You should rely on your own independent analysis to assess the accuracy and completeness of all information contained

herein. No representation, warranty or undertaking, expressed or implied, is or will be made and no responsibility or liability is or will be accepted by Pershing Square or its affiliates or associates, or any of their respective directors, officers, employees, agents, shareholders or advisors, as to, or in relation to, the accuracy or completeness of the information contained in the presentation, or any other information, errors therein or omissions therefrom.

Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures, including but not limited to cash net income and EBIT (collectively, non-GAAP financial measures). These non-GAAP financial measures should be considered only as supplemental to, and not as superior to, financial measures prepared in accordance with GAAP. Pershing Square believes that the presentation of these financial measures enhances an investor's understanding of Valeant's and Allergan's financial performance. Pershing Square further believes that these financial measures are useful financial metrics to assess operating performance from period to period by excluding certain items that it believes are not representative of Valeant's and Allergan's respective core businesses. Pershing Square also believes that these financial measures provide investors with a useful tool for assessing the comparability between periods of Valeant's and Allergan's respective abilities to generate cash from operations sufficient to pay taxes, to service debt and to undertake capital expenditures. Pershing Square believes these financial measures are commonly used by investors to evaluate companies' performance. However, the use of these non-GAAP financial measures in this presentation may vary from that of other companies in Valeant's and Allergan's industry. These non-GAAP financial measures should not be considered as alternatives to performance measures derived in accordance with GAAP.

Forward-looking Statements

The presentation contains forward-looking statements. These forward-looking statements include, but are not limited to, statements regarding Valeant's offer to acquire Allergan, Valeant's financing of the proposed transaction, Valeant's or Allergan's expected future value and performance (including expected results of operations and financial guidance), and the combined company's future financial condition, operation results, strategy and plans. Forward-looking statements may be identified by the use of the words anticipates, expects, intends, plans, should, could, would, will, believes, estimates, potential, target, opportunity, tentative, positioning, designed, create, pursue, ongoing, upside, increases or continue and variations or similar expressions and include but are not limited to beliefs expressed regarding future performance. These statements are based upon the current expectations and beliefs of Pershing Square and are subject to numerous assumptions, risks and uncertainties that change over time and could cause actual results to differ materially from those described in the forward-looking statements. These assumptions, risks and uncertainties include, but are not limited to, assumptions, risks and uncertainties discussed in Valeant's and/or Allergan's most recent annual or quarterly reports filed with the SEC and the Canadian Securities Administrators (the CSA) and assumptions, risks and uncertainties relating to the proposed merger, as detailed from time to time in Valeant's filings with the SEC and the CSA. Important factors that could cause actual results to differ materially from the forward-looking statements we make in this presentation are set forth in other reports or documents that Valeant and/or Allergan file from time to time with the SEC or the CSA, and include, but are not limited to:

All forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by this cautionary statement. Structure of the Transaction

Pershing Square and Valeant formed a co-bidder entity

The co-bidder entity was formed with the intent to

Make an investment in Allergan

Assist Valeant in consummating a merger between Valeant and Allergan

Valeant invested the HSR limit of \$75.9mm and Pershing

Square contributed 100% of the entity's remaining capital

9

9

Allergan Investment Thesis

Allergan has a strong track record of organic growth driven by a portfolio of market leading products, including the fast-growing Botox franchise

Allergan has a poor track record of capital allocation and cost management

Given the strategic overlap between Valeant and Allergan's product portfolios and Valeant's superior cost structure, operating model and capital allocation strategy, we believe a merger between Valeant and

Allergan has the potential to create enormous shareholder value

Limited downside

We invested in Allergan at a valuation that reflected the fair value of the business, assuming no improvements in operations or a transaction
