PEGASYSTEMS INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND RECENT ACCOUNTING PRONOUNCEMENTS

Basis of Presentation

The Company has prepared the accompanying unaudited condensed consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) regarding interim financial reporting. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (U.S.) for complete financial statements and should be read in conjunction with the Company's audited financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2007.

In the opinion of management, the Company has prepared the accompanying unaudited condensed consolidated financial statements on the same basis as its audited financial statements, and these financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results of the interim periods presented. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year 2008.

The Company's revenue is derived from software licenses, maintenance fees related to the Company's software licenses, and professional services. Revenue from software licenses includes perpetual and term license revenue and subscription revenue. As of January 1, 2008, the Company expanded the presentation of the services revenue and the associated cost of services lines in the condensed consolidated statements of income to separately disclose the amounts related to maintenance and professional services. Maintenance revenue is a significant portion of the Company's total revenue and is directly attributable to its installed base of software licenses. Professional services revenue includes revenue from consulting services and training. The Company believes separate disclosure of the maintenance revenue and the associated direct costs is meaningful to investors and provides an important measure of the Company's business performance. Previously reported amounts have been expanded to conform to the current year presentation and have no impact on previously reported total revenue, total cost of revenue or net income.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework and gives guidance regarding the methods used for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods of those fiscal years. In February 2008, the FASB released a FASB Staff Position (FSP FAS 157-2 *Effective Date of FASB Statement No. 157*) which delays the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008. The partial adoption of SFAS 157 on January 1, 2008 for financial assets and liabilities did not have a material impact on the Company's consolidated financial statements. The Company is currently assessing the impact of the deferred portion of the pronouncement. See Note 3 Investments and Fair Value Measurements for further discussion of the impact of SFAS 157.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 allows entities to voluntarily choose, at specified election dates, to measure many financial assets and financial liabilities (as well as certain nonfinancial instruments that are similar to financial instruments) at fair value. The election is made on an instrument-by-instrument basis and is irrevocable. If the fair value option is elected for an instrument, SFAS 159 specifies that all subsequent changes in fair value for that instrument shall be reported in earnings. The Company was required to adopt SFAS 159 on January 1, 2008. The adoption of SFAS 159 did not have a material effect on the Company's consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised), Business Combinations (SFAS 141(R)). SFAS 141(R) changes the accounting for business combinations including the measurement of acquirer shares issued in consideration for a business combination, the recognition of contingent consideration, the accounting for preacquisition gain and loss contingencies, the recognition of capitalized in-process research and development, the accounting for acquisition-related restructuring cost accruals, the treatment of acquisition related transaction costs and the recognition of changes in the acquirer's income tax valuation allowance. SFAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, except for certain tax adjustments for prior business combinations. Accordingly, the Company will adopt this statement on January 1, 2009. The Company is

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

evaluating the effect SFAS 141(R) will have on its consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS 162). This standard identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the U.S. SFAS 162 will be effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board (PCAOB) amendments to interim auditing standards AU Section 411, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles. The Company is in the process of determining the potential impact of this standard on its consolidated financial statements.

Table of Contents**PEGASYSTEMS INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****2. TRADE ACCOUNTS RECEIVABLE, NET OF ALLOWANCES**

Trade accounts receivable balances, which consist of billed and unbilled amounts, were \$31.5 million and \$45.9 million as of June 30, 2008 and December 31, 2007, respectively. Trade accounts receivable includes \$6.5 million and \$4.1 million for services earned under time and material arrangements that had not been invoiced as of June 30, 2008 and December 31, 2007, respectively.

The Company's allowances include the allowance for doubtful accounts and the allowance for sales credit memos.

3. INVESTMENTS AND FAIR VALUE MEASUREMENTS**Investments**

As of June 30, 2008 and December 31, 2007, the amortized cost and fair value of the Company's marketable securities consisted of the following:

(in thousands)	Amortized Cost	As of June 30, 2008		Fair Value
		Unrealized Gains	Unrealized Losses	
Short-term investments:				
Government sponsored enterprises	\$ 35,051	\$ 51	\$ (50)	\$ 35,052
Corporate bonds	14,182	57	(4)	14,235
Municipal bonds	98,550	94	(474)	98,170
Short-term investments	\$ 147,783	\$ 202	\$ (528)	\$ 147,457

(in thousands)	Amortized Cost	As of December 31, 2007		Fair Value
		Unrealized Gains	Unrealized Losses	
Short-term investments:				
Government sponsored enterprises	\$ 53,303	\$ 94	\$ (15)	\$ 53,382
Corporate bonds	68,539	120	(191)	68,468
Municipal bonds	909	3		912
Foreign bonds	507	2		509
Short-term investments	\$ 123,258	\$ 219	\$ (206)	\$ 123,271

Fair Value Measurements

SFAS 157 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, SFAS 157 establishes a three-tier value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs other than the quoted prices in active markets that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which requires the Company to develop its own assumptions. This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

determining fair value. On a recurring basis, the Company measures certain financial assets and liabilities at fair value, including the Company's marketable securities.

The Company's investments are classified within Level 1 or Level 2 of the fair value hierarchy because they are valued using quoted market prices, or broker dealer quotations and matrix pricing compiled by third party pricing vendors, respectively, which are based on third party pricing sources with reasonable levels of price transparency. The types of instruments valued based on quoted market prices in active markets include government debt securities, municipal debt securities, money market securities and most of the U.S. corporate debt securities. Such instruments are generally classified within Level 1 of the fair value hierarchy.

The types of instruments valued based on other observable inputs include some of the municipal and corporate debt securities. Such instruments are generally classified within Level 2 of the fair value hierarchy.

Table of Contents**PEGASYSTEMS INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The fair value hierarchy of the Company's marketable securities at fair value in connection with our adoption of SFAS 157 is as follows:

		Fair Value Measurements at Reporting Date Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant other Observable Inputs (Level 2)
(in thousands)	June 30, 2008		
Short-term investments:			
Government debt securities	\$ 35,052	\$ 20,016	\$ 15,036
Corporate debt securities	14,235	12,735	1,500
Municipal debt securities	98,170	20,374	77,796
Total short-term investments:	\$ 147,457	\$ 53,125	\$ 94,332

4. ACQUISITION

On March 21, 2008, the Company acquired certain assets of privately held Focus Technology Group, Inc. and a related entity (collectively, Focus). Focus provides software products to the banking industry designed to detect and prevent financial fraud and money laundering. The Company believes that the acquisition of these assets, particularly the Focus technology design, will extend the Company's software capabilities and frameworks with respect to its anti-fraud and anti-money laundering offerings to the Company's customers. The initial consideration for the acquisition was approximately \$0.8 million in cash, including transaction costs. In addition to the initial purchase consideration, up to approximately \$2.1 million of contingent consideration may be due to Focus, based on the achievement of certain performance milestones and sales targets. The contingent consideration is payable over a period of 30 months from the acquisition date. A majority of the contingent consideration will be accounted for as compensation, if earned. As a result of the purchase price allocation, the Company recorded intangible assets of \$0.8 million, consisting of \$0.5 million of technology designs, \$0.1 million of non-compete agreements and \$0.2 million of goodwill. The technology designs and non-compete agreements are being amortized over their estimated useful lives of four and five years, respectively.

