EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The intent of this Compensation Discussion and Analysis (“CD&A”) is to identify and discuss in detail all components within the Company’s executive compensation policy and to explain the objectives and practices of the policy. Executive compensation tables are presented beginning on page 16 with respect to the executive compensation of the following Named Executive Officers (“NEOs”).

· R. Daniel Brdar - Chairman, Chief Executive Officer and President

· Joseph G. Mahler - Senior Vice President, Chief Financial Officer, Corporate Secretary, Treasurer, Corporate Strategy

· Christopher R. Bentley - Executive Vice President, Government R&D Operations, Strategic Manufacturing Development

· Bruce A. Ludemann - Senior Vice President of Sales and Marketing

Design of Compensation Package

Recruitment and retention of leadership to manage the Company requires a competitive compensation package. The Compensation Committee (the “Committee”) is responsible for implementing and reviewing executive compensation plans, policies and programs in an effort to ensure the attraction and retention of executive officers in a reasonable and cost-effective manner, to motivate their performance in the achievement of the Company’s business objectives and to align the interest of executive officers with the long-term interests of the Company’s shareholders. The Committee reviews the Company’s executive compensation on an annual basis and analyzes the various long-term incentive tools including stock options, restricted stock, performance-based equity and other alternatives that might be available.

The Committee’s compensation approach emphasizes (i) a fixed component, which includes a competitive base salary and health and retirement benefits and (ii) a variable component, which consists of an annual bonus award (based on a percentage of base salary and typically paid in cash and common stock), long-term incentive stock option awards used to align a portion of the executive’s compensation with the long-term success of the Company’s shareholders and an Employee Stock Purchase Plan (“ESPP”).

To ensure competitiveness of the Company’s executive compensation, the Committee relies on benchmarking data. Ernst & Young LLP performed a compensation study for the Company in 2003 and the Company has consulted with them since this date to update the benchmarking data. The Company has used various other resources for executive compensation benchmarking data, including information from Equilar Inc., as well as subscriptions to internet-based or other forms of executive compensation information. The Company also uses Mercer HR Consulting, primarily to assist with structuring the Company’s health, life and disability benefits offered to employees and has used compensation benchmarking data provided by Mercer.

The Committee considers benchmarking data of executive compensation values from a compensation peer group (“CPG”) of companies in the energy industry, primarily alternative energy companies. Actual compensation for NEOs will vary based on performance, job scope, abilities, tenure and retention risk. The CPG consists of the following companies Active Power, Inc., Advanced Energy Industries, Inc., Ballard Power Systems, Inc., Beacon Power Corp, Amercian Super Conductor Corp, Capstone Turbine Corp, Dionex Corp, Energy Conversion Devices, Impco Technologies, Inc, Plug Power, Inc, Satcon Technology Corp and Zygo Corp. The Committee periodically reviews and adjusts the compensation peer group.

The Committee uses information provided by management, including primarily the Chief Executive Officer, Chief Financial Officer and Vice President of Human Resources. Management assists with gathering benchmarking data and also provides information to the Committee relating to Company performance against annual milestones including product orders, cash use, product field performance and product cost-reduction. Management also makes recommendations to the Committee for annual merit increases, bonus pools and long-term incentive awards.

Fixed Compensation

Principal elements of fixed compensation not directly linked to individual or Company performance include a base salary and benefits (e.g., 401(k), health, life and disability insurance).

Base Salary

Base salaries are used to recognize the experience, skills, knowledge and responsibilities required of all of our employees, including our executive officers. Fiscal 2007 base salaries for the Company's executive officers were determined by the Compensation Committee after considering the base salary level of NEO's in the prior year. Increases in base salary are based on an annual review and evaluation of the performance of the operation or function for which the executive has responsibility, and is measured against defined performance criteria. The Committee has historically reviewed benchmarking data showing an average executive compensation in the 25th to 75th percentile of the market median from the CPG, with individual variations based on job scope, tenure, retention risk and other factors considered relevant by the Committee. Base salaries for the Company's NEOs for 2007 are consistent with this targeted range.

