CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are those that address activities, events or developments that we or our management intends, expects, projects, believes or anticipates will or may occur in the future. They are based on management’s assumptions and assessments in the light of past experience and trends, current economic and industry conditions, expected future developments and other relevant factors. They are not guarantees of future performance, and actual results, developments and business decisions may differ from those envisaged by our forward-looking statements. Our forward-looking statements are also subject to risks and uncertainties, which can affect our performance in both the near- and long-term. These forward-looking statements should be considered in the light of the information included in this report and our other filings with the Securities and Exchange Commission, including, without limitation, the Risk Factors, as well as the description of trends and other factors in Management’s Discussion and Analysis of Financial Condition and Results of Operations, set forth in our 2015 Annual Report on Form 10-K.

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

The terms “we,” “our,” “ours,” “us” and “Company” refer to Covanta Holding Corporation and its subsidiaries; the term “Covanta Energy” refers to our subsidiary Covanta Energy, LLC and its subsidiaries.

Organization

Covanta is one of the world’s largest owners and operators of infrastructure for the conversion of waste to energy (known as “energy-from-waste” or “EfW”), and also owns and operates related waste transport and disposal and other renewable energy production businesses. EfW serves two key markets as both a sustainable waste management solution that is environmentally superior to landfilling and as a source of clean energy that reduces overall greenhouse gas emissions and is considered renewable under the laws of many states and under federal law. Our facilities are critical infrastructure assets that allow our customers, which are principally municipal entities, to provide an essential public service.

Our EfW facilities earn revenue from both the disposal of waste and the generation of electricity and/or steam, generally under contracts, as well as from the sale of metal recovered during the EfW process. We process approximately 20 million tons of solid waste annually. We operate and/or have ownership positions in 42 energy-from-waste facilities, which are primarily located in North America. In total, these assets produce approximately 10 million megawatt hours (“MWh”) of baseload electricity annually. We also operate a waste management infrastructure that is complementary to our core EfW business.

We have one reportable segment, North America, which is comprised of waste and energy services operations located primarily in the United States and Canada. We are currently constructing an energy-from-waste facility in Dublin, Ireland, which we own and will operate upon completion. We hold equity interests in China and Italy.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with United States Generally Accepted Accounting Principles (“GAAP”) and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and notes thereto required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments (including normal recurring accruals) considered necessary for fair presentation have been included in our condensed consolidated financial statements. All intra-entity accounts and transactions have been eliminated. Operating results for the interim period are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2016. This Form 10-Q should be read in conjunction with the Audited Consolidated Financial Statements and accompanying Notes in our Annual Report on Form 10-K for the year ended December 31, 2015 (“Form 10-K”).

Reclassification

During the quarter ended June 30, 2016, certain amounts have been reclassified in our prior period condensed consolidated statements of operations, balance sheet and cash flows to conform to current year presentation and such amounts were not material to current and prior periods.

Change in Accounting Principle

Effective January 1, 2016, we adopted guidance concerning the presentation of debt issuance costs, which are required to be presented as a direct reduction from the carrying amount of the related debt liability. We adopted this guidance retrospectively, which resulted in a reduction in our December 31, 2015 current and non-current asset balances of \$8 million and \$40 million, respectively, along with a corresponding reduction in current and long-term debt balances. For additional information, see Note 6. Consolidated Debt.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

In March 2016, the Financial Accounting Standards Board (“FASB”) issued amended guidance for employee share-based compensation. The updated guidance changes how companies account for certain aspects of share-based payment awards to employees, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. The guidance, which is required to be adopted in the first quarter of 2017, may be early adopted. We are currently evaluating the effect the guidance will have on our

consolidated financial statements.

In February 2016, the FASB issued amended guidance for lease arrangements in order to increase transparency and comparability by providing additional information to users of financial statements regarding an entity's leasing activities. The revised guidance seeks to achieve this objective by requiring reporting entities to recognize lease assets and lease liabilities on the balance sheet for substantially all lease arrangements. The guidance, which is required to be adopted in the first quarter of 2019, will be applied on a modified retrospective basis beginning with the earliest period presented. Early adoption is permitted. We are currently evaluating the impact of adopting this guidance on our consolidated financial statements.

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

In January 2016, the FASB issued accounting guidance that would require equity investments not accounted for as an equity method investment or that result in consolidation to be recorded at their fair value with changes in fair value recognized in our consolidated statements of operations. Those equity investments that do not have a readily determinable fair value may be measured at cost less impairment, if any, plus or minus changes resulting from observable price changes. This standard is required to be adopted in the first quarter of 2018, with early adoption prohibited. We are currently evaluating the impact this guidance will have on our consolidated financial statements and related disclosures.

In May 2014, the FASB issued guidance based on the principle that revenue is recognized in an amount expected to be collected and to which the entity expects to be entitled in exchange for the transfer of goods or services. In August 2015, the FASB deferred the effective date by one year, while providing the option to early adopt the standard on the original effective date. We are required to adopt this standard in the first quarter of 2018. Early adoption is permitted in the first quarter of 2017. The guidance can be adopted either retrospectively or as a cumulative-effect adjustment as of the date of adoption. We are currently evaluating the adoption alternatives, which include utilizing a bottom-up approach to analyze the standard's impact on our contract portfolio, comparing historical accounting policies and practices to the new standard to identify potential differences from applying the requirements of the new standard to our contracts. We have not yet selected a transition date or method nor have we yet determined the effect of the standard on our consolidated financial statements. Because the new standard will impact our business processes, systems and controls, we are in the process of developing a comprehensive change management project plan to guide the implementation. We expect this determination will near completion in late 2016 or early 2017.