5. ACCRUED EXPENSES

Accrued expenses consist of the following:

(in thousands)	June 30, 2008	December 31, 2007
Accrued other taxes	\$ 2,115	\$ 1,969
Dividends payable	1,099	1,085
Accrued income taxes	1,086	3,625
Repurchases of common stock unsettled	870	569
Accrued other	4,236	3,157
Balance at the end of period	\$ 9,406	\$ 10,405

6. COMMITMENTS AND CONTINGENCIES

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

As of June 30, 2008, the Company had material commitments for contractor services and payments under operating leases. The Company's principal administrative, sales, marketing, support, and research and development operations are located in an approximate 100,000 square foot leased facility in Cambridge, Massachusetts. The lease for this facility expires in 2013, subject to the Company's option to extend for two additional five-year periods. The Company also leases space for its other offices in the U.S., Canada, Australia, France, the Netherlands and the United Kingdom. These leases expire at various dates through 2010. During the second quarter of 2008, the Company entered into an agreement to lease office space in India for five years that expires in 2013. In July 2008, the Company entered into an amendment to its lease of the Cambridge, Massachusetts facility for an additional 4,600 square feet and approximately an additional \$0.2 million in rent expense per year for five years.

Rent expense under operating leases is recognized on a straight-line basis to account for scheduled rent increases and tenant improvement incentives. The excess of expense over current payments is recorded as deferred rent and included in other long-term liabilities.

Table of Contents**PEGASYSTEMS INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

As of June 30, 2008, the Company's known contractual obligations were as follows:

Contractual obligations: (in thousands)	Total (2)	Remainder of 2008	Payment due by period			Other (2)
			2009 & 2010	2011 & 2012	2013 and after	
Purchase commitments (1)	\$ 5,307	\$ 3,808	\$ 1,499	\$	\$	\$
FIN 48 liability (2)	10,118					10,118
Operating lease obligations (3)	21,607	2,289	8,810	9,009	1,499	
Total	\$ 37,032	\$ 6,097	\$ 10,309	\$ 9,009	\$ 1,499	\$ 10,118

- (1) Relates to commitments for contractor services, of which approximately \$4.5 million relates to one vendor agreement.
- (2) Total contractual obligations include the Company's liability for unrecognized tax benefits in accordance with FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) of approximately \$10.1 million, but the Company is unable to reasonably estimate the timing in individual years beyond the next 12 months due to uncertainties in the timing of the effective settlement of tax positions.
- (3) Includes deferred rent of approximately \$0.3 million included in accrued expenses and approximately \$1.7 million in other long-term liabilities.

7. COMPREHENSIVE INCOME

SFAS No. 130, Reporting Comprehensive Income, establishes rules for the reporting and display of comprehensive income and its components. Components of comprehensive income include net income and certain transactions that have generally been reported in the consolidated statement of stockholders' equity. Other comprehensive income is comprised of currency translation adjustments and available-for-sale securities valuation adjustments. The Company's total comprehensive income is as follows:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Comprehensive income:				
Net income	\$ 2,852	\$ 647	\$ 5,796	\$ 1,667
Other comprehensive income:				
Unrealized (loss) gain on securities, net of tax	(391)	(105)	(210)	24
Foreign currency translation adjustments	86	227	169	263
Comprehensive income	\$ 2,547	\$ 769	\$ 5,755	\$ 1,954

8. STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation expense in accordance with SFAS No. 123(R), Share-Based Payment (SFAS 123(R)), which requires all share-based payments be recognized as expense based on their fair values at the grant date over the requisite service period, which is generally four or five years. Stock-based compensation expense is recognized under the ratable method, which treats each vesting tranche as if it were an individual grant, and is adjusted each period for anticipated forfeitures. The Company periodically grants stock options and restricted stock units (RSUs) for a fixed number of shares to employees and non-employee Directors. For the six months ended June 30,

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

2008, the Company issued approximately 672,000 shares from option exercises, approximately 22,000 shares to the non-employee Directors and approximately 13,000 shares under the 2006 Employee Stock Purchase Plan. As of June 30, 2008, there were approximately 2,845,000 shares available for future issuance under the Company's stock plans.

Table of Contents**PEGASYSTEMS INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The following table summarizes stock-based compensation as reflected in the Company's unaudited condensed consolidated statements of income:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Stock-based compensation expense:				
Cost of revenue	\$ 261	\$ 107	\$ 465	\$ 269
Selling and marketing	208	108	368	210
Research and development	154	30	239	71
General and administrative	497	55	651	146
Total stock-based compensation before tax	1,120	300	1,723	696
Income tax benefit	(307)	(95)	(526)	(199)
Net stock-based compensation expense	\$ 813	\$ 205	\$ 1,197	\$ 497

Stock Options

The fair value of stock options was estimated on the date of grant using a Black-Scholes option valuation model with the following weighted-average assumptions:

	Three Months Ended June 30,	
	2008	2007
Expected volatility (1)	48%	58%
Weighted-average grant date fair value	\$ 5.22	\$ 4.89
Expected term in years (2)	5.9	5.9
Risk-free interest rate (3)	3.34%	4.96%
Expected annual dividend yield (4)	1.11%	1.43%

	Six Months Ended June 30,	
	2008	2007
Expected volatility (1)	50%	62%
Weighted-average grant date fair value	\$ 4.68	\$ 4.52
Expected term in years (2)	5.9	5.9
Risk-free interest rate (3)	2.78%	4.71%
Expected annual dividend yield (4)	1.12%	1.47%

- (1) The expected volatility for each grant is determined based on the average of historical weekly price changes of the Company's common stock over a period of time which approximates the expected option term.
- (2) The expected option term for each grant is determined based on the historical exercise behavior of employees and post-vesting employment termination behavior.
- (3)

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

The risk-free interest rate is based on the yield of zero-coupon U.S. Treasury securities with a term that corresponds to the expected option term at the time of grant.

- (4) The expected annual dividend yield is based on the weighted-average of the dividend yield assumption used for options granted during the period. In July 2006, the Company began paying a quarterly cash dividend of \$0.03 per share of common stock. The expected annual dividend yield is based on the expected dividend of \$0.12 per share, per year (\$0.03 per share, per quarter times 4 quarters) divided by the average stock price.

Beginning in December 2007, the Company began issuing options that allow for the settlement of vested stock options on a net share basis (net settled stock options), instead of settlement with a cash payment (cash settled stock options). With net settled stock options, the employee will not surrender any cash or shares upon exercise. Rather, the Company will withhold the number of shares to cover the option

Table of Contents**PEGASYSTEMS INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

exercise price and the minimum statutory tax withholding obligations from the shares that would otherwise be issued upon exercise. The employee receives the number of shares equal to the number of options being exercised less the number of shares necessary to satisfy the cost to exercise the options and, if applicable, taxes due on exercise based on the fair value of the shares at the exercise date. The settlement of vested stock options on a net share basis will result in fewer shares issued by the Company. In 2008, the Company began offering certain employees the opportunity to modify and convert certain outstanding cash settled stock options to net settled stock options. These modifications did not result in any additional compensation expense.

