PROXY STATEMENT

For Annual Meeting of Stockholders

To be Held on May 5, 2009

GENERAL

The accompanying proxy is solicited by the Board of Directors (the Board or the Board of Directors) of Encore Wire Corporation (the Company or Encore Wire or Encore) for use at the annual meeting of stockholders of the Company to be held at the time and place and for the purposes set forth in the foregoing notice. The approximate date on which this proxy statement and the accompanying proxy are first being sent to stockholders is March 23, 2009.

The cost of soliciting proxies will be borne by the Company. The Company may use certain of its officers and employees (who will receive no special compensation therefor) to solicit proxies in person or by telephone, facsimile, telegraph or similar means.

Proxies

Shares entitled to vote and represented by a proxy in the accompanying form duly signed, dated and returned to the Company and not revoked, will be voted at the meeting in accordance with the directions given. If no direction is given, such shares will be voted for the election of the nominees for directors named in the accompanying form of proxy and in favor of the other proposals set forth in the notice. Any stockholder returning a proxy may revoke it at any time before it has been exercised by giving written notice of such revocation to the Secretary of the Company, by filing with the Company a proxy bearing a subsequent date or by voting in person at the meeting.

Voting Procedures and Tabulation

The Company will appoint one or more inspectors of election to conduct the voting at the meeting. Prior to the meeting, the inspectors will sign an oath to perform their duties in an impartial manner and to the best of their abilities. The inspectors will ascertain the number of shares outstanding and the voting power of each share, determine the shares represented at the meeting and the validity of proxies and ballots, count all votes and ballots and perform certain other duties as required by law. The inspectors will tabulate the number of votes cast for or withheld as to the vote on each nominee for director and the number of votes cast for, against or withheld, as well as the number of abstentions and broker non-votes, as to the proposal to ratify the appointment of the auditors.

Quorum and Voting Requirements

The only voting security of the Company outstanding is its common stock, par value \$0.01 per share (Common Stock). Only the holders of record of Common Stock at the close of business on March 16, 2009, the record date for the meeting, are entitled to notice of, and to vote at, the meeting or any adjournment or postponement thereof. On the record date, there were 22,996,502 shares of Common Stock outstanding and entitled to be voted at the meeting. A majority of such shares, present in person or by proxy, is necessary to constitute a quorum. Each share of Common Stock is entitled to one vote. Abstentions and broker non-votes are counted as present at the meeting for purposes of determining whether a quorum exists. A broker non-vote occurs when a broker or other nominee returns a proxy but does not vote on a particular proposal because the broker or nominee does not have authority to vote on that particular item and has not received voting instructions from the beneficial owner.

Election of Directors. Directors are elected by a plurality of the votes of the shares of Common Stock present or represented by proxy at the meeting and entitled to vote on the election of directors. This means that the nominees receiving the highest number of votes cast for the number of positions to be filled will be elected. Cumulative voting is not permitted. Therefore, the six nominees who receive the most votes will be elected. Under Delaware law and the Company's Certificate of Incorporation and Bylaws, abstentions and broker non-votes will have no effect on voting on the election of directors, provided a quorum is present.

Ratification of Appointment of Independent Auditors. The proposal to ratify the appointment of auditors will be approved by a vote of a majority of the holders of shares of Common Stock having voting power present in person or represented by proxy. An abstention with respect to such proposal will therefore effectively count as a vote against such proposal. A broker non-vote or other limited proxy as to the proposal to ratify the auditors will be counted

towards a meeting quorum, but such broker non-vote cannot be voted on such proposal and therefore will not be considered a part of the voting power with respect to the proposal. This has the effect of reducing the number of stockholder votes required to approve that proposal.

ELECTION OF DIRECTORS**

The business and affairs of the Company are managed by the Board of Directors, which exercises all corporate powers of the Company and establishes broad corporate policies. Report of the Audit Committee

To the Stockholders of Encore Wire Corporation:

The Audit Committee of the Board of Directors oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial reporting process including the Company's system of internal controls, and the preparation of the Company's consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. The Audit Committee's responsibility is to monitor and review these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures.

