☒ Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2013.

Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

(b) Conflict Minerals Disclosure of Tempur Sealy International, Inc.

In 2012, the U.S. Securities and Exchange Commission (the “Commission”) adopted the final conflict minerals rule required by Section 1502 the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Conflict Minerals Rule”). The Conflict Minerals Rule requires reporting companies to determine whether any of the conflict minerals (tin, tungsten, tantalum and gold, or “3TG”) are necessary to the functionality or production of its manufactured products and if so, to conduct a Reasonable Country of Origin Inquiry (“RCOI”) to determine whether any of the 3TGs originated in the Democratic Republic of the Congo or adjoining countries (the “Conflict Region”), or whether they are from recycled or scrap sources. (Please refer to Rule 13p-1, Form SD and the 1934 Securities Exchange Act Release No. 3467716 for definitions of the terms used in this Report, unless otherwise defined herein.)

This is the Conflict Minerals Disclosure of Tempur Sealy International, Inc. (the “Company”) for the calendar year ended December 31, 2013. In 2013 the Company developed a policy and commitment to use suppliers that only source from countries outside the Conflict Region, which has been communicated to sourcing employees and suppliers and is available to the public on our website at <http://investor.tempursealy.com/governance.cfm>. The Company assessed its products and determined that certain products it manufactures or acquires under contract from suppliers contain 3TGs. The Company conducted a RCOI to determine whether such 3TGs originated in the Conflict Region and, based on that process, which is described below, the Company was not able to determine with certainty the country of origin of all of the 3TGs in its products, but it does not have reason to believe that its necessary 3TGs may have originated in the Conflict Region.

Our policy, a declaration to determine the use of 3TGs and the Electronics Industry Citizenship Coalition (“EICC”) Conflict Minerals Reporting Template developed by the EICC and the Global e-Sustainability Initiative, were sent to the Company’s suppliers and 100% of the declarations were completed and returned. The majority of the Company’s suppliers stated that no 3TGs were used in their products, but nine suppliers reported that they did use one or more 3TGs in the production of their products. Each of these nine suppliers listed the 3TGs used in their products and informed the Company that they had not obtained 3TGs from the Conflict Region. To the extent suppliers identified smelters those smelters are on the CFSI Conflict-Free Smelter List. Based on the information provided by the suppliers, the Company does not have reason to believe that its necessary 3TGs may have originated in the Conflict Region.

This information is publicly available on our website at <http://investor.tempursealy.com/governance.cfm>.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
