Preliminary Prospectus Supplement dated February 25, 2013

PROSPECTUS SUPPLEMENT

(To Prospectus dated April 30, 2010)

Spectra Energy Capital, LLC

\$ % Senior Notes due

Fully and Unconditionally Guaranteed by

Spectra Energy Corp

This is an offering by Spectra Energy Capital, LLC of \$ aggregate principal amount of its % Senior Notes due . The notes will bear interest at the rate of % per year. We will pay interest on the notes on and of each year, beginning , 2013. The notes will mature on , . We may redeem some or all of the notes at any time at the redemption prices described in this prospectus supplement beginning on page S-17.

The notes are unsecured and rank equally with all other senior indebtedness of Spectra Energy Capital, LLC. The notes will be fully and unconditionally guaranteed by our parent, Spectra Energy Corp, on a senior unsecured basis.

Investing in the notes involves certain risks. See Risk Factors beginning on page S-10 of this prospectus supplement and the section captioned Risk Factors in Spectra Energy Corp's Annual Report on Form 10-K for the year ended December 31, 2012, which has been filed with the Securities and Exchange Commission and is incorporated by reference into this prospectus supplement.

The notes will not be listed on any securities exchange or quoted on any dealer quotation system. Currently, there is no public market for the notes.

	<i>Per Note</i>	<i>Total</i>

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering and the notes. The second part is the accompanying prospectus, which describes certain terms of the indenture under which the notes and the guarantees will be issued and which gives more general information, some of which may not apply to this offering.

If the information varies between this prospectus supplement and the accompanying prospectus, you should rely on the information contained in this prospectus supplement.

You should rely only on the information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus or any free writing prospectus prepared by or on behalf of us. We have not, and the underwriters have not, authorized anyone to provide you with additional or different information. We are not, and the underwriters are not, making an offer to sell the notes or the guarantees in any jurisdiction where the offer is not permitted. You should assume that the information contained in this prospectus supplement or the accompanying prospectus is accurate only as of the date on the front of this document and that any information we have incorporated by reference is accurate only as of the date of the document incorporated by reference. Our business, financial condition, results of operations and prospects may have changed since these dates.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This prospectus supplement and the accompanying prospectus contain or incorporate by reference statements that do not directly or exclusively relate to historical facts. Such statements are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. You can typically identify forward-looking statements by the use of forward-looking words, such as anticipate, believe, intend, estimate, expect, continue, should, could, may, plan, project, predict, will, potential, forecast, and similar expressions. Those statements represent Spectra Energy Corp's intentions, plans, expectations, assumptions and beliefs about future events. Our and Spectra Energy Corp's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Forward-looking statements are subject to risks, uncertainties, and other factors, many of which are outside our control and could cause actual results to differ materially from the results expressed or implied by those forward-looking statements. Factors that could cause actual results to differ materially from those indicated in any forward-looking statement include, but are not limited to, those factors set forth in the section of this prospectus supplement entitled Risk Factors beginning on page S-10 and the section captioned Risk Factors in Spectra Energy Corp's Annual Report on Form 10-K for the year ended December 31, 2012, which has been filed with the Securities and Exchange Commission (the SEC) and incorporated by reference into this prospectus supplement, as well as the following:

state, federal and foreign legislative and regulatory initiatives that affect cost and investment recovery, have an effect on rate structure, and affect the speed at and degree to which competition enters the natural gas and oil industries;

outcomes of litigation and regulatory investigations, proceedings or inquiries;

weather and other natural phenomena, including the economic, operational and other effects of hurricanes and storms;

the timing and extent of changes in commodity prices, interest rates and foreign currency exchange rates;

general economic conditions, including the risk of a prolonged economic slowdown or decline, or the risk of delay in a recovery, which can affect the long-term demand for natural gas and oil and related services;

potential effects arising from terrorist attacks and any consequential or other hostilities;

changes in environmental, safety and other laws and regulations;

the development of alternative energy resources;

results of financing efforts, including the ability to obtain financing on favorable terms, which can be affected by various factors, including credit ratings and general market and economic conditions;

increases in the cost of goods and services required to complete capital projects;

declines in the market prices of equity and debt securities and resulting funding requirements for defined benefit pension plans;

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

growth in opportunities, including the timing and success of efforts to develop U.S. and Canadian pipeline, storage, gathering, processing and other related infrastructure projects and the effects of competition;

the performance of natural gas and oil transmission and storage, distribution, and gathering and processing facilities;

the extent of success in connecting natural gas and oil supplies to gathering, processing and transmission systems and in connecting to expanding gas and oil markets;

the effects of accounting pronouncements issued periodically by accounting standard-setting bodies;

S-ii

Table of Contents

conditions of the capital markets during the periods covered by these forward-looking statements; and

the ability to successfully complete merger, acquisition or divestiture plans; regulatory or other limitations imposed as a result of a merger, acquisition or divestiture; and the success of the business following a merger, acquisition or divestiture.

In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than Spectra Energy Capital, LLC and Spectra Energy Corp have described. Spectra Energy Capital, LLC and Spectra Energy Corp undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

PROSPECTUS SUPPLEMENT SUMMARY

This summary is to help you understand our business, the notes and the guarantees. It does not contain all of the information that may be important to you. You should read carefully the entire prospectus supplement, the accompanying prospectus, the documents incorporated by reference and the other documents to which we refer you for a more complete understanding of this offering and our business. You should also read Risk Factors beginning on page S-10 of this prospectus supplement and the section captioned Risk Factors in Spectra Energy Corp's Annual Report on Form 10-K for the year ended December 31, 2012, which has been filed with the SEC, and incorporated by reference into this prospectus supplement, for more information about important risks that you should consider before making a decision to purchase any notes in this offering.

Spectra Energy Corp conducts substantially all of its business through Spectra Energy Capital, LLC, or Spectra Energy Capital, and the subsidiaries and unconsolidated affiliates of Spectra Energy Capital. Accordingly, in the sections of this prospectus supplement that describe the business of Spectra Energy Corp and Spectra Energy Capital, unless the context otherwise indicates, references to Spectra Energy Capital, us, we, our, and like terms refer to Spectra Energy Capital together with its subsidiaries and unconsolidated affiliates. All financial results presented in this prospectus supplement are those of Spectra Energy Corp.

The notes are solely obligations of Spectra Energy Capital and, to the extent described in this prospectus supplement, are fully and unconditionally guaranteed by Spectra Energy Corp. Accordingly, in the other sections of this prospectus supplement, including The Offering and Description of the Notes, unless the context otherwise indicates, references to Spectra Energy Capital, us, we, our, and like terms refer to Spectra Energy Capital, LLC and do not include any of its subsidiaries or unconsolidated affiliates or Spectra Energy Corp. Likewise, in such sections, unless the context otherwise indicates, including with respect to financial and operating information that is presented on a consolidated basis, Spectra Energy Corp refers only to Spectra Energy Corp and not its subsidiaries or unconsolidated affiliates.

Spectra Energy Corp and Spectra Energy Capital, LLC

Spectra Energy Corp conducts substantially all of its business through its wholly owned subsidiary, Spectra Energy Capital, and the subsidiaries and unconsolidated affiliates of Spectra Energy Capital. All of the operating assets, liabilities and operations of Spectra Energy Corp are held by Spectra Energy Capital, except for certain benefit plan assets and liabilities.

We own and operate a large and diversified portfolio of complementary natural gas-related energy assets and are one of North America's leading natural gas infrastructure companies. For over a century, we and our predecessor companies have developed critically important pipelines and related energy infrastructure connecting natural gas supply sources to premium markets. We currently operate in three key areas of the natural gas industry: gathering and processing, transmission and storage, and distribution. Headquartered in Houston, Texas, we provide transportation and storage of natural gas to customers in various regions of the northeastern and southeastern United States, the Maritime Provinces in Canada and the Pacific Northwest in the United States and Canada, and in the province of Ontario, Canada. We also provide natural gas sales and distribution service to retail customers in Ontario, and natural gas gathering and processing services to customers in western Canada. We also have a 50% ownership interest in DCP Midstream, LLC (DCP Midstream), based in Denver, Colorado, one of the leading natural gas gatherers in the United States based on wellhead volumes, and one of the largest U.S. producers and marketers of natural gas liquids (NGLs). Our business includes a 61% equity interest in Spectra Energy Partners, LP (Spectra Energy Partners), a natural gas infrastructure master limited partnership. Spectra Energy Partners is a separate, publicly traded entity which trades on the New York Stock Exchange under the symbol SEP.