Members of the Audit Committee are not employees of the Company and may not represent themselves to be or to serve as accountants or auditors of the Company. As a result, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and on the representations of the independent auditors included in their report on the Company's financial statements.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the audited financial statements in the Company's annual report referred to below, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. The Audit Committee has discussed with the independent auditors the matters required to be discussed by the statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence, and has discussed with the independent auditors the independent auditor's independence.

The Audit Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and

procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact independent.

Table of Contents

The Audit Committee discussed with the Company's independent auditors the overall scope and plans for their audits. The Audit Committee has met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. In addition, the Audit Committee met with management during the year to review the Company's Sarbanes-Oxley Section 404 compliance efforts related to internal controls over financial reporting. The Audit Committee held seven meetings during 2008.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the annual report on Form 10-K for the year ended December 31, 2008 for filing with the Securities and Exchange Commission. The Audit Committee and the Board have also recommended the selection of Ernst & Young LLP as the Company's independent auditors.

The above report of the Audit Committee and the information disclosed above related to Audit Committee independence under the heading "Board Independence" shall not be deemed to be soliciting material or to be filed with the SEC or subject to the SEC's proxy rules or to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and such information shall not be deemed to be incorporated by reference into any filing made by the Company under the Exchange Act or under the Securities Act of 1933, as amended (the "Securities Act").

Code of Business Conduct and Ethics

In connection with the Company's long-standing commitment to conduct its business in compliance with applicable laws and regulations and in accordance with its ethical principles, the Board of Directors has adopted a Code of Business Conduct and Ethics applicable to all employees, officers, directors, and advisors of the Company. EXECUTIVE COMPENSATION

Compensation Discussion & Analysis

This Compensation Discussion and Analysis section addresses the following topics: (i) the members and role of the compensation committee (the Compensation Committee); (ii) our compensation-setting process; (iii) our compensation philosophy; (iv) the components of our officer compensation program; and (v) our decisions for compensation earned in 2008.

Throughout this proxy statement the individuals whose compensation is reported in the Summary Compensation Table are referred to as the named officers. In this Compensation Discussion and Analysis section, the terms, we, us, and the Committee refer to the Compensation Committee.

The Compensation Committee

Committee Members and Independence

John H. Wilson (Chairman), Scott D. Weaver, Thomas L. Cunningham and William R. Thomas III are the current members of the Compensation Committee. At the 2008 annual meeting of stockholders, Joseph M. Brito retired from the Board and the Compensation Committee. Mr. Wilson, who has served on the Board of Directors from 1989 until May 1993 and since May 1994, is the Committee Chairman. Each member of the Committee qualifies as an independent director under NASDAQ listing standards.

Role of the Committee

The Compensation Committee administers the compensation program for the officers and certain key employees of the Company and makes all related decisions. The Committee also administers the Company's employee stock option plan and all other compensation and benefit policies, practices and plans of the Company. The Committee ensures that the total compensation paid to the officers is fair, reasonable and competitive. The Compensation Committee did not retain compensation advisors with respect to compensation earned during 2008, nor has it done so in the past. We operate under a written charter adopted by the Board. The charter is available

Table of Contents

under the Investors section of the Company's website at www.encorewire.com. The fundamental responsibilities of our Committee are:

to review at least annually the goals and objectives and the structure of the Company's plans for officer compensation, incentive compensation, equity-based compensation, and its general compensation plans and employee benefit plans (including retirement and health insurance plans);

to evaluate annually the performance of the Chief Executive Officer in light of the goals and objectives of the Company's compensation plans, and to determine his compensation level based on this evaluation;

to review annually and determine the compensation level of all officers and certain key employees of the Company, in light of the goals and objectives of the Company's compensation plans;

in consultation with the Chief Executive Officer, to oversee the annual evaluation of management of the Company, including other officers and key employees of the Company;

periodically, as the Committee deems necessary or desirable and pursuant to the applicable equity-based compensation plan, to grant, or recommend that the Board grant, equity-based compensation awards to any officer or employee of the Company for such number of shares of Common Stock as the Committee, in its sole discretion, shall deem to be in the best interest of the Company; and

to review and recommend to the Board all equity-based compensation plans.

