PROXY STATEMENT
INFORMATION CONCERNING SOLICITATION AND VOTING**

The Board of Directors (the Board) of Introgen Therapeutics, Inc. is soliciting proxies for our 2008 Annual Meeting of Stockholders (the Annual Meeting). This proxy statement (the Proxy Statement) contains important information for you to consider when deciding how to vote on the matters brought before the Annual Meeting. Please read it carefully. All references in this Proxy Statement to we, us, our, Introgen or the Company shall mean Introgen Therapeutics, Inc.

A proxy card (the Proxy Card), the Notice of Annual Meeting of Stockholders (the Notice) and a copy of the 2007 Annual Report to Stockholders (the Annual Report) are enclosed. Our Annual Report can also be accessed free of charge electronically on our website at www.introgen.com or by writing to us at Introgen Therapeutics, Inc., 301 Congress Avenue, Suite 1850, Austin, Texas 78701, Attention: Investor Relations.

This Proxy Statement and the enclosed Notice, Annual Report and Proxy Card are being distributed on or about May 12, 2008.

Q: Why am I receiving these materials?

A: The accompanying proxy is solicited on behalf of our Board. We are providing these proxy materials to you in connection with our Annual Meeting, to be held on Thursday, June 12, 2008 at 9:00 a.m., local time, at The Briar Club, 2603 Timmons Lane, Houston, Texas 77027. As a Company stockholder you are invited to attend the Annual Meeting and are entitled to vote and requested to vote on the proposals described in this Proxy Statement.

Q: What is included in these materials?

A: These materials include:

our Proxy Statement for our annual meeting;

a Proxy Card for the annual meeting; and

our 2007 Annual Report to Stockholders.

Q: What information is contained in these materials?

A: The information included in this Proxy Statement relates to the proposals to be voted on at the annual meeting, the voting process, the compensation of directors and our most highly paid officers and certain other required information.

Q: What is the record date for the Annual Meeting and how many shares of Introgen s common stock were outstanding on the record date?

A: Our Board has set April 15, 2008 as the record date for the Annual Meeting. On April 15, 2008, approximately 44,013,449 shares of our common stock were outstanding.

Table of Contents

Q: Who is entitled to vote and how many votes do I have?

A: All stockholders who owned shares of our common stock on April 15, 2008 are entitled to vote at the Annual Meeting. Every stockholder is entitled to one (1) vote for each share of common stock held.

Q: What is the difference between holding shares as a stockholder of record and as a beneficial owner?

A: Most of our stockholders hold their shares through a stockholder, bank or other nominee rather than directly in their own name. As summarized below, there are some differences between shares held of record and those owned beneficially.

Stockholder of Record

If your shares are registered directly in your name with our transfer agent, Computershare Trust Company, N.A., you are considered, with respect to those shares, the stockholder of record, and these proxy materials are being sent to you directly by Introgen. As the stockholder of record, you have the right to grant your voting proxy directly to Introgen or to vote in person at the annual meeting. Introgen has enclosed a proxy card for you to use. You may also vote on the Internet or by telephone, as described below under the heading How can I vote my shares without attending the annual meeting?

Beneficial Owner

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your broker or nominee who is considered, with respect to those shares, the stockholder of record. As the beneficial owner, you have the right to direct your broker on how to vote and are also invited to attend the annual meeting. However, since you are not the stockholder of record, you may not vote these shares in person at the annual meeting. Your broker or nominee should have enclosed a voting instruction card for you to use in directing your broker or nominee as to how to vote your shares. You may also vote by Internet or by telephone, as described below under How can I vote my shares without attending the annual meeting?

Q: How can I vote my shares in person at the annual meeting?

A: Shares held directly in your name as the stockholder of record may be voted in person at the annual meeting. If you choose to vote your shares in person at the annual meeting, please bring your admission ticket and proof of identification. Even if you plan to attend the annual meeting, Introgen recommends that you vote your shares in advance as described below so that your vote will be counted if you later decide not to attend the annual meeting.

Shares held in street name may be voted in person by you only if you obtain a signed proxy from the record holder giving you the right to vote the shares.

Q: How can I vote my shares without attending the annual meeting?

A: Whether you hold your shares directly as the stockholder of record or beneficially in street name, you may direct your vote without attending the annual meeting, by proxy. You can vote by proxy over the Internet, by telephone or by mail. To vote your proxy by mail, mark your vote on the enclosed Proxy

Table of Contents

Card, then follow the directions on the Proxy Card. To vote your proxy using the Internet, see the instructions on the Proxy Card and have the Proxy Card available when you access the Internet website. The Introgen voting page will prompt you to enter your control number, then follow the instructions to record your vote. To vote your proxy using the telephone, see the instructions on the Proxy Card and have the Proxy Card available during the call. If you send in your card but do not mark any selections, your shares will be voted as recommended by our Board. Whether you plan to attend the Annual Meeting or not, we encourage you to vote by proxy as soon as possible

Q: Can I change my vote?

