PROXY STATEMENT
2012 annual meeting of Stockholders
Tuesday, May 15, 2012

ESSEX PROPERTY TRUST, INC.
925 East Meadow Drive
Palo Alto, California 94303

INFORMATION CONCERNING SOLICITATION AND VOTING

This Proxy Statement is furnished to the holders (the “Stockholders”) of the outstanding shares of Common Stock, \$0.0001 par value (the “Common Stock”) of Essex Property Trust, Inc., a Maryland corporation (the “Company” or “Essex”), in connection with the solicitation by the Company’s Board of Directors (the “Board”) of proxies in the accompanying form for use in voting at the 2012 annual meeting of Stockholders of the Company (the “Annual Meeting”) to be held on May 15, 2012 at 1:00 p.m., Pacific Daylight Time, at the Stanford Park Hotel, 100 El Camino Real, Menlo Park, California, 94025, and any adjournment or postponement thereof.

This Proxy Statement and the accompanying proxy card and 2011 Annual Report to Stockholders are first being mailed to Stockholders on or about April 6, 2012.

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting to Be Held on May 15, 2012.

The proxy statement, form of proxy, and 2011 Annual Report to Stockholders are available electronically at <http://materials.proxyvote.com/297178>. Directions to the meeting location can be found at www.essexpropertytrust.com under “Investors”; Shareholder Services and Information-Annual Shareholders’ Meeting.”

Form of Proxy Card

A proxy card for use by Stockholders accompanies this Proxy Statement.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is exercised by delivering to the Company, to the attention of Mr. Jordan E. Ritter, a written notice of revocation or a properly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person.

Solicitation and Voting Procedures

The solicitation of proxies will be conducted by mail and the Company will bear all attendant costs. These costs will include the expense of preparing and mailing proxy materials for the Annual Meeting and reimbursements paid to brokerage firms and others for their expenses incurred in forwarding solicitation material regarding the Annual Meeting to the Stockholders. The Company may conduct solicitation of proxies personally, telephonically or by facsimile through its officers, directors and regular employees, none of whom will receive additional compensation for assisting with the solicitation.

Table of Contents

The presence at the Annual Meeting, either in person or by proxy, of Stockholders holding a majority of the shares of Common Stock outstanding on the Record Date (as defined below) will constitute a quorum for the purposes of the Annual Meeting. The close of business on February 29, 2012 has been fixed as the record date (the “Record Date”) for determining the Stockholders entitled to notice of and to vote at the Annual Meeting. Each share of Common Stock outstanding on the Record Date is entitled to one vote on each proposal. As of the Record Date, there were 34,809,580 shares of Common Stock outstanding.

Shares of Common Stock represented by proxies that reflect abstentions or “broker non-votes” (i.e., shares held by a broker or nominee which are represented at the Annual Meeting but with respect to which such broker or nominee is not empowered to vote on a particular proposal) will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum.

The affirmative vote of a plurality of the shares of Common Stock present in person or by proxy and entitled to vote is required to elect directors under Proposal No. 1. Accordingly, abstentions or broker non-votes as to the election of directors will not affect Proposal No. 1, the election of the director candidates receiving the most votes.

Approval of Proposals No. 2 (ratification of KPMG LLP) and No. 3 (advisory vote on executive compensation) requires the affirmative vote of a majority of the shares of Common Stock who are present or represented by proxy and entitled to vote at the Annual Meeting. For purposes of the votes on Proposals No. 2 and No. 3, abstentions will have the same effect as a vote against such Proposal, and broker non-votes will not be counted as votes cast and will have no effect on the result of the vote on such Proposal.

If your shares are held in the name of a broker, you will likely receive a voting instruction form from your broker. Your broker will vote your shares in the manner you indicate in a voting instruction form that you timely return to the broker. If you do not timely return voting instructions to your broker, the broker will not have discretion to vote your shares at the Annual Meeting on Proposal No. 1 (the election of directors), or Proposal No. 3 (advisory vote on executive compensation). However, your broker may in its discretion vote your shares on Proposal No. 2, the ratification of KPMG LLP, if you do not timely return voting instructions on that proposal.

Stockholder votes will be tabulated by the persons appointed by the Board to act as inspectors of election for the Annual Meeting. The shares of Common Stock represented by properly executed proxy cards will be voted at the Annual Meeting as indicated or, if no instruction is given on a proxy card otherwise signed, dated and returned, in favor of Proposals No. 1, 2 and 3.

The Company does not presently know of any other business which may come before the Annual Meeting.

Electronic Access to Proxy Materials, Annual Report and Voting Electronically Via the Internet

Stockholders who elected to receive the Proxy Statement and the annual report to stockholders (the “Annual Report”) over the Internet will be receiving an email on or about April 6, 2012 with information on how to access stockholder information and instructions for voting over the Internet. Stockholders of record may vote via the Internet until 11:59 p.m. Eastern Daylight Time, May 14, 2012.

If a stockholder’s shares are registered in the name of the brokerage firm and the stockholder has not elected to receive the Proxy Statements and Annual Report over the Internet, the stockholder may still be eligible to vote shares electronically over the Internet. Many brokerage firms participate in the online program of Broadridge Financial Solutions, Inc. (“Broadridge”), which provides eligible stockholders who receive a paper copy of the Proxy Statement and Annual Report the opportunity to vote via the Internet. If a stockholder’s brokerage firm is participating in Broadridge’s program, a form from the broker will provide voting instructions.

Table of Contents

Stockholders can elect to view future proxy statements and annual reports over the Internet instead of receiving paper copies. Stockholders of record wishing to receive future stockholder materials electronically can elect this option by following the instructions provided when voting over the Internet at www.ProxyVote.com. Upon electing to view future proxy statements and annual reports over the Internet, stockholders will receive an email notification next year with instructions containing the Internet address of those materials. The choice to view future proxy statements and annual reports over the Internet will remain in effect until the stockholder contacts their broker or the Company to rescind the instructions. Internet access does not have to be elected each year. Stockholders who elected to receive the Proxy Statement electronically over the Internet and who would now like to receive a paper copy of the Proxy Statement so that they may submit a paper proxy in lieu of an electronic proxy, should contact either their broker or the Company.

Householding of Annual Meeting Materials

Some brokers and other nominee record holders may be participating in the practice of “householding” proxy statements and annual reports. This means that only one copy of the proxy statement and annual report may have been sent to multiple Stockholders in a Stockholder’s household. The Company will promptly deliver a separate copy of either document to any Stockholder who contacts the Company’s investor relations department at (650) 494-3700 requesting such copies. If a Stockholder is receiving multiple copies of the proxy statement and annual report at the Stockholder’s household and would like to receive a single copy of these documents for a Stockholder’s household in the future, Stockholders should contact their broker, other nominee record holder, or the Company’s investor relations department to request mailing of a single copy of the proxy statement and annual report.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth the beneficial ownership of shares of Common Stock as of the Record Date for (i) each person known by the Company to hold more than 5% of the outstanding shares of the Company’s Common Stock, (ii) each director, each director nominee, and each of the executive officers named in the Summary Compensation Table below and employed by the Company on the Record Date, and (iii) all directors and such executive officers as a group.

Beneficial ownership in the following table is determined in accordance with the rules of the Securities and Exchange Commission (“SEC”). In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of Common Stock subject to options held by that person that are currently exercisable or exercisable within 60 days of the Record Date are deemed outstanding and shares underlying Series Z-1 incentive units, which are currently non-forfeitable or are non-forfeitable within 60 days of the Record Date, are also deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of each other person. To the Company’s knowledge, except as set forth in the footnotes to this table and subject to applicable community property laws, each person named in the table below has sole voting and investment power with respect to the shares set forth opposite such person’s name. Unless otherwise stated, the address of all directors and executive officers is c/o Essex Property Trust, Inc., 925 East Meadow Drive, Palo Alto, California 94303.

PROPOSAL NO. 1
ELECTION OF DIRECTORS

The Company's Charter divides the Company's directors into three classes. The members of each class of directors serve staggered three-year terms. The Board presently has the following ten directors: Keith R. Guericke, Issie N. Rabinovitch and Thomas E. Randlett who are classified as Class I directors; David W. Brady, Byron Scordelis, Janice Sears, and Claude Zinngrabe, Jr. who are classified as Class II directors; and George M. Marcus, Gary P. Martin, and Michael J. Schall who are classified as Class III directors. The terms of each of the current Class I, Class II and Class III directors expire at the annual meetings of stockholders to be held in 2013, 2014 and 2012, respectively, and upon such directors' respective successors being elected and qualified or until any such directors' earlier resignation or removal.

