PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS TO BE HELD JUNE 2, 2005

GENERAL INFORMATION

This proxy statement is furnished to stockholders in connection with the solicitation of proxies by the Board of Directors of PERFORMANCE TECHNOLOGIES, INCORPORATED (the "Company") to be used at the Annual Meeting of Stockholders of the Company, which will be held on Thursday, June 2, 2005 (the "Meeting"), and at any adjournments thereof. This proxy statement and accompanying form of proxy are first being mailed to stockholders on or about May 2, 2005. The proxy, when properly executed and received by the Secretary of the Company prior to the Meeting, will be voted as therein specified unless revoked by filing a written revocation or a duly executed proxy bearing a later date with the Secretary prior to the Meeting. A stockholder may also revoke his or her proxy in person at the Meeting. Unless authority to vote for one or more of the director nominees is specifically withheld, a signed proxy will be voted FOR the election of the director nominees named herein and, unless otherwise indicated, FOR the ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2005.

The cost of soliciting proxies will be borne by the Company. In addition to the solicitation by use of the mails, directors, officers or regular employees of the Company, without extra compensation, may solicit proxies personally, by telephone, e-mail, telegraph or facsimile transmission. The Company has requested persons holding stock for others in their names or in the names of nominees to forward soliciting material to the beneficial owners of such shares and will, if requested, reimburse such persons for their reasonable expenses in so doing.

VOTES REQUIRED

Stockholders may vote by mail, telephone or the Internet. For some stockholders, information regarding telephone and Internet voting is included in the proxy card instructions. The total outstanding shares of capital stock of the Company as of April 4, 2005, the record date for the Meeting (the "Record Date"), consisted of 12,852,679 shares of Common Stock, par value \$.01 per share (the "Common Stock"). Only holders of Common Stock of record on the books of the Company at the close of business on the Record Date are entitled to notice of and to vote at the Meeting and at any adjournments thereof. Each holder of Common Stock is entitled to one vote for each share of Common Stock registered in his or her name. A majority of the outstanding shares of Common Stock, represented in person or by proxy at the Meeting, will constitute a quorum for the transaction of all business.

Pursuant to the provisions of the Delaware General Corporation Law, directors shall be elected by a plurality of the votes cast by the holders of shares of Common Stock present in person or represented by proxy at the Meeting and entitled to vote at the Meeting. Because directors are elected by a plurality of the votes cast, withholding authority to vote with respect to one or more nominees will have no effect on the outcome of the election, although

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

such shares would be counted as present for purposes of determining the existence of a quorum. Similarly, any broker non-votes (which occur when shares held by brokers or nominees for beneficial owners are voted on some matters but not on others in the absence of instructions from the beneficial owner) are not considered to be votes cast and therefore would have no effect on the outcome of the election of directors, although they would be counted for quorum purposes.

The affirmative vote of a majority of the votes cast is required to ratify the selection of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for the fiscal year ending December 31, 2005. Abstentions and any broker non-votes are not considered to be votes cast and therefore would have no effect on the outcome of this proposal.

PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors is divided into three classes. The Company currently has seven directors, three in one class and two in two classes, a majority of whom are independent under the Nasdaq listing standards. Terms are staggered so that only one class is elected at each Annual Meeting of Stockholders. Each director so elected serves for a three-year term and until his or her successor is elected and qualified, subject to such director's earlier death, resignation or removal.

The Board of Directors recommends the election of the three nominees named below, each of whom are currently directors of the Company. The Board of Directors does not contemplate that any of the nominees will be unable to serve as a director, but if that contingency should occur prior to the voting of the proxies, the persons named in the enclosed proxy reserve the right to vote for such substitute nominee or nominees as they, in their discretion, shall determine.

Committees of the Board of Directors

The Board has a Compensation Committee to evaluate executive compensation and to determine grants pursuant to the Company's stock-based incentive plans. Messrs. Maginness, Meisenzahl, and Tillman currently comprise the Compensation Committee. All members of the Compensation Committee qualify as being "independent" under the independence standards of the Nasdaq listing standards. For purposes of complying with Securities Exchange Act Rule 16b-3, the Company has at least two non-employee directors administer its stock-based incentive plans.

The Board has an Audit Committee for the purpose of reviewing the Company's financial reporting procedures. Messrs. Meisenzahl, Rajkowski and Tillman currently comprise the Audit Committee. The updated written charter for the Audit Committee, which was adopted by the Board of Directors, more specifically sets forth the duties of the Audit Committee and is attached as Appendix A. All of the members of the Audit Committee have the required "financial literacy" and qualify as being "independent" under the independence standards of the Nasdaq listing standards and applicable SEC rules. In addition, the Board has determined that Mr. Rajkowski qualifies as an "audit committee financial expert" under applicable SEC rules.

The Board of Directors has a Nominating Committee to identify potential new directors. The Nominating Committee has a written charter, which is available in the Investors section of the Company's Web site at www.pt.com and it sets forth the duties of the Nominating Committee more specifically. Messrs. Kozel, Maginness and Tillman currently comprise the Nominating Committee. Each member is "independent," as independence for nominating committees is defined under the Nasdaq listing standards.