Table of Contents

Our natural gas pipeline systems consist of more than 19,000 miles of transmission pipelines. Our proportional throughput for our pipelines totaled 4,189 trillion British thermal units (TBtu) in 2012, compared to 4,329 TBtu in 2011 and 4,248 TBtu in 2010. These amounts include throughput on 100%-owned U.S. and Canadian pipelines and our proportional share of throughput on pipelines that are not 100%-owned. Our storage facilities provide approximately 305 billion cubic feet (Bcf) of storage capacity in the United States and Canada.

Business Strategy

Our focus is on leading the natural gas infrastructure industry in terms of safe and reliable operations, customer responsiveness and profitability. Through our network of people and assets, we strive to increase our size, financial flexibility and services to meet the changing needs of our customers. Our primary business objective is to create superior and sustainable value for our investors, customers, employees and communities by providing natural gas gathering, processing, transmission, storage and distribution services.

In November 2012, we acquired direct one-third ownership interests in DCP Sand Hills Pipeline, LLC (Sand Hills) and DCP Southern Hills Pipeline, LLC (Southern Hills). In December 2012, we signed a definitive agreement to purchase the Express-Platte Pipeline System assets which transport crude oil from western Canada to refining markets in the United States. The Express-Platte Pipeline acquisition is expected to close in the first half of 2013. This acquisition, when completed, will provide opportunities to further move into adjacent businesses with similar customer bases and expand our value chain participation into NGL pipeline and crude oil infrastructure assets.

Our Businesses

We currently manage our business in four reportable segments: U.S. Transmission, Distribution, Western Canada Transmission & Processing, and Field Services. The remainder of our business operations is presented as Other and consists of unallocated corporate costs, 100%-owned captive insurance subsidiaries, employee benefit plan assets and liabilities, and other miscellaneous activities. The following sections describe the operations of each of our businesses.

Table of Contents

U.S. Transmission

Our U.S. Transmission business provides transportation and storage of natural gas for customers in various regions of the northeastern and southeastern United States and the Maritime Provinces in Canada. Our U.S. pipeline systems consist of more than 14,600 miles of transmission pipelines with eight primary transmission systems: Texas Eastern Transmission, LP (Texas Eastern); Algonquin Gas Transmission, LLC; East Tennessee Natural Gas, LLC; Maritimes & Northeast Pipeline, L.L.C. and Maritimes & Northeast Pipeline Limited Partnership; Ozark Gas Transmission, L.L.C.; Big Sandy Pipeline, LLC, Gulfstream Natural Gas System, LLC; and Southeast Supply Header, LLC. The pipeline systems in our U.S. Transmission business receive natural gas from major North American producing regions for delivery to their respective markets. A majority of contracted transportation volumes are under long-term firm service agreements, where customers reserve capacity in the pipeline. Interruptible services, where customers can use capacity if it is available at the time of the request, are provided on a short-term or seasonal basis.

U.S. Transmission provides natural gas storage services through Saltville Gas Storage Company, L.L.C., Market Hub Partners Holding's Moss Bluff and Egan storage facilities, Steckman Ridge, LP, Bobcat Gas Storage and Texas Eastern's facilities. Gathering services are provided through Ozark Gas Gathering, L.L.C. In the course of providing transportation services, U.S. Transmission also processes natural gas on its Texas Eastern system.

U.S. Transmission's proportional throughput for its pipelines totaled 2,709 TBtu in 2012, compared to 2,770 TBtu in 2011 and 2,708 TBtu in 2010. This includes throughput on 100%-owned pipelines and our proportional share of throughput on pipelines that are not 100%-owned. Demand on the pipeline and storage systems is seasonal, with the highest throughput occurring during colder periods in the first and fourth calendar quarters, and storage injections occurring primarily during the summer periods. Actual throughput and storage injections/withdrawals do not have a significant impact on revenues or earnings.

Distribution

We provide distribution services in Canada through our subsidiary, Union Gas Limited (Union Gas). Union Gas is a major Canadian natural gas storage, transmission and distribution company based in Ontario with over 100 years of experience and service to customers. The distribution business serves approximately 1.4 million residential, commercial and industrial customers in more than 400 communities across northern, southwestern and eastern Ontario. Union Gas's storage and transmission business offers storage and transportation services to customers at Dawn Hub, the largest underground storage facility in Canada and one of the largest in North America. It offers customers an important link in the movement of natural gas from Western Canada and U.S. supply basins to markets in central Canada and the northeast United States.

Union Gas's distribution system consists of approximately 39,000 miles of main and service pipelines. Distribution pipelines carry or control the supply of natural gas from the point of local supply to customers. Union Gas's underground natural gas storage facilities have a working capacity of approximately 160 Bcf in underground facilities located in depleted gas fields. Its transmission system consists of approximately 3,000 miles of high-pressure pipeline and associated mainline compressor stations.

Western Canada Transmission & Processing

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

Our Western Canada Transmission & Processing business is comprised of the BC Pipeline and BC Field Services operations, and the Canadian Midstream and NGL Marketing operations.

The BC Field Services business consists of raw gas gathering pipelines and gas processing facilities, primarily in northeast British Columbia. These facilities provide services to natural gas producers to remove

S-3

Table of Contents

impurities from the raw gas stream including water, carbon dioxide, hydrogen sulfide and other substances. Where required, these facilities also remove various NGLs for subsequent sale by the producers. NGLs are liquid hydrocarbons extracted during the processing of natural gas. Principal commercial NGLs include butanes, propane, natural gasoline and ethane. The BC Field Services business includes six gas processing plants located in British Columbia, associated field compressor stations and approximately 1,500 miles of gathering pipelines.

The Canadian Midstream business provides similar gas gathering and processing services in British Columbia and Alberta and consists of 11 natural gas processing plants and approximately 700 miles of gathering pipelines.

The Empress NGL business provides NGL extraction, fractionation, transportation, storage and marketing services to western Canadian producers and NGL customers throughout Canada and the northern tier of the United States. Assets include a majority ownership interest in an NGL extraction plant, an integrated NGL fractionation facility, an NGL transmission pipeline, seven terminals where NGLs are loaded for shipping or transferred into product sales pipelines, two NGL storage facilities and an NGL marketing business. The Empress extraction and fractionation plant is located in Empress, Alberta.

Field Services

Field Services consists of our 50% investment in DCP Midstream, which is accounted for as an equity investment. DCP Midstream gathers, processes, treats, compresses, transports and stores natural gas. In addition, DCP Midstream also fractionates, transports, gathers, processes, stores, markets and trades NGLs. Phillips 66 owns the remaining 50% interest in DCP Midstream. DCP Midstream currently owns a 28% interest in DCP Midstream Partners, LP (DCP Partners), a master limited partnership. As its general partner, DCP Midstream accounts for its investment in DCP Partners as a consolidated subsidiary.

DCP Midstream's gathering systems include connections to several interstate and intrastate natural gas and NGL pipeline systems, one natural gas storage facility and one NGL storage facility. DCP Midstream gathers raw natural gas through gathering systems located in nine major natural gas producing regions: Mid-Continent, Rocky Mountain, East Texas-North Louisiana, Barnett Shale, Gulf Coast, South Texas, Central Texas, Antrim Shale and Permian Basin. DCP Midstream owns or operates approximately 63,000 miles of gathering and transmission pipeline. As of December 31, 2012, DCP Midstream owned or operated 62 natural gas processing plants, and 12 fractionators. In addition, DCP Midstream operates a propane wholesale marketing business in the northeastern United States.

