PROPOSAL ONE

APPROVAL OF AN AMENDMENT TO OUR CERTIFICATE OF
INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES

We are asking our shareholders to approve an amendment to our Amended and Restated Certificate of Incorporation to (a) increase the number of authorized stock from 700,000,000 to 850,000,000 shares, and to (b) increase the number of shares of our common stock authorized for issuance from 698,000,000 to 848,000,000 shares. The additional common stock to be authorized by adoption of this proposal would have rights identical to our currently outstanding common stock.

The adoption of the proposed amendment and any subsequent issuance of our common stock would not affect the rights of the holders of our currently outstanding common stock, except for effects incidental to future increases in the number of shares of our common stock outstanding, such as dilution of the earnings per share and voting rights of our current holders of common stock. In addition, the number of authorized shares of our preferred stock will not be affected by the adoption of this proposed amendment. The number of shares of our preferred stock will be maintained at 2,000,000. This amendment, if adopted, will become effective upon the filing of a Certificate of Amendment with the Secretary of State of the State of Delaware

We are seeking to amend our certificate of incorporation to increase the number of authorized shares due to the fact that the Company entered into several private placement financing transactions in the last quarter of 2009, the first quarter of 2010, and the third quarter of 2010, as described below. However, the Company does not have sufficient authorized shares of common stock for issuance upon the conversion of all of the Company's outstanding convertible notes and upon the exercise of all of the Company's outstanding warrants. In this regard, the Company needs to increase its authorized shares of common stock from 698,000,000 to 848,000,000 to ensure that the Company has sufficient authorized shares of common stock for issuance upon the conversion of the outstanding convertible notes and the exercise of the outstanding warrants. The Board of Directors has determined that the proposed increase in the Company's authorized share capital is advisable and in Company's best interest.

The Majority Stockholders will vote in favor of the amendment to our Amended and Restated Certificate of Incorporation to increase the number of authorized shares, which will be sufficient to approve this proposal.

The September 2009 Financing Transaction

During the period from August 25, 2009 through December 31, 2009, we completed a private placement of convertible notes totaling \$987,000 that can be converted, at the holder's option, into 49,349,151 shares of our common stock at a conversion price of \$0.02 per share. The convertible note holders have the right to have the conversion price adjusted to equal the lower stock price if we issue stock or convertible notes at a lower conversion price than \$0.02 during the period that the notes are outstanding. These convertible notes were originally due on December 31, 2010, but the due date has been extended until June 30, 2011. They bear an annual interest rate of 7%, payable on June 30 and December 31 of each year that the convertible notes are outstanding. In addition, we issued 24,674,576 three-year warrants to the convertible note holders with an exercise price of \$0.04 per share. The warrants may be exercised and converted to common stock, at the warrant holder's option, beginning on the six-month anniversary date of issuance until the warrant expiration date. We are not obligated to register the common stock related to the convertible debt or the warrants.

Mr. Per Bystedt, our Chairman and Chief Executive Officer, and a company controlled by Mr. Bystedt invested a total of \$116,000 of the \$987,000 raised in the private placement financing transaction. Mr. Bystedt and a company controlled by Mr. Bystedt received a total of 2,892,300 warrants to purchase our common stock, and the convertible

notes can be converted into a total of 5,784,600 shares of our common stock.

Mr. Mats Dahlin, a member of the Board of Directors of our wholly owned subsidiary, Neonode Technologies AB, is the beneficial owner of Davisa Ltd. On October 9, 2009 and December 15, 2009, Davisa Ltd. purchased a total of \$77,650 in convertible notes that may be converted, at the option of Davisa Ltd., into 3,882,516 shares of our common stock, and also received warrants that, when exercised, can be converted into 1,941,258 shares of our common stock at a conversion price of \$0.04 per share.

In addition, on January 7, 2010 we issued a warrant to purchase 1,305,740 shares of our common stock that has an exercise price of \$0.04 per share to Carl Molinder who facilitated part of the private placement of convertible notes and warrants in the September 2009 financing transaction.

