Special Note About Forward-Looking Statements

This report includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views as to future events and financial performance with respect to, without limitation, conditions in our industry, our operations, our economic performance and financial condition, including, in particular, with respect to, without limitation, the benefits and costs of our acquisitions of each of Avendra and AmeriPride and related financings, as well as statements regarding these companies' services and products and statements relating to our business and growth strategy. These statements can be identified by the fact that they do not relate strictly to historical or current facts. They use words such as "outlook," "aim," "anticipate," "are or remain confident," "have confidence," "estimate," "expect," "will be," "will continue," "will likely result," "project," "intend," "plan," "believe," "see," "look to" and other words and terms of similar meaning or the negative versions of such words.

Forward-looking statements speak only as of the date made. All statements we make relating to our estimated and projected earnings, costs, expenditures, cash flows, growth rates, financial results and our estimated benefits and costs of our acquisitions are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results or the costs and benefits of the acquisitions include without limitation: unfavorable economic conditions; natural disasters, global calamities, sports strikes and other adverse incidents; the failure to retain current clients, renew existing client contracts and obtain new client contracts; a determination by clients to reduce their outsourcing or use of preferred vendors; competition in our industries; increased operating costs and obstacles to cost recovery due to the pricing and cancellation terms of our food and support services contracts; the inability to achieve cost savings through our cost reduction efforts; our expansion strategy; the failure to maintain food safety throughout our supply chain, food-borne illness concerns and claims of illness or injury; governmental regulations including those relating to food and beverages, the environment, wage and hour and government contracting; liability associated with noncompliance with applicable law or other governmental regulations; new interpretations of or changes in the enforcement of the government regulatory framework; currency risks and other risks associated with international operations, including Foreign Corrupt Practices Act, U.K. Bribery Act and other anti-corruption law compliance; continued or further unionization of our workforce; liability resulting from our participation in multiemployer defined benefit pension plans; risks associated with suppliers from whom our products are sourced; disruptions to our relationship with, or to the business of, our primary distributor; the inability to hire and retain sufficient qualified personnel or increases in labor costs; healthcare reform legislation; the contract intensive nature of our business, which may lead to client disputes; seasonality; disruptions in the availability of our computer systems or privacy breaches; failure to achieve and maintain effective internal controls; our leverage; the inability to generate sufficient cash to service all of our indebtedness; debt agreements that limit our flexibility in operating our business; our ability to successfully integrate the businesses of Avendra and AmeriPride and costs and timing related thereto, the risk of unanticipated restructuring costs or assumption of undisclosed liabilities, the risk that we are unable to achieve the anticipated benefits (including tax benefits) and synergies of the acquisition of AmeriPride and Avendra including whether the proposed transactions will be accretive and within the expected timeframes, the availability of sufficient cash to repay certain indebtedness and our decision to utilize the cash for that purpose, the disruption of the transactions to each of Avendra and AmeriPride and their respective managements; the effect of the transactions on each of Avendra's and AmeriPride's ability to retain and hire key personnel and maintain relationships with customers, suppliers and other third parties, our ability to attract new or maintain existing customer and supplier relationships at reasonable cost, our ability to retain key personnel and other factors set forth under the headings Item 1A "Risk Factors," Item 3 "Legal Proceedings" and Item 7 "Management's Discussion and Analysis of Financial Condition and

Results of Operations" and other sections of our Annual Report on Form 10-K, filed with the SEC on November 22, 2017 as such factors may be updated from time to time in our other periodic filings with the SEC, which are accessible on the SEC's website at www.sec.gov and which may be obtained by contacting Aramark's investor relations department via its website www.aramark.com. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report and in our other filings with the SEC. As a result of these risks and uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements included herein or that may be made elsewhere from time to time by, or on behalf of, us. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments, changes in our expectations, or otherwise, except as required by law.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Aramark (the "Company") is a leading global provider of food, facilities and uniform services to education, healthcare, business & industry and sports, leisure & corrections clients. The Company's core market is the United States, which is supplemented by an additional 18-country footprint. The Company operates its business in three reportable segments that share many of the same operating characteristics: Food and Support Services United States ("FSS United States"), Food and Support Services International ("FSS International") and Uniform and Career Apparel ("Uniform"). See Note 12 for further discussion over the FSS United States reporting segment reclassification and name change.

The condensed consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and should be read in conjunction with the audited consolidated financial statements, and the notes to those statements, included in the Company's Form 10-K filed with the SEC on November 22, 2017. The Condensed Consolidated Balance Sheet as of September 29, 2017 was derived from audited financial statements which have been prepared in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"). Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. In the opinion of the Company, the statements include all adjustments, which are of a normal, recurring nature, required for a fair presentation for the periods presented. The results of operations for interim periods are not necessarily indicative of the results for a full year, due to the seasonality of some of the Company's business activities and the possibility of changes in general economic conditions.

The condensed consolidated financial statements include the accounts of the Company and all of its subsidiaries in which a controlling financial interest is maintained. All significant intercompany transactions and accounts have been eliminated.

New Accounting Standards Updates

In September 2017, the Financial Accounting Standards Board ("FASB") issued an accounting standards update ("ASU") which provides additional implementation guidance with respect to the revenue recognition standard and the leases recognition standard. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement.

In August 2017, the FASB issued an ASU to improve the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements and simplify the application of hedge accounting. The guidance is effective for the Company in the first quarter of fiscal 2020 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement.

In May 2017, the FASB issued an ASU to clarify the determination of the customer of the operation services in a service concession arrangement. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company will adopt this standard in conjunction with the revenue recognition standard, as described below. The Company is currently evaluating the impact of the pronouncement.

In May 2017, the FASB issued an ASU to clarify when to account for a change to the terms or conditions of a share-based payment award as a modification. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company adopted the guidance in the first quarter of fiscal 2018, which did not have an impact on the condensed consolidated financial statements.

In March 2017, the FASB issued an ASU to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement.

In February 2017, the FASB issued an ASU to clarify the accounting guidance for partial sales of nonfinancial assets. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement.

In January 2017, the FASB issued an ASU to simplify the subsequent measurement of goodwill as part of the impairment test. The guidance is effective for the Company in the first quarter of fiscal 2021 and early adoption is permitted. The Company adopted the guidance in the first quarter of fiscal 2018, which did not have an impact on the condensed consolidated financial statements. The Company will apply the guidance during its annual impairment test or earlier if a change in circumstances or the occurrence of events indicates potential impairment exists.

In January 2017, the FASB issued an ASU to clarify the definition of a business. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement.

ARAMARK AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In October 2016, the FASB issued an ASU to require entities to recognize the income tax consequences of certain intercompany assets transfers at the transaction date. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement. In August 2016, the FASB issued an ASU to address the classification of certain cash receipts and cash payments in the Statement of Cash Flows. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company adopted the guidance in the first quarter of fiscal 2018, which did not have an impact on the condensed consolidated financial statements.

In June 2016, the FASB issued an ASU to require entities to account for expected credit losses on financial instruments including trade receivables. The guidance is effective for the Company in the first quarter of fiscal 2021 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement.

In February 2016, the FASB issued an ASU requiring lessees to recognize most leases on their balance sheets as lease liabilities with corresponding right-of-use assets and to disclose key information about lease arrangements. The guidance is effective for the Company in the first quarter of fiscal 2020 and early adoption is permitted. The Company is in the process of reviewing its lease arrangements in order to determine the impact the adoption of this ASU will have on its consolidated financial statements and related disclosures. Based on the assessment to date, the Company expects adoption of this standard to result in a material increase in lease-related assets and liabilities in its Consolidated Balance Sheets, but does not expect it to have a significant impact in its Consolidated Statements of Income or Cash Flows.

In January 2016, the FASB issued an ASU to address certain aspects of recognition, measurement, presentation and disclosure of financial instruments. The guidance is effective for the Company in the first quarter of fiscal 2019 and early adoption is permitted. The Company is currently evaluating the impact of the pronouncement.

In July 2015, the FASB issued an ASU which changes the measurement principle for inventory from the lower of cost or market to the lower of cost and net realizable value. The guidance is effective for the Company in the first quarter of fiscal 2018 and early adoption is permitted. The Company adopted the guidance in the first quarter of fiscal 2018, which did not have an impact on the condensed consolidated financial statements.

