operations

Funds From Operations (FFO), as defined by the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT) in April 2002, represents net income (loss) computed in accordance with generally accepted accounting principles (GAAP), excluding gains or losses from sales of properties and extraordinary items as defined by GAAP, plus depreciation and amortization of real estate assets, and net of adjustments for the portion of these items related to unconsolidated entities and joint ventures. NAREIT developed FFO as a relative measure of performance of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined by GAAP.

We compute FFO in accordance with our interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other REITs that either do not define the term in accordance with the current NAREIT

definition or interpret the NAREIT definition differently than us. FFO does not represent cash generated from operating activities as determined by GAAP and should not be considered as an alternative to a) GAAP net income (loss) as an indication of our financial performance or b) GAAP cash flows from operating activities as a measure of our liquidity, nor is it indicative of funds available to satisfy our cash needs, including our ability to make cash distributions. However, to facilitate a clear understanding of our historical operating results, we believe that FFO should be considered along with our net income (loss) and cash flows reported in the consolidated financial statements.

Table of Contents

The following table reconciles net income available to common shareholders to FFO available to common shareholders for the three and six months ended June 30, 2007 and 2006 (in thousands):

	Three Months Ended June 30, 2007	Three Months Ended June 30, 2006	Six Months Ended June 30, 2007	Six Months Ended June 30, 2006
Net income available to common shareholders	\$ 14,051	\$ 8,304	\$ 22,749	\$ 13,047
Plus real estate depreciation and amortization	60,127	12,187	77,243	22,913
Remove gains on sales of properties, net of related income taxes	(26,450)		(27,839)	
Remove minority interest relating to limited partners	1,979	2,091	3,806	3,675
FFO available to common shareholders	\$ 49,707	\$ 22,582	\$ 75,959	\$ 39,635

For the three months ended June 30, 2007, FFO has not been adjusted to add back dividends on redeemable preferred stock of approximately \$1.6 million and write-off of loan costs and exit fees of approximately \$5.3 million. For the three months ended June 30, 2006, FFO has not been adjusted to add back dividends on redeemable preferred stock of approximately \$1.5 million, the write-off of loan costs and exit fees of approximately \$102,000, and the loss from reclassifying certain hotels operations from discontinued to continuing of approximately \$863,000.

For the six months ended June 30, 2007, FFO has not been adjusted to add back dividends on redeemable preferred stock of approximately \$3.1 million and the write-off of loan costs and exit fees of approximately \$6.0 million. For the six months ended June 30, 2006, FFO has not been adjusted to add back dividends on redeemable preferred stock of approximately \$3.0 million, the write-off of loan costs and exit fees of approximately \$788,000, and the loss from reclassifying certain hotels operations from discontinued to continuing of approximately \$863,000.

LIQUIDITY AND CAPITAL RESOURCES:

Our principal source of funds to meet our cash requirements, including distributions to stockholders, is our share of the operating partnership's cash flow. The operating partnership's principal sources of cash flows include: (i) cash flow from hotel operations, (ii) interest income from and repayments of our notes receivable portfolio, and (iii) proceeds from sales of hotel properties and other assets.

Cash flows from hotel operations are subject to all operating risks common to the hotel industry, including:

Competition for guests from other hotels;

Adverse effects of general and local economic conditions;

Dependence on demand from business and leisure travelers, which may fluctuate and be seasonal;

Increases in energy costs, airline fares, and other expenses related to travel, which may deter traveling;

Increases in operating costs related to inflation and other factors, including wages, benefits, insurance, and energy;

Overbuilding in the hotel industry, especially in particular markets; and

Actual or threatened acts of terrorism and actions taken against terrorists, which create public concern over travel safety.