Therefore, at the Annual Meeting, the Stockholders will elect three directors: if elected, nominees George M. Marcus, Gary P. Martin, and Michael J. Schall will serve as Class III directors for a three-year term. Each of the nominees has consented, if elected as a director of the Company, to serve until his or her term expires. The Class III directors will serve until the annual meeting of stockholders to be held in 2015 and until such directors' respective successors are elected and qualified or until such directors' earlier resignation or removal. The Board believes that each such nominee will stand for election and will serve if elected as a director. However, in the event any nominee is unable or unwilling to serve as a director at the time of the Annual Meeting, the proxies may be voted for the balance of those nominees named and for any substitute nominee designated by the present Board or the proxy holders to fill such vacancy, or for the balance of those nominees named without nomination of a substitute, or the Board may be reduced in accordance with the Bylaws of the Company.

The affirmative vote of a plurality of the shares of common stock present in person or by proxy and entitled to vote at the Annual Meeting, assuming a quorum is present, is necessary for the election of a director. For purposes of the election of directors, abstentions and other shares not voted will not be counted and will have no effect on the result of the vote.

Certain information about George M. Marcus, Gary P. Martin, and Michael J. Schall as the Class III director nominees is furnished below.

George M. Marcus is the founder and has been the Chairman of Essex Property Corporation (the predecessor to Essex Property Trust, Inc.) and The Marcus & Millichap Company since their inception in 1971. The Marcus & Millichap Company is the parent company of a diversified group of real estate service, investment and development firms. Mr. Marcus was one of the original founders of Greater Bay Bancorp, a publicly held financial institution, which was acquired by Wells Fargo in 2007. Committees of the Board of Directors

The Executive Committee has such authority as is delegated by the Board, including the authority to execute certain contracts and agreements with unaffiliated parties, except that the Executive Committee does not have the power to declare dividends or other distributions on stock, elect directors, issue stock other than in certain limited circumstances, recommend to the stockholders any action which requires stockholder approval, amend the Bylaws, or approve any merger or share exchange which does not require stockholder approval. The Executive Committee met four times during 2011.

The Audit Committee recommends the appointment of an independent registered public accounting firm to audit the financial statements of the Company for the fiscal year for which they are appointed, reviews audit reports and takes such action as may be deemed appropriate with respect to such audit reports. The Audit Committee also monitors the effectiveness of the audit effort, the Company's financial and accounting organization and its system of internal controls over financial reporting, and it reviews any allegations of wrongdoing that involve Company personnel. The Audit Committee operates under a written charter, which can be viewed at the Company's website on www.essexpropertytrust.com. The Board of Directors has determined that all Audit Committee members have no financial or personal ties to the Company (other than the director compensation and equity ownership as described in this proxy statement) and meet the New York Stock Exchange standard for independence. In addition, the Board of Directors has determined that all members of the Audit Committee are financially literate. The Board of Directors has limited the number of audit committees of public companies on which a current member of the Company's Audit Committee can simultaneously serve to three committees. The Audit Committee met five times during 2011.

The Board of Directors has also determined that Thomas E. Randlett is the "audit committee financial expert" as defined by the SEC's Regulation S-K Item 407(d).

The Compensation Committee establishes and reviews annually the Company's general compensation policies applicable to the Company's executive officers, reviews and approves the level of compensation of the Chief Executive Officer and other executive officers of the Company, reviews and advises the Board concerning the performance of the Chief Executive Officer and other employees whose compensation is within the review jurisdiction of the Compensation Committee, reviews and advises the Board concerning regional and industry-wide compensation practices and trends, and recommends benefit plans from time to time. The Compensation Committee also administers the 2004 Stock Incentive Plan and our long-term incentive program.

The Compensation Committee operates under a written charter which can be viewed at www.essexpropertytrust.com. All members of the Compensation Committee are independent directors within the meaning of the rules of the New York Stock Exchange. The Compensation Committee met five times during 2011.

The Board has delegated authority to the Chief Executive Officer (the "CEO") to grant stock options and restricted stock under the 2004 Stock Incentive Plan to Company employees (other than executive officers) in accordance with guidelines as to the number of options and or restricted stock to be granted to particular categories of employees. The CEO can grant such stock options and restricted stock in an amount not to exceed an aggregate of 20,000 shares. The Nominating and Corporate Governance Committee (the “Nominating Committee”) assists the Board of Directors in selecting nominees for election to the Board and monitors the composition of the Board. The Board of Directors has determined that all members of the Nominating Committee meet the independence requirements of the rules and regulations of the New York Stock Exchange. The Nominating Committee met twice during 2011.

The Nominating Committee will consider and make recommendations to the Board of Directors regarding any stockholder recommendations for candidates to serve on the Board of Directors. However, it has not adopted a formal process for that consideration because it believes that the informal consideration process has been adequate, given the historical absence of stockholder proposals, among other considerations. The Nominating Committee will review periodically whether a more formal policy should be adopted. Stockholders wishing to recommend candidates for consideration by the Nominating Committee may do so by writing to Jordan E. Ritter, Corporate Secretary, Essex Property Trust, Inc., 925 East Meadow Drive, Palo Alto, California 94303, providing the candidate’s name, biographical data and qualifications, a document indicating the candidate’s willingness to act if elected, and evidence of the nominating stockholder’s ownership of the Company’s stock at least 120 days prior to the next annual meeting to assure time for meaningful consideration by the Nominating Committee. The Nominating Committee evaluates nominees for directors using the criteria described below and it will use the same criteria when evaluating a nominee recommended by a Stockholder.

The Nominating Committee does not have a formal policy regarding considering diversity in identifying nominees for directors. In the past, when new directors have been added to the Board, the Board or the Nominating Committee has generally sought to select nominees with business specializations, technical skills or other qualities that differed from that of the existing directors and, as a result, the current directors on the Board have a diverse range of backgrounds and occupations, including real estate, financial services, accounting and finance, venture capital, investment banking and academia.

The Nominating Committee operates under a written charter setting forth the functions and responsibilities of the committee. A copy of the charter can be viewed at the Company’s website on www.essexpropertytrust.com.

In reviewing potential candidates for the Board, the Nominating Committee considers the individual’s real estate experience, the general business or other experience of the candidate, the needs of the Company for an additional or replacement director, the personality of the candidate, the candidate’s interest in the business of the Company, as well as numerous other subjective criteria. Of greatest importance is the individual’s integrity, willingness to get involved and ability to bring to the Company experience and knowledge in areas that are most beneficial to the Company. The Board intends to continue to evaluate candidates for election to the Board on the basis of the foregoing criteria.

The Nominating Committee further reviews current trends and practices in corporate governance and recommends to the Board of Directors the adoption of programs pertinent to the Company.

The Pricing Committee establishes the price at which the Company’s securities will be offered to the public in public offerings of the Company’s securities. The Pricing Committee did not meet during 2011.

Presiding Independent Director; Board Leadership Structure and Role in Risk Management

The Board has designated, in accordance with New York Stock Exchange corporate governance listing standards, George M. Marcus as the presiding independent director. The Company's non-management directors meet at regularly scheduled executive sessions, without management, at which Mr. Marcus presides.

The offices of the Chairman and the Chief Executive Officer of the Company are held by different individuals. The Chairman is Mr. Marcus, who is a founder of the Company and has a significant ownership interest. The principal executive officer is Mr. Schall, who is the Chief Executive Officer and a director. The Company has maintained a leadership structure of different individuals serving as Chairman and principal executive officer since its initial public offering in 1994. Mr. Marcus has extensive knowledge of the Company and the real estate industry, and the Company believes that because of his background and experience he is able to effectively lead the Board in providing oversight and direction to the Company's management. Mr. Marcus is involved in many other business and philanthropic activities. Mr. Schall's responsibility as the Chief Executive Officer is to oversee the day to day execution of the Company's business strategy.

With respect to the Board's role in the risk oversight of the Company, the Board has promulgated internal Company policies that set forth which transactions may require the prior approval of the Board or a committee of the Board and which transactions may proceed with management authorization and without any such Board prior approval. These Board policies cover transactions in the following areas: financings, property acquisition, property development, property redevelopment, property dispositions, other investments and general corporate activities. Generally, these policies set forth a specified dollar threshold and if a transaction exceeds that threshold, the prior approval of the Board or a committee of the Board is required. By requiring the prior approval of larger transactions, which generally may involve more risk to the Company simply due to the transaction size, the Board seeks to provide risk oversight of the Company. The Board has also set forth a policy that limits the aggregate indebtedness of the Company. The Board has promulgated a corporate investment policy that establishes guidelines with respect to investment of the Company's funds; such guidelines cover the required qualifications of outside investment managers and the types and concentration limits of investment securities that are authorized for investment. The Board's Compensation Committee has determined that the pay policies and practices of the Company are not reasonably likely to have a material adverse effect on the company. Also, related party transactions are generally reviewed by the Board or a committee of the Board. See "Certain Relationships and Related Persons Transactions – Policies and Procedures with Respect to Related Person Transaction."

