Item 2.02 Results of Operations and Financial Condition

On October 19, 2005, Valley National Bancorp (Valley or Company) issued a press release reporting 2005 third quarter results of operations.

A copy of the press release is attached to this Current Report Form 8-K as Exhibit 99.

The information disclosed in this Item 2.02 shall be considered furnished but not filed for purposes of the Securities Exchange Act of 1934, as amended.

The Company's 2005 third quarter press release contains a discussion of intangible purchase accounting adjustments arising from the Company's two acquisitions in the first half of 2005. The return on average tangible equity ratio contained therein is a non-GAAP financial measure as defined by SEC Regulation G. This non-GAAP financial measure has been reconciled to GAAP as presented below. In the Company's view, in order to better analyze the Company's most important financial measurements, it is important for investors to be provided with return on equity ratios that have been adjusted for goodwill, core deposit intangibles and other intangibles. In addition, management feels that the non-GAAP financial measure is an important indication of the core business performance of the Company. Thus, the inclusion of this non-GAAP measure is intended to provide an additional metric for reviewing performance that management internally uses to evaluate performance on a comparative period-to-period basis in terms of absolute performance and trend performance. Such information is supplemental to information presented in accordance with GAAP, is not intended to represent a presentation in accordance with GAAP, and should not be considered as a substitute for, or superior to, measures of financial performance prepared and presented in accordance with GAAP.