During the six months ended June 30, 2007, we completed the following significant transactions, which affected our cash flow and liquidity:

Business Combinations:

On April 11, 2007, the Company acquired a 51-property hotel portfolio (CNL Portfolio) from CNL Hotels and Resorts, Inc. (CNL) for approximately \$2.4 billion plus closing costs of approximately \$96.0 million. The Company acquired 100% of 33 properties and 70%-89% of 18 properties through existing joint ventures. To fund this acquisition, the Company utilized several sources as follows: a) borrowings of approximately \$928.5 million of ten-year, fixed-rate debt at an average blended interest rate of 5.95%, approximately \$555.1 million of two-year, variable-rate debt with three one-year extension options at an interest rate of LIBOR plus 1.65%, and approximately \$325.0 million of one-year, variable-rate debt with two one-year extension options at an interest rate of LIBOR plus 1.5%, b) the sale of 8.0 million shares of Series C Cumulative Redeemable Preferred Stock for approximately \$200.0 million less a commitment fee of approximately \$6.3 million at a dividend rate of LIBOR plus 2.5%, c) assumed fixed-rate debt of approximately \$562.1 million (or approximately \$432.3 million net of debt attributable to joint venture partners), representing eleven fixed-rate loans with an average blended interest rate of 6.01% and expiration dates ranging from 2008 to 2025, and d) a \$50.0 million draw on a newly executed \$200.0 million credit facility with an interest rate of LIBOR plus a range of 1.55% to 1.95% depending on the loan-to-value ratio, which matures April 9, 2010 with two one-year extension options, and requires interest-only payments through maturity. On April 11, 2007, the Company acquired the remaining 15% joint venture interest in the Hyatt Regency Dearborn in Detroit, Michigan, for approximately \$7.5 million, which represents approximately \$2.9 million in cash and assumed debt of approximately \$4.6 million. The Company acquired the other 85% interest pursuant to its acquisition of CNL Portfolio, which was consummated April 11, 2007, as discussed above.

Table of Contents

On May 21, 2007, the Company acquired a Marriott Residence Inn and a Hampton Inn, both in Jacksonville, Florida, from MS Resort Holdings LLC for approximately \$35.8 million in cash. The Company used proceeds from its sale of seven hotels on May 18, 2007 and cash available on hand to fund this acquisition.

Capital Stock:

On April 11, 2007, the Company issued 8.0 million shares of Series C cumulative redeemable preferred stock at \$25 per share for approximately \$200.0 million less a commitment fee of approximately \$6.3 million. Dividends are payable quarterly, when and as declared, at a rate of three-month LIBOR plus 2.5% through the first 18 months and three-month LIBOR plus a range of 4.25% to 8.0% depending on the net debt to total assets ratio thereafter.

On April 24, 2007, in a follow-on public offering, the Company issued 48,875,000 shares of its common stock at \$11.75 per share, which generated gross proceeds of approximately \$574.3 million. However, the aggregate proceeds to the Company, net of underwriters' discount and offering costs, was approximately \$548.2 million. The 48,875,000 shares issued include 6,375,000 shares sold pursuant to an over-allotment option granted to the underwriters. These net proceeds along with cash on hand were used to pay-down the \$45.0 million outstanding balance on its \$47.5 million credit facility, due October 10, 2008, payoff the \$325.0 million variable-rate loan, due April 9, 2008, and pay-down its \$555.1 million variable-rate loan, due May 9, 2009, by approximately \$180.1 million. These three debt payments were made on April 25, 2007, April 24, 2007, and April 25, 2007, respectively.

During the six months ended June 30, 2007, the Company acquired 57,426 shares of treasury stock for approximately \$700,000 in connection with the Company's Stock Plan, which allows employees to tender vested shares of restricted common stock to the Company at current market prices to cover individual federal income taxes withheld on such shares as such shares vest. During the six months ended June 30, 2007, the Company reissued 36,841 treasury shares as common stock granted to its executives, certain employees, and directors under its Stock Plan.

Discontinued Operations:

On February 6, 2007, the Company sold its Marriott located in Trumbull, Connecticut, for approximately \$28.3 million. As the Company acquired this property on December 7, 2006, no gain or loss was recognized on the sale.

On February 8, 2007, the Company sold its Fairfield Inn in Princeton, Indiana, for approximately \$3.2 million. In connection with this sale, the Company recognized a gain of approximately \$1.4 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On April 24, 2007, the Company sold its Radisson Hotel in Indianapolis, Indiana, for approximately \$5.4 million. In connection with this sale, the Company recognized a gain of approximately \$2.7 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On April 26, 2007, the Company sold its Fairfield Inn in Evansville, Indiana, for approximately \$5.5 million. In connection with this sale, the Company recognized a gain of approximately \$531,000, of which related income tax gains were deferred through a 1031 like-kind exchange.