In May 2014, the FASB issued an ASU on revenue from contracts with customers which outlines a single comprehensive model to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. In July 2015, the FASB voted to defer the effective date of the new revenue standard by one year, but to permit entities to adopt one year earlier if they choose (i.e., the original effective date). The guidance is effective for the Company beginning in the first quarter of fiscal 2019. As the new standard will supersede most existing revenue guidance affecting the Company, it could impact revenue and cost recognition on contracts across all reportable segments.

The Company completed its comprehensive contract review project, excluding its recent acquisitions, and has developed an understanding of the potential adoption impact to the consolidated financial statements on a qualitative basis. Based on this preliminary assessment, the Company does not believe this ASU will have a material impact on the timing of revenue recognition. The Company has also made significant progress on evaluating the impact the ASU may have related to the timing and presentation of various financial aspects of our contractual arrangements, including client contract investments, costs to fulfill and commissions. The Company has not selected the method of adoption and continues to assess the disclosure requirements, business processes, controls and systems.

Comprehensive Income

Comprehensive income includes all changes to stockholders' equity during a period, except those resulting from investments by and distributions to stockholders. Components of comprehensive income include net income, changes in foreign currency translation adjustments (net of tax), pension plan adjustments (net of tax), changes in the fair value of cash flow hedges (net of tax) and changes to the share of any equity investees' comprehensive income or loss (net of tax).

Share of equity investee's accumulated other comprehensive loss	(9,118)	(9,133)		
	\$ (112,156)	\$ (123,760)		

Other Assets

Other assets consist primarily of client contract investments, investments in 50% or less owned entities, computer software costs and long-term receivables. Client contract investments generally represent a cash payment provided by the Company to help finance improvement or renovation at the facility from which the Company operates. These amounts are amortized over the contract period. If a contract is terminated prior to its maturity date, the Company is reimbursed for the unamortized client contract investment amount. Client contract investments, net of accumulated amortization, were \$993.9 million and \$981.3 million as of December 29, 2017 and September 29, 2017, respectively.

NOTE 2. ACQUISITIONS:**Avendra, LLC ("Avendra") Acquisition**

On December 11, 2017, the Company completed the Avendra acquisition, a hospitality procurement services provider in North America, which included the merger of Capital Merger Sub, LLC, a wholly owned subsidiary of the Company, with Avendra, pursuant to the Agreement and Plan of Merger ("Avendra Merger Agreement") dated as of October 13, 2017, by and among Aramark Services, Inc. ("ASI"), a wholly owned subsidiary of the Company, Avendra, Capital Merger Sub, LLC, and Marriott International, Inc., in its capacity as Holder Representative. Avendra continued as the surviving entity of the merger and is a wholly owned subsidiary of the Company whose financial results are included within the FSS United States reporting segment from December 11, 2017. The total consideration paid for Avendra was \$1,386.4 million, partially offset by \$87.3 million of cash and restricted investments acquired, which included certain adjustments set forth in the Avendra Merger Agreement. In order to finance the Avendra acquisition, the Company entered into a long-term financing agreement as discussed in Note 5. The Company also incurred acquisition-related costs of \$11.1 million included in "Selling and general corporate expenses" and \$6.7 million included in "Interest and Other Financing Costs, net" in the Company's Consolidated Statements of Income for the three month period ended December 29, 2017.

Consideration

The Company has accounted for the Avendra acquisition as a business combination under the acquisition method of accounting. The Company has preliminarily allocated the purchase price for the transaction based upon the estimated fair value of net assets acquired and liabilities assumed at the date of acquisition. Accordingly, the preliminary

purchase price allocation is subject to change. The Company expects to finalize the allocation of the purchase price upon finalization of the valuation for the intangible assets and final resolution of post-closing adjustments related to working capital based on the best estimates of

management. Any adjustments to the preliminary fair values will be made as soon as practicable but no later than one year from the acquisition date. These adjustments may have a material impact on the Company's results of operations and financial position. For tax purposes, this acquisition is a taxable transaction.

Recognition and Measurement of Assets Acquired and Liabilities Assumed at Fair Value

The following tables summarize the preliminary fair values of the tangible and identifiable intangible assets acquired and liabilities assumed at the acquisition date (in thousands):

Intangible Assets

The following table identifies the Company's preliminary allocations of purchase price to the intangible assets acquired by category:

	Estimated Fair Value (in millions)	Weighted- Average Estimated Useful Life (in years)
Customer relationship assets	\$ 567.0	15
Trade name	222.0	indefinite
Total intangible assets	\$ 789.0	

The estimated fair value of the customer relationship assets was determined using the "multi-period excess earnings method" which considers the present value of net cash flows expected to be generated by the customer relationships, excluding any cash flows related to contributory assets. The estimated fair value of the trade name was determined using the "relief-from-royalty method" which considers the discounted estimated royalty payments that are expected to be avoided as a result of the trademarks being owned.

Goodwill

The Company recorded approximately \$524.9 million of goodwill in connection with the Avendra acquisition, all of which was recognized in the FSS United States reporting segment. Factors that contributed to the Company's preliminary recognition of goodwill include the Company's intent to expand its buying scale through Avendra's procurement capabilities and to expand its customer base outside of its traditional industries, in addition to the anticipated synergies the Company expects to generate from the acquisition. Goodwill related to the Avendra acquisition may be revised upon final determination of the purchase price allocation.

Sales and Earnings for Acquired Entity

The sales and net income included in the Company's condensed consolidated statements of income from the December 11, 2017 closing date through December 29, 2017 were not material. The effects of the acquisition on pro forma sales and net income of the combined entity were not material.

Other Acquisitions

During the three month period of fiscal 2018, the Company paid cash consideration of approximately \$22.6 million for various acquisitions, excluding the purchase of Avendra. The sales, net income, assets and liabilities of these acquisitions did not have a material impact on the Company's condensed consolidated financial statements.

NOTE 3. SEVERANCE:

During fiscal 2017, the Company updated its previously initiated actions on streamlining and improving the efficiencies and effectiveness of its selling, general and administrative functions. As of December 29, 2017 and September 29, 2017, the Company had an accrual of approximately \$13.3 million and \$17.8 million, respectively, related to the unpaid obligations for these actions.

NOTE 4. GOODWILL AND OTHER INTANGIBLE ASSETS:

Goodwill represents the excess of the fair value of consideration paid for an acquired entity over the fair value of assets acquired and liabilities assumed in a business combination. Goodwill is not amortized and is subject to an impairment test that the Company conducts annually or more frequently if a change in circumstances or the occurrence of events indicates that potential impairment exists, using discounted cash flows.

Changes in total goodwill during the three months ended December 29, 2017 follow (in thousands):

Segment	September 29, 2017	Acquisitions	Translation	December 29, 2017
FSS United States	\$ 3,493,756	\$ 524,940	\$ —	\$4,018,696
FSS International	637,816	—	4,969	642,785
Uniform	583,939	7,696	—	591,635
	\$ 4,715,511	\$ 532,636	\$ 4,969	\$5,253,116

During the first quarter of fiscal 2018, \$173.3 million of goodwill related to certain Canadian businesses was reclassified out of FSS United States into FSS International (see Note 12) which is reflected in the opening balance as of September 29, 2017. Goodwill related to the acquisitions made during the three months ended December 29, 2017 may be revised upon final determination of the purchase price allocation (see Note 2).

Other intangible assets consist of the following (in thousands):

	December 29, 2017			September 29, 2017		
	Gross Amount	Accumulated Amortization	Net Amount	Gross Amount	Accumulated Amortization	Net Amount
Customer relationship assets	\$1,958,904	\$(1,088,271)	\$870,633	\$1,376,812	\$(1,063,350)	\$313,462
Trade names	1,030,895	—	1,030,895	807,362	—	807,362
	\$2,989,799	\$(1,088,271)	\$1,901,528	\$2,184,174	\$(1,063,350)	\$1,120,824

During the three months ended December 29, 2017, the Company acquired customer relationship assets and trade names with preliminary values of approximately \$580.0 million and \$222.0 million, respectively. Customer relationship assets are being amortized principally on a straight-line basis over the expected period of benefit, 5 to 24 years, with a weighted average life of approximately 14 years. The Aramark and other trade names are indefinite lived intangible assets and are not amortizable but are evaluated for impairment at least annually.

