Table of Contents

Voting Procedures

All record holders of issued and outstanding shares of our common stock are entitled to vote. Brokers who hold shares in street name for customers have the authority under the rules of the various stock exchanges to vote on certain items when they have not received instructions from beneficial owners. Shares for which brokers have not received instructions, and which therefore are not voted with respect to a certain proposal, are referred to as broker non-votes.

Who Tabulates the Vote?

Computershare Investor Services serves as the independent tabulator of votes and inspector of elections. It will report the voting results to us. However, it will not identify to us how you voted on any issue unless:

there is a contested election for the Board of Directors;

it is required by law; or

you request it.

Who is Paying for this Proxy Solicitation?

We are paying for the cost of soliciting your vote, including the cost of mailing the proxy statement and proxy card. We will, upon request, reimburse brokerage houses, custodians, nominees and others for the out-of-pocket and reasonable clerical expenses they incur in connection with this proxy solicitation.

Quorum

Under Delaware law and our Bylaws, the presence, in person or by proxy, of stockholders entitled to cast a majority of all votes entitled to be cast on the matter at the Annual Meeting constitutes a quorum. Abstentions and broker non-votes will count for purposes of determining if there is a quorum present at the Annual Meeting.

PROPOSAL 1

ELECTION OF DIRECTORS

General

Pursuant to our Bylaws, our Board of Directors may have up to 15 members. Currently, we have 11 members on our Board of Directors and each director is elected for a one year term. Our Independent Directors Committee has recommended and nominated the eleven individuals listed below for election to our Board of Directors at the Annual Meeting to hold office until the next annual meeting and the election of their successors. All of the nominees for director are currently serving as members of our Board of Directors.

Each of the nominees has consented to be named in this proxy statement and to serve as a member of our Board of Directors, if elected. In the event that any nominee withdraws or for any reason is not able to serve as a director, the proxy will be voted for such other person as may be designated by our Board of Directors, but in no event will the proxy be voted for more than eleven nominees for director. Our management has no reason to believe that any nominee will not serve if elected.

Recommendation of our Board of Directors

We recommend that you vote your shares to elect the following nominees. If you complete, sign, date, and return the enclosed proxy, your shares will be voted for the election of the eleven nominees recommended by our Board of Directors, unless you mark the proxy in such a manner as to withhold authority to vote. Please see the Voting Instructions on page 1 of this proxy statement for instructions on how to cast your vote.

Table of Contents

BOARD INDEPENDENCE, MEETINGS, COMMITTEES, AND COMPENSATION

Independence

As of the record date, TOSA owned 66.94% of our outstanding common stock. As a result, we are a controlled company within the meaning of the corporate governance standards of the New York Stock Exchange (the NYSE). We have elected to take advantage of the controlled company exemption as permitted under Section 303A.00 of the NYSE Listed Company Manual. As a controlled company, we are not currently required to have independent directors comprise a majority of our Board of Directors, nor are we required to have a nominating/corporate governance committee and compensation committee comprised entirely of independent directors. The Board of Directors has determined, however, that Messrs. Horner, Hasler, Poulos, and Whitworth, and Ms. Parks each meet the standards of independence set forth in the corporate governance standards of the NYSE.

Board Meetings and Committees

During fiscal year 2006, our Board of Directors held four regularly scheduled meetings, four special meetings, and acted by unanimous written consent on eleven occasions. For fiscal year 2006, each director attended at least 75% or more of the aggregate number of meetings held by our Board of Directors and the committees on which he or she served. As a general matter, Board members are expected to attend the Company's annual meetings of stockholders. All members of our Board of Directors were present at the Company's 2006 annual meeting of stockholders.

Our Board of Directors currently has four standing committees, all of which were also in place during fiscal year 2006: the Audit Committee, the Human Resources, Compensation, and Benefits Committee, the Independent Directors Committee, and the Board Executive Committee, each briefly described below.

Audit Committee. The Audit Committee consists of Messrs. Hasler, Poulos, and Whitworth. Our Board of Directors has determined that each of Messrs. Hasler and Poulos is an audit committee financial expert as defined by the rules promulgated by the Securities and Exchange Commission (the Commission), and that, in the business judgment of the Board of Directors, Mr. Whitworth is financially literate. Mr. Hasler serves on the audit committees of three publicly traded companies in addition to serving as the chair of the Company's Audit Committee. The Board of Directors has determined that such simultaneous service by Mr. Hasler does not impair his ability to serve on the Company's Audit Committee.

The Audit Committee generally has responsibility for:

- appointing, overseeing, and determining the compensation of our independent registered public accounting firm;
- reviewing the plan and scope of the accountants' audit;
- reviewing our audit and internal control functions;
- approving all permitted non-audit services provided by our independent registered public accounting firm; and
- reporting to our full Board of Directors regarding all of the foregoing.

