**PART III NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

On October 17, 2006, Pegasystems Inc. (the Company) issued a press release (the Release), which was also subsequently furnished as an exhibit to its Periodic Report on Form 8-K filed on October 18, 2006, to announce certain preliminary results for the fiscal quarter ended September 30, 2006 and that the Company expected to delay the filing of its Quarterly Report on Form 10-Q for such fiscal quarter (the Report) because the Company was in the process of reviewing its accounting, primarily involving the timing of revenue recognition for certain arrangements which include fixed-price services. This process remains ongoing, and as a result, the Company is unable to file the Report by the required filing date. Although the Company intends to file the Report as soon as practicable after this review is completed, it does not currently anticipate that the Report will be filed on or before the fifth calendar day following the prescribed due date in accordance with Rule 12b-25 promulgated under the Securities Exchange Act of 1934. As previously announced, following the completion of this review, the Company may restate its previously issued financial statements. The Company continues to work diligently to address these matters, but cannot provide assurances at this time regarding when its review will be completed, what adjustments, if any, to the Company's previous financial statements will be required, and when the Company will file the Report.

**PART IV OTHER INFORMATION**

- (1) Name and telephone number of person to contact in regard to this notification

**Craig Dynes**

(Name)

(Area Code)

(Telephone Number)

- (2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).  Yes  No

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?  Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As described in the Release, based on its preliminary financial results for the fiscal quarter ended September 30, 2006, the Company expects license signings and total revenue for such quarter to be among the highest levels in its history. As disclosed in the Release and in Part III above, however, the Company is in the process of reviewing its accounting, primarily involving the timing of revenue recognition for certain arrangements which include fixed-price services. Following the completion of this review, the Company may restate its previously issued financial statements. The Company continues to work diligently to address these matters, but cannot at this time provide assurances regarding what adjustments, if any, to the Company's previous financial statements will be required. The Company does not anticipate being able to provide a reasonable estimate of its actual results of operations for the fiscal quarter ended September 30, 2006 or the extent to which any such adjustments may affect previously issued results of operations for prior periods until the completion of its review. Therefore, the Company has not checked either box in this Part IV(3) because it is currently unable to determine whether the earnings statements to be included in the Report will reflect any significant change in results of operations from the corresponding period for the last fiscal year.