The following table summarizes the combined stock option activity under the Company's stock option plans for the six months ended June 30, 2008:

	Cash settled options (in thousands)	Net settled options (in thousands)	Weighted-average exercise price	Weighted-average remaining contractual term (in years)	Aggregate intrinsic value (in thousands)
Options outstanding as of January 1, 2008	6,828	408	\$ 8.57	5.06	\$ 30,028
Granted		256	10.34		
Modified (cash settled to net settled)	(2,138)	2,138	7.67		
Exercised	(648)	(88)	7.33		
Cancelled	(78)	(16)	10.16		
Outstanding as of June 30, 2008	3,964	2,698	\$ 8.75	4.89	\$ 36,129
Weighted-average exercise price, as of June 30, 2008	\$ 8.89	\$ 8.55			
Ending vested and expected to vest as of June 30, 2008	3,718	2,414	\$ 8.63	4.55	\$ 34,326
Weighted-average exercise price of options vested and expected to vest, as of June 30, 2008	\$ 8.89	\$ 8.24			
Ending exercisable as of June 30, 2008	3,468	2,035	\$ 8.44	4.05	\$ 32,307
Weighted-average exercise price of options exercisable, as of June 30, 2008	\$ 8.89	\$ 7.67			

As of June 30, 2008, the Company had approximately \$2.2 million of unrecognized stock-based compensation expense related to the unvested portion of stock options that is expected to be recognized over a weighted-average period of approximately 2.0 years.

Restricted Stock Units

The fair value of RSUs is based on the closing price of the Company's common stock on the grant date, less the present value of expected dividends, as the employee is not entitled to dividends during the requisite service period. As of June 30, 2008, the Company had approximately \$0.9 million of unrecognized stock-based compensation expense for RSUs related to periodic grants that is expected to be recognized over a weighted-average period of 2.2 years.

During the fourth quarter of 2007, the Company's Board of Directors approved a change to its equity compensation program allowing the election by employees to receive 50% of their target incentive compensation under the Company's Corporate Incentive Compensation Plan (the CICP) in the form of RSUs instead of cash, beginning with the CICP for 2008. The following table presents the RSU activity related to the 2008 CICP grants under the 2004 Long-term Incentive Plan for the six months ended June 30, 2008:

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

	Shares (in thousands)	Weighted- average Grant Date Fair Value	Weighted- average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Nonvested as of January 1, 2008		\$		
Granted	70	10.21		
Vested				
Forfeited				

Nonvested as of June 30, 2008	70	\$ 10.21	0.70	\$ 945
Ending vested and expected to vest as of June 30, 2008	56	\$ 10.21	0.70	\$ 756
Ending exercisable as of June 30, 2008				

The RSUs granted in connection with the 2008 CICP will vest 100% on March 13, 2009, the CICP payout date. Vesting is contingent upon threshold funding of the CICP and continued active employment with the Company. As of June 30, 2008, the Company had approximately \$0.5 million of unrecognized stock-based compensation expense for RSUs related to the 2008 CICP that is expected to be recognized over a weighted-average period of approximately 0.7 years.

PEGASYSTEMS INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

9. EARNINGS PER SHARE

Basic earnings per share is computed using the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed using the weighted-average number of common shares outstanding during the period, plus the dilutive effect of outstanding options, RSUs, and warrants, using the treasury stock method and the average market price of our common stock during the applicable period. Certain shares related to some of our outstanding stock options, RSUs, and warrants were excluded from the computation of diluted earnings per share because they were anti-dilutive in the periods presented, but could be dilutive in the future.

(in thousands, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007

Earnings per share, diluted	\$ 0.08	\$ 0.02	\$ 0.15	\$ 0.04
Outstanding options, RSUs, and warrants excluded as impact would be anti-dilutive	1,554	1,192	1,648	1,229

10. INCOME TAXES

There were no material changes to the amount of unrecognized tax benefits during the year ended December 31, 2007 or in the first six months of 2008. The Company does not expect the changes in the unrecognized tax benefits within the next 12 months to be material. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense.

The Company files income tax returns in the U.S. federal and state jurisdictions and foreign jurisdictions. Generally, the Company is no longer subject to U.S. federal, state or local, or foreign, income tax examinations by tax authorities for the years before 2001. Currently, the Company is under examination in the United Kingdom for the tax years 2001 through 2004. With few exceptions, the statute of limitations remains open in all other jurisdictions for the tax years 2004 to the present.

11. SEGMENT REPORTING

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

The Company currently operates in one operating segment rules-based business process management, or BPM, software. The Company derives substantially all of its revenue from the sale and support of one group of similar products and services. Substantially all of the Company's assets are located within the U.S. The Company derived its revenue from the following geographic areas (sales outside the U.S. are principally through export from the U.S.):

(dollars in thousands)	Three Months Ended June 30,				Six Months Ended June 30,			
	2008		2007		2008		2007	
U.S.	\$ 33,582	66%	\$ 24,861	70%	\$ 62,433	63%	\$ 52,531	72%

Customer D			12%	-
Customer E			-	24%

12. SUBSEQUENT EVENTS

In July 2008, the Company entered into an amendment to its lease of the Cambridge, Massachusetts office headquarters for an additional 4,600 square feet and approximately an additional \$0.2 million in rent expense per year for five years. See Note 6 Commitments and Contingencies for further discussion.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains or incorporates forward-looking statements within the meaning of section 27A of the Securities Act of 1933 and section 21E of the Securities Exchange Act of 1934. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the industry and markets in which we operate and management's beliefs and assumptions. In addition, other written or oral statements that constitute forward-looking statements may be made by us or on our behalf. Words such as "expect," "anticipate," "intend," "plan," "believe," "could," "estimate," "may," "target," "project," or variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict.

We encourage you to carefully review the risk factors we have identified in Item 1A of Part II of this Quarterly Report on Form 10-Q and in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2007. We believe these risk factors could cause our actual results to differ materially from the forward-looking statements we make. We do not intend to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Business Overview

We develop and license rules-based business process management ("BPM") software and provide professional services, maintenance, and training related to our software. We focus our sales efforts on target accounts, which are companies or divisions within companies, and are typically large organizations that are among the leaders in their industry. Our strategy is generally to sell limited size initial licenses to these target accounts rather than to sell large application licenses, with the goal to generate follow-on sales. This strategy allows our customers to quickly realize business value from our software and reduces their initial investment.

Our customers typically request professional services and training to assist them in implementing our products. Almost all of our customers also purchase maintenance on our products, which includes rights to upgrades and new releases, incident resolution and technical assistance. Professional services are provided directly by us in some cases and through our network of partners in other cases. The amount of professional services provided by our partners has been increasing in recent years. By utilizing these partners, we have significantly increased the supply of skilled service consultants that can assist our customers.