The Audit Committee meets with the independent registered public accounting firm and our management in connection with its review and approval of (i) the unaudited financial statements for inclusion in our Quarterly Reports on Form 10-Q and (ii) the annual audited financial statements for inclusion in our Annual Report on Form 10-K. Additionally, the Audit Committee provides our Board of Directors with such additional information and materials as it may deem necessary to make our Board of Directors aware of significant financial matters that require its attention. The Audit Committee held ten meetings and did not act by unanimous written consent during the year ended December 31, 2006. The Audit Committee's goals and responsibilities are set forth in a written Audit Committee charter, a copy of which can be found on the Company's website, www.tousa.com, under Investor Information Corporate Governance.

Table of Contents

Human Resources, Compensation, and Benefits Committee. The Human Resources, Compensation, and Benefits Committee consists of Messrs. Poulos and Horner, and Ms. Parks. The Human Resources, Compensation, and Benefits Committee has responsibility for (i) establishing the compensation and bonus plan for the Chief Executive Officer, (ii) establishing the compensation and bonus plan for other executives, and (iii) administering the Technical Olympic USA, Inc. Annual and Long-Term Incentive Plan and granting options and performance awards under that plan. In addition, the Human Resources, Compensation, and Benefits Committee has responsibility for matters of employee compensation and the granting of discretionary bonuses to our Chief Executive Officer and our other senior officers. The Human Resources, Compensation, and Benefits Committee held six meetings and acted by unanimous written consent on one occasion during the year ended December 31, 2006. The Human Resources, Compensation, and Benefits Committee operates under a written charter adopted by our Board of Directors, a copy of which can be found on the Company's website, www.tousa.com, under Investor Information Corporate Governance.

Independent Directors Committee and Senior Outside Director. The Independent Directors Committee consists of Messrs. Horner, Hasler, Poulos, and Whitworth, and Ms. Parks. Mr. Horner served as our senior outside director during fiscal year 2006 and has been designated our senior outside director for fiscal year 2007. As our senior outside director, Mr. Horner presides over the regularly scheduled executive sessions of our independent directors.

The Independent Directors Committee generally has responsibility for considering and acting on any proposed transaction that would be considered a related party transaction, including but not limited to any proposed transaction (i) between us and TOSA or any affiliate of TOSA, and (ii) by any affiliate which may affect or involve us and in which one or more of our directors may have an actual or perceived interest in the transaction. The Independent Directors Committee also has responsibility for considering and acting upon any other matters that require the review and/or approval of our independent directors.

The Independent Directors Committee acted by unanimous written consent on three occasions and held no meetings during the year ended December 31, 2006. The Independent Directors Committee operates under a written charter adopted by our Board of Directors, a copy of which can be found on the Company's website, www.tousa.com, under Investor Information Corporate Governance.

In addition, the Independent Directors Committee solicits, considers, and nominates candidates to serve on our Board of Directors. The Independent Directors Committee considers possible candidates from many sources, including stockholders, for nominees for directors. In evaluating the qualifications of nominees for our Board of Directors, including nominees recommended by stockholders, the Independent Directors Committee evaluates a variety of factors, such as education, work experience, knowledge of the Company's industry, membership on the boards of directors of other corporations, and civic involvement. In addition, if a candidate is being considered for an independent director position, the Independent Directors Committee also evaluates the nominee's independence from the Company based on applicable securities laws and the NYSE's corporate governance standards.

If a stockholder wishes to recommend a nominee for director for consideration at our 2008 Annual Meeting, the recommendation should be sent to the Secretary by December 21, 2007 in accordance with the instructions set forth later in this proxy statement under Stockholder Proposals for 2008 Annual Meeting. All recommendations should be accompanied by a complete statement of such person's qualifications (including education, work experience, knowledge of the Company's industry, membership on the board of directors of another corporation, and civic activity) and an indication of the person's willingness to serve.

You may communicate with the independent directors of the Board through the Senior Outside Director by sending a letter marked Confidential and addressed to:

You may also send an email to the Senior Outside Director through TOUSA's Executive Vice President and Chief of Staff at pberkowitz@tousa.com by indicating "Senior Outside Director" in the subject line. The Executive Vice President and Chief of Staff will forward these emails to the Senior Outside Director.

Board Executive Committee. The members of the Board Executive Committee are Messrs. Horner, Mon, McAden, George Stengos, and Andreas Stengos. The Board Executive Committee has authority to consider and approve acquisitions, investments and other transactions by us or our subsidiaries for amounts not exceeding \$75 million, to the extent not considered and approved by our Board of Directors, and makes reports to our full Board of Directors. The Board Executive Committee held no meetings during the year ended December 31, 2006.

Family Relationships

Konstantinos Stengos is the father of Andreas Stengos, George Stengos, and Marianna Stengou. We have no other familial relationships among the executive officers and directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, executive officers, and persons who own more than 10% of our outstanding common stock to file with the Commission reports of changes in their ownership of common stock. Directors, officers, and greater than 10% stockholders are also required to furnish us with copies of all forms they file under this regulation. To our knowledge, based solely on a review of the copies of such reports furnished to us and representations that no other reports were required, during the year ended December 31, 2006, all Section 16(a) filing requirements applicable to our directors, officers, and greater than 10% stockholders were satisfied, except that a Form 4 for Mr. Michael Glass and a Form 3 for Mr. George Yeonas were inadvertently filed late.