A: You may change your voting instructions at any time prior to the vote at the annual meeting. You may enter a new vote by using the Internet, the telephone or by mailing a new proxy card or new voting instruction card bearing a later date (which will automatically revoke your earlier voting instructions) or, if you are a stockholder of record, by attending the annual meeting and voting in person. Your attendance at the annual meeting in person will not cause your previously granted proxy to be revoked unless you specifically so request.

Q: If my shares are held by my broker in street name will my broker vote my shares for me?

A: Your broker will only vote your shares if you follow the instructions provided to you by your broker or if the proposal is a matter on which your broker has discretion to vote, such as the election of directors and the ratification of the appointment of the independent registered public accounting firm.

Q: What constitutes a quorum for the Annual Meeting?

A: At least a majority of the shares of our common stock outstanding as of the record date must be present at the Annual Meeting in person or by proxy in order to hold the Annual Meeting and conduct business. This is called a quorum. Your shares are counted as present at the Annual Meeting if you are either (i) present and vote in person at the Annual Meeting or (ii) have properly submitted a proxy via mail, Internet or telephone. Abstentions, broker non-votes and votes withheld from director nominees are considered as shares present at the Annual Meeting for the purposes of determining a quorum. A broker non-vote occurs when a broker or other nominee who holds shares for the owner of the shares does not vote on a particular proposal because the nominee does not have discretionary voting authority for that proposal and has not received voting instructions from the owner of the shares.

Q: What is the voting requirement to approve each of the proposals?

A: For Proposal I, the election of directors, the three (3) individuals receiving the highest number of FOR votes will be elected. To pass, Proposal II, the ratification of the appointment of the independent registered public accounting firm, requires the affirmative FOR vote of at least a majority of the shares of our common stock present or represented by proxy at the Annual Meeting and entitled to vote.

Q: How are votes counted?

A: For Proposal I, you may vote FOR all of the nominees or you may elect to have your vote WITHHELD with respect to one or more of the nominees. Votes that are withheld will be excluded entirely and will have no effect in the election of directors. Similarly, if you hold your shares in a brokerage account in your broker's name (this is called street name) and you do not vote or instruct the broker how to

Table of Contents

vote the shares, or your broker does not have discretionary authority to vote in the election of directors, your shares will have no effect in the election of directors.

For Proposal II you may vote FOR, AGAINST or ABSTAIN. If you abstain from voting on Proposal II, it has the same effect as a vote against the proposal. If you hold your shares in a street name and you do not vote or instruct the broker how to vote the shares, or your broker does not have discretionary authority to vote, your shares will not be counted in the tally of the number of shares cast on Proposal II and therefore may have the effect of reducing the number of shares needed to approve the proposal.

Finally, if you just sign and return your proxy card with no further instructions, your shares will be counted as a vote FOR each director nominee and FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008.

Q: Who pays for the solicitation of proxies?

A: We pay the costs of soliciting proxies from stockholders. We may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding the voting materials to the beneficial owners. Directors, officers and regular employees may solicit proxies on our behalf personally, by telephone or by facsimile, without additional compensation.

Q: How does the Board recommend voting on the proposals?

A: Our Board recommends that you vote your shares FOR each of the nominees to the Board and FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the current fiscal year ending December 31, 2008.

Q: Where can I find voting results of the Annual Meeting?

A: We will announce preliminary voting results at the Annual Meeting and file the final results in our Quarterly Report on Form 10-Q for the second quarter of fiscal year 2008.

Q: When are the stockholder proposals for the 2009 Annual Meeting of Stockholders due?

A: We anticipate holding our 2009 Annual Meeting of Stockholders on or about June 10, 2009. Stockholder proposals for our 2009 Annual Meeting of Stockholders, whether intended for inclusion in the Proxy Statement for such meeting or for presentation directly at such meeting, must be received at our principal executive offices by the close of business on January 12, 2009. In addition, notice of any stockholder proposals must be given in accordance with our Bylaws and all other applicable requirements including the rules and regulations of the United States Securities and Exchange Commission (the Commission). If a stockholder fails to give notice of a stockholder proposal by January 12, 2009 and as required by our Bylaws or other applicable requirements, then the proposal will not be included in the Proxy Statement for the 2009 Annual Meeting of Stockholders and the stockholder will not be permitted to present the proposal to the stockholders for a vote at the 2009 Annual Meeting of Stockholders.

Q: What is householding and how does it affect me?

A: We have adopted a procedure approved by the Securities and Exchange Commission called householding. Under this procedure, stockholders of record who have the same address and last name will receive only one copy of the proxy, unless one or more of these stockholders notifies us that they wish to

Table of Contents

continue receiving individual copies. This procedure will reduce our printing costs and postage fees. If you are eligible for householding, but you and other stockholders of record with whom you share an address currently receive multiple copies of the proxy materials, or if you hold stock in more than one account, and in either case you wish to receive only a single copy of such document for your household, please contact our transfer agent, Computershare Trust Company, N.A. (in writing: P.O. Box 43078, Providence, Rhode Island 02940-3078; or by telephone: 1-781-575-2879). If you participate in householding and wish to receive a separate copy of the proxy materials, or if you do not wish to participate in householding and prefer to receive separate copies of such documents in the future, please contact Computershare Trust Company as indicated above. Beneficial owners can request information about householding from their banks, brokers or other holders of record.