On April 27, 2007, the Company sold its Embassy Suites in Phoenix, Arizona, for approximately \$25.0 million. In connection with this sale, the Company recognized a gain of approximately \$8.5 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On May 2, 2007, the Company sold its Radisson Hotel in Covington, Kentucky, and an office building for approximately \$22.4 million. In connection with this sale, the Company recognized a gain of approximately \$3.4 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

On May 18, 2007, the Company sold its portfolio of seven TownePlace Suites hotels for approximately \$57.5 million. In connection with this sale, the Company recognized a gain of approximately \$18.2 million, of which related income tax gains were deferred through a 1031 like-kind exchange.

Notes Receivable:

On February 6, 2007, the Company received approximately \$8.1 million related to all principal and interest due under its \$8.0 million note receivable, due February 2007.

On May 8, 2007, the Company received approximately \$8.6 million related to all principal and interest due under its \$8.5 million note receivable, due June 2007.

On June 11, 2007, the Company received approximately \$8.1 million related to all principal and interest due under its \$8.0 million note receivable, due May 2010.

On June 18, 2007, the Company received approximately \$5.7 million related to all principal and interest due under its \$5.6 million note receivable, due July 2008.

Table of Contents*Indebtedness:*

On January 30, 2007, the Company completed a \$20.0 million draw on its \$150.0 million credit facility, due August 16, 2008.

On February 6, 2007, in connection with the Company's sale of its Marriott located in Trumbull, Connecticut, for approximately \$28.3 million, the Company paid down its \$212.0 million mortgage note payable, due December 11, 2009, by approximately \$28.0 million. Consequently, the \$212.0 million mortgage loan secured by seven hotels outstanding at December 31, 2006 became the \$184.0 million mortgage loan secured by six hotels outstanding at June 30, 2007.

On March 8, 2007, the Company terminated its \$100.0 million credit facility, due December 23, 2008. This credit facility never had an outstanding balance.

On April 9, 2007, the Company drew \$45.0 million on its \$47.5 million credit facility, due October 10, 2008.

On April 10, 2007, the Company repaid its \$45.0 million outstanding balance on its \$150.0 million credit facility, due August 16, 2008, and terminated the facility.

On April 11, 2007, in connection with its acquisition of a 51-property hotel portfolio from CNL Hotels and Resorts, Inc. for approximately \$2.4 billion plus closing costs of approximately \$96.0 million, the Company executed a \$928.5 million, ten-year, fixed-rate loan at an average blended interest rate of 5.95%, a \$555.1 million, two-year, variable-rate loan with three one-year extension options at an interest rate of LIBOR plus 1.65%, and a \$325.0 million, one-year, variable-rate loan with two one-year extension options at an interest rate of LIBOR plus 1.5%, and assumed fixed-rate debt of approximately \$562.1 million (or approximately \$432.3 million net of debt attributable to joint venture partners), representing eleven fixed-rate loans with an average blended interest rate of 6.01% and expiration dates ranging from 2008 to 2025. In addition, the Company executed a \$200.0 million credit facility with an interest rate of LIBOR plus a range of 1.55% to 1.95% depending on the loan-to-value ratio, which matures April 9, 2010 with two one-year extension options, requires interest-only payments through maturity, and requires quarterly commitment fees ranging from 0.125% to 0.20% of the average undrawn balance during the quarter. To fund this acquisition, the Company drew approximately \$50.0 million on this credit facility.

On April 11, 2007, in connection with its acquisition of the remaining 15% joint venture interest in the Hyatt Regency Dearborn in Detroit, Michigan, for approximately \$7.5 million, the Company assumed debt attributable to the joint venture partner of approximately \$4.6 million. The Company acquired the other 85% interest pursuant to its acquisition of the 51-property hotel portfolio on April 11, 2007, as discussed above.

On April 16, 2007, the Company drew \$25.0 million on its \$200.0 million credit facility, due April 9, 2010.