Amortization of intangible assets for the three months ended December 29, 2017 and December 30, 2016 was approximately \$23.3 million and \$22.5 million, respectively.

As of December 29, 2017, there was approximately \$890.5 million of outstanding foreign currency borrowings.

Fiscal 2018 Refinancing Transactions

On December 11, 2017 ASI, an indirect wholly owned subsidiary of the Company, entered into Incremental Amendment No. 2 (the "Incremental Amendment") to the credit agreement dated March 28, 2017 (as supplemented or otherwise modified from time to time, the "Credit Agreement") and last amended by Incremental Amendment No. 1 on September 20, 2017, which replaced the existing Amended and Restated Credit Agreement, originally dated January 26, 2007 and last amended on March 28, 2014 (the "Previous Credit Agreement"). The Incremental Amendment provides for an incremental senior secured credit facility (the "Incremental Senior Secured Credit Facility") under the Credit Agreement comprised of a U.S. dollar denominated term loan to ASI in an amount equal to \$1,785.0 million, due in March 2025 ("U.S. Term Loan B due 2025").

The net proceeds from the borrowing under the Incremental Senior Secured Credit Facility under the Credit Agreement were used to finance the Avendra acquisition and, together with approximately \$200.0 million of proceeds from a borrowing made under the Credit Agreement's revolving credit facility, to repay the \$633.8 million of principal outstanding on the U.S. Term Loan A under the Credit Agreement, along with accrued interest and certain fees and related expenses. The Company recorded \$5.7 million of charges to "Interest and Other Financing Costs, net" in the Condensed Consolidated Statements of Income for the three months ended December 29, 2017 for the write-off of debt issuance costs.

During the three months ended December 29, 2017, the Company capitalized third-party costs of approximately \$8.9 million directly attributable to the U.S. Term Loan B due 2025 under the Credit Agreement, which are included in "Long-Term Borrowings" in the Condensed Consolidated Balance Sheets.

The U.S. Term Loan B due 2025 bears interest at a rate equal to, at the Company's option, either (a) a LIBOR rate determined by reference to the costs of funds for deposits in U.S. dollars for the interest period relevant to such borrowing adjusted for certain additional costs or (b) a base rate determined by reference to the highest of (1) the prime rate of the administrative agent, (2) the federal funds rate plus 0.50% and (3) the LIBOR rate plus 1.00% plus an applicable margin set initially at 2.00% for borrowings based on the LIBOR rate and 1.00% for borrowings based on the base rate, in each case, subject to a reduction of 0.25% upon compliance by the Company with a consolidated leverage ratio of 3.00 to 1.00. The applicable margin spread for the U.S. Term Loan B due 2025 is 1.75% to 2.00% (as of December 29, 2017—1.75%) with respect to eurocurrency (LIBOR) borrowings, subject to a LIBOR floor of 0.00%, and 0.75% to 1.00% (as of December 29, 2017—0.75%) with respect to base-rate borrowings, subject to a minimum

base rate of 0.00%.

The Company is required to make quarterly principal repayments on the U.S. Term Loan B due 2025 in quarterly amounts of 1.00% per annum of the funded total principal amount and is subject to substantially similar terms relating to guarantees, collateral, mandatory prepayments and covenants that are applicable to the Company's existing U.S. Term Loan B due 2024 outstanding under the Credit Agreement.

NOTE 6. DERIVATIVE INSTRUMENTS:

The Company enters into contractual derivative arrangements to manage changes in market conditions related to interest on debt obligations, foreign currency exposures and exposure to fluctuating gasoline and diesel fuel prices. Derivative instruments utilized during the period include interest rate swap agreements, foreign currency forward exchange contracts and gasoline and diesel fuel agreements. All derivative instruments are recognized as either assets or liabilities on the balance sheet at fair value at the end of each quarter. The counterparties to the Company's contractual derivative agreements are all major international financial institutions. The Company is exposed to credit loss in the event of nonperformance by these counterparties. The Company continually monitors its positions and the credit ratings of its counterparties, and does not anticipate nonperformance by the counterparties. For designated hedging relationships, the Company formally documents the hedging relationship and its risk management objective and strategy for undertaking the hedge, the hedging instrument, the hedged item, the nature of the risk being hedged, how the hedging instrument's effectiveness in offsetting the hedged risk will be assessed prospectively and retrospectively, and a description of the method of measuring ineffectiveness. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting cash flows of hedged items.

Cash Flow Hedges

The Company has approximately \$2.9 billion notional amount of outstanding interest rate swap agreements as of December 29, 2017, which fixes the rate on a like amount of variable rate borrowings. During the first quarter of fiscal 2018, the Company entered into approximately \$1.6 billion notional amount of forward starting interest rate swap agreements to hedge the cash flow risk of variability in interest payments on variable rate borrowings. In addition, interest rate swaps with a notional amount of \$300.0 million matured during the first quarter of fiscal 2018.

Changes in the fair value of a derivative that is designated as and meets all the required criteria for a cash flow hedge are recorded in accumulated other comprehensive income (loss) and reclassified into earnings as the underlying hedged item affects earnings. As of December 29, 2017 and September 29, 2017, approximately (\$1.6) million and (\$6.8) million of unrealized net of tax losses related to the interest rate swaps were included in "Accumulated other comprehensive loss," respectively. The hedge ineffectiveness for these cash flow hedging instruments during the three months ended December 29, 2017 and December 30, 2016 was not material.

The following table summarizes the effect of our derivatives designated as cash flow hedging instruments (effective portion) on Other comprehensive income (loss) (in thousands):

	Three Months Ended

Derivatives not Designated in Hedging Relationships		

The Company entered into a series of pay fixed/receive floating gasoline and diesel fuel agreements based on the Department of Energy weekly retail on-highway index in order to limit its exposure to price fluctuations for gasoline and diesel fuel. As of December 29, 2017, the Company has contracts for approximately 13.4 million gallons outstanding through 2019. The Company does not record its gasoline and diesel fuel agreements as hedges for accounting purposes. The impact on earnings related to the change in fair value of these unsettled contracts was a gain of approximately \$1.9 million for the three months ended December 29, 2017. The impact on earnings related to the change in fair value of these unsettled contracts was a gain of

approximately \$4.4 million for the three months ended December 30, 2016. The change in fair value for unsettled contracts is included in "Selling and general corporate expenses" in the Condensed Consolidated Statements of Income. When the contracts settle, the gain or loss is recorded to "Costs of services provided" in the Condensed Consolidated Statements of Income.

As of December 29, 2017, the Company had foreign currency forward exchange contracts outstanding with notional amounts of €21.0 million to mitigate the risk of changes in foreign currency exchange rates on short-term intercompany loans to certain international subsidiaries. Gains and losses on these foreign currency exchange contracts are recognized in income as the contracts were not designated as hedging instruments, substantially offsetting currency transaction gains and losses on the short-term intercompany loans.

The following table summarizes the location and fair value, using Level 2 inputs (see Note 13), of the Company's derivatives designated and not designated as hedging instruments in the Condensed Consolidated Balance Sheets (in thousands):

The Company has a Japanese yen denominated term loan in the amount of ¥11,023.7 million. The term loan was designated as a hedge of the Company's net Japanese currency exposure represented by the equity investment in our Japanese affiliate, AIM Services Co., Ltd. Additionally, the Company has a Euro denominated term loan in the

amount of €167.9 million. The term loan was designated as a hedge of the Company's net Euro currency exposure represented by certain holdings in our European affiliates.

At December 29, 2017, the net of tax gain expected to be reclassified from "Accumulated other comprehensive loss" into earnings over the next twelve months based on current market rates is approximately \$1.2 million.

NOTE 7. INCOME TAXES:

On December 22, 2017, “H.R.1,” commonly referred to as the “Tax Cuts and Jobs Act” (the “Tax Legislation”) was signed into U.S. law. The Tax Legislation, which was effective on January 1, 2018, significantly revises the U.S. tax code by, among other things, lowering the corporate income tax rate from 35.0% to 21.0% and implementing a territorial tax system that includes a one-time transition tax on deemed repatriated earnings of foreign subsidiaries. Though certain key aspects of the new law are effective January 1, 2018 and have an immediate accounting impact, other significant provisions are not effective or may not result in accounting implications for the Company until fiscal year-end September 28, 2018 or after.