Compensation Committee Interlocks and Insider Participation

Messrs. Poulos and Horner, and Ms. Parks comprised the Human Resources, Compensation, and Benefits Committee during the fiscal year 2006. None of these persons is currently serving or has previously served as an officer or employee of ours or any of our subsidiaries. There were no material transactions between us and any of the members of the Human Resources, Compensation, and Benefits Committee during fiscal year 2006.

Director Compensation

In compliance with our director compensation policy, during 2006 our outside directors (which we consider to be those directors who are not officers of the Company, TOSA, or their affiliates), other than the Senior Outside Director, received an annual fee of \$60,000, an annual equity award of either nonqualified stock options or restricted stock valued at \$60,000, and reimbursement of reasonable out-of-pocket expenses incurred for attendance at Board and Board committee meetings. Under our policy, Mr. Horner, our designated Senior Outside Director for 2006, received an annual cash retainer of \$120,000, an annual equity award of either nonqualified stock options or restricted stock valued at \$120,000, and reimbursement of reasonable out-of-pocket expenses incurred for attendance at Board and Board Committee meetings. Mr. Horner has been designated our Senior Outside Director for fiscal year 2007. As chairperson of the Audit Committee for 2006, Mr. Hasler received an additional annual fee of \$20,000, and as chairperson of the Human Resources, Compensation, and Benefits Committee for 2006, Mr. Poulos received an additional annual fee of \$10,000. Directors who also served as officers of the Company, TOSA, or their affiliates did not receive any additional compensation for their services as directors during 2006. The Company owns and maintains a condominium and leases a car in Miami, Florida for the exclusive use of the members of the Board of Directors of the Company. The aggregate incremental cost to the Company in 2006 of providing this condominium and car was

approximately \$41,257.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy

Guiding Principles. Our compensation philosophy was developed to balance and align the goals of stockholders and executive management. Because a given year's results are seldom the immediate or sole consequence of executive actions taken in that year, the committee pursues a compensation policy that recognizes efforts, results, and responsibilities over a longer time horizon. In administering compensation policy, the Committee establishes executive officers base salaries and variable compensation, consisting of cash bonuses and various types of longer-term incentives. The Committee's decision making process encompasses three underlying principles:

compensation should be adequate to attract and retain qualified associates,

compensation paid to such associates should be based on their individual duties and responsibilities and their relative contribution to overall results, and

compensation should reflect remuneration levels for comparable positions inside and outside the organization. The Committee reviews the Company's compensation policies at least annually with its overall review of executive compensation.

Our program is intended to attract, motivate, reward and retain the management talent required to achieve our Corporate objectives and increase stockholder value. We analyze our competitors' compensation principles. Our philosophy is that we need to pay our senior associates between the mean and 75th percentile in order to retain the senior associates in light of intense competition for senior managers in the homebuilding industry. Our compensation philosophy puts a strong emphasis on pay for performance to correlate the long-term growth of stockholder value with management's most significant compensation opportunities. In addition, we support a performance oriented environment that rewards achievement of both our internal goals and enhanced Company performance as measured against performance levels of comparable companies in the industry. Finally, we believe that the Company must have the flexibility to deal with market conditions which are outside the control of management and to establish a compensation program designed to attract, motivate and retain executive officers, particularly in light of the challenges currently facing the homebuilding industry.

The four primary components of compensation for our senior executives are base salary, annual cash incentive bonus, performance unit program, and a stock option and restricted stock plan.

The relative weighting of the four components is designed to strongly reward long-term performance. Base pay is targeted at or below median market levels and typically represents (12% to 15%) of total compensation. The annual cash incentive component is targeted at the 60th percentile of our peer group and depends on the achievement of annual performance objectives that are established in advance of the performance year being measured. If performance objectives are met, this component would represent approximately (20% to 30%) of total compensation. Finally, the long-term equity component is (55% to 60%) of total annual compensation and represents an opportunity to earn value in future years for our most senior executives, but only to the extent there is long-term growth in stockholder value through stock appreciation.

The long-term component of compensation has historically most often been provided in the form of stock options that vest ratably over three to five years. The Compensation Committee has used stock options, rather than other forms of long-term incentives, because they create value for the executive only if stockholder value is increased through an

increased share price. We believe this creates strong alignment between the interests of management and stockholders. We also believe stock options help us attract and retain talented executives.

