**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**  
CB BANCSHARES, INC. AND SUBSIDIARIES**NOTE A Summary of Significant Accounting Policies****CONSOLIDATION**

The consolidated financial statements include the accounts of CB Bancshares, Inc. (the Parent Company ) and its wholly-owned subsidiaries (the Company ): City Bank and its wholly-owned subsidiaries (the Bank ); Datatronix Financial Services, Inc.; and O.R.E., Inc. Significant intercompany transactions and balances have been eliminated in consolidation. The Bank owns 50% of Pacific Access Mortgage, LLC, a mortgage brokerage company. The investment is accounted for using the equity method. The consolidated financial statements include all adjustments of a normal and recurring nature, which are, in the opinion of management, necessary for a fair presentation of the financial results for the interim periods.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and footnotes normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States of America. Accordingly, these consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s Form 10-K for the year ended December 31, 2001.

Results of operations for interim periods are not necessarily indicative of results for the full year.

**RECLASSIFICATIONS**

Certain amounts in the consolidated financial statements for 2001 have been reclassified to conform with the 2002 presentation. Such reclassifications had no effect on the consolidated net income as previously reported.

**Table of Contents**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Management's Discussion and Analysis of Financial Condition and Results of Operations contain statements relating to future results of the Company (including certain projections and business trends) that are considered forward-looking statements. Actual results may differ materially from those projected as a result of certain risks and uncertainties including, but not limited to, changes in political and economic conditions, interest rate fluctuations, competitive product and pricing pressures within the Company's market, equity and bond market fluctuations, personal and corporate customers' bankruptcies and financial condition, inflation and results of litigation. Accordingly, historical performance, as well as reasonably applied projections and assumptions, may not be a reliable indicator of future earnings due to risks and uncertainties.

As circumstances, conditions or events change that affect the Company's assumptions and projections on which any of the statements are based, the Company disclaims any obligation to issue any update or revision to any forward-looking statement contained herein.

**CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Management's discussion and analysis of its financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, the Company evaluates its estimates, including those related to its investments, loans and allowance for credit losses, intangible assets, income taxes, contingencies, and litigation. The Company bases its estimates on current market conditions, historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The Company believes the following critical accounting policies require significant judgments and estimates used in the preparation of its consolidated financial statements.

**Allowance for Credit Losses.** The allowance for credit losses is periodically evaluated for adequacy by management. Factors considered include the Company's loan loss experience, known and inherent risks in the portfolio, current economic conditions, known adverse situations that may affect the borrower's ability to repay, regulatory policies, and the estimated value of underlying collateral. The evaluation of the adequacy of the allowance is based on the above factors along with prevailing and anticipated economic conditions that may impact borrowers' ability to repay loans. Determination of the allowance is in part objective and in part a subjective judgment by management given the information it currently has in its possession. Adverse changes in any of these factors or the discovery of new adverse information could result in higher charge-offs and loan loss provisions.

**Impairment of Investments.** The realization of the Company's investment in certain mortgage/asset-backed securities and collateralized loan and bond obligations is dependent on the credit quality of the underlying borrowers and yields demanded by the marketplace. Increases

**Table of Contents**

in market interest rates and deteriorating credit quality of the underlying borrowers because of adverse conditions may result in additional losses. The Company records an investment impairment charge when it believes an investment has experienced a decline in value that is other than temporary. Future adverse changes in market conditions or poor operating results of underlying investments could result in losses or an inability to recover the carrying value of the investments that may not be reflected in an investment's current carrying value, thereby possibly requiring an impairment charge in the future. Since several of these investments do not have a liquid trading market, management's estimate of value is based upon estimates of future returns that may or may not actually be realized. Accordingly, under different assumptions, the value could be adversely affected.

**Deferred Tax Assets.** The Company records a valuation allowance to reduce its deferred tax assets to the amount that it believes is more likely than not to be realized. This requires an objective as well as a subjective judgment by management. While the Company has considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance, in the event the Company were to determine that it would be able to realize its deferred tax assets in the future in excess of its net recorded amount, an adjustment to the deferred tax asset would increase income in the period such determination was made. Likewise, should the Company determine that it would not be able to realize all or part of its net deferred tax asset in the future, an adjustment to the deferred tax asset would be charged to income in the period such determination was made.