Q: Where are Introgen's principal executive offices?

A: Our principal executive offices are located at 301 Congress Avenue, Suite 1850, Austin, Texas 78701. Our telephone number is (512) 708-9310.

Mr. Pearson is not included in any of the foregoing tables since he became a director in April 2008 and was therefore not a director at any time during the fiscal year ended December 31, 2007.

Although we have not adopted formal guidelines for granting our directors equity in connection with their service to the Company, we generally grant directors a certain number of options for serving on our Board and for each committee on which they serve. In addition, we have from time to time made grants of restricted stock to our directors for increased time commitments as a member of the Board for matters such as additional compliance requirements for financing, regulatory and other corporate matters during the year. We do not provide our directors with cash compensation, except to compensate them for their income tax obligations on grants of restricted stock which cannot be readily sold.

Statement on Corporate Governance

We have had formal corporate governance standards in place since our inception in 1993. We have reviewed internally and with the Board the provisions of the Sarbanes-Oxley Act of 2002 (Sarbanes-Oxley Act), the rules of the Commission and the Nasdaq Global Market s corporate governance listing standards regarding corporate governance policies and processes, and we believe that we are in compliance with the rules and listing standards. You can access our committee charters for our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee free of charge on our website at www.introgen.com in the Corporate Governance section under the Investor Relations heading, or by writing to us at Introgen Therapeutics, Inc., 301 Congress Avenue, Suite 1850, Austin, Texas 78701, Attention: Investor Relations. We encourage, but do not require, our Board members to attend the annual meeting of stockholders. Last year, three of our six directors attended the annual meeting of stockholders. We have adopted the following standards for director independence in compliance with the Nasdaq Global Market corporate governance listing standards:

No director qualifies as independent if such person has a relationship, which, in the opinion of the Board, would interfere with exercise of independent judgment in carrying out the responsibilities of a director;

A director who is an officer or employee of us or our subsidiaries, or one whose immediate family member is an executive officer of us or our subsidiaries is not independent until three years after the end of such employment relationship;

Table of Contents

A director who accepts, or whose immediate family member accepts, more than \$100,000 in compensation from us or any of our subsidiaries during any period of twelve consecutive months within the three years preceding the determination of independence, other than certain permitted payments such as compensation for Board or Board committee service, payments arising solely from investments in our securities, compensation paid to a family member who is a non-executive employee of us or a subsidiary of ours, or benefits under a tax-qualified retirement plan, is not independent until three years after he or she ceases to accept more than \$100,000 during any period of twelve consecutive months within the three years preceding the determination of independence;

A director who is, or who has a family member who is, a partner in, or a controlling stockholder or an executive officer of, any organization in which we made, or from which we received, payments for property or services that exceed 5% of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is more, is not independent until three years after falling below such threshold;

A director who is employed, or one whose immediate family member is employed, as an executive officer of another company where any of our or any of our subsidiaries' present executives serve on that company's compensation committee is not independent until three years after the end of such service or employment relationship; and

A director who is, or who has a family member who is, a current partner of our independent registered public accounting firm, Ernst & Young LLP, or was a partner or employee of Ernst & Young LLP who worked on our audit is not independent until three years after the end of such affiliation or employment relationship.

The Board has determined that William H. Cunningham, Ph.D., Charles E. Long, S. Malcolm Gillis, Ph.D. and Peter Barton Hutt meet the aforementioned independence standards. David G. Nance does not meet the aforementioned independence standards because he is our current President and Chief Executive Officer and is an employee of Introgen. John N. Kapoor, Ph.D. does not meet the aforementioned independence standards because of his relationship with EJ Financial Enterprises, Inc., which is detailed below in Transactions with Related Persons. Mr. Hutt is a partner in the law firm Covington and Burling LLP, which has done a small amount of legal work for the Company. Because we have not made payments that exceed 5% of the law firm's consolidated gross revenues for that year, or \$200,000, whichever is more, for at least the last three years, the Board determined that Mr. Hutt met the aforementioned independence standards. Mr. Pearson does not meet the aforementioned independence standards because of his consulting agreement with us, which is detailed below in Transactions with Related Persons.

The Nominating and Corporate Governance Committee will consider nominees recommended by stockholders provided that the recommendations are made in accordance with the procedures described in Article II, Section 2.5 of our Bylaws and in this Proxy Statement under Information Concerning Solicitation and Voting. This section discusses the Company's underlying policies, objectives and decisions as they relate to executive compensation and provides further clarification to the tables that follow.

Objectives of Our Executive Compensation Program

The compensation committee of our Board (the Compensation Committee) administers our executive compensation program. The Compensation Committee is composed entirely of independent directors, as the term independent is defined under the applicable Nasdaq Marketplace Rules.

The general philosophy of our executive compensation program is to align executive compensation with the Company's business objectives and the long-term interests of our stockholders. To that end, the Compensation Committee believes that executive compensation packages provided by the Company to its executives, including the named executive officers, should include both cash and stock-based compensation that rewards performance as measured against progress toward accomplishing the Company's objectives. In addition, the Company strives to provide compensation that is competitive with other biopharmaceutical and biotechnology companies and that will allow us to attract, motivate and retain qualified executives with superior talent and abilities.