Determination of Compensation. Our Compensation Committee is composed entirely of independent outside directors and is responsible for setting our compensation policy. The Compensation Committee also has responsibility for setting each component of compensation for the chief executive officer with the assistance and guidance of an independent professional compensation advisor. The Compensation Committee is also responsible for setting the total compensation of members of the Board of Directors. The chief executive officer and the vice president of human resources, develop initial recommendations for all

Table of Contents

components of compensation for the direct reports of the chief executive officer and presented their recommendations to the Compensation Committee for review and approval. Mr. Mon presents an evaluation of the executive officers who report directly to him to the Committee. The evaluation was based on performance by each of the executive officers against certain criteria. A primary measure was financial performance as against budget. Review of performance with respect to our strategic plans was also considered. Rather than employing strictly formulaic approaches, these factors were considered as a whole to determine compensation.

The Compensation Committee desires to establish appropriate incentives for management to achieve excellence in financial performance. While the primary performance measure under our Long-Term Incentive Plan (the LTIP) is our net income, the Compensation Committee also sets earnings per share (EPS) objectives at the beginning of the performance year for expected performance. In determining actual annual cash bonuses, the Compensation Committee considers the EPS growth of the peer group of homebuilders relative to our EPS growth, and makes adjustments in the actual incentive payment amounts under the LTIP to reflect our actual performance relative to peer companies. The expectation is that material weight should be given to performance relative to peers, in part to neutralize positive or negative factors that are outside the control of management.

Policies for Equity Award Grants. The annual long-term equity awards have historically been made once a year at the February meeting of the Compensation Committee. The grants are made with an exercise price equal to the closing market price of our common stock on the date of grant.

Delegated authority may not be used to make grants to anyone who is an officer described in Section 16 of the Securities Exchange Act or who is a covered executive under Section 162(m) of the Internal Revenue Code, as amended. Those grants must be, and are, made by the Compensation Committee at a regularly scheduled or special meeting.

The Compensation Committee has maintained a consistent policy against repricing stock options. Stock options, are a critical component of our compensation strategy and our goals of aligning management's interests with those of shareholders.

Tax Deductibility of Pay. Under Section 162(m) of the Internal Revenue Code, compensation in excess of \$1 million that is not paid pursuant to a plan approved by stockholders and does not satisfy the performance-based exception of Section 162(m) is not deductible as a compensation expense by us. Compensation decisions for the executive officers are made with full consideration of the implications of Section 162(m). Although the Compensation Committee intends to structure arrangements in a manner that preserves deductibility under Section 162(m), it believes that maintaining flexibility is important and reserves the right to pay amounts or make awards that are nondeductible. The LTIP and the Amended and Restated Annual and Long-Term Incentive Plan were approved by our stockholders and include the provisions necessary to make payments and grant awards that satisfy the performance-based exception under Section 162(m). Annual incentive bonuses under the LTIP and stock option awards granted under the 2001 Stock Incentive Plan are intended to meet the performance-based exception under Section 162(m).

Recoupment of Annual Incentives. The Compensation Committee will evaluate the facts and circumstances surrounding any restatement of earnings (should one occur) and, in its sole discretion, may accordingly adjust compensation of the chief executive officer and others as it deems appropriate, especially related to annual cash incentive awards.

Components of Our Compensation Program

Base Pay. The base pay component of total compensation is paid in cash on a semi-monthly basis. The levels of base salaries are generally targeted at or below the median level of the peer group, typically around the 45th percentile. The

individual's relative position of the median pay level is based on a variety of factors, including experience and tenure in a position, scope of responsibilities, individual performance and personal contributions to corporate performance. Annual increases, if any, are based on these same factors. Highly experienced and long-tenured executives would not typically receive an increase in base pay each year. The median pay levels are determined from survey information provided by nationally recognized consulting firms

Table of Contents

that gather compensation data from many companies. The specific companies included in the peer group listed above.

Cash Incentive Bonus. The Human Resources, Compensation, and Benefits Committee evaluated and approved bonuses with respect to 2006 performance for our senior officers. The bonus formulas contained in the employment agreements of the Company's senior officers are designed to reward personal contribution and performance, measured by reference to performance measures tailored to the particular responsibilities of the specific senior officer, such as achievement of specified targets for return on equity, Company net income, regional/divisional profit goals, regional/divisional contribution targets, customer service rankings, and/or overall performance. In the budgeting process, a profit goal or regional contribution target is set for each division and region, and minimum threshold performance criteria for regional and divisional officers must be reached before any bonus awards will be granted. In addition, the individual performance of each senior officer and/or any extraordinary or unusual circumstances or events are taken into consideration in making bonus awards. As a result, the Human Resources, Compensation, and Benefits Committee has the discretion to and does, from time to time, grant discretionary bonuses in excess of the amounts resulting from the bonus formulas contained in the relevant employment agreements for the Company's senior officers.