The impact of the corporate income tax rate change is reflected in the estimated annual effective tax rate for the fiscal year ending September 28, 2018. The legislation requires the Company to use a blended rate for its fiscal 2018 tax year by applying a prorated percentage of days before and after the January 1, 2018 effective date. As a result, the Company's 2018 annual statutory rate has been reduced to 24.5%.

As a result of the enactment of the Tax Legislation, the Company is required to recognize the effect of the corporate income tax rate change on its deferred tax assets and liabilities in the quarter ending December 29, 2017, the period in which the legislation was enacted. The Company recorded a provisional tax benefit from corporate income tax rate change and certain other adjustments, which resulted in a noncash benefit to the provision for income taxes of approximately \$207.5 million, which was recorded to the Condensed Consolidated Statements of Income for the three months ended December 29, 2017. A corresponding reduction to the Company's deferred income tax liability was also recorded to the Condensed Consolidated Balance Sheets) as of December 29, 2017. This is the Company's provisional estimate and will be subject to adjustment as the computations are finalized.

The Tax Legislation also requires the Company to pay a one-time transition tax on unremitted earnings of certain non-U.S. subsidiaries. The Company recorded a provisional estimate of the tax expense of approximately \$2.5 million for the three months ended December 29, 2017 related to the one time transition tax, net of foreign tax credits. As a result of the Tax Legislation, the Company re-assessed the ability to recover its \$21.2 million of foreign tax credit carryforwards. Based on currently available information, the Company believes it will not generate sufficient foreign source income in the carryforward period to utilize these credits. As a result, the Company recorded a valuation allowance of \$21.2 million against its foreign tax credit carryforward for the three months ended December 29, 2017, as a provisional estimate.

The Tax Legislation contains additional international provisions which may impact the Company prospectively, including the tax on “Global Intangible Low-Taxed Income” (“GILTI”). The Company is currently unable to provide a reasonable provisional estimate as to whether additional deferred tax assets and liabilities should be recognized for basis differences expected to reverse as GILTI in future years, pending clarification of interpretive issues and the availability of the necessary information to develop a reasonable estimate. Accordingly, the Company has yet to determine whether GILTI tax should be recorded as a period expense or measured as a deferred tax asset or liability. However, the Company does not believe the impact will be material.

As the result of the one-time transition tax on unremitted foreign earnings of non-U.S. subsidiaries, as well as the shift from a worldwide system of taxation to a participation exemption system, the Company generally will not incur additional U.S. tax liability on the distribution of unremitted foreign earnings. However, other items continue to trigger additional tax expense for which no deferred tax liability has been recorded, including Section 986(c) currency gain/loss, foreign withholding taxes and state taxes. As a result, the Company has performed a preliminary assessment of its indefinite reinvestment position, pending further analysis and expected guidance around newly enacted legislation of U.S. taxation of foreign multinational companies, including the transition tax, GILTI and the potential tax liabilities attributable to repatriation under the Tax Legislation. Accordingly, the provisional estimate of undistributed earnings of certain foreign subsidiaries for which no deferred tax liability was recorded amounted to approximately \$41.2 million at December 29, 2017. The provisional estimate of foreign withholding tax cost associated with remitting these earnings is approximately \$2.2 million. Such amount has not been accrued by the Company as it believes those foreign earnings are permanently reinvested.

The Tax Legislation also contains limitations on the deductibility of interest expense and certain executive compensation, that are not expected to impact the Company until fiscal years ending after September 28, 2018. The Company continues to evaluate their impact on the financial statements.

The provisional amounts are based on information available at this time and subject to change due to several factors, including, finalization of the Company's annual financial closing and reporting processes, management's further assessment of the Tax Legislation and related regulatory guidance, guidance that may be issued and actions the Company may take as a result of the Tax Legislation.

The Company is in the process of finalizing these provisional calculations, and will continue to evaluate the effect of tax reform on its financial results. Additional details will be included in the Company's Form 10-K for the year ended September 28, 2018.

NOTE 10. EARNINGS PER SHARE:

Basic earnings per share is computed using the weighted average number of common shares outstanding during the periods presented. Diluted earnings per share is computed using the weighted average number of common shares outstanding adjusted to include the potentially dilutive effect of stock awards.

The following table sets forth the computation of basic and diluted earnings per share attributable to the Company's stockholders (in thousands, except per share data):

Diluted Earnings Per Share:

Net income attributable to Aramark stockholders	\$ 1.16	\$ 0.50

Share-based awards to purchase 0.9 million and 3.3 million shares were outstanding for the three months ended December 29, 2017 and December 30, 2016, respectively, but were not included in the computation of diluted earnings per common share, as their effect would have been antidilutive. In addition, PSUs related to 1.9 million shares and 1.1 million shares were outstanding for the three month periods of December 29, 2017 and December 30, 2016, respectively, but were not included in the computation of diluted earnings per common share, as the performance targets were not yet met.

NOTE 11. COMMITMENTS AND CONTINGENCIES:

Certain of the Company's lease arrangements, primarily vehicle leases, with terms of one to eight years, contain provisions related to residual value guarantees. The maximum potential liability to the Company under such arrangements was approximately \$110.9 million at December 29, 2017 if the terminal fair value of vehicles coming off lease was zero. Consistent with past experience, management does not expect any significant payments will be required pursuant to these arrangements. No amounts have been accrued for guarantee arrangements at December 29, 2017.

From time to time, the Company and its subsidiaries are a party to various legal actions, proceedings and investigations involving claims incidental to the conduct of their business, including actions by clients, consumers, employees, government entities and third parties, including under federal, state, international, national, provincial and local employment laws, wage and hour laws, discrimination laws, immigration laws, human health and safety laws, import and export controls and customs laws, environmental laws, false claims or whistleblower statutes, minority, women and disadvantaged business enterprise statutes, tax codes, antitrust and competition laws, consumer protection statutes, procurement regulations, intellectual property laws, food safety and sanitation laws, cost and accounting principles, the Foreign Corrupt Practices Act, the U.K. Bribery Act, other anti-corruption laws, lobbying laws, motor carrier safety laws, data privacy and security laws and alcohol licensing and service laws, or alleging negligence and/or breaches of contractual and other obligations. Based on information currently available, advice of counsel, available insurance coverage, established reserves and other resources, the Company does not believe that any such actions are likely to be, individually or in the aggregate, material to its business, financial condition, results of operations or cash flows. However, in the event of unexpected further developments, it is possible that the ultimate resolution of these matters, or other similar matters, if unfavorable, may be materially adverse to the Company's

business, financial condition, results of operations or cash flows.

NOTE 12. BUSINESS SEGMENTS:

Prior to the three month period ended December 29, 2017, the Company reported its operating results in three reportable segments: FSS North America, FSS International and Uniform. During the three month period ended December 29, 2017, the segment reporting structure was modified to align more closely with the Company's management and internal reporting structure which was changed on October 1, 2017. Specifically, a majority of the Canadian operations, previously in the FSS

North America segment, were combined with the FSS International reportable segment. The FSS North America reportable segment was then renamed the FSS United States reportable segment. All prior period segment information has been restated to reflect the new reportable segment structure. Management believes this new presentation enhances the utility of the segment information, as it reflects the Company's current management structure and operating organization. The financial effect of this segment realignment was not material. Corporate includes general expenses not specifically allocated to an individual segment and share-based compensation expense (see Note 9). In the Company's food and support services segments, approximately 80% of the global sales is related to food services and 20% is related to facilities services. Financial information by segment follows (in millions):

NOTE 13. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES:

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities recorded at fair value are classified based upon the level of judgment associated with the inputs used to measure their fair value. The hierarchical levels related to the subjectivity of the valuation inputs are defined as follows:

Level 1—inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets

Level 2—inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument

Level 3—inputs to the valuation methodology are unobservable and significant to the fair value measurement

Recurring Fair Value Measurements

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable, borrowings and derivatives. Management believes that the carrying value of cash and cash equivalents, accounts receivable and accounts payable are representative of their respective fair values. In conjunction with the fair value measurement of the derivative instruments, the Company made an accounting policy election to measure the credit risk of its derivative instruments that are subject to master netting agreements on a net basis by counterparty portfolio, the gross values would not be materially different. The fair value of the Company's debt at December 29,

2017 and September 29, 2017 was \$7,213.0 million and \$5,450.1 million, respectively. The carrying value of the Company's debt at December 29, 2017 and September 29, 2017 was \$7,047.7 million and \$5,268.5 million, respectively. The fair values were computed using market quotes, if available, or based

on discounted cash flows using market interest rates as of the end of the respective periods. The inputs utilized in estimating the fair value of the Company's debt have been classified as level 2 in the fair value hierarchy levels.