Director Independence

Under independence standards established by the Board, a director does not qualify as independent unless the Board affirmatively determines that the director has no material relationship with the Company, either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company. The Board considers such facts and circumstances as it deems relevant to the determination of director independence. To assist in making its determination regarding independence, the Board considers, at a minimum, the following categorical standards:

- A director is not independent if the director is, or has been within the last three years, an employee of the Company, or an immediate family member is, or has been within the last three years, an executive officer of the Company.

Table of Contents

- A director is not independent if the director has received, or has an immediate family member that is an executive officer of the Company and who has received, during any twelve-month period with the last three years, more than \$120,000 in direct compensation from the Company (other than director and committee fees and compensation or other forms of deferred compensation for prior service, which compensation is not contingent upon continued service). Consistent with the commentary of the applicable NYSE listing standards, compensation received by a director for former service as an interim Chairman or CEO or other executive officer need not be considered in determining independence under this test, and compensation received by an immediate family member for service as an employee of the listed company (other than an executive officer) need not be considered in determining independence under this test.
- A director is not independent if (i) the director or an immediate family member is a current partner of a firm that is the Company's internal or external auditor; (ii) the director is a current employee of such a firm, (iii) the director has an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice; or (iv) the director or an immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the Company's audit within that time.
- A director is not independent if the director or an immediate family member is, or has been within the last three years, employed as an executive officer of any other company where any of the Company's present executive officers concurrently serves or served on that company's compensation committee.
- A director is not independent if the director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.
- A director is not independent if the director serves an executive officer of any tax exempt organization to which the Company has made, within the last three years, contributions in any single fiscal year that exceeded the greater of \$1 million or 2% of such tax exempt organization's consolidated gross revenues.

The Board has determined that the following directors and nominees for director have no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company), and each is independent within the meaning of independence as set forth in the rules of the New York Stock Exchange: David W. Brady, George M. Marcus, Gary P. Martin, Issie N. Rabinovitch, Thomas E. Randlett, Byron A. Scordelis, Janice L. Sears, Jr. and Claude J. Zinngrabe, Jr. The Company expects that following the election at the annual meeting, our Board of Directors will consist of ten directors, eight of whom are independent.

In determining the independence of Mr. Rabinovitch, the Board considered that his son-in-law is employed by Essex as one of the vice presidents of land acquisitions and development and is not an executive officer. In determining the independence of Mr. Martin, the Board considered that his adult son is employed by Essex at an entry level position and is not an executive officer. The Board also considered the ownership of Essex equity securities by the directors and determined, in accordance with principles of the NYSE listing standards, that such ownership is not inconsistent with a determination of independence.

Director Stock Ownership Guidelines

The Company encourages its independent directors to own shares of the Company's stock. In furtherance of this goal, the Company adopted a guideline as of January 1, 2010 for independent directors to own shares that are equal in value to approximately five times the director's annual cash retainer. The value of shares as of January 1, 2010 will be used for this guideline, except with respect to directors who join the board after 2010, and then the value of the Essex shares on the date that they join the board will be used. Directors are expected to achieve this goal within 4 years of its effective date or, with respect to new directors, within 4 years of joining the Board. The executive officers are expected to achieve this goal within 5 years of its effective date or, with

respect to new executive officers, within 5 years of attaining their position. The Board or the Nominating and Corporate Governance Committee may waive this requirement or modify this guideline under certain circumstances.

DIRECTOR COMPENSATION

Each continuing director, who is not an executive officer, receives, or has received, the following compensation under our current director compensation program adopted in February 2010:

- An annual grant of options for that number of shares as determined by having the grant have a value of \$50,000 as based on using the Black-Scholes option pricing methodology. With respect to annual grants of options, directors can elect, in lieu of an option grant, to receive a restricted stock award for that number of shares as determined by having the restricted stock grant equal to a value of \$50,000 based on the Black-Scholes pricing methodology. Directors must make this election at the time of the company's annual meeting, at which time such grant of options or restricted stock will be made. Annual grants of options or restricted stock will completely vest one year after the date of grant.
- An annual cash retainer, paid quarterly, in the amount of \$22,000 per year.
- A board attendance fee of \$1,000 per meeting attended.
- A committee attendance fee of \$500 per meeting, except as to regularly scheduled Audit Committee meetings, for which a \$2,000 attendance fee is paid. With the exception of meetings of the Audit Committee, no meeting attendance fees shall apply when both Board of Directors and committee meetings occur on the same day.
- The Chairman of the Audit Committee, Mr. Randlett, receives \$10,000 per year, payable quarterly, in addition to the other compensation indicated above.

Each non-employee director, upon joining the Board of Directors, receives an automatic grant of options for that number of shares as determined by having the grant have a value of \$80,000 based on the Black-Scholes option pricing methodology. Such options become exercisable as to one-third of the shares of common stock subject to the option on each yearly anniversary of the grant date, such that the options granted will be fully exercisable three years after the grant date. In the event of a change of control of the Company, the Board may unilaterally cancel unexercised director options, after advance written notice has been provided to each affected director.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary. The Company's goals for its executive compensation program are (i) to attract, motivate and retain experienced, effective executives, (ii) to direct the performance of those executives with clearly defined goals and measures of achievement, and (iii) to align the interests of management with the interests of our stockholders. With regard to absolute levels of executive compensation and the compensation programs we use, the Compensation Committee periodically reviews relevant information about competitive pay levels and structures but also considers a number of other factors, as described below.

Each year the Board sets annual corporate goals that are designed to promote shareholder value creation over a multiple year period. These corporate goals are used as the basis for measuring management performance, a key consideration in granting both cash bonuses and long term equity. These goals, which include measures of performance on both an absolute basis as well as relative to peers, are described in more detail in the discussion below. Goals for 2011 included specific company performance metrics such as per share growth in Funds from Operations ("FFO"), yields from recent investment transactions relative to the pro-forma underwriting, and discretionary objectives, such as progress on specific corporate initiatives.

Table of Contents

The compensation of our executive officers also reflects performance against individual and (where appropriate) business unit goals, as described in the discussion below. Achievements for 2011 included the following:

- Reported FFO per share, excluding non-core items, of \$5.64, representing a 12% increase compared to 2010. We exceeded our original guidance for both same-property net operating income (“NOI”) growth and per share FFO growth.
- Completed the construction and lease up of seven communities, including Via, a 284-unit community located in Sunnyvale, California. Via was a ground up development that was completed over six months ahead of schedule and below our budgeted cost, generating an attractive return on our investment.
- Maintained strong liquidity and conservative debt structure through access to both debt and equity capital sources. Reflecting the commitment to a well structured balance sheet, Standard and Poor's improved our unsecured debt rating to BBB and, in February 2012, Moody's published their rating of Baa2.
- Raised \$324 million in equity at an average price of \$133.29 per share through our at-the-market (“ATM”) program and issued \$265 million in senior unsecured bonds to match fund investment activities.
- Established two co-investment funds with institutional partners. During the year, these funds acquired \$600 million in total assets and started construction on two development projects, exceeding our original investment targets.
 - Expanded our unsecured credit facility to \$425 million with extensions through December 2016.
 - Our total stockholder return in 2011 was 27%.

We believe that our executive management and our company performed well in 2011 when measured against the corporate and business unit performance goals established at the beginning of 2011. Accordingly, our Board's compensation committee determined that the Company's management achieved all of its corporate, team and individual goals and, as a result, the annual cash bonuses were paid at approximately 100% of their targeted amounts.

Effective January 1, 2011 our former Chief Executive Officer retired and the Chief Operating Officer was promoted to Chief Executive Officer. The Company has not filled the position of the Chief Operating Officer and instead increased the responsibilities of our Chief Financial Officer and the Executive Vice President of Asset Management. Accordingly the salaries for these positions were increased in 2011 from their 2010 levels.

Table of Contents

In 2012 the Company's Compensation Committee retained Mercer to select a peer group of fifteen REITs and complete a review of the executive compensation levels and practices relative to the peer group. Based on the results of the study, the Compensation Committee increased the salary of the Chief Executive Officer ("CEO") by \$100,000 per year effective April 1, 2012 which is slightly below the 25th percentile of the peer group. The Compensation Committee also established a non-discretionary bonus incentive program in 2012, that if the maximum amount is achieved, it could increase the CEO bonus by \$125,000 which is slightly higher than the 50th percentile of the peer group. The 2012 performance criteria for the non-discretionary bonus includes achieving certain levels of same-property NOI growth, core FFO growth and external growth goals.