Our executive compensation is designed to fairly and competitively compensate executives for their time, efforts and expertise, and to reward advancement toward achievement of the Company's corporate objectives. In 2007, Introgen's corporate objectives included, but were not limited to: (i) the achievement of regulatory advances; (ii) furtherance of the Company's clinical trial activities; (iii) maintaining and advancing intellectual property protection of our products; (iv) advancing the Company's research and development programs; and (v) obtaining additional financing as needed. This focus allows us to reward our executives for their roles in creating value for our stockholders.

The Role of the Compensation Committee

The Compensation Committee has the primary authority to determine the Company's compensation philosophy and to establish compensation for the Company's executive officers. The Compensation Committee oversees the Company's compensation and benefit plans and policies; administers the Company's stock option plans; reviews the compensation components provided to Introgen's officers, employees and consultants; grants options to purchase common stock and restricted stock to Introgen's officers, employees and consultants; and reviews and makes recommendations to the Board regarding all forms of compensation to be provided to the members of the Board.

The Compensation Committee has full authority over all compensation matters relating to executive officers. The Compensation Committee generally sets the initial compensation upon employment of each executive. The Compensation Committee annually reviews and in some cases adjusts compensation for executives. The Compensation Committee has the sole authority to set compensation of the Chief Executive Officer.

Elements of Executive Compensation

Although the Compensation Committee has not adopted formal guidelines for allocating total compensation between equity compensation and cash compensation, it strives to maintain a strong link between executive incentives and the creation of stockholder value, and to preserve cash to further the Company's research, development and commercialization objectives. Therefore, the Company emphasizes incentive compensation in the form of stock options and/or restricted stock, rather than base salary.

Executive compensation consists of the following elements:

Base Salary. Base salaries for our executives are generally established based on the scope of their responsibilities, taking into account the executive's education, experience, workload, past performance, geographical location and competitive market compensation paid by other companies for similar positions.

Cash Bonuses. We have not frequently awarded cash bonuses, as we believe that we have typically established base salaries at levels sufficient to satisfy the cash portion of executives' compensation, and have relied heavily upon awards of equity. However, when our independent compensation consultant pointed out that the cash portion of compensation of our Chief Executive Officer for 2007 was significantly below the recommended level, we awarded a cash bonus to the Chief Executive Officer of \$100,000 in 2007. This bonus was discretionary and was not based on any predetermined formula. We may award cash bonuses more frequently in the future.

Equity Awards. We use long-term incentives in the form of stock options and/or restricted stock. Options and restricted stock are generally granted through our 2000 Stock Option Plan, which authorizes us to grant options to purchase shares of common stock to our employees, directors and consultants. Executive officers generally receive stock option grants at the commencement of employment and periodically receive additional stock option grants, typically on an annual basis. In certain cases, compensation has been provided using grants of restricted stock. We believe that stock options, which have a ten year term and typically have a four year vesting schedule, are instrumental in aligning the long-term interests of the Company's employees and executive officers with those of the stockholders because such individuals realize gains if the stock price increases. Stock options also help to balance the overall executive compensation program, with base salary providing short-term compensation and stock options rewarding executives for long-term increases in stockholder value.

Other Compensation. Consistent with our compensation philosophy, we intend to continue to maintain our current benefits for our executive officers, including paying premiums for term life insurance on behalf of each executive officer in addition to providing a health insurance plan and a tax qualified 401(k) plan, both of which are available to all employees. The Company does not match employee contributions to the 401(k) plan.

In 2007, each named executive officer was awarded stock options in the amounts indicated in the section entitled Grants of Plan-Based Awards. Stock options are granted with an exercise price equal to the fair market value of our common stock on the day of grant and typically vest ratably over a four-year period. Options generally expire ten years after the grant date. Only the Compensation Committee has the authority to grant options or other equity based compensation to executive officers. Options are generally granted to executive officers only at meetings of the Compensation Committee. Compensation Committee meetings are scheduled in advance at the beginning of each year, although meeting dates are sometimes rearranged to

Table of Contents

accommodate members' schedules. Option grants are effective on the date of grant. We do not backdate options, nor do we coordinate grants so that they are made before an announcement of favorable information, or after an announcement of unfavorable information.

Tax Considerations

Section 162(m) of the Internal Revenue Code (the "Code") generally provides that a publicly held company may not deduct compensation paid to certain of its top executive officers to the extent such compensation exceeds \$1 million per officer in a calendar year. Compensation that is performance based compensation within the meaning of the Code does not count toward the \$1 million limit. To date, none of our executive officers was paid compensation that exceeded the \$1 million limit under Section 162(m) of the Code, and none of our executives' compensation was intentionally structured to comply with Section 162(m). We may in the future structure executive compensation to comply with Section 162(m) when levels of compensation are such that deductibility will be limited by Section 162(m) and such deductibility becomes more important to the Company.