Committee Meetings

The Compensation Committee meets as often as necessary to perform its duties and responsibilities. We held three meetings during 2008 and have held one meeting so far during 2009. We typically meet with the Chief Executive Officer. We also meet in executive session without management.

The Compensation-Setting Process

We meet in executive session each year to evaluate the performance of the officers and certain key employees, to determine their incentive bonuses for the prior year, to set their base salaries for the next calendar year, and to consider and approve any grants to them of equity incentive compensation.

Although many compensation decisions are made in the first and fourth quarter, our compensation planning process continues throughout the year. Compensation decisions are designed to promote our fundamental business objectives and strategy. Business and succession planning, evaluation of management performance and consideration of the business environment are year-round processes.

Management plays a significant role in the compensation-setting process. The most significant aspects of management's role are:

evaluating employee performance; and

recommending salary levels, bonus awards and stock option awards.

The Chief Executive Officer also participates in Compensation Committee meetings at the Compensation Committee's request to provide:

background information regarding the Company's strategic objectives;

his evaluation of the performance of the officers (other than himself) and other key employees; and

compensation recommendations as to the officers (other than himself).

Compensation Philosophy

The Company believes in rewarding officers based on individual performance as well as aligning the officers' interests with those of the stockholders with the ultimate objective of improving stockholder value. To that end, the Committee believes officer compensation packages provided by the Company to its officers should include both cash and

stock-based compensation that reward performance.

Table of Contents

The Compensation Committee seeks to achieve the following goals with the Company's officer compensation programs: to attract, retain and motivate key officers and to reward officers for value creation. The individual judgments made by the Compensation Committee are subjective and are based largely on the Compensation Committee's perception of each officer's contribution to both past performance and the long-term growth potential of the Company.

At the core of our compensation philosophy is our guiding belief that pay should be linked to performance, and several factors underscore that philosophy. A substantial portion of officer compensation is determined by each officer's contribution to the Company's profitability based largely on a review of each officer's performance of their specific duties and responsibilities that the Chief Executive Officer conducts with the compensation committee. We do not have any employment, severance or change-in-control agreements with any of our officers. We do not believe in discounted stock options, reload stock options or re-pricing of stock options.

The Committee believes that total compensation and accountability should increase with position and responsibility. Consistent with this philosophy, total compensation is higher for individuals with greater responsibility and greater ability to influence the Company's targeted results and strategic initiatives. As position and responsibility increases, a greater portion of the officer's total compensation is performance-based pay.

In addition, our compensation methods focus management on achieving strong annual performance in a manner that supports and encourages the Company's long-term success and profitability. We believe that stock options issued under the Company's stock option plan create long-term incentives that align the interests of management with the interests of long-term stockholders.

Finally, while the Company's overall compensation levels must be sufficiently competitive to attract talented leaders, we believe that compensation should be set at responsible levels. Our officer compensation programs are intended to be consistent with the Company's cost control strategies.

2008 Compensation

This section describes the compensation decisions that the Committee made with respect to the named officers for 2008.

Executive Summary

In 2008 and the first quarter of 2009, we continued to apply the compensation principles described above in determining the compensation of our named officers. In summary, the compensation decisions made for 2008 for the named officers were as follows:

We increased base salaries for each named officer.

We increased cash incentive (bonus) payments to each named officer.

We granted stock options to each named officer.

The Committee determined that each named officer contributed to the Company's success in this difficult economic climate in the U. S. construction industry. The Committee increased the salaries of the named officers to reward them for contributing to the Company's profitability despite the weak industry environment and overall U.S. economy and to reflect the Committee's determination, based on the Committee members' opinions and personal experiences, that an increase was warranted to make the salaries of the named officers commensurate with officers in similar positions with similar companies. The Committee also awarded cash incentive bonus payments and stock options to reflect each named officer's contributions.

Base Salary

In determining base salaries, we consider the officer's qualifications and experience, scope of responsibilities, the goals and objectives established for the officer, the officer's past performance, internal pay equity, the tax deductibility of base salary and cash incentive payments and the extent to which the company's earnings were affected by the officer's actions. The relative amounts of the base salary and bonus of our officers are set at levels so that a significant portion of the total compensation that such officer can earn is performance-based pay.