NOTE 14. SUBSEQUENT EVENTS:

AmeriPride Services, Inc. ("AmeriPride") Acquisition

On January 19, 2018, the Company completed the AmeriPride acquisition, which included the merger of Timberwolf Acquisition Corporation, a wholly owned subsidiary of the Company, with AmeriPride, pursuant to the Agreement and Plan of Merger ("AmeriPride Merger Agreement") dated as of October 13, 2017, by and among the Company, AmeriPride, Timberwolf Acquisition Corporation, and Bruce M. Steiner, in his capacity as Stockholder Representative. AmeriPride continued as the surviving entity of the merger and is a wholly owned subsidiary of the Company and the results of AmeriPride will be included in the Company's Uniform segment. AmeriPride is a uniform and linen rental and supply company in the U.S. and Canada. The total consideration paid for AmeriPride was \$1,000.0 million. ASI issued \$1,150.0 million aggregate principal amount of 5.000% senior unsecured notes due 2028 on January 18, 2018 in order to finance the acquisition and to pay down certain borrowings under the revolving credit facility.

The AmeriPride acquisition will be accounted for in accordance with the acquisition method of accounting for business combinations, which requires the Company to record the assets acquired and the liabilities assumed on its consolidated balance sheet at their respective fair values on the acquisition date. For tax purposes, this acquisition is a taxable transaction. The results of operations related to AmeriPride will be included in the Company's consolidated financial statements from the date of acquisition. Due to the Company's limited access to AmeriPride's financial information prior to the closing of the acquisition and the limited time that has elapsed from the closing of the acquisition date to the filing date of the Company's Quarterly Report on Form 10-Q for the quarter ended December 29, 2017, the initial accounting for the business combination is not available. The Company intends to include the required information in its next Quarterly Report on Form 10-Q for the quarter ending March 30, 2018.

NOTE 15. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS OF ARAMARK AND SUBSIDIARIES:

The following condensed consolidating financial statements of the Company have been prepared pursuant to Rule 3-10 of Regulation S-X.

The condensed consolidating financial statements are presented for: (i) Aramark (the "Parent"); (ii) Aramark Services, Inc. and Aramark International Finance S.à r.l. (the "Issuers"); (iii) the guarantors; (iv) the non guarantors; (v) elimination entries necessary to consolidate the Parent with the Issuers, the guarantor and non guarantors; and (vi) the Company on a consolidated basis. Each of the guarantors is wholly-owned, directly or indirectly, by the Company. The 2024 Notes, 5.000% Senior Notes due April 1, 2025 (the "5.000% 2025 Notes"), 3.125% Senior Notes due April, 1 2025 (the "3.125% 2025 Notes" and, together with the 5.000% 2025 Notes, the "2025 Notes") and 4.75% Senior Notes due June 1, 2026 ("2026 Notes") are obligations of the Company's wholly-owned subsidiary, Aramark Services, Inc., and are each jointly and severally guaranteed on a senior unsecured basis by the Company and substantially all of the Company's existing and future domestic subsidiaries (excluding the Receivables Facility subsidiary) ("Guarantors"). All other subsidiaries of the Company, either direct or indirect, do not guarantee the 2024 Notes, 2025 Notes or 2026 Notes ("Non Guarantors"). The Guarantors also guarantee certain other debt. These condensed consolidating financial statements have been prepared from the Company's financial information on the same basis of accounting as the condensed consolidated financial statements. Interest expense and certain other costs are partially allocated to all of the subsidiaries of the Company. Goodwill and other intangible assets have been allocated to the subsidiaries based on management's estimates.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of Aramark's (the "Company," "we," "our" and "us") financial condition and results of operations for the three months ended December 29, 2017 and December 30, 2016 should be read in conjunction with our audited consolidated financial statements, and the notes to those statements for the fiscal year ended September 29, 2017 included in the Company's Form 10-K, filed with the Securities and Exchange Commission ("SEC") on November 22, 2017.

Our discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, opinions, expectations, anticipations, intentions and beliefs. Actual results and the timing of events could differ materially from those anticipated in those forward-looking statements as a result of a number of factors, including those set forth under the heading "Special Note About Forward-Looking Statements" and elsewhere in this Quarterly Report on Form 10-Q. In the following discussion and analysis of financial condition and results of operations, certain financial measures may be considered "non-GAAP financial measures" under SEC rules. These rules require supplemental explanation and reconciliation, which is provided elsewhere in this Quarterly Report on Form 10-Q.

Overview

We are a leading global provider of food, facilities and uniform services to education, healthcare, business & industry and sports, leisure & corrections clients. Our core market is the United States, which is supplemented by an additional 18-country footprint. Through our established brand, broad geographic presence and employees, we anchor our business in our partnerships with thousands of education, healthcare, business, sports, leisure and corrections clients. Through these partnerships we serve millions of consumers including students, patients, employees, sports fans and guests worldwide. We operate our business in three reportable segments, Food and Support Services United States ("FSS United States"), Food and Support Services International ("FSS International") and Uniform and Career Apparel ("Uniform").

Our Food and Support Services operations focus on serving clients in five principal sectors: Business & Industry, Education, Healthcare, Sports, Leisure & Corrections and Facilities & Other. Our FSS International reportable segment provides a similar range of services as those provided to our FSS United States clients and operates in the same sectors although it is more heavily weighted towards Business & Industry.

During the first quarter of fiscal 2018, we acquired Avendra, LLC ("Avendra") and entered into a definitive agreement to acquire AmeriPride Services, Inc. ("AmeriPride") in separate transactions (see Note 2 and Note 14 to the condensed consolidated financial statements). The Avendra acquisition consideration was \$1,386.4 million, partially offset by \$87.3 million of cash and restricted investments acquired, which included certain adjustments set forth in the Avendra Merger Agreement. The AmeriPride acquisition consideration was \$1,000.0 million and the acquisition closed in the second quarter of fiscal 2018. We incurred new debt to finance the Avendra acquisition (see Note 5 to the condensed consolidated financial statements) and in the second quarter of fiscal 2018 incurred additional debt to finance the acquisition of AmeriPride (see Note 14 to the condensed consolidated financial statements). We expect our earnings for some period following the closings to be impacted as a result of these acquisitions, due to, among other factors, transaction and integration costs as well as depreciation and amortization resulting from purchase accounting and higher interest expense, as a result of the new debt to finance the transactions.

Seasonality

Our sales and operating results have varied from quarter to quarter as a result of different factors. Historically, within our FSS United States segment, there has been a lower level of activity during our first and second fiscal quarters in operations that provide services to sports and leisure clients. This lower level of activity, historically, has been partially offset during our first and second fiscal quarters by the increased activity levels in our educational operations. Conversely, historically there has been a significant increase in the provision of services to sports and leisure clients during our third and fourth fiscal quarters, which is partially offset by the effect of summer recess at colleges, universities and schools in our educational operations.

Foreign Currency Fluctuations

The impact from foreign currency translation assumes constant foreign currency exchange rates based on the rates in effect for the prior year period being used in translation for the comparable current year period. We believe that providing the impact of fluctuations in foreign currency rates on certain financial results can facilitate analysis of period-to-period comparisons of our business performance.

Table of Contents

Fiscal Year

Our fiscal year is the fifty-two or fifty-three week period which ends on the Friday nearest September 30th. The fiscal years ending September 28, 2018 and September 29, 2017 are each fifty-two week periods.

Results of Operations

The following tables present an overview of our results on a consolidated and segment basis with the amount of and percentage change between periods for the three months ended December 29, 2017 and December 30, 2016 (dollars in millions). A majority of our Canadian operations were reclassified into the FSS International reportable segment beginning in fiscal 2018. The prior-year period balances were restated to conform to the current period presentation.