Compensation of Executives Other than the Chief Executive Officer

For executives other than the Chief Executive Officer, the process begins with a review by the Chief Executive Officer utilizing the factors set forth below. The Chief Executive Officer reviews industry compensation surveys, including the BioWorld Executive Compensation Report. The Chief Executive Officer draws upon his personal knowledge of industry compensation derived from his years of experience in the biotechnology industry, as well as discussions with other Company officers and other persons knowledgeable of the industry, and in some cases information provided by executive recruiting firms. In the course of assessing each executive's compensation, the Chief Executive Officer generally reviews:

each executive's historical pay levels;

expected future contributions;

competitive compensation data, including industry compensation surveys and information gained from other industry sources such as other company executives and executive recruiters;

individual performance;

each executive's existing long-term incentives; and

retention considerations.

The Chief Executive Officer typically makes recommendations to the Compensation Committee as to both base salary and equity grants. The Compensation Committee considers the recommendations and information provided by the Chief Executive Officer and makes the final compensation decisions. There are typically no set formulae identified in advance of compensation review.

Restricted Stock Award to Chief Financial Officer

During 2007 an option to purchase 57,600 shares of our common stock, which was held by our Chief Financial Officer, James W. Albrecht, Jr., for ten years, expired by its terms. The Chief Financial Officer could not reasonably exercise the option due to imposition of a Company wide "blackout" of securities trades by Company employees. The Committee believed it appropriate to compensate the Chief Financial Officer

Table of Contents

for the value of this expired option; therefore it granted him restricted stock with a value equal in amount to the difference between the market value of the company's stock on the expiration date of the option, and the exercise price of the option.

Compensation of Chief Executive Officer

The Compensation Committee evaluates the Chief Executive Officer's performance in light of the Company's objectives, competitive compensation paid to chief executive officers of comparable companies, and the other factors described above, and sets his compensation, including grants of stock options or other equity-based compensation, based on this evaluation. In 2007, as in prior years, the Compensation Committee retained an independent compensation consultant, Longnecker & Associates, to advise the Compensation Committee with respect to compensation of the Chief Executive Officer. The consultant was directed to work independently of management. The consultant provides no services to the Company other than providing advice regarding compensation of directors and executive officers. The consultant was requested to identify a peer group of companies in the United States, and to compare the Chief Executive Officer's compensation with that of chief executive officers of companies in the peer group to help ensure that the compensation awarded by the Company to the Chief Executive Officer is competitive with that of other similar companies. This peer group identified by the independent consultant consists of the following 17 biopharmaceutical companies in a range of sizes, stages of development and geographic locations:

The consultant also utilized published survey data to determine a market-competitive range of compensation for chief executive officers of similar biopharmaceutical companies. The published surveys utilized by the independent consultant were:

The independent consultant utilized seventy-five percent peer company data and twenty-five percent published survey data to create the market median and seventy-fifth percentile of total compensation. The consultant was advised that due to the Company's desire to use cash for research, development and commercialization purposes, the Committee prefers to limit cash as a compensation vehicle. The consultant recommended, and the Compensation Committee approved, that the Chief Executive Officer be compensated at approximately the seventy-fifth percentile of total compensation. The reasons for the recommendation to use the seventy-fifth percentile as a benchmark, and the Committee's approval thereof, were: (i) performance of the Company as compared to peers; (ii) the Chief Executive Officer's compensation currently and in the past has been skewed towards equity and therefore more risky, as compared to the market; and (iii) the Chief Executive Officer has historically been under compensated as compared to the market midpoint.

The independent consultant noted that the market midpoint of total cash compensation for the peer group was \$684,316, and the seventy-fifth percentile of the peer group total cash compensation was \$762,078; thus the Chief Executive's total cash compensation of \$594,944 was only 87% of the midpoint and 78% of the seventy-fifth percentile of the peer group. The consultant noted that the seventy-fifth percentile of the equity portion of peer group compensation was \$967,876.

To achieve the recommended target of having the Chief Executive Officer's total compensation (cash plus long term equity) be at approximately the seventy-fifth percentile of the peer group's total compensation, the consultant recommended that the Chief Executive Officer's base salary remain unchanged from its 2006 level of \$594,944, that he receive an annual incentive bonus of approximately twenty percent of base salary, and that he be awarded a stock option grant with a Black-Scholes value of one million dollars (\$1,000,000). The Compensation Committee believes that the independent consultant identified an appropriate peer group, and agrees with the independent consultant's peer group analysis and recommendations. Therefore, the Compensation Committee adopted the consultant's recommendations, maintaining the Chief Executive Officer's existing base salary of \$594,944 while awarding the Chief Executive Officer a cash bonus of \$100,000 and a stock option award with a Black-Scholes value of \$1 million, using the consultant's computation. This resulted in the Chief Executive Officer receiving total cash compensation of \$694,944, or 91% of the seventy-fifth percentile of the peer group; and long term equity compensation of \$1 million (as calculated by the consultant), or 103% of the seventy-fifth percentile of the peer group, and aggregate cash and equity compensation of \$1,694,944, or 98% of the seventy-fifth percentile of the peer group.