Benefits

The Company offers a 401(k) Plan as well as health, life and disability insurance to its NEOs. The level of benefits and premiums under these programs are offered on the same basis as those offered to the Company's non-executive employees. All 401(k) contributions are limited to an annual maximum amount as set periodically by the Internal Revenue Service. The Company provides matching contributions equal to the employee's deferred compensation, up to a maximum of 6 percent of annual compensation, subject to limitations imposed by the IRS. Participants are required to contribute a minimum of 3 percent in order to be eligible to participate and receive a Company match. Company contributions begin vesting after one year and are fully vested after five years. There is no option available in the 401(k) plan for the employee to receive or purchase the Company's common stock. The Company also offers medical and dental insurance and pays a portion of the premiums for these benefits consistent with other non-executive employees. Executive officers and non-executive employees also receive group life insurance and accidental death and dismemberment benefits; premiums for these benefits are paid by the Company. The Company also pays short-term disability premiums and supplemental long-term disability premiums for its executive officers and other eligible employees.

Variable Compensation

Annual Bonus

NEOs are eligible to participate in an annual bonus plan. The baseline bonus percentages for the NEOs as well as all salary grade levels within the Company are based on benchmarking data for the Company's CPG. The Committee has historically reviewed benchmarking data showing an executive annual bonus between the 50th and 75th percentile of the market median from the CPG. The Committee determines the level of awards under the bonus plan and considers input of the Chief Executive Officer with respect to the bonus to be awarded to the other executive officers. The size of the Company's overall bonus pool as well as each individual NEO's bonus reflects (i) baseline bonus percentages, (ii) performance against pre-established Company milestones, and (iii) adjustments for individual performance. The

Committee retains the right to adjust the size of awards as it deems appropriate to take into account other factors that enhance or detract from results achieved relative to the established milestones, as well as unforeseen factors beyond management's control that affected performance. In this way, the Committee does not confine itself to a purely quantitative approach and retains discretion in determining awards based on its review of and assessment of results for the year. The Committee believes that linking bonus awards to pre-established milestones creates a performance-based compensation strategy consistent with shareholder interests.

Baseline bonus targets as a percentage of base salary for each NEO are as follows:

-	Chief Executive Officer – 50 percent
-	Other Named Executive Officers – 30 percent.

Each of the Company's milestones include pre-established levels of performance to obtain scores ranging from 0 percent to 125 percent. The threshold performance level of satisfactory is intended to be reasonable based on historical performance while performance measures above the threshold are intended as stretch goals to improve the Company's operating results or product performance. The Compensation Committee has the authority to review extraordinary events that impact the Company's performance and may adjust the final calculation. Each milestone is also assigned a weighting or level of importance of that milestone against the Company's other milestones. The aggregate weighted score (milestone weight multiplied by milestone score) for all milestones is used to determine the overall pool payout percentage of target using the following scale:

Scale	Weighted Score	Percentage Payout of Target
Satisfactory	50% - 69%	75%
Commendable	70% - 89%	100%
Outstanding	Greater than 90%	125%

The milestones for fiscal 2006 (paid in 2007) were to (i) secure product orders, (ii) limit cash use, (iii) maintain product field performance at a pre-defined power plant availability threshold, and (iv) achieve product cost-reduction of the DFC3000 power plant. Each of these four milestones was equally weighted at 25 percent.

The Company's actual performance was below target on secured orders (achieved 74 percent of the target), favorable for cash use (2 percent better than target), slightly unfavorable product field performance of 99 percent of the pre-defined threshold and favorable cost-reduction on the DFC3000 power plant (approximately 13 percent better than the target). This overall performance against the pre-established milestones resulted in a weighted score of greater than 90% resulting in a percentage payout of target of 125%. Due to the shortfall in orders, the Chief Executive Officer recommended, and the Committee approved, reducing the bonus pool to 100 percent of baseline target bonuses. Bonuses were paid 50 percent in cash and 50 percent in shares of Company stock equal to the bonus award amount divided by the fair market value of the stock on date of award. Bonus awards for each of the NEOs shown in the Summary Compensation Table on page 16 reflect the approved bonus pool percentage, adjusted for tenure, retention goals and individual performance.

Long-Term Incentive Compensation

Each of the NEOs are eligible to receive awards under the Company's Equity Incentive Plans. These Plans are used to align a portion of the NEO's compensation with shareholders' interest and the long-term success of the Company by providing a direct link to future earnings potential and the Company's stock price. The Committee does not and has not permitted backdating or re-pricing of stock options. Grant dates are the date the Committee approves the awards. Stock option exercise prices equal the closing price for the Company's common stock on the grant date and have a ten year term. These options provide value to the executive only if the Company's stock price increases after the grants are made.