Consolidated Overview

Sales were \$3,965.1 million for the first quarter of fiscal 2018 and represented an increase of approximately 6% compared to the prior year period. Sales for the three month period of fiscal 2018 were primarily impacted by: growth in the Business & Industry, Sports, Leisure & Corrections, Education, and Facilities & Other sectors in the FSS United States segment;

growth in Germany and Spain in the FSS International segment; and

the positive impact of foreign currency translation (approximately \$55 million or approximately 1%).

Table of Contents

Cost of services provided was \$3,520.1 million for the three month period ended December 29, 2017 and 3,299.3 million for the three month period ended December 30, 2016. Cost of services provided as a percentage of sales was 89% and 88% for the three month period ended December 29, 2017 and December 30, 2016, respectively. The following table presents the percentages attributable to the components in cost of services provided for the three month periods ended December 29, 2017 and December 30, 2016.

Cost of services provided components	Three Months Ended		
	December 29, 2017	December 30, 2016	
Food and support service costs	27 %	27 %	%
Personnel costs	46 %	46 %	%
Other direct costs	27 %	27 %	%
	100 %	100 %	%

Operating income of \$219.0 million for the three month period ended December 29, 2017 represented a decrease of approximately 10% compared to the prior year period. The decrease in operating income for the three month period ended December 29, 2017 was impacted by:

- an increase in merger and integration related costs from the Avendra and AmeriPride acquisitions (approximately \$19.4 million);
- an increase in consulting costs related to streamlining initiatives (approximately \$5.8 million); and
- a profit decline in the Uniform segment; which more than offset
- profit growth in the FSS United States and FSS International segments; and
- an increase in income from prior years' loss experience that were favorable under our casualty insurance program (approximately \$6.5 million).

Interest and Other Financing Costs, net, for the three month period of fiscal 2018 increased 16% compared to the prior year period. This increase was primarily due to refinancing activity in the current year period, which resulted in charges of approximately \$12.4 million, consisting of \$5.7 million of non-cash charges for the write-off of debt issuance costs and \$6.7 million of charges related to financing commitment fees. The quarter was also favorably impacted by lower weighted average interest rates from prior year refinancing activity.

The effective income tax rate for the three month period of fiscal 2018 was (104.9)% compared to 29.7% in the prior period. The decrease in the effective tax rate in the current year period is driven by a reduction in the U.S. federal statutory rate from 35% to 21% and the re-measurement of the Company's deferred tax assets and liabilities as a result of the "Tax Cuts and Jobs Act." An approximately \$183.8 million tax benefit was recorded to the (benefit) provision for income taxes for the three months ended December 29, 2017 in the Condensed Consolidated Statements of Income as a result of U.S. tax reform (see Note 7 to the condensed consolidated financial statements), the impact of certain permanently reinvested foreign earnings and certain other tax adjustments.

Segment Results**FSS United States Segment**

The FSS United States reportable segment consists of five operating segments which have similar economic characteristics and are aggregated into a single operating segment. The five operating segments or sectors of the FSS United States reportable segment are Business & Industry, Education, Healthcare, Sports, Leisure & Corrections and Facilities & Other.

Table of Contents

Sales for each of these sectors are summarized as follows (in millions):

	Three Months Ended	
	December 29, 2017	December 30, 2016*
Business & Industry	\$386.6	\$374.0
Education	1,003.9	950.3
Healthcare	322.7	321.3
Sports, Leisure & Corrections	565.3	530.6
Facilities & Other	371.0	355.0
	\$2,649.5	\$2,531.2

*A majority of our Canadian operations were reclassified into the FSS International reportable segment beginning in fiscal 2018. The prior-year period was restated to conform to the current period presentation. The effect was not material.

The Healthcare and Education sectors generally have high-single digit operating income margins and the Business & Industry, Sports, Leisure & Corrections and Facilities & Other sectors generally have mid-single digit operating income margins.

FSS United States segment sales for the three month period of fiscal 2018 increased approximately 5% compared to the prior year period. Business & Industry sector sales increased approximately 3% for the three month period of fiscal 2018 compared to the prior year period primarily due to net new business and base business growth. Education sector sales increased approximately 6% for the three month period of fiscal 2018 compared to the prior year period due to net new business and base business growth. Healthcare sector sales remained consistent for the three month period of fiscal 2018 compared to the prior year period. Sports, Leisure & Corrections sector sales increased approximately 7% for the three month period of fiscal 2018 compared to the prior year period due to base business growth and net new business. Facilities & Other sector sales increased approximately 5% for the three month period of fiscal 2018 compared to the prior year period due to net new business and base business growth.

Cost of services provided was \$2.4 billion for the three month period of fiscal 2018 compared to \$2.2 billion for the prior year period. Cost of services provided as a percentage of sales was 89% for both the three month period of fiscal 2018 and fiscal 2017. Cost of services provided was impacted by the items discussed below for operating income.

Operating income increased approximately 2% for the three month period of fiscal 2018 compared to the prior year period. The increase in operating income for the three month period of fiscal 2018 was primarily attributable to: productivity improvements in base business, specifically in our Education and Sports, Leisure & Corrections sectors; an increase in income from prior years' loss experience that were favorable under our casualty insurance program (\$5.5 million); and

- a decrease in acquisition-related amortization expense (\$2.9 million); partially offset by
- a profit decline in our Business & Industry and Healthcare sectors; and
- an increase in merger and integration related costs from the Avendra acquisition (\$2.9 million).

FSS International Segment

Sales in the FSS International segment for the three month period of fiscal 2018 increased approximately 13% compared to the prior year period. Sales for the three month period of fiscal 2018 were impacted by:

- sales growth broadly across all regions; and
- the positive impact of foreign currency translation (approximately \$52.6 million or 7%).

Cost of services provided was \$0.8 billion for both the three month periods of fiscal 2018 and fiscal 2017. Cost of services provided as a percentage of sales was 93% for both the three month periods of fiscal 2018 and fiscal 2017.

Cost of services provided was impacted by the items discussed below for operating income.

Operating income increased approximately 13% for the three month period of fiscal 2018 compared to the prior year period. The increase in operating income for the three month period of fiscal 2018 was primarily attributable to:

profit growth in Canada; and
the positive impact of foreign currency translation (approximately \$2.2 million or 5%); which more than offset
a profit decline in Ireland.

Uniform Segment

Uniform segment sales increased 2% for the three month period of fiscal 2018 compared to the prior year period, primarily due to new business growth.

Cost of services provided was \$0.3 billion for both the three month periods of fiscal 2018 and fiscal 2017. Cost of services provided as a percentage of sales was 80% in the three month period of fiscal 2018 compared to 78% in the prior year period. Cost of services provided was impacted by the items discussed below for operating income.

Operating income decreased approximately (17)% for the three month period of fiscal 2018 compared to the prior year period. The decrease for the three month period of fiscal 2018 was primarily due to:

pricing compression in the rental market;

an increase in merger related costs from the AmeriPride acquisition (\$3.0 million); and

multiemployer pension plan withdrawal charges (\$1.6 million); which more than offset

an increase in income from prior years' loss experience that were favorable under our casualty insurance program (\$2.0 million).

Corporate

Corporate expenses, those administrative expenses not allocated to the business segments, increased approximately 94% for the three month period of fiscal 2018 compared to the prior year period. The increase for the three month period of fiscal 2018 was primarily attributable to:

an increase in merger and integration related costs from the Avendra and AmeriPride acquisitions (\$13.6 million);

an increase in consulting costs related to streamlining initiatives (\$5.8 million);

a decrease in the gain related to the change in the fair value of certain gasoline and diesel agreements (\$2.9 million); and

a decrease in income from prior years' loss experience that were favorable under our casualty insurance program (\$1.0 million).

Liquidity and Capital Resources

Overview

Our principal sources of liquidity are cash generated from operating activities, funds from borrowings and existing cash on hand. As of December 29, 2017, we had \$185.7 million of cash and cash equivalents and approximately \$512.9 million of availability under our senior secured revolving credit facility. A significant portion of our cash and cash equivalents is held in mature, liquid markets where we have operations. As of December 29, 2017, there was approximately \$890.5 million of outstanding foreign currency borrowings.

We believe that our cash and cash equivalents and the unused portion of our committed credit availability under the senior secured revolving credit facility will be adequate to meet anticipated cash requirements to fund working capital, capital spending, debt service obligations, refinancings, dividends and other cash needs. As part of our ongoing liquidity assessments, we routinely monitor our cash flow (including the mix of domestic and international inflows and outflows) and the condition of the capital markets in order to be prepared to respond to changing conditions.