NOTE 3. DISPOSITIONS AND OTHER

Pittsfield EfW Facility

In March 2016, we exercised an early termination option available under our steam sale agreement for our Pittsfield EfW facility that will be effective in March 2017. Upon termination of the steam agreement, we intend to cease operations at the Pittsfield facility. As a result, we recorded a non-cash impairment charge of \$13 million, pre-tax, during the six months ended June 30, 2016, which was calculated based on the estimated cash flows for this facility during its remaining operations utilizing Level 3 inputs. Assumptions used in determining future operating results and cash flows include current and expected market conditions and future operations forecasts. It is possible that these assumptions and estimates may change resulting in the need to adjust our determination of fair value. For more information regarding fair value measurements, see Note 10. Financial Instruments.

China Investments

During March 2016, we completed the exchange of our ownership interests in three EfW facilities located in China for a 15% ownership interest in Chongqing Sanfeng Covanta Environmental Industrial Group, Co., Ltd ("Sanfeng Environment") pursuant to a July 2015 exchange agreement. As of June 30, 2016, our cost-method investment in Sanfeng Environment totaled \$77 million, of which \$67 million and \$10 million was included in our condensed consolidated balance sheet as a component of "Prepaid expense and other current assets" and "Other assets", respectively. Prior to the exchange, our interests in China included an 85% ownership of an EfW facility located in Jiangsu Province ("Taixing"), a 49% equity interest in an EfW facility located in Sichuan Province and a 40% equity interest in Chongqing Sanfeng Covanta Environmental Industry Co., a company located in the Chongqing Municipality that is engaged in the business of providing design and engineering, procurement, construction services and equipment sales for EfW facilities in China, as well as operating services for EfW facilities. Cost-method investments are carried at historical cost unless indicators of impairment are identified. There were no impairment indicators related to our cost-method investment during the six months ended June 30, 2016.

We are currently in the process of obtaining the required approvals from the Chinese government to sell approximately 90% of the aforementioned ownership interest in Sanfeng Environment to a subsidiary of CITIC Limited ("CITIC"), a leading Chinese industrial conglomerate and investment company, pursuant to the July 2015 equity transfer agreement with CITIC. This sale is expected to close in the third quarter of 2016. Based upon June 30,

2016 exchange rates, cash proceeds to Covanta are estimated to be approximately \$100 million, exclusive of any gains or losses received from foreign currency derivatives. In connection with these transactions, we entered into foreign currency exchange collars and forwards to hedge against rate fluctuations that might impact the cash proceeds in U.S. dollar terms. For more information, see Note 11. Derivative Instruments.

We expect to recognize a gain on sale as a result of these transactions of approximately \$30 million, exclusive of expected gains from cumulative foreign currency translation adjustments.

As of December 31, 2015, the assets and liabilities associated with our China investments were presented in our condensed consolidated balance sheets as Current "Assets held for sale" and Current "Liabilities held for sale."

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

Tartech Investment

We are party to a joint venture that was formed to recover and recycle metals from EfW ash monofills in North America. During the three months ended June 30, 2016, due to operational difficulties and the decline in the scrap metals market, a valuation of the entity was conducted. As a result, we recorded a net impairment of our investment in this joint venture of \$3 million, pre-tax, which represents our portion of the carrying value of the entity in excess of the fair value. Such amount was calculated based on the estimated liquidation value of the tangible equipment utilizing Level 3 inputs. For more information regarding fair value measurements, see Note 10. Financial Instruments.

NOTE 4. EARNINGS PER SHARE ("EPS") AND EQUITY

Earnings Per Share

We calculate basic earnings per share ("EPS") using net earnings for the period and the weighted average number of outstanding shares of our common stock, par value \$0.10 per share, during the period. Basic weighted average shares outstanding have decreased due to share repurchases. Diluted earnings per share computations, as calculated under the treasury stock method, include the weighted average number of shares of additional outstanding common stock issuable for stock options, restricted stock awards, restricted stock units and warrants whether or not currently exercisable. Diluted earnings per share does not include securities if their effect was anti-dilutive. Basic and diluted weighted average shares outstanding were as follows (in millions):

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2015
Basic weighted average common shares outstanding	129	132
Dilutive effect of stock options, restricted stock and restricted stock units ⁽¹⁾	—	—
Diluted weighted average common shares outstanding	129	132

(1) Excludes restricted stock units of 1 for each of the three and six-month periods ended June 30, 2016 and 2015; stock options of 1 for the three and six months ended June 30, 2016 and zero for the three and six months ended June 30, 2015, because their inclusion would have been anti-dilutive.

Equity

Share Repurchases

In January 2016, we repurchased approximately 1.2 million shares of our common stock at a weighted average cost of \$15.29 per share for an aggregate amount of \$18 million.