Performance Unit Program Awards. In February 2005, the Human Resources, Compensation, and Benefits Committee made grants of performance units under the Company's Performance Unit Program (PUP) to various officers and other employees of the Company. The performance units are payable in cash and vest at the end of a specified three-year vesting period based upon the Company's achievement of return on equity and cumulative earnings targets approved by the Human Resources, Compensation, and Benefits Committee. Performance units granted to officers and employees who resign or whose employment is terminated other than for cause, and who have been employed for two years during the applicable vesting period, are entitled to a pro rata portion of the value of their performance units, paid in accordance with the standard payout schedule described below. The value of a performance unit equals the appreciation of one share of Company stock from the beginning to the end of the vesting period, and may be increased based upon the extent to which the relevant return on equity and cumulative earnings targets are exceeded. Under the PUP, the value of one share of the Company's common stock on any given date equals the weighted average stock price (based on trading volume) of one share of the Company's common stock during the 90 days prior to and including the date for which the value is being calculated. Once vested, the performance units are paid in two equal annual installments on each March 31 following the end of the three year vesting period. Outstanding performance unit awards are subject to adjustment in the event of stock splits or stock dividends, extraordinary cash dividends or other similar events. The performance units granted to officers and employees with corporate responsibilities (including all of the Named Executive Officers) vest immediately upon the occurrence of a change of control of the Company.

The following table provides information regarding the performance units granted to our named Executive Officers during the year ended December 31, 2005 and the vesting period of the performance units. The estimated future payouts of the performance units upon the completion of the vesting period cannot presently be determined as it is based on our stock price.

The Plan is intended to promote the interests of the Company by encouraging more senior associates to acquire or increase their equity interest in the Company and to provide a means whereby they may develop a sense of ownership and personal involvement in the development and financial success of the Company, and to encourage them to remain with and devote their best efforts to the Company's business, thereby advancing the interests of the Company and its stockholders. The Plan is used on a limited basis to attract and retain more senior associates. Options were awarded to Antonio B. Mon during 2006. As of December 31, 2006, 7,712,569 options were outstanding under the Plan, and 55,495 shares of Restricted Stock had been granted under the Plan.

Executive Savings Plan. Effective December 1, 2004, the Company implemented the Technical Olympic USA, Inc. Executive Savings Plan (the Savings Plan). The Savings Plan allows a select group of management or highly compensated employees of the Company or certain of the Company's subsidiaries to elect to defer up to 90% of their salary and up to 100% of their bonus. The Company credits an amount equal to the compensation deferred by a participant to that participant's deferral account under the Savings Plan. Each participant's deferral account is credited with income, gains and losses based on the performance of investment funds selected by the participant from a list of funds designated by the Company. Participants are at all times 100% vested in the amounts that they choose to defer under the Savings Plan. The deferred compensation credited to a participant's account is payable in cash, commencing upon a date specified in advance by the participant pursuant to the terms of the Savings Plan or, if earlier, the termination of the participant's employment with the Company or its subsidiary, subject to certain provisions allowing accelerated distributions in the event of disability, certain changes of control of the Company and/or unforeseeable emergencies. The Company does not make any contributions under the Savings Plan and may terminate the Savings Plan and discontinue any further deferrals under the Savings Plan at any time. The obligation to make distributions from participant accounts under the Savings Plan is an unsecured, general obligation of the Company.

Health and Insurance Plans. The Named Executive Officers are eligible to participate in company-sponsored benefit programs on the same terms and conditions as those made available to salaried associates generally. Basic health benefits, life insurance, disability benefits and similar programs are provided to ensure that associates have access to healthcare and income protections for themselves and their family members. Under TOUSA's medical plans, higher paid associates are required to pay a significantly higher amount of the total premiums, while the premiums paid by lower paid associates receive a higher subsidy from TOUSA.

The following tables present certain summary information concerning compensation earned for services rendered by (i) our Chief Executive Officer, Chief Financial Officer and our other three most highly compensated executive officers whose total annual salary and bonus in 2006 exceeded \$100,000 during the

Employment Agreements

Antonio B. Mon

Effective July 26, 2003, Antonio B. Mon and the Company entered into an Amended and Restated Employment Agreement with a term ending on December 31, 2008. Pursuant to that agreement, Mr. Mon serves as our Chief Executive Officer, President, and Executive Vice Chairman, as well as one of our directors. The agreement provides that Mr. Mon will receive an initial base salary of \$968,000 with annual increases of a minimum of 10% per year until the agreement expires or is terminated. Mr. Mon is also entitled to an annual bonus, based upon the extent to which the Company's meets and/or exceeds specified adjusted net income and

return on equity targets. The employment agreement also allows Mr. Mon to use a corporate automobile and a corporate apartment located in Fort Lauderdale, Florida, and grants Mr. Mon the option to purchase such apartment at the Company's original cost upon the termination, for any reason, of his employment with the Company. In addition, Mr. Mon receives on an annual basis a bonus equal to One Million Dollars (\$1,000,000), payable not less than monthly during the year in accordance with TOUSA's regular payroll practices.