The March 2010 Financing Transaction

During the period from January 1, 2010 through May 20, 2010, we received \$1.8 million in proceeds related to a private placement of convertible notes and stock purchase warrants that can be converted, at the holder's option, into 87,957,174 shares of our common stock at a conversion price of \$0.02 per share and 44,017,782 stock purchase warrants that have an exercise price of \$0.04 per share. The convertible note holders have the right to have the conversion price adjusted to equal the lower stock price if we issue stock or convertible notes at a lower conversion price than \$0.02 during the period that the notes are outstanding. These convertible notes were originally due on December 31, 2010, but the due date has been extended until June 30, 2011. They bear an annual interest rate of 7%, payable on June 30 and December 31 of each year that the convertible notes are outstanding. The warrants may be exercised and converted to common stock, at the warrant holder's option, beginning on the six month anniversary date of issuance until the warrant expiration date. We are not obligated to register the common stock related to the convertible debt or the warrants.

On January 18, 2010, Mr. Bystedt purchased \$16,390 of convertible notes that may be converted into 819,500 shares of our common stock and also received a warrant that, when exercised, can be converted into 419,750 shares of our common stock at a conversion price of \$0.04 per share. In addition, Iwo Jima SARL converted \$161,352 of amounts owed to Iwo Jima SARL for Mr. Bystedt's consulting services into convertible notes that may be converted into 8,167,614 shares of our common stock and also received a warrant that, when exercised, can be converted into 4,083,807 shares of our common stock at a conversion price of \$0.04 per share.

On February 18, 2010, Davisa Ltd. purchased a total of \$138,074 in convertible notes that may be converted, at the option of Davisa Ltd., into 6,903,700 shares of our common stock and also received warrants that, when exercised, can be converted into 3,451,850 shares of our common stock at a conversion price of \$0.04 per share.

On March 21, 2010, we issued 875,000 shares of our common stock and a warrant to purchase 875,000 of our common stock an exercise price of \$0.04 per share to Davisa Ltd. for services provided for the private placement of convertible notes and warrants in the March 2010 financing transaction.

On September 24, 2010, we issued 173,310 shares of common stock and a warrant to purchase 173,310 shares of our common stock that has an exercise price of \$0.04 per share to Carl Molinder who facilitated part of the private placement of convertible notes and warrants in the March 2010 financing transaction.

On September 27, 2010, we issued an additional 375,000 shares of our common stock and an additional warrant to purchase 375,000 of our common stock an exercise price of \$0.04 per share to Davisa Ltd. for services provided for the private placement of convertible notes and warrants in the March 2010 financing transaction

The October 2010 Financing Transaction

During October 2010, we entered into two different types of amendments with the holders of the convertible notes and the holders of the stock purchase warrants issued in the September 2009 and March 2010 Financing Transactions. All of the holders of the convertible notes entered into an amendment pursuant to which the due date of the convertible notes was extended until June 30, 2011. A majority of the holders of the stock purchase warrants entered into an amendment pursuant to which they exercised their previously granted warrants at a discounted exercise price of \$0.035 per share, and received replacement three-year warrants for each warrant exercised. When exercised, the

replacement warrants can be converted into 69,171,409 shares of our common stock at an exercise price of \$0.055 per share. A total of 69,179,409 warrants will be exercised at the discounted exercise price of \$0.035 per share, and a total of \$2,384,554 will be raised by the Company through these warrant exercises. We will issue a total of 69,171,409 replacement warrants to the exercising warrant holders.

Mr. Per Bystedt, our Chairman and Chief Executive Officer, and a company controlled by Mr. Bystedt invested a total of \$258,505 of the \$2,384,554 raised in the October 2010 private placement financing transaction and received 7,385,857 shares of our common stock. Mr. Bystedt and a company controlled by Mr. Bystedt received a total of 7,385,857 replacement warrants to purchase our common stock.