Other

Sand Hills and Southern Hills Pipelines

In November 2012, Spectra Energy Corp acquired direct one-third ownership interests in Sand Hills and Southern Hills. DCP Midstream and Phillips 66 also each own a direct one-third interest in the two pipelines. With our direct ownership interests and our 50% ownership interest of DCP Midstream, we have 50% effective ownership interests in Sand Hills and Southern Hills. The Sand Hills and Southern Hills pipelines are currently under construction by DCP Midstream, which will operate the pipelines upon completion.

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

The Sand Hills pipeline will consist of approximately 720 miles of pipeline with initial capacity of 200,000 barrels per day (Bbls/d) that will provide NGL transportation from the Permian Basin and Eagle Ford shale region to the premium NGL markets on the Gulf Coast. The Sand Hills pipeline is being phased into service, with Phase I completed during the fourth quarter of 2012, with initial service from the Eagle Ford shale region to Mont Belvieu. Phase II, which will provide service from the Permian Basin to the Eagle Ford shale region, is expected to be completed in the second quarter of 2013. The Southern Hills pipeline will consist of

S-4

Table of Contents

approximately 800 miles of NGL pipeline with initial capacity of almost 150,000 Bbls/d. The Southern Hills pipeline will be connected to several DCP Midstream processing plants and anticipated third-party producers and will provide NGL transportation from the Mid-Continent to Mont Belvieu. The Southern Hills pipeline is expected to be in-service in mid-2013.

Express-Platte Pipeline System

On December 10, 2012, we entered into a definitive agreement to purchase 100% of the ownership interests in the Express-Platte Pipeline System for \$1.49 billion, consisting of \$1.25 billion in cash and \$240 million of acquired debt. The Express-Platte Pipeline System, which begins in Hardisty, Alberta, and terminates in Wood River, Illinois, is comprised of both the Express and Platte crude oil pipelines. The Express pipeline carries crude oil to U.S. refining markets in the Rockies area, specifically Billings and Laurel, Montana, and Casper, Wyoming. The Platte pipeline, which interconnects with the Express pipeline in Casper, transports crude oil predominantly from the Bakken and western Canada to refineries in the Midwest. Completion of the transaction is subject to customary consents, regulatory approvals and closing conditions. The transaction is expected to close in the first half of 2013. Since the completion of the acquisition of the Express-Platte Pipeline System is subject to various conditions, however, it is not certain that we will acquire the Express-Platte Pipeline System within the expected timeframe or at all. We expect to fund the purchase price with a mix of debt and equity financing, including the proceeds of our December 2012 equity offering and the remainder with borrowings under our \$1.2 billion delayed draw term loan. The acquisition is not subject to a financing condition. Upon closing, a new reportable business segment, Liquids, will be formed that will consist of the Express-Platte Pipeline System assets and our direct equity investments in Sand Hills and Southern Hills.

Our Principal Executive Offices

Our corporate headquarters are located at 5400 Westheimer Court, Houston, Texas 77056. Spectra Energy Corp was incorporated in 2006 and is a Delaware corporation. Spectra Energy Capital is a Delaware limited liability company. Our telephone number is (713) 627-5400.

senior in right of payment to all future subordinated debt of Spectra Energy Capital and Spectra Energy Corp, respectively.

S-7

Table of Contents

See Description of the Notes Ranking.

Optional Redemption

Prior to _____, (the date that is three months prior to the maturity date of the notes), we may redeem the notes in whole, at any time, or in part, from time to time, prior to maturity, at a redemption price that includes accrued and unpaid interest and a make-whole premium. At any time on or after _____, (the date that is three months prior to the maturity date of the notes), the notes will be redeemable, in whole or in part, at our option, at a redemption price equal to 100% of the principal amount of the notes to be redeemed plus accrued interest thereon, if any, to the redemption date. For a more complete description of the redemption provisions of the notes, see Description of the Notes Optional Redemption on page S-17.

Certain Covenants

We will issue the notes under an indenture with The Bank of New York Mellon Trust Company, N.A. (successor to JPMorgan Chase Bank, N.A. (formerly known as The Chase Manhattan Bank)), as trustee. The indenture contains certain covenants that, among other things, limit our ability and the ability of certain of our subsidiaries to incur debt secured by liens. See Description of the Notes in this prospectus supplement and Description of the Senior Notes in the accompanying prospectus.

Risk Factors

Investing in the notes involves certain risks. You should carefully consider the risk factors discussed under the heading Risk Factors beginning on page S-10 of this prospectus supplement and the section captioned Risk Factors in Spectra Energy Corp's Annual Report on Form 10-K for the year ended December 31, 2012, which has been filed with the SEC and incorporated by reference into this prospectus supplement, and the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus before deciding to invest in the notes.

Book-Entry Form/Denominations

The notes will be issuable in denominations of \$2,000 and any integral multiples of \$1,000 above that amount in book-entry form and will be represented by one or more global certificates deposited with, or on behalf of, The Depository Trust Company (DTC), and registered in the name of DTC or its nominee. Beneficial interests in any of the notes will be shown on, and transfers will be effected only through, records maintained by DTC or its nominee and any such interest may not be exchanged for certificated securities, except in limited circumstances. This means that you will not receive a certificate for your notes and your notes will not be registered in your name, except under certain limited circumstances described under the caption Description of the Notes Book-Entry Delivery and Settlement.

Table of Contents

Lack of Public Market for the Notes

There is no existing trading market for the notes, and there can be no assurance regarding:

any future development or liquidity of a trading market for the notes;

the prices at which you may be able to sell your notes; or

your ability to sell your notes at all.

Future trading prices of the notes will depend on many factors, including:

prevailing interest rates;

our operating results and financial condition; and

the markets for similar securities.

We do not intend to apply for the listing of the notes on any securities exchange or for quotation of the notes in any dealer quotation system.

Trustee

The Bank of New York Mellon Trust Company, N.A.

Governing Law

The notes, the guarantees and the indenture will be governed by, and construed in accordance with, the laws of the State of New York.

Further Issues

We may from time to time, without the consent of existing holders, create and issue additional notes under the indenture having the same terms and conditions as the notes being offered hereby in all respects, except for issue date, issue price and, if applicable, the first payment of interest thereon; provided that the additional notes issued will be fungible with the original notes for United States federal income tax purposes. Additional notes issued in this manner will be consolidated with and will form a single series with the previously outstanding notes of like tenor.

Table of Contents

RISK FACTORS

An investment in the notes involves risks. You should carefully consider the risks described below and the section captioned "Risk Factors" in Spectra Energy Corp.'s Annual Report on Form 10-K for the year ended December 31, 2012, which has been filed with the SEC and is incorporated by reference into this prospectus supplement, as well as the other information included or incorporated by reference into this prospectus supplement and the accompanying prospectus, including filings made with the SEC subsequent to the date of this prospectus supplement, before making an investment decision. If any of these risks were to materialize, our business, results of operations, cash flows and financial condition could be materially adversely affected. In that case, the value of the notes could decline, and you could lose part or all of your investment.

Risks Related to the Proposed Acquisition of the Express-Platte Pipeline System

We may not complete the acquisition of the Express-Platte Pipeline System within the time frame we anticipate or at all, which could have a negative effect on our business or our results of operations.

On December 10, 2012, we signed a definitive agreement under which we will acquire all of the outstanding shares of the companies and other entities that own the Express-Platte Pipeline System. The transaction is subject to a number of closing conditions, including regulatory approvals, which may not be received or may take longer than expected. The transaction is also subject to other risks and uncertainties, such as the possibility that either we or the sellers could exercise our respective termination rights under the agreement. If the transaction is not consummated within the expected time frame or at all, it could adversely affect our earnings and our ability to execute on our growth strategy. If you decide to purchase notes in this offering, you should be willing to do so regardless of whether we complete the acquisition of the Express-Platte Pipeline System.

If we successfully acquire the Express-Platte Pipeline System, the acquired business may underperform relative to our expectations.