On January 13, 2006, Mr. Mon's employment agreement was amended (the "Amendment") to replace the provisions in Mr. Mon's then-existing employment agreement that granted Mr. Mon the right to receive an equity incentive compensation grant in each of 2007 and 2008 in an amount equal to one percent (1%) of the Company's then outstanding shares on a fully-diluted basis. Although the form of the equity incentive compensation was to be mutually agreed upon by Mr. Mon and the Company, the employment agreement provided that the equity incentive compensation grant was to be the economic equivalent of options to purchase shares of the Company's common stock with exercise prices (subject to specified adjustments) of \$16.23 for the 2007 grant and \$17.85 for the 2008 grant, vesting one year from the grant date and exercisable for ten years. If the equity incentive compensation contemplated in Mr. Mon's employment agreement were granted in the form of stock options having the terms described above, the Company's ability to deduct the compensation expense associated with such equity incentive compensation could be limited by the provisions of Section 162(m) of the Internal Revenue Code ("Code").

In order to avoid the potential for a loss of deductibility to the Company, and to address the impact of the provisions of Section 409A of the Code (which was adopted subsequent to the Company's agreement to make the equity incentive compensation grants described above), the Amendment provides that in lieu of the foregoing equity incentive compensation, the Company granted Mr. Mon an option to purchase 1,323,940 shares of the Company's common stock (which equals approximately 2% of the Company's outstanding common stock on a fully-diluted basis as of December 31, 2005) (the "2006 Option Grant"). The Company also agreed to pay Mr. Mon an additional cash bonus for 2006 of \$8,711,525 (the "Additional 2006 Bonus") upon satisfaction of certain criteria intended to satisfy the requirements of Section 162(m) of the Code. The criteria were not met and the payment was not made. The options have an exercise price of \$23.62 per share (which was the closing price of a share of the Company's common stock on the New York Stock Exchange on January 13, 2006) and vest in equal installments on December 31, 2007 and December 31, 2008, subject to acceleration in the event that Mr. Mon is terminated by the Company for any reason other than cause or if Mr. Mon terminates his employment for good reason. The options are exercisable for ten years from the date of vesting.

John Kraynick

On January 13, 2006, the Company entered into a new employment agreement with John Kraynick pursuant to which he serves as Senior Vice-President of Land for the Company's homebuilding operations. The agreement initially expires on December 31, 2008, but is subject to automatic one year renewals thereafter unless either party gives six month notice of its intent not to renew. Pursuant to the agreement, Mr. Kraynick is entitled to receive an initial annual base salary of \$500,000, subject to adjustment in subsequent years based on Mr. Kraynick's performance, Company operating results and industry practices, and is eligible to earn an annual performance-based bonus, calculated as described below. Mr. Kraynick also receives an additional annual bonus of \$1.5 million.

Pursuant to a November 7, 2006 amendment, Mr. Kraynick received a bonus for 2006 in the amount of \$2,400,000 of which \$320,000 was paid in 2007. For 2007, Mr. Kraynick will receive bonus payments equal to the greater of that paid in 2006, or a bonus earned as a result of meeting certain quantitative and qualitative performance criteria.

Achieving each goal entitles Mr. Kraynick to \$600,000. He is also to receive a bonus of 0.1% of TOUSA's pretax earnings.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**Management Services Agreement**

In June 2003, we entered into an Amended and Restated Management Services Agreement with TOI, our former parent company, and in connection with an October 2003 restructuring transaction, TOI assigned its obligations and rights under the Amended and Restated Management Services Agreement to TOSI, a Delaware corporation wholly owned by TOSA. Under the Amended and Restated Management Services Agreement, TOSI provided consultation with and assistance to our Board of Directors and management in connection with issues involving our business, as well as other services requested from time to time by our Board of Directors. In consideration for providing such services, the agreement requires us to pay TOSI an annual management fee of \$500,000 and, to the extent our net income for any fiscal year meets established targets, additional annual incentive fees, which may not exceed \$3.0 million. Pursuant to the agreement, we have agreed to indemnify TOSI for any liability incurred by it as a result of the performance of its duties other than any liability resulting from TOSI's gross negligence or willful misconduct. We may terminate the agreement upon six months prior written notice. For the year ended December 31, 2006, we have made payments of \$3.5 million to TOSI under this agreement. The agreement expires on December 31, 2007.

Purchasing Agreements

In order to consolidate the purchasing function, we and our subsidiary TOUSA Homes, Inc. entered into non-exclusive purchasing agreements with TOSA in November 2000. Under the purchasing agreements, TOSA would purchase certain materials and supplies necessary for operations on our respective behalves and provide them to us at cost. No additional fees or other consideration are paid to TOSA. These agreements may be terminated upon 60 days prior notice. TOSA purchased an aggregate of \$366.9 million of materials and supplies on our behalf for the year ended December 31, 2006.

Certain Land Bank Transactions

We have sold certain undeveloped real estate parcels to, and entered into a number of agreements (including option contracts and construction contracts) with, Equity Investments LLC, a limited liability company controlled by Alec Engelstein, Harry Engelstein's brother. We made payments of \$15.1 million to Equity Investments LLC pursuant to these agreements during the year ended December 31, 2006, and, as of December 31, 2006, had options to purchase from Equity Investments LLC additional lots for a total aggregate

Table of Contents

sum of approximately \$30.8 million. We believe that the terms of these various agreements approximate those that we would have received in transactions with unrelated third parties.

