PROXY STATEMENT
FOR 2002 ANNUAL MEETING OF SHAREHOLDERS

This proxy statement is furnished in connection with the solicitation by the Board of Directors of SUNLINK HEALTH SYSTEMS, INC., an Ohio corporation (the Company), of proxies to be used at the Annual Meeting of Shareholders to be held on Friday, November 22, 2002, and any adjournment thereof. The close of business on October 8, 2002 has been fixed as the record date for the determination of the holders of common shares entitled to vote at the meeting and each such shareholder is entitled to one vote per share. There were 4,997,592 common shares outstanding at the close of business on October 8, 2002.

All shares represented by properly executed proxies received by the Board of Directors pursuant to this solicitation will be voted in accordance with the shareholder's directions specified on the proxy. If no directions have been specified by marking the appropriate places on the accompanying proxy card, the shares will be voted in accordance with the Board's recommendations which are FOR the election of Robert M. Thornton, Jr., Karen B. Brenner, C. Michael Ford and Howard E. Turner, as directors of the Company for a two-year term. A shareholder signing and returning the accompanying proxy has power to revoke it at any time prior to its exercise by delivering to the Company a later dated proxy or by giving notice to the Company in writing or by voting in person at the Company's annual meeting.

The presence, in person or by properly executed proxy, of the holders of a majority of the Company's outstanding common shares is necessary to constitute a quorum at the Annual Meeting. Shares represented by proxies received by the Company will be counted as present at the Annual Meeting for the purpose of determining the existence of a quorum, regardless of how or whether such shares are voted on a specific proposal. Abstentions will be treated as votes cast on a particular matter as well as shares present at the Annual Meeting.

This proxy statement and the accompanying proxy card were first mailed to shareholders on or about October 28, 2002.

ELECTION OF DIRECTORS

The Company's Board of Directors is presently comprised of eight members and is divided into two classes, with each class having four members. One class of directors is elected at each Annual Meeting of Shareholders for a term of two years.

Thornton, Jr., Karen B. Brenner, C. Michael Ford and Howard E. Turner, who are presently directors of the Company, for election to terms of office expiring at the 2004 Annual Meeting.

It is the intention of the proxy agents named in the proxy, unless otherwise directed, to vote such proxy for the election of Robert M. Thornton, Jr., Karen B. Brenner, C. Michael Ford and Howard E. PERFORMANCE GRAPH

The following graph compares the cumulative total shareholder return on the Company's common shares over the 63 month period from April 1, 1997 through June 30, 2002 with the cumulative total return of the American Stock Exchange Market Index, an index of American Stock Exchange listed companies with a market capitalization of between \$0 and \$20 million (Peer Group Index), and a hospital industry index (Hospitals Index) over the same period. The graph assumes that \$100 was invested in each vehicle on April 1, 1997 and that all dividends were reinvested. The Peer Group Index was developed by an independent agency and previously was used by the Company because the diversity of the Company's businesses over the applicable period made a market capitalization based index most appropriate. The Company plans to discontinue use of the Peer Group Index and use only the Hospitals Index beginning with its proxy statement for the fiscal year ending June 30, 2003.

The Company changed its fiscal year-end from a March 31 year-end to a June 30 year-end, beginning with the year ended June 30, 2002, so that the measurement period for the performance graph covers the fiscal years ended March 31, 1998, 1999, 2000 and 2001, the three-month transition period ended June 30, 2001 and the most recent fiscal year ended June 30, 2002.

EXECUTIVE COMPENSATION COMMITTEE REPORT ON

EXECUTIVE COMPENSATION

The Executive Compensation Committee of the Board of Directors currently is comprised of three directors who are not employees or former employees of the Company. The Committee's stated function is to act in an advisory capacity to the Board with respect to compensation of executives of the Company. Except as specifically authorized by the Board, the Committee does not have the authority to fix the compensation of any employee, officer or director of the Company. However, since the Committee's creation in 1977, the Board has only on rare occasions not completely adopted the recommendations of the Committee and on those occasions only minor changes were made. During the fiscal year ended June 30, 2002, the Board approved all compensation recommendations made by the Committee.

The goal of the Committee has been to adopt a compensation approach that is basically simple, internally equitable and externally competitive, and that attracts, motivates and retains qualified people capable of contributing to the growth, success and profitability of the Company, thereby contributing to long-term shareholder value.

The three key elements of executive compensation are base salary, short-term incentives and long-term incentives.

The Company's base salaries are intended to be consistent with its understanding of competitive practices, levels of responsibility, qualifications necessary for the particular position and experience. Salary increases reflect the Committee's belief as to the performance of the individual, competitive trends and, to some extent, the overall financial condition of the Company.