It should be noted that at the time the Compensation Committee acted on the Chief Executive Officer's compensation, October 1, 2007, it used the Black-Scholes option valuation as computed by the compensation consultant of approximately \$1 million as described above. This resulted in award of an option to purchase 324,675 shares. The consultant's computation was done using the Company's stock price and history as of the end of 2006; because the consultant desired for the grant to be comparable to equity awards of the peer group companies, and 2006 year end data was the most current information available for the peer group. The actual Black-Scholes value of the Chief Executive Officer's option grant on the effective date of the grant, October 1, 2007, was \$812,217. The reduced Black-Scholes value of the award from \$1,000,000 to

Table of Contents

\$812,217 is attributable to a decline in value of the Company's stock between the 2006 year end and the effective date of the grant.

The stock options awarded to the Chief Executive Officer have an exercise price equal to the market price of our common stock on the date of grant, were immediately vested, and have a ten year life. In the event of termination of his employment, the Chief Executive Officer will have three months to exercise the options. The options were immediately vested because they were intended as part of the Chief Executive Officer's compensation for 2007 only; and because, having been a founder of the Company and having been its chief executive officer for almost fifteen years, the Compensation Committee believes that he has demonstrated his commitment to the Company. On the other hand, having a period of only three months to exercise the options after termination of employment, he will not be able to benefit from future appreciation in the value of the Company through these options should his employment be terminated.

The Compensation Committee believes that each of our named executive officers are compensated appropriately considering their performance and the performance of the Company, and consistently with the Company's compensation philosophy so as to motivate and retain talented individuals while aligning their interests with those of stockholders.

The Compensation Committee has not adopted any formal guidelines for allocating total compensation between equity compensation and cash compensation and it does not utilize any particular indices or formulae to arrive at each executive's recommended pay level. The Compensation Committee seeks to align executive compensation with the Company's business objectives and the long-term interests of our stockholders, while staying in the market range of our peer group.

- (1) Share-based compensation is determined pursuant to SFAS No. 123R assuming none of the option awards will be forfeited. It is computed based upon the portion of the stock or option award vesting during 2007. Some of the awards vesting in 2007 were originally granted in prior years. Some of the awards granted in 2007 have portions that will vest in 2008 and later years. The

compensation expense related to the portion of awards that will vest in 2008 and later years and that will be recorded in our financial statements in those future years is not included in the amounts above. See further discussion of our accounting policy regarding share-based compensation expense in Note 2,

Basis of Presentation and Significant Accounting Policies-Share-Based Compensation, to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2007, filed with the Commission on March 17, 2008.

- (2) Includes \$110 for each of the Named Executive Officers for the full dollar value of premiums paid by the Company for term life insurance on behalf of each of the Named Executive Officers for 2007.
- (3) This amount represents the value of 32,661 shares of common stock granted to our Chief Financial Officer, James W. Albrecht in order to compensate

him for the expiration, without exercise, of an option to purchase shares of our common stock under our 1995 Stock Option Plan. During 2007, an option to purchase 57,600 shares of our common stock, held by Mr. Albrecht for ten years, expired by its terms. In order to compensate him for the loss of such option, we granted him shares of our common stock with a value equal in amount to the difference between the market value of the company's stock on the expiration date of the option, and the exercise price of the option.

- (4) Includes \$81,779 in cash compensation to mitigate the impact of the tax liability associated with the October 1, 2007 stock award.

Table of Contents**Grants of Plan-Based Awards for Fiscal Year Ended December 31, 2007**

The following table sets forth grants of stock options made during the year ended December 31, 2007 to each Named Executive Officer. The exercise price of these stock options is the closing market price quoted by the Nasdaq Global Market on the date the options were granted. The options are subject to accelerated vesting in certain circumstances as detailed in the discussion under the heading Potential Payments Upon Termination or Change-in-Control below.

The grant date fair value of these option awards was determined pursuant to FAS No. 123R. We recognize share-based compensation expense related to these awards in our financial statements in the periods in which the awards vest. See Note 2, Basis of Presentation and Significant Accounting Policies-Share-Based Compensation, to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2007, filed with the Commission on March 17, 2008.

Option Exercises and Stock Vested for Fiscal Year Ended December 31, 2007

The following table sets forth, for each of the Named Executive Officers, the number of shares acquired and the value realized on options exercised during the fiscal year ended December 31, 2007. The value realized on exercise set forth in this table is the intrinsic value of the options, which is the number of shares exercised times the difference between the quoted closing price of our common stock on the date of exercise and the exercise price. This amount may differ from the compensation expense we recorded in our financial statements for these options in accordance with SFAS No. 123R.

Name	Option Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)
David G. Nance		
Max W. Talbott, Ph.D.		
Robert E. Sobol, M.D.		
J. David Enloe, Jr.	102,400	\$475,539.20
James W. Albrecht, Jr.(1)		

(1) During 2007, an option to purchase 57,600 shares of our common stock, held by Mr. Albrecht for ten years, expired by its terms. In order to compensate him for the loss of such option we granted him shares of our common stock with a value equal in amount to the difference between the market value of the company's stock on the expiration date of the option, and the exercise

price of the
option. This
stock award is
disclosed in the
Summary
Compensation
Table.