Other Transactions

During 2006, Design Center, Inc. has provided the Company with materials and interior design services for our model homes at a cost of \$505,124. The owner of Design Center, Inc. is the daughter of the Chairman of TOUSA Homes, Inc., a subsidiary of the Company. We believe that all transactions with Design Center, Inc. have been on reasonable commercial terms.

In connection with making any pre-approval decision, the Audit Committee and the Chairman must consider whether the provision of such permitted non-audit services by Ernst & Young LLP is consistent with maintaining Ernst & Young's status as our independent registered public accounting firm.

Consistent with these policies and procedures, the Audit Committee approved all of the services rendered by Ernst & Young LLP during fiscal year 2006, as described above.

PROPOSAL 3

STOCKHOLDER PROPOSAL: PAY-FOR-SUPERIOR-PERFORMANCE PROPOSAL

The Central Laborers' Pension, Welfare & Annuity Funds, P.O. Box 1267, Jacksonville, IL 62651, the beneficial owner of 19,210 shares of common stock has indicated it will present a proposal for action at the 2007 Annual Meeting as follows:

PAY-FOR-SUPERIOR-PERFORMANCE PROPOSAL

Resolved, that the shareholders of the Technical Olympic USA, Inc. ("Company") request that the Board of Directors Executive Compensation Committee establish a pay-for-superior-performance standard in the Company's executive compensation plan for senior executives ("Plan"), by incorporating the following principles into the Plan:

1. The annual incentive or bonus component of the Plan should utilize defined financial performance criteria that can be benchmarked against a disclosed peer group of companies, and provide that an annual bonus is awarded only when the Company's performance exceeds its peers' median or mean performance on the selected financial criteria;
2. The long-term compensation component of the Plan should utilize defined financial and/or stock price performance criteria that can be benchmarked against a disclosed peer group of companies. Options, restricted shares, or other equity or non-equity compensation is received only when the Company's performance exceeds its peers' median or mean performance on the selected financial and stock price performance criteria; and
3. Plan disclosure should be sufficient to allow shareholders to determine and monitor the pay and performance correlation established in the Plan.

Supporting Statement: We feel it is imperative that compensation plans for senior executives be designed and implemented to promote long-term corporate value. A critical design feature of a well-conceived executive compensation plan is a close correlation between the level of pay and the level of corporate performance relative to industry peers. We believe the failure to tie executive compensation to superior corporate performance; that is, performance exceeding peer group performance, has fueled the escalation of executive compensation and detracted from the goal of enhancing long-term corporate value.

We believe that common compensation practices have contributed to excessive executive compensation. Compensation committees typically target senior executive total compensation at the median level of a selected peer group, then they design any annual and long-term incentive plan performance criteria and benchmarks to deliver a significant portion of the total compensation target regardless of the company's performance relative to its peers. High total compensation targets combined with less than rigorous performance benchmarks yield a pattern of superior-pay-for-average-performance. The problem is exacerbated when companies include annual bonus payments among earnings used to calculate supplemental executive retirement plan (SERP) benefit levels, guaranteeing excessive levels of lifetime income through inflated pension payments.

We believe the Company's Plan fails to promote the pay-for-superior-performance principle. Our Proposal offers a straightforward solution: The Compensation Committee should establish and disclose financial and stock price performance criteria and set peer group-related performance benchmarks that permit awards or payouts in its annual and long-term incentive compensation plans only when the Company's performance exceeds the median of its peer group. A senior executive compensation plan based on sound pay-for-superior-performance principles will help

moderate excessive executive compensation and create competitive compensation incentives that will focus senior executives on building sustainable long-term corporate value.

**STATEMENT OF THE BOARD OF DIRECTORS IN OPPOSITION
TO THE STOCKHOLDER PROPOSAL**

Your Board of Directors believes that the proposal is contrary to the interests of the Company and our stockholders and, accordingly, is recommending that our stockholders vote AGAINST the proposal for the following reasons:

After careful consideration, the Board believes that this proposal is not in the best interests of TOUSA or its stockholders. First, we believe that the Company appropriately benchmarks executive compensation.

The Board and the Human Resources, Compensation and Benefits Committee (the Committee) strongly support the concept of performance-based executive compensation and have designed a compensation program that ties a significant portion of senior executives' compensation to Company performance and personal achievement of challenging performance goals. Second, we believe that the Committee requires flexibility to assign different performance metrics to different types of compensation. Third, we believe the proposal fails to consider the many factors relevant to evaluating the Company's performance along with the performance reported by peer companies. Finally, we believe that implementation of the proposal would severely limit the Committee's flexibility to establish a compensation program reasonably designed to attract, motivate and retain executive officers, particularly in light of the challenges currently facing the homebuilding industry.

TOUSA's Benchmarks Executive Compensation

As set forth in the Compensation Discussion and Analysis, the Company emphasizes a pay for performance philosophy, and the Committee already utilizes industry surveys in which all of our peer group participates.

