REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors

First Financial Bancorp

We have audited the accompanying statements of net assets available for benefits of the First Financial Bancorp Thrift Plan and Trust (the Plan) as of December 31, 2007 and 2006, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform audits of the Plan s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the First Financial Bancorp Thrift Plan and Trust at December 31, 2007 and 2006, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets held as of December 31, 2007, and reportable transactions for the year then ended, are presented for the purposes of additional analysis and are not a required part of the financial statements but are for supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to Financial Statements
December 31, 2007

1. Description of the Plan

The following brief description of the First Financial Bancorp Thrift Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description for more information.

First Financial Bancorp (the Plan Sponsor) is the sponsor of the plan.

General

The Plan is a defined-contribution plan, qualified under Section 401 of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers substantially all employees of the Plan Sponsor and affiliates who are age twenty-one or older. The Plan is subject to the provisions of Section 401(k) of the Internal Revenue Code whereby the participants' discretionary contributions would not be reportable as compensation for federal and state income tax purposes. The Plan is a single plan of a controlled group as defined in Code Sections 414(b) and 414(c).

Funding

Employer contributions to the Plan are equal to 50 percent of the employee's contribution up to the first 6% of the participant's deferrals. Employer contributions are initially invested in the First Financial Bancorp Common Stock Fund (Stock Fund). Employer contributions made prior to January 1, 2006 were fully vested upon contribution to the Plan. Employer contributions made after December 31, 2005 for participants with a plan entry date of January 1, 2006 or after will be fully vested after the participant completes two years of service. As of March 31, 2002, participants have the option of directing the employer contributions out of the Stock Fund. Although the Plan Sponsor has not expressed any intention to do so, it has the right under the Plan to discontinue contributions at any time and terminate the Plan, subject to provisions set forth in ERISA.

Effective January 1, 2003, participants may elect to make contributions to the Plan of up to 50 percent of their eligible salary on a before-tax basis. Prior to January 1, 2003, participants were permitted to make contributions to the Plan of up to 12 percent of their eligible salary on a before-tax basis. Prior to January 1, 1986, participants were permitted to contribute certain amounts on an after-tax basis.

Participating Corporations

The terms of the Plan provide that any corporation that becomes a member of the controlled group may, with consent of the Plan Sponsor, adopt the Plan for those employees which the Plan determines shall be eligible.

1. Description of the Plan (continued)

Benefit Payments

Participants may elect an in-service, non-hardship distribution comprised of the participant's after-tax contributions, employer contributions and the earnings on these accounts. Employer contributions withdrawn are limited to those made more than eight plan quarters prior to the quarter in which the withdrawal is being made. Such a withdrawal suspends the participant's right to make contributions for one year.

Active employees may withdraw before-tax savings only if the participant can prove financial hardship as defined by the Plan Document. Any distribution of before-tax funds results in a one-year suspension of participation in the Plan. Earnings on the participant's before-tax contributions are not eligible for distribution prior to termination or retirement.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. A participant may elect to withdraw all or any part of his or her after-tax savings from the Plan. Such withdrawal suspends the participant's rights to make future contributions for six months.

Plan Termination

In the event of termination, the net assets will be distributed to participants and beneficiaries in proportion to their respective account balances.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments

Investments are individual mutual funds held with Federated Retirement Plan Services and a separate trust account at First Financial Bank (the Bank), National Association, a wholly-owned subsidiary of the Plan Sponsor, to hold the First Financial Bancorp Common Stock Fund investment option for the Plan. Investments are stated at fair values based on quoted closing net asset values obtained by Federated Retirement Plan Services from published market data. Security transactions are recorded on the trade date.

Table of ContentsFirst Financial Bancorp Thrift Plan and Trust
Notes to Financial Statements (continued)**2. Summary of Significant Accounting Policies (continued)**

As described in Financial Accounting Standards Board Staff Position (FSP) AGG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in contracts through a common collective trust (the Federated Capital Preservation Fund). As required by the FSP, the statement of net assets available for benefits presents the fair value of the investment in the common collective trust as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The fair value of the Plan's interest in the Federated Capital Preservation Fund is based on information reported by the issuer of the common collective trust at year-end. The contract value of the Federated Capital Preservation Fund represents contributions plus earnings, less participant withdrawals and administrative expenses.

New Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. (FIN) 48,

Accounting for Uncertainty in Income Taxes. FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Plan's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense in the current year.

As originally issued, FIN 48 was effective for fiscal years beginning after December 15, 2006. On February 1, 2008, the FASB issued FSP FIN 48-2 (FIN 48-2), which defers the effective date of FIN 48 for certain nonpublic enterprises to fiscal years beginning after December 15, 2007. The Plan is a non-public enterprise to which FIN 48-2's deferral applies. The Plan Administrator is currently evaluation the impact, if any, that the adoption of FIN 48 will have on the Plan's financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurement. This standard clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about the use of fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. Plan management is currently evaluation the effect that the provisions of SFAS No. 157 will have on the Plan's financial statements.

First Financial Bancorp Common Stock	(\$4,645,013)	(\$1,027,741)
Equity and Fixed Income Mutual Funds	(455,352)	1,041,387
Net (depreciation) appreciation	(\$5,100,365)	\$ 13,646

4. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 11, 2003, stating that the Plan is qualified under section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.