On April 24 and 25, 2007, with proceeds received from its follow-on public offering completed April 24, 2007, the Company paid down the \$45.0 million outstanding balance on its \$47.5 million credit facility, due October 10, 2008, paid off the \$325.0 million variable-rate loan, due April 9, 2008, and paid down its \$555.1 million variable-rate loan, due May 9, 2009, by approximately \$180.1 million. These three debt payments were made on April 25, 2007, April 24, 2007, and April 25, 2007, respectively.

On May 3, 2007, the Company repaid \$25.0 million on its \$200.0 million credit facility, due April 9, 2010.

On May 18, 2007, in connection with the Company's sale of its portfolio of seven TownePlace Suites hotels for approximately \$57.5 million, the Company paid down approximately \$32.0 million related to its mortgage loan due July 1, 2015. Consequently, the \$487.1 million mortgage loan secured by 32 hotels outstanding at December 31, 2006 became the \$455.1 million mortgage loan secured by 25 hotels outstanding at June 30, 2007.

On May 22, 2007, the Company modified its \$200.0 million credit facility, due April 9, 2010, to increase its capacity to \$300.0 million.

Dividends:

During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$45.3 million, or \$0.21 per diluted share per quarter, related to both common stockholders and common unit holders, of which approximately \$41.2 million and \$4.1 million related to each, respectively. During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$1.5 million, or \$0.19 per diluted share per quarter, related to Class B unit holders.

During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$2.5 million, or \$0.5344 per diluted share per quarter, related to Series A preferred stockholders.

During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$3.1 million, or \$0.21 per diluted share per quarter, related to Series B preferred stockholders.

During the six months ended June 30, 2007, the Company declared cash dividends of approximately \$3.5 million, based on LIBOR plus 2.5% for the period outstanding, related to Series C preferred stockholders.

Net Cash Flow Provided By Operating Activities. For the six months ended June 30, 2007, net cash flow provided by operating activities of approximately \$46.4 million decreased approximately \$15.8 million from net cash flow provided by operating activities of approximately \$62.2 million for the same period of 2006. The decrease in net cash flow provided by operating activities was

Table of Contents

primarily attributable to an increase in restricted cash in 2007 compared to a decrease in restricted cash in 2006 as well as the timing of operational payments. These changes offset improved operating income (or net income excluding depreciation, amortization, and gains on sales) in 2007, which resulted from improved operations at the 56 comparable hotels included in continuing operations as well as the 62 hotels acquired since December 31, 2005 included in continuing operations.

Net Cash Flow Used In Investing Activities. For the six months ended June 30, 2007, net cash flow used in investing activities was approximately \$1.9 billion, which consisted of approximately \$2.0 billion related to acquisitions of hotel properties and approximately \$44.9 million of improvements to various hotel properties. These cash outlays were partially offset by approximately \$143.9 million related to sales of 13 hotel properties and one office building and approximately \$30.0 million related to payments on notes receivable. For the six months ended June 30, 2006, net cash flow used in investing activities was approximately \$130.7 million, which consisted of approximately \$125.0 million related to acquisitions of hotel properties, \$26.3 million related to acquisitions or originations of notes receivable, and \$19.0 million of improvements to various hotel properties. These cash outlays were somewhat offset by net proceeds of approximately \$17.4 million related to sales of ten hotel properties and \$22.2 million related to payments on notes receivable.

Net Cash Flow Provided By Financing Activities. For the six months ended June 30, 2007, net cash flow provided by financing activities was approximately \$2.0 billion, which represents approximately \$1.9 billion in borrowings of debt, \$193.3 million of net proceeds related to the issuance of Series C preferred stock, and \$548.2 million of net proceeds received from the Company's follow-on public offering on April 24, 2007. These cash inflows were partially offset by approximately \$637.6 million of payments on indebtedness and capital leases, \$41.0 million of dividends paid, \$14.4 million of payments of loan costs, and \$700,000 of payments to acquire treasury shares. For the six months ended June 30, 2006, net cash flow provided by financing activities was approximately \$85.1 million, which represents \$128.9 million in draws on the Company's credit facilities and approximately \$128.1 million of net proceeds received from the Company's follow-on public offering on January 25, 2006, partially offset by approximately \$30.0 million of dividends paid, \$141.5 million of payments on indebtedness and capital leases, \$296,000 of payments of loan costs, and \$54,000 of costs associated with issuing common shares in exchange for units of limited partnership interest.