The Nominating Committee believes that candidates for director should have certain minimum qualifications including the ability to read and understand basic financial statements and each should possess the highest personal integrity and ethics.

The Nominating Committee also considers such factors as:

- o possessing relevant expertise to offer advice and guidance to management;
- o having sufficient time to devote to the affairs of the Company;
- o demonstrating excellence in his or her field;
- o having sound business judgment; and
- o having the commitment to rigorously represent the long-term interests of the Company's stockholders.

New candidates for director nominees are reviewed in the context of the current composition of the Board, the operating requirements of the Company and the long-term interests of the Company's stockholders. In conducting this assessment, the Nominating Committee considers diversity, maturity, skills, and

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

such other factors, as it deems appropriate given the current needs of the Board and the Company, to maintain a balance of knowledge, experience and capability. In the case of incumbent directors whose terms of office are set to expire, the Nominating Committee reviews such directors' overall service to the Company during their term, including the number of meetings attended, level of participation, quality of performance, and any other relationships and transactions that might impair such directors' independence. In the case of new director candidates, the Nominating Committee also determines whether the nominee is independent, which determination is based upon applicable Nasdaq listing standards, applicable SEC rules and regulations and the advice of counsel, if necessary. The Nominating Committee then uses its network of contacts to compile a list of potential candidates, but may also engage, if it deems appropriate, a professional search firm. The Nominating Committee conducts any appropriate and necessary inquiries into the backgrounds and qualifications of possible candidates after considering the function and needs of the Board.

The Nominating Committee meets to discuss and consider such candidates' qualifications and then selects a nominee for recommendation to the Board by majority vote. To date, the Nominating Committee has not paid a fee to any third party to assist in the process of identifying or evaluating director candidates. To date, the Nominating Committee has not received, and therefore has not rejected, a timely director nominee from a stockholder or stockholders holding more than 5% of the Company's voting stock.

The Nominating Committee will consider director candidates recommended by stockholders. The Committee does not intend to alter the manner in which it evaluates candidates, including the minimum criteria set forth above, based on whether the candidate was recommended by a stockholder. Stockholders who wish to recommend individuals for consideration by the Nominating Committee to become nominees for election to the Board may do so by delivering a written recommendation to the attention of the Nominating Committee at the address set forth on the cover of this Proxy Statement. Submissions must include the full name of the proposed nominee, a description of the proposed nominee's business experience for at least the previous five years, complete biographical information, a description of the proposed nominee's qualifications as a director and a representation that the nominating stockholder is a beneficial or record owner of the Company's stock. In addition, any such submission must be accompanied by the written consent of the proposed nominee to be named as a nominee and to serve as a director if elected.

The Compensation Committee, Audit Committee, and Nominating Committee met five, eight, and one time, respectively, in 2004. The Company's Board of Directors held nine meetings in 2004. All of the directors attended at least 75 percent of the Board of Directors' meetings and committee meetings that required their attendance. As required by the Nasdaq listing standards, it is the policy of the Board of Directors that the independent members of the Board meet regularly at executive sessions at which only independent directors are present. The independent directors select from, among their number, a single director to serve as the presiding director during their executive sessions. The Company believes that it is important for its directors to attend the Annual Meeting of Stockholders and expects them to do so each year, barring unforeseen circumstances. All of the Company's directors attended the 2004 Annual Meeting of Stockholders.

Compensation of Directors

Members of the Board of Directors who are not employees of the Company receive \$1,000 for each meeting attended. Each Board member also receives \$15,000 per year if he attends at least 75 percent of the scheduled Board of Director meetings. In addition, each committee member receives \$400 for each committee meeting attended. Annual retainers are also paid to committee members acting in various capacities as follows: Audit Committee chairman \$5,000, Audit

Edgar Filing: PERFORMANCE TECHNOLOGIES INC \DE\ - Form DEF 14A

Committee member \$2,500; Compensation Committee chairman \$2,500, Compensation Committee member \$1,250; Nominating Committee chairman \$1,500, Nominating Committee member \$750; Board Secretary, if non-employee, \$1,000; and Board Chairman, if outside Director, \$10,000. The Company's 2001 Stock Option Plan currently provides that on the day of the Company's Annual Meeting of Stockholders, each individual elected, reelected or continuing as an Outside Participating Director will automatically receive a non-statutory option for 10,000 shares of Common Stock. The exercise price for these options will be the fair market value of the Company's Common Stock on the date of the option grant. Options vest on the first anniversary of the grant date and expire five years from the date of grant. From time to time, the Company may grant restricted stock or additional options to directors. At the 2004 Annual Meeting of Stockholders, Messrs. Kozel, Maginness, Meisenzahl, Rajkowski, and Tillman each received a non-qualified option to purchase 10,000 shares at an exercise price of \$10.06 per share.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's officers and directors and persons who own more than 10% of a registered class of the Company's equity securities to file certain reports regarding ownership of, and transactions in, the Company's securities with the Securities and Exchange Commission (the "SEC"). Such officers, directors, and 10% stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) reports that they file.

