NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

Note 1. Condensed Consolidated Financial Statements

The accompanying interim unaudited condensed consolidated balance sheet as of August 2, 2008, condensed consolidated statements of operations and comprehensive income for the thirteen weeks and twenty-six weeks ended August 2, 2008 and August 4, 2007, and condensed consolidated statements of cash flows for the twenty-six weeks ended August 2, 2008 and August 4, 2007 have been prepared in accordance with the rules and regulations of the United States Securities and Exchange Commission. In our opinion, we have made all adjustments (which, except as otherwise disclosed in these notes, include only normal recurring adjustments) necessary to present fairly our financial position, results of operations and comprehensive income, and cash flows. Certain prior-year amounts in the condensed consolidated balance sheets and condensed consolidated statements of operations and comprehensive income have been reclassified to conform to the current-year presentation. We have condensed or omitted certain information and footnote disclosures normally included in financial statements prepared in accordance with United States generally accepted accounting principles. These financial statements and related notes should be read in conjunction with our financial statements and related notes included in our February 2, 2008 Annual Report on Form 10-K. The results of operations for the thirteen weeks and twenty-six weeks ended August 2, 2008 and August 4, 2007 are not necessarily indicative of operating results for the full fiscal year.

As used in these notes, the term "Fiscal 2009" refers to our fiscal year ending January 31, 2009 and the term "Fiscal 2008" refers to our fiscal year ended February 2, 2008. The term "Fiscal 2010" refers to our fiscal year ending January 30, 2010. The term "Fiscal 2009 Second Quarter" refers to our fiscal quarter ended August 2, 2008 and the term "Fiscal 2008 Second Quarter" refers to our fiscal quarter ended August 4, 2007. The term "Fiscal 2009 First Quarter" refers to our fiscal quarter ended May 3, 2008 and the term "Fiscal 2009 Third Quarter" refers to our fiscal quarter ending November 1, 2008. The terms "the Company," "we," "us," and "our" refer to Charming Shoppes, Inc. and, where applicable our consolidated subsidiaries.

Discontinued Operations

On April 25, 2008 we announced that our Board of Directors began exploring a broad range of operating and strategic alternatives for our non-core misses apparel catalog titles in order to provide a greater focus on our core brands and to enhance shareholder value. The non-core misses apparel catalog titles met the requirements of SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," ("SFAS No. 144") to be accounted for as held for sale. Accordingly, the results of the non-core misses apparel catalog titles have been reported as discontinued operations in our consolidated statements of operations and balance sheets for all periods presented. The operations and cash flows of the non-core misses apparel catalog titles will be eliminated from our financial statements upon the sale and we will not have any significant involvement in the operations after the sale.

Subsequent to August 2, 2008 we announced that we have entered into a definitive agreement to sell our non-core misses apparel catalogs (see "Note 14. Subsequent Event" below). We evaluated the impact of the retained cash flows with regards to the transitional service agreements in accordance with EITF 03-13, "Applying the Conditions in Paragraph 42 of FASB Statement No. 144 in Determining Whether to Report Discontinued Operations," and determined that the cash outflows over the transition period are not expected to be significant and accordingly, the reporting of discontinued operations was deemed appropriate in accordance with SFAS 144.

### Segment Reporting

We operate and report in two segments: Retail Stores and Direct-to-Consumer. We determine our operating segments based on the way our chief operating decision-makers review our results of operations. We consider our retail stores and store-related E-commerce as operating segments that are similar in terms of economic characteristics, production processes, and operations. Accordingly, we have aggregated our retail stores and store-related E-commerce into a single reporting segment (the "Retail Stores" segment). Our catalog and catalog-related E-commerce operations are reported under the Direct-to-Consumer segment. The Retail Stores segment derives its revenues from sales through retail stores and store-related E-commerce sales under our LANE BRYANT® (including LANE BRYANT OUTLET®), FASHION BUG®, CATHERINES PLUS SIZES®, and PETITE SOPHISTICATE® (including PETITE SOPHISTICATE OUTLET®) brands. The Direct-to-Consumer segment, excluding discontinued operations, derives its revenues from catalog sales and catalog-related E-commerce sales under our LANE BRYANT WOMAN® and FIGI'S® titles and E-commerce sales under our SHOETRADER.COM website. See "Discontinued Operations" above and "Note 10. Segment Reporting" and "Note 14. Subsequent Event" below for further information regarding our discontinued operations and segment reporting.

### Stock-based Compensation

We have various stock-based compensation plans under which we are currently granting awards, which are more fully described in "Item 8. Financial Statements and Supplementary Data; Note 11. Stock-Based Compensation Plans" in our February 2, 2008 Annual Report on Form 10-K.

CHARMING SHOPPES, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)  
(Unaudited)

Note 1. Condensed Consolidated Financial Statements (Continued)

Stock-based compensation expense includes compensation cost for (i) all partially-vested stock-based awards granted prior to the beginning of Fiscal 2007, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"), and (ii) all stock-based awards granted subsequent to the beginning of Fiscal 2007, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123 (revised 2004), "Share-Based Payment" ("SFAS No. 123(R)"), a revision of SFAS No. 123. Current grants of stock-based compensation consist primarily of restricted stock, restricted stock unit, and stock appreciation right awards.

(In thousands)	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	August 2, 2008	August 4, 2007	August 2, 2008	August 4, 2007
Total stock-based compensation expense	\$ 2,116	\$ 4,836	\$ 5,014	\$ 7,760

During the Fiscal 2009 Second Quarter we granted cash-settled restricted stock units ("RSUs") under the 2003 Non-Employee Directors Compensation Plan. These cash-settled RSUs have been accounted for as liabilities in accordance with SFAS No. 123(R). Excluded from the \$2,116,000 and \$5,014,000 of compensation expense in the above table is \$481,000 of compensation expense related to these cash-settled RSUs. A liability of \$359,000 related to these RSUs is included in accrued expenses in the accompanying condensed consolidated balance sheet as of August 2, 2008. Total compensation expense for unvested cash-settled RSUs not yet recognized as of August 2, 2008 was \$1,080,000, which will be recognized over a one-year period from the date of grant.

We use the Black-Scholes valuation model to estimate the fair value of stock options and stock appreciation rights, and amortize stock-based compensation on a straight-line basis over the requisite service period of an award. Estimates or assumptions we used under the Black-Scholes model are more fully described in "Item 8. Financial Statements and Supplementary Data; Note 1. Summary of Significant Accounting Policies; Stock-based Compensation" in our February 2, 2008 Annual Report on Form 10-K.

Total stock-based compensation expense not yet recognized, related to the non-vested portion of stock options, stock appreciation rights, and awards outstanding (excluding cash-settled RSUs), was \$14,325,000 as of August 2, 2008. The weighted-average period over which we expect to recognize this compensation expense is approximately 3 years.

Note 2. Accounts Receivable

Accounts receivable consist of trade receivables from sales through our FIGI'S catalog. Details of our accounts receivable are as follows:

(In thousands)	August 2, 2008	February 2, 2008

On April 30, 2007 we issued \$250,000,000 in aggregate principal amount of 1.125% Senior Convertible Notes due May 1, 2014 (the "1.125% Notes") in a private offering for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. On May 11, 2007 the initial purchasers of the 1.125% Notes exercised their over-allotment option and purchased an additional \$25,000,000 in aggregate principal amount of the notes. The 1.125% Notes were issued at par plus accrued interest, if any, from April 30, 2007 and interest is payable semiannually in arrears on May 1 and November 1, beginning November 1, 2007. The 1.125% Notes will mature on May 1, 2014 unless earlier repurchased by us or converted.

We received combined proceeds of approximately \$268,125,000 from the issuance, net of underwriting fees of approximately \$6,875,000. The underwriting fees, as well as additional transaction costs of \$811,000 incurred in connection with the issuance of the 1.125% Notes, are included in "Other assets" on our condensed consolidated balance sheets and are being amortized to interest expense on an effective interest rate basis over the seven-year life of the notes. The issuance of the 1.125% Notes is more fully described in "Item 8. Financial Statements and Supplementary Data; Note 8. Long-term Debt" in our February 2, 2008 Annual Report on Form 10-K.

Note 4. Long-term Debt (Continued)

On April 30, 2007 we called for the June 4, 2007 redemption of our \$149,999,000 outstanding aggregate principal amount of 4.75% Senior Convertible Notes due June 2012 (the "4.75% Notes"). The holders of the 4.75% Notes had the option to convert their notes into shares of our common stock at a conversion price of \$9.88 per share until the close of business on June 1, 2007. As of June 4, 2007 the holders of \$149,956,000 principal amount of the 4.75% Notes had exercised their right to convert their notes into an aggregate of 15,145,556 shares of our common stock and the remaining notes were redeemed for \$43,000. In addition, we paid \$392,000 in lieu of fractional shares.

Note 6. Customer Loyalty Card Programs

We offer our customers various loyalty card programs. Customers that join these programs are entitled to various benefits, including discounts and rebates on purchases during the membership period. Customers join some of these programs by paying an annual membership fee. For these programs, we recognize revenue as a component of net sales over the life of the membership period based on when the customer earns the benefits and when the fee is no longer refundable. We recognize costs in connection with administering these programs as cost of goods sold when incurred. During the thirteen weeks ended August 2, 2008 we recognized revenues of \$5,276,000 and during the thirteen weeks ended August 4, 2007 we recognized revenues of \$5,309,000 in connection with our loyalty card programs. During the twenty-six weeks ended August 2, 2008 we recognized revenues of \$10,374,000 and during the twenty-six weeks ended August 4, 2007 we recognized revenues of \$11,011,000 in connection with these programs.

During Fiscal 2008 we began offering loyalty programs in connection with the issuance of our LANE BRYANT and PETITE SOPHISTICATE proprietary credit cards. Cardholders earn points for purchases using the credit card, which may be redeemed for merchandise coupons upon the accumulation of a specified number of points. We do not charge membership fees in connection with these programs. Our FASHION BUG brand also offers a similar loyalty card program that does not charge membership fees.

We accrued \$3,260,000 as of August 2, 2008 and \$2,000,000 as of February 2, 2008 for the estimated costs of discounts earned and coupons issued and not redeemed under these programs.

(1) The 4.75% Senior Convertible Notes were converted or redeemed on June 4, 2007 (see "Note 4. Long-term Debt" above).

(2) Stock options, stock appreciation rights, and awards are excluded from the computation of diluted net loss per share for the Fiscal 2009 periods as their effect would have been anti-dilutive.

Our 1.125% Notes will not impact our diluted net income per share until the price of our common stock exceeds the conversion price of \$15.379 per share because we expect to settle the principal amount of the 1.125% Notes in cash upon conversion. Our call options are not considered for purposes of the diluted net income per share calculation as their effect would be anti-dilutive. Should the price of our common stock exceed \$21.607 per share, we would include the dilutive effect of the additional potential shares that may be issued related to our warrants, using the treasury stock method. See “Note 4. Long-term Debt” above and “Item 8. Financial Statements and Supplementary Data; Note 8. Long-term Debt” in our February 2, 2008 Annual Report on Form 10-K for further information regarding our 1.125% Notes, our call options and warrants, and the conversion of our 4.75% Notes.

Note 8. Income Taxes

Our income tax benefit for the twenty-six weeks ended August 2, 2008 was \$1,645,000 on a loss from continuing operations before taxes of \$4,698,000 as compared to a provision for income taxes of \$27,925,000 on income from continuing operations before taxes of \$75,285,000 for the twenty-six weeks ended August 4, 2007. The income tax benefit for the twenty-six weeks ended August 2, 2008 was unfavorably impacted by an increase in our liability for unrecognized tax benefits, interest, and penalties in accordance with FIN No. 48, which was partially offset by the receipt of non-taxable life insurance proceeds and adjustments to certain state tax accruals.

We adopted the provisions of FIN No. 48 effective as of February 4, 2007. See “Item 8. Financial Statements and Supplementary Data; Note 7. Income Taxes” in our February 2, 2008 Annual Report on Form 10-K for further information regarding our adoption of FIN No. 48.