In general, we focus exclusively on investing in the hospitality industry across all segments, including direct hotel investments, first mortgages, mezzanine loans, and eventually sale-leaseback transactions. We intend to acquire and, in the appropriate market conditions, develop additional hotels and provide structured financings to owners of lodging properties. We may incur indebtedness to fund any such acquisitions, developments, or financings. We may also incur indebtedness to meet distribution requirements imposed on REITs under the Internal Revenue Code to the extent that working capital and cash flow from our investments are insufficient to fund required distributions.

However, no assurances can be given that we will obtain additional financings or, if we do, what the amount and terms will be. Our failure to obtain future financing under favorable terms could adversely impact our ability to execute our business strategy. In addition, we may selectively pursue mortgage financing on individual properties and our mortgage investments.

We will acquire or develop additional hotels and invest in structured financings only as suitable opportunities arise, and we will not undertake such investments unless adequate sources of financing are available. Funds for future hotel-related investments are expected to be derived, in whole or in part, from future borrowings under a credit facility or other loan or from proceeds from additional issuances of common stock, preferred stock, or other securities. However, other than acquisitions mentioned herein, we have no formal commitment or understanding to invest in additional assets, and there can be no assurance that we will successfully make additional investments.

Our existing hotels are located in developed areas that contain competing hotel properties. The future occupancy, ADR, and RevPAR of any individual hotel could be materially and adversely affected by an increase in the number or quality of the competitive hotel properties in its market area. Competition could also affect the quality and quantity of future investment opportunities.

SUBSEQUENT EVENTS:

On July 2, 2007, the Company sold its Hampton Inn in Horse Cave, Kentucky, for approximately \$3.5 million. As of June 30, 2007, the carrying value of this hotel was approximately \$2.9 million. Consequently, the Company expects to recognize a gain on this sale.

On July 18, 2007, the Company issued 8.0 million shares of 8.45% Series D cumulative preferred stock at \$25 per share for approximately \$200.0 million less underwriting discounts and commissions of approximately \$6.3 million. Series D preferred stock has no maturity date, and the Company is not required to redeem the shares at any time. Prior to July 18, 2012, Series D preferred stock is not redeemable, except in certain limited circumstances, as described in our charter. However, on and after July 18, 2012, Series D preferred stock will be redeemable at the Company's option for cash, in whole or from time to time in part, at a redemption price of \$25 per share plus accrued and unpaid dividends, if any, at the redemption date. Series D preferred stock dividends are payable quarterly, when and as declared, at the rate of 8.45% per annum of the \$25 liquidation preference (equivalent to an annual dividend rate of \$2.11 per share). The dividend rate increases to 9.45% per annum if these shares are no longer traded on a major stock exchange. In general, the holders of Series D preferred stock have no voting rights.

On July 18, 2007, with proceeds received from the issuance of Series D preferred stock discussed above, the Company redeemed its 8.0 million shares of Series C preferred stock for approximately \$200.0 million and received a refund of related commitment fees of approximately \$4.3 million.

INFLATION:

We rely entirely on the performance of our properties and the ability of the properties' managers to increase revenues to keep pace with inflation. Hotel operators can generally increase room rates rather quickly, but competitive pressures may limit their ability to

Table of Contents

outpace inflation. Our general and administrative costs, such as real estate and personal property taxes, property and casualty insurance, and utilities, are subject to inflation as well.

SEASONALITY:

Our properties' operations historically have been seasonal as certain properties maintain higher occupancy rates during summer months. This seasonality pattern causes fluctuations in our quarterly lease revenue under our percentage leases. We anticipate that our cash flow from the operations of the properties will be sufficient to enable us to make quarterly distributions to maintain our REIT status. To the extent that cash flow from operations is insufficient during any quarter due to temporary or seasonal fluctuations in lease revenue, we expect to utilize other cash on hand or borrowings to fund required distributions. However, we cannot make any assurances that we will make distributions in the future.