Potential Payments Upon Termination or Change-In-Control

On December 15, 2007, Introgen entered into a new employment agreement with David G. Nance, effective as of August 1, 2007, under which Mr. Nance serves as our President and Chief Executive Officer. This employment agreement replaces and supersedes that certain employment agreement with Mr. Nance dated as of August 1, 2003. The employment agreement with Mr. Nance continues through July 31, 2010, and thereafter renews automatically for one-year terms until either party gives timely written notice of non-renewal. Mr. Nance's base salary under the employment agreement is \$594,944 per annum effective August 1, 2007. His compensation under the employment agreement is subject to review annually. In the event of Mr. Nance's termination by the Company other than for cause, the Company must continue to pay Mr. Nance compensation otherwise payable to him under the employment agreement for the remainder of the then current term, and he will no longer be subject to his non-competition and nondisclosure agreements. Assuming Mr. Nance's employment was terminated by the Company other than for cause on December 31, 2007, he would have received payments for the remainder of his term of an amount not to exceed \$1,536,939 in salary, and he would receive benefit continuation in the form of health insurance coverage and vacation accrual until the end of his term with a value of approximately \$181,933. All vested options may be exercised within three months of the date when Mr. Nance or any other employee, director or consultant ceases to be engaged by the Company.

All of the options granted under our 1995 Stock Plan and the 2000 Stock Option Plan shall immediately vest and become exercisable upon our merger with or into another corporation, entity or person, or the sale of all or substantially all our assets to another corporation, entity or person, unless such options are assumed or an equivalent option or right is substituted by the successor corporation or a parent or subsidiary of the successor corporation. In addition, all of the options granted under our 2000 Stock Option Plan shall immediately vest and become exercisable in the event of (i) the merger or reorganization of Introgen with or into another corporation, entity, or person, (ii) the sale of all or substantially all of our assets to another corporation, entity, or person, or (iii) any change in ownership of our voting stock resulting in ownership of more than 50% of our voting stock by one or more persons acting in concert who did not prior to the date of grant own more than 50% of our voting stock. The table below reflects the total value of our Named Executive Officers' shares that are vested or will vest on an accelerated basis on December 31, 2007 assuming a change of control and accelerated vesting took place on December 31, 2007. The value of vested options in the table below is the intrinsic value of the options, which is the number of shares that are vested or will vest on an accelerated basis at December 31, 2007 as a result of the change of control times the difference between the quoted closing price of our common stock on that date and the exercise price of each option. If the exercise price of an option is above the quoted closing price of our common stock, it has a zero value for this purpose. This amount may differ from the compensation expense we would record in our financial statements for these options in the event of immediate vesting in accordance with SFAS No. 123R.

Name of Executive Officer	Total Value of Options that Are Vested or Will Vest on an Accelerated Basis on 12/31/2007 if Change of Control Occurred on 12/31/2007

Transactions with Related Persons

The Audit Committee has authority under its written charter to review all potential related party transactions, which would include any transaction exceeding certain minimum dollar thresholds between the Company or its affiliates and an executive officer, director, or 5% shareholder or any of their family members. The Audit Committee's primary goal when making its approval determination is to decide whether the transaction will provide significant benefit to the Company and ultimately translate into increased stockholder value. Transactions are approved on a case-by-case basis.

John N. Kapoor, Ph.D., Director, is the sole shareholder of EJ Financial. We had a consulting agreement with EJ Financial pursuant to which EJ Financial provided services to us for \$175,000 per year. Pursuant to the agreement, EJ Financial assisted us with business development, license negotiations, market analysis and general corporate development. Subsequent to December 31, 2007, this consulting agreement ended by mutual agreement between EJ Financial and us. Accordingly, we no longer make payments under this agreement.

David Parker, Ph.D., J.D., our Senior Vice President, Intellectual Property, is a partner in the law firm Fulbright & Jaworski LLP, which provides legal services to us as our primary outside counsel for intellectual property matters.

In March, 2007, we became an owner of 49% of the outstanding stock of Introgen Research Institute (IRI). The other 51% of IRI is owned by our corporate Secretary, who is also an Introgen shareholder. We transferred to IRI an NIH grant originally awarded to us. IRI will be responsible for the remaining research contemplated by that grant and will receive future funding, if any, from the NIH under that grant. We have contractual relationships with IRI under which we may perform research and development services for them in the future.