In relation to the peer group, TOUSA is between the median and 75th percentile in terms of revenues and below the 25th percentile in terms of market capitalization. In addition to benchmarking against this peer group, the Committee evaluates executive compensation by reviewing national surveys that cover a broader group of companies.

Different Metrics Apply to Different Forms of Compensation

In addition to using external benchmarks, the Committee also considers different performance metrics for different types of compensation. For example, in the case of annual incentive compensation, the Committee measures performance based on specific annual targets for revenue growth, operating income and cash flow. The Committee does not believe that a measure based on performance against a peer group of companies is suitable for short-term incentives because stockholder value tends to accumulate over time and a single year's performance may be heavily affected by volatility in that year that is averaged out during a multi-year period.

As an executive officer's level of responsibility increases, it is the intent of the Committee to have a greater portion of the executive officer's total compensation be dependent upon Company performance and stock price appreciation rather than base salary.

Performance may not be Comparable

The Committee also believes that mere mathematical averages may not be sufficient to ascertain performance versus a peer group. Extraordinary or non-recurring items incurred by one company may cause financial performance to appear better or worse than it actually is compared to that of another company. Limiting the receipt of cash or equity compensation only to those situations where performance exceeds the median or mean performance of a selected group of peer companies is arbitrary and may result in situations where executives are unnecessarily penalized, rather than rewarded, for their efforts or vice versa. In fiscal 2007, the Committee is currently evaluating the appropriate

performance metrics.

Total compensation must be competitive to attract the best talent to TOUSA; motivate employees to perform at their highest levels; reward outstanding achievement; and retain those individuals with the leadership abilities and skills necessary for building long-term stockholder value. Senior executives are

Table of Contents

effectively motivated when their performance-based compensation is directly tied to TOUSA's performance and not to the performance of peer companies over which TOUSA's senior executive have no control. Compensation plans that would pay nothing for outstanding performance that merely matched the performance of TOUSA's peer companies would not accomplish these purposes. Furthermore, the Board does not agree that executives should be awarded an incentive bonus solely because certain financial measures of the Company exceed peer group performance. Conversely, executives may be doing an extraordinary job in the face of unique business challenges, but still not succeed in lifting the Company's performance above the peer group average. Under incentive compensation indexed to peer group performance, such extra ordinary performance would not be recognized. Moreover, peer group performance can be impacted by many factors that may not provide comparability, possibly leading to inequitable consequences.

The Company believes that linking performance goals to its own planning process, as opposed to the financial performance of peers, is the best way to execute on its business strategy to maximize stockholder value. Since at any point in time peer companies can be in difference circumstances from the Company or seeking to implement different strategies, linking incentives only to a comparison against peer performance on various measures could have unintended and unwanted consequences. For example, at a time when one or more large peer companies are facing challenges unique to them, the Company might outperform its peers yet not deliver on its own targets for growth and profitability. The Committee would not want to reward senior executives under such circumstances and believes that the better course is for the Company, under the oversight of the Board, to set the right business goals for itself, and then to align senior executive compensation with performance against those goals.

The Human Resources, Compensation and Benefits Committee Actively Exercises its Responsibility for Establishing Executive Officer Compensation

The Committee is responsible for discharging the Board's responsibilities relating to the compensation of executive officers and analyzes each element of compensation separately—whether salary, benefits, or long- or short-term incentives—as well as in the aggregate as part of a total compensation package.

The Committee is composed entirely of independent directors and devotes substantial time and attention throughout the year to executive compensation matters, including periodic reviews with independent third party consultants, to align compensation with stockholder interest and to further corporate goals and strategy. The independent directors need discretion to be able to perform their role effectively. The Proposal would put an undue constraint on the independent directors' ability to exercise judgment and would place the Company at a competitive disadvantage.

Total compensation must be competitive to attract the best talent to TOUSA, motivate associates to perform at their highest levels, reward outstanding achievement and retain those individuals with the leadership abilities and skills necessary for growing the Company. The Committee has demonstrated its willingness to adapt its compensation programs, having first introduced performance-vesting participation units in fiscal 2005 and now adopting a total stockholder return measure in fiscal 2007. The proposal, on the other hand, would apply a one-size-fits-all approach to all components of incentive compensation and would deprive the Committee of the flexibility it needs and has demonstrated that it will apply to determine what are the appropriate metrics to be applied to each of the various elements of executive compensation.

Conclusion

In the highly-competitive homebuilding industry and particularly during a downturn in that industry, the Board believes that TOUSA's current short-and long-term compensation programs work well in motivating, attracting, and retaining talent, including executive officers. The Board believes that it is in the best interests of stockholders to provide the Company with the flexibility and discretion to use performance-based and other incentive compensation

tools as appropriate based on the circumstances and information available at the time. For these reasons, the Board believes that the adoption of the stockholder proposal is both unnecessary and detrimental to the long-term interests of the Company's stockholders.
