Part I

Item 1 Description of Business

Formed in 1986, ESCAgenetics Corporation ("the Company") was organized to develop and commercialize high-value, plant derived products for the agricultural and pharmaceutical markets. The Company actively conducted its business between 1987 and the early part of 1995. In January 1995, the Company scaled back its business activities and became largely a dormant business. In January 1996, the Company filed a bankruptcy petition for protection under Chapter 11 of the U.S. Bankruptcy Code.

The Company's amended plan of reorganization (the "Amended Plan of Reorganization") became effective on August 22, 1996. Under the Amended Plan of Reorganization, GFL Ultra Fund, Ltd. ("Ultra"), the Company's largest debt holder, received 25% of the cash available to unsecured creditors and 90% of the Company's common stock. The remaining cash was distributed proportionately to the remaining unsecured creditors and the remaining 10% of the Company's common stock remained owned by its previous shareholders. The bankruptcy proceeding was officially closed effective March 31, 1997. In July, 1998 Genesee Holdings, Inc. ("Holdings") acquired by merger all the assets of Ultra.

By the end of 1996, the Company sold or disposed of all of its assets other than cash on hand and the stock of PHYTOpharmaceuticals, Inc. (an inactive majority owned subsidiary) and SRE ESCAgenetics Corporation (an inactive wholly owned subsidiary).

The Company has been dormant during the fiscal year ended September 30, 2002. The Company has had no employees since November 1996. The Company does not plan to continue the business activities that it conducted prior to its reorganization. It plans to pursue a business combination or other strategic transaction. No candidate for such a transaction has been identified. The Company believes its status as a public company may be attractive to a private company wishing to avoid an initial public offering but there is no guarantee that a business combination or other strategic transaction will be consummated.

Item 2 Description of Property

None.

Item 3 Legal Proceedings

None.

Item 4 Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of the shareholders during the fourth quarter of fiscal 2002.

Part II**Item 5** Market for Common Equity and Related Shareholder Matters

The Company's Common Stock trades under the symbol "ESNG" on the OTC Bulletin Board. The market for the Company's Common Stock is limited, sporadic and highly volatile. The following table sets forth the high and low bid prices per share of the Company's Common Stock during its last two fiscal years as reported by the OTC Bulletin Board. These prices reflect inter-dealer prices, without retail mark-ups, mark-downs or commissions, and may not necessarily represent actual transactions.

	High	Low
Fiscal 2001		
First Quarter	0.0313	0.0110
Second Quarter	0.0290	0.0110
Third Quarter	0.0220	0.0150
Fourth Quarter	0.0150	0.0100
Fiscal 2002		
First Quarter	0.0100	0.0070
Second Quarter	0.0090	0.0060
Third Quarter	0.0050	0.0050
Fourth Quarter	0.0050	0.0050

The number of shareholders of record as of September 30, 2002 was 491.

It is the present policy of the Company not to pay cash dividends. Any payment of cash dividends in the future will depend upon the amount of funds legally available for that purpose, the Company's earnings, financial condition, capital requirements and other factors that the Board of Directors may deem relevant.

Item 6 Management's Discussion and Analysis or Plan of Operation

The Company has had no revenues from operations since the reorganization date. The Company does not plan to continue the business activities that it previously conducted. It plans to pursue a business combination or other strategic transaction. No candidate for such a transaction has been identified. The Company believes its status as a public company may be attractive to a private company wishing to avoid an initial public offering but there is no guarantee that a business combination or other strategic transaction will be consummated.

The Company expects to fund its expenses during fiscal 2003 with advances from its majority shareholder, Holdings. These advances are expected to total approximately \$50,000 during fiscal 2003. The Company expects Holdings to continue to fund its expenses until a business combination or other strategic transaction is consummated, however such funding is not guaranteed. There is no guarantee that the Company is a viable party for a business combination or other strategic transaction. If a business combination or other strategic transaction is not consummated in a timeframe suitable to Holdings or cannot be consummated due to excessive cost or for any other reason, Holdings may cease to advance funds to the Company.

The Company has no employees and no fixed assets. The Company does not anticipate hiring any employees or purchasing any assets until such time as a business combination or other strategic transaction is consummated or is imminent.