Dividends per Share

Dividends declared per share were \$0.25 for each of the three-month periods ended June 30, 2016 and 2015 and \$0.50 for each of the six-month periods ended June 30, 2016 and 2015. Cash dividends paid were \$33 million and \$34 million for the three-month periods ended June 30, 2016 and 2015, respectively and \$66 million and \$67 million for the six-month periods ended June 30, 2016 and 2015, respectively.

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

Credit Facilities

Our subsidiary, Covanta Energy, has \$1.2 billion in senior secured credit facilities consisting of a \$1.0 billion revolving credit facility, expiring 2019 through 2020, (the "Revolving Credit Facility") and a \$200 million term loan due 2020 (the "Term Loan") (collectively referred to as the "Credit Facilities").

Availability under Revolving Credit Facility

As of June 30, 2016, we had availability under the Revolving Credit Facility as follows (in millions):

	Total Available Under Credit Facility	Expiring ⁽¹⁾	Direct Borrowings as of June 30, 2016	Outstanding Letters of Credit as of June 30, 2016	Availability as of June 30, 2016
Revolving Credit Facility	\$ 1,000	2020	\$ 493	\$ 160	\$ 347

(1) The Revolving Credit Facility consists of two tranches; Tranche A (\$950 million), which expires in 2020, and Tranche B (\$50 million), which expires in March 2019.

Repayment Terms

As of June 30, 2016, the Term Loan has mandatory remaining amortization payments of \$3 million in 2016, \$5 million in each of the years 2017 through 2019 and \$181 million in 2020. The Credit Facilities are pre-payable at par at our option at any time.

Guarantees and Security

The Credit Facilities are guaranteed by us and by certain of our subsidiaries. The subsidiaries that are party to the Credit Facilities agreed to secure all of the obligations under the Credit Facilities by granting, for the benefit of secured parties, a first priority lien on substantially all of their assets, to the extent permitted by existing contractual obligations; a pledge of substantially all of the capital stock of each of our domestic subsidiaries and 65% of substantially all the capital stock of each of our foreign subsidiaries which are directly owned, in each case to the extent not otherwise pledged.

Credit Agreement Covenants

The loan documentation governing the Credit Facilities contains various affirmative and negative covenants, as well as financial maintenance covenants (financial ratios), that limit our ability to engage in certain types of transactions. We were in compliance with all of the affirmative and negative covenants under the Credit Facilities as of June 30, 2016.

Union County EfW Capital Lease Arrangement

In June 2016, we extended the lease term related to the Union County EfW facility through 2053, which resulted in capital lease treatment for the revised lease. We recorded lease liability of \$104 million, calculated utilizing an incremental borrowing rate of 5.0%. The lease includes certain periods of contingent rentals based upon plant performance as either a share of revenue or a share of plant profits. These contingent payments have been excluded from the calculation of the lease liability and instead will be treated as a period expense when incurred. As of June 30, 2016, the outstanding borrowings under the capital lease have mandatory amortization payments remaining as follows (in millions):

	Remainder of 2016	2017	2018	2019	2020	Thereafter
Annual Remaining Amortization	\$ 6	\$ 5	\$ 5	\$ 5	\$ 6	\$ 77

Other Non-current Liabilities

As of June 30, 2016, the Dublin convertible preferred instrument of \$89 million was included in other noncurrent liabilities in our condensed consolidated balance sheet.

Capitalized Interest

Interest expense paid and costs amortized to interest expense related to project financing are capitalized during the construction and start-up phase of the project. Total interest expense capitalized was \$7 million and \$2 million during the three months ended June 30, 2016 and 2015, respectively, and \$13 million and \$2 million during the six months ended June 30, 2016 and 2015, respectively.

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

NOTE 7. INCOME TAXES

We record our interim tax provision based upon our estimated annual effective tax rate ("ETR") and account for tax effects of discrete events in the period in which they occur. We review the ETR on a quarterly basis as projections are revised and laws are enacted. The ETRs were 9% and 38% for the six months ended June 30, 2016 and 2015, respectively. The decrease in the ETR was primarily attributable to the changes in the mix of earnings, and the change from forecasted pre-tax income in 2015 to forecasted pre-tax loss in 2016.

NOTE 8. SUPPLEMENTARY INFORMATION

Pass through costs

Pass through costs are costs for which we receive a direct contractually committed reimbursement from the municipal client which sponsors an energy-from-waste project. These costs generally include utility charges, insurance premiums, ash residue transportation and disposal, and certain chemical costs. These costs are recorded net of municipal client reimbursements in our condensed consolidated financial statements. Total pass through costs were \$9 million and \$12 million for the three months ended June 30, 2016 and 2015, respectively, and \$19 million and \$23 million for the six months ended June 30, 2016 and 2015, respectively.

NOTE 9. STOCK-BASED COMPENSATION

During the six months ended June 30, 2016, we awarded certain employees grants of 748,569 shares of restricted stock and 437,275 restricted stock units ("RSUs"). The restricted stock awards will be expensed over the requisite service period, subject to an assumed 12% average forfeiture rate. The terms of the restricted stock awards include vesting provisions based solely on continued service. If the service criteria are satisfied, the restricted stock awards generally vest during March of 2017, 2018, and 2019.

Additionally, during the six months ended June 30, 2016, we awarded certain employees grants of 390,728 RSUs that will vest based upon the Company's cumulative Free Cash Flow per share over a three year performance period.