Our license revenue from new license signings is primarily derived from our PegaRULES Process Commander ("PRPC") software and related solution frameworks. PRPC is a comprehensive platform for building and managing BPM applications that unifies business rules and business processes. Our solution frameworks are built on the capabilities of PRPC and are purpose- or industry -specific collections of best practice functionality to allow organizations to quickly implement new customer-facing practices and processes, bring new offerings to market, and provide customized or specialized processing. These products often require less implementation assistance than prior generations of our software products. In many cases this has resulted in a shorter sales process and implementation period. PRPC and related solution frameworks can be used more broadly by customers within our traditional financial services, insurance and healthcare markets, as well as by a broader range of customers within other markets, such as life sciences and government. We license our software to new customers pursuant to perpetual and term license agreements, depending on customer circumstances.

Our revenue is derived from software licenses, maintenance fees related to our software licenses, and professional services. Revenue from software licenses includes perpetual and term license revenue and subscription revenue. As of January 1, 2008, we expanded the presentation of the services revenue and the associated cost of services lines in the condensed consolidated statements of income to separately disclose the amounts related to maintenance and professional services. Maintenance revenue is a significant portion of our total revenue and is directly attributable to the installed base of our software licenses. Professional services revenue includes revenue from consulting services and training. We believe separate disclosure of the maintenance revenue and the associated direct costs is meaningful to investors and provides an important measure of our business performance. Previously reported amounts have been expanded to conform to the current year presentation and have no impact on previously reported total revenue, total cost of revenue or net income.

Historically, our revenue has fluctuated quarter to quarter. Our operating results for the interim periods presented are not necessarily indicative of the results expected for the full year.

Critical accounting policies and estimates

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon the condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S."). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We base our estimates and judgments on historical experience, knowledge of current conditions and beliefs of what could occur in the future given available information. We consider the following accounting policies to be both those most important to the portrayal of our financial condition and those that require the most subjective judgment. If actual results differ significantly from management's estimates and projections, there could be a material effect on our financial statements. The significant accounting policies that we believe are the most critical to aid in fully understanding and evaluating our reported financial results include the following:

Revenue recognition,

Table of Contents

Allowance for doubtful accounts and allowance for sales credit memos,

Stock-based compensation, and

Accounting for income taxes.

There have been no changes in our critical accounting policies or significant accounting estimates as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2007. For more information regarding our critical accounting policies, we encourage you to read the discussion contained in Item 7 under the heading *Critical Accounting Policies and Estimates* and Note 1 to the Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2007.

Results of Operations

(dollars in thousands)	Three Months Ended June 30,				Six Months Ended June 30,			
	2008	2007	Increase		2008	2007	Increase	
Total revenue	\$51,119	\$35,663	\$15,456	43%	\$99,597	\$73,152	\$26,445	36%
Gross profit	30,346	21,343	9,003	42%	59,272	43,268	16,004	37%
Total operating expenses	27,762	22,282	5,480	25%	54,522	44,451	10,071	23%
Income before provision for income taxes	\$4,029	\$1,080	\$2,949	273%	\$8,206	\$2,637	\$5,569	211%

The increases in our total revenue during the second quarter and six months ended June 30, 2008 compared to the same periods in 2007 were generally attributed to an increase in the overall demand for our software products and related services. Both license and maintenance revenue have higher gross margins than professional services. Therefore, the increases in gross profit during the second quarter and six months ended June 30, 2008 compared to same periods in 2007 were primarily due to increases in these revenues.

Total operating expenses increased during the second quarter and six months ended June 30, 2008 compared to the same periods in 2007 due to our continued investment in expanding the number of sales and marketing personnel and increased spending in research and development.

The increase in income before provision for income taxes during the second quarter and six months ended June 30, 2008 was primarily due to the \$9.0 million and \$16.0 million increase in our gross profit, respectively, which was partially offset by a \$5.5 million and \$10.1 million increase in operating expenses, respectively.

Historically, our revenues have fluctuated quarter to quarter and have been higher in the second half of the year. However, due to the current uncertain and adverse economic conditions, the revenue growth rate achieved in the first half of 2008 may not be sustainable for the second half of the year.

Revenue

(dollars in thousands)	Three Months Ended June 30,				Six Months Ended June 30,				Increase			
	2008		2007		2008		2007					
License revenue												
Perpetual licenses	\$ 9,478	60%	\$ 7,448	72%	\$ 2,030	27%	\$ 19,388	58%	\$ 16,826	75%	\$ 2,562	15%
Term licenses	5,261	33	2,896	28	2,365	82	12,339	37	5,602	25	6,737	120
Subscription	1,080	7	-	-	1,080	n/m	1,577	5	-	-	1,577	n/m
Total License revenue	\$ 15,819	100%	\$ 10,344	100%	\$ 5,475	53%	\$ 33,304	100%	\$ 22,428	100%	\$ 10,876	48%

n/m = not meaningful

The mix between perpetual and term license signings fluctuates based on customer circumstances.

The increase in license revenue during the second quarter and six months ended June 30, 2008 was primarily the result of the increase in license signings in the third and fourth quarter of 2007. Perpetual license revenue growth includes the recognition of one significant arrangement in the second quarter of 2008.

The increase in term license revenue is due to the increase in the aggregate value of payments for non-cancellable term licenses, which will be recognized in future periods as revenue. These agreements totaled \$73.5 million as of June 30, 2008 compared to \$26.3 million as of June 30, 2007, and include \$11.2 million of term license payments that we expect to recognize as revenue during the remainder of 2008. Our term license revenue for the remainder of 2008 could be higher than \$11.2 million as we anticipate the completion of additional term license agreements in 2008. See the table of expected cash receipts from these term licenses on page 21 for an analysis of future cash receipts by year.

Table of Contents

New license signings in the second quarter of 2008 were higher than the first quarter of 2008 and higher than the second quarter of 2007.

Subscription revenue primarily relates to our arrangements that include a right to unspecified future products and is recognized ratably over the economic life or term of the arrangement. The increase in the second quarter of 2008 resulted from the recognition of revenue for an entire quarter for one subscription arrangement compared to the recognition for only a partial quarter in the first quarter of 2008.

(dollars in thousands)	Three Months Ended June 30,				Six Months Ended June 30,			
	2008	2007	Increase		2008	2007	Increase	
Maintenance revenue								
Maintenance	\$ 10,083	\$ 7,380	\$ 2,703	37%	\$ 18,982	\$ 14,401	\$ 4,581	32%

The increase in maintenance revenue in the second quarter and six months ended June 30, 2008 compared to the same periods in 2007 was due to the continued increase in the installed base of our software.

(dollars in thousands)	Three Months Ended June 30,						Six Months Ended June 30,					
	2008		2007		Increase		2008		2007		Increase	
Professional services												
Consulting services	\$ 23,866	95%	\$ 16,983	95%	\$ 6,883	41%	\$ 44,409	94%	\$ 34,264	94%	\$ 10,145	30%
Training	1,351	5	956	5	395	41	2,902	6	2,059	6	843	41
Total Professional services	\$ 25,217	100%	\$ 17,939	100%	\$ 7,278	41%	\$ 47,311	100%	\$ 36,323	100%	\$ 10,988	30%

Professional services are primarily consulting services related to new license implementations. During the second quarter of 2008, an arrangement for which all of the revenue and associated direct costs were previously deferred was recognized as a result of the customer's acceptance of the software and services. As a result, consulting services revenue for the second quarter and six months ended June 30, 2008 increased significantly compared to the second quarter and six months ended June 30, 2007. We have no other similar arrangements and, therefore, we anticipate consulting services revenue to increase at a lesser rate in the third quarter of 2008.