**NET INCOME**

Consolidated net income for the quarter ended June 30, 2002, totaled \$3.6 million, an increase of \$481,000, or 15.3%, over the same quarter last year. Consolidated net income for the six months ended June 30, 2002, totaled \$7.2 million, an increase of \$1.2 million, or 20.5%, over the same period in 2001. Diluted earnings per share for the second quarter of 2002 was \$0.92 as compared to \$0.81 for the same period in 2001, an increase of \$0.11, or 13.6%. For the six months ended June 30, 2002, diluted earnings per share was \$1.83, an increase of \$0.30, or 19.6%, over the same period in 2001. The increase in consolidated net income for the quarter and six months ended June 30, 2002, over the corresponding periods in 2001, was primarily due to an increase in net interest income and noninterest income, partially offset by increases in the provision for credit losses and noninterest expense.

The Company's annualized return on average total assets for the six months ended June 30, 2002 was 0.93% as compared to 0.70% for the same period last year. The Company's annualized return on average stockholders' equity was 10.31% for the six months ended June 30, 2002, as compared to 9.46% for the same period last year.

**NET INTEREST INCOME**

Net interest income, on a taxable equivalent basis, was \$19.2 million for the quarter ended June 30, 2002, an increase of \$1.9 million, or 10.8%, over the same period in 2001. The increase in net interest income was primarily due to a \$172.4 million decrease in average interest-bearing liabilities and an 88 basis point increase in the net interest margin. For the quarter ended June 30, 2002, the Company's net interest margin was 5.23%, as compared to 4.35% for the same period in 2001.

**Table of Contents**

Net interest income, on a taxable equivalent basis, was \$38.9 million for the six months ended June 30, 2002, an increase of \$5.5 million, or 16.5%, over the same period in 2001. The increase was primarily due to a \$184.9 million, or 12.9%, decrease in average interest-bearing liabilities and a 116 basis point increase in the net interest margin. For the six months ended June 30, 2002, the Company's net interest margin was 5.31%, as compared to 4.15% for the same period in 2001.

**Table of Contents**

Nonperforming loans at June 30, 2002 totaled \$15.5 million, a decrease of \$1.9 million, or 10.7%, as compared to June 30, 2001. The decrease in nonperforming loans was primarily due to a \$3.2 million decrease in the commercial loan category, partially offset by a \$1.3 million increase in total real estate loans.

Other real estate owned was \$3.2 million at June 30, 2002, an increase of \$148,000, or 4.8%, from June 30, 2001.

Restructured loans were \$9.4 million at June 30, 2002, a decrease of \$5.0 million, or 34.7%, from June 30, 2001. The decrease was primarily due to the chargeoff of certain commercial loans and reclassification of residential real estate loans to nonperforming loans.

The Company's future levels of nonperforming loans will be reflective of Hawaii's economy and the financial condition of its customers.

**PROVISION AND ALLOWANCE FOR CREDIT LOSSES**

The provision for credit losses is based upon management's judgment as to the adequacy of the allowance for credit losses (the Allowance) to absorb future losses. The Company uses a systematic methodology to determine the adequacy of the Allowance and related provision for credit losses to be reported for financial statement purposes. The determination of the adequacy of the Allowance is ultimately one of management's judgment, which includes consideration of many factors, including, among other things, the amount of problem and potential problem loans, net charge-off experience, changes in the composition of the loan portfolio by type and geographic location of loans and in overall loan risk profile and quality, general economic factors and the fair value of collateral.

**Table of Contents**

**Table of Contents**

The provision for credit losses was \$4.1 million for the second quarter of 2002, an increase of \$1.8 million, or 80.6%, over the same quarter last year. For the six months ended June 30, 2002, the provision for loan losses was \$9.0 million, an increase of \$3.9 million, or 78.6%, over the same period last year. The increase in the provision for credit losses in 2002 was primarily due to the Company's quarterly review of specific credits and the resulting impact of the continuing economic uncertainty, both locally and nationally.

The Allowance at June 30, 2002 was \$25.4 million and represented 2.26% of total loans. The corresponding ratios at December 31, 2001 and June 30, 2001 were 1.57% and 1.37%, respectively.

Net charge-offs were \$3.0 million for the first six months of 2002, a decrease of \$1.6 million, or 34.7%, over the same period in 2001. The decrease was primarily due to lower charge-offs in the commercial loan categories, which decreased \$715,000. The decrease in the commercial loan category was primarily due to the charge-off of three commercial loans totaling \$3.0 million during the first quarter of 2001. Such amounts were previously provided for in the Allowance.

The Allowance increased to 1.64 times nonperforming loans (excluding 90 days past due accruing loans) at June 30, 2002 from 1.03 times at June 30, 2001 as a result of the decrease in nonperforming loans and the decrease in net charge-offs for the six months ended June 30, 2002.