During the six months ended June 30, 2016, we withheld 210,169 shares of our common stock in connection with tax withholdings for vested stock awards.

On May 5, 2016, we awarded 9,000 shares of restricted stock and 54,591 restricted stock units for annual director compensation. We determined the service vesting condition of these restricted stock awards and restricted stock units to be non-substantive and, in accordance with accounting principles for stock compensation, recorded the entire fair value of the awards as compensation expense on the grant date.

Compensation expense related to our stock-based awards totaled \$4 million and \$3 million for the three months ended June 30, 2016 and 2015, respectively and \$9 million and \$11 million for the six months ended June 30, 2016 and 2015, respectively. The stock-based award compensation for the six months ended June 30, 2015 included expense recognized for stock awards and accelerated vesting of stock awards pursuant to separation agreements in connection with the departure of two executive offers during the six months ended June 30, 2015.

Unrecognized stock-based compensation expense and weighted-average years to be recognized are as follows (in millions, except for weighted average years):

	As of June 30, 2016	
	Unrecognized stock-	Weighted-average years
	based compensation	to be recognized
Restricted stock awards	\$ 12	1.6
Restricted stock units	\$ 11	2.5

NOTE 10. FINANCIAL INSTRUMENTS

Fair Value Measurements

Authoritative guidance associated with fair value measurements provides a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs used to measure fair value, giving the highest priority to

unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs), then significant other observable inputs (Level 2 inputs) and the lowest priority to significant unobservable inputs (Level 3 inputs). The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

15

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

For cash and cash equivalents, restricted funds, and marketable securities, the carrying value of these amounts is a reasonable estimate of their fair value. The fair value of restricted funds held in trust is based on quoted market prices of the investments held by the trustee.

Fair values for long-term debt and project debt are determined using quoted market prices.

The fair value for interest rate swaps were determined by obtaining quotes from two counterparties (one is a holder of the long position and the other is in the short) and extrapolating those across the long and short notional amounts. The fair value of the interest rate swaps was adjusted to reflect counterparty risk of non-performance, and was based on the counterparty's credit spread in the credit derivatives market.

The fair values of our energy hedges were determined using the spread between our fixed price and the forward curve information available within the market.

The fair value of our foreign currency hedge was determined by obtaining quotes from two counterparties and is based on market accepted option pricing methodology which utilizes inputs such as the currency spot rate as of the balance sheet date, the strike price of the options and volatility.

The estimated fair value amounts have been determined using available market information and appropriate valuation methodologies. However, considerable judgment is necessarily required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that we would realize in a current market exchange. The fair-value estimates presented herein are based on pertinent information available to us as of June 30, 2016. Such amounts have not been comprehensively revalued for purposes of these financial statements since June 30, 2016, and current estimates of fair value may differ significantly from the amounts presented herein.

The following table presents information about the fair value measurement of our assets and liabilities as of June 30, 2016 and December 31, 2015:

Financial Instruments Recorded at Fair Value on a Recurring Basis:	Fair Value Measurement Level	As of

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

The following financial instruments are recorded at their carrying amount (in millions):

Financial Instruments Recorded at Carrying Amount:	As of June 30, 2016		As of December 31, 2015	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Assets:				
Accounts receivable ⁽³⁾	\$299	\$ 299	\$314	\$ 314
Liabilities:				
Long-term debt	\$2,407	\$ 2,442	\$2,263	\$ 2,244
Project debt	\$348	\$ 358	\$175	\$ 183

(1) The U.S. Treasury/Agency obligations in restricted funds held in trust are primarily comprised of Federal Home Loan Mortgage Corporation securities at fair value.

(2) Included in other noncurrent assets in the condensed consolidated balance sheets.

(3) Includes \$1 million and \$2 million of noncurrent receivables recorded in "Other assets" in the condensed consolidated balance sheets as June 30, 2016 and December 31, 2015, respectively.

NOTE 11. DERIVATIVE INSTRUMENTS

The following disclosures summarize the fair value of derivative instruments not designated as hedging instruments in the condensed consolidated balance sheets and the effect of changes in fair value related to those derivative instruments not designated as hedging instruments on the condensed consolidated statements of operations (in millions):

Derivative Instruments Not Designated As Hedging Instruments	Balance Sheet Location	Fair Value as of		Amount of Gain or (Loss) Recognized In Income on Derivatives	
		June 30, 2016	December 31, 2015		
Asset Derivatives:					
Foreign currency	Prepaid expenses and other current assets	\$ 1	\$ 6		
Effect on Income of Derivative Instruments Not Designated As Hedging Instruments		Location of Gain or (Loss) Recognized in Income on Derivatives		Three Months Ended June 30, 2016	Six Months Ended June 30, 2015
Foreign currency	Other income (expense), net	\$ 3	\$ —	2016	2015
Effect on income of derivative instruments not designated as hedging instruments		\$ 3	\$ —	2016	2015

Foreign Exchange Risk

In order to hedge the risk of adverse foreign currency exchange rate fluctuations impacting the expected sale proceeds from our equity transfer agreement in China (See Note 3. Dispositions and Other), we entered into foreign currency exchange forwards with two financial institutions, covering approximately \$100 million of notional, to protect against further rate fluctuations pending the expected close of the sale of our ownership interest to CITIC. The foreign currency forwards are accounted for as derivative instruments and, accordingly, are recorded at fair value quarterly with any change in fair value recognized in our condensed consolidated statements of operations as "Other expense, net." As of June 30, 2016, the fair value of the foreign currency exchange derivatives of \$1 million, pre-tax, was recorded as a current asset. The table below summarizes the fair value of active foreign currency derivatives as well as the cash settlements received to date on derivatives that have settled as to date (in millions):