Item 7 Financial Statements

The financial statements of the Company are included in this report commencing on page F-1.

INDEPENDENT AUDITORS' REPORT

ESCAgenetics Corporation
Bellevue, Washington

We have audited the accompanying consolidated balance sheet of ESCAgenetics Corporation and subsidiaries (the Company) as of September 30, 2002, and the related consolidated statements of operations and shareholders' equity (deficit), and cash flows for the year then ended. The financial statements of the Company for the year ended September 30, 2001, were audited by other auditors whose report, dated November 1, 2001, expressed an unqualified opinion on those statements and included an explanatory paragraph that described the going concern issue discussed in Note 1 to the financial statements. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Edgar Filing: ESCAGENETICS CORP - Form 10KSB

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company at September 30, 2002, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company's recurring losses from operations and shareholders' capital deficiency raise substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ESCAGENETICS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED SEPTEMBER 30 2002 AND 2001

1.

Summary of significant accounting policies

Principles of consolidation and basis of presentation

The consolidated financial statements include the accounts of ESCAgenetics Corporation (the "Company") and its majority and wholly owned subsidiaries, PHYTOpharmaceuticals, Inc. and SRE ESCAgenetics Corporation, after elimination of all significant intercompany accounts and transactions. The Company's subsidiaries did not have any significant operating activities during the periods presented.

Operations

Formed in 1986, the Company was organized to develop and commercialize high-value, plant-derived products for the agricultural and pharmaceutical markets. In January 1995, the Company scaled back its business activities and became largely a dormant business. In January 1996, the Company filed a bankruptcy petition for protection under Chapter 11 of the U.S. Bankruptcy Code, and the Company's plan of reorganization became effective on August 22, 1996. The bankruptcy proceeding was officially closed effective March 31, 1997.

Genesee Holdings, Inc. ("Holdings") owns ninety percent of the outstanding common stock of the Company. Currently, all operating expenses are being funded by Holdings through a line of credit (Note 3). During the years ended September 30, 2002 and 2001, the Company paid \$2,700 and \$4,930, respectively, to an affiliate for operating expenses.

Edgar Filing: ESCAGENETICS CORP - Form 10KSB

The Company does not plan to continue the business activities that it conducted prior to its reorganization. It plans to pursue a business combination or other strategic transaction. No candidate for such a transaction has been identified. Ultimately, the continuation of the Company as a going concern is dependent upon the establishment of profitable operations. Management believes Holdings will continue to fund expenditures until such time as a business combination or other strategic transaction is consummated, however such funding is not guaranteed.

Because the achievement of these plans is dependent upon future events, there can be no assurance that future profitable operations will occur as planned.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Net loss per share

Net loss per share is calculated on the basis of weighted average number of common shares outstanding. Common stock equivalents are excluded from the computation, as their effect is antidilutive.

2.

Shareholders' equity

The Company has authorized 101,000,000 shares of Common Stock with a par value of \$.0001 per share and 1,000,000 shares of Preferred Stock with a par value of \$.01 per share. There were

F-5

73,402,516 shares of Common Stock issued and outstanding at September 30, 2002 and 2001. No shares of Preferred Stock are outstanding.

3.

Due to Holdings

At September 30, 2002 the Company owed \$240,000 to Holdings for loans provided to finance the Company's business activities. The loans are convertible into equity at the rate of 130 shares per dollar at Holding's option. Holdings has waived its right to receive interest on the loans through September 30, 2002. Subsequent to September 30, 2002, Holdings advanced an additional \$5,000 to the Company.

On December 1, 2002, the Company entered into a promissory note with Holdings for the lesser of \$300,000 or the aggregate principal amount of all unreimbursed advances made by Holdings to the Company. The note carries an annual interest rate of 5% and is due on demand.

4.

Income taxes

The Company has accumulated net operating loss carryforwards of approximately \$250,000 that are available to offset future taxable income, if any, through 2020. Realization of the net operating loss carryforwards is dependent upon future profitable operations. Accordingly, management has recorded a valuation allowance to reduce deferred tax assets associated with net operating loss carryforwards to zero at September 30, 2002.