The number of stock options granted annually to NEOs is based on pre-established grant guidelines calibrated to competitive standards and approved by the Compensation Committee. The Committee considers benchmarking data, peer group comparisons, as well as cost implications, in determining long-term incentive awards. The Committee has historically reviewed executive officer benchmarking data showing long-term incentive awards ranging from 75 percent to 400 percent of base salary for the CPG with option values determined using the Black-Scholes model. The Committee also limits the total pool of options available to Company employees including NEOs, based on a percentage of the Company's common stock outstanding targeting between the 50th and 75th percentile of Russell 2000 companies according to market data provided by Equilar Inc. For the shares granted in 2007, the percentage of new options granted less those cancelled during the period divided by total outstanding common shares was 1.64 percent. This percentage was within the targeted percentiles.

The number of options granted to each NEO during 2007 is consistent with the benchmarking data discussed above, adjusted for tenure with the Company, retention goals and individual performance. As a percent of base salary, long-term incentive awards ranged from 36 percent to 146 percent of base salary for the NEOs Stock option awards for each of the NEOs are shown in the Summary Compensation Table on page 16.

Employee Stock Purchase Plan

NEOs can participate in the Company's shareholder approved Section 423 Stock Purchase Plan on the same terms as eligible non-executive employees, subject to legal limitations on contribution amounts or payments to executive officers under these plans. NEOs can participate in the Company's shareholder approved Section 423 Stock Purchase Plan (ESPP) on the same terms as eligible non-executive employees, subject to legal and plan limitations on contribution amounts and share limitations. Under the ESPP, eligible employees have the right to purchase shares of common stock at an exercise price for each offering period equal to the lesser of (i) 85 percent of the last reported sale price of the Company's common stock on the first business day of the offering period, or (ii) 85 percent of the last reported sale price of the common stock on the last business day of the offering period, in either case rounded up to avoid impermissible trading fractions.

Any shares issued pursuant to the ESPP shall contain a legend restricting the transfer or sale of such common stock for a period of six months after the date of purchase.

Chief Executive Officer Compensation

The compensation paid by the Company to its Chief Executive Officer, Mr. Brdar, who became Chief Executive Officer in January 2006, was based upon an employment agreement. The Committee conducts surveys of compensation packages of Chief Executive Officers in comparable companies, and believes, based upon the individual experience of its members, that the compensation package for Mr. Brdar for fiscal 2007 was reasonable based upon Mr. Brdar's experience, his level of responsibility and the contributions made and expected to be made by him to the Company. See the following section for a description of Mr. Brdar's employment agreement.

Employment Agreements and Change of Control and Severance

R. Daniel Brdar

On January 12, 2006, the Company entered into an employment agreement (the "Agreement") with Mr. Brdar upon his promotion to President and Chief Executive Officer. This Agreement supersedes Mr. Brdar's prior employment arrangement dated February 2005. Under the Agreement, which is terminable by either party upon 30 days notice, Mr. Brdar is entitled to an initial annual base salary of \$350,000, to be reviewed at least annually by the Board of Directors, and a bonus of up to 50% of Mr. Brdar's base salary also to be determined and approved by the Board of Directors. Mr. Brdar retained options to purchase 250,000 shares of Common Stock granted under the February 2005 employment arrangement and was granted options to purchase an additional 250,000 shares of Common Stock in December 2005. The Agreement also provides Mr. Brdar with the opportunity to participate in insurance plans and other employment benefits as may be generally available to other employees of the Company. The Agreement also contains non-disclosure provisions and prohibits Mr. Brdar from competing with the Company during the term of his employment and for a period of two years thereafter.

In the event of change in control of the Company resulting in voluntary termination by Mr. Brdar or, in the event of termination of Mr. Brdar's employment by the Company without cause, he is entitled to a severance payment in an amount equal to two (2) years of his base salary as of the date of termination plus the average of the bonuses paid to him since the inception of his employment agreement. In the event of termination of Mr. Brdar's employment by the Company for cause, the Company shall pay Mr. Brdar any base salary and vacation accrued but as yet unpaid on the effective date of such termination. Mr. Brdar's stock options and restricted stock granted shall accelerate and immediately vest upon a change of control.