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

Active FX Derivatives

Instrument	Notional Amount	Maturity	Fair Value as of June 30, 2016
FX Forward	\$50	July 2016	\$1
FX Forward	\$50	September 2016	\$1

Settled FX Derivatives

Instrument	Notional Amount	Maturity	Settlement Received
FX Collar	\$50	March 2016	\$2
FX Collar	\$50	April 2016	\$1
FX Forward	\$50	June 2016	\$—

We have also entered into foreign currency forwards to manage foreign currency exchange rate fluctuations associated with a series of fixed payments to be made by an international subsidiary through the end of 2017. This foreign currency forward is accounted for as a derivative instrument at fair value in our quarterly condensed consolidated balance sheet with any changes in fair value recognized in our condensed consolidated statements of operations as "Other expense, net." This derivative instrument was not material to our condensed consolidated statement of operations nor was it material to our condensed consolidated balance sheet as of June 30, 2016.

Energy Price Risk

Following the expiration of certain long-term energy sales contracts, we may have exposure to market risk, and therefore revenue fluctuations, in energy markets. We have entered into contractual arrangements that will mitigate our exposure to short-term volatility through a variety of hedging techniques, and will continue to do so in the future. Our efforts in this regard will involve only mitigation of price volatility for the energy we produce, and will not involve taking positions (either long or short) on energy prices in excess of our physical generation. The amount of energy generation for which we have hedged under agreements with various financial institutions is indicated in the following table (in millions):

Calendar Year	Hedged MWh
2016	1.9
2017	2.2
2018	0.2
Total	4.3

As of June 30, 2016, the fair value of the energy derivatives of \$8 million, pre-tax, was recorded as a \$6 million current asset and a \$2 million noncurrent asset. The change in fair value was recorded as a component of AOCI. As of June 30, 2016, the amount of hedge ineffectiveness was not material. During the six months ended June 30, 2016, cash provided by and used in energy derivative settlements of \$22 million and \$0 million, respectively, was included in net cash provided by operating activities on our condensed consolidated statement of cash flows. During the six months ended June 30, 2015, cash provided by and used in energy derivative settlements of \$6 million and \$7 million, respectively, was included in the change in net cash provided by operating activities on our condensed consolidated statement of cash flows.

Interest Rate Swaps

In order to hedge the risk of adverse variable interest rate fluctuations associated with the Dublin senior term loan, we have entered into floating to fixed rate swap agreements with various financial institutions terminating between 2016 and 2021, denominated in Euros, for the full €250 million loan amount. This interest rate swap is designated as a cash flow hedge which is recorded at fair value with changes in fair value recorded as a component of AOCI. As of June 30, 2016, the fair value of the interest rate swap derivative of \$26 million, pre-tax, was recorded as a \$2 million and \$24 million current and noncurrent liability, respectively. There was an immaterial amount of ineffectiveness recorded during the quarter recognized in our condensed consolidated statements of operations as interest expense.

NOTE 12. COMMITMENTS AND CONTINGENCIES

We and/or our subsidiaries are party to a number of claims, lawsuits and pending actions, most of which are routine and all of which are incidental to our business. We assess the likelihood of potential losses on an ongoing basis and when losses are considered probable and reasonably estimable, record as a loss an estimate of the outcome. If we can only estimate the range of a possible

18

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

loss, an amount representing the low end of the range of possible outcomes is recorded. The final consequences of these proceedings are not presently determinable with certainty.

Environmental Matters

Our operations are subject to environmental regulatory laws and environmental remediation laws. Although our operations are occasionally subject to proceedings and orders pertaining to emissions into the environment and other environmental violations, which may result in fines, penalties, damages or other sanctions, we believe that we are in substantial compliance with existing environmental laws and regulations.

We may be identified, along with other entities, as being among parties potentially responsible for contribution to costs associated with the correction and remediation of environmental conditions at disposal sites subject to federal and/or analogous state laws. In certain instances, we may be exposed to joint and several liabilities for remedial action or damages. Our liability in connection with such environmental claims will depend on many factors, including our volumetric share of waste, the total cost of remediation, and the financial viability of other companies that also sent waste to a given site and, in the case of divested operations, the contractual arrangement with the purchaser of such operations.

The potential costs related to the matters described below and the possible impact on future operations are uncertain due in part to the complexity of governmental laws and regulations and their interpretations, the varying costs and effectiveness of cleanup technologies, the uncertain level of insurance or other types of recovery and the questionable level of our responsibility. Although the ultimate outcome and expense of any litigation, including environmental remediation, is uncertain, we believe that the following proceedings will not have a material adverse effect on our condensed consolidated financial position or results of operations.