During the first quarter of fiscal 2018, we entered into a U.S. dollar denominated term loan in an amount equal to \$1,785.0 million, due 2025 ("U.S. Term Loan B due 2025") to finance the Avendra acquisition and pay down certain existing debt and, during the second quarter of fiscal 2018, we issued \$1,150.0 million aggregate of principal amount of 5.000% senior unsecured notes due 2028 to finance the acquisition of AmeriPride and to pay down certain borrowings from our revolving credit facility.

The table below summarizes our cash activity (in millions):

	Three Months Ended	
	December 29, 2017	December 30, 2016
Net cash used in operating activities	\$ (311.4)	\$ (26.0)
Net cash used in investing activities	(1,442.8)	(106.1)
Net cash provided by financing activities	1,701.1	126.5

Reference to the Condensed Consolidated Statements of Cash Flows will facilitate understanding of the discussion that follows.

Table of Contents

Cash Flows Used in Operating Activities

The change in operating assets and liabilities was approximately (\$294.2) million compared to the prior year period, primarily due to the following:

• Prepayments were less of a source of cash due to the timing of prepayments made related to interest, insurance premiums and taxes;

• Accrued expenses were a greater use of cash due to the timing of payments for client advances and commissions; and

• Receivables were a greater use of cash due to revenue growth and from the timing of collections.

During the first quarter of fiscal 2018, we received gross proceeds of approximately \$18.9 million related to our casualty insurance program from our loss experience being favorable related to a prior year. We received approximately \$9.7 million of comparable insurance proceeds during the prior year period. During the first quarter of fiscal 2018, we incurred approximately \$17.8 million of acquisition related costs.

Cash Flows Used in Investing Activities

The increase in net cash flows used in investing activities between periods relates primarily to higher level of spending for acquisitions, primarily to acquire Avendra (see Note 2 to the condensed consolidated financial statements).

Cash Flows Provided by Financing Activities

During the three month period of fiscal 2018, cash used in financing activities was impacted by the following (see Note 5 to the condensed consolidated financial statements):

• issuance of a new \$1.785 billion U.S. Term Loan B due 2025;

• proceeds from borrowing on the Revolving Credit Facility (\$485.6 million);

• repayment of the U.S. dollar denominated term loan to Aramark Services, Inc. ("ASI") due 2022 (\$633.8 million of principal); and

• payment of fees related to the U.S. Term Loan B due 2025 (\$8.9 million).

During fiscal 2017, the Board of Directors authorized a new share repurchase program providing for purchases of up to \$250 million of Aramark common stock during fiscal 2017 and fiscal 2018. We repurchased approximately 2.8 million shares of our common stock for \$100.0 million in fiscal 2017. During the first quarter of fiscal 2018, we completed a repurchase of 0.6 million shares of our common stock for \$24.4 million. We may utilize various methods to effect repurchases of our common stock under the repurchase program, which could include open market repurchases, privately negotiated transactions, block transactions, accelerated share repurchase or open market solicitations for shares, some of which may be effected through Rule 10b5-1 plans. Repurchases will be made at our discretion, based on ongoing assessments of the capital needs of the business, the market price of our common stock and general market conditions. We do not currently expect to repurchase any additional shares during fiscal 2018. The "Other financing activities" also reflects a use of cash during the three month periods of fiscal 2018 and fiscal 2017 primarily related to taxes paid by the Company when the Company withholds shares upon an employee's exercise or vesting of equity awards to cover income taxes.

Covenant Compliance

The Credit Agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, our ability and the ability of our subsidiaries to: incur additional indebtedness; issue preferred stock or provide guarantees; create liens on assets; engage in mergers or consolidations; sell assets; pay dividends, make distributions or repurchase our capital stock; make investments, loans or advances; repay or repurchase any subordinated debt, except as scheduled or at maturity; create restrictions on the payment of dividends or other amounts to us from our restricted subsidiaries; make certain acquisitions; engage in certain transactions with affiliates; amend material agreements governing our subordinated debt (or any indebtedness that refinances our subordinated debt); and fundamentally change our business. The indentures governing our senior notes contain similar provisions. As of December 29, 2017, we were in compliance with these covenants.

As stated above, the Credit Agreement and the indentures governing our senior notes contain provisions that restrict our ability to pay dividends and repurchase stock (collectively, "Restricted Payments"). In addition to customary exceptions, the Credit Agreement and indentures permit Restricted Payments in the aggregate up to an amount that increases quarterly by 50% of our Consolidated Net Income, as such term is defined in these debt agreements, subject

to being in compliance with the interest coverage ratio described below.

Under the Credit Agreement, we are required to satisfy and maintain specified financial ratios and other financial condition tests and covenants. The indentures governing our senior notes also require us to comply with certain financial ratios in order to

29

Table of Contents

take certain actions. Our continued ability to meet those financial ratios, tests and covenants can be affected by events beyond our control, and there can be no assurance that we will meet those ratios, tests and covenants.

These financial ratios, tests and covenants involve the calculation of certain measures that we refer to in this discussion as "Covenant Adjusted EBITDA." Covenant Adjusted EBITDA is not a measurement of financial performance under U.S. GAAP. Covenant Adjusted EBITDA is defined as net income (loss) of Aramark Services, Inc. and its restricted subsidiaries plus interest and other financing costs, net, provision (benefit) for income taxes, and depreciation and amortization, further adjusted to give effect to adjustments required in calculating covenant ratios and compliance under our Credit Agreement and the indentures governing our senior notes.

Our presentation of these measures has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. You should not consider these measures as alternatives to net income or operating income determined in accordance with U.S. GAAP. Covenant Adjusted EBITDA, as presented by us, may not be comparable to other similarly titled measures of other companies because not all companies use identical calculations.

The following is a reconciliation of net income attributable to Aramark Services, Inc. stockholder, which is a U.S. GAAP measure of Aramark Services, Inc.'s operating results, to Covenant Adjusted EBITDA as defined in our debt agreements. The terms and related calculations are defined in the Credit Agreement and the indentures governing our senior notes. Covenant Adjusted EBITDA is a measure of Aramark Services, Inc. and its restricted subsidiaries only and does not include the results of Aramark.

(1) restricted stock units, performance stock, performance stock units, and deferred stock unit awards (see Note 9 to the condensed consolidated financial statements).

(2) Represents our estimated share of EBITDA, primarily from our AIM Services Co., Ltd. equity method investment, not already reflected in our Net income attributable to ASI stockholder. EBITDA for this equity method investee is calculated in a manner consistent with consolidated Covenant Adjusted EBITDA but does not represent cash distributions received from this investee.

(3) Represents the annualizing of net EBITDA from acquisitions made during the period.

(4) Other for the twelve months ended December 29, 2017 includes organizational streamlining initiatives (\$18.4 million), the impact of the change in fair value related to certain gasoline and diesel agreements (\$3.3 million loss), expenses related to acquisition costs (\$21.7 million), estimated impact of natural disasters (\$17.0 million, of which \$6.1 million related to asset write-downs) and other miscellaneous expenses.