As of August 2, 2008 our gross unrecognized tax benefits were \$27,381,000. If recognized, the portion of the liabilities for gross unrecognized tax benefits that would decrease our provision for income taxes and increase our net income was \$19,106,000. The accrued interest and penalties as of August 2, 2008 were \$13,108,000. During the twenty-six weeks ended August 2, 2008 the gross unrecognized tax benefits increased by \$716,000 and the portion of the liabilities for gross unrecognized tax benefits that, if recognized, would decrease our provision for income taxes and increase our net income increased by \$519,000. Accrued interest and penalties increased during the twenty-six weeks ended August 2, 2008 by \$533,000.

As of August 2, 2008 it is reasonably possible that the total amount of unrecognized tax benefits will decrease within the next twelve months by as much as \$340,000 due to resolutions of audits or expirations of statutes of limitations related to U.S. Federal and state tax positions.

Our U.S. Federal income tax returns for Fiscal 2005 and beyond remain subject to examination by the U.S. Internal Revenue Service (“IRS”). The IRS is not currently examining any of our tax returns. We file returns in numerous state jurisdictions, with varying statutes of limitations. Our state tax returns for Fiscal 2004 and beyond, depending upon the jurisdiction, generally remain subject to examination. The statute of limitations on a limited number of returns for years prior to Fiscal 2004 has been extended by agreement between us and the particular state jurisdiction. The earliest year still subject to examination by state tax authorities is Fiscal 1999.

Note 9. Asset Securitization

Our FASHION BUG, LANE BRYANT, CATHERINES, PETITE SOPHISTICATE, and Crosstown Traders proprietary credit card receivables are originated by Spirit of America National Bank (the “Bank”), our wholly-owned credit card bank. The Bank transfers its interest in all the receivables, including LANE BRYANT WOMAN catalog credit card receivables but excluding other Crosstown Traders receivables, to the Charming Shoppes Master Trust (the “Trust”) through Charming Shoppes Receivables Corp. (“CSRC”), a separate and distinct special-purpose entity. The Trust is an unconsolidated qualified special-purpose entity (“QSPE”).

Through Fiscal 2007 our Crosstown Traders apparel-related catalog proprietary credit card receivables, which we securitized subsequent to our acquisition of Crosstown Traders, were originated in a non-bank program by Crosstown

Traders. Crosstown Traders transferred its interest in the receivables to Catalog Receivables LLC, a separate and distinct unconsolidated QSPE, through a separate and distinct special-purpose entity. On February 5, 2007 the Bank acquired the account relationships of the Crosstown Traders catalog proprietary credit cards and all subsequent new receivables are originations of the Bank. This acquisition did not cause a change in the securitization entities used by the Crosstown Traders proprietary credit card program.

CHARMING SHOPPES, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)  
(Unaudited)

Note 9. Asset Securitization (Continued)

The QSPEs can sell interests in these receivables on a revolving basis for a specified term. At the end of the revolving period an amortization period begins during which the QSPEs make principal payments to the parties that have entered into the securitization agreement with the QSPEs. All assets of the QSPEs (including the receivables) are isolated and support the securities issued by those entities. Our asset securitization program is more fully described in “Item 8. Financial Statements and Supplementary Data; Note 17. Asset Securitization” in our February 2, 2008 Annual Report on Form 10-K.

We securitized \$455,716,000 of private label credit card receivables during the twenty-six weeks ended August 2, 2008 and had \$584,861,000 of securitized credit card receivables outstanding as of August 2, 2008. We held certificates and retained interests in our securitizations of \$109,301,000 as of August 2, 2008, which are generally subordinated in right of payment to certificates issued by the QSPEs to third-party investors. Our obligation to repurchase receivables sold to the QSPEs is limited to those receivables that, at the time of their transfer, fail to meet the QSPE’s eligibility standards under normal representations and warranties. To date, our repurchases of receivables pursuant to this obligation have been insignificant.

CSRC, Charming Shoppes Seller, Inc., and Catalog Seller LLC, our consolidated wholly-owned indirect subsidiaries, are separate special-purpose entities (“SPEs”) created for the securitization program. As of August 2, 2008 our investment in asset-backed securities included \$51,500,000 of QSPE certificates, an I/O strip of \$23,501,000, and other retained interests of \$34,300,000. These assets are first and foremost available to satisfy the claims of the respective creditors of these separate corporate entities, including certain claims of investors in the QSPEs.

Additionally, with respect to certain Trust Certificates, if either the Trust or Charming Shoppes, Inc. does not meet certain financial performance standards, the Trust is obligated to reallocate to third-party investors holding certain certificates issued by the Trust, collections in an amount up to \$9,450,000 that otherwise would be available to CSRC. The result of this reallocation is to increase CSRC’s retained interest in the Trust by the same amount, with the third-party investor retaining an economic interest in the certificates. Subsequent to such a transfer occurring, and upon certain conditions being met, these same investors are required to repurchase these interests when the financial performance standards are again satisfied. Our net loss for the third quarter of Fiscal 2008 resulted in the requirement to reallocate collections as discussed above. Accordingly, \$9,450,000 of collections was fully transferred as of February 2, 2008. The requirement for the reallocation of these collections will cease and such investors would be required to repurchase such interests upon our announcement of a quarter with net income and the fulfillment of such conditions. With the exception of the requirement to reallocate collections of \$9,450,000 that were fully transferred as of February 2, 2008, the Trust was in compliance with its financial performance standards as of August 2, 2008, including all financial performance standards related to the performance of the underlying receivables.

In addition to the above, we could be affected by certain other events that would cause the QSPEs to hold proceeds of receivables, which would otherwise be available to be paid to us with respect to our subordinated interests, within the QSPEs as additional enhancement. For example, if we or the QSPEs do not meet certain financial performance standards, a credit enhancement condition would occur, and the QSPEs would be required to retain amounts otherwise payable to us. In addition, the failure to satisfy certain financial performance standards could further cause the QSPEs to stop using collections on QSPE assets to purchase new receivables, and would require such collections to be used to repay investors on a prescribed basis, as provided in the securitization agreements. As of August 2, 2008 we and the

QSPEs were in compliance with the applicable financial performance standards referred to in this paragraph.

CHARMING SHOPPES, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)  
(Unaudited)

Note 9. Asset Securitization (Continued)

Amounts placed into enhancement accounts, if any, that are not required for payment to other certificate holders will be available to us at the termination of the securitization series. We have no obligation to directly fund the enhancement account of the QSPEs other than for breaches of customary representations, warranties, and covenants and for customary indemnities. These representations, warranties, covenants, and indemnities do not protect the QSPEs or investors in the QSPEs against credit-related losses on the receivables. The providers of the credit enhancements and QSPE investors have no other recourse to us.

Note 10. Segment Reporting

We operate and report in two segments: Retail Stores and Direct-to-Consumer. We determine our operating segments based on the way our chief operating decision-makers review our results of operations. We consider our retail stores and store-related E-commerce as operating segments that are similar in terms of economic characteristics, production processes, and operations. Accordingly, we have aggregated our retail stores and store-related E-commerce into a single reporting segment (the "Retail Stores" segment). Our catalog and catalog-related E-commerce operations, excluding discontinued operations, are separately reported under the Direct-to-Consumer segment.

The accounting policies of the segments are generally the same as those described in "Item 8. Financial Statements and Supplementary Data; Note 1. Summary of Significant Accounting Policies" in our February 2, 2008 Annual Report on Form 10-K. Our chief operating decision-makers evaluate the performance of our operating segments based on a measure of their contribution to operations, which consists of net sales less the cost of merchandise sold and certain directly identifiable and allocable operating costs. We do not allocate certain corporate costs, such as shared service costs, information systems support costs, and insurance costs to our Retail Stores or Direct-to-Consumer segments. Operating costs for our Retail Stores segment consist primarily of store selling, buying, occupancy, and warehousing costs. Operating costs for our Direct-to-Consumer segment consist primarily of catalog development, production, and circulation costs; E-commerce advertising costs; warehousing costs; and order processing costs.

Corporate and Other includes unallocated general and administrative costs; shared services costs; insurance costs; information systems support costs; corporate depreciation and amortization; corporate occupancy costs; the results of our proprietary credit card operations; and other non-routine charges. Operating contribution for the Retail Stores and Direct-to-Consumer segments less Corporate and Other net expenses equals income before interest and taxes.

Operating segment assets are those directly used in, or allocable to, that segment's operations. Operating assets for the Retail Stores segment consist primarily of inventories; the net book value of store facilities; goodwill; and intangible assets. Operating assets for the Direct-to-Consumer segment consist primarily of trade receivables; inventories; deferred advertising costs; the net book value of catalog operating facilities; and intangible assets. Corporate and Other assets include corporate cash and cash equivalents; the net book value of corporate facilities; deferred income taxes; and other corporate long-lived assets.

Selected financial information for our operations by reportable segment (excluding discontinued operations) and a reconciliation of the information by segment to our consolidated totals is presented in the table on the following page.

Note 11. Restructuring and Other Charges

In November 2007 we announced our plan to relocate our CATHERINES operations located in Memphis, Tennessee to our corporate headquarters in Bensalem, Pennsylvania in conjunction with the consolidation of a number of our operating functions. The costs of this plan included accelerated depreciation, severance and retention, and relocation costs.

The accelerated depreciation represents the change in the estimated useful life of the Memphis facility and was recognized over the period from the inception of the plan to the closing date of the facility, which was the end of the Fiscal 2009 First Quarter. Severance and retention costs represent involuntary termination benefits for approximately 80 employees who did not relocate from the Memphis facility to our Bensalem headquarters. Relocation costs represent estimated costs to relocate approximately 30 employees from Memphis to Bensalem. The involuntary terminations and relocations were completed during the Fiscal 2009 First Quarter.

On May 21, 2008 we completed the sale of our Memphis, Tennessee distribution center. We received \$4,813,000 of cash in connection with the sale of the facility and we recognized a pre-tax gain on the sale of approximately \$1,842,000 during the thirteen weeks ended August 2, 2008.

In February 2008 we announced additional initiatives and actions to: streamline our business operations and further sharpen our focus on our core businesses; reduce selling, general, and administrative expenses and capital expenditures; improve cash flow; and enhance shareholder value. The initiatives and actions include: the elimination of approximately 150 corporate and field management positions; a decrease in the capital budget for Fiscal 2009, primarily through a significant reduction in the number of planned store openings for Fiscal 2009; the closing of approximately 150 under-performing stores; and the closing of our full-line PETITE SOPHISTICATE stores. To date, we have completed the elimination of corporate and field positions, closed 78 of the identified under-performing stores, and expect to complete the remainder of these initiatives by the end of Fiscal 2009.

We accounted for the above plans in accordance with the provisions of SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" and SFAS No. 112, "Employers' Accounting for Postemployment Benefits."

The following table summarizes the costs incurred to date and the total estimated costs to be recognized under the plans:

The following table summarizes the severance, retention, and related costs accrued in accordance with SFAS No. 146 and SFAS No. 112 and the payments/settlements for the above plans as of August 2, 2008:

Severance, retention, and related costs	\$ 2,688	\$ 391	\$ (3,026)	\$ 53

During the thirteen weeks ended August 2, 2008 we recognized \$9,328,000 of severance costs in connection with the resignation of our former Chief Executive Officer, Dorrit J. Bern, and \$5,336,000 of these costs are included in accrued expenses in the accompanying condensed consolidated balance sheet as of August 2, 2008.

## Note 12. Fair Value Measurements

In September 2006 the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 provides a single definition of fair value along with a framework for measuring it, and requires additional disclosure about using fair value to measure assets and liabilities. SFAS No. 157 emphasizes that fair value measurement is market-based, not entity-specific, and establishes a fair value hierarchy which places the highest priority on the use of quoted prices in active markets to determine fair value. It also requires, among other things, that entities are to include their own credit standing when measuring their liabilities at fair value.