Base salary is largely determined based on the subjective judgment of the Committee without the use of a formula, taking into account the factors described above. In determining the base salary of the officers, the Committee

periodically refers to surveys of compensation data for similar positions with similar companies, including the 2006-2007 Watson Wyatt Salary Survey.

For 2008, the Committee set the base salary for Mr. Jones at \$550,000, a 22.2% increase from his previous salary of \$450,000; the base salary for Mr. Bilban at \$250,000, a 19.0% increase from his previous salary of \$210,000; the base salary for Mr. Kieffer at

Table of Contents

\$215,000, a 7.5% increase from his previous salary of \$200,000; the base salary for Mr. Smith at \$165,000, a 3.1% increase from his previous salary of \$160,000; and the base salary for Mr. Gottschalk at \$130,000, an 8.3% increase from his previous salary of \$120,000. In determining the increases in the named officers' base salaries for 2008, the Committee considered the individual performance of each named officer to the Company's profitability in 2007 relative to the weak industry environment, public companies generally, and the U.S. economy. These salary adjustments were based on a performance evaluation conducted by the Chief Executive Officer on each officer's performance of their duties and responsibilities and their overall contributions to the management team's performance. The Chief Executive Officer's evaluations are discussed with the Compensation Committee along with his recommendations for salary adjustments. The committee reviews the Chief Executive Officer's recommendations along with their salary survey knowledge to reach final determinations of all officer compensation components, including base salary, bonus and stock option awards.

Cash Incentive

Cash incentive bonus payments are discretionary, based primarily on each named officer's contribution to the Company's profitability over the applicable performance measurement periods. The Company makes its cash incentive bonus payments, if any, during the first quarter of the year following the applicable performance measurement period. For example, the 2008 bonuses paid to the named officers were paid in the first quarter of 2009 based on such officers' contribution to the Company's profitability during 2008. The Committee believes that profitability is the most useful measure of management's effectiveness in creating value for the stockholders of the Company. No specific formula is used in making such bonus determinations.

For 2008, Mr. Jones received a cash incentive payment of \$450,000, a 25% increase from his 2007 cash incentive payment of \$360,000; Mr. Bilban received a cash incentive payment of \$200,000, a 66.7% increase from his 2007 cash incentive payment of \$120,000; Mr. Kieffer received a cash incentive payment of \$100,000, a 25% increase from his 2007 cash incentive payment of \$80,000; Mr. Smith received a cash incentive payment of \$90,000, a 2.3% increase from his 2007 cash incentive payment of \$88,000; and Mr. Gottschalk received a cash incentive payment of \$100,000, an 11.1% increase from his 2007 cash incentive payment of \$90,000. In determining the cash incentive bonus payments for the named officers in 2008, the Committee considered the individual performance of each named officer during 2008. The Committee considered, among other things, the fact that each named officer contributed to the 31% increase in the Company's diluted earnings per share in 2008 from \$1.30 per share in 2007 to \$1.70 per share in 2008, notwithstanding the weak industry environment, a decline in the performance of many public companies and a general decline in the U.S. and global economies.

Equity Incentive

The Company's named officers are eligible to receive performance-based stock options granted under the Encore Wire Corporation 1999 Stock Option Plan, as amended and restated (as more fully described in Note 6 to the Consolidated Financial Statements of the Company's Annual Report on Form 10-K for the year ended December 31, 2008 and incorporated herein by reference). The Company grants all stock options based on the fair market value as of the date of grant. The exercise price for stock option grants is determined by reference to the closing price per share on NASDAQ at the close of business on the date of grant. Other than the stock option plan described above, the Company does not have any other equity incentive plans currently in place.

Option awards under the option plan discussed above are made at regular or special Compensation Committee meetings. The effective date for such grants is the date of such meeting. The Company may also make grants of equity incentive awards at the discretion of the Compensation Committee or the board of directors in connection with the hiring of new officers and other employees.