In the event that the acquisition of the Express-Platte Pipeline System is consummated, the acquired business may underperform, causing our financial results to differ from our own or the investment community's expectations. In addition, we may not be able to achieve anticipated cost savings or other synergies or realize growth opportunities. The Express-Platte Pipeline System's rates and terms and conditions of service are regulated by the Federal Energy Regulatory Commission, the National Energy Board and the Wyoming Public Service Commission. Actions taken by these regulatory agencies may limit or decrease the revenues the Express-Platte Pipeline System collects for providing transportation service, and may cause the Express-Platte Pipeline System to be unable to recover its cost of providing such service. In addition, it is possible that the Express-Platte Pipeline System may be adversely affected by economic, business and/or competitive factors before or after closing of the acquisition of the Express-Platte Pipeline System.

We may not realize the expected benefits of the acquisition of the Express-Platte Pipeline System because of integration difficulties and other challenges.

The success of the acquisition of the Express-Platte Pipeline System will in part depend on our ability to integrate the Express-Platte Pipeline System with our existing businesses. The integration process may be complex, costly and time-consuming. The potential difficulties of integrating the operations of the Express-Platte Pipeline System include, among others:

implementing our business plan for the combined business;

changes in applicable laws and regulations or conditions imposed by regulators;

retaining key employees;

operating risks inherent in the Express-Platte Pipeline System's business and our business;

S-10

Table of Contents

realizing revenue and expense targets; and

unanticipated issues, costs, obligations and liabilities.

In addition, we expect to continue to incur significant costs in connection with the acquisition of the Express-Platte Pipeline System and the related integration of the Express-Platte Pipeline System business. The costs, obligations and liabilities actually incurred by us in connection with the acquisition of the Express-Platte Pipeline Pipeline System and subsequent integration process may exceed those anticipated by us.

Additionally, the acquisition of the Express-Platte Pipeline System may divert our or the Express-Platte Pipeline System's management's attention from other business concerns, which could have a negative effect on either our or the Express-Platte Pipeline System's business, results of operations and financial condition.

In connection with the acquisition of the Express-Platte Pipeline System, we will be engaging in a new line of business. We cannot assure you that our expansion into this line of business will succeed.

Following consummation of the acquisition of the Express-Platte Pipeline System, we will operate a crude oil pipeline system, which is a new line of business from our existing operations focused on natural gas. Operating in a new line of business is complex, involving assets and operations with respect to which we have limited operating experience. Operating a crude oil pipeline system requires different operating strategies and different managerial expertise than our current operations, and a crude oil pipeline system is subject to additional or different regulations. Failure to timely and successfully develop this new line of business in conjunction with our existing operations may have a material adverse effect on our business, financial condition and results of operations.

Risks Related to the Notes

The notes are equal in right of payment to a substantial portion of our other unsecured senior indebtedness.

Our payment obligations under the notes and Spectra Energy Corp's guarantees are unsecured and equal in right of payment to a substantial portion of the current and future indebtedness of Spectra Energy Capital and Spectra Energy Corp, respectively, including its indebtedness for borrowed money, indebtedness evidenced by bonds, debentures, notes or similar instruments, obligations arising from or with respect to guarantees and direct credit substitutes, obligations associated with hedges and derivative products, capitalized lease obligations and other senior indebtedness. Subject to certain restrictions on secured debt, the indenture governing the notes does not limit the ability of Spectra Energy Capital and Spectra Energy Corp to incur additional indebtedness and other obligations, including indebtedness and other obligations that rank equal in right of payment with the notes.

The notes are effectively subordinated to any existing and future indebtedness of our subsidiaries. We may require cash from our subsidiaries to make payments on the notes.

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

We conduct our businesses through subsidiaries, some of which are not wholly owned, and we rely on dividends, distributions, proceeds from inter-company transactions, interest payments and loans from those entities to meet our obligations for payment of principal and interest on outstanding debt obligations, including the notes. These subsidiaries are separate and distinct legal entities and have no obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations on the notes or Spectra Energy Corp's payment obligation on the guarantees. In addition, provisions of applicable law, such as those limiting the legal sources of dividends, could limit our subsidiaries ability to make payments or other distributions to us, and they could agree to contractual restrictions on their ability to make distributions. If we are unable to obtain cash from such entities to fund required payments in respect of the notes, we may be unable to make payments of principal of or interest on the notes.

In addition, the rights that we and our creditors would have to participate in the assets of any such subsidiary upon the subsidiary's liquidation or recapitalization will be subject to the prior claims of the subsidiary's

S-11

Table of Contents

creditors. Accordingly, the notes are structurally subordinated to all existing and future liabilities of our subsidiaries. Certain subsidiaries of ours have incurred substantial amounts of debt in the operations and expansion of their businesses, and we anticipate that certain of our subsidiaries will do so in the future.

We rely on access to short-term money markets and longer-term capital markets to finance capital requirements and support liquidity needs, and access to those markets can be adversely affected, particularly if we or our respective rated subsidiaries are unable to maintain an investment-grade credit rating, which could adversely affect our cash flows or restrict business, and could adversely affect the holders of the notes.

Our businesses are financed to a large degree through debt. The maturity and repayment profile of debt used to finance capital investments often does not correlate to cash flows from assets. Accordingly, we rely on access to both short-term money markets and longer-term capital markets as a source of liquidity for capital requirements not satisfied by the cash flow from operations and to fund capital investments originally financed through debt. Our senior unsecured long-term debt is currently rated investment-grade by various rating agencies. If the rating agencies were to rate us or our rated subsidiaries below investment-grade, such entity's borrowing costs would increase, perhaps significantly. In addition, the entity would likely be required to pay a higher interest rate in future financings, and its potential pool of investors and funding sources could decrease. Such developments also could adversely affect the holders of the notes.

We and certain of our subsidiaries maintain revolving credit facilities to provide for borrowings, back-up for commercial paper programs and/or letters of credit. These facilities typically include financial covenants which limit the amount of debt that can be outstanding as a percentage of the total capital. Failure to maintain these covenants could preclude us or such subsidiaries from issuing commercial paper or letters of credit or borrowing under the revolving credit facility and could require other affiliates to immediately pay down any outstanding drawn amounts under other revolving credit agreements, which could adversely affect cash flow or restrict businesses and could adversely affect our ability to make payments on the notes. Furthermore, if our short-term debt rating were to be below tier 2 (e.g., A-2/P-2, S&P and Moody's, respectively), access to the commercial paper market could be significantly limited.

If we are not able to access capital at competitive rates, our ability to finance operations and implement our strategies may be adversely affected. Restrictions on our ability to access financial markets may also affect our ability to execute our business plans and repay debt (including the notes) as scheduled. An inability to access capital may limit our ability to pursue improvements or acquisitions that we may otherwise rely on for future growth. Any downgrade or other event negatively affecting the credit ratings of our subsidiaries could make our costs of borrowing higher or access to funding sources more limited, which in turn could increase our need to provide liquidity in the form of capital contributions or loans to such subsidiaries, thus reducing the liquidity and borrowing availability of the consolidated group.

An active trading market for the notes may not develop.

There is no existing market for the notes and no market may develop for the notes. The ability of noteholders to sell their notes, or the price at which noteholders will be able to sell their notes, will depend on many factors, including, among other things, prevailing interest rates, our operating results and financial condition and the market for similar securities. The underwriters have advised us that they currently intend to make a market in the notes. However, they are not obligated to do so and any market making may be discontinued at any time without notice. We do not intend to apply to list the notes on any securities exchange or for quotation of the notes in any dealer quotation system.

The guarantees of Spectra Energy Corp may be of limited value.

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

As Spectra Energy Corp currently has no significant unrestricted assets other than the membership interests of Spectra Energy Capital, Spectra Energy Corp's guarantee of the notes may be of limited value.

S-12

Table of Contents

USE OF PROCEEDS

We expect to receive aggregate net proceeds of approximately \$ _____ million from the sale of the notes to the underwriters, after deducting the underwriters' discount and other offering expenses payable by us. We expect to use the net proceeds of this offering, together with cash on hand, to repay commercial paper used to repay the \$495 million aggregate principal amount of our 6.25% notes that matured on February 15, 2013, to fund capital expenditures and for other general corporate purposes, including acquisitions and the repayment of other commercial paper. The weighted average interest rate and maturity of such commercial paper as of February 22, 2013, was 0.43% and 10 days, respectively. The net proceeds may be invested temporarily in short-term marketable securities or applied to repay short-term debt until they are used for their stated purpose.