Shareholder advisory vote on compensation. In 2011, the Company held a "say-on-pay" vote on the Company's executive compensation program as set forth in the proxy statement and 94% of the votes cast voted "for" the proposal. The Compensation Committee will consider the results of the shareholder vote in finalizing 2012 compensation but because a substantial majority of shareholders approved the compensation program, the Committee continued to apply the same principles in determining the amounts and types of executive compensation and did not implement substantial changes as a result of the shareholder advisory vote. In connection with the proposal seeking advisory approval of the executive compensation program, shareholders also voted on a separate non-binding shareholder vote to advise on whether the say-on-pay vote should occur every one, two or three years. A majority (88%) of votes cast voted "for" an annual vote. The Company has decided to accept the advisory vote cast by the Company's shareholders and, therefore, an advisory vote on the compensation of the Company's named executive officers will be held on an annual basis until the next required vote on the frequency of shareholder votes is held.

Role and Procedures of the Compensation Committee. Our Board's Compensation Committee, composed of independent, non-employee directors, determines and approves the compensation arrangements for the named executive officers. The Committee has the authority to select, retain and terminate special counsel and other experts (including compensation consultants) as the Committee deems appropriate. During 2012 the Committee retained the services of Mercer to select a peer group of fifteen REITs and complete a review of the Company's executive compensation programs.

While the Compensation Committee determines Essex's overall compensation philosophies and sets the compensation for the CEO and other executive officers, it looks to the CEO to make recommendations with respect to both overall compensation policies and specific compensation decisions. For the upcoming fiscal year, the CEO recommends to the Compensation Committee the levels of base salary, targeted annual bonus and long-term equity for the named executive officers other than himself, within the elements of compensation otherwise established by the Committee. The sum of such base salaries and targeted bonuses and long term equity compensation, if any, is included in the Essex annual business plan, which is approved by our Board. Also, at that time, the Committee reviews and approves goals for the upcoming year for specific executive officers. Such goals may include company-wide, business unit and individual goals.

At the end of a fiscal year, the Board reviews actual performance against such goals and, in consultation with the CEO and as discussed further below, sets the actual bonuses to be paid to the executive officers. The CEO also provides the Compensation Committee with his perspective on the performance of Essex's executive officers as well as a self-assessment of his own performance. The Committee establishes the compensation package for the CEO. Our Chief Financial Officer also attends certain of the Compensation Committee's meetings to provide perspective on the competitive landscape and the needs of the business and to discuss potentially new elements for the executive officer's compensation packages.

However, the Committee did not utilize any specific or numeric percentile or other benchmark within the peer group companies for this purpose.

Compensation Program Objectives. The objectives of our compensation program for named executive officers are to:

- Attract, retain, and motivate executive officers through the overall design and mix of cash, equity, and short and long-term compensation elements;
- Reward individual performance by tying significant portions of short-term compensation in the form of salary and annual bonus opportunity to achievement of individual performance; and

Table of Contents

- Align the interests of executive officers with the interests of our stockholders by tying significant portions of short and long- term compensation, in the form of annual bonus and long-term equity based awards, to increasing distributable cash flow to shareholders, and increasing the value of our common stock based on the acquisition, development, redevelopment and onsite property management of apartment communities.

Within these objectives, the Compensation Committee believes that the primary goal of our executive compensation program should be related to creating stockholder value. The Committee seeks to offer the named executive officers competitive compensation opportunities based upon their personal performance, the financial performance of Essex as compared to other REITs, and their contribution to that performance. The executive compensation program is designed to attract and retain executive talent that contributes to long-term success, to reward the achievement of our short-term and long-term strategic goals, to link executive officer compensation and stockholder interests through equity-based plans, and to recognize and reward individual contributions to corporate performance.

Key elements. The key elements of our current compensation program for the named executive officers are summarized in the table below:

Compensation element:	Why this element is included:	How the amount of this element is determined:	How this elements fits in the overall program:
Base salary	Customary element necessary to hire and retain executives.	Base salary and any changes in salary are based on views of individual retention or performance factors and market data at peer companies (but without specific benchmarking).	Short-term cash compensation that is fixed and paid during the year.
Annual bonus	Customary element appropriate to motivate executives and tie a significant compensation opportunity to a mix of individual and corporate performance.	Annual bonus is based primarily on discretionary and subjective review of individual and business performance factors based on the achievement of the operating performance budget approved by the Board and the meeting of annual performance goals,	Short-term cash compensation that is contingent on Compensation Committee discretion.
Equity incentive – stock options grants and Essex Operating Partnership Units	Equity compensation for long-term retention of management and alignment of shareholder interest that complements cash compensation and provides performance incentives.	<p>Stock option awards and Series Z and Z-1 Unit awards are determined primarily based on how the award's grant date value relates to the officer's total compensation and how the vesting and other aspects of the awards might incentivize performance.</p> <p>Series Z and Z-1 incentive units are generally convertible into Essex Common Stock at the earlier of 15 years after their grant date or upon 100% vesting. Z and Z-1 Units vest only if certain performance conditions are achieved.</p>	<p>Long-term compensation is primarily contingent on performance goals which are expected to be consistent with an increase in the long-term value of our common stock into which the units are ultimately exchangeable. Compensation element:	Why this element is included:	How the amount of this element is determined:	How this elements fits in the overall program:
Severance plan	For hiring and retaining executives, this element provides a reasonable level of continued economic benefit if a change of control and related termination was to occur. As stated below under the caption “Severance and Other Benefits Upon Termination of Employment of Change or Control”, these payments provide a reasonable level of incentive for the covered individuals to remain with Essex prior to any proposal or contemplation of, and during any negotiations for, a change of control.	The element provides that in the event of a change of control and related termination within the 12 months thereafter, an executive receives two times his current annual salary and targeted bonus, continued insurance benefits and potential tax gross up payments.	A supplement to the base salary and annual bonus arrangements, which addresses possible change of control situations.
Perquisites	Customary element necessary to hire and retain executives.	Generally based on perquisites being offered by comparable companies.	A supplement to the base salary.

Base Salaries. None of our executive officers have an employment agreement. Base salaries are viewed as a customary element necessary to hire and retain executive officers. Base salary and any changes in base salary are based on views of individual retention and/or performance factors and market data at peer companies, without benchmarking. For 2011, the Compensation Committee established base salaries in light of these considerations as well as subjective assessments of individual performance, scope of responsibilities, expertise and experience, and Essex’s financial performance and condition. The base salaries increased for Michael Schall, Michael Dance and John Burkart to reflect promotions and increases in responsibility and are reported in the “Summary Compensation Table” below.

Executive	Salary 2010 (\$)	Salary 2011 (\$)	Percentage Change

Annual Bonuses. Each named executive officer is eligible to earn an annual cash bonus based on the achievement of the operating performance budget approved by our Board and the meeting of performance goals during the year. The performance goals used for determining an officer's annual bonus fall into one or more of the following categories, as determined by the Compensation Committee and by the CEO in his recommendations to the Compensation Committee:

- individual performance;
- corporate and business unit performance; and
- the functions performed by the executive officer.

Although the Compensation Committee considers these factors, the Committee's analysis is generally discretionary and subjective rather than objective and the weight given such factors may vary from individual to individual.

Each year a target bonus amount is established for each named executive officer, and the sum of all target bonuses are included in the Essex annual business plan which is approved by our Board. To the extent that Essex does not meet its annual business plan targets and its results are less than the plan targets, the annual target bonus amounts can be reduced to zero. In years that Essex exceeds its financial targets, the Compensation Committee has awarded the named executive officers annual bonuses that are as much as twice the individual's target bonus amount.

The Company believes that Funds from Operations ("FFO") per share is its primary corporate performance measure. The Board reviews and approves an annual FFO per share target. The Compensation Committee monitors management's achievement of the set dollar amount target and on a relative basis (ranking in the top quartile of the multifamily REITs with respect to FFO per share growth). The target levels for the dollar amount of FFO per share changes from year to year and are dependent on a number of factors, including expectations surrounding internal and external earnings, general economic conditions, real estate fundamentals and other specific circumstances facing the Company in the coming year. The compensation committee also establishes FFO goals that are consistent with the board approved operating plan for the Company. With respect to the goal of being in the top quartile of multifamily REITs with regard to FFO per share growth, such goal reflects the performance by the Company exceeding that of at least 75% of such REITs and is useful for rewarding for performance on a relative basis. For 2011, the following specific goals were set for corporate performance:

- Achieve FFO per diluted share of \$5.51;
- Rank in the top quartile of multifamily REITs with respect to 2011 Core FFO results (excludes non-routine items); and
- External growth investments funded in 2009 and 2010 achieving better than their underwritten cash flows for 2011.

For 2011, FFO per diluted share was \$5.74, which met the performance goal and after adjustments for non-routine items was \$5.64 per share. For a discussion of the calculation of FFO, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Funds from Operation (FFO)" in our Form 10-K for the fiscal year ended December 31, 2011. The Compensation Committee considered qualitative and quantitative measures in concluding that the Company achieved the goal of ranking in the top quartile of multifamily REITs with respect to 2011 FFO per share results. The Company's 2009 and 2010 external growth investments exceeded the underwritten cash flows. Thus, the Compensation Committee accordingly concluded that the corporate performance goals had been achieved.