Mr. Mats Dahlin, a member of the board of directors of our wholly owned subsidiary, Neonode Technology AB, and a company controlled by Mr. Dahlin signed irrevocable agreement to invest a total of \$188,759 of the \$2,384,554 raised in the October 2010 private placement financing transaction. Mr. Dahlin and a company controlled by Mr. Dahlin will receive a total of 5,393,109 replacement warrants to purchase our common stock once the investment is completed.

Purpose and Effect of Increase in Authorized Shares

Purpose of Increase in Authorized Shares

The authorized capital stock of the Company currently consists of 698,000,000 shares of common stock, having a par value of \$.001 per share and 2,000,000 shares of Preferred Stock having a par value of \$.001 per share.

As of October 28, 2010, the Company had 515,298,953 shares of Common Stock issued and outstanding and 4,139 shares of Preferred A stock issued and outstanding, and 3,508 shares of Preferred B stock issued and outstanding. As of the record date of October 28, 2010, the Company has issued a total of 39,602,483 of the total 69,171,409 shares of common stock related to the October 2010 warrant repricing refinancing. The investors who are exercising the remaining 29,568,926 warrants have signed irrevocable documents to participate in the warrant repricing financing transaction and the common stock and replacement warrants will be issued once the cash proceeds from the warrant exercises has been received. Assuming the conversion of all issued and outstanding Preferred Stock and the remaining 29,568,926 unissued shares of common stock from the October warrant repricing, the Company currently has 547,320,508 shares of common stock issued and outstanding (on an as-converted basis not including treasury shares).

In addition, as of October 28, 2010, the Company has (a) outstanding convertible notes convertible into 134,356,325 shares of common stock, (b) outstanding warrants exercisable into 127,487,211 shares of common stock, and (c) employee stock options to purchase 495,095 shares of common stock, which notes, warrants, and options, if converted and/or exercised, would result in the issuance of an additional 262,338,631 shares of common stock.

Accordingly, on a fully diluted basis -- assuming conversion of the outstanding Preferred Stock, conversion of all outstanding convertible notes, and exercise of all outstanding warrants and options -- the Company would need to have 809,659,139 shares of authorized common stock. However, Section A of Article IV of our Amended and Restated Certificate of Incorporation currently authorizes the Company to issue up to 700,000,000 shares of stock, 698,000,000 of which are designated as common stock. Thus, unless the Company increases the amount of its authorized stock, the Company will not have sufficient authorized shares of common stock to issue upon the conversion and/or exercise of all outstanding notes, warrants, and options.

In addition, assuming the conversion of the outstanding convertible notes and the exercise of the outstanding warrants, unless we increase the amount of authorized stock, we will have insufficient authorized shares of common stock to issue in connection with expected future financings. To continue to fund our operations going forward, we may need to raise additional capital from financing sources. One of the ways we may raise such cash is by issuing shares from time to time. Without additional authorized common stock, we may be unable to raise the financing we need to fund our operations going forward. The inability to finance our operations going forward could lead to our bankruptcy, reorganization, insolvency, or liquidation.

Moreover, we also engage in periodic discussions with potential partners, strategic investors and acquisition candidates, all as part of our business model. If any of these discussions were to lead to a definitive understanding, it is possible that we could use some of the newly authorized shares in connection with one or more such transactions subsequent to the increase in the number of authorized shares. The additional authorized shares would enable the Company to act quickly in response to opportunities that may arise for these types of transactions. As of October 28, 2010, we have no plan, commitment, arrangement, understanding, or agreement, either oral or written, regarding the issuance of common stock in connection with one or more such strategic transactions subsequent to the increase in the number of authorized shares.

Furthermore, we may use the additional authorized shares of common stock to attract and retain employees by the issuance of additional securities under the Company's various equity compensation plans.