S-13

Table of Contents**SPECTRA ENERGY CORP CAPITALIZATION**

The following table shows Spectra Energy Corp's cash and cash equivalents and capitalization as of December 31, 2012:

on a historical basis; and

on an as adjusted basis to reflect (i) the repayment of the \$495 million aggregate principal amount of our 6.25% notes that matured on February 15, 2013, (ii) the consummation of this offering and (iii) the assumed full draw of our \$1.2 billion delayed draw term loan which was entered into for general corporate purposes, including the funding of a portion of the purchase price of the acquisition of the Express-Platte Pipeline System. This table does not reflect the assumption, upon closing the acquisition, of approximately \$240 million of debt of the companies and entities that own the Express Platte Pipeline System.

This table should be read in conjunction with, and is qualified in its entirety by reference to, Spectra Energy Corp's historical financial statements and the accompanying notes included in its Annual Report on Form 10-K for the year ended December 31, 2012, which is incorporated by reference into this prospectus supplement. Principal amounts for subsidiary long-term debt issued in Canadian dollars have been converted to US dollar equivalents using the exchange rate in effect at December 31, 2012.

Table of Contents

DESCRIPTION OF THE NOTES

General

We have summarized selected provisions of the notes below. The notes will be issued under a Senior Indenture, dated as of April 1, 1998 and as amended and supplemented, among Spectra Energy Capital, as issuer, Spectra Energy Corp, as guarantor, and The Bank of New York Mellon Trust Company, N.A., as trustee. The notes are a separate series of Senior Notes described in the accompanying prospectus, and this summary supplements that description. This summary is not complete and should be read together with the indenture and the description of the general terms and provisions of the notes provided under the caption "Description of the Senior Notes" in the accompanying prospectus.

The notes will mature on _____, _____ and will bear interest at the rate of _____ % per year from the date of original issuance, and will be issued in fully registered form in denominations of \$2,000 and integral multiples of \$1,000. Spectra Energy Capital will pay interest on the notes semi-annually on _____ and _____ of each year, beginning _____, 2013, to the person in whose name the note is registered at the close of business on the _____ and _____ (whether or not a business day) before the relevant interest payment date. The amount of interest payable will be computed on the basis of a 360-day year of twelve 30-day months. If any date on which interest is payable is not a business day, Spectra Energy Capital will pay that interest on the next business day without any interest or other payment due to the delay.

The notes initially will be issued in an aggregate principal amount of \$ _____. Spectra Energy Capital may from time to time, without the consent of existing holders, create and issue further notes having the same terms and conditions as the notes being offered hereby in all respects, except for issue date, issue price and, if applicable, the first payment of interest thereon; provided that the additional notes issued will be fungible with the original notes for United States federal income tax purposes. Additional notes issued in this manner will be consolidated with and will form a single series with the previously outstanding notes of like tenor.

Other than the restrictions on liens described under "Description of the Senior Notes - Negative Pledge" in the accompanying prospectus, the indenture does not contain any covenants or other provisions designed to protect holders of the notes in the event Spectra Energy Capital or Spectra Energy Corp participates in a highly leveraged transaction or upon a change of control. The indenture also does not contain provisions that give holders the right to require Spectra Energy Capital or Spectra Energy Corp to repurchase their notes in the event of a decline in the credit ratings of Spectra Energy Capital or Spectra Energy Corp for any reason, including as a result of a takeover, recapitalization or similar restructuring or otherwise.

As used in this prospectus supplement, "business day" means, with respect to the notes, a day other than (1) a Saturday or a Sunday, (2) a day on which banking institutions in The City of New York are authorized or obligated by law or executive order to remain closed or (3) a day on which the corporate trust office of the trustee is closed for business.

Guarantees

As further described in the accompanying prospectus, Spectra Energy Corp will fully and unconditionally guarantee for the benefit of the holders of the notes and the trustee (1) the due and punctual payment of the principal of, premium, if any, and interest on the notes, whether at stated maturity, by declaration of acceleration, call for redemption or otherwise, (2) the due and punctual payment of interest on overdue principal of, premium, if any, and interest on the notes, if any, if lawful, and (3) the due and punctual performance of all other obligations of

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

Spectra Energy Capital to the holders or the trustee in accordance with the terms of the indenture.

S-16

Table of Contents

Ranking

The notes and the guarantees will be:

Spectra Energy Capital's and, in the case of the guarantees, Spectra Energy Corp's direct, unsecured and unsubordinated obligations;

equal in priority with all of the existing and future unsecured and unsubordinated debt of Spectra Energy Capital and Spectra Energy Corp, respectively;

effectively subordinated in right of payment to any future secured debt of Spectra Energy Capital and Spectra Energy Corp, respectively, to the extent of such security;

effectively subordinated in right of payment to all existing and future debt and other liabilities, including trade payables, of the subsidiaries of Spectra Energy Capital and Spectra Energy Corp (other than Spectra Energy Capital), respectively; and

senior in right of payment to all future subordinated debt of Spectra Energy Capital and Spectra Energy Corp, respectively.

As of December 31, 2012, as adjusted to give effect to (i) the repayment of the \$495 million aggregate principal amount of our 6.25% notes that matured on February 15, 2013, (ii) the consummation of this offering and (iii) the assumed full draw of our \$1.2 billion delayed draw term loan which was entered into for general corporate purposes, including the funding of a portion of the purchase price of the acquisition of the Express-Platte Pipeline System, Spectra Energy Capital and Spectra Energy Corp would have had approximately \$ billion of consolidated short-term and long-term debt, of which \$ billion would have ranked equal in priority with the notes. Approximately \$ billion would have been secured or owed by subsidiaries of Spectra Energy Capital and therefore is effectively senior in right of payment to the notes with respect to the assets securing the debt or the assets of the subsidiary obligor. The as adjusted basis does not reflect the assumption, upon closing the acquisition, of approximately \$240 million of debt of the companies and entities that own the Express Platte Pipeline System.

Optional Redemption

Prior to _____, (the date that is three months prior to the maturity date of the notes), Spectra Energy Capital will have the right to redeem the notes, in whole at any time or in part from time to time, at a redemption price equal to the greater of (1) 100% of the principal amount of the notes to be redeemed and (2) the sum of the present values of the Remaining Scheduled Payments on the notes being redeemed, discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus _____ basis points. Spectra Energy Capital will have the right to redeem the notes in whole or in part on or after _____, (the date that is three months prior to the maturity date of the notes), at a redemption price equal to 100% of the principal amount of the notes then outstanding to be redeemed. In each case, Spectra Energy Capital will pay accrued and unpaid interest on the principal amount being redeemed to such redemption date.

Treasury Rate means, with respect to any redemption date, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate will be calculated on the third business day preceding the

redemption date.

Comparable Treasury Issue means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such notes.

Independent Investment Banker means one of the Reference Treasury Dealers that Spectra Energy Capital appoints.

S-17

Table of Contents

Comparable Treasury Price means, with respect to any redemption date, (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest of such Reference Treasury Dealer Quotations, or (2) if an Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of all quotations obtained.

Reference Treasury Dealer means each of Morgan Stanley & Co. LLC (or its affiliates and its successors), Deutsche Bank Securities Inc. (or its affiliates and its successors), RBS Securities Inc. (or its affiliates and its successors) and one other nationally recognized investment banking firm that is a primary U.S. government securities dealer that SunTrust Robinson Humphrey, Inc. specifies from time to time; *provided, however*, that if any of the foregoing shall cease to be a nationally recognized investment banking firm that is a primary U.S. government securities dealer, Spectra Energy Capital shall substitute therefor another nationally recognized investment banking firm that is such a dealer.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by an Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to an Independent Investment Banker by such Reference Treasury Dealer as of 3:30 p.m., New York City time, on the third business day preceding such redemption date.