In February 2008 the FASB issued FSP FAS No. 157-1, "Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13." The FSP amends SFAS No. 157 to exclude SFAS No. 13, "Accounting for Leases," and certain related accounting pronouncements that address fair value measurements for purposes of lease classification or measurement under SFAS No. 13. The scope exception of FSP FAS No. 157-1 does not apply to assets acquired or liabilities assumed in a business combination that are required to be measured at fair value under SFAS No. 141, "Business Combinations," or SFAS No. 141(R) (see "Note 13. Impact of Recent Accounting Pronouncements" below), regardless of whether those assets and liabilities are related to leases. The scope exception also does not apply to fair value measurements required by SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," or FASB Interpretation No. 21, "Accounting for Leases in a Business Combination." FSP FAS No. 157-1 is effective on the initial adoption of SFAS No. 157. In February 2008 the FASB also issued FSP FAS No. 157-2, "Effective Date of FASB Statement No. 157," which delays the effective date of SFAS 157 until fiscal years beginning after November 15, 2008 for non-financial assets and non-financial liabilities that are not currently recognized or disclosed at fair

value on a recurring basis.

Under SFAS No. 157, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, we use various methods, including discounted cash flow projections based on available market interest rates and management estimates of future cash payments.

## Note 12. Fair Value Measurements (Continued)

Financial assets and liabilities that are measured and reported at fair value are classified and disclosed in one of the following categories:

- Level 1 – Quoted market prices in active markets for identical assets or liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs that are not corroborated by market data

With the exception of assets and liabilities included within the scope of FSP FAS No. 157-2, we adopted the provisions of SFAS No. 157 prospectively effective as of the beginning of Fiscal 2009. For financial assets and liabilities included within the scope of FSP FAS No. 157-2, we will be required to adopt the provisions of SFAS No. 157 prospectively as of the beginning of Fiscal 2010. The adoption of SFAS No. 157 did not have an impact on our financial position or results of operations, and we do not believe that the adoption of FSP FAS No. 157-2 will have a material impact on our financial position or results of operations.

Our financial assets and liabilities subject to SFAS No. 157 as of August 2, 2008 were as follows:

(In thousands)	Balance August 2, 2008	Fair Value Method Used	
		Level 2	Level 3(1)
<b>Assets</b>			
Available-for-sale securities(2)	\$ 6,380	\$ 6,380	
Certificates and retained interests in securitized receivables	109,301		\$ 109,301
<b>Liabilities</b>			
Servicing liability	3,198		3,198

(1) Fair value is estimated based on internally-developed models or methodologies utilizing significant inputs that are unobservable from objective sources.

(2) Unrealized gains and losses on our available-for-sale securities are included in stockholders' equity until realized and realized gains and losses are recognized in income when the securities are sold.

We estimate the fair value of our certificates and retained interests in our securitized receivables based on the present value of future expected cash flows using assumptions for the average life of the receivables sold, anticipated credit losses, and the appropriate market discount rate commensurate with the risks involved. This cash flow includes an "interest-only" ("I/O") strip, consisting of the present value of the finance charges and late fees in excess of the amounts paid to certificate holders, credit losses, and servicing fees.

The fair value of our servicing liabilities represents the present value of the excess of our cost of servicing over the servicing fees received. We determine the fair value by calculating all costs associated with billing, collecting, maintaining, and providing customer service during the expected life of the securitized credit card receivable balances. We discount the amount of these costs in excess of the servicing fees over the estimated life of the receivables sold. The discount rate and estimated life assumptions used for the present value calculation of the servicing liability are consistent with those used to value the certificates and retained interests.

## Note 13. Impact of Recent Accounting Pronouncements

In September 2006, the FASB ratified the consensus of EITF Issue No. 06-4, “Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Agreements.” EITF Issue No. 06-4 addresses accounting for separate agreements that split life insurance policy benefits between an employer and an employee. EITF Issue No. 06-4 requires employers to recognize a liability for future benefits payable to the employee under such agreements. The effect of applying the provisions of Issue No. 06-4 should be recognized either through a change in accounting principle by a cumulative-effect adjustment to equity or through the retrospective application to all prior periods. We adopted the provisions of EITF Issue No. 06-4 effective as of the beginning of Fiscal 2009 and recognized a cumulative-effect adjustment of \$13,696,000, increasing our liabilities related to our split-dollar life insurance agreements with former executive employees and reducing the February 3, 2008 balance of retained earnings.

In February 2007 the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115,” which permits an entity to measure certain financial assets and financial liabilities at fair value. The intent of SFAS No. 159 is to reduce volatility in reported earnings caused by the measurement of related assets and liabilities using different attributes without the need for applying hedge accounting. Entities that elect the fair value option will report unrealized gains and losses in earnings as of each subsequent reporting date. Generally, the fair value option may be elected on an instrument-by-instrument basis as long as it is applied to the instrument in its entirety. Election of the fair value option is irrevocable unless a new election date occurs.

The provisions of SFAS No. 159 were effective as of the beginning of Fiscal 2009. We did not elect the fair value option for any existing or new financial assets or liabilities that were not previously accounted for at fair value; therefore, SFAS No. 159 had no impact on our financial position or results of operations.

Note 13. Impact of Recent Accounting Pronouncements (Continued)

In December 2007 the FASB issued SFAS No. 141(R), "Business Combinations," and SFAS No. 160, "Non-controlling Interests in Consolidated Financial Statements – an amendment of ARB No. 51." As compared to SFAS No. 141 and ARB No. 51, these statements change the accounting for business combinations and non-controlling interests in subsidiaries by requiring:

- The measurement of additional assets acquired and liabilities assumed at fair value as of the acquisition date;
- Re-measurement of liabilities related to contingent consideration at fair value in periods subsequent to acquisition;
  - The expensing in pre-acquisition periods of acquisition-related costs incurred by the acquirer; and
- The initial measurement of non-controlling interests in subsidiaries at fair value and classification of the interest as a separate component of equity.

We will be required to adopt the provisions of SFAS No. 141(R) and SFAS No. 160 prospectively effective as of the beginning of Fiscal 2010.

In February 2008 the FASB issued FSP FAS No. 140-3, "Accounting for Transfers of Financial Assets and Repurchase Financing Transactions." FSP FAS No. 140-3 addresses whether there are circumstances that would permit a transferor and a transferee to evaluate the accounting for the transfer of a financial asset separately from a repurchase financing when the counterparties to the two transactions are the same. The FSP presumes that the initial transfer of a financial asset and a repurchase financing are considered part of the same arrangement (a linked transaction) under SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities." However, if certain criteria specified in FSP FAS No. 140-3 are met, the initial transfer and repurchase financing may be evaluated separately under SFAS No. 140.

The provisions of FSP FAS No. 140-3 will be effective prospectively as of the beginning of Fiscal 2010. We do not expect that the adoption of FSP FAS No. 140-3 will have a material effect on our financial position or results of operations.

In March 2008 the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133." Under SFAS No. 161, entities are required to provide enhanced disclosures about: how and why an entity uses derivative instruments; how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations; and how derivative instruments and related hedged items affect an entity's financial position, results of operations, and cash flows.

We will be required to adopt the provisions of SFAS No. 161 as of the beginning of Fiscal 2010. We do not expect that the adoption of SFAS No. 161 will have a material effect on our financial position or results of operations.

Note 13. Impact of Recent Accounting Pronouncements (Continued)

In May 2008 the FASB issued FASB Staff Position (“FSP”) APB 14-1 “Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlements)” (previously FSP APB 14-a), which will change the accounting treatment for convertible securities that the issuer may settle fully or partially in cash. Under the final FSP, cash-settled convertible securities will be separated into their debt and equity components. The value assigned to the debt component will be the estimated fair value, as of the issuance date, of a similar debt instrument without the conversion feature. As a result, the debt will be recorded at a discount to adjust its below-market coupon interest rate to the market coupon interest rate for the similar debt instrument without the conversion feature. The difference between the proceeds for the convertible debt and the amount reflected as the debt component represents the value of the conversion feature and will be recorded as additional paid-in capital. The debt will subsequently be accreted to its par value over its expected life, with an offsetting increase in interest expense on the income statement to reflect the market rate for the debt component at the date of issuance.

FSP APB 14-1 is to be applied retrospectively to all past periods presented, and will apply to our 1.125% Senior Convertible Notes due May 2014. As compared to our current accounting for the 1.125% Notes, adoption of the proposal will reduce long-term debt, increase stockholders’ equity, and reduce net income and earnings per share. Adoption of the proposal will not affect our cash flows. We will be required to adopt the provisions of FSP APB 14-1 as of the beginning of Fiscal 2010. We are currently evaluating the impact of the adoption of FSP APB 14-1 on our financial statements.

Note 14. Subsequent Event

On August 25, 2008 we announced that we have entered into a definitive agreement to sell our non-core misses apparel catalogs (collectively, “Crosstown Traders”) to Orchard Brands, a portfolio company owned by Golden Gate Capital, for a cash purchase price of approximately \$35,000,000. Subject to certain customary closing conditions, we expect the transaction to close by the end of September 2008.

As part of the definitive agreement we will retain the infrastructure of Crosstown Traders and accordingly we have agreed to provide certain services to Orchard Brands, including distribution, information technology, and call center functions, for a limited transition period. Subsequent to the transition period we will be responsible for the remaining lease liabilities and disposition costs for the distribution and office facilities, including fixed assets that we expect to fully depreciate over the transition period. The estimated loss on disposition of Crosstown Traders for the six months ended August 2, 2008, which is included in the loss from discontinued operations (see “Note 1. Condensed Consolidated Financial Statements; Discontinued Operations” above), reflects the above definitive agreement. Any adjustment to the estimated loss related to the finalization of the sale of Crosstown Traders to Orchard Brands will be recorded in the Fiscal 2009 Third Quarter.

We also announced that we have entered into an agreement for the sale of the misses apparel catalog credit card receivables for approximately \$40,000,000 in cash to Alliance Data Systems Corporation. These receivables are directly related to the catalog titles being sold to Orchard Brands. We expect this transaction to close prior to the end of Fiscal 2009. We expect the sale of the catalogs and the related credit card receivables, less securitized indebtedness of approximately \$32,000,000, to result in aggregate pre-tax net cash proceeds of approximately \$40,000,000.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations should be read in conjunction with the financial statements and accompanying notes included in Item 1 of this report. It should also be read in conjunction with the management's discussion and analysis of financial condition and results of operations, financial statements, and accompanying notes appearing in our Annual Report on Form 10-K for the fiscal year ended February 2, 2008. As used in this management's discussion and analysis, "Fiscal 2009" refers to our fiscal year ending January 31, 2009 and "Fiscal 2008" refers to our fiscal year ended February 2, 2008. "Fiscal 2009 Second Quarter" refers to our fiscal quarter ended August 2, 2008 and "Fiscal 2008 Second Quarter" refers to our fiscal quarter ended August 4, 2007. "Fiscal 2009 First Quarter" refers to our fiscal quarter ended May 3, 2008, "Fiscal 2009 Third Quarter" refers to our fiscal quarter ending November 1, 2008, and "Fiscal 2008 Fourth Quarter" refers to our fiscal quarter ended February 2, 2008. The terms "Charming Shoppes, Inc.," "the Company," "we," "us," and "our" refer to Charming Shoppes, Inc. and consolidated subsidiaries except where the context otherwise requires or as otherwise indicated.

### FORWARD-LOOKING STATEMENTS

With the exception of historical information, the matters contained in the following analysis and elsewhere in this report are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995.

Such statements may include, but are not limited to, projections of revenues, income or loss, cost reductions, capital expenditures, liquidity, financing needs or plans, and plans for future operations, as well as assumptions relating to the foregoing. The words "expect," "could," "should," "project," "estimate," "predict," "anticipate," "plan," "intend," "believes" expressions are also intended to identify forward-looking statements.

