TOOTSIE ROLL INDUSTRIES, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
APRIL 1, 2006  
(in thousands except per share amounts) (UNAUDITED)

Note 1 - Foregoing data has been prepared from the unaudited financial records of Tootsie Roll Industries, Inc. and Subsidiaries (the Company) and in the opinion of management all adjustments necessary for a fair statement of the results for the interim period have been reflected. All adjustments were of a normal and recurring nature. Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. These

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

consolidated financial statements should be read in conjunction with the consolidated financial statements and the related notes included in the Company's 2005 Annual Report on Form 10-K.

Note 2 - Average shares outstanding for the period ended April 1, 2006 reflects stock repurchases of 222 shares for \$6,276 and a 3% stock dividend distributed on April 13, 2006. Average shares outstanding for the period ended April 2, 2005 reflects stock repurchases of 216 shares for \$6,390 and a 3% stock dividend distributed on April 14, 2005.

Note 3 - Results of operations for the period ended April 1, 2006 are not necessarily indicative of results to be expected for the year to end December 31, 2006 because of the seasonal nature of the Company's operations. Historically, the third quarter has been the Company's largest sales quarter due to Halloween sales.

Note 4 - The bank loan is a demand note issued in December 2005 due no later than July 20, 2006. The loan is collateralized by investments in marketable securities and is subject to other terms and conditions, none of which are significant. The Company intends to repay the loan during the second quarter of 2006. Interest is LIBOR based, and the average rate was 4.464% in 2006.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (dollars in thousands except per share amounts)

The following is management's discussion of the Company's operating results and analysis of factors that have affected the accompanying Condensed Statement of Earnings.

#### NET SALES:

First Quarter		Net change in
2006	2005	First Quarter, 2006
		vs.
		First Quarter, 2005
\$103,822	\$97,925	6.0%

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

First quarter 2006 net sales were \$103,822 compared to \$97,925 in first quarter 2005, an increase of \$5,897 or 6.0%. First quarter 2006 sales reflect increases in substantially all of the Company's core brands due to successful marketing programs. The first quarter sales increase principally reflects increases in sales volume, however, a portion of the sale increase is attributable to sales price increases as discussed below.

First quarter 2006 net sales were \$103,822 compared to \$112,495 in fourth quarter 2005. This decrease in net sales is not considered unusual, as the first quarter of the year is historically the Company's lowest sales quarter.

### COST OF SALES:

First Quarter		Cost of Sales as a Percentage of Net Sales	
2006	2005	1st Qtr. 2006	1st Qtr. 2005
\$64,422	\$58,476	62.1%	59.7%

Cost of sales as a percentage of net sales increased from 59.7% in first quarter 2005 to 62.1% in first quarter 2006. The increase in cost of sales as a percentage of net sales reflects substantially higher costs relating to major ingredients, principally sugar and corn syrup, and plant manufacturing utilities and energy. Higher costs of labor and related fringe benefits, principally health insurance, and certain packaging materials also added to higher costs.

### OPERATING EARNINGS:

First Quarter		First Quarter, 2006 vs. First Quarter, 2005
2006	2005	
\$16,351	\$17,159	(4.7)%

-6-

Selling, marketing and administrative expenses increased from \$22,290 in the first quarter 2005 to \$23,049 in first quarter 2006, an increase of \$759 or 3.4%. As a percentage of net sales, such operating expenses favorably decreased from 22.8% in 2005 to 22.2% in 2006, reflecting various cost efficiencies achieved from increased consolidated net sales. However, the Company was adversely affected by significant increases in freight and delivery expenses, principally reflecting higher fuel surcharges, during first quarter 2006 compared to the corresponding period in the prior year.

First quarter earnings from operations were \$16,351 and \$17,159 in 2006 and 2005, respectively, a decrease of \$808 or 4.7%. The favorable effects of higher sales were mitigated by adverse factors that resulted in higher cost of sales and lower gross profit margins as discussed above. Although the Company has taken action and implemented programs, including price increases, intending to recover these cost increases and restore margins, the Company's first quarter 2006 results only partially benefited from these initiatives. The Company's first quarter 2006 period was a transition period for the implementation of many of these actions and initiatives in 2006.

### NET EARNINGS:

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

		First Quarter, 2006
	First Quarter	vs.
2006	2005	First Quarter, 2005
\$12,362	\$12,506	(1.2)%

First quarter 2006 net earnings were \$12,362 compared to first quarter 2005 net earnings of \$12,506. First quarter earnings per share were \$0.23 in both 2006 and 2005.

Other income, net was \$1,847 in first quarter 2006 compared to \$1,207 in first quarter 2005. Other income, net in 2006 includes \$207 of decreased interest expense and \$292 of increased investment income reflecting the reductions in bank debts and financing costs of the Concord Confections business acquired in August 2004.

The consolidated effective income tax rate increased from 32.4% in first quarter 2005 to 32.7% in first quarter 2006. The aforementioned increase generally reflects higher effective rates for foreign taxes.

In addition to the factors discussed above, earnings per share benefited from fewer shares outstanding as a result of the Company's share repurchases.