CRITICAL ACCOUNTING POLICIES:

Critical accounting policies, which we believe are the most significant to fully understand and evaluate our reported financial results, are described below:

Use of Estimates The preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Management Agreements In connection with the Company's acquisitions of Marriott Crystal Gateway hotel in Arlington, Virginia, on July 13, 2006 and the 51-hotel CNL portfolio on April 11, 2007, the Company assumed certain existing management agreements. Based on the Company's review of these management agreements, the Company concluded that the terms of certain management agreements are more favorable to the respective managers than typical current market management agreements. As a result, the Company recorded unfavorable contract liabilities related to these management agreements as of the respective acquisition dates based on the present value of expected cash outflows over the initial terms of the related agreements, which are amortized as reductions to incentive management fees on a straight-line basis over the initial terms of the related agreements.

Investment in Hotel Properties Hotel properties are generally stated at cost. However, the initial properties contributed upon the Company's formation are stated at the predecessor's historical cost, net of any impairment charges, plus a minority interest partial step-up related to the acquisition of minority interest from third parties associated with four of the initial properties. In addition, included in the 51-hotel CNL portfolio acquired on April 11, 2007, are 17 hotel properties owned by joint ventures, of which the Company acquired between 70%-89% ownership interest. For these hotel properties, the carrying basis attributable to the joint venture partners' minority ownership is recorded at the predecessor's historical cost, net of any impairment charges, while the carrying basis attributable to the Company's majority ownership is recorded based on the allocated purchase price of the Company's ownership interest in the joint ventures. All improvements and additions which extend the useful life of hotel properties are capitalized.

Impairment of Investment in Hotel Properties Hotel properties are reviewed for impairment whenever events or changes in circumstances indicate that the carrying values of such hotel properties may not be recoverable. The Company tests for impairment in several situations, including when current or projected cash flows are less than historical cash flows, when it becomes more likely than not that a hotel property will be sold before the end of its previously estimated useful life, and when events or changes in circumstances indicate that a hotel property's net book value may not be recoverable. In evaluating the impairment of hotel properties, the Company makes many assumptions and estimates, including projected cash flows, holding period, expected useful life, future capital expenditures, and fair values, which considers capitalization rates, discount rates, and comparable selling prices. If an asset was deemed to be impaired, the Company would record an impairment charge for the amount that the property's net book value exceeds its fair value. To date, no such impairment charges have been recognized.

Depreciation and Amortization Expense Depreciation expense is based on the estimated useful life of the Company's assets, while amortization expense for leasehold improvements is based on the shorter of the lease term or the estimated useful life of the related assets. Presently, hotel properties are depreciated using the straight-line method over lives which range from 15 to 39 years for buildings and improvements and 3 to 5 years for furniture, fixtures, and

equipment. While the Company believes its estimates are reasonable, a change in estimated lives could affect depreciation expense and net income (loss) as well as the gain or loss on the potential sale of any of the Company's hotels.

Assets Held For Sale and Discontinued Operations The Company records assets as held for sale when management has committed to a plan to sell the assets, actively seeks a buyer for the assets, and the consummation of the sale is considered probable and is expected within one year. The related operations of assets held for sale are reported as discontinued if a) such operations and cash flows can be clearly distinguished, both operationally and financially, from the ongoing operations of the Company, b) such operations and cash flows will be eliminated from ongoing operations once the disposal occurs, and c) the Company will not have any significant continuing involvement subsequent to the disposal.

Notes Receivable The Company provides mezzanine and first-mortgage financing in the form of loans receivable, which are recorded at cost, adjusted for net origination fees and costs. Premiums, discounts, and net origination fees are amortized or accreted as an adjustment to interest income using the effective interest method. Loans receivable are reviewed for potential impairment at each balance sheet date. A loan receivable is considered impaired when it becomes probable, based on current information, that the Company will be unable to collect all amounts due according to the loan's contractual terms. The amount of impairment, if any, is measured by comparing the recorded amount of the loan to the present value of the expected cash flows or the fair value of the collateral. If a loan was deemed to be impaired, the Company would record a reserve for loan losses through a charge to income for

Table of Contents

any shortfall. To date, no such impairment charges have been recognized.