Table of Contents

Our covenant requirements and actual ratios for the twelve months ended December 29, 2017 are as follows:

	Covenant Requirements	Actual Ratios
Consolidated Secured Debt Ratio ⁽¹⁾	5.125x	2.96x
Interest Coverage Ratio (Fixed Charge Coverage Ratio) ⁽²⁾	2.000x	5.41x

The Credit Agreement requires ASI to maintain a maximum Consolidated Secured Debt Ratio, defined as consolidated total indebtedness secured by a lien to Covenant Adjusted EBITDA, of 5.125x. Consolidated total indebtedness secured by a lien is defined in the Credit Agreement as total indebtedness consisting of debt for borrowed money, capital leases, debt in respect of sale-leaseback transactions, disqualified and preferred stock and advances under the Receivables Facility secured by a lien reduced by the amount of cash and cash equivalents on the consolidated balance sheet that is free and clear of any lien. Non-compliance with the maximum Consolidated Secured Debt Ratio could result in the requirement to immediately repay all amounts outstanding under our Credit Agreement, which, if ASI's lenders under the Credit Agreement (other than the lenders in respect of ASI's U.S. Term Loan B, which lenders do not benefit from the maximum Consolidated Secured Debt Ratio covenant) failed to waive any such default, would also constitute a default under the indentures governing our senior notes. Our Credit Agreement establishes an incurrence-based minimum Interest Coverage Ratio, defined as Covenant Adjusted EBITDA to consolidated interest expense, the achievement of which is a condition for us to incur additional indebtedness and to make certain restricted payments. If we do not maintain this minimum Interest Coverage Ratio calculated on a pro forma basis for any such additional indebtedness or restricted payments, we could be prohibited from being able to incur additional indebtedness, other than the incremental capacity provided for under the Credit Agreement and pursuant to specified exceptions, and make certain restricted payments, other than pursuant to certain exceptions. The minimum Interest Coverage Ratio is 2.000x for the term of the Credit Agreement. Consolidated interest expense is defined in the Credit Agreement as consolidated interest expense excluding interest income, adjusted for acquisitions and dispositions, further adjusted for certain non-cash or nonrecurring interest expense and our estimated share of interest expense from one equity method investee. The indentures governing our senior notes include a similar requirement which is referred to as a Fixed Charge Coverage Ratio.

The Company and its subsidiaries and affiliates may from time to time, in their sole discretion, purchase, repay, redeem or retire any of our outstanding debt securities (including any publicly issued debt securities), in privately negotiated or open market transactions, by tender offer or otherwise, or extend or refinance any of our outstanding indebtedness.

During the first quarter of fiscal 2018, the Company had a material change to its debt structure (see Note 5 to the condensed consolidated financial statements). As a result of this material change in debt structure, the following table summarizes our estimated future obligations for debt repayments and estimated interest payments as of December 29, 2017 (dollars in thousands):

Contractual Obligations as of December 29, 2017	Payments Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term borrowings ⁽¹⁾	\$6,967,927	\$50,103	\$496,208	\$938,455	\$5,483,161
Capital lease obligations	114,477	21,070	40,024	53,383	—
Estimated interest payments ⁽²⁾	1,616,400	278,700	486,600	434,600	416,500
	\$8,698,804	\$349,873	\$1,022,832	\$1,426,438	\$5,899,661

(1) Excludes the \$48.9 million reduction to long-term borrowings from debt issuance costs and the increase of \$14.2 million from the premium on the 5.125% Senior Notes due 2024.

(2) These amounts represent future interest payments related to our existing debt obligations based on fixed and variable interest rates specified in the associated debt agreements. Payments related to variable debt are based on applicable rates at December 29, 2017 plus the specified margin in the associated debt agreements for each period presented.

During the second quarter of fiscal 2018, the Company commenced a new phase of strategic reinvestment and reorganization actions to streamline and improve efficiencies and effectiveness of its selling, general and administrative functions. The Company expects to recognize approximately \$30 million to \$35 million of net severance charges during the second quarter of fiscal 2018.

Critical Accounting Policies and Estimates

Our significant accounting policies are described in the notes to the consolidated financial statements included in our Form 10-K filed with the SEC on November 22, 2017. As described in such notes, we recognize sales in the period in which

Table of Contents

services are provided pursuant to the terms of our contractual relationships with our clients. Sales from direct marketing activities are recognized upon shipment. For a more complete discussion of the critical accounting policies and estimates that we have identified in the preparation of our condensed consolidated financial statements, please refer to our Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Form 10-K filed with the SEC on November 22, 2017.

In preparing our financial statements, management is required to make estimates and assumptions that, among other things, affect the reported amounts of assets, liabilities, sales and expenses. These estimates and assumptions are most significant where they involve levels of subjectivity and judgment necessary to account for highly uncertain matters or matters susceptible to change, and where they can have a material impact on our financial condition and operating performance. If actual results were to differ materially from the estimates made, the reported results could be materially affected.

Critical accounting estimates and the related assumptions are evaluated periodically as conditions warrant, and changes to such estimates are recorded as new information or changed conditions require.

New Accounting Standard Updates

See Note 1 to the condensed consolidated financial statements for a full description of recent accounting standard updates, including the expected dates of adoption.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

We are exposed to the impact of interest rate changes and manage this exposure through the use of variable-rate and fixed-rate debt and by utilizing interest rate swaps. We do not enter into contracts for trading purposes and do not use leveraged instruments. The information below summarizes our market risks associated with debt obligations and other significant financial instruments as of December 29, 2017 (see Note 5 and Note 6 to the condensed consolidated financial statements). Fair values were computed using market quotes, if available, or based on discounted cash flows using market interest rates as of the end of the respective periods. For debt obligations, the table presents principal cash flows and related interest rates by contractual fiscal year of maturity. Variable interest rates disclosed represent the weighted-average rates of the portfolio at December 29, 2017. For interest rate swaps, the table presents the notional amounts and related weighted-average interest rates by fiscal year of maturity. The variable rates presented are the average forward rates for the term of each contract.

Item 4. Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, management, with the participation of the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this report, are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and

communicated to the Company's management, including its principal executive and principal financial officers, to allow timely decisions regarding required disclosures. As discussed in Note 2 to the condensed consolidated financial statements included in this Quarterly Report, we completed our acquisition of Avendra on

December 11, 2017. As part of our post-closing integration activities, we are engaged in the process of assessing the internal controls of Avendra. As permitted by interpretive guidance for newly acquired businesses issued by the staff of the Securities and Exchange Commission, management has excluded the internal control over financial reporting of Avendra from the evaluation of the Company's effectiveness of its disclosure controls and procedures as of December 29, 2017. As set forth in more detail in Note 2 to the condensed consolidated financial statements included in this Quarterly Report, total assets of Avendra included in the Company's preliminary purchase price allocation of this acquisition were \$1,497.6 million. A controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. No change in the Company's internal control over financial reporting occurred during the Company's first quarter of fiscal 2018 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

Item 1. Legal Proceedings

Our business is subject to various federal, state and local laws and regulations governing, among other things, the generation, handling, storage, transportation, treatment and disposal of water wastes and other substances. We engage in informal settlement discussions with federal, state, local and foreign authorities regarding allegations of violations of environmental laws in connection with our operations or businesses conducted by our predecessors or companies that we have acquired, the aggregate amount of which and related remediation costs we do not believe should have a material adverse effect on our financial condition or results of operations.

From time to time, the Company and its subsidiaries are a party to various legal actions, proceedings and investigations involving claims incidental to the conduct of their business, including those brought by clients, consumers, employees, government entities and third parties under, among others, federal, state, international, national, provincial and local employment laws, wage and hour laws, discrimination laws, immigration laws, human health and safety laws, import and export controls and customs laws, environmental laws, false claims or whistleblower statutes, minority, women and disadvantaged business enterprise statutes, tax codes, antitrust and competition laws, consumer protection statutes, procurement regulations, intellectual property laws, food safety and sanitation laws, cost and accounting principles, the Foreign Corrupt Practices Act, the U.K. Bribery Act, other anti-corruption laws, lobbying laws, motor carrier safety laws, data privacy and security laws and alcohol licensing and service laws, or alleging negligence and/or breaches of contractual and other obligations. Based on information currently available, advice of counsel, available insurance coverage, established reserves and other resources, the Company does not believe that any such actions, proceedings or investigations are likely to be, individually or in the aggregate, material to its business, financial condition, results of operations or cash flows. However, in the event of unexpected further developments, it is possible that the ultimate resolution of these matters, or other similar matters, if unfavorable, may be materially adverse to the Company's business, financial condition, results of operations or cash flows.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in Part I, Item 1A of the Form 10-K for the fiscal year ended September 29, 2017 and filed with the SEC on November 22, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Edgar Filing: Aramark - Form 10-Q

On February 7, 2017, we announced a share repurchase program allowing us to repurchase up to \$250.0 million of our common stock, expiring in February 2019. We may utilize various methods to effect repurchases of our common stock under the repurchase program, which could include open market repurchases, privately negotiated (1) transactions, block transactions, accelerated share repurchase or open market solicitations for shares, some of which may be effected through Rule 10b5-1 plans. Repurchases will be made at our discretion, based on ongoing assessments of the capital needs of the business, the market price of our common stock and general market conditions. We do not currently expect to repurchase any additional shares during fiscal 2018.