(dollars in thousands)	Three Months Ended June 30,				Six Months Ended June 30,			
	2008	2007	Increase		2008	2007	Increase	
Gross Profit								
Software license	\$ 15,785	\$ 10,344	\$ 5,441	53%	\$ 33,270	\$ 22,428	\$ 10,842	48%
Maintenance	8,763	6,228	2,535	41%	16,430	12,104	4,326	36%
Professional services	5,798	4,771	1,027	22%	9,572	8,736	836	10%
Total gross profit	\$ 30,346	\$ 21,343	\$ 9,003	42%	\$ 59,272	\$ 43,268	\$ 16,004	37%
Maintenance gross margin	87%	84%			87%	84%		
Professional services gross margin	23%	27%			20%	24%		

Increases in software license gross profit are due to increases in license revenue as there are no significant associated direct costs.

The decrease in our professional services gross margin in the second quarter and six months ended June 30, 2008 compared to the same periods in 2007 was primarily attributable to an increase in our allowance for sales credit memos and an increase in the value of professional services engagements we had performed as of June 30, 2008, but have not recognized as revenue, as we did not have a signed contract as of that date, compared to same period in 2007. The decrease in our professional services gross margin was also due to expenses incurred for our first world-wide professional services training meeting.

Operating expenses

	Three Months Ended June 30,		Increase		Six Months Ended June 30,		Increase	
(dollars in thousands)	2008	2007			2008	2007		
<i>Selling and marketing</i>								
Selling and marketing	\$ 14,657	\$ 11,647	\$ 3,010	26%	\$ 29,338	\$ 23,416	\$ 5,922	25%
As a percent of total revenue	29%	33%			29%	32%		
Selling and marketing headcount					175	146	29	20%

Selling and marketing expenses include payroll, employee benefits, stock-based compensation expense, and other headcount-related expenses associated with selling and marketing personnel as well as advertising, promotions, trade shows, seminars, and other programs. The increase in selling and marketing expenses during the second quarter and six months ended June 30, 2008 compared to the same periods in 2007 was

Table of Contents

primarily due to increased employee related expenses associated with higher headcount. For the second quarter of 2008, compensation and benefit expenses increased approximately \$1.5 million and travel expenses increased approximately \$0.5 million a result of the higher headcount compared to the same period in 2007. For the six months ended June 30, 2008, compensation and benefit expenses increased approximately \$3.4 million and travel expenses increased approximately \$1.0 million a result of the higher headcount compared to the same period in 2007.

	Three Months Ended					Six Months Ended			
	June 30,		Increase			June 30,		Increase	
(dollars in thousands)	2008	2007				2008	2007		
Research and development									
Research and development	\$ 7,874	\$ 6,380	\$ 1,494	23%	\$ 14,896	\$ 12,565	\$ 2,331	19%	
As a percent of total revenue	15%	18%			15%	17%			
Research and development headcount					140	116	24	21%	

Research and development expenses include payroll, employee benefits, stock-based compensation expense, contracted services, and other labor-related expenses associated with research and development. The increase in research and development expenses during the second quarter and six months ended June 30, 2008 compared to the same periods in 2007 was primarily due to higher compensation and benefit expenses associated with higher headcount and higher offshore subcontractor expenses. The increase during the second quarter of 2008 compared to 2007 was primarily due to approximately \$0.8 million of higher compensation and benefit expenses and \$0.3 million of higher offshore subcontractor expenses. The increase during the six months ended June 30, 2008 compared to 2007 was primarily due to approximately \$1.1 million of higher compensation and benefit expenses and \$0.7 million of higher offshore subcontractor expenses. We are in the process of establishing a research and development center in India. We received favorable Special Economic Zone (SEZ) tax status approval from the Indian government and expect our center to be operational by the end of the third quarter of 2008. The associated start-up expenses have been included in general and administrative expenses until the new center is operational, at which time, the expenses associated with the new center will be included in research and development expenses.

As a percent of total revenue	10%	12%			10%	12%		
General and administrative headcount					129	108	21	19%

General and administrative expenses include payroll, employee benefits, stock-based compensation expense and other headcount-related expenses associated with finance, legal, corporate governance, other administrative headcount, and accounting, legal, and other administrative fees as well as certain start-up expenses associated with our new research and development center in India. The increase for the second quarter of 2008 compared to 2007 was primarily due to \$1.2 million of higher compensation and benefits and \$0.5 million of start-up expenses in 2008 associated with the establishment of our research and development center in India, partially offset by \$0.8 million of lower accounting and tax fees. The increase for the six months ended June 30, 2008 compared to 2007 was primarily due to \$1.5 million of higher compensation and benefits and \$1.0 million of start-up expenses in 2008 associated with the establishment of our research and development center in India, partially offset by \$1.2 million of lower accounting and tax fees.

Stock-based compensation

In accordance with Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment (SFAS 123(R)), we recognize stock-based compensation expense associated with equity awards in our consolidated statements of income based on the fair value of these awards at the date of grant. The following table summarizes stock-based compensation expense included in our unaudited condensed consolidated statements of income:

	Three Months Ended June 30,				Six Months Ended June 30,		
(dollars in thousands)	2008	2007	Increase		2008	2007	Increase
Stock-based compensation expense:							

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

Cost of revenue	\$261	\$107	\$154	144%	\$465	\$269	\$196	73%
Selling and marketing	208	108	100	93%	368	210	158	75%
Research and development	154	30	124	413%	239	71	168	237%
General and administrative	497	55	442	804%	651	146	505	346%
Total stock-based compensation before tax	1,120	300	820	273%	1,723	696	1,027	148%
Income tax benefit	(307)	(95)			(526)	(199)		
Net stock-based compensation expense	\$813	\$205			\$1,197	\$497		

Table of Contents

As of June 30, 2008, we had approximately \$2.2 million of unrecognized stock-based compensation expense related to the unvested portion of all our stock options that is expected to be recognized over a weighted-average period of approximately 2.0 years. As of June 30, 2008, we had approximately \$0.9 million of unrecognized stock-based compensation expense related to periodic grants of restricted stock units (RSUs) that is expected to be recognized over a weighted-average period of 2.2 years and \$0.5 million of unrecognized stock-based compensation expense for RSUs granted in connection with our 2008 Corporate Incentive Compensation Plan that is expected to be recognized over a weighted-average period of approximately one year.

