At April 30, 2015, the concentration of the Trust s investments in the various states and territories, determined as a percentage of total investments, is as follows:

| New York                                        | 14.6% |
|-------------------------------------------------|-------|
| Texas                                           | 11.6% |
| Arizona                                         | 10.8% |
| Others, representing less than 10% individually | 63.0% |

The Trust invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at April 30, 2015, 9.7% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution or financial guaranty assurance agency ranged from 0.3% to 4.5% of total investments.

- (1) Security represents the municipal bond held by a trust that issues residual interest bonds.
- (2) Security (or a portion thereof) has been pledged as collateral for residual interest bond transactions. The aggregate value of such collateral is \$29,580,724.
- (3) When-issued security.
- (4) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration. At April 30, 2015, the aggregate value of these securities is \$10.452.525 or 4.9% of the Trust s net assets.
- (5) Variable rate security. The stated interest rate represents the rate in effect at April 30, 2015.
- (6) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- (7) Variable rate security. The stated dividend rate represents the rate in effect at April 30, 2015. Maturity date represents the mandatory redemption date. Each share represents \$5,000 par value.

The Trust did not have any open financial instruments at April 30, 2015.

The cost and unrealized appreciation (depreciation) of investments of the Trust at April 30, 2015, as determined on a federal income tax basis, were as follows:

| Net unrealized appreciation   | \$<br>10,530,000  |
|-------------------------------|-------------------|
|                               |                   |
| Gross unrealized depreciation | (992,052)         |
| Gross unrealized appreciation | \$<br>11,522,052  |
|                               |                   |
| Aggregate cost                | \$<br>200,894,096 |
|                               |                   |

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At April 30, 2015, the hierarchy of inputs used in valuing the Trust s investments, which are carried at value, were as follows:

| Asset Description                            | Level 1 | Level 2           | Level 3 | Total             |
|----------------------------------------------|---------|-------------------|---------|-------------------|
| Tax-Exempt Municipal Securities              | \$      | \$<br>341,352,336 | \$      | \$<br>341,352,336 |
| Institutional MuniFund Term Preferred Shares |         | 2,006,760         |         | 2,006,760         |
| Total Investments                            | \$      | \$<br>343,359,096 | \$      | \$<br>343,359,096 |

The Trust held no investments or other financial instruments as of January 31, 2015 whose fair value was determined using Level 3 inputs. At April 30, 2015, there were no investments transferred between Level 1 and Level 2 during the fiscal year to date then ended.

Investments in Institutional MuniFund Term Preferred Shares are valued in the same manner as debt obligations. For additional information on the Trust spolicy regarding the valuation of investments and other significant accounting policies, please refer to the Trust s most recent financial statements included in its semiannual or annual report to shareholders.

Effective January 5, 2015, the name of Eaton Vance Municipal Income 2028 Term Trust was changed from Eaton Vance Municipal Income Term Trust.