Should Mr. Brdar be unable to fulfill his duties as a result of incapacity or disability, the Company may terminate his employment. In the event of such incapacity or disability, the Company shall continue to pay full compensation to Mr. Brdar in accordance with the terms of his employment agreement until the date of such termination. In the event of death, the Company shall pay Mr. Brdar's estate any base salary and other compensation or benefits accrued but as yet unpaid on the date of death.

Joseph G. Mahler

In October 1998, the Company entered into an employment agreement with Mr. Mahler upon hiring him as its Chief Financial Officer, Treasurer and Corporate Secretary. Under the agreement, which is terminable by either party upon 30 days notice, Mr. Mahler is entitled to a minimum annual salary and a bonus. In addition, upon entering into the agreement, the Company granted Mr. Mahler options to purchase 300,000 shares of Common Stock. The agreement also provides Mr. Mahler with the opportunity to participate in insurance plans and other employment benefits as may be generally available to other employees of the Company. The agreement also contains non-disclosure provisions and prohibits Mr. Mahler from competing with the Company during the term of his employment and for a period of two years thereafter.

In the event of change in control of the Company resulting in voluntary termination by Mr. Mahler, he is entitled to a severance payment in an amount equal to one (1) year of his base salary as of the date of termination plus an amount equal to his bonus if any, for the immediately preceding year and any incentive compensation awarded to him but not yet paid.

In the event of termination of Mr. Mahler's employment by the Company without cause, Mr. Mahler shall be entitled to a severance payment in an amount equal to one (1) year of his base salary as of the date of termination plus an amount equal to his bonus if any, for the immediately preceding year. In the event of termination of Mr. Mahler's employment by the Company for cause, the Company shall pay Mr. Mahler any base salary accrued but as yet unpaid

on the effective date of such termination plus any incentive compensation awarded to him but not yet paid.

Should Mr. Mahler be unable to fulfill his duties as a result of incapacity of disability, the Company may terminate his employment. Mr. Mahler shall receive his base salary through the date of termination, provided, however, that to the extent of Mr. Mahler is receiving disability benefits pursuant to the Company's disability insurance policy, the amount of such benefits shall be credited against Mr. Mahler's base salary during the period prior to the date of termination. In addition, upon any termination based upon disability, the Company shall pay Mr. Mahler any incentive compensation awarded to him but not yet paid. In the event of death, the Company shall pay Mr. Mahler's estate any base salary through the last day of the calendar month plus any incentive compensation awarded to Mr. Mahler but not yet paid.

Messrs. Bentley and Ludemann do not have employment agreements.

Stock Ownership Guidelines

The Compensation Committee believes that the elements of compensation for NEOs discussed above provides for an appropriate level of correlation with shareholder interests and therefore the Committee does not require named executives officers or other senior executives to own specified amounts of FuelCell Energy common stock.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally prohibits public companies from taking a tax deduction for compensation in excess of \$1,000,000 paid to its named executive officers at the end of the year. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. The Company structures its equity awards to comply with exemptions in Section 162(m) in order to ensure that the compensation remains tax deductible. The Company periodically reviews the potential consequences of Section 162(m) on the other components of its executive compensation program. Executive Compensation paid during 2007 complied with the Section 162(m) to the extent it was applicable.

Conclusion

The Committee believes that the elements of compensation delivered to each NEO is reasonable and appropriate and is in the best interest of the Company and its shareholders and that its decisions with respect to compensation paid to NEOs are in line with the goals and objectives as defined in this Compensation Discussion and Analysis.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed the Compensation Discussion and Analysis and has discussed it with management. Based on the review of the Compensation Discussion and Analysis, the Compensation Committee has recommended to the Board its inclusion in the Company's Annual Report on Form 10-K for fiscal year ended October 31, 2007 and its 2008 Proxy Statement filed in connection with the Company's 2008 Annual Meeting of Shareholders.