We operate in a rapidly changing and competitive environment. New risk factors emerge from time to time and it is not possible for us to predict all risk factors that may affect us. Forward-looking statements are inherently subject to risks and uncertainties, some of which we cannot predict or quantify. Future events and actual results, performance, and achievements could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements, which speak only as of the date on which they were made. We assume no obligation to update or revise any forward-looking statement to reflect actual results or changes in, or additions to, the factors affecting such forward-looking statements. Given those risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

Factors that could cause our actual results of operations or financial condition to differ from those described in this report include, but are not necessarily limited to, the following, which are discussed in more detail in "PART I; Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended February 2, 2008 and in "PART II. OTHER INFORMATION; Item 1A. Risk Factors" below:

- Our business is dependent upon our ability to accurately predict rapidly changing fashion trends, customer preferences, and other fashion-related factors, which we may not be able to successfully accomplish in the future.
- Our business plan is largely dependent upon continued growth in the plus-size women's apparel market, which may not occur.
- A continuing slowdown in the United States economy, an uncertain economic outlook, and escalating energy and food costs could lead to reduced consumer demand for our products in the future.
- The women's specialty retail apparel and direct-to-consumer markets are highly competitive and we may be unable to compete successfully against existing or future competitors.

- We cannot assure the successful consummation of our expected sale of our non-core misses apparel catalog titles.

- We cannot assure the successful implementation of our business plan for our LANE BRYANT WOMAN catalog or the realization of our anticipated benefits from our re-launch of the LANE BRYANT credit card program.
- We cannot assure the successful implementation of our business plan for increased profitability and growth in our Retail Stores or Direct-to-Consumer segments. Recent changes in management may result in a failure to achieve improvement in our operating results.
- We cannot assure the successful implementation of our planned cost reduction and capital budget reduction plans; the effective implementation of our plans for consolidation of our CATHERINES brand, a new organizational structure; and enhancements in our merchandise and marketing; and we cannot assure the realization of our anticipated annualized expense savings from restructuring programs announced in February 2008.
- Our success and our ability to execute our business strategy depend largely on the efforts and abilities of our executive officers and their management teams. We also must motivate employees to remain focused on our strategies and goals, particularly during a period of changing leadership for the Company and a number of our operating divisions. The inability to find a suitable permanent replacement for our former Chief Executive Officer within a reasonable time period, as well as management personnel to replace departing executives, could have a material adverse effect on our business. We do not maintain key-person life insurance policies with respect to any of our employees.
- We depend on our distribution and fulfillment centers and third-party freight consolidators and service providers, and could incur significantly higher costs and longer lead times associated with distributing our products to our stores and shipping our products to our E-commerce and catalog customers if operations at any one of these locations were to be disrupted for any reason.
- We depend on the availability of credit for our working capital needs, including credit we receive from our suppliers and their agents, and on our credit card securitization facilities. If we were unable to obtain sufficient financing at an affordable cost, our ability to merchandise our stores, E-commerce, or catalog businesses would be adversely affected.
- Natural disasters, as well as war, acts of terrorism, or other armed conflict, or the threat of any such event may negatively impact availability of merchandise and customer traffic to our stores, or otherwise adversely affect our business.
- We rely significantly on foreign sources of production and face a variety of risks generally associated with doing business in foreign markets and importing merchandise from abroad. Such risks include (but are not necessarily limited to) political instability; imposition of, or changes in, duties or quotas; trade restrictions; increased security requirements applicable to imports; delays in shipping; increased costs of transportation; and issues relating to compliance with domestic or international labor standards.
- Our Retail Stores and Direct-to-Consumer segments experience seasonal fluctuations in net sales and operating income. Any decrease in sales or margins during our peak sales periods, or in the availability of working capital during the months preceding such periods, could have a material adverse effect on our business. In addition, extreme or unseasonable weather conditions may have a negative impact on our sales.
- We may be unable to obtain adequate insurance for our operations at a reasonable cost.
- We may be unable to protect our trademarks and other intellectual property rights, which are important to our success and our competitive position.

- We may be unable to hire and retain a sufficient number of suitable sales associates at our stores. In addition, we are subject to the Fair Labor Standards Act and various state and Federal laws and regulations governing such matters as minimum wages, exempt status classification, overtime, and employee benefits. Changes in Federal or state laws or regulations regarding minimum wages or other employee benefits could cause us to incur additional wage and benefit costs, which could adversely affect our results of operations.

- Our manufacturers may be unable to manufacture and deliver merchandise to us in a timely manner or to meet our quality standards.
- Our Retail Stores segment sales are dependent upon a high volume of traffic in the strip centers and malls in which our stores are located, and our future retail store growth is dependent upon the availability of suitable locations for new stores.
- Inadequate systems capacity, a disruption or slowdown in telecommunications services, changes in technology, changes in government regulations, systems issues, security breaches, a failure to integrate order management systems, or customer privacy issues could result in reduced sales or increases in operating expenses as a result of our efforts or our inability to remedy such issues.
- Successful operation of our E-commerce websites and our catalog business is dependent on our ability to maintain efficient and uninterrupted customer service and fulfillment operations.
- We may be unable to manage significant increases in certain costs vital to catalog operations, including postage, paper, and acquisition of prospects, which could adversely affect our results of operations.
- Response rates to our catalogs and access to new customers could decline, which would adversely affect our net sales and results of operations.
- We may be unable to successfully implement our plan to improve merchandise assortments in our Retail Stores or Direct-to-Consumer segments.
- We make certain significant assumptions, estimates, and projections related to the useful lives of our property, plant, and equipment and the valuation of goodwill and other intangible assets related to acquisitions. The carrying amount and/or useful life of these assets are subject to periodic and/or annual valuation tests for impairment. Impairment results when the carrying value of an asset exceeds the undiscounted (or for goodwill and indefinite-lived intangible assets the discounted) future cash flows associated with the asset. If actual experience were to differ materially from the assumptions, estimates, and projections used to determine useful lives or the valuation of property, plant, equipment, or intangible assets, a write-down for impairment of the carrying value of the assets, or acceleration of depreciation or amortization of the assets, could result. Such a write-down or acceleration of depreciation or amortization could have an adverse impact on our reported results of operations.
- Changes to existing accounting rules or the adoption of new rules could have an adverse impact on our reported results of operations.
- Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, we are required to include our assessment of the effectiveness of our internal control over financial reporting in our annual reports. Our independent registered public accounting firm is also required to report on whether or not they believe that we maintained, in all material respects, effective internal control over financial reporting. If we are unable to maintain effective internal control over financial reporting we could be subject to regulatory sanctions and a possible loss of public confidence in the reliability of our financial reporting. Such a failure could result in our inability to provide timely and/or reliable financial information and could adversely affect our business.
- The holders of our 1.125% Senior Convertible Notes due May 1, 2014 (the “1.125% Notes”) could require us to repurchase the principal amount of the notes for cash before maturity of the notes under certain circumstances. Such a repurchase would require significant amounts of cash and could adversely affect our financial condition.

## CRITICAL ACCOUNTING POLICIES

We have prepared the financial statements and accompanying notes included in Item 1 of this report in conformity with United States generally accepted accounting principles. This requires us to make estimates and assumptions that affect the amounts reported in our financial statements and accompanying notes. These estimates and assumptions are based on historical experience, analysis of current trends, and various other factors that we believe to be reasonable under the circumstances. Actual results could differ from those estimates under different assumptions or conditions.

We periodically reevaluate our accounting policies, assumptions, and estimates and make adjustments when facts and circumstances warrant. Historically, actual results have not differed materially from those determined using required estimates. Our critical accounting policies are discussed in the management's discussion and analysis of financial condition and results of operations and notes accompanying the consolidated financial statements that appear in our Annual Report on Form 10-K for the fiscal year ended February 2, 2008.

Except as disclosed in the financial statements and accompanying notes included in Item 1 of this report, there were no material changes in, or additions to, our critical accounting policies or in the assumptions or estimates we used to prepare the financial information appearing in this report.

## RECENT DEVELOPMENTS

On July 9, 2008 we announced that Dorrit J. Bern tendered her resignation as President, Chief Executive Officer and a Director of the Company. Our Board of Directors appointed Alan Rosskamm, our Chairman of the Board and a member of our Board of Directors since 1992, to serve as our Interim Chief Executive Officer effective as of July 10, 2008 while a search is conducted for Ms. Bern's successor. Mr. Rosskamm previously served as Chief Executive Officer and Chairman of the Board of Directors of Jo-Ann Stores, Inc., and continues as a member of Jo-Ann's Board of Directors. Mr. Rosskamm has also advised a number of start-up ventures, including retailer PetSense, Inc. Our Board of Directors has formed a special committee to undertake an immediate search for a permanent Chief Executive Officer.

We also announced that Brian P. Woolf, the former Chairman and Chief Executive Officer of Caché, Inc., has been appointed President of the LANE BRYANT brand. Mr. Woolf has served in various retail-industry management and merchandising positions over the past three decades. Before joining Caché, he held senior merchandising positions at a number of well-known retailers, including Limited Stores, Marshall's, Lazarus, Bloomingdale's and Macy's. We are continuing our search for presidents for our FASHION BUG and CATHERINES brands.

In support of our strategy to provide a greater focus on our core brands, we announced on August 25, 2008 that we have entered into a definitive agreement to sell our non-core misses apparel catalogs (collectively, "Crosstown Traders") to Orchard Brands, a portfolio company owned by Golden Gate Capital, for a cash purchase price of approximately \$35.0 million. The transaction includes the following catalog titles and their associated E-commerce sites: Old Pueblo Traders®, Bedford Fair®, Willow Ridge®, Lew Magram®, Brownstone Studio®, Intimate Appeal®, Monterey Bay Clothing Company®, and Coward® Shoe. The Crosstown Traders headquarters are expected to remain in Tucson, Arizona. Subject to certain customary closing conditions, we expect the transaction to close by the end of September 2008.

As part of the definitive agreement we will retain the infrastructure of Crosstown Traders and accordingly we have agreed to provide certain services to Orchard Brands, including distribution, information technology, and call center functions, for a limited transition period. Subsequent to the transition period we will be responsible for the remaining lease liabilities and disposition costs for the distribution and office facilities, including fixed assets that we expect to fully depreciate over the transition period. The estimated loss on disposition of Crosstown Traders for the six months ended August 2, 2008, which is included in the loss from discontinued operations (see “Note 1. Condensed Consolidated Financial Statements; Discontinued Operations” above), reflects the above definitive agreement. We will adjust the estimated loss in the Fiscal 2009 Third Quarter for the finalization of the sale of Crosstown Traders to Orchard Brands.

We also announced that we have entered into an agreement for the sale of the misses apparel catalog credit card receivables for approximately \$40.0 million in cash to Alliance Data Systems Corporation. These receivables are directly related to the catalog titles being sold to Orchard Brands. We expect this transaction to close prior to the end of Fiscal 2009. We expect the sale of the catalogs and the related credit card receivables, less securitized indebtedness of approximately \$32.0 million, to result in aggregate pre-tax net cash proceeds of approximately \$40.0 million.

Additionally, we announced that we will initiate a process to explore the sale of our Figi’s® Gifts in Good Taste catalog business, based in Wisconsin. Our decision to explore the sale of Figi’s is based on our strategic direction and is not a reflection of the performance of Figi’s, which continues to perform profitably and generate positive cash flows. We will only enter into a transaction that we deem favorable. We can provide no assurance that this process will result in any specific course of action or transaction, and we do not intend to comment further on this evaluation until final determinations have been made.

## OVERVIEW

This overview of our Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) presents a high-level summary of more detailed information contained elsewhere in this Report on Form 10-Q. The intent of this overview is to put this detailed information into perspective and to introduce the discussion and analysis contained in this MD&A. Accordingly, this overview should be read in conjunction with the remainder of this MD&A and with the financial statements and other detailed information included in this Report on Form 10-Q and should not be separately relied upon.