Lower Passaic River Matter. In August 2004, the United States Environmental Protection Agency (the “EPA”) notified Covanta Essex Company (“Essex”) that it was a potentially responsible party (“PRP”) for Superfund response actions in the Lower Passaic River Study Area, referred to as “LPRSA,” a 17 mile stretch of river in northern New Jersey. Essex’s LPRSA costs to date are not material to its financial position and results of operations; however, to date the EPA has not sought any LPRSA remedial costs or natural resource damages against PRPs. On March 3, 2016, the EPA released the Record of Decision (“ROD”) for its Focused Feasibility Study of the lower 8 miles of the LPRSA; the EPA’s selected remedy includes capping/dredging of sediment, institutional controls and long-term monitoring. The Essex facility started operating in 1990 and Essex does not believe there have been any releases to the LPRSA, but in any event believes any releases would have been de minimis considering the history of the LPRSA; however, it is not possible at this time to predict that outcome or to estimate the range of possible loss relating to Essex’s liability in the matter, including for LPRSA remedial costs and/or natural resource damages.

North Carolina Transformer Site Matter. In December 2012, our subsidiary, Covanta Dade Power Corp. (“Dade”) received a letter from the EPA indicating Dade was named as a PRP, along with numerous other unidentified PRPs, relating to the cleanup of the Ward Transformer Superfund Site in Raleigh, North Carolina (“Ward Site”). Dade’s alleged liability as a PRP stems from the 1994 servicing at the Ward Site of a transformer alleged to have contained PCB-contaminated oil. The EPA is seeking reimbursement from PRPs for its oversight costs in connection with ongoing cleanup activities at the Ward Site. While our investigation in this matter is continuing, based on information obtained to date, we believe Dade’s responsibility, if any, in connection with this matter to be de minimis; and subject to indemnity by Veolia Environmental Services North America, LLC, from which we acquired Dade in 2010; however, it is not possible at this time to estimate the range of possible loss relating to Dade’s ultimate liability, if any, in this matter.

Tulsa Matter. In January 2016, we were informed by the office of the United States Attorney for the Northern District of Oklahoma (“U.S. Attorney”) that our subsidiary, Covanta Tulsa Renewable Energy LLC, is the target of a criminal investigation being conducted by the EPA. We understand that the EPA plans to allege improprieties in the recording and reporting of emissions data during an October 2013 incident involving one of the three municipal waste combustion units at our Tulsa, Oklahoma facility. We believe that our operations in Tulsa were and are in compliance

with existing laws and regulations in all material respects. While we can provide no assurance as to the outcome of this matter, we do not believe that the investigation or any issues arising therefrom will have a material adverse effect on our financial position or results of operations.

Other Matters

Durham-York Contractor Arbitration

We are seeking to resolve outstanding disputes with our primary contractor for the Durham-York construction project regarding (i) claims by the contractor for change orders and other expense reimbursement and (ii) claims by us for charges and liquidated damages for project completion delays. Our contract with this contractor contemplates binding arbitration to resolve these disputes, which we expect may conclude in late 2016 or early 2017. While we do not expect resolution of these disputes to have a material adverse impact on our financial position, it could be material to our results of operations and/or cash flows in any given accounting period.

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

Other Commitments

Other commitments as of June 30, 2016 were as follows (in millions):

	Commitments Expiring by Period		
	Total	Less Than One Year	More Than One Year
Letters of credit issued under the Revolving Credit Facility	\$ 160	\$ 13	\$ 147
Letters of credit - other	65	—	65
Surety bonds	161	—	161
Total other commitments — net	\$ 386	\$ 13	\$ 373

The letters of credit were issued to secure our performance under various contractual undertakings related to our domestic and international projects or to secure obligations under our insurance program. Each letter of credit relating to a project is required to be maintained in effect for the period specified in related project contracts, and generally may be drawn if it is not renewed prior to expiration of that period.

We believe that we will be able to fully perform under our contracts to which these existing letters of credit relate, and that it is unlikely that letters of credit would be drawn because of a default of our performance obligations. If any of these letters of credit were to be drawn by the beneficiary, the amount drawn would be immediately repayable by us to the issuing bank. If we do not immediately repay such amounts drawn under letters of credit issued under the Revolving Credit Facility, unreimbursed amounts would be treated under the Credit Facilities as either additional term loans or as revolving loans.

The surety bonds listed in the table above relate primarily to construction and performance obligations and support for other obligations, including closure requirements of various energy projects when such projects cease operating. Were these bonds to be drawn upon, we would have a contractual obligation to indemnify the surety company.

We have certain contingent obligations related to the 7.25% Notes, 6.375% Notes, 5.875% Notes, and Tax-Exempt Bonds. Holders may require us to repurchase their 7.25% Notes, 6.375% Notes, 5.875% Notes and Tax-Exempt Bonds if a fundamental change occurs. For specific criteria related to the redemption features of the 5.875% Notes, 7.25% Notes or 6.375% Notes, see Item 8. Financial Statements And Supplementary Data — Note 11. Consolidated Debt of our Annual Report on Form 10-K.

We have issued or are party to guarantees and related contractual support obligations undertaken pursuant to agreements to construct and operate waste and energy facilities. For some projects, such performance guarantees include obligations to repay certain financial obligations if the project revenue is insufficient to do so, or to obtain or guarantee financing for a project. With respect to our businesses, we have issued guarantees to municipal clients and other parties that our subsidiaries will perform in accordance with contractual terms, including, where required, the payment of damages or other obligations. Additionally, damages payable under such guarantees for our energy-from-waste facilities could expose us to recourse liability on project debt. If we must perform under one or more of such guarantees, our liability for damages upon contract termination would be reduced by funds held in trust and proceeds from sales of the facilities securing the project debt and is presently not estimable. Depending upon the circumstances giving rise to such damages, the contractual terms of the applicable contracts, and the contract counterparty's choice of remedy at the time a claim against a guarantee is made, the amounts owed pursuant to one or more of such guarantees could be greater than our then-available sources of funds. To date, we have not incurred material liabilities under such guarantees.