In management's judgment, the Allowance was adequate to absorb potential losses currently inherent in the loan portfolio at June 30, 2002. However, changes in prevailing economic conditions in the Company's markets or in the financial condition of its customers could result in changes in the level of nonperforming assets and charge-offs in the future and, accordingly, changes in the Allowance.

**NONINTEREST INCOME**

Noninterest income totaled \$3.8 million for the quarter ended June 30, 2002, an increase of \$511,000, or 15.7%, over the comparable period in 2001. For the six months ended June 30, 2002, noninterest income was \$7.7 million, an increase of \$1.2 million, or 18.9%, over the comparable period in 2001.

Service charges on deposit accounts increased \$129,000 and \$323,000, or 13.7% and 18.2%, respectively, for the second quarter and six months ended June 30, 2002 over the comparable periods in 2001. These increases resulted from a \$93.6 million, or 18.2%, increase in the average balance of transaction accounts.

Other service charges and fees increased \$359,000 and \$770,000, or 28.5% and 32.0%, respectively, for the second quarter and six months ended June 30, 2002 over the comparable periods in 2001. These increases were primarily due to fee income on investment services recorded during the six months ended June 30, 2002.

Net realized loss on sales of securities was \$104,000 for the six months ended June 30, 2002 compared to net realized gains of \$616,000 in the same period in 2001. The net gain in 2001 was

**Table of Contents**

due to sales of \$33.2 million of available-for-sale securities sold in the lower interest rate environment.

**NONINTEREST EXPENSE**

Noninterest expense totaled \$13.3 million for the quarter ended June 30, 2002, an increase of \$153,000, or 1.16%, from the comparable period in 2001. For the six months ended June 30, 2002, noninterest expense was \$26.7 million, an increase of \$1.3 million, or 4.9%, from the comparable period in 2001. The efficiency ratio (exclusive of intangibles) improved from 63.7% for the six months ended June 30, 2001 to 57.2% for the six months ended June 30, 2002.

Salaries and employee benefits increased \$504,000, or 8.4%, and \$1.1 million, or 9.0%, for the second quarter and six months ended June 30, 2002, respectively, from the comparable periods in 2001. The increases were primarily due to higher incentive-based compensation.

**INCOME TAXES**

The Company's effective income tax rate (exclusive of the tax equivalent adjustment) for the quarter and six months ended June 30, 2002 was 32.6% and 32.2%, respectively, as compared to 36.9% and 34.2% for the same periods in 2001. The decline in the effective tax rate in 2002 was primarily due to an increase in taxable-exempt income and tax credits.

**LIQUIDITY AND CAPITAL RESOURCES**

The consolidated statements of cash flows identify three major sources and uses of cash as operating, investing and financing activities.

The Company's operating activities provided \$23.0 million for the six months ended June 30, 2002, which compares to \$13.6 million used by operating activities in the same period last year. The primary source of cash flows from operations in 2002 was the sale of \$98.9 million of loans held for sale, which was partially offset by the origination of \$87.0 million of loans held for sale. During the six months ended June 30, 2001, the Company originated \$84.6 million of loans held for sale and sold \$63.9 million of loans held for sale.

Investing activities provided cash flow of \$45.1 million for the six months ended June 30, 2002, compared to providing \$63.1 million during the same period last year. The primary sources of cash from investing activities for the six months ended June 30, 2002 were the \$21.4 million maturities of securities and the \$99.8 million net decrease in loans, partially offset by the purchase of \$68.1 million of investment securities. The primary source of cash for investing activities for the six months ended June 30, 2001 was the proceeds of \$51.1 million from the sale of investment securities.

Financing activities used cash flow of \$47.0 million for the six months ended June 30, 2002, compared to using \$65.8 million during the same period last year. During the six months ended June 30, 2002, the Company had a net decrease of \$67.0 million of short-term advances, partially offset by the \$20.0 million net increase in long-term debt.

At June 30, 2002, as compared to June 30, 2001, the Company had \$1.6 billion in assets, down 6.1%; \$1.1 billion in loans, down 13.5%; and \$1.1 billion in deposits, down 3.3%. During this current low interest rate environment, the Company has continued to reduce its interest rate

exposure by reducing its exposure to fixed-rate, long-term assets (i.e. real estate residential loans) and replacing short-term time deposits with longer-term deposits and borrowings.

The Company and the Bank are subject to capital standards promulgated by the Federal banking agencies and the Hawaii Division of Financial Institutions. Quantitative measures established by regulation to ensure capital adequacy required the Company and the Bank to maintain minimum amounts and ratios (set forth in the following table at June 30, 2002 and 2001) of Tier 1 and Total capital to risk-weighted assets, and of Tier 1 capital to average assets.
