NOTES TO FINANCIAL STATEMENTS
June 30, 2004**

1. Description of Plan

The following is a brief description of the H&R Block, Inc. 2000 Employee Stock Purchase Plan (the Plan). The Plan is designed to encourage and assist employees of the subsidiaries of H&R Block, Inc. (the Company) to acquire an equity interest in the Company through the purchase of shares of the Company's common stock. Participants should refer to the Plan document for a more complete description of the Plan.

The Plan was adopted by the Board of Directors of the Company on June 28, 2000 and by the shareholders at its Annual Meeting on September 13, 2000.

Common stock for the Plan is issued directly from the Company's authorized but unissued shares or treasury shares. The aggregate number of shares that may be issued under the Plan cannot exceed 6,000,000 (adjusted effective August 1, 2001, for the effect of a two-for-one stock split of the Company's common stock).

Eligibility. An employee of a participating subsidiary of the Company is eligible to participate in the Plan if the employee has been continuously employed by a participating subsidiary for at least twelve months. In addition, employees must be customarily employed at least 20 hours per week and at least five months in any calendar year.

Each eligible employee may enroll in the Plan as of the first day of an Option Period during open enrollment, which ends at least 15 days prior to the commencement of such Option Period. The Option Periods are six-month periods beginning on July 1 and January 1 of each year and ending on December 31 and June 30 of each year, respectively.

Contributions. A Plan participant can contribute from 1% to 10% of the participant's compensation, as such term is defined in the Plan, through after-tax payroll deductions during the Option Period. Participants can increase or decrease their withholding percentage during an Option Period. Effective July 1, 2004, participants may not increase or decrease their withholding percentage during an Option Period. In addition to these limits, a participant cannot accrue at a rate that exceeds \$25,000 for the calendar year, as measured by the fair market value of shares (as determined in the case of each such share as of the first day of an Option Period). The Company holds contributions until the end of the Option Period, at which point the Company issues shares for the contributions received. Contributions in excess of the \$25,000 limit are carried forward and applied to future option periods. No interest is paid or accrued on the participants' payroll deductions. Contributions from participant payroll deductions are held by the Company and are used for general corporate purposes.

Table of Contents

Participant withdrawals: A participant may choose to withdraw from the Plan at any time during an Option Period. Participants who terminate their employment with the Company and its subsidiaries are not eligible to continue participation in the Plan. Upon withdrawal, termination from employment or death, any accumulated contributions during an Option Period are distributed to the employee or beneficiary, without interest, by the Company.

Stock Purchase Provisions. On the first day of the Option Period (Grant Date), eligible employees are granted the option to purchase shares of the Company s common stock. On the last day of the Option Period (Purchase Date), the Company issues common stock to the participants. The purchase price per share of common stock issued by the Company is 90% of the lower of either the fair market value of the Company s common stock on the Grant Date or the Purchase Date. Fair market value is determined using the closing price of the Company s common stock as listed on the New York Stock Exchange. All shares issued under the Plan may not be sold, transferred or assigned for a period of six months after the Purchase Date.

Shares purchased pursuant to the Plan during the two Option Periods in the year ended June 30, 2004 were 59,920 shares and 69,498 shares, respectively. The purchase price per share for the common stock was \$39.18 and \$42.91 for the two Option Periods, respectively.

Shares purchased pursuant to the Plan during the two Option Periods in the year ended June 30, 2003 were 49,761 shares and 64,319 shares, respectively. The purchase price per share for the common stock was \$36.18 for each of the two Option Periods.

Shares purchased pursuant to the Plan during the two Option Periods in the year ended June 30, 2002 were 41,474 shares and 41,982 shares, respectively. The purchase price per share for the common stock was \$30.78 and \$39.32 for the two Option Periods, respectively.

Plan Administration. The Plan is administered by the Compensation Committee of the Company s Board of Directors. Expenses of the Plan are paid directly by the Company and are not reflected in the accompanying financial statements.

Plan Termination. Although the Board of Directors of the Company has not expressed any intent to do so, it has the right to terminate the Plan at any time. In the event the Plan is terminated, the Board of Directors may elect to restrict the purchase of shares under the Plan during the Option Period in which the Plan was terminated. If such right is exercised, all funds contributed to the Plan that have not been used to purchase shares will be returned without interest to the participants.

2. Accounting Policy

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America. Such preparation requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

3. Federal Income Taxes

The Plan is intended to constitute an employee stock purchase plan within the meaning of Section 423 of the Internal Revenue Code (the Code).