During the Fiscal 2009 Second Quarter we continued to experience the downward traffic trends in our stores that we experienced during the latter half of Fiscal 2008 and the Fiscal 2009 First Quarter. We believe these negative trends are influenced by a challenging retail and economic environment, resulting in a reduced demand for core seasonal and casual merchandise offerings as consumers have become more selective with their purchases. The reduced demand in our core seasonal and casual merchandise offerings more than offset continued favorable responses to our other merchandise offerings, such as intimate apparel and our Right Fit pant programs. Our comparable store sales were 10% lower for the Fiscal 2009 Second Quarter and 11% lower for the first half of Fiscal 2009.

As a result of increased markdowns during the Fiscal 2009 Second Quarter to help stimulate sales, our merchandise margins for the Fiscal 2009 Second Quarter declined as compared to the Fiscal 2008 Second Quarter and were relatively flat for the first half of Fiscal 2009 as compared to the first half of Fiscal 2008. However, we were able to manage the level of markdowns as a result of our focus on inventory levels, which were down 6% on a comparable store basis.

Given the continuing uncertain economic climate, we anticipate continued weak traffic trends for the Fiscal 2009 Third Quarter. We will continue to work diligently to mitigate our same store sales decreases and continue to address

our merchandise offerings in order to meet our customers' needs.

Excluding the impact of restructuring charges and severance costs under the terms of Dorrit J. Bern's employment contract related to her resignation (see "RECENT DEVELOPMENTS" above), we continued to reduce our expenses during the Fiscal 2009 Second Quarter. Although our expenses increased as a percentage of sales as a result of negative leverage from the decrease in comparable store sales, we were able to reduce expense dollars as compared to the Fiscal 2008 Second Quarter.

We expect to continue to benefit from our previously announced expense control initiatives during the remainder of the year. These initiatives include: the relocation of our CATHERINES operations from Memphis, Tennessee to our corporate headquarters in Bensalem, Pennsylvania, which we completed during March 2008; the elimination of 150 corporate and field management positions, which we completed during the Fiscal 2009 First Quarter; and the closing of our full-line PETITE SOPHISTICATE stores, which we expect to complete during the latter half of Fiscal 2009. We anticipate that these initiatives will result in additional pre-tax expense savings, primarily in payroll and occupancy costs, during the remainder of the year.

We also continued to implement our initiative to close approximately 150 under-performing stores, which will result in the elimination of losses from the under-performing stores upon closing. During the first half of Fiscal 2009 we closed 78 under-performing stores and expect to complete the remaining store closures during the remainder of Fiscal 2009.

During the Fiscal 2009 First Quarter we announced that we were exploring a broad range of operating and strategic alternatives that are expected to result in the sale of our non-core misses apparel catalog titles. Accordingly, we classified the results of the non-core misses apparel catalog titles within our Direct-to-Consumer segment as a discontinued operation. Our Direct-to-Consumer segment results, excluding these discontinued operations, include primarily our LANE BRYANT WOMAN and FIGI'S catalogs and related websites. On August 25, 2008 we announced that we have entered into a definitive agreement to sell our non-core misses apparel catalogs (see "RECENT DEVELOPMENTS" above).

While we are committed to executing our long-term growth strategy as a multi-brand, multi-channel retailer, we are continuing to take a conservative operating approach given the continuing uncertain economic climate and our expectations for continuing weak traffic trends. We expect the difficult retail apparel environment to continue and, in response, we will continue to maintain lean inventories and carefully control operating expenses in an effort to generate positive free cash flow.

Our balance sheet remains strong, with ample liquidity through our \$137.7 million of cash and available-for-sale securities (an increase of \$63.0 million from the end of Fiscal 2008) and our committed \$375.0 million revolving credit facility, which had no outstanding borrowings at the end of the Fiscal 2009 Second Quarter.

The following discussion of our results of operations and liquidity and capital resources is based on our continuing operations, and excludes the impact of our discontinued operations (see “Note 1. Condensed Consolidated Financial Statements; Discontinued Operations” above).

## RESULTS OF OPERATIONS

The following table shows our results of operations expressed as a percentage of net sales and on a comparative basis:

(1) "Comparable store sales" is not a measure that has been defined under generally accepted accounting principles. The method of calculating comparable store sales varies across the retail industry and, therefore, our calculation of comparable store sales is not necessarily comparable to similarly-titled measures reported by other companies. We define comparable store sales as sales from stores operating in both the current and prior-year periods. New stores are added to the comparable store sales base 13 months after their open date. Sales from stores that are relocated within the same mall or strip-center, remodeled, or have a legal square footage change of less than 20% are included in the calculation of comparable store sales. Sales from stores that are relocated outside the existing mall or strip-center, or have a legal square footage change of 20% or more, are excluded from the calculation of comparable store sales until 13 months after the relocated store is opened. Stores that are temporarily closed for a period of 4 weeks or more are excluded from the calculation of comparable store sales for the applicable periods in the year of closure and the subsequent year. Non-store sales, such as catalog and internet sales, are excluded from the calculation of comparable store sales.

Comparison of Thirteen Weeks Ended August 2, 2008 and August 4, 2007

Net Sales

Consolidated Net Sales

The decrease in consolidated net sales in the Fiscal 2009 Second Quarter as compared to the Fiscal 2008 Second Quarter was primarily a result of decreases in net sales from each of the brands in our Retail Stores segment driven by negative comparable store sales and the closing of 78 under-performing stores during the first half of fiscal 2009 as part of our previously announced initiatives (see "OVERVIEW" above). These decreases were partially offset by net sales from our new LANE BRYANT WOMAN catalog, launched during the latter half of Fiscal 2008, which is included in our Direct-to-Consumer segment.

Retail Stores Segment Net Sales

Comparable store sales for the Fiscal 2009 Second Quarter decreased at each of our Retail Stores brands as compared to the Fiscal 2008 Second Quarter. Net sales for all of our brands continued to be negatively impacted by reduced traffic levels and weak consumer spending that we experienced during the latter half of Fiscal 2008 and the Fiscal 2009 First Quarter as well as the closing of the under-performing stores. The average number of transactions per store decreased for each of our brands, while the average dollar sale per transaction increased for our outlet stores, were flat for LANE BRYANT and FASHION BUG stores, and decreased for our CATHERINES stores. We operated 2,359 stores as of August 2, 2008 as compared to 2,411 stores as of August 4, 2007.

We offer various loyalty card programs to our Retail Stores segment customers (see "Notes to Condensed Consolidated Financial Statements; Note 6. Customer Loyalty Card Programs" above). During each of the Fiscal 2009 Second Quarter and Fiscal 2008 Second Quarter we recognized revenues of \$5.3 million in connection with our loyalty card programs. As of November 2007 we began offering a loyalty program in connection with the issuance of our new LANE BRYANT proprietary credit card. Cardholders earn points for purchases using the credit card, which may be redeemed for merchandise coupons upon the accumulation of a specified number of points. No membership fees are charged in connection with this program.

Direct-to-Consumer Segment Net Sales

The increase in net sales from our Direct-to-Consumer segment was primarily attributable to sales from our LANE BRYANT WOMAN catalog and website, launched in the latter half of Fiscal 2008, and an increase in sales from our FIGI'S catalog.

Cost of Goods Sold, Buying, Catalog, and Occupancy

Consolidated Cost of Goods Sold, Buying, Catalog, and Occupancy

Consolidated cost of goods sold, buying, catalog, and occupancy expenses increased as a percentage of consolidated net sales in the Fiscal 2009 Second Quarter as compared to the Fiscal 2008 Second Quarter primarily as a result of negative leverage on buying and occupancy expenses from the decrease in comparable store sales and an increase in catalog advertising expenses. However, total consolidated cost of goods sold, buying, and occupancy expenses decreased in dollar amount as compared to the prior-year period as a result of our expense reduction initiatives, including the closing of the under-performing stores, which are discussed in the "OVERVIEW" above. Consolidated cost of goods sold increased 1.3% as a percentage of consolidated net sales as a result of increased promotional activity during the current-year period to drive traffic and liquidate seasonal merchandise. Consolidated buying,

catalog, and occupancy expenses increased 1.9% as a percentage of consolidated net sales.

Although consolidated buying and occupancy expenses increased as a percentage of sales, they decreased in dollar amount primarily as a result of the closing of under-performing stores during the first half of Fiscal 2009 and our expense reduction initiatives as discussed in the "OVERVIEW" above, as well as other store-related occupancy savings. Consolidated occupancy expenses for the Fiscal 2009 Second Quarter include a gain on the sale of our Memphis, Tennessee distribution center of approximately \$1.8 million. Catalog advertising expenses increased in the Fiscal 2009 Second Quarter as compared to the prior-year period as a result of the start-up of our LANE BRYANT WOMAN catalog launched in the latter half of Fiscal 2008.

Cost of goods sold includes merchandise costs net of discounts and allowances; freight; inventory shrinkage; shipping and handling costs associated with our Direct-to-Consumer and E-commerce businesses; and amortization of direct-response advertising costs for our Direct-to-Consumer business. Net merchandise costs and freight are capitalized as inventory costs. Cost of goods sold for our Direct-to-Consumer segment includes catalog advertising and fulfillment costs, which are significant expenses for catalog operations, and are therefore generally higher as a percentage of net sales than cost of goods sold for our Retail Stores segment. Conversely, the Direct-to-Consumer segment incurs lower levels of buying and occupancy costs.

Buying expenses include payroll, payroll-related costs, and operating expenses for our buying departments, warehouses, and fulfillment centers. Occupancy expenses include rent; real estate taxes; insurance; common area maintenance; utilities; maintenance; and depreciation for our stores, warehouse and fulfillment center facilities, and equipment. Buying, catalog, and occupancy costs are treated as period costs and are not capitalized as part of inventory.

#### Retail Stores Segment Cost of Goods Sold, Buying, and Occupancy

For our Retail Stores segment, cost of goods sold, buying, and occupancy expenses as a percentage of net sales were 3.3% higher in the Fiscal 2009 Second Quarter as compared to the Fiscal 2008 Second Quarter. The merchandise margin in our Retail Stores segment decreased in the current-year period as compared to the prior-year period as a result of the increase in promotional markdowns. Although buying and occupancy expenses for our Retail Stores segment were 1.5% higher as a percentage of net sales, primarily as a result of negative leverage from the decrease in comparable store sales, expense dollars decreased as a result of the closing of the under-performing stores and expense reduction initiatives discussed above,

#### Direct-to-Consumer Segment Cost of Goods Sold, Buying, Catalog, and Occupancy

The 20.2% increase in cost of goods sold, buying, catalog, and occupancy expenses as a percentage of net sales for our Direct-to-Consumer segment resulted primarily from higher-than-normal catalog advertising expenses incurred in connection with the start-up of our LANE BRYANT WOMAN catalog which was launched in the latter half of Fiscal 2008.

#### Selling, General, and Administrative

##### Consolidated Selling, General, and Administrative

Consolidated selling, general, and administrative expenses for the Fiscal 2009 Second Quarter decreased in dollar amount from the prior-year period and were unchanged as a percentage of consolidated net sales. The decrease in expense dollars from the prior-year period was primarily attributable to our expense reduction initiatives discussed above. During the Fiscal 2009 Second Quarter we recognized \$2.1 million of expenses in connection with advisory and legal fees relating to a proxy contest which was settled in May 2008.

#### Retail Stores Segment Selling, General, and Administrative

Selling, general, and administrative expenses for the Retail Stores segment as a percentage of net sales increased 1.3% for FASHION BUG, 2.4% for CATHERINES, and 0.1% for LANE BRYANT. Although selling, general and administrative expenses increased as a percentage of net sales, primarily as a result of the lack of leverage on selling expenses from the decrease in comparable store sales, they decreased in dollar amount at each of our brands. The decrease in expense dollars from the prior-year period was primarily a result of the closing of the under-performing stores and expense reduction initiatives discussed above.