Table of Contents

The 2011 targeted bonus amounts for the named executive officers ranged from 100% to 140% of their annual base salary amounts. The targeted bonuses are set within these percentages of base salary to incentivize the executives to focus on their individual and business unit goals that are in turn tied to the FFO and top quartile ranking corporate performance goals. For 2011, the executive officers were provided an opportunity to earn a target bonus ranging from \$310,000 to \$475,000, based on the Compensation Committee's subjective determination that this amount for each officer provided appropriate individual incentives and at the same time helped promote cooperation and leadership among the executive team.

Key specific factors considered by the Compensation Committee and the CEO in his recommendations to the Compensation Committee in determining bonuses for 2011 were based on the Company exceeding the FFO per diluted share target for 2011, our ranking in the top quartile of multifamily REITs with respect to core 2011 FFO per share growth, exceeding the external growth investment goals for investments funded in 2009 and 2010, and meeting or exceeding the individual and business unit goals described below. Unit goals are in turn tied to the FFO and top quartile ranking corporate performance goals.

Mr. Schall, Chief Executive Officer in 2011, received his targeted 2011 bonus of \$475,000 for achieving or exceeding the financial and operating objectives, identifying and mentoring future leaders, redefining the role of information technology and human resources and other strategic initiatives.

Mr. Dance, Chief Financial Officer, received his targeted 2011 bonus of \$375,000 for his individual and business unit contributions in the achievement of the corporate goals based on achieving personal goals including providing effective sources of capital to fund acquisitions and his assuming the responsibility for overseeing the Company's human resources and information systems.

Mr. Eudy, Executive Vice President, Development received his targeted 2011 bonus of \$375,000 for his individual and business unit contributions of completing the Via development ahead of schedule and below budget, and the start of five new development projects which were important to the Company's achievement of its corporate goals.

Mr. Zimmerman, Executive Vice President, Acquisitions received his targeted 2011 bonus of \$375,000 for his individual and business unit goal by completing over \$533 million in property acquisitions which we expect to improve the growth rate of the portfolio.

Mr. Burkart, Executive Vice President of Asset Management received \$25,000 over his targeted 2011 bonus for a total of \$350,000 for exceeding his individual and business goals for asset management achievements, including the renovation and dispositions of assets.

The 2012 Short-Term Incentive Target Award Opportunities for the named executive officers are approximately 100% of their annual base salary. The Target Award Opportunities are set at these percentages of base salary to incent the executives to achieve their individual, business unit, and the corporate performance goals.

Table of Contents

For 2012, our executive officers are provided an opportunity to earn incentives as follows:

2012 Short-Term Incentive Award Opportunity

Executive	Targeted Discretionary Bonus (\$)	Targeted Non- Discretionary Incentive Bonus (\$)	Maximum Bonus (\$)
Michael Schall, CEO	200,000	200,000	600,000
Michael Dance, CFO	150,000	150,000	450,000
Craig Zimmerman, EVP	150,000	150,000	450,000
John Eudy, EVP	150,000	150,000	450,000
John Burkart, EVP	130,000	130,000	390,000

The Targeted Non-Discretionary Incentive Bonus is tied to achieving corporate performance goals. Each executive will be paid based on meeting objective corporate performance goals with a maximum opportunity of up to 150% of the targeted bonus if specific performance levels exceeding the objective corporate performance goals are achieved at levels consistent with the Company's high end of its 2012 guidance. The targeted corporate performance goals for 2012 are based on achievement of the board approved operating plan in the following areas:

- 1) Same Property NOI guidance, adjusted for dispositions;
- 2) FFO/share;
- 3) Aggregate FFO accretion from external growth investments; and
- 4) Actual versus underwritten yields from 2010 and 2011 acquisitions and developments.

The Targeted Discretionary Bonus, for each executive will be earned based on achievement of both objective and subjective factors, including the evaluation of the officer's handling of his day-to-day responsibilities, and individual performance goals and, in some cases, business unit goals. For 2012, the primary individual-based bonus criteria for the payment of the Targeted Discretionary Bonus is as follows:

- Mr. Schall's goals include achieving the Company's financial and operating objectives, identifying and mentoring future leaders, implementation of new information technology and human resources and other strategic initiatives.
- Mr. Dance's goals include achieving the Company's financial and operating objectives, accessing the unsecured debt markets, improving managerial reporting and overseeing human resource and information system initiatives.
- Mr. Eudy's goals include the initiation of new development starts totaling between \$100 and \$150 million with projected capitalization rates of an appropriate premium over acquisition capitalization rates and completing active development projects on time and on budget.

Table of Contents

- Mr. Zimmerman's goals include allocating capital via acquisitions to the supplied constrained markets with the best return potential resulting in over \$400 million in acquisitions and other investments at returns that exceed the cost of capital.
- Mr. Burkart's goals include identifying assets for renovations to improve the long term performance including unit upgrades to achieve targeted returns and the disposition of assets that are not expected to achieve the desired long term returns on investment.

Long-Term Equity Incentives. The Essex long-term equity incentive program is designed to provide an opportunity for management to share in the value creation to shareholders. The Compensation Committee approves the granting of new awards as well as determining the performance criteria for the annual increases in the conversion ratio (equivalent to vesting) for Series Z and Z-1 incentive unit awards.

Awards granted under the Essex long-term incentive program include restricted operating partnership units, referred to as "Z and Z-1 incentive units", issued and sold to designated executive officers in 2001, 2004, 2005, 2010 and 2011. As described more fully under the caption "Series Z and Series Z-1 incentive units," these incentive units are convertible into limited partnership units of the Essex operating partnership, which are exchangeable for shares of Essex common stock. The conversion ratio generally starts at zero upon issuance of the awards and may increase up to 14% each year for 2010 and 2011 grants and up to 10% each year for earlier grants, and up to 20% in certain circumstances in the year following their initial issuance, in which Essex meets the performance criteria set forth in the plan. The Compensation Committee may revise the criteria for increases in the conversion ratio to reflect different or additional parameters, objectives or performance measures if it determines that the funds from operations per share performance measure is no longer appropriate for establishing management objectives or that the target levels are no longer feasible in light of factors or circumstances outside of Essex's control (such as general economic conditions, legal/regulatory changes, war or similar events). To change such criteria, the Compensation Committee must further determine that the revised criteria are, as a whole, comparable or more effective for analyzing the performance of the Company and incentivizing the executives and that such amended or revised criterion shall not be more difficult to achieve than the funds from operations target measure set forth in the plan. The sale of these incentive units is contractually prohibited, Z and Z-1 Units are convertible into operating partnership common units which are exchangeable for shares of Essex common stock that may have marketability restrictions.

For 2011, the conversion ratio of outstanding units increased by 7.5% for the 2004, 2005 and 2010 grants, and 10% for the 2011 grant effective on January 1, 2012. For the 2004 and 2005 grants, the increases were based on Essex exceeding the board's approved 2011 Funds from Operations budget and having a "Core" FFO growth rate that was in the top 25% of the multifamily REITs. Core FFO increased by 12.4%, and the Compensation Committee considered both qualitative and quantitative factors in concluding that the Company's 2011 results were in the top quartile of apartment REITs. For the 2010 and 2011 grants, increases were based on the increases in FFO and the achievement of FFO targets, respectively. For a discussion of funds from operations see "Item 7. Management's Discussion in our Form 10-K for the fiscal year ended December 31, 2011."

In December 2011, the Compensation Committee granted equity awards to each of our named executive officers. The Committee granted unvested units pursuant to the Series Z-1 incentive unit program described above to the named executive officers, totaling 5,000 Z-1 units and 20,000 stock options to Mr. Schall and 2,000 Z-1 units, and 12,500 stock options to each of Messrs. Dance, Eudy and Zimmerman and to Mr. Burkart 7,000 Z-1 units and 5,000 stock options. Stock options were granted with an exercise price of \$132 per share (the fair value on the date of grant), vesting 10% on the grant date and 20% per year beginning December 2012. The Committee determined the relative amounts of these awards based primarily on considerations of how the grant date value of each award related to the total compensation of each officer, and how the long term vesting and incentive aspects of each award would incentivize our executive team to focus on longer term corporate performance. The Committee also made an overall

subjective determination that the awards reflected an appropriate part of total compensation for the officers in light of the longer term value that might be realized from the awards if applicable performance targets are met. See “Summary Compensation Table” and “Grants of Plan-Based Awards for 2011” below for further information on total compensation and grant date values.