Benefit Obligations - Defined Contribution Plans

Substantially all of our employees in the United States are eligible to participate in defined contribution plans we sponsor. Our costs related to defined contribution plans were \$4 million and \$6 million for the three months ended June 30, 2016 and 2015, respectively, and \$8 million and \$10 million for the six months ended June 30, 2016 and 2015, respectively.

Dublin EfW Facility

In connection with the financing of the Dublin EfW facility, Covanta Energy has made commitments for contingent support as follows: (1) lending commitments up to €25 million to fund working capital shortfalls in the project company under certain circumstances during operations; and (2) up to €75 million commitment in the aggregate to provide support payments to the project company, under certain circumstances, in the event waste revenue falls below minimum levels (set far below anticipated levels).

Table of Contents

COVANTA HOLDING CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)

Essex County EfW Facility

We are implementing significant operational improvements at our Essex County EfW facility at a total estimated cost of approximately \$90 million. Construction commenced in 2014 and is expected to be substantially completed in 2016. As of June 30, 2016, we have approximately \$27 million of capital expenditures remaining to be incurred related to these improvements.

New York City Waste Transport and Disposal Contract

In 2013, New York City awarded us a contract to handle waste transport and disposal from two marine transfer stations located in Queens and Manhattan. Service for the Manhattan marine transfer station is expected pending approval from New York City. As of June 30, 2016, we expect to incur approximately \$32 million of additional capital expenditures, primarily for transportation equipment.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following MD&A is intended to help the reader understand the results of operations and financial condition of Covanta Holding Corporation and its subsidiaries; ("Covanta" or the "Company") for the three and six months ended June 30, 2016. The term "Covanta Energy" refers to our subsidiary Covanta Energy, LLC and its subsidiaries. The financial information as of June 30, 2016 should be read in conjunction with the financial statements for the year ended December 31, 2015 contained in our 2015 Annual Report on Form 10-K.

Factors Affecting Business Conditions and Financial Results

The following are various published pricing indices relating to the U.S. economic drivers that are relevant to those aspects of our business where we have market exposure; however, there is not an exact correlation between our results and changes in these metrics.

	June 30, 2016	June 30, 2015
Consumer Price Index ⁽¹⁾	1.0 %	0.1 %
PJM Pricing (Electricity) ⁽²⁾	\$22.64	\$28.51
NE ISO Pricing (Electricity) ⁽³⁾	\$23.49	\$24.83
Henry Hub Pricing (Natural Gas) ⁽⁴⁾	\$2.14	\$2.70
#1 HMS Pricing (Ferrous Metals) ⁽⁵⁾	\$220	\$236
Scrap Metals - Old Sheet & Old Cast ⁽⁶⁾	\$0.58	\$0.66

(1) Represents the year-over-year percent change in the Headline CPI number. The Consumer Price Index (CPI-U) data is provided by the U.S. Department of Labor Bureau of Labor Statistics.

(2) Average price per MWh for Q2 2016 and Q2 2015. Pricing for the PJM PSEG Zone is provided by the PJM ISO.

(3) Average price per MWh for Q2 2016 and Q2 2015. Pricing for the Mass Hub Zone is provided by the NE ISO.

(4) Average price per MMBtu for Q2 2016 and Q2 2015. The Henry Hub Pricing data is provided by the Natural Gas Weekly Update, Energy Information Administration, Washington, DC. Nebraska Energy Office, Lincoln, NE.

(5) Average price per gross ton for Q2 2016 and Q2 2015. The #1 Heavy Melt Steel ("HMS") composite index (\$/gross ton) price is published by American Metal Market.

(6) Average price per pound for Q2 2016 and Q2 2015. Calculated using the high and low prices for Old Sheet & Old Cast Scrap Metals (\$/lb.) published by American Metal Market.

Seasonal - Our quarterly operating income (loss) within the same fiscal year typically differs substantially due to seasonal factors, primarily as a result of the timing of scheduled plant maintenance. We conduct scheduled maintenance periodically each year, which requires that individual boiler and/or turbine units temporarily cease operations. During these scheduled maintenance periods, we incur material repair and maintenance expense and receive less revenue until the boiler and/or turbine units resume operations. This scheduled maintenance usually occurs during periods of off-peak electric demand and/or lower waste volumes, which are our first, second and fourth fiscal quarters. The scheduled maintenance period in the first half of the year (primarily first quarter and early second quarter) is typically the most extensive, while the third quarter scheduled maintenance period is the least extensive. Given these factors, we normally experience our lowest operating income from our projects during the first half of each year.

Our operating income may also be affected by seasonal weather extremes during summers and winters. Increased demand for electricity and natural gas during unusually hot or cold periods may affect certain operating expenses and may trigger material price increases for a portion of the electricity and steam we sell.