#### Direct-to-Consumer Segment Selling, General, and Administrative

Selling, general, and administrative expenses as a percentage of net sales decreased 42.0% for our Direct-to-Consumer segment, primarily as a result of new sales from our LANE BRYANT WOMAN catalog and related E-commerce website, which began operations during the latter half of Fiscal 2008.

#### Restructuring and Other Charges

In November 2007 we announced our plan to relocate our CATHERINES operations located in Memphis, Tennessee to our corporate headquarters in Bensalem, Pennsylvania in conjunction with the consolidation of a number of our operating functions and in February 2008 we announced additional cost-saving and streamlining initiatives as discussed in the "OVERVIEW" above. During the Fiscal 2009 Second Quarter we recognized pre-tax charges of approximately \$5.3 million for lease termination and relocation costs related to these programs and approximately \$0.3 million of non-cash pre-tax charges for write-downs of assets related to under-performing stores we expect to close. We anticipate that the execution of the new organizational structure and cost-saving initiatives will result in approximately \$28 million of annualized expense savings, primarily in the areas of non-store payroll, elimination of losses from under-performing stores, and occupancy costs.

During the Fiscal 2009 Second Quarter we recognized \$9.3 million of severance costs in connection with the resignation of our former Chief Executive Officer, Dorrit J. Bern, in July 2008 (see "RECENT DEVELOPMENTS" above).

#### Income Tax Provision

Our income tax benefit for the Fiscal 2009 Second Quarter was \$2.9 million on a loss from continuing operations before taxes of \$6.6 million as compared to a tax provision of \$13.0 million on income from continuing operations before taxes of \$33.9 million for the Fiscal 2008 Second Quarter. The Fiscal 2009 Second Quarter income tax benefit was favorably impacted by the receipt of non-taxable life insurance proceeds and adjustments to certain state tax accruals, partially offset by an unfavorable increase in our liability for unrecognized tax benefits, interest, and penalties in accordance with FIN No. 48. We adopted the provisions of FASB Interpretation No. 48 as of the beginning of Fiscal 2008.

#### Discontinued Operations

Discontinued operations consist of the results of operations of the non-core misses catalog titles operated under our Crosstown Traders brand (see "Notes to Condensed Consolidated Financial Statements; Note 1. Condensed Consolidated Financial Statements; Discontinued Operations" above).

Comparison of Twenty-six Weeks Ended August 2, 2008 and August 4, 2007

Net Sales

Consolidated Net Sales

The decrease in consolidated net sales in the first half of Fiscal 2009 as compared to the first half of Fiscal 2008 was primarily a result of decreases in net sales from each of the brands in our Retail Stores segment driven by negative comparable store sales and the closing of 78 under-performing stores during the first half of Fiscal 2009 as part of our previously announced initiatives (see "OVERVIEW" above). These decreases were partially offset by net sales from our new LANE BRYANT WOMAN catalog, launched during the latter half of Fiscal 2008, which is included in our Direct-to-Consumer segment.

Retail Stores Segment Net Sales

Comparable store sales for the first half of Fiscal 2009 decreased at each of our Retail Stores brands as compared to the first half of Fiscal 2008. Net sales for all of our brands continued to be negatively impacted by reduced traffic levels and weak consumer spending that we experienced during the latter half of Fiscal 2008, as well as the closing of the under-performing stores. The average number of transactions per store decreased for each of our brands, while the average dollar sale per transaction increased for our outlet stores, were flat for LANE BRYANT and FASHION BUG stores, and decreased for our CATHERINES stores.

During the first half of Fiscal 2009 we recognized revenues of \$10.4 million in connection with our loyalty card programs as compared to revenues of \$11.0 million during the first half of Fiscal 2008.

Direct-to-Consumer Segment Net Sales

The increase in net sales from our Direct-to-Consumer segment was primarily attributable to sales from our LANE BRYANT WOMAN catalog and website launched in the latter half of Fiscal 2008 and an increase in sales from our FIGI'S catalog.

Cost of Goods Sold, Buying, Catalog, and Occupancy

Consolidated Cost of Goods Sold, Buying, Catalog, and Occupancy

Consolidated cost of goods sold, buying, catalog, and occupancy expenses increased 2.5% as a percentage of consolidated net sales in the first half of Fiscal 2009 as compared to the first half of Fiscal 2008. The increase resulted primarily from negative leverage on buying and occupancy expenses from the decrease in comparable store sales and an increase in catalog advertising expenses. However, total consolidated cost of goods sold, buying, catalog, and occupancy expense decreased in dollar amount as compared to the prior-year period as a result of our expense reduction initiatives, including the closing of the under-performing stores, which are discussed in the "OVERVIEW" above. Consolidated cost of goods sold as a percentage of consolidated net sales was comparable to the prior-year period. Consolidated buying, catalog, and occupancy expenses increased 2.5% as a percentage of consolidated net sales primarily as a result of negative leverage from the decrease in comparable store sales.

Although consolidated buying and occupancy expenses increased as a percentage of sales, they decreased in dollar amount primarily as a result of the closing of under-performing stores during the first half of Fiscal 2009 and our expense reduction initiatives, as well as other store-related occupancy savings, as discussed in the quarterly comparisons above. Consolidated occupancy expenses for the first half of Fiscal 2009 include a gain on the sale of

our Memphis, Tennessee distribution center of approximately \$1.8 million. Catalog advertising expenses increased as compared to the prior-year period as a result of the start-up of our LANE BRYANT WOMAN catalog launched in the latter half of Fiscal 2008.

Cost of goods sold includes merchandise costs net of discounts and allowances; freight; inventory shrinkage; shipping and handling costs associated with our Direct-to-Consumer and E-commerce businesses; and amortization of direct-response advertising costs for our Direct-to-Consumer business. Net merchandise costs and freight are capitalized as inventory costs. Cost of goods sold for our Direct-to-Consumer segment includes catalog advertising and fulfillment costs, which are significant expenses for catalog operations, and are therefore generally higher as a percentage of net sales than cost of goods sold for our Retail Stores segment. Conversely, the Direct-to-Consumer segment incurs lower levels of buying and occupancy costs.

Buying expenses include payroll, payroll-related costs, and operating expenses for our buying departments, warehouses, and fulfillment centers. Occupancy expenses include rent; real estate taxes; insurance; common area maintenance; utilities; maintenance; and depreciation for our stores, warehouse and fulfillment center facilities, and equipment. Buying, catalog, and occupancy costs are treated as period costs and are not capitalized as part of inventory.

#### Retail Stores Segment Cost of Goods Sold, Buying, and Occupancy

For our Retail Stores segment, cost of goods sold, buying, and occupancy expenses increased 2.5% as a percentage of net sales in the first half of Fiscal 2009 as compared to the first half of Fiscal 2008. The merchandise margin in our Retail Stores segment declined in the first half of Fiscal 2009 as compared to the first half of Fiscal 2008 primarily as a result of increased promotional activity during the current-year period to drive traffic and liquidate seasonal merchandise. Although buying and occupancy expenses were 1.8% higher as a percentage of net sales in the current-year period as compared to the prior-year period, primarily as a result of negative leverage from the decrease in comparable store sales, expense dollars decreased as a result of the closing of the under-performing stores and our expense reduction initiatives.

#### Direct-to-Consumer Segment Cost of Goods Sold, Buying, Catalog, and Occupancy

The 24.3% increase in cost of goods sold, buying, catalog, and occupancy expenses as a percentage of net sales for our Direct-to-Consumer segment resulted primarily from higher-than-normal catalog advertising expenses incurred in connection with the start-up of our LANE BRYANT WOMAN catalog which was launched the latter half of Fiscal 2008.

#### Selling, General, and Administrative

##### Consolidated Selling, General, and Administrative

Although consolidated selling, general, and administrative expenses increased 1.7% as a percentage of consolidated net sales, primarily as a result of negative leverage on selling costs from the decrease in consolidated net sales, they decreased in dollar amount from the prior-year period. The decrease in expense dollars was primarily attributable to our expense reduction initiatives. During the first half of Fiscal 2009 we recognized \$5.9 million of expenses in connection with advisory and legal fees relating to a proxy contest which was settled in May 2008.

##### Retail Stores Segment Selling, General, and Administrative

Selling, general, and administrative expenses for the Retail Stores segment as a percentage of net sales increased 2.1% for FASHION BUG, 2.9% for CATHERINES, and 0.9% for LANE BRYANT. Although selling, general and administrative expenses increased as a percentage of net sales, primarily reflecting the lack of leverage on selling expenses at each of the brands as a result of the decrease in comparable store sales, they decreased in dollar amount from the prior-year period at each of our brands. The decrease in expense dollars from the prior-year period was

primarily a result of the closing of the under-performing stores and expense reduction initiatives discussed above.

### Direct-to-Consumer Segment Selling, General, and Administrative

Selling, general, and administrative expenses as a percentage of net sales decreased 25.1% for our Direct-to-Consumer segment, primarily as a result of new sales from our LANE BRYANT WOMAN catalog and related E-commerce website, which began operations during the latter half of Fiscal 2008.

### Restructuring and Other Charges

As discussed in the overview and quarterly analysis above, we relocated our CATHERINES operations in conjunction with the consolidation of a number of our operating functions and began to implement additional cost-saving and streamlining initiatives announced in February 2008. During the first half of Fiscal 2009 we recognized pre-tax charges of approximately \$7.0 million for lease termination, severance, retention, and relocation costs. In addition, we recognized approximately \$2.2 million of non-cash pre-tax charges for write-downs of assets related to under-performing stores we expect to close and accelerated depreciation related to the closing of our Memphis facility.

During the first half of Fiscal 2009 we recognized \$9.3 million of severance costs in connection with the resignation of our former Chief Executive Officer, Dorrit J. Bern, in July 2008 (see "RECENT DEVELOPMENTS" above).

### Income Tax Provision

Our income tax benefit for the first half of Fiscal 2009 was \$1.6 million on a loss from continuing operations before taxes of \$4.7 million as compared to a tax provision of \$27.9 million on income from continuing operations before taxes of \$75.3 million for the first half of Fiscal 2008. The unfavorable impact of the increase in our liability for unrecognized tax benefits, interest, and penalties in accordance with FIN No. 48 was partially offset by the receipt of non-taxable life insurance proceeds and adjustments to certain state tax accruals. We adopted the provisions of FASB Interpretation No. 48 as of the beginning of Fiscal 2008.

### Discontinued Operations

Discontinued operations consist of the results of operations of the non-core misses catalog titles operated under our Crosstown Traders brand (see "Notes to Condensed Consolidated Financial Statements; Note 1. Condensed Consolidated Financial Statements; Discontinued Operations" above). Discontinued operations for the first half of Fiscal 2009 include an estimated after-tax loss from the planned disposal of the discontinued operations of \$26.9 million.

## LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of working capital are cash flow from operations, our proprietary credit card receivables securitization agreements, our investment portfolio, and our revolving credit facility. The following table highlights certain information related to our liquidity and capital resources:

(Dollars in millions)	August 2, 2008	February 2, 2008
Cash and cash equivalents	\$ 131.3	\$ 61.3
Available-for-sale securities	\$ 6.4	\$ 13.4
Working capital	\$ 466.3	\$ 495.3

Current ratio	2.2	2.4
Long-term debt to equity ratio	46.1%	41.9%

Our net cash provided by operating activities decreased to \$111.5 million for the first half of Fiscal 2009 from \$158.1 million for the first half of Fiscal 2008, primarily as a result of a \$50.4 million decrease in income from continuing operations. Our net investment in inventories decreased \$21.9 million in the current-year period as compared to the prior-year period as a result of our continued efforts to reduce inventory levels. On a same-store basis, inventories decreased 6% as of August 2, 2008 as compared to August 4, 2007.

#### Capital Expenditures

Our gross capital expenditures, excluding construction allowances received from landlords, were \$38.5 million during the first half of Fiscal 2009 as compared to \$74.0 million for the first half of Fiscal 2008. Construction allowances received from landlords were \$22.2 million for the current-year period as compared to \$26.9 million for the prior-year period.