In accordance with Financial Accounting Standards Board Interpretation No. 46, Consolidation of Variable Interest Entities, as revised (FIN No. 46), variable interest entities, as defined, are required to be consolidated by their primary beneficiaries if the variable interest entities do not effectively disperse risks among parties involved. The Company's mezzanine and first-mortgage loans receivable are each secured by various hotel properties or partnership interests in hotel properties and are subordinate to primary loans related to the secured hotels. All such loans receivable are considered to be variable interests in the entities that own the related hotels, which are variable interest entities. However, the Company is not considered to be the primary beneficiary of these hotel properties as a result of holding these loans. Therefore, the Company does not consolidate such hotels for which it has provided financing. Interests in entities acquired or created in the future will be evaluated based on FIN No. 46 criteria, and such entities will be consolidated, if required. In evaluating FIN No. 46 criteria, the Company's analysis involves considerable management judgment and assumptions.

Recent Accounting Pronouncements In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (FIN No. 48), effective January 1, 2007. FIN No. 48 prescribes a recognition threshold and measurement attribute for the recognition and measurement of a tax position taken in a tax return. FIN No. 48 requires that a determination be made as to whether it is more likely than not that a tax position taken, based on its technical merits, will be sustained upon examination, including resolution of any appeals and litigation processes. If the more-likely-than-not threshold is met, the tax position must be measured to determine the amount of benefit, if any, to recognize in the financial statements. FIN No. 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, Accounting for Income Taxes, but does not apply to tax positions related to FASB Statement No. 5, Accounting for Contingencies. The Company or its subsidiaries file income tax returns in the U.S. federal jurisdiction and various states. Tax years 2003 through 2006 and 2002 through 2006 remain subject to potential examination by certain federal and state taxing authorities, respectively. No income tax examinations are currently in process. As the Company determined no material unrecognized tax benefits or liabilities exist, the adoption of FIN No. 48, effective January 1, 2007, did not impact the Company's financial condition or results of operations. The Company classifies interest and penalties related to underpayment of income taxes as income tax expense.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary market risk exposure consists of changes in interest rates on borrowings under our debt instruments that bear interest at variable rates that fluctuate with market interest rates. The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates.

As of June 30, 2007, our \$2.9 billion debt portfolio consisted of approximately \$2.3 billion, or 78.2%, of fixed-rate debt, with interest rates ranging from 5.42% to 12.85%, and approximately \$609.0 million, or 21.8%, of variable-rate debt. For the six months ended June 30, 2007, the impact to our results of operations of a one-point change in interest rate on the outstanding balance of variable-rate debt as of June 30, 2007 would be approximately \$3.0 million.

Periodically, we purchase derivatives to increase stability related to interest expense and to manage our exposure to interest rate movements or other identified risks. To accomplish this objective, we primarily use interest rate swaps and caps as part of our cash flow hedging strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. Interest rate caps provide us with interest rate protection above the cap's strike rate and result in us receiving interest payments when interest rates exceed the cap strike. As of June 30, 2007, derivatives with a fair value of approximately \$413,000 were included in other assets. Derivatives owned as of June 30, 2007 are described below:

On October 28, 2005, we purchased a 7.0% LIBOR interest rate cap with a \$45.0 million notional amount, which matures October 15, 2007, to limit our exposure to rising interest rates on \$45.0 million of our variable-rate debt. We designated the \$45.0 million cap as a cash flow hedge of our exposure to changes in interest rates on a corresponding amount of variable-rate debt. On February 9, 2006, we paid down the related hedged \$45.0 million mortgage loan, due October 10, 2007, to \$100 and discontinued hedge accounting related to this derivative.

On December 6, 2006, we purchased a 6.25% LIBOR interest rate cap with a \$212.0 million notional amount, which matures December 11, 2009, to limit our exposure to rising interest rates on \$212.0 million of our variable-rate debt. We designated the \$212.0 million cap as a cash flow hedge of our exposure to changes in interest rates on a corresponding amount of variable-rate debt. On February 6, 2007, we paid down the related hedged \$212.0 million mortgage loan, due December 11, 2009, by approximately \$28.0 million and discontinued hedge accounting related to \$28.0 million of this derivative.

On December 6, 2006, we purchased a 6.25% LIBOR interest rate cap with a \$35.0 million notional amount, which matures December 11, 2009, to limit our exposure to rising interest rates on future variable-rate debt that we intend to draw over the next two years as capital expenditures are incurred. As this cap did not meet applicable hedge accounting criteria, it is not designated as a cash flow hedge.