Remaining Scheduled Payments means the remaining scheduled payments of the principal of and interest on each note to be redeemed that would be due after the related redemption date but for such redemption. If the redemption date is not an interest payment date with respect to the note being redeemed, the amount of the next succeeding scheduled interest payment on the note will be reduced by the amount of interest accrued thereon to that redemption date.

Redemption Procedures

Spectra Energy Capital will mail notice of redemption not less than 30 nor more than 60 days before the redemption date to each registered holder of notes to be redeemed. If Spectra Energy Capital redeems less than all the notes, the trustee will select the particular notes to be redeemed by such method as is customary and subject to procedures and requirements of DTC or the applicable clearing system.

If the redemption notice is given and funds are deposited as required, then interest will cease to accrue on and after the redemption date on the notes or portions of such notes called for redemption. In the event that any redemption date is not a business day, Spectra Energy Capital will pay the redemption price on the next business day without any interest or other payment due to the delay.

Sinking Fund

There is no provision for a sinking fund applicable to the notes.

Negative Pledge

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

In the indenture, Spectra Energy Capital has agreed to restrictions, with exceptions, on its ability and the ability of certain of its subsidiaries to incur debt secured by liens. See Description of the Senior Notes Negative Pledge in the accompanying prospectus.

Reports

Spectra Energy Capital and Spectra Energy Corp will provide the trustee any information, documents or reports required to be filed by Spectra Energy Capital or Spectra Energy Corp with the SEC under Section 13 or Section 15(d) of the Securities Exchange Act of 1934 (the Exchange Act) within 15 days after the same is so

S-18

Table of Contents

required to be filed with the SEC. Currently, Spectra Energy Capital is not required to file any information, documents or reports with the SEC under Section 13 or Section 15(d) of the Exchange Act. Delivery of such reports and filings shall not be deemed to confer actual or constructive knowledge of the contents on the trustee. See [Where You Can Find More Information](#).

Modification; Waiver

For a description of the provisions related to modification and waiver with respect to the indenture, see [Description of the Senior Notes Modification; Waiver](#) in the accompanying prospectus. In addition to the provisions requiring the consent of each holder described in the accompanying prospectus, any change in the obligations of Spectra Energy Corp under the guarantees in any manner adverse to the holders of the notes will require the consent of each holder of notes.

Defeasance and Covenant Defeasance

The notes will be subject to both defeasance and covenant defeasance as described in the accompanying prospectus under the caption [Description of the Senior Notes Defeasance and Covenant Defeasance](#). In connection with any defeasance or covenant defeasance, Spectra Energy Capital will be required to deliver to the trustee an opinion of counsel that the deposit and related defeasance would not cause the holders of the notes to recognize income, gain or loss for U.S. federal income tax purposes. If Spectra Energy Capital elects legal defeasance, that opinion of counsel must be based upon a ruling from the U.S. Internal Revenue Service or a change in law to that effect.

Book-Entry Delivery and Settlement

We will issue the notes in the form of one or more permanent global notes in definitive, fully registered, book-entry form. The global notes will be deposited with or on behalf of DTC and registered in the name of Cede & Co., as nominee of DTC, or will remain in the custody of the trustee.

DTC, Clearstream and Euroclear

Beneficial interests in the global notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may hold interests in the global notes through either DTC (in the United States), Clearstream Banking, société anonyme (Clearstream), Luxembourg or Euroclear Bank N.V./S.A. (Euroclear) as operator of the Euroclear System (in Europe) (the Euroclear Operator), either directly if they are participants of such systems or indirectly through organizations that are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream's and Euroclear's names on the books of their U.S. depositories, which in turn will hold such interests in customers' securities accounts in the U.S. depositories' names on the books of DTC. Citibank, N.A. will act as the U.S. depository for Clearstream, and JPMorgan Chase Bank, N.A. will act as the U.S. depository for Euroclear. For additional information about DTC, see [Description of the Senior Notes Book-Entry Debt Securities](#) in the accompanying prospectus.

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

According to DTC, the information with respect to DTC has been provided to the financial community for informational purposes only and is not intended to serve as a representation, warranty or contract modification of any kind. We make no representation as to the accuracy or completeness of such information.

We have provided the descriptions of the operations and procedures of DTC, Clearstream and Euroclear in this prospectus supplement and the accompanying prospectus solely as a matter of convenience. These operations and procedures are solely within the control of those organizations and are subject to change by them from time to time. None of Spectra Energy Capital, Spectra Energy Corp, the underwriters nor the trustee takes any responsibility for these operations or procedures, and investors are urged to contact DTC, Clearstream and Euroclear or their participants directly to discuss these matters.

S-19

Table of Contents

We expect that under procedures established by DTC:

upon deposit of the global notes with DTC or its custodian, DTC will credit on its internal system the accounts of direct participants designated by the underwriters with portions of the principal amounts of the global notes; and

ownership of the notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC or its nominee, with respect to interests of direct participants, and the records of direct and indirect participants, with respect to interests of persons other than participants.

The laws of some jurisdictions may require that purchasers of securities take physical delivery of those securities in definitive form. Accordingly, the ability to transfer interests in the notes represented by a global note to those persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person having an interest in notes represented by a global note to pledge or transfer those interests to persons or entities that do not participate in DTC's system, or otherwise to take actions in respect of such interest, may be affected by the lack of a physical definitive security in respect of such interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or that nominee will be considered the sole owner or holder of the notes represented by that global note for all purposes under the indenture and under the notes. Except as provided under Description of the Senior Notes Book-Entry Debt Securities in the accompanying prospectus, owners of beneficial interests in a global note will not be entitled to have notes represented by that global note registered in their names, will not receive or be entitled to receive physical delivery of certificated notes and will not be considered the owners or holders thereof under the indenture or under the notes for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee. Accordingly, each holder owning a beneficial interest in a global note must rely on the procedures of DTC and, if that holder is not a direct or indirect participant, on the procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of notes under the indenture or the global note.

None of Spectra Energy Capital, Spectra Energy Corp, the underwriters nor the trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of notes by DTC, Clearstream or Euroclear, or for maintaining, supervising or reviewing any records of those organizations relating to the notes.

Payments on the notes represented by the global notes will be made to DTC or its nominee, as the case may be, as the registered owner thereof. We expect that DTC or its nominee, upon receipt of any payment on the notes represented by a global note, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the global note as shown in the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in the global note held through such participants will be governed by standing instructions and customary practice as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. The participants will be responsible for those payments.

Distributions on the notes held beneficially through Clearstream will be credited to cash accounts of its customers in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the Terms and Conditions). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and

receipts of payments

S-20

Table of Contents

with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding through Euroclear participants.

Distributions on the notes held beneficially through Euroclear will be credited to the cash accounts of its participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

Title to book-entry interests in the global notes will pass by book-entry registration of the transfer within the records of DTC, Clearstream or Euroclear in accordance with their respective procedures. Book-entry interests in the global notes may be transferred within DTC in accordance with procedures established for this purpose by DTC. Book-entry interests in the notes may be transferred within Euroclear and within Clearstream and between Euroclear and Clearstream in accordance with procedures established for these purposes by Euroclear and Clearstream. Transfers of book-entry interests in the notes between Euroclear and Clearstream and DTC may be effected in accordance with procedures established for this purpose by Euroclear, Clearstream and DTC.

Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds. Secondary market trading between Clearstream customers and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream customers or Euroclear participants, on the other, will be effected in DTC in accordance with DTC rules on behalf of the relevant European international clearing system by the U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to the U.S. depository to take action to effect final settlement on its behalf by delivering or receiving the notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream customers and Euroclear participants may not deliver instructions directly to their U.S. depositories.

Because of time-zone differences, credits of the notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in the notes settled during such processing will be reported to the relevant Clearstream customers or Euroclear participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of the notes by or through a Clearstream customer or a Euroclear participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures to facilitate transfers of the notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be changed or discontinued at any time. None of us, the Trustee nor the underwriters will have any responsibility for the performance by DTC, Euroclear or Clearstream or their participants or indirect participants of their obligations under the rules and procedures governing their

operations.