Named Executive Officer Compensation

The following narrative, tables and footnotes set forth the annual and long-term compensation for services in all capacities to the Company for the fiscal year ended October 31, 2007 of those persons who were the chief executive officer during fiscal 2007 and all of the other most highly compensated executive officers (“Named Executive Officers” or “NEOs”) of the Company at October 31, 2007. Each component of the total compensation paid to NEOs during fiscal year 2007 is described below:

Salary – Mr. Brdar’s and Mr. Mahler’s base salaries were set pursuant to the terms of their employment agreements with the Company. For further information see employment agreements on page 13. Mr. Bentley and Mr. Ludemann do not have employment agreements with the Company. Salaries commensurate with position level, job responsibilities and benchmarking data as described on page 9.

Bonus–The value of the annual bonus for each NEO in fiscal year 2007 was paid 50% in cash and 50% in shares of common stock. The “Bonus” column of the Summary Compensation Table represents the cash portion of the bonus.

Stock Awards - The value of the annual bonus for each NEO in fiscal year 2007 was paid 50% in cash and 50% in shares of common stock. The “Stock Awards” column of the Summary Compensation Table represents the common stock value of the bonus. Shares were issued at their fair market value on the date of award. These amounts are included in the Summary Compensation Table on page 16 of this Proxy Statement.

Option Awards – The option awards disclosed in the Summary Compensation Table consist of options granted to each NEO during fiscal year 2007. The value of option awards is based on SFAS No. 123(R) “Share Based Payments” as required by the Securities and Exchange Commission. As a result, this amount does not reflect what was paid to the Company’s executives; rather it reflects the amount we must include as an expense on the Company’s financial statements.

All Other Compensation – The “All Other Compensation” column of the Summary Compensation Table includes employer contributions to the Section 401(k) Plan and relocation expenses paid during fiscal 2007.

DIRECTOR COMPENSATION

The Board of Directors periodically reviews director compensation. The Board compensation and benefit program for non-employee directors described below was approved by the Board and went into effect in fiscal 2005. In recommending this program to the Board, the Compensation Committee was guided by the following goals: compensation should fairly pay directors; compensation should align directors' interests with the long-term interests of shareholders; and the structure of the compensation should be simple, transparent and easy for shareholders to understand.

The Company uses a combination of annual cash retainer, committee member and chair fees. The Directors can make a choice of cash, shares of the Company's common stock or stock options. An equity long-term incentive grant is also included in the annual Director Compensation package. Following is a description of the components of director compensation. For further information on director compensation, refer to The Non-Employee Director Compensation Table on page 20.

New Board Members

New Board members, not employed by the Company or an affiliate, are granted 40,000 non-qualified stock options upon acceptance to the Board.

Annual Director Compensation

Each Board member not employed by the Company or its affiliates, is paid a retainer fee of \$25,000 per annum. Committee fees are \$12,500 for the Chairman of the Compensation Committee and the Chairman of the Audit and Finance Committee, \$12,500 for the Chairman of the Executive Committee and Lead Independent Director and \$7,500 for the Chairman of the Nominating and Corporate Governance Committee. Non-Chairman committee fees are \$5,000 for the first committee of which the director is a member and \$2,500 for each additional committee of which the director is a member.

All Board and Committee fees are payable, at the option of the Board member, in cash, shares of the Company's common stock or options to purchase shares of the Company's common stock. To encourage long-term investment by Directors, a 20% premium is added to the fee schedules for directors electing to receive their fee in the form of common stock. If payments are made in the form of stock options, the number of stock options granted is three times the number of shares of common stock on the date of grant. Stock options vest at the rate of 25% per quarter from the date of grant.

Directors also receive an equity long-term incentive grant in the form of shares of the Company's common stock valued at \$28,000 per annum. The equity grant can be received, at the choice of the Board member, in options to purchase shares of the Company's common stock, which is calculated based on three times the number of shares of common stock on the date of grant. Stock options vest at the rate of 25% per quarter from the date of grant and have restrictions as to transferability.

Cristof von Branconi is employed by Tognum AG, parent company of CFC Solutions, an affiliate, and receives no compensation.

Directors Deferred Compensation Plan

Pursuant to the Company's Directors Deferred Compensation Plan, directors may elect to defer until they leave the Board of Directors, receipt of all or a portion of fees. The election to defer fees must be made by the director prior to the beginning of a fiscal year or with respect to a newly eligible director within (30) days after such director becomes eligible to participate in the Plan.

Reimbursement of Expenses

The Company reimburses directors for reasonable expenses incurred in connection with the performance of their duties as directors.