Nonqualified Deferred Compensation. Named executive officers are currently permitted to make elections to defer up to 100% of their base salaries and bonuses under Essex's Deferred Compensation Plan. Essex believes that providing the named executive officers and other eligible employees with nonqualified deferred compensation opportunities is a cost-effective supplemental benefit that enables named executive officers to defer income tax on deferred salary and bonus payments, even though Essex also defers the related deduction. Essex makes no matching contributions to the plan. Additional information concerning this deferred compensation plan is set forth in the Nonqualified Deferred Compensation table and related text below.

Retirement Benefit. Named executive officers are eligible to participate in the Essex tax-qualified 401(k) plan. Essex does not make any additional matching contributions to the officers' accounts. Essex does not maintain any defined benefit, pension, or supplemental or "excess" retirement plans for the named executive officers.

Severance and Other Benefits Upon Termination of Employment or Change of Control. Under the Essex Property Trust, Inc. Executive Severance Plan established in May 2001, each of our named executive officers would be entitled to benefits defined under the plan if, within the 12 months after a change of control of Essex (as defined in the section titled "Potential Payments Upon Termination or Change of Control"), the individual's employment is terminated by the employer without cause or by death or disability, or if the individual resigns for good reason, as defined in the plan.

The benefits in such event generally consist of:

- severance payments of two times current annual base salary and two times the individual's target annual bonus;
- continuation of health, dental and life insurance for up to 24 months to be paid by the Company;
- the right to exercise all vested and unvested stock options or receive a payment cashing out the equity in options, depending on whether the acquiring company elects to assume the options; and
- a right to receive "tax gross up payments" sufficient to pay the excise taxes that may arise under Sections 280G, 409 and 4999 of the Internal Revenue Code of 1986, as amended (the "Code") concerning "excess parachute payments".

The Compensation Committee believes that these provisions provide a reasonable level of continued economic benefit to the named executive officer if a change of control and related termination event were to occur, are a reasonable balance to the at will nature (and lack of fixed terms) of employment for the officers, and provide a reasonable level of incentive for the covered individuals to remain with Essex prior to any proposal or contemplation of, and during any negotiations for, a change of control. The Committee also believes that the 12-month period following a change of control in which a terminating event must occur restriction, and the 2 years' cash benefits, together with accelerated vesting of options, is in line with or provides lesser benefits than the scope of change of control benefits offered by many companies the Committee considers to be comparable. The Executive Severance Plan was established in 2001. Generally, the existence of this plan, and the potential benefits to executive officers under it, does not affect the annual determination of an executive officer's base salary, cash bonus or long-term incentive unit grants.

Table of Contents

The Z and Z-1 incentive units do not receive “accelerated vesting” in the form of increased conversion rights or otherwise upon a change of control. The severance plan calls for cash benefits at twice the annual rate of current compensation. Due to these and other factors, if a change of control were to occur based on current circumstances, the severance benefits should not result in any “excess parachute payment” or associated tax gross up under the severance plan. However, the computation of the excise tax on excess parachute payments is complex, and results could differ significantly under changed future circumstances.

Life insurance and perquisites. Named executive officers receive automobile allowances or leased automobiles, automobile insurance, annual DMV renewals, health and dental insurance and payment of life insurance premiums. The Committee believes that such perquisites are comparable to, or less than, what are provided by comparable companies.

Tax and Accounting Considerations. Section 162(m) of the internal revenue code of 1986, as amended, prohibits the Company from deducting compensation in excess of \$1 million for certain executive officers unless certain performance, disclosure, and stockholder approval requirements are met. Option grants under the Essex 1994 and 2004 Stock Incentive Plans are intended to qualify as “performance-based” compensation not subject to the Section 162(m) deduction limitation. The Committee’s present intention is to qualify, to the extent reasonable, a substantial portion of the executive officers’ compensation for deductibility under applicable tax laws. However, the Committee reserves the right to design programs that incorporate a full range of performance criteria important to the company’s success, even where compensation payable under such programs may not be deductible.

Under the incentive program involving the issuance of Series Z and Series Z-1 incentive units of limited partnership interests in the Essex operating partnership, vesting in the units is based on performance criteria established in the plan. The estimated fair value of a unit is determined on the grant date and considers the company’s current stock price, the unpaid dividends on unvested units and the discount factor for the 8 to 15 years of illiquidity. Compensation expense for the units is calculated by taking annual vesting increases multiplied by the estimated fair value as of the grant date less each unit’s \$1.00 purchase price.

See Note 13 to Notes to Consolidated Financial Statements in our Form 10-K for the fiscal year ended December 31, 2011, for a discussion of the accounting for our stock based compensation plans.

Stock ownership guidelines. The company has stock ownership guidelines that require executives to acquire and hold a certain amount of company shares and all named executive officers were in compliance with such guidelines as of December 31, 2011.

Compensation Committee Report

This report is not deemed to be soliciting material, filed with the SEC, or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) except to the extent that Essex specifically incorporates it by reference into a document filed with the SEC. The Compensation Committee reviewed and discussed the above Compensation Discussion and Analysis (“CD&A”) with the Company’s management. Based on the review and discussions, the Compensation Committee recommended to the Company’s Board of Directors that the CD&A be included in this proxy statement.

Series Z and Series Z-1 Incentive Units

The Company has adopted an incentive program involving the issuance of Series Z incentive units and Series Z-1 incentive units of limited partnership interests in the operating partnership. This program is intended to further the Company's objective of long-term growth in funds from operations per share by providing long-term incentives to those key employees of the Company who will be largely responsible for the achievement of such long-term growth. The Series Z incentive units and Series Z-1 incentive units are a means to link compensation to targeted levels of growth in funds from operations per share.

Table of Contents

The issuance of Series Z incentive units and Series Z-1 incentive units is administered by the Company's Compensation Committee. Participants in the program are senior management and key employees of the Company. The Compensation Committee has the authority to select participants and determine the awards to be made to each.

Up to 200,000 Series Z incentive units are authorized to be issued under the Series Z incentive units program. On June 28, 2001, the operating partnership issued all 200,000 Series Z incentive units to eleven senior executives of the Company in exchange for a capital commitment of \$1.00 per Series Z Incentive Unit. No further Series Z incentive units may be issued. On January 1, 2011, the Series Z incentive units became 100 percent vested and were converted into common units of the Operating Partnership.

Up to 400,000 Series Z-1 incentive units are authorized to be issued under the Series Z-1 Incentive Unit Program. In June 2004, the operating partnership issued 95,953 Series Z-1 incentive units to fourteen executives of the Company in exchange for a capital commitment of \$1.00 per Unit. In 2005, the operating partnership issued 116,999 Series Z-1 incentive units to sixteen executives of the Company for cash or a capital commitment of \$1.00 per unit. In 2010, the operating partnership issued 108,000 Series Z-1 units to twenty executives of the Company in return for cash of \$1.00 per unit from seven executive officers of the Company, and a capital commitment from the remaining thirteen executives of \$1.00 per unit. In 2011, the operating partnership issued 46,500 Series Z-1 units to fourteen executives of the Company in return for cash from eight executive officers of the Company, and a capital commitment from the remaining six executives of \$1.00 per unit.

Upon certain triggering events, the Series Z-1 incentive units will automatically convert into common units of limited partnership interests in the operating partnership. The incentive units' conversion ratio varies over time. Upon issuance, the conversion ratio is generally zero. With respect to the Series Z-1 units issued prior to 2010, on each January 1 following the issuance, the conversion ratio increases by up to 10%, and up to 20% in the first year following the initial issuance, if (i) the participating executive is still employed by the Company and (ii) the Company has met a specified "Funds from Operations" per share target, or such other target as the Compensation Committee deems appropriate for the previous year. The maximum conversion ratio is 100%.

The 2010 Z-1 Units are convertible one-for-one into common units of the Operating Partnership (which, in turn, are convertible into common stock of the Company) upon the earlier to occur of 100 percent vesting of the units or the year 2025. The conversion ratchet (accounted for as vesting) of the 2010 Z-1 Units into common units, increased to 20 percent effective January 1, 2011 since the Company achieved the FFO target of \$4.75 per diluted share in 2010. Each year thereafter, vesting of the 2010 Z-1 Units will be consistent with the Company's annual FFO growth, but is not to be less than zero or greater than 14 percent.

The 2011 Z-1 Units are convertible one-for-one into common units of the Operating Partnership (which, in turn, are convertible into common stock of the Company) upon the earlier to occur of 100 percent vesting of the units or the year 2026. The conversion ratchet (accounted for as vesting) of the 2011 Z-1 Units into common units, increased to 10 percent effective January 1, 2012 because the Company achieved the FFO minimum target of \$5.65 per diluted share in 2011. Each year thereafter, vesting of the 2011 Z-1 Units will be consistent with the Company's annual FFO growth, but is not to be less than zero or greater than 14 percent.