In 2007, we established Gendux Pharmaceuticals Limited (GPL) to develop and commercialize targeted molecular medicines in European markets. We originally anticipated that Introgen would license certain of its technologies to this entity in connection with those activities. Introgen originally owned approximately 85% of GPL, but on September 5, 2007, Introgen transferred its ownership of GPL to IGL, which is 100% owned by Introgen. IGL owns approximately 85% of GPL in the form of preferred stock convertible by Introgen into common stock (also called ordinary shares) at any time. The remaining portion of GPL is owned by certain of our directors, officers and employees in the form of approximately 150,000 shares of restricted common stock (also called ordinary shares) granted to them as approved by our Board of Directors. The restricted common stock of GPL is designed to provide

performance incentives similar in nature to a stock option plan. This stock is subject to transfer and other restrictions, including Introgen's right to repurchase the shares. These restrictions, including this repurchase right, are subject to release under vesting schedules that are contingent upon continued service by the stockholder to Introgen and/or GPL. This stock is voted by Introgen under proxy from the stockholders. This stock had a nominal value at the time it was issued such that the share-based compensation related to those shares at that time was not material. Our plans have changed so that we no longer anticipate licensing technologies to GPL. Instead, we anticipate that GPL will be liquidated and dissolved, and that the directors, officers and employees who own ordinary shares of GPL will receive no value for them.

In January 2008, we entered into a letter agreement with Robert Pearson, whereby Mr. Pearson will provide certain business development services to Introgen in connection with potential co-development, collaborations, marketing partnerships or certain other potential strategic transactions. In consideration of such services, upon the consummation of such a transaction, we will pay Mr. Pearson a fee equal to one-half of one percent (0.5%) of certain monetary benefits received by Introgen or its stockholders in certain transactions where Mr. Pearson has provided services, net of any contemplated expenditures of money or other assets by Introgen in connection with such transaction, up to a maximum fee of three million dollars (\$3,000,000), and subject in each case to all applicable laws. Mr. Pearson would not receive a fee with respect to funding received by Introgen which Introgen is expected to expend for research and development programs, full time equivalent payments with respect to employees, or loans in connection with collaborative programs, business partnerships or strategic transactions, or otherwise. Transactions between us and our affiliates, whether now existing or created in the future, are excluded from this agreement.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board is composed of three independent directors as defined under the Marketplace Rules of The Nasdaq Global Market (Nasdaq). The Audit Committee operates under a written charter adopted by the Board, as amended in 2005, available on Introgen s website at www.introgen.com. The members of the Audit Committee are William H. Cunningham, Ph.D. (Chairman), Charles E. Long and S. Malcolm Gillis, Ph.D. In accordance with Section 407 of the Sarbanes-Oxley Act, Introgen identified Dr. Gillis as the audit committee financial expert. We believe that each member of the Audit Committee meets the director independence requirements set forth in the applicable Securities and Exchange Commission (Commission) rules and Nasdaq Marketplace Rules. The Audit Committee believes it has fulfilled its responsibilities under its charter for the fiscal year ended December 31, 2007.

Management is responsible for the preparation, presentation and integrity of the financial statements, including establishing accounting and financial reporting principles and designing systems of internal controls over financial reporting. Introgen s independent registered public accounting firm is responsible for performing an independent audit of the consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and for issuing a report thereon. The Audit Committee s responsibility is to monitor and oversee these processes.

The Audit Committee has reviewed and discussed the audited consolidated financial statements for the fiscal year ended December 31, 2007 with management and the independent registered public accounting firm that performed such audit, Ernst & Young LLP. The Audit Committee also discussed with Ernst & Young LLP the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as amended. The Audit Committee has also received the written disclosures and the letter from Ernst & Young LLP required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and the Audit Committee has discussed the independence of Ernst & Young LLP with that firm.

Based upon the Audit Committee s review and discussions referred to in the immediately preceding paragraph, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in Introgen s Annual Report on Form 10-K for the fiscal year ended December 31, 2007, filed with the Commission on March 17, 2008. Each of the services rendered by Ernst & Young LLP was pre-approved by the Audit Committee.

Respectfully submitted,

AUDIT COMMITTEE

William H. Cunningham, Ph.D.

Charles E. Long

S. Malcolm Gillis, Ph.D.

THE FOREGOING AUDIT COMMITTEE REPORT SHALL NOT BE DEEMED TO BE SOLICITING MATERIAL OR TO BE FILED WITH THE COMMISSION, NOR SHALL SUCH INFORMATION BE INCORPORATED BY REFERENCE INTO ANY PAST OR FUTURE FILING UNDER THE SECURITIES ACT OR THE EXCHANGE ACT, EXCEPT TO THE EXTENT WE SPECIFICALLY INCORPORATE IT BY REFERENCE INTO ANY SUCH FILING.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers and directors, and persons who own more than 10% of a registered class of our equity securities, to file reports of ownership on Form 3 and changes in ownership on Form 4 or Form 5 with the Commission. Such officers, directors and 10% stockholders are also required by Commission rules to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of the copies of such forms we received, we believe that, during the fiscal year ended December 31, 2007, all Section 16(a) filing requirements applicable to our officers, directors and 10% stockholders were satisfied.

CODE OF ETHICS

On February 18, 2004, the Company adopted a Corporate Code of Ethics for All Employees and Directors, and a Corporate Code of Ethics for Financial Officers, which specifically applies to the Company's Chief Executive Officer, Chief Financial Officer and persons performing similar functions. A copy of each of the codes of ethics is available on our website at www.introgen.com in the Corporate Governance section under the Investor Relations heading.

We intend to post on our website any amendment to, or waiver from, a provision of our codes of ethics within four business days following the date of such amendment or waiver.