The short-term incentive for an executive is the opportunity to earn an annual cash bonus of up to a specified percentage of his base salary. The specified percentage is a maximum amount as agreed to in the executive's employment agreement. In the past, in determining bonuses, the Committee has chosen to evaluate each executive individually and on a subjective basis, without resort to specific performance objectives. However, now that the Company has only one business segment (community hospitals and related businesses) and no foreign operations, the Committee has concluded that bonus payments should be primarily based on specific predetermined financial targets although some portion should be discretionary based on the Committee's evaluation of an executive's performance in specific qualitative areas.

In line with the Company's switch from a purely subjective discretionary approach to a system based primarily upon the achievement of predetermined financial targets, bonuses paid under the Executive Bonus Plan for the fiscal year ended June 30, 2002 were based primarily upon the earnings from continuing operations of the Company for the year and the EBITDA of the six community hospitals for the year measured against the fiscal 2002 budget adopted in July 2001 by the Board for fiscal 2002. If the Company failed to achieve 90% of the budget, no bonus would be payable based on these targets. If the Company achieved 125% of these targets, the maximum bonuses would be payable thereon. Prior to the commencement of the fiscal year, discretionary evaluation criteria were established for each executive covered by the Plan and a portion of the total bonus (20%-30%) would be payable based on the Committee's evaluation of the executive's performance of the applicable criteria. Based on the Company's financial performance during fiscal 2002 and the Committee's evaluation of the performance of each executive against their respective discretionary criteria, the executive officers of the Company were paid the bonuses set forth in the Summary Compensation Table on page 10.

Thus, the major portion of each executive's bonus is based on the achievement of predetermined financial targets by the Company. Based on the results achieved against the predetermined financial targets, either no executive receives a bonus based on these targets or every executive receives a bonus based thereon. In the Committee's opinion, this tends to substantially increase teamwork which benefits the Company and its shareholders.

While salary and short-term incentives are primarily designed to compensate current and past performance, the main purpose of the long-term incentive compensation program is to directly link management compensation with the long-term interests of shareholders. The Company currently is using, as it has for many years, stock options to provide that link. Options are intended to provide strong incentives for superior long-term performance. No stock options were granted to the executive officers of the Company during the fiscal year ended June 30, 2002 because significant stock options were granted during the preceding year.

During the fiscal year ended June 30, 2002, the CEO, Mr. Thornton, was employed under an Employment Agreement which provided for an annual base salary of \$250,000, which was retroactively increased to \$265,000, effective January 1, 2002, and the opportunity to earn a bonus equal to sixty percent of his annual salary if certain criteria established by the Committee (in consultation with him) are met (a more complete description of Mr. Thornton's Employment Agreement is contained on page 11 under the heading "Employment Contracts, Termination of Employment and Change-In-Control Agreements"). In the opinion of the Committee, Mr. Thornton's salary is somewhat on the low side for comparable positions. Under the Executive Bonus Plan for fiscal 2002, Mr. Thornton's possible bonus for fiscal 2002 was weighted as follows: (1) 40% was based on the Company's earnings from continuing operations for fiscal 2002; (2) 30% was based upon the EBITDA of the community hospitals for fiscal year 2002; and (3) 30% was based on discretionary criteria.

Under the Bonus Plan's objective criteria, the Company's earnings from continuing operations and the hospitals' EBITDA entitled Mr. Thornton (and all other executive officers) to the maximum bonus payable with respect to the objective criteria. The discretionary criteria to be considered in evaluating Mr. Thornton's performance were overall strategy development and implementation; financing, refinancing and capitalization initiatives; management of the disposition of Beldray Limited, the UK housewares subsidiary; hospital acquisition initiatives; and the Company's share price. The Committee concluded, and the Board agreed, that Mr. Thornton had met the discretionary criteria and had earned the maximum bonus based thereon. Further, it was the opinion of the Committee that Mr. Thornton has provided highly effective leadership and deserves much of the credit for the Company's excellent performance during fiscal 2002.

The Audit Committee met once during the 2002 fiscal year. In addition, the members of the Committee reviewed and the Chairman of the Committee discussed with management and Deloitte & Touche LLP (the Company's independent auditors), the interim financial information contained in each quarterly earnings release prior to the release of such information to the public.

The Committee has reviewed and discussed the audited consolidated financial statements of the Company for the fiscal year ended June 30, 2002 with management and Deloitte & Touche LLP, including discussing with Deloitte & Touche LLP the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as amended.

The Audit Committee received from Deloitte & Touche LLP the written disclosures, including the letter, required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with them the subject of their independence in connection with their performance of services for the Company.

As a result of the reviews and discussions with management and Deloitte & Touche LLP referred to above, the Committee recommended to the Board of Directors, and the Board approved, that the audited financial statements of the Company be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2002 for filing with the Securities and Exchange Commission.