In determining the number of options to be granted to officers and the frequency of option grants, the Compensation Committee takes into account the individual's position, scope of responsibility, ability to affect profitability, the individual's performance and the value of stock options in relation to other elements of total compensation. In addition, since the Company believes that profitability is the most useful measure of management's effectiveness in creating value for the stockholders, the Company's profitability in its industry and over the applicable performance measurement periods is also taken into account when determining the number of options to be granted to officers.

During 2008, the named officers received grants of stock options with the following amounts of shares of Common Stock underlying such awards: 30,000 (Mr. Jones), 10,000 (Mr. Bilban), 15,000 (Mr. Kieffer), 4,000 (Mr. Smith) and 4,000 (Mr. Gottschalk). In determining the stock option awards granted to the named officers, the Committee took into account the same considerations it did in determining the increases in the named officers' base salaries. On December 31, 2008, unexercised options covering 633,976 shares were outstanding, and 147,300 shares remained available for future stock option grants, under the Company's amended 1999 Stock Option Plan. On December 31, 2008, Mr. Jones held vested stock options to purchase 268,500 shares having a market value of \$3,471,970 at a cost of \$1,618,790, for a potential gain of \$1,853,180; Mr. Bilban held vested stock options to purchase 74,000 shares having a market value of \$911,110 at a cost of \$491,930, for a potential gain of \$419,180; Mr. Kieffer held vested stock options to

Table of Contents

purchase 23,000 shares having a market value of \$5,610 at a cost of \$810,270, for no potential gain; Mr. Smith held vested stock options to purchase 72,351 shares having a market value of \$807,160 at a cost of \$564,615, for a potential gain of \$242,545; and Mr. Gottschalk held vested stock options to purchase 800 shares having a market value of \$1,496 at a cost of \$13,672, for no potential gain. The market value of the vested options held by the named officers is calculated based on the difference between the exercise price and the closing price of the Common Stock on NASDAQ on December 31, 2008.

Perquisites and Other Personal Benefits Compensation

The Company provides officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to officers. The amounts shown in the Summary Compensation Table under the heading Other Compensation represent the value of Company matching contributions to the named officers' 401(k) accounts, the value of certain life insurance benefits and the cost of vehicle leases and country club memberships to the Company. Named officers did not receive any other perquisites or other personal benefits or property.

Accounting for Stock-Based Compensation

Beginning on January 1, 2006, the Company began accounting for stock-based payments, including its 1999 Stock Option Plan, in accordance with the requirements of FASB Statement 123(R).

Reasonableness of Compensation

After considering the aggregate compensation paid to the named officers for 2008, the Committee has determined that the compensation is reasonable and not excessive. In making this determination, we considered many factors, including the following:

Including base salaries, cash incentive bonuses and stock options, the total compensation levels for the named officers are reasonable in relation to officers in similar positions with similar companies.

Despite the current industry environment, our high order fill rates, innovative products and low cost structure continue to set industry standards.

The Company achieved higher profitability in 2008, notwithstanding the Company's weak industry environment, a decline in the performance of many public companies and a general decline in the U.S. and global economies.

The named officers have no severance or change-in-control agreements with the Company.

Certain Relationships and Related Party Transactions

Policies and Procedures

The Audit Committee of the Board of Directors is responsible for reviewing and approving all material transactions with any related party, as set forth in the Related Party Transactions Policy adopted by the Board of Directors. Related parties include any of our directors or executive officers, certain of our stockholders and their immediate family members. We review related party transactions due to the potential for a conflict of interest. A conflict of interest occurs when an individual's private interest interferes with the interests of the Company as a whole. Our Code of Business Conduct and Ethics requires all directors, officers and employees who have a conflict of interest to immediately notify their supervisor or our Nominating and Corporate Governance Committee chairman.

We expect our directors, officers and employees to act and make decisions that are in our best interests and encourage them to avoid situations which present a conflict between our interests and their own personal interests. Our directors, officers and employees are prohibited from taking any action that may make it difficult for them to perform their duties, responsibilities and services to the Company in an objective and fair manner. A copy of our Code of Business Conduct and Ethics is available at www.encorewire.com under the Investors section.
