**Item 5. Other Events and Regulation FD Disclosure**

On April 8, 2002, Bull Run Corporation (the Company) and its lenders amended the Company's bank credit facility in order to, among other things, change the facility's maturity date from March 29, 2002 to June 28, 2002, waive certain specified events of default and waive the lenders' rights and remedies under the credit facility pertaining to the specified events of default.

The Company believes that it will be able to reach an acceptable agreement with its bank lenders on the terms of a long-term refinancing of the credit facility prior to the facility's new maturity date. As disclosed in the Company's Form 10-Q for the period ended December 31, 2001, a long-term refinancing of the credit facility may involve a significant reduction in the total amount of financing available from the bank lenders, and the Company believes it has the ability to successfully achieve such a reduction within a time frame acceptable to its bank lenders. The Company has reduced its bank term debt by over \$20 million during the current fiscal year as a result of the sale of certain investment assets and the issuance of new equity to affiliated parties.

Certain statements in this Current Report on Form 8-K are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are not guaranties of future performance and actual results may differ materially from those forecasted.