Based solely on its review of such reports furnished to the Company and written representations from certain reporting persons, the Company believes that the Company's executive officers, directors and more than 10% stockholders timely filed all Section 16(a) reports required to be filed by them during the most recent fiscal year except for one filing. On February 25, 2004, Mr. Maginness reported the sale of 50,000 shares of Common Stock that he sold on February 17, 2004.

Report of the Compensation Committee with Respect to Executive Compensation

General

The Compensation Committee of the Board of Directors is responsible for setting the Company's executive compensation policy. The Committee is currently comprised of three outside directors, Charles E. Maginness, Chairman, Stuart B. Meisenzahl, and Robert L. Tillman, who are not employees of the Company and are not eligible to participate in the Company's executive compensation program. All members of the Committee qualify as being "independent" under the independence standards of the Nasdaq listing standards.

The Company's executive compensation program is designed to serve the Company's broader strategic goals of profitable growth and the creation of long-term stockholder value. The program is fundamentally a pay-for-performance program designed to:

- o ensure the Company's ability to attract and retain executives;
- o strongly align the interests of the Company's executives with those of its stockholders; and
- o provide a compensation package that balances individual contributions and overall business results.

From time to time, the Committee selects, and when it deems appropriate is advised by, an independent executive compensation consultant to assist in evaluating the components of the executive compensation program.

The three key components of the Company's executive compensation program are base salary, short-term incentive awards (cash bonus) and long-term incentive awards (stock-based awards).

Base Salary. Annually, the Committee assesses a number of factors in fixing the salary of the Chief Executive Officer, and assesses and approves, a salary plan developed by the Chief Executive Officer for all the Company's executives, none of whom have a written employment agreement with the Company. The salary plan considers a number of factors including the individual's

position, job responsibilities and performance.

Annual Short-term Incentive Awards. The Company's annual short-term incentive awards program is intended to be variable and is directly related to the Company's financial performance. Annual incentive goals are established for the Company's executives and key employees at the beginning of the year. Quarterly incentive goals are established for the Company's employees at the beginning of each quarter during the year. Amounts contributed to these short-term incentive programs directly relate to the Company's financial performance.

Long-term Incentive Awards. The Committee believes that the Company's long-term incentive awards, which are primarily stock-based compensation, align the interest of the Company's executives and employees with that of the stockholders, as any appreciation in the price of the stock will benefit all stockholders commensurately. Historically, stock-based compensation has primarily been in the form of stock options. Stock options provide executives and employees with the opportunity to purchase Common Stock of the Company, increase their equity in the Company and to share in the appreciation in the value of the stock. Under the Performance Technologies, Incorporated 2001 Stock Option Plan and 2003 Omnibus Incentive Plan, which have been approved by the stockholders, the Committee may grant stock options to the Company's executives and employees. The size of stock option awards has been based primarily on the individual's position, job responsibilities and performance. Stock option awards are granted at an exercise price equal to the market price of the Company's Common Stock on the date of grant and generally vest in up to three years. Stock option awards generally have a term of five years. The actual value of any stock options granted will depend entirely on the extent to which the Company's Common Stock has appreciated in value at the time the options are exercised. This provides an incentive for the executives and employees to create wealth for the stockholders and provides rewards in proportion to the gain received by other stockholders. The Company has not repriced outstanding stock options at any time in the past.

Annually, the Chief Executive Officer prepares a long-term incentive plan for the Company's executives. The Committee assesses and approves the long-term incentive plan for each executive.

Executive Officer Compensation

All executive officers received an increase in their base salary in January 2004. Those increases are reflected in the Summary Compensation Table in the Executive Compensation section of this report. The Company did not meet the annual revenue and profitability measurements established in the Short-term Incentive Program, and therefore, no cash incentive bonuses were paid to the Company's executives in 2004. Stock options granted for 2004 were issued to executive officers in April 2004. The individual grants are detailed in the table titled Option Grants in Last Fiscal Year.

President and Chief Executive Officer

Mr. Turrell's base salary, short-term incentive and long-term incentive awards are determined by the Compensation Committee based upon the same general factors as those employed by the Compensation Committee for executive officers. Mr. Turrell's base salary for 2004 was \$230,000. Mr. Turrell was granted stock options for 35,000 shares in April 2004 as part of his compensation plan.

During 2005, the Company expects to hire a new President and Chief Executive Officer. The Committee expects to revisit its executive compensation

policy as part of this process.

Compensation Committee Interlocks and Insider Participation

The Chief Executive Officer of the Company, Donald L. Turrell, consults with the Compensation Committee and makes recommendations. He participates in discussions with the Compensation Committee but does not vote or otherwise participate in the Compensation Committee's determinations. None of the Company's executive officers have served as a member of a compensation committee of a board of directors of any other entity which has an executive officer serving as a member of the Company's Board of Directors, and there are no other matters regarding interlocks or insider participation that the Company is required to report.