S-21

Table of Contents

U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following discussion summarizes U.S. federal income tax considerations relevant to the acquisition, ownership and disposition of the notes, and does not purport to be a complete analysis of all potential tax considerations. This discussion only applies to notes that are held as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the Code) and that are purchased in the initial offering at the initial offering price, by Non-U.S. Holders (as defined below). This summary is based on the Code, administrative pronouncements, judicial decisions and regulations of the Treasury Department, all as of the date hereof and all of which are subject to change, possibly with retroactive effect. This discussion does not describe all of the tax considerations that may be relevant to holders in light of their particular circumstances or to holders subject to special treatment under U.S. federal income tax law, such as financial institutions; tax-exempt organizations; insurance companies; traders or dealers in securities; persons holding notes as part of a straddle, hedge, conversion transaction or other integrated transaction; or certain former citizens or residents of the United States. Persons considering the purchase of notes are urged to consult their tax advisors with regard to the application of the U.S. federal income tax laws to their particular situations as well as any tax considerations arising under the laws of any state, local or foreign taxing jurisdiction. Furthermore, this discussion does not describe the effect of U.S. federal estate and gift tax or alternative minimum tax laws or the effect of any applicable foreign, state or local law.

We have not and will not seek any rulings or opinions from the Internal Revenue Service (the IRS) or counsel with respect to the matters discussed below. There can be no assurance that the IRS will not take a different position concerning the tax considerations of the acquisition, ownership or disposition of the notes or that any such position would not be sustained.

Prospective investors should consult their own tax advisors with regard to the application of the tax considerations discussed below to their particular situations as well as the application of any state, local, foreign or other tax laws, including gift and estate tax laws and the alternative minimum tax.

For purposes of this summary, a Non-U.S. Holder means a beneficial owner of a note that, for U.S. federal income tax purposes, is not (i) an individual that is a citizen or resident of the United States; (ii) a corporation or other entity treated as a corporation for U.S. federal income tax purposes that is created or organized under the laws of the United States, any State thereof or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income taxation; or (iv) a trust if (A) a court within the United States is able to exercise primary control over its administration and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of such trust, or (B) the trust has made an election under the applicable Treasury regulations to be treated as a United States person.

If a partnership, or other entity or arrangement treated as a partnership for U.S. federal income tax purposes, holds notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. Partners of a partnership holding notes should consult their tax advisors as to the particular U.S. federal income tax considerations applicable to them.

Interest

A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on payments of interest on the notes provided that such holder (A) does not directly or indirectly, actually or constructively, own 10% or more of the total combined voting power of all classes of Spectra Energy Corp's stock entitled to vote, (B) is not a controlled foreign corporation that is related to our parent directly or constructively through stock ownership, and (C) satisfies certain certification requirements. Such certification requirements will be met if (x) the Non-U.S. Holder provides its name and address, and certifies on an IRS Form W-8 BEN (or a substantially similar form), under penalties of perjury, that it is not a U.S. person or (y) a securities clearing

Table of Contents

organization or certain other financial institutions holding the notes on behalf of the Non-U.S. Holder certifies on IRS Form W-8IMY, under penalties of perjury, that such certification has been received by it and furnishes us or our paying agent with a copy thereof. In addition, we or our paying agent must not have actual knowledge or reason to know that the beneficial owner of the notes is a U.S. person.

If interest on the notes is not effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States, but such Non-U.S. Holder cannot satisfy the other requirements outlined in the preceding paragraph, interest on the notes generally will be subject to U.S. withholding tax at a 30% rate (or lower applicable treaty rate).

If interest on the notes is effectively connected with the conduct by a Non-U.S. Holder of a trade or business within the United States, and, if certain tax treaties apply, is attributable to a permanent establishment or fixed base within the United States, then the Non-U.S. Holder generally will be subject to U.S. federal income tax on a net income basis at the rate applicable to U.S. persons generally (and, with respect to corporate holders, may also be subject to a 30% (or lower applicable treaty rate) branch profits tax). If interest is subject to U.S. federal income tax on a net income basis in accordance with these rules, such interest payments will not be subject to U.S. withholding tax so long as the Non-U.S. Holder provides us or our paying agent with the appropriate documentation (generally an IRS Form W-8ECI).

Sale or Other Taxable Disposition of the Notes

Except with respect to accrued but unpaid interest, which generally will be taxed as described above under **Interest**, a Non-U.S. Holder generally will not be subject to U.S. federal withholding tax with respect to gain, if any, recognized on the sale or other taxable disposition of the notes. A Non-U.S. Holder will also generally not be subject to U.S. federal income tax with respect to such gain, unless (i) the gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States, and, if certain tax treaties apply, is attributable to a permanent establishment or fixed base within the United States, or (ii) in the case of a Non-U.S. Holder that is a nonresident alien individual, such holder is present in the United States for 183 or more days in the taxable year and certain other conditions are satisfied. In the case described in (i) above, gain or loss recognized on the disposition of such notes generally will be subject to U.S. federal income taxation on a net basis in the same manner as if the Non-U.S. Holder was a resident of the United States, and, in the case of a Non-U.S. Holder that is a foreign corporation, may also be subject to the branch profits tax at a rate of 30% (or a lower applicable treaty rate). In the case described in (ii) above, the Non-U.S. Holder will be subject to a 30% tax on any capital gain recognized on the disposition of the notes (after being offset by certain U.S. source capital losses).

Information Reporting and Backup Withholding

Information returns will be filed annually with the IRS in connection with payments we make on the notes. Copies of these information returns may also be made available under the provisions of a specific tax treaty or other agreement to the tax authorities of the country in which the Non-U.S. Holder resides. Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a United States person, information returns may be filed with the IRS in connection with the proceeds from a sale or other taxable disposition and the Non-U.S. Holder may be subject to backup withholding (currently at a rate of 28%) on payments on the notes or on the proceeds from a sale or other taxable disposition of the notes. The certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is furnished to the IRS.

Table of Contents

UNDERWRITING

We are offering the notes described in this prospectus supplement through the underwriters named below. Morgan Stanley & Co. LLC, Deutsche Bank Securities, Inc., RBS Securities Inc., and SunTrust Robinson Humphrey, Inc. are acting as joint book-running managers and representatives of the underwriters.

Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, which Spectra Energy Corp will file as an exhibit to a Form 8-K, each underwriter named below has agreed to purchase from us the principal amount of notes set forth opposite the underwriter's name.

Underwriters	Principal Amount of Notes
Morgan Stanley & Co. LLC.	\$
Deutsche Bank Securities Inc.	
RBS Securities Inc.	
SunTrust Robinson Humphrey, Inc.	
Total	\$

The underwriting agreement provides that the underwriters' obligations to purchase the notes depend on the satisfaction of the conditions contained in the underwriting agreement, and that if any of the notes are purchased by the underwriters, all of the notes must be purchased. The conditions contained in the underwriting agreement include the condition that all the representations and warranties made by us and our affiliates to the underwriters are true, that there has been no material adverse change in the condition of us or in the financial markets and that we deliver to the underwriters customary closing documents.

Commissions and Expenses

The following table shows the underwriting fees to be paid to the underwriters by us in connection with this offering. This underwriting fee is the difference between the offering price to the public and the amount the underwriters pay to us to purchase the notes (expressed as a percentage of the principal amount of the notes).

	Paid by Spectra Energy Capital	%
Per Note		

The notes sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at the public offering price less a concession not in excess of % of the principal amount of the notes. The underwriters may allow, and such dealers may reallow, to certain other dealers a concession not in excess of % of the principal amount of the notes. After the notes are released for sale, the underwriters may change the offering price and the other selling terms.

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

The notes are a new issue of securities with no established trading market. We have been advised by the underwriters that they presently intend to make a market in the notes, but they are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

In connection with this offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in this offering. Stabilizing transactions consist of certain bids for or purchases of notes made by the underwriters in the open market prior to the completion of this offering.

S-24

Table of Contents

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives of the underwriters have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or retarding a decline in the market price of the notes, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in over-the-counter market or otherwise.