Interest income and Other income

(dollars in thousands)	Three Months Ended June 30,		Increase (Decrease)		Six Months Ended June 30,		Increase (Decrease)	
	2008	2007			2008	2007		
Installment receivable interest income	\$78	\$282	\$ (204)	72%	\$153	\$558	\$ (405)	73%
Other interest income, net	1,298	1,639	(341)	21%	2,953	3,184	(231)	7%
Other income, net	69	98	(29)	30%	350	78	272	349%
Interest income and other	\$1,445	\$2,019	\$ (574)	28%	\$3,456	\$3,820	\$ (364)	10%

The decrease in interest income in the second quarter and six months ended June 30, 2008 compared to the same periods in 2007 was primarily due to our investment in lower yielding tax exempt municipal bonds and the decrease in interest income from installment receivables. We expect a reduction in interest income associated with the installment receivables as a result of the declining balance of term licenses on which revenue has been recognized in advance of payments. In 2008, due to credit market turmoil and adverse changes in the economy, we have changed the mix of our investment portfolio to increase our holdings in high credit quality pre-refunded municipal bonds. These bonds are collateralized by the issuer purchasing U.S. Treasury securities structured to fund all the cash flows of the refunded municipal bonds that will mature when the issuer's bonds mature.

Other income, net, consists primarily of currency exchange gains and losses and realized gains and losses on the sale of our investments. The increase in other income during the six months ended June 30, 2008 was due to the recognition of a foreign exchange gain on the collection of a European receivable in the first quarter of 2008.

Provision for income taxes

The provision for income taxes represents current and future amounts owed for federal, state, and foreign taxes. During the second quarter of 2008 and 2007, we recorded a \$1.2 million provision and \$0.4 million provision, respectively, which resulted in an effective tax rate of 29.2% and 40.1%, respectively. For the six months ended June 30, 2008 and 2007, we recorded a \$2.4 million provision and \$1.0 million provision, respectively, which resulted in an effective rate of 29.4% and 36.8%, respectively.

The decrease in the effective tax rate was due primarily to changes in the geographic mix of income and the increased investment in tax exempt municipal bonds. The determination of the provision for income tax expense, deferred tax assets and liabilities and related valuation allowance involves judgment. As a global company, we are required to calculate and provide for income taxes in each of the tax jurisdictions where we operate. This involves making judgments regarding the recoverability of deferred tax assets, which can affect the overall effective tax rate.

We adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) on January 1, 2007. As a result, we recorded the cumulative effect of applying the provisions of FIN 48 and recorded a \$1.5 million reduction to our January 1, 2007 retained earnings. As of June 30, 2008, the amount of unrecognized tax benefits totaled approximately \$10.1 million, of which \$4.4 million, if recognized would impact our effective tax rate. We do not expect the changes in the unrecognized benefits within the next 12 months to be material.

Table of Contents**Liquidity and capital resources**

(in thousands)	Six Months Ended June 30,	
	2008	2007
Cash flows provided by (used in)		
Operating activities	\$ 30,467	\$ 11,319
Investing activities	(26,881)	(27,084)
Financing activities	(1,033)	4,185
Effect of exchange rate on cash	123	303
Net increase (decrease) in cash and cash equivalents	\$ 2,676	\$ (11,277)
	As of June 30, 2008	As of December 31, 2007
Cash and cash equivalents	\$ 29,386	\$ 26,710
Short-term investments	147,457	123,271
Total cash, cash equivalents and short-term investments	\$ 176,843	\$ 149,981

We have funded our operations primarily from cash flows provided by operations. As of June 30, 2008, we had cash, cash equivalents and short-term investments of \$176.8 million, a \$26.8 million increase from \$150.0 million as of December 31, 2007. This increase was primarily due to \$30.5 million of cash flow provided by operations.

Working capital was \$164.6 million as of June 30, 2008 compared to \$159.5 million as of December 31, 2007. The increase in working capital was primarily due to a \$26.8 million increase in cash and short-term investments, partially offset by a \$14.4 million decrease in trade accounts receivable and a \$7.1 million increase in our deferred revenue. The increase in deferred revenue is primarily due to increased billings related to the growth in our business. Trade accounts receivable decreased due to significant cash collections during the first six months of 2008.

Cash flows provided by operating activities

Cash flows provided by operating activities during the first six months of 2008 increased to \$30.5 million compared to \$11.3 million in the first six months of 2007. The primary components of cash flows provided by operations during the first six months of 2008 were \$5.8 million of net income, a \$14.4 million decrease in trade accounts receivable, and a \$10.7 million decrease in license installments. Our level of operating cash flows for the first six months of 2008 may not be indicative of our operating cash flows for the second half of the year.

Cash flows used in investing activities

Net cash flows used in investing activities during the first six months of 2008 and 2007 was primarily for purchases of marketable debt securities of \$145.3 million and \$53.5 million, respectively, partially offset by the proceeds received from the sales, maturities and called marketable debt securities of \$120.2 million and \$27.9 million, respectively.

In March 2008, we invested approximately \$0.8 million to acquire certain assets of privately held Focus Technology Group, Inc. and a related entity (collectively "Focus"), a software company that provides anti-fraud and anti-money laundering offerings to the banking industry. In addition to the initial purchase consideration, maximum contingent consideration of approximately \$2.1 million in cash is due to Focus upon the achievement of certain performance milestones and sales targets to be paid over a period of 30 months from the acquisition date.

Cash flows (used in) provided by financing activities

Net cash flows used in financing activities during the first six months of 2008 was primarily for repurchases of our common stock and the payment of our quarterly dividend. Since 2004, our Board of Directors has approved three stock repurchase programs that authorized us to repurchase in the aggregate up to \$45.0 million of our common stock. Purchases under these programs were made on the open market.

The following table is a summary of our repurchase activity under all of our repurchase programs during the first six months of 2008 and 2007:

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

(dollars in thousands)	2008		2007	
	Shares	Amount	Shares	Amount
Prior year authorization as of January 1,		\$ 1,210		\$ 6,872
Authorizations		15,000		
Repurchases paid	503,080	(5,423)	88,245	(914)
Repurchases unsettled	65,472	(870)		
Authorization remaining as of June 30,		\$ 9,917		\$ 5,958

Between January 1, 2008 and June 30, 2008, we repurchased approximately 569,000 shares of our common stock for approximately \$6.3 million, including approximately \$0.9 million of repurchases that settled in July 2008. These share repurchases partially offset the shares issued and proceeds received under our various share-based compensation plans in the first six months of 2008. Under these share-based compensation plans, we issued 707,024 shares and 951,188 shares and received proceeds of \$4.8 million and \$6.1 million during the first six months of 2008 and 2007, respectively.

On May 30, 2006, our Board of Directors approved a quarterly cash dividend of \$0.03 per share, beginning with the second quarter ended June 30, 2006. Accordingly, the Company declared a \$0.03 per share cash dividend for each of the quarters in 2007 and in the first and second

Table of Contents

quarters of 2008. The Company paid cash dividends of \$2.2 million and \$2.1 million in first six months of 2008 and 2007, respectively. It is our current intention to pay a quarterly cash dividend of \$0.03 per share to shareholders of record as of the first trading day of each quarter; however, the Board of Directors may terminate or modify this dividend program at any time without notice.