On April 11, 2007, we purchased four 6.0% LIBOR interest rate caps with a total notional amount of approximately \$555.1 million, which mature May 9, 2009, to limit our exposure to rising interest rates on \$555.1 million of our variable-rate debt. On April 25, 2007, we paid down the related hedged \$555.1 million mortgage loan, due May 9, 2009, by approximately \$180.1 million and terminated a corresponding amount of these caps. As the remaining \$375.0 million of these derivatives did not meet applicable hedge accounting criteria, such derivatives are not designated as cash flow hedges.

As of June 30, 2007, our \$72.9 million notes receivable portfolio consisted of approximately \$57.9 million of outstanding variable-rate

Table of Contents

notes and approximately \$15.0 million of outstanding fixed-rate notes. For the six months ended June 30, 2007, the impact to our results of operations of a one-point change in interest rate on the outstanding balance of variable-rate notes receivable as of June 30, 2007 would be approximately \$289,000.

The above amounts were determined based on the impact of hypothetical interest rates on our borrowing and lending portfolios, and assume no changes in our capital structure. As the information presented above includes only those exposures that exist as of June 30, 2007, it does not consider exposures or positions which could arise after that date. Hence, the information presented herein has limited predictive value. As a result, the ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the period, the hedging strategies at the time, and the related interest rates.

ITEM 4: CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report have been designed and are functioning effectively to provide reasonable assurance that the information required to be disclosed by us in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. We believe that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Management is required to apply judgment in evaluating the cost-benefit relationship of possible controls and procedures.

There have been no changes in our internal controls over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Table of Contents**PART II: OTHER INFORMATION****ITEM 1: LEGAL PROCEEDINGS**

We are currently subject to litigation arising in the normal course of our business. In the opinion of management, none of these lawsuits or claims against us, either individually or in the aggregate, is likely to have a material adverse effect on our business, results of operations, or financial condition. In addition, we currently have adequate insurance in place to cover any such significant litigation.

ITEM 1A: RISK FACTORS

No changes.

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS*Recent Sales of Unregistered Securities*

On April 11, 2007, the Company issued 8,000,000 shares of Series C Preferred Stock to Wachovia LLC for \$200,000,000, less a commitment fee of approximately \$6.3 million, a portion of which may be refunded to the Company upon redemption. In addition, the Series C Preferred Stock is not convertible or exchangeable into any other securities of the Company. The issuance of the Series C Preferred Stock was effected in reliance upon an exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended.

All of the issued and outstanding shares of Series C Preferred Stock were redeemed on July 18, 2007 for an aggregate redemption price of \$200.0 million. In connection with this redemption, the Company received a refund of approximately \$4.3 million of the commitment fee paid in connection with the issuance of the Series C preferred stock.

ITEM 3: DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4: SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

At the Company's 2007 Annual Stockholders Meeting on May 15, 2007 (Annual Meeting), the total number of shares of the Company's voting capital stock entitled to vote on the record date of March 19, 2007 was 80,384,706 shares (comprised of 72,936,841 common shares and 7,447,865 Series B-1 Preferred Shares), and a total of 75,861,826 shares (or 94.37%) of the Company's voting capital stock were present at the Annual Meeting in person or by proxy. At the Annual Meeting, the Company's stockholders elected the seven nominees listed below as Directors of the Company until its 2008 Annual Stockholders Meeting. With respect to this election, the following table sets forth, for each of the directors elected, the number of votes cast for and the number of votes withheld:

Nominee	Votes For	Votes Withheld
Archie Bennett, Jr.	74,099,833	1,761,993
Monty Bennett	74,290,381	1,571,445
Marty Edelman	70,655,920	5,205,906
W.D. Minami	74,831,813	1,030,013
W. Michael Murphy	74,831,337	1,030,489
Philip S. Payne	74,750,610	1,111,216
Charles P. Toppino	64,457,782	11,404,044

Second, at the Annual Meeting, the Company's stockholders ratified the selection of Ernst & Young LLP as our independent auditor for the ensuing year. In connection with this election, there were 75,799,458 votes cast for ratification, 29,030 votes against, and 33,338 shares abstained from voting.
