L1 Technology updates on talks over proposed merger between TIM and Oi in Brazil

February 25, 2016: LetterOne Technology (UK) LLP (L1 Technology), updates on discussions on the proposed merger involving a potential combination with TIM Participações S.A. (TIM) and Oi S.A. (Oi), which would have created a well- positioned telecommunications operator to compete against global players already operating in Brazil.

Over the last four months L1 Technology has explored proposals to develop viable structuring and financing options that would have enabled Oi to participate in any consolidation with TIM.

There have been extensive talks with many stakeholders in Brazil, and talks with TIM, and L1 Technology thanks them all for the interest they have shown.

L1 Technology has been informed by TIM that whilst it thanks L1 Technology for its approach - it does not wish to enter into further discussions, about the facilitation of a merger between Oi and TIM in Brazil.

L1 Technology's approach was to unlock the potential of this envisaged telecoms deal through a structure within which all companies were aligned. However, without TIM's participation, L1Technology can't now proceed with the proposed deal as previously envisaged.

Despite a challenging macro environment, LetterOne is interested in investing in Brazil: a country with good long-term growth potential.