Table of Contents

The Series Z-1 incentive units automatically convert into common units of the operating partnership if either (i) the conversion ratio reaches the maximum level of 100%, (ii) none of the participating executives remain employed by the Company, (iii) the Company dissolves or is liquidated, or (iv) generally fifteen years after the date of issue of the specific unit. In certain change of control situations, the participating executives will also be given the option to convert their units at the then-effective conversion ratio. In addition, the operating partnership has the option to redeem Series Z-1 incentive units held by any executive whose employment has been terminated for any reason and is obliged to redeem any such units upon the death of any holder. In such event, the operating partnership has the option of redeeming the units for common units of the operating partnership or shares of the Company's common stock based on the then-effective conversion ratio.

Holders of Z-1 incentive units are also allowed to elect an early conversion once a year and such conversion is based on the conversion ratio as of January 1 of the year of election. Holder may elect to convert up to that number of common units into which their total holdings of incentive units is convertible. Based on the number of common units a holder elects to receive, the conversion ratio of the equivalent number of incentive units is increased to 100% and those incentive units are then converted into common units on a one-for-one basis. The conversion ratio for the remaining units is then adjusted accordingly so that there is no overall change in the number of common units issued or issuable upon conversion of all incentive units held by a holder, as based on the current conversion ratio. Common units, issued upon conversion of incentive units, are in turn exchangeable on a one-for-one basis into shares of the Company's common stock. Such shares are subject to limitations as to when they can be sold or otherwise transferred.

The Series Z-1 incentive units are entitled to participate in regular quarterly distributions paid out by the operating partnership. These units receive a percentage, generally based on the current conversion ratio of the units, of such quarterly distributions.

Executive Severance Plan

We discuss our executive severance plan and related quantitative disclosure based on assumed triggering events below under the heading "Potential Payments Upon Termination or Change Of Control" below.

Nonqualified Deferred Compensation

The named executive officers are currently eligible to participate in the Essex Portfolio, L.P. 2005 Deferred Compensation Plan, which is referred to in this proxy statement as the “2005 deferred compensation plan.” The 2005 deferred compensation plan, which was adopted on December 2, 2008 and replaced an older plan, to comply with Section 409A of the Internal Revenue Code. Under the deferred compensation plan, eligible employees, which include the named executive officers, may elect in accordance with plan procedures to defer up to 100% of their base salary and up to 100% of their cash bonus (and other cash compensation) in any year, in each case, after taking into effect reductions due to income and payroll tax withholding and contributions to benefits plans. Essex does not currently make company matching contributions, although the plan allows the company to make a discretionary contribution. Deferral elections under the 2005 deferred compensation plan must generally be made by December 15th of the calendar year proceeding the calendar year in which the compensation that is to be deferred is scheduled to be earned.

Distributions of the deferred accounts under the 2005 deferred compensation plan are made on the earliest of (1) the participant’s “separation from service,” as defined in the plan, (2) a “change in control,” as defined in the plan or (3) a date specified by the participant at the time the deferral election was made. The distributions are payable in a lump sum, except that a participant may elect a payout of amounts exceeding \$150,000 as of the distribution date over a period of 5, 10 or 15 annual installments. Distributions under the 2005 deferred compensation plan payable to a “key employee” (as defined in the plan) in connection with a separation from service will be delayed for six months (to the extent required to comply with Section 409A of the Internal Revenue Code).

Under the plans, the earnings in an officer’s account are based on investment earnings (or losses) equal to the actual net investment earning or losses experienced by the investment selected by the participant. Accordingly, any earnings are based solely upon the investment allocations directed by the officer. Essex does not make these investment decisions or guarantee any particular rate of return or other benefit under the plan. Under the investment policies of the plans, and subject to administrative approval, investments may be directed by the officer in any securities generally available and traded on US public markets. However, the plan prohibits investments such as derivative securities, securities issued by Essex, tax-exempt securities, foreign securities not listed on the NYSE, securities determined by the administrator to be illiquid, securities purchased on margin, and a number of other categories intended to limit the permitted investments to securities regularly and publicly traded in the US market. The plans do not impose specific limitations on the frequency of investment selections or changes in investments.

Although each participant’s account is wholly unfunded, the investments selected by the officer are purchased by Essex in and for its own account, which account is maintained by Essex with a brokerage firm, and the return on the deferral account is derived solely from these purchased investments directed by the officer. The plan administrator will not monitor a participant’s investment instructions, but it may require the participant to liquidate an investment that is determined to be inconsistent with the plan’s investment policy, other plan provisions, or the company’s brokerage account agreement. The following tables provide information concerning compensation deferred under the prior deferred compensation plan and the 2005 deferred compensation plan by the named executive officers as of the end of 2011.

Potential Payments upon Termination or Change of Control

The Company maintains an executive severance plan, which was amended and restated effective December 31, 2008, that covers the President, the Chief Financial Officer, any Executive Vice President, any Senior Vice President, certain First Vice Presidents, and any Vice President with ten or more years of service with the Company, which includes, among others, Messrs. Schall, Dance, Eudy, Zimmerman and Burkart. Under this plan, if there is a change of control of the Company (as defined below), all stock options granted to officers covered by the plan shall become fully exercisable and be valid and outstanding for the remainder of their original terms, regardless of any subsequent termination of such officer's employment, except in the event of a merger in which outstanding options are to be terminated without being assumed by the acquiring company, the officers will receive payment equal to the value of the cancelled stock options

In addition, the plan provides that if within the 12 months following a change of control of Essex, Essex terminates without "cause" any officer covered by the plan or the officer terminates his or her employment for "good reason," (as these terms are defined in the plan), Essex will pay the officer an amount equal to twice such officer's current annual base salary, twice such officer's targeted annual bonus, and pay for up to 24 months' of health, dental and life insurance premium benefits. The severance amounts are payable in one lump sum within 31 days following the termination date, except that payments to officer who are "specified employees" at the time of payment will be subject to a 6-month delay. "Good reason" includes a number of circumstances including a substantial adverse change in the officer's authority, duty or power, a reduction in annual base salary that does not affect management generally, certain relocations, or failure to pay amounts owed to the officer. The officer is also entitled to receive "tax gross up payments" sufficient to cover any excise taxes and income taxes on the imputed income resulting from the gross-up payment that may arise under Sections 280G and 4999 of the Code concerning "excess parachute payments" in connection with payments and benefits payable under the severance plan.

A "change of control" under the executive severance plan is generally defined as: (a) the acquisition by any person or entity, together with all of their respective affiliates or associates, of securities representing 30 percent or more of the combined voting power of Essex's then outstanding securities having the right to vote, (b) the persons who, as of July 1, 2000 constituted Essex Board of Directors (or the incumbent directors) cease to constitute a majority of such directors, provided that a person becoming a director subsequent to July 1, 2000 shall be considered an incumbent director if the person's election was approved by a vote of a majority of the incumbent directors, or (c) the consummation of any consolidation or merger of Essex where the stockholders of Essex, immediately prior to the consolidation or merger, would not, immediately after the consolidation or merger, beneficially own shares representing in the aggregate 50 percent or more of the voting shares of the corporation issuing cash or securities in the consolidation or merger.

In certain change of control situations, executives holding Series Z-1 Units will have the option to convert such units at the then-effective conversion ratio into operating partnership common units. However, a change of control is not a triggering event for any increase in the conversion rate or any other form of accelerated vesting. The footnotes to the table “Security Ownership of Certain Beneficial Owners” set forth the number of Essex common shares that named executive officers are entitled to upon conversion of vested, non-forfeitable incentive units as of February 29, 2012, or that will become vested and non-forfeitable within 60 days of such date. The last column of the “Outstanding Equity Awards at December 31, 2011” table states the market value of unvested incentive units as of December 31, 2011, which may become vested in the future if the criteria are met.

The table below illustrates hypothetical payments under the executive severance plan as if a change of control had occurred on December 31, 2011 and a defined termination had occurred within the 12 months thereafter:

Name	Payment for 2X Annual Salary/Bonus (\$)	24 months of benefits (\$)	Assumed Realized Value of Accelerated Options (\$)	Assumed Cost of Tax Gross Up (1)	Total (2) (\$)
Schall	1,650,000	20,000	146,160	-	1,816,160
Dance	1,350,000	20,000	91,350	-	1,461,350
Eudy	1,350,000	20,000	91,350	-	1,461,350
Zimmerman	1,350,000	20,000	91,350	-	1,461,350
Burkart	1,200,000	20,000	36,540	-	1,256,540

(1) See “Compensation Discussion and Analysis - Severance and Other Benefits Upon Termination of Employment or Change of Control” for a description of the tax gross up provisions under the plan.