We believe that our current cash, cash equivalents, and cash flow from operations will be sufficient to fund our business for at least the next 12 months. Material risks to cash flow from operations include delayed or reduced cash payments accompanying sales of new licenses or a decline in our services business. There can be no assurance that changes in our plans or other events affecting our operations will not result in materially accelerated or unexpected expenditures.

Contractual Obligations

As of June 30, 2008, we had material commitments for purchases of customer support and consulting services, and payments under operating leases. Our principal administrative, sales, marketing, support, and research and development operations are located in an approximate 100,000 square foot leased facility in Cambridge, Massachusetts. The lease for this facility expires in 2013, subject to our option to extend for two additional five-year periods. We also lease space for our other offices in the U.S., Canada, Australia, France, the Netherlands and the United Kingdom. These leases expire at various dates through 2010. During the second quarter of 2008, the Company entered into an agreement to lease office space in India for five years that expires in 2013. In July 2008, the Company entered into an amendment to its lease of the Cambridge, Massachusetts facility for an additional 4,600 square feet and approximately an additional \$0.2 million in rent expense per year for five years.

Rent expense under operating leases is recognized on a straight-line basis to account for scheduled rent increases and tenant improvement incentives. The excess of expense over current payments is recorded as deferred rent and included in other long-term liabilities.

As of June 30, 2008, our known contractual obligations were as follows:

Contractual obligations: (in thousands)	Total (2)	Payment due by period				Other (2)
		Remainder of 2008	2009 & 2010	2011 & 2012	2013 and after	
Purchase commitments (1)	\$ 5,307	\$ 3,808	\$ 1,499	\$	\$	\$
FIN 48 liability (2)	10,118					10,118
Operating lease obligations (3)	21,607	2,289	8,810	9,009	1,499	
Total	\$ 37,032	\$ 6,097	\$ 10,309	\$ 9,009	\$ 1,499	\$ 10,118

- (1) Relates to commitments for contractor services, of which approximately \$4.5 million relates to one vendor agreement.
- (2) Total contractual obligations include our FIN 48 liability of approximately \$10.1 million, but we are unable to reasonably estimate the timing in individual years beyond the next 12 months due to uncertainties in the timing of the effective settlement of tax positions.
- (3) Includes deferred rent of approximately \$0.3 million included in accrued expenses and approximately \$1.7 million in other long-term liabilities.

The following table summarizes the cash receipts due in connection with our existing term license agreements:

Table of Contents

As of June 30, (in thousands)	Installment payments for term licenses recorded on the balance sheet (1)	Installment payments for term licenses not recorded on the balance sheet (2)
Remainder of 2008	\$ 8,187	\$ 11,223
2009	3,609	22,922
2010	2,837	16,828
2011	2,190	13,562
2012	1,267	8,159
2013 and thereafter	-	848
Total	18,090	\$ 73,542
Unearned installment interest income	(1,317)	
Total license installments receivable, net	\$ 16,773	

(1) These amounts have previously been recognized as license revenue, net of unearned installment interest income and consist of approximately \$9.8 million of short-term license installments and approximately \$7.0 million of long-term license installments included in the accompanying unaudited condensed consolidated balance sheet as of June 30, 2008. For these agreements, we recognized the present value of future term license payments upon customer acceptance, provided that no significant obligations or contingencies exist related to the software, other than maintenance support, and provided all other criteria for revenue recognition have been met.

(2) These amounts will be recognized as revenue in the future over the term of the agreement as payments become due or earlier if prepaid.

Fair Value Inputs

We adopted SFAS No. 157 Fair Value Measurements (SFAS 157) on January 1, 2008. See Note 1 Basis of Presentation and Recent Accounting Pronouncements and Note 3 Investments and Fair Value Measurements in the notes to the unaudited condensed consolidated financial statements for further discussion. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The use of fair value to measure investments, with related unrealized gains or losses on investments, is a significant component to our consolidated results of operations.

We value our investments by using quoted market prices and broker or dealer quotations which are based on third party pricing sources with reasonable levels of price transparency. The types of instruments valued based on quoted market prices in active markets include government debt securities, municipal debt securities, high quality foreign debt securities, money market securities and most of the corporate debt securities. We do not adjust the quoted price for such instruments. The types of instruments valued based on other observable inputs include some of the municipal and corporate debt securities. The price for each security at the measurement date is sourced from an independent pricing vendor. Periodically, management may assess the reasonableness of these sourced prices by comparing them to the prices provided by our portfolio managers to derive the fair value of these financial instruments. Management assesses the inputs of the pricing in order to categorize the financial instruments into the appropriate hierarchy levels.

Recent accounting pronouncements

See Note 1 Basis of Presentation and Recent Accounting Pronouncements in the notes to the unaudited condensed consolidated financial statements for further discussion.

Inflation

Inflation has not had a significant impact on our operating results to date, and we do not expect it to have a significant impact in the future. Our unbilled license and maintenance fees are typically subject to annual increases based on recognized inflation indices.

Table of Contents**Significant customers**

The following table summarizes our concentration of credit risk associated with customers accounting for more than 10% of our total revenue, outstanding trade receivables and long and short-term license installments:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Total Revenue				
Customer A	13%	-	-	-
			June 30,	December 31,
Trade Receivables			2008	2007
Customer A			14%	14%
Customer B			-	19%
Long and short-term license installments				
Customer C			23%	15%
Customer D			12%	-
Customer E			-	24%

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk represents the risk of loss that may affect us due to adverse changes in financial market prices and rates. Our market risk exposure is primarily related to fluctuations in foreign exchange rates and interest rates. We have not entered into derivative or hedging transactions to manage risk in connection with such fluctuations.

Foreign currency exposure

We derived approximately 37% and 28% of our total revenue from sales to customers based outside of the U.S. during the first six months of 2008 and 2007, respectively. Increasingly, our international sales have become primarily denominated in foreign currencies, but may be denominated in U.S. dollars depending on the customer and transaction. However, the operating expenses of our foreign operations are primarily denominated in foreign currencies. Therefore, our foreign currency exposure is largely offset. A decrease in the value of foreign currencies, particularly the British pound and the Euro relative to the U.S. dollar, could adversely impact our revenues and operating results.

Most of our transactions with customers are invoiced from our offices in the U.S. For those transactions that are denominated in currencies other than the U.S. dollar, we have receivables and license installments that are valued in foreign currencies. In addition, our U.S. operating company holds cash and investments in foreign currencies in order to support our foreign operations. Our functional currency is the U.S. dollar, therefore, when there are changes in the foreign currency exchange rates versus the U.S. dollar, we recognize a foreign currency transaction gain or (loss) in other income (expense), net in our consolidated statements of income. As of June 30, 2008, we had net monetary assets valued in foreign currencies, consisting primarily of cash, investments, license installments, and receivables, partially offset by accounts payable and accruals, with a carrying value of approximately \$36.7 million. As of June 30, 2008, a ten percent change in foreign currency exchange rates would have changed the carrying value of our net assets by approximately \$3.7 million as of that date with a corresponding currency gain (loss) recognized in our consolidated statement of income.

Interest rate exposure

Our balance sheet contains interest bearing assets which have fixed rates of interest. These assets include license installments receivable generated in the normal course of business through transactions with customers and our investments in marketable debt securities.