As part of our streamlining initiatives announced in February 2008, we plan to significantly reduce capital expenditures for new store development, store relocations, and corporate technology during Fiscal 2009 in response to the current difficult economic environment. We plan to open approximately 45-50 new stores in Fiscal 2009 as compared to 103 new stores in Fiscal 2008, and anticipate that our Fiscal 2009 gross capital expenditures will be approximately \$79 million before construction allowances received from landlords as compared to gross capital expenditures of \$137.7 million for Fiscal 2008. We expect that approximately 80% of our Fiscal 2009 gross capital expenditures before construction allowances will support store development, including openings, relocations, and store improvements, with the remainder of the expenditures to be primarily for information technology and improvements to our distribution centers. We expect to finance these capital expenditures primarily through internally-generated funds and to a lesser extent through capital lease financing.

#### Debt, Lease, and Purchase Commitments

The financial table in "PART II; Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations; FINANCIAL CONDITION; Debt, Lease, and Purchase Commitments" in our Annual Report on Form 10-K for the fiscal year ended February 2, 2008 does not include our liability for future benefits payable to former executive employees under split-dollar life insurance agreements that we have recorded in accordance with our adoption of EITF Issue No. 06-4 (see "Notes to Condensed Consolidated Financial Statements; Note 13. Impact of Recent Accounting Pronouncements" above). As a result of the adoption of EITF Issue No. 06-4, we recognized a \$13.7 million increase in our split-dollar life insurance benefits payable through a cumulative effect adjustment as of February 3, 2008. We recognized \$1.6 million of the increase as a current liability (due in less than 1 year) and the remaining \$12.1 million as a long-term liability.

#### Repurchases of Common Stock

During the Fiscal 2009 First Quarter we repurchased an aggregate total of 0.5 million shares of common stock for \$2.6 million under a \$200 million share repurchase program announced in November 2007 and 1.5 million shares of common stock for \$8.3 million under a prior authorization from our Board of Directors. We did not repurchase any shares of common stock during the Fiscal 2009 Second Quarter. Our revolving credit facility allows the repurchase of our common stock subject to maintaining a minimum level of "Excess Availability" (as defined in the facility agreement) for 30 days before and immediately after such repurchase. See "PART II, Item 2. Unregistered Sales of Equity Securities and Use of Proceeds" below for additional information regarding the share-repurchase program announced in November 2007.

## Dividends

We have not paid any dividends since 1995, and we do not expect to declare or pay any dividends on our common stock in the foreseeable future. The payment of future dividends is within the discretion of our Board of Directors and will depend upon our future earnings, if any; our capital requirements; our financial condition; and other relevant factors. Our existing revolving credit facility allows the payment of dividends on our common stock subject to maintaining a minimum level of Excess Availability (as defined in the facility agreement) for 30 days before and immediately after the payment of such dividends.

## Off-Balance-Sheet Financing

## Asset Securitization Program

Our asset securitization program primarily involves the sale of proprietary credit card receivables to a special-purpose entity, which in turn transfers the receivables to a separate and distinct qualified special-purpose entity (“QSPE”). The QSPE’s assets and liabilities are not consolidated in our balance sheet and the receivables transferred to the QSPEs are isolated for purposes of the securitization program. We use asset securitization to fund the credit card receivables generated by our FASHION BUG, LANE BRYANT, CATHERINES, PETITE SOPHISTICATE, and Crosstown Traders proprietary credit card programs. Additional information regarding our asset securitization facility is included in “Notes to Condensed Consolidated Financial Statements; Note 9. Asset Securitization” above; under the caption “MARKET RISK” below; and in “Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations; CRITICAL ACCOUNTING POLICIES; Asset Securitization” and “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 17. ASSET SECURITIZATION” of our February 2, 2008 Annual Report on Form 10-K.

As of August 2, 2008, we had the following securitization facilities outstanding:

(1) Receivables Purchase Agreement (for the Crosstown Traders catalog proprietary credit card receivables program).

(2) Series 1999-2 and Series 2004-VFC have scheduled final payment dates that occur in the twelfth month following the month in which the series begins amortizing. These series and 2005-RPA begin amortizing on the next renewal date subject to the further extension of the renewal date as a result of renewal of the purchase commitment..

In May 2008 the Series 2002-1 facility completed its scheduled amortization, which had begun in August 2007 in accordance with its scheduled terms, and is no longer an outstanding series.

We securitized \$455.7 million of private label credit card receivables in the first half of Fiscal 2009 and had \$584.9 million of securitized credit card receivables outstanding as of August 2, 2008. We held certificates and retained interests in our securitizations of \$109.3 million as of August 2, 2008 that are generally subordinated in right of payment to certificates issued by the QSPEs to third-party investors. Our obligation to repurchase receivables sold to the QSPEs is limited to those receivables that at the time of their transfer fail to meet the QSPE's eligibility standards under normal representations and warranties. To date, our repurchases of receivables pursuant to this obligation have been insignificant.

CSRC, Charming Shoppes Seller, Inc., and Catalog Seller LLC, our consolidated wholly owned indirect subsidiaries, are separate special-purpose entities (“SPEs”) created for the securitization program. Our investment in asset-backed securities as of August 2, 2008 included \$51.5 million of QSPE certificates, an interest-only (“I/O”) strip of \$23.5 million, and other retained interests of \$34.3 million. These assets are first and foremost available to satisfy the claims of the respective creditors of these separate corporate entities, including certain claims of investors in the QSPEs.

Additionally, with respect to certain Trust Certificates, if either the Trust or Charming Shoppes, Inc. does not meet certain financial performance standards, the Trust is obligated to reallocate to third-party investors holding certain certificates issued by the Trust, collections in an amount up to \$9.45 million that otherwise would be available to CSRC. The result of this reallocation is to increase CSRC’s retained interest in the Trust by the same amount, with the third-party investor retaining an economic interest in the certificates. Subsequent to such a transfer occurring, and upon certain conditions being met, these same investors are required to repurchase these interests when the financial performance standards are again satisfied. Our net loss for the third quarter of Fiscal 2008 resulted in the requirement to begin the reallocation of collections as discussed above and \$9.45 million of collections were fully transferred as of February 2, 2008. The requirement for the reallocation of these collections will cease and such investors would be required to repurchase such interests upon our announcement of a quarter with net income and the fulfillment of such conditions. With the exception of the requirement to reallocate collections of \$9.45 million that were fully transferred as of February 2, 2008, the Trust was in compliance with its financial performance standards as of August 2, 2008, including all financial performance standards related to the performance of the underlying receivables.

In addition to the above, we could be affected by certain other events that would cause the QSPEs to hold proceeds of receivables, which would otherwise be available to be paid to us with respect to our subordinated interests, within the QSPEs as additional enhancement. For example, if we or the QSPEs do not meet certain financial performance standards, a credit enhancement condition would occur and the QSPEs would be required to retain amounts otherwise payable to us. In addition, the failure to satisfy certain financial performance standards could further cause the QSPEs to stop using collections on QSPE assets to purchase new receivables and would require such collections to be used to repay investors on a prescribed basis as provided in the securitization agreements. If this were to occur, it could result in our having insufficient liquidity; however, we believe we would have sufficient notice to seek alternative forms of financing through other third-party providers although we cannot provide assurance in that regard. As of August 2, 2008 we and the QSPEs were in compliance with the applicable financial performance standards referred to in this paragraph.

Amounts placed into enhancement accounts, if any, that are not required for payment to other certificate holders will be available to us at the termination of the securitization series. We have no obligation to directly fund the enhancement account of the QSPEs, other than for breaches of customary representations, warranties, and covenants and for customary indemnities. These representations, warranties, covenants, and indemnities do not protect the QSPEs or investors in the QSPEs against credit-related losses on the receivables. The providers of the credit enhancements and QSPE investors have no other recourse to us.

As these credit card receivables securitizations reach maturity, we plan to obtain funding for our proprietary credit card programs through additional securitizations, including annual renewal of our conduit facilities. However, we can give no assurance that we will be successful in securing financing through either replacement securitizations or other sources of replacement financing.

These securitization agreements are intended to improve our overall liquidity by providing sources of funding for our proprietary credit card receivables. The agreements provide that we will continue to service the credit card receivables and control credit policies. This control allows us, absent certain adverse events, to fund continued credit card receivable growth and to provide the appropriate customer service and collection activities. Accordingly, our

relationship with our credit card customers is not affected by these agreements.

## Benefits from Operating Our Proprietary Credit Card Programs

We manage our proprietary credit card programs primarily to enhance customer loyalty and to allow us to integrate our direct-mail marketing strategy when communicating with our core customers. We also earn revenue from operating the credit card programs. As discussed above, we utilize asset securitization as the primary funding source for our proprietary credit card receivables programs. As a result, our primary source of benefits is derived from the distribution of net excess spread revenue from our QSPEs.

The transfer of credit card receivables under our asset securitization program is without recourse and we account for the program in accordance with SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities." Under SFAS No. 140, our benefit from the credit card receivables represents primarily the net excess spread revenues we receive from monthly securitization distributions associated with the collections on managed outstanding receivables. We recognize on an accrual basis these net excess spread revenues, which generally represent finance charge revenues in excess of securitization funding costs, net credit card charge-offs, and the securitization servicing fee. Finance charge revenues include finance charges and fees assessed to the credit card customers. Net credit card charge-offs represent gross monthly charge-offs on customer accounts less recoveries on accounts previously charged-off. For purposes of the table provided below, we also include any collection agency costs associated with recoveries as part of the net excess spread revenues from credit card receivables.

In addition to the actual net excess spread revenues described above we record our beneficial interest in the Trust as an "interest-only strip" ("I/O strip"), which represents the estimated present value of cash flows we expect to receive over the estimated period the receivables are outstanding. In addition to the I/O strip we recognize a servicing liability, which represents the present value of the excess of the costs of servicing over the servicing fees we expect to receive, and is recorded at estimated fair value. We use the same discount rate and estimated life assumptions in valuing the I/O strip and the servicing liability. We amortize the I/O strip and the servicing liability on a straight-line basis over the expected life of the credit card receivables.

The benefits from operating our proprietary credit card programs also include other revenues generated from the programs. These other net revenues include revenue from additional products and services that customers may purchase with their credit cards, including debt cancellation protection, fee-based loyalty program revenues, and net commissions from third-party products that customers may buy through their credit cards. Other credit card revenues also include interest income earned on funds invested in the credit entities. The credit contribution is net of expenses associated with operating the program. These expenses include the costs to originate, bill, collect, and operate the credit card programs. Except for net fees associated with the fee-based loyalty programs that we include in net sales, we include the net credit contribution as a reduction of selling, general, and administrative expenses in our consolidated statements of operations and comprehensive income.

Further details of our net credit contribution are as follows:

### Operating Leases

We lease substantially all of our operating stores under non-cancelable operating lease agreements. Additional details on these leases, including minimum lease commitments, are included in “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; Note 18. Leases” of our Annual Report on Form 10-K for the fiscal year ended February 2, 2008.

## FINANCING

### Revolving Credit Facility

Our revolving credit facility agreement provides for a revolving credit facility with a maximum availability of \$375 million, subject to certain limitations as defined in the facility agreement, and provides that up to \$300 million of the facility may be used for letters of credit. In addition, we may request, subject to compliance with certain conditions, additional revolving credit commitments up to an aggregate maximum availability of \$500 million. The agreement expires on July 28, 2010. We had an aggregate total of \$1.7 million of unamortized deferred debt acquisition costs related to the facility as of August 2, 2008, which we are amortizing on a straight-line basis over the life of the facility as interest expense.