-6A-

### LIQUIDITY AND CAPITAL RESOURCES:

The Company's current ratio (current assets divided by current liabilities) was 2.3 to 1 as of the end of first quarter 2006 as compared to 2.2 to 1 as of the end of first quarter 2005 and 2.2 to 1 as of the end of fourth quarter 2005. Net working capital was \$125,782 as of the end of first quarter 2006 as compared to \$132,940 and \$101,206 as of the end of fourth quarter 2005 and first quarter 2005, respectively. The aforementioned net working capital amounts are principally reflected in aggregate cash and cash equivalents and short-term investments which totaled \$96,603 as of the end of first quarter 2006 compared to \$123,898 and \$71,257, as of the end of fourth quarter 2005 and first quarter 2005, respectively. In addition, long term investments, principally debt securities comprising municipal bonds, were \$44,539 as of the end of first quarter 2006 as compared to \$44,851 and \$85,713 as of the end of fourth quarter 2005 and first quarter 2005, respectively. Investments in municipal bonds and other debt securities that matured during first quarters 2006 and 2005 were generally used to pay down bank loans or replaced with debt securities of similar maturities.

As of the end of first quarter 2006 and 2005, the Company had \$16,000 and \$77,000, respectively, of bank loans which principally relate to the financing of the Concord Confections acquisition in August 2004. These bank loans were paid down through a combination of cash flows provided by operating activities and investment maturities. The balance of the bank loan outstanding at the end of first quarter 2006 is due in July 2006, and the Company intends to repay the outstanding loan during the second quarter

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

2006.

Net cash provided by operating activities was \$3,287 for first quarter 2006, as compared to \$4,796 for first quarter 2005. The aforementioned net change in net cash provided by operating activities principally reflects the timing of payments and cash flows relating to accounts receivable and accounts payable and accrued liabilities. Capital expenditures for first quarter 2006 and 2005 were \$15,424 and \$4,626, respectively. First quarter 2006 capital expenditures reflect \$12,397 of investments in rental income producing real estate which was funded from the Company's restricted cash. Excluding the reinvestment of restricted cash, capital expenditures for the 2006 year are anticipated to be generally in line with historical annualized spending, and are to be funded from the Company's cash flow from operations and internal sources.

Of the \$22,330 in proceeds from the sale of surplus real estate during 2005 and held as restricted cash as of December 31, 2005, \$12,397 was reinvested in "like kind" real estate during first quarter 2006 in compliance with U.S. Internal Revenue Code Section 1031. During first quarter 2006 the Company also reclassified approximately \$4,300 of current income taxes payable to deferred income taxes, all of which relates to the aforementioned Section 1031 reinvestment. Subsequent to the end of first quarter 2006, the Company reinvested the balance of \$9,933 of such proceeds and restricted cash in additional rental income producing real estate in accordance with Section 1031.

-6B-

Cash dividends declared in first quarter 2006 and 2005 were \$4,238 and \$3,655, respectively. However, dividends paid in cash were \$8,502 and \$7,315, in first quarter 2006 and 2005, respectively. The difference between dividends declared and dividends paid is due to payment in the first quarter of a dividend declared in the fourth quarter of the respective preceding year.

The Company repurchased and retired \$6,276 and \$6,390 of its outstanding common stock during first quarter 2006 and 2005, respectively.

This discussion and certain other sections of this Form 10-Q contain forward-looking statements that are based largely on the Company's current expectations and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to certain risks, trends and uncertainties that could cause actual results and achievements to differ materially from those expressed in the forward-looking statements. Such risks, trends and uncertainties, which in some instances are beyond the Company's control, include changes in demand and consumer preferences, including seasonal events such as Halloween; the effects of increases in ingredient and packaging costs; the effect of acquisitions on the Company's results of operations and financial condition; the effect of changes in foreign currencies on the Company's foreign subsidiaries; the Company's reliance on third-party vendors for various goods and services; the effect of changes in assumptions, including discount rates and profit margins, relating to the Company's impairment testing and analysis of its goodwill and trademarks; changes in the confectionary market place including actions taken by major retailers and customers; customer and consumer response to marketing programs and price and trade allowance adjustments; changes in governmental laws and regulations including taxes; the overall competitive environment in the Company's industry; and changes in assumptions and judgments discussed

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

under the heading "Critical Accounting Policies of the company's MD&A" included in the 2005 annual report and 10-K. The words "believe," "expect," "anticipate," "estimate," "intend" and similar expressions generally identify forward-looking statements. Readers are cautioned not to place undue reliance on such forward-looking statements, which are as of the date of this filing.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK:

The Company is exposed to various market risks, including fluctuations in sugar, corn syrup, edible oils, cocoa, gum and gum-base ingredients and packaging costs. The Company is exposed to exchange rate fluctuations in the Canadian dollar which is the currency used for a portion of the operating costs at its Canadian plants. The Company also invests in securities with maturities of up to three years, the majority of which are held to maturity, which limits the Company's exposure to interest rate fluctuations. There has been no material change in the Company's market risks that would significantly affect the disclosures made in the Form 10-K for the year ended December 31, 2005.

-6C-

### Item 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of management, the chief executive officer and chief financial officer of the Company have evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of April 1, 2006 and, based on their evaluation, the chief executive officer and chief financial officer have concluded that these controls and procedures are effective. Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended April 1, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