License installments receivable bear interest at the rate in effect when the license revenue was recognized, which does not vary throughout the life of the contractual cash flow stream. We believe that at current market interest rates, the fair value of license installments receivable approximates the carrying value as reported on our balance sheets. However, there can be no assurance that the fair market value will approximate the carrying value in the future. Factors such as increasing interest rates can reduce the fair market value of the license installments receivable. Changes in market rates do not affect net earnings as the license installments receivable are carried at cost and, since they are not financial instruments and are held until maturity, are not marked to market to reflect changes in the fair value of the portfolio. The carrying value of our total license installment receivables was \$16.8 million as of June 30, 2008, and reflects the weighted-average of historic discount rates used to record each term license arrangement. The average rate changes with market rates as new license installments receivable are added to the

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

portfolio, which mitigates exposure to market interest rate risk. A 200 basis point increase in market interest rates would have decreased the fair value of our license installments receivable by approximately \$0.4 million as of June 30, 2008.

Table of Contents

We invest primarily in tax exempt municipal bonds, government sponsored enterprises and corporate bonds that are fixed rate marketable debt securities. A 200 basis point increase in market interest rates would have reduced the fair value of our marketable debt securities by approximately \$3.6 million as of June 30, 2008. Changes in market rates and the related impact on fair value of the investments do not generally affect net earnings as our investments are fixed rate securities and are classified as available-for-sale and as such, unrealized gains and losses, net of tax effect, are recorded in accumulated other comprehensive income in our accompanying consolidated balance sheets. However, when the investments are sold, the unrealized gains and losses are recorded as realized gains and losses and included in net income in the accompanying consolidated statements of income.

We analyze our investments for impairments on an ongoing basis. Factors considered in determining whether a loss is temporary include the length of time and extent to which the securities have been in an unrealized loss position and our ability and intent to hold the investment for a period of time sufficient to allow for any anticipated market recovery. As of June 30, 2008, we held investments that had aggregate gross unrealized losses of approximately \$0.5 million. All such securities have been in an unrealized loss position for less than 12 months. We believe that the impairments to these investments are not other-than-temporary at this time as these securities are all highly rated investments which have been subject to routine market changes that have not been significant to date and we have the ability and intent to hold these investments for a period of time sufficient to allow for the anticipated market recovery.

As of June 30, 2008, we did not directly hold any auction-rate securities or mortgage-backed securities. As a result, any investment exposure related to the recent sub-prime mortgage crisis is indirect and limited to our investments in corporate bonds of financial institutions that could be impacted by the sub-prime mortgage crisis. As of the date of this filing, we are not aware of any downgrades, losses, or other significant deterioration in the fair value of our short-term investments.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

Our management, with the participation of our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act) as of June 30, 2008. In designing and evaluating our disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and our management necessarily applied its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As previously disclosed in Part II, Item 9A. Controls and Procedures in our Annual Report on Form 10-K for the year ended December 31, 2007, our management identified a material weakness in the Company's internal control over financial reporting related to inadequate and ineffective controls over the accounting for certain complex software revenue recognition transactions. As described below, management has taken significant steps to remediate this material weakness, however, as of June 30, 2008, our management has concluded that the controls over the accounting for certain complex software revenue recognition transactions were not effective as of June 30, 2008. Based on this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were not effective as of June 30, 2008.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

(b) Changes in Internal Control over Financial Reporting.

We implemented changes in our internal control over financial reporting with respect to our material weakness in accounting for certain complex software revenue recognition transactions described below. There have been no other changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during the quarter ended June 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Ongoing Remediation Plan - Complex Software Revenue Recognition Transactions

Management has been addressing the remaining material weakness related to accounting for certain complex software revenue recognition transactions and is committed to effectively remediating this weakness. As part of this remediation, we have assessed our revenue processes to re-evaluate our control procedures, enhanced the level of technical expertise of our third-party review, and assessed the expertise of our staff responsible for revenue recognition and addressed any identified deficiencies. We continue to improve our ability to identify when customer contracts contain non-standard terms. We also continue to improve our research protocol so that we more fully understand the applicable

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

accounting for such terms and we added additional reviews of these arrangements by individuals with revenue recognition expertise. We believe we are taking the steps necessary to remediate this material weakness and will continue to review, revise and improve the effectiveness of our internal controls as appropriate. Although we have made enhancements to our control procedures in this area, this material weakness will not be considered remediated until our controls are operational for a period of time, tested and management concludes that these controls are operating effectively.

Table of Contents**Part II Other Information:****Item 1A. Risk Factors**

We encourage you to carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007. These risk factors could materially affect our business, financial condition and future results and could cause our actual business and financial results to differ materially from those contained in forward-looking statements made in this Quarterly Report on Form 10-Q or elsewhere by management from time to time. The following risk factor represents a material change in our risk factors and should be considered in addition to those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2007.

The increased and continued credit market turmoil and adverse changes in the global economy may negatively impact our sales, especially to our financial services customers. If these adverse economic conditions persist, our sales to our customers across other industries may also be negatively impacted. As a result of the continued volatility in the credit markets, many financial services institutions have recorded significant write-offs in their financial statements to reflect the reduced value of their portfolios of sub-prime mortgage loans and/or securities derived from these loans. As a result of these write-offs, financial institutions are reporting significant net losses and are seeking additional investments to increase their financial liquidity. These current market conditions combined with the expanded negative economic trends, could impact the ability and willingness of our financial services customers, and possibly our customers in other industries, to make investments in technology, which may delay or reduce the amount of purchases of our software and professional services and negatively impact our operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information regarding our repurchases of our common stock during the second quarter of 2008:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Share Repurchase Programs (1) (2)	Approximate Dollar Value of Shares That May Yet Be Purchased Under Publicly Announced Share Repurchase Programs (in thousands) (1) (2)
4/1/08-4/30/08	99,546	\$ 9.92	99,546	\$ 12,882
5/1/08-5/31/08	83,344	11.39	83,344	11,933
6/1/08-6/30/08	156,248	12.90	156,248	9,917
Total	339,138	\$ 11.65		

- (1) On June 4, 2007, we publicly announced that our Board of Directors approved a \$10.0 million stock repurchase program beginning July 1, 2007 and ending June 30, 2008 (the Third Program). Under the Third Program, shares may be purchased in such amounts as market conditions warrant, subject to regulatory and other considerations. Purchases under the Third Program were made on the open market. We completed the \$10.0 million authorization of stock repurchases during the first quarter of 2008.
- (2) On February 14, 2008, we publicly announced that our Board of Directors authorized an expansion of the Third Program. Under this expansion, an additional \$15.0 million in repurchases of the Company's common stock was approved, over and above the initial \$10.0 million authorization, and the expiration date was extended to December 31, 2008. This expansion became effective on March 10, 2008, which was the second trading day following the release of the Company's financial results for the fourth quarter and full year 2007. Purchases under the expansion of Third Program may be made from time to time on the open market or in privately negotiated transactions.

Edgar Filing: PEGASYSTEMS INC - Form 10-Q

Item 4. Submission of Matters to a Vote of Security Holders