We estimate that our total out-of-pocket expenses of this offering, excluding underwriting discounts and commissions, will be approximately \$400,000.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date), no offer may be made to the public in that Relevant Member State other than:

1. to any legal entity which is a qualified investor as defined in the Prospectus Directive;
2. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or
3. in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of notes shall require us or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State who initially acquires any notes or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (B) in the case of any notes acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the notes acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors as defined in the Prospectus Directive, or in circumstances in which the prior consent of the representatives has been given to the offer or resale. In the case of any notes being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the notes acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of,

Edgar Filing: Spectra Energy Capital, LLC - Form 424B3

nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any notes to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

We, the representatives and their affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

This prospectus has been prepared on the basis that any offer of notes in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for

S-25

Table of Contents

offers of notes. Accordingly any person making or intending to make an offer in that Relevant Member State of notes which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for us or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither we nor the underwriters have authorized, nor do they authorize, the making of any offer of notes in circumstances in which an obligation arises for us or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression "an offer to the public" in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase the notes, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

Notice to Prospective Investors in the United Kingdom

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are "qualified investors" (as defined in the Prospectus Directive) (i) who have professional experience in matters relating to investments falling within Article 19 (5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order") and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "relevant persons"). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

Indemnification

We and certain of our affiliates have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, and to contribute to payments that may be required to be made in respect of these liabilities.

Affiliations and FINRA Conduct Rules

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their affiliates engage in transactions with, and perform services for, us in the ordinary course of business and have engaged, and may in the future engage, in commercial banking and investment banking transactions with us. Certain of the underwriters or their affiliates are lenders under credit facilities of Spectra Energy Capital and its subsidiaries. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments including serving as counterparties to certain derivative and hedging arrangements and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Table of Contents

EXPERTS

The consolidated financial statements of Spectra Energy Corp and subsidiaries and the related financial statement schedule, incorporated in this prospectus supplement by reference from Spectra Energy Corp's Annual Report on Form 10-K for the year ended December 31, 2012, and the effectiveness of Spectra Energy Corp's internal control over financial reporting have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report, which is incorporated herein by reference. Such financial statements and financial statement schedule have been so incorporated in reliance upon the report of such firm given upon their authority as experts in accounting and auditing.

The consolidated financial statements of DCP Midstream, LLC, as of December 31, 2012 and 2011, and for each of the three years in the period ended December 31, 2012, incorporated in this prospectus supplement by reference from Spectra Energy Corp's Annual Report on Form 10-K for the year ended December 31, 2012, have been audited by Deloitte & Touche LLP, independent auditors, as stated in their report, which is incorporated herein by reference. Such financial statements have been so incorporated in reliance upon the report of such firm given upon their authority as experts in accounting and auditing.

LEGAL MATTERS

The validity of the notes and the guarantees will be passed upon for Spectra Energy Capital and Spectra Energy Corp by Reginald D. Hedgebeth, General Counsel of Spectra Energy Corp. Mr. Hedgebeth is Spectra Energy Corp's employee and owns shares of Spectra Energy Corp's common stock and other forms of equity-related awards (including shares and awards held under employee benefit plans). None of such shares or awards were granted in connection with this offering. Certain legal matters with respect to the offering of the notes and the guarantees will be passed upon for Spectra Energy Capital and Spectra Energy Corp by Skadden, Arps, Slate, Meagher & Flom LLP, Washington, D.C. Certain legal matters with respect to the notes and the guarantees will be passed upon for the underwriters by Baker Botts L.L.P., Houston, Texas. Certain attorneys of Skadden, Arps, Slate, Meagher & Flom LLP own shares of Spectra Energy Corp's common stock.

WHERE YOU CAN FIND MORE INFORMATION

Spectra Energy Corp files annual, quarterly and current reports and other information with the SEC under the Exchange Act (Commission File No. 001-33007). Such reports and other information can be inspected and copied at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may also obtain copies of these documents at prescribed rates from the Public Reference Section of the SEC at its Washington, D.C. address. Please call the SEC at 1-800-SEC-0330 for further information. Spectra Energy Corp's filings are also available to the public at the SEC's Internet website at <http://www.sec.gov>. In addition, documents filed by Spectra Energy Corp can be inspected at the offices of The New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005. Spectra Energy Corp maintains an Internet website at <http://www.spectraenergy.com>. On the Investor Relations page of that site, Spectra Energy Corp provides access to Spectra Energy Corp's SEC filings free of charge as soon as reasonably practicable after filing with the SEC. The information on Spectra Energy Corp's Internet website is not incorporated in this prospectus supplement or the accompanying prospectus by reference and you should not consider it a part of this prospectus supplement or the accompanying prospectus.

Spectra Energy Capital does not file reports or other information with the SEC. Spectra Energy Corp includes summarized financial information relating to Spectra Energy Capital in some of its reports filed with the SEC.

Table of Contents

The SEC allows Spectra Energy Corp to incorporate by reference into this prospectus supplement and the accompanying prospectus the information Spectra Energy Corp files with it, which means that Spectra Energy Corp can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus supplement, and information that Spectra Energy Corp files later with the SEC will automatically update and supersede this information. Spectra Energy Corp incorporates by reference the documents listed below and any future filings it makes with the SEC under section 13(a), 13(c), 14 or 15(d) of the Exchange Act until this offering is completed (other than information furnished under Items 2.02 or 7.01 of any Form 8-K, which is not deemed filed under the Exchange Act):

Annual Report on Form 10-K for the year ended December 31, 2012 filed February 22, 2013;

Current Reports on Form 8-K filed January 3, 2013 and February 22, 2013.

We will provide you without charge a copy of these filings, other than any exhibits unless the exhibits are specifically incorporated by reference into this prospectus supplement. You may request a copy by writing us at the following address or telephoning one of the following numbers:

PROSPECTUS

SPECTRA ENERGY CAPITAL, LLC

SPECTRA ENERGY CORP

We may offer, issue and sell from time to time, together or separately, senior debt securities. This prospectus also covers the full and unconditional guarantees of our obligations under any debt security by our parent, Spectra Energy Corp, as described in this prospectus.

This prospectus describes some of the general terms that may apply to these securities. The specific terms of any securities to be offered will be described in supplements to this prospectus. The prospectus supplements may also add, update or change information contained in this prospectus. This prospectus may not be used to offer and sell securities unless accompanied by a prospectus supplement. You should read this prospectus and the applicable prospectus supplement carefully before making your investment decision.

We and Spectra Energy may offer and sell these securities through one or more underwriters, dealers and agents, through underwriting syndicates managed or co-managed by one or more underwriters, or directly to purchasers, on a continuous or delayed basis.

To the extent that any selling securityholder resells any securities, the selling securityholder may be required to provide you with this prospectus and a prospectus supplement identifying and containing specific information about the selling securityholder and the terms of the securities being offered.

See **Risk Factors** beginning on page 5 regarding the risks associated with an investment in these securities.

The prospectus supplement for each offering of securities will describe in detail the plan of distribution for that offering. Each prospectus supplement will indicate if the securities offered thereby will be listed on any securities exchange.

Neither the Securities and Exchange Commission, any state securities commission nor any other regulatory body has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is April 30, 2010

Table of Contents

Neither we nor Spectra Energy have authorized any dealer, salesperson or other person to give any information or to make any representation other than those contained or incorporated by reference in this prospectus or any applicable supplement to this prospectus. You must not rely upon any information or representation not contained or incorporated by reference in this prospectus or any applicable supplement to this prospectus as if we had authorized it. This prospectus and any applicable prospectus supplement do not constitute an offer to sell or the solicitation of an offer to buy any securities other than the registered securities to which they relate. Nor do this prospectus and any accompanying prospectus supplement constitute an offer to sell or the solicitation of an offer to buy securities in any jurisdiction to any person to whom it is unlawful to make such offer or solicitation in such jurisdiction. You should not assume that the information contained in this prospectus or any applicable prospectus supplement is correct on any date after their respective dates, even though this prospectus or a supplement to this prospectus is delivered or securities are sold on a later date.