The facility includes provisions for customary representations and warranties and affirmative covenants, and includes customary negative covenants providing for certain limitations on, among other things, sales of assets; indebtedness; loans, advances and investments; acquisitions; guarantees; and dividends and redemptions. In addition, the facility agreement provides that if “Excess Availability” falls below 10% of the “Borrowing Base,” through high levels of borrowing or letter of credit issuance for example, we may be required to maintain a minimum “Fixed Charge Coverage Ratio” (terms in quotation marks in this paragraph and the following paragraph are defined in the facility agreement). The facility is secured by our general assets, except for assets related to our credit card securitization facilities, real property, equipment, the assets of our non-U.S. subsidiaries, and certain other assets. As of August 2, 2008 the “Excess Availability” under the facility was \$306.7 million, or 95.1% of the “Borrowing Base.” As of August 2, 2008, we were not in violation of any of the covenants included in the facility.

The interest rate on borrowings under the facility is Prime for Prime Rate Loans, and LIBOR as adjusted for the “Reserve Percentage” plus 1.0% to 1.5% per annum for Eurodollar Rate Loans. The applicable rate is determined monthly, based on our average “Excess Availability.” As of August 2, 2008, the applicable rates under the facility were 5.00% for Prime Rate Loans and 3.71% (LIBOR plus 1%) for Eurodollar Rate Loans. There were no borrowings outstanding under the facility as of August 2, 2008.

## Long-term Debt

On April 30, 2007 we issued \$250.0 million in aggregate principal amount of 1.125% Senior Convertible Notes due May 1, 2014 (the "1.125% Notes") in a private offering for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. On May 11, 2007 the initial purchasers of the 1.125% Notes exercised their over-allotment option and purchased an additional \$25.0 million in principal amount of notes. The 1.125% Notes were issued at par, and interest is payable semiannually in arrears on May 1 and November 1, beginning November 1, 2007. The 1.125% Notes will mature on May 1, 2014, unless earlier repurchased by us or converted.

We received proceeds of approximately \$268.1 million from the issuance, net of underwriting fees of approximately \$6.9 million. The underwriting fees, as well as additional transaction costs of \$0.8 million incurred in connection with the issuance of the 1.125% Notes, are included in "Other assets," and amortized to interest expense on an effective interest rate basis over the remaining life of the notes.

On April 30, 2007 we called for the redemption on June 4, 2007 of our \$149.999 million outstanding aggregate principal amount of 4.75% Senior Convertible Notes due June 1, 2012 (the "4.75% Notes"). The holders of the 4.75% Notes had the option to convert their notes into shares of our common stock at a conversion price of \$9.88 per share until the close of business on June 1, 2007. As of June 4, 2007, the holders of \$149.956 million principal amount of the 4.75% Notes had exercised their right to convert their notes into an aggregate of 15.146 million shares of our common stock and the remaining notes were redeemed for \$43 thousand. In addition, we paid \$392 thousand in lieu of fractional shares.

Additional information regarding our long-term borrowings is included in "Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Part II, Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; Note 8. Long-term Debt" of our Annual Report on Form 10-K for the fiscal year ended February 2, 2008.

In Fiscal 2009 we plan to continue to utilize our combined financial resources to fund our inventory and inventory-related purchases, catalog advertising and marketing initiatives, and our store development and infrastructure strategies. We believe our cash on-hand, securitization facilities, and borrowing facilities will provide adequate liquidity for our business operations and growth opportunities during Fiscal 2009. However, our liquidity is affected by many factors, including some that are based on normal operations and some that are related to our industry and the economy. We may seek, as we believe appropriate, additional debt or equity financing to provide capital for corporate purposes or to fund strategic business opportunities. At this time, we cannot determine the timing or amount of such potential capital requirements, which will depend on a number of factors, including demand for our merchandise, industry conditions, competitive factors, the condition of financial markets, and the nature and size of strategic business opportunities that we may elect to pursue.

## MARKET RISK

We manage our FASHION BUG, LANE BRYANT, CATHERINES, PETITE SOPHISTICATE, and Crosstown Traders proprietary credit card programs through various operating entities that we own. The primary activity of these entities is to service the balances of our proprietary credit card receivables portfolio that we sell under credit card securitization facilities. Under the securitization facilities we can be exposed to fluctuations in interest rates to the extent that the interest rates charged to our customers vary from the rates paid on certificates issued by the QSPEs.

The finance charges on most of our proprietary credit card accounts are billed using a floating rate index (the Prime Rate), subject to a floor and limited by legal maximums. The certificates issued under the securitization facilities include both floating- and fixed-interest-rate certificates. The floating-rate certificates are based on an index of either one-month LIBOR or the commercial paper rate, depending on the issuance. Consequently, we have basis risk exposure with respect to credit cards billed using a floating-rate index to the extent that the movement of the floating-rate index on the certificates varies from the movement of the Prime Rate. Additionally, as of August 2, 2008 the floating finance charge rate on the floating-rate indexed credit cards was below the contractual floor rate, thus exposing us to interest-rate risk with respect to these credit cards for the portion of certificates that are funded at floating rates.

As a result of the Trust entering into a series of fixed-rate interest rate swap agreements with respect to \$335.8 million of floating-rate certificates, entering into an interest-rate cap with respect to an additional \$28.8 million of floating-rate certificates, and \$86.1 million of certificates being issued at fixed rates we have significantly reduced the exposure of floating-rate certificates outstanding to interest-rate risk. To the extent that short-term interest rates were to increase by one percentage point on a pro-rated basis by the end of Fiscal 2009, an increase of approximately \$326 thousand in selling, general, and administrative expenses would result.

As of May 3, 2008, there were no borrowings outstanding under our revolving credit facility. Future borrowings made under the facility, if any, could be exposed to variable interest rates.

We are not subject to material foreign exchange risk, as our foreign transactions are primarily U.S. Dollar-denominated and our foreign operations do not constitute a material part of our business.

#### IMPACT OF RECENT ACCOUNTING PRONOUNCEMENTS

See “Item 1. Notes To Condensed Consolidated Financial Statements (Unaudited); Note 13. Impact of Recent Accounting Pronouncements” above.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

See “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations; MARKET RISK,” above.

#### Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports we file under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), as appropriate and in such a manner as to allow timely decisions regarding required disclosure. Our disclosure Committee, which is made up of several key management employees and reports directly to the CEO and CFO, assists our management, including our CEO and CFO, in fulfilling their responsibilities for establishing and maintaining such controls and procedures and providing accurate, timely, and complete disclosure.

As of the end of the period covered by this report on Form 10-Q (the “Evaluation Date”), our Disclosure Committee, under the supervision and with the participation of management, including our CEO and CFO, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this

evaluation, our management, including our CEO and CFO, has concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective. Furthermore, there has been no change in our internal control over financial reporting that occurred during the period covered by this report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

Other than ordinary routine litigation incidental to our business, there are no other pending material legal proceedings that we or any of our subsidiaries are a party to, or of which any of their property is the subject. There are no proceedings that are expected to have a material adverse effect on our financial condition or results of operations.

### Item 1A. Risk Factors

On April 25, 2008 we announced that our Board of Directors began exploring a broad range of operating and strategic alternatives for our non-core misses apparel catalog titles in order to provide a greater focus on our core brands and to enhance shareholder value. As of August 2, 2008 we were holding our non-core misses apparel catalog titles for sale. On August 25, 2008 (subsequent to the end of the period covered by this Report on Form 10-Q) we announced that we have entered into a definitive agreement to sell our non-core misses apparel catalogs (see “PART I Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations; RECENT DEVELOPMENTS” above). We cannot assure the successful consummation of our expected sale of our non-core misses apparel catalog titles.

Our Form 10-K for the fiscal year ended February 2, 2008 included disclosure of the following risk factor:

Changes to existing accounting rules or the adoption of new rules could have an adverse effect on our reported results of operations. The Financial Accounting Standards Board (“FASB”) has issued a proposed FASB Staff Position (“FSP”) that, if adopted, would apply to any convertible debt instrument that may be settled in whole or in part with cash upon conversion, which would include our 1.125% Senior Convertible Notes due May 2014. If the proposed FSP is approved in 2008 we would be required to adopt the proposal as of February 1, 2009 (the beginning of Fiscal 2010), with retrospective application to financial statements for periods prior to the date of adoption. As compared to our current accounting for the 1.125% Notes, adoption of the proposal would reduce long-term debt, increase stockholders’ equity, and reduce net income and earnings per share. Adoption of the proposal would not affect our cash flows.

In May 2008 the FASB issued FASB Staff Position (“FSP”) APB 14-1 “Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (Including Partial Cash Settlements),” which will change the accounting treatment for convertible securities that the issuer may settle fully or partially in cash. See “Part I Item 1. Notes To Condensed Consolidated Financial Statements (Unaudited); Note 13. Impact of Recent Accounting Pronouncements” above for further information with respect to FSP APB 14-1.

Our Form 10-K for the fiscal year ended February 2, 2008 also included disclosure of the following risk factor:

Our success and our ability to execute our business strategy depend largely on the efforts and abilities of our Chief Executive Officer, Dorrit J. Bern, and her management team. The loss of services of one or more of our key personnel could have a material adverse effect on our business, as we may not be able to find suitable management personnel to replace departing executives on a timely basis. We do not maintain key-person life insurance policies with respect to any of our employees.

On July 9, 2008 we announced that Dorrit J. Bern tendered her resignation as President, Chief Executive Officer and a Director of the Company. As a result of the resignation and certain other changes in our management team, we are updating this risk factor as follows:

Our success and our ability to execute our business strategy depend largely on the efforts and abilities of our executive officers and their management teams. We also must motivate employees to remain focused on our strategies and goals, particularly during a period of changing leadership for the Company and a number of our operating divisions. The inability to find a suitable permanent replacement for our Chief Executive Officer within a reasonable time period, as well as management personnel to replace departing executives, could have a material adverse effect on our business. We do not maintain key-person life insurance policies with respect to any of our employees.

Other than the above, we have not become aware of any material changes since February 2, 2008 in the risk factors previously disclosed in “Part I; Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended February 2, 2008. See also “Part I; Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations; FORWARD-LOOKING STATEMENTS” and “RECENT DEVELOPMENTS” above.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

### Purchases of Equity Securities by the Issuer and Affiliated Purchasers:

Total	87,004	\$ 4.78	–	(2)

(1) Shares withheld for the payment of payroll taxes on employee stock awards that vested during the period.

(2) On November 8, 2007 we publicly announced that our Board of Directors granted authority to repurchase shares of our common stock up to an aggregate value of \$200 million. Shares may be purchased in the open market or through privately-negotiated transactions, as market conditions allow. As of February 2, 2008 no shares had been purchased under this plan. During the period from February 3, 2008 through May 3, 2008 we repurchased a total of 505,406 shares of stock (\$5.21 average price paid per share) in the open market under this program. During the period from May 4, 2008 through August 2, 2008 no shares were purchased under this plan. As of August 2,

2008, \$197,364,592 was available for future repurchases under this program. This repurchase program has no expiration date.

## Item 4. Submission of Matters to a Vote of Security Holders

Our reconvened Annual Meeting of Shareholders (“the Meeting”) was held on June 26, 2008.

As disclosed in our Proxy Statement filed on May 23, 2008 pursuant to Section 14 of the Securities Exchange Act of 1934 (the “Proxy Statement”), Dorrit J. Bern and Alan Rosskamm were nominated for reelection and Arnaud Ajdler and Michael C. Appel were nominated for election to serve three-year terms as Class C Directors, and Richard W. Bennet III and Michael Goldstein were nominated for election to serve three-year terms as Class B Directors. As a result of the approval of a proposal to amend our Restated Articles of Incorporation and By-laws to declassify our Board of Directors (see below), all members of our Board of Directors, including the Class B and Class C Directors nominated and elected at the Meeting, will serve one-year terms until our 2009 Annual Meeting of Shareholders.

The holders of 103,432,957 shares of our Common Stock, representing 91.3% of the total number of shares outstanding as of the close of business on March 28, 2008 (the record date fixed by our Board of Directors), were present in person or by proxy at the Annual Meeting. The following table indicates the number of votes cast in favor of election and the number of votes withheld with respect to each of the Directors nominated:

Name	Votes For	Votes Withheld
Dorrit J. Bern	99,252,383	4,180,574