(2) The total does not include: (i) available balances under the nonqualified deferred compensation plan table preceding this table, (ii) any amounts due for accrued but unpaid wages under applicable law or under generally available benefit plans such as our 401(k) plan, at the time of any employment termination, (iii) the proceeds of insurance policies paid by insurance companies in the event of death or disability, or (iv) the value of Series Z-1 incentive units, or partnership units or shares of Essex common stock which may be realized in connection with the conversion of the incentive units, at the time of a change of control or other termination of employment (which value is excluded here because unvested incentive units do not earn any increase in the conversion rate or “accelerated vesting” as a result of a change of control or termination of employment, and are in the nature of vested restricted stock to the extent convertible, with a restriction on disposition during the period of employment until specified time elapses or other events occur).

REPORT OF THE AUDIT COMMITTEE

This report is not deemed to be soliciting material, filed with the SEC, or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended, except to the extent that Essex specifically incorporates it by reference into a document filed with the SEC.

The Audit Committee of the Board of Directors consists of Messrs. Brady and Randlett and Ms. Sears. Mr. Randlett serves as Chairman of the Committee. The Board of Directors has determined that each of the members of the Audit Committee meets the independence and experience requirements of the rules and regulations of the New York Stock Exchange and the Securities and Exchange Commission, as currently applicable to the Company.

The Audit Committee operates under a written charter approved by the Board of Directors. Stockholders may access this charter at the Company's Internet website at www.essexpropertytrust.com.

The primary function of the Audit Committee is to assist the Board of Directors in fulfilling its oversight responsibilities by reviewing financial reports and other financial information provided by the Company to any governmental body or the public, the Company's systems of internal control regarding finance, accounting, legal compliance and ethics that management and the Board of Directors have established, and the Company's auditing, accounting and financial reporting processes generally. The Audit Committee annually approves the appointment of an independent registered public accounting firm to audit the consolidated financial statements and internal control over financial reporting of the Company and meets with such personnel of the Company to review the scope and the results of the annual audits, the amount of audit fees, the Company's internal control over financial reporting, the Company's consolidated financial statements and schedule contained in the Company's Annual Report included in the Form 10-K and other related matters.

Table of Contents

The Audit Committee has reviewed and discussed with management the consolidated financial statements and effectiveness of internal control over financial reporting for fiscal year 2011 audited by KPMG LLP, the Company's independent registered public accounting firm. The Audit Committee has discussed with KPMG LLP various matters related to the financial statements, including those matters required to be discussed by the statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board. The Audit Committee has also received the written disclosures and the letter from KPMG LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding the communications of KPMG LLP with the audit committee concerning independence, and has discussed with KPMG LLP its independence. Based upon such review and discussions, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, for filing with the Securities and Exchange Commission.

The Audit Committee also has recommended the approval, subject to stockholder ratification, the selection of KPMG LLP as the Company's independent registered public accounting firm for the year ending December 31, 2012.

CERTAIN RELATIONSHIPS AND RELATED PERSONS TRANSACTIONS

Investment Opportunities

From time to time, accredited members of the Company's senior management (excluding the Chief Executive Officer and Chief Financial Officer) may be given an opportunity to co-invest with unaffiliated joint venture partners in investment transactions managed by the Company's subsidiaries on the same terms as the unaffiliated investors. The Board of Directors must approve all potential investments opportunities that would include investments made by the Company's management.

Policies and Procedures with Respect to Related Person Transactions

Essex does not currently have written, formal policies and procedures for the review, approval or ratification of transactions with related persons, as defined by Item 404 of Regulation S-K. Under that definition, transactions with related persons are transactions in which Essex was or is a participant and the amount involved exceeds \$120,000 and in which any related person had or will have a direct or indirect material interest. Related persons include any executives, officers, directors, director nominees, beneficial owners of more than 5% of Essex's voting securities, immediate family members of any of the foregoing persons, and any firm, corporation or other entity in which any of the foregoing persons is employed and in which such person has 10% or greater beneficial ownership interest.

Essex's general policy regarding such related party transactions is that they will be reviewed by the Board of Directors and, after such review, the independent members of the Board of Directors who do not have any interest in the transaction will vote as to whether to authorize and/or approve the transaction. In determining whether to approve or authorize a particular related party transaction, the Board of Directors applies the same business judgment standard of whether the transaction is in the best interest of the Company that it applies in approving other transactions. The Board does not, however, pre-approve real estate brokerage commissions paid to the Marcus & Millichap Real Estate Investment Brokerage Company ("M&M REIBC"). M&M REIBC is a well established real estate brokerage company, which has provided brokerage services to Essex over many years at rates that are similar to what it charges its other clients. Mr. Marcus, the Chairman of Essex, is the Chairman of The Marcus & Millichap Company ("TMMC"), which is

the parent company of M&M REIBC.

Table of Contents

Essex believes that its general policies and procedures regarding related party transactions are evidenced by the disclosures in Essex's current and prior proxy statements under the caption "Certain Relationships and Related Party Person Transactions." Essex may in the future adopt written policies and procedures regarding related party transactions.

Agreements between Mr. Marcus and the Company

George Marcus, the Company's Chairman, is also involved in other real estate businesses. Mr. Marcus has entered into a written agreement with the Company pursuant to which Mr. Marcus has agreed (1) that he will not divert any multifamily property acquisition and/or development opportunities, which involve properties in the Company's geographic areas and with more than one hundred rental units, that are presented to him in his capacity as Chairman of the Company to any of his affiliated companies, (2) that he will not divulge any information regarding property acquisition and/or development opportunities that may be received by him in his capacity as Chairman of the Company to any of his affiliated companies and (3) that he will absent himself from any and all discussions by the Company's Board of Directors regarding any proposed acquisition and/or development of a multifamily property where it appears that there may be an actual conflict of interest with any of his affiliated companies. This agreement was approved by the independent directors (other than Mr. Marcus) of the Company.

Other Transactions

During the third quarter of 2010, the Company invested \$12.0 million as a preferred equity interest investment in an entity that owns a 768-unit apartment community in Anaheim, California. The entity that owns the property is an affiliate of TMMC. Mr. Marcus, the Chairman of Essex, is the chairman of TMMC. This investment was approved by the Company's independent directors (other than Mr. Marcus).

PROPOSAL NO. 2
RATIFICATION OF APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

KPMG LLP served as the Company's independent registered public accounting firm for the fiscal year ended December 31, 2011 and has been appointed by the Audit Committee and the Board to continue as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2012. A representative of KPMG LLP is expected to be present at the Annual Meeting. The representative will have an opportunity to make a statement if he or she so desires and will be able to respond to appropriate questions.

Stockholder ratification of the selection of KPMG LLP as our independent registered public accounting firm is not required by our Bylaws or otherwise. However, the Board is submitting the selection of KPMG LLP to our stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee and the Board in their discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in the best interests of our stockholders.

Table of Contents

Unless marked to the contrary, proxies received will be voted FOR ratification of KPMG LLP as the independent registered public accounting firm for the fiscal year ending December 31, 2012.

FEES PAID TO KPMG LLP

Audit and Non-Audit Fees

The following table presents fees billed for professional audit services rendered by KPMG LLP for the audit of the Company's annual financial statements for the years ended December 31, 2011 and 2010 and fees billed for other services rendered by KPMG LLP during those periods:

	2011	2010
Audit Fees (1)	\$1,228,000	\$1,102,100
Audit-Related Fees (2)	193,000	143,000
Tax Fees (3)	-	-
All Other Fees (4)	-	-
Total	\$1,421,000	\$1,245,100

(1) Audit Fees consist of fees billed for professional services rendered for the audit of the Company's consolidated annual financial statements, the audit of internal controls and the related management assessment of internal controls, reviews of the interim consolidated financial statements included in quarterly reports, and services that are normally provided by KPMG LLP in connection with statutory and regulatory filings or engagements.

(2) Audit-Related Fees consist of audit fees paid by unconsolidated joint ventures of the Company. No fees were paid in 2011 and 2010 for Audit-Related Fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements but were not reported under "Audit Fees."

(3) Tax Fees consist of fees billed for professional services rendered for tax compliance, tax advice and tax planning for both federal and state income taxes. There were no fees in this category incurred in 2011 or 2010.

(4) All Other Fees consist of fees for products and services other than the services reported above. There were no fees in this category incurred in 2011 or 2010.

The Audit Committee considers as necessary whether services other than audit and audit-related services provided by KPMG LLP are compatible with maintaining the independence of KPMG LLP.

Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services
of Independent Registered Public Accounting Firm

The Audit Committee pre-approves all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. The Audit Committee has adopted a policy for the pre-approval of services provided by the independent registered public accounting firm.

Table of Contents

Under the policy, pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is subject to a specific budget. In addition, the Audit Committee may also pre-approve particular services on a case-by-case basis. For each proposed service, the independent registered accounting firm may be required to provide detailed back-up documentation at the time of approval. The status of any pre-approved service is reported at subsequent audit committee meetings.