Effect of Increase of Authorized Shares

As described above, the primary purpose of the proposed increase in the number of authorized shares of common stock of the Company is to ensure that the Company will have sufficient authorized shares of common stock to issue upon the conversion and/or exercise of all outstanding notes, warrants, and options. Therefore, while the proposed increase in the number of authorized shares of common stock of the Company in and of itself will not have any immediate effect on the rights of existing stockholders, the issuance of common stock upon the conversion and/or exercise of all outstanding notes, warrants, and options will reduce the current percentage ownership interest of the Company of those stockholders who are not warrant and note holders, thus diluting such stockholders' voting rights. In addition, the issuance of common stock upon the conversion and/or exercise of all outstanding notes, warrants, and options will reduce the amount of net earnings available per share due to the increase in the aggregate number of outstanding shares of common stock. Furthermore, depending upon the exact nature and circumstances of any actual issuance of authorized but unissued shares, the issuance of additional shares of common stock may result in a decrease in the Company's price per share.

Edgar Filing: Neonode, Inc - Form DEF 14C

For illustrative purposes only, the following table reflects the approximate number of shares of our common stock that would be outstanding upon the conversion and/or exercise of all outstanding notes, warrants, and options.

Moreover, although this proposal to increase the authorized stock has been prompted by business and financial considerations and not by the threat of any hostile takeover attempt (nor is our Board of Directors currently aware of any such attempts directed at us), nevertheless, stockholders should be aware that approval of this proposal could facilitate our future efforts to deter or prevent changes in control of the Company, including transactions in which the stockholders might otherwise receive a premium for their shares over then current market prices. As a result of the authorization of additional shares of common stock, we will have a significantly larger number of authorized but unissued shares of common stock which, along with our blank-check preferred stock, would be available for future issuance without our stockholders' approval. These additional shares may be utilized for a variety of corporate purposes including but not limited to equity financing, corporate acquisitions and employee incentive plans. The issuance of such shares, however, may also be used to deter a potential takeover of the Company that may otherwise be beneficial to stockholders by diluting the shares held by a potential suitor or issuing shares to a stockholder that will vote in accordance with the Company's Board of Directors' desires.

Furthermore, the existence of authorized but unissued shares of common stock may enable the Board of Directors to issue shares to persons friendly to current management, which would render more difficult or discourage an attempt to obtain control of the Company by means of a proxy contest, tender offer, merger or otherwise, and thereby protect the

continuity of the Company's management. For example, without further stockholder approval, our Board of Directors could strategically sell shares of common stock in a private transaction to purchasers who would oppose a takeover or favor the incumbent Board of Directors.

To ensure that the Company has sufficient authorized common stock for issuance upon the conversion of all outstanding convertible notes and upon the exercise of all outstanding warrants, and to provide our Board of Directors with certainty and flexibility to undertake future transactions to support our future business growth, our Board of Directors deems it in the best interests of our stockholders and the Company to increase the number of authorized shares of our common stock.

Upon approval of this proposal, the Company will amend its Amended and Restated Certificate of Incorporation by filing a certificate of amendment with the Secretary of State of the State of Delaware that will include the following amended wording to Section A of Article IV:

“A. This corporation is authorized to issue two classes of stock to be designated, respectively, "Common Stock" and "Preferred Stock." The total number of shares which the corporation is authorized to issue is Eight Hundred Fifty Million (850,000,000) shares, of which Eight Hundred Forty-Eight Million (848,000,000) shares will be Common Stock, par value \$0.001 per share, and Two Million (2,000,000) shares will be Preferred Stock, par value \$0.001 per share, of which 899,081 shares shall be designated as Series A Preferred Stock and 108,850 shares shall be designated as Series B Preferred Stock.”

The adoption of this proposal will require the affirmative vote of the holders of a majority of our outstanding shares on the record date, and the votes in favor of this proposal must include a majority of the outstanding shares of common stock.

THE MAJORITY STOCKHOLDERS WILL VOTE IN FAVOR OF THIS PROPOSAL. NO PROXY IS REQUIRED OR REQUESTED FROM YOU. VERY SPECIFICALLY, YOU ARE REQUESTED NOT TO SEND US YOUR PROXY. THIS NOTICE IS FOR INFORMATION PURPOSES ONLY.