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers, directors and persons who own more than ten percent of the issued and outstanding shares of Common Stock to file reports of beneficial ownership and changes in beneficial ownership with the SEC and to furnish copies of all Section 16(a) forms to the Company.

Based solely on the Company's review of the copies of such forms received by it, or written representations from certain reporting persons that no filings were required for those persons, the Company believes that during the last fiscal year all required filings were timely made as required by Section 16(a).

Certain Relationships and Related Transactions

It is the Company's policy that related-party transactions are reviewed to ensure that the terms of such transactions are no less favorable to the Company than it could have obtained from an unaffiliated third party. The Audit and Finance Committee has responsibility for reviewing related party transactions.

MTU Friedrichshafen GmbH

MTU Friedrichshafen GmbH, a subsidiary of Tognum GmbH, owns 2,746,548 shares of FuelCell Energy common stock. Tognum GmbH ("Tognum"), through its subsidiary CFC Solutions, is a licensee of our technology and a purchaser of Direct FuelCell® products. Christof von Branconi, a member of the Board of Directors of the Company, is an Executive Vice President and Chief Operating Officer of Tognum's Onsite Energy Systems and Components Division.

We have two agreements with CFC Solutions, a Cell License Agreement and a Balance of Plant License Agreement. Under our current Cell License Agreement, which has been extended through December 2009, we license our DFC technology to CFC Solutions for use exclusively in Europe and the Middle East and non-exclusively in Africa and South America. We also sell our DFC components and stacks to CFC Solutions under this agreement. Under the Cell License Agreement, CFC Solutions also granted us an exclusive, royalty-free license to use any of their existing improvements to our Direct FuelCell that CFC Solutions developed as of December 1999 under a previous license agreement. In addition, CFC Solutions has agreed to negotiate a license grant of any separate carbonate fuel cell know-how it develops during the term of the current Cell License once it is ready for commercialization. Under our Balance of Plant Cross Licensing and Cross-Selling Agreement, we may sell to CFC Solutions our MW-class modules and CFC Solutions may sell their sub-MW class modules to us. The Balance of Plant License continues through July 2008 and may be extended for up to two additional 5-year terms, at the option of either CFC Solutions or us.

During fiscal year 2007, the Company recognized revenue of approximately \$5.2 million for fuel cell components sold to CFC Solutions. The Company believes that the terms of its transactions with CFC Solutions are no less favorable to the Company than it could have obtained from an unaffiliated third party.

POSCO Power

POSCO Power, a subsidiary of our South Korean strategic distribution partner, POSCO, holds 3,822,630 shares of the Company's common stock which it acquired in February 2007. In addition, the Company entered into a 10-year manufacturing and distribution agreement with POSCO Power. For the first two years of the agreement, the Company will sell complete DFC power plants to POSCO Power. Beginning in year three, POSCO Power will buy fuel cell modules manufactured by us in Connecticut and build its own BOPs in South Korea using its design, procurement and manufacturing expertise to achieve further cost savings. Under the terms of the agreement, the Company will receive a 4.1 percent royalty on sales made by POSCO Power payable in a combination of cash and common stock.

During fiscal year 2007, the Company recognized revenue of approximately \$6.4 million for power plant sales to POSCO. The Company believes that the terms of its transactions with POSCO are no less favorable to the Company than it could have obtained from an unaffiliated third party.

AUDIT AND FINANCE COMMITTEE REPORT

During fiscal year 2007, the Audit and Finance Committee of the Board reviewed the quality and integrity of the Company's consolidated financial statements, the effectiveness of its system of internal control over financial reporting, its compliance with legal and regulatory requirements, the qualifications and independence of KPMG LLP, its independent registered public accounting firm, the performance of KPMG LLP and other significant audit matters as required by the Company.

The Audit and Finance Committee has discussed with KPMG, during the 2007 fiscal year, the matters required to be discussed by Statement of Auditing Standards No. 61 (Communication with Audit Committees), as amended. The Audit and Finance Committee has received and reviewed the written disclosures and the letter from KPMG required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Committee also concluded that KPMG's provision of audit and non-audit services is compatible with KPMG's independence. Based on the review and discussions noted above, the Audit and Finance Committee recommended to the Board that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2007 and be filed with the U.S. Securities and Exchange Commission.