Quarter Updates

China Investments

During March 2016, we completed the exchange of our ownership interests in three EfW facilities located in China for a 15% ownership interest in Chongqing Sanfeng Environmental Industrial Group Co., Ltd ("Sanfeng Environment") pursuant to a July 2015 exchange agreement. We are currently in the process of obtaining the required approvals from the Chinese government to sell approximately 90% of the aforementioned ownership interest in Sanfeng Environment

to a subsidiary of CITIC Limited ("CITIC"), a leading Chinese industrial conglomerate and investment company, pursuant to the July 2015 equity transfer agreement with CITIC. This sale is expected to close in the third quarter of 2016 and result in cash proceeds to Covanta of approximately \$100 million, exclusive of any gains or losses received from foreign currency derivatives. In connection with these transactions, we entered into foreign currency exchange collars and forwards to hedge against rate fluctuations that might impact the cash proceeds

Table of Contents

in U.S. dollar terms. During the six months ended June 30, 2016, we received \$3 million in related settlements of foreign currency collars and forwards. For more information, see Note 11. Derivative Instruments.

We expect to recognize a gain on sale as a result of these transactions of approximately \$30 million, exclusive of expected gains from cumulative foreign currency translation adjustments.

Tartech Investment

We are party to a joint venture that was formed to recover and recycle metals from EfW ash monofills in North America. During the three months ended June 30, 2016, due to operational difficulties and the decline in the scrap metals market, a valuation of the entity was conducted. As a result, we recorded a net impairment of our investment in this joint venture of \$3 million, pre-tax, which represents our portion of the fair value of entity in excess of the carrying value.

CONSOLIDATED RESULTS OF OPERATIONS

The following general discussions should be read in conjunction with the condensed consolidated financial statements, the notes to the condensed consolidated financial statements and other financial information appearing and referred to elsewhere in this report. Additional detail relating to changes in operating revenue and operating expense and the quantification of specific factors affecting or causing such changes is provided in the segment discussion below. We have one reportable segment, North America, which is comprised of waste and energy services operations located primarily in the United States and Canada.

The comparability of the information provided below with respect to our revenue, expense and certain other items for the periods presented was affected by several factors. As outlined in Item 8. Financial Statements And Supplementary Data — Note 3. New Business and Asset Management of our Annual Report on Form 10-K, our business development initiatives, contract transitions, and acquisitions resulted in various transactions that are reflected in comparative revenue and expense. These factors must be taken into account in developing meaningful comparisons between the periods compared below.

The following terms used within the Results of Operations discussion are defined as follows:

• “Same store”: reflects the performance at each facility on a comparable period-over-period basis, excluding the impacts of transitions and transactions.

• Contract “transitions”: includes the impact of the expiration of: (a) long-term major waste and service contracts, most typically representing the transition to a new contract structure, and (b) long-term energy contracts.

• “Transactions”: includes the impacts of acquisitions, divestitures, and the addition or loss of operating contracts.

	Ended	Ended				
	June 30,	June 30,	Three	Six		
	2016	2015	Month	Month		
Contracted	4.4	4.4	8.5	8.3	—	0.2
Uncontracted	0.5	0.5	1.1	1.2	—	(0.1)
Total tons	4.9	4.9	9.5	9.5	—	—

(1) Includes solid tons only. Certain amounts may not total due to rounding.

Waste and service revenues on a consolidated and North America segment basis increased by \$21 million and \$22 million, respectively.

Waste and service revenues from EfW operations increased by \$5 million year-over-year, impacted by the following:

• Same store revenue increased by \$4 million, or 1.8%, driven by price improvement;

• Transactions activity increased revenue by \$2 million;

• Waste processing revenue decreased by \$1 million as a result of contract transitions; and

• Revenue earned explicitly to service project debt decreased by \$1 million.

Waste and service revenue from non-EfW operations in the North America segment increased by \$17 million primarily due to the contribution from newly acquired environmental services businesses and the New York City MTS contract.

For the six month comparative period, waste and service revenues on both a consolidated and North America segment basis increased by \$54 million.

Waste and service revenues from EfW operations increased by \$8 million year-over-year, impacted by the following:

• Same store revenue increased by \$10 million, or 2.0%, driven by price improvement;

• Transactions activity increased revenue by \$3 million;

• Waste processing revenue decreased by \$2 million as a result of contract transitions; and

• Revenue earned explicitly to service project debt decreased by \$3 million.

Waste and service revenue from non-EfW operations in the North America segment increased by \$46 million primarily due to the contribution from newly acquired environmental services businesses and the New York City MTS contract.

(1) Covanta share only. Represents the sale of electricity and steam based upon output delivered and capacity provided.

(2) Steam converted to MWh at an assumed average rate of 11 klbs of steam / MWh.

For the three month comparative period, energy revenues on a consolidated basis decreased by \$13 million.

Energy revenues from EfW operations increased by \$4 million year-over-year driven by contract transitions, which contributed \$7 million due to additional energy revenue sharing; partially offset by decreased same store revenue of \$4 million, primarily driven by lower energy pricing.

Energy revenue from non-EfW operations decreased by \$17 million, representing the contribution from biomass facilities and China operations in the prior year.

For the six month comparative period, energy revenues on a consolidated basis decreased by \$24 million.

Energy revenues from EfW operations increased \$5 million year-over-year driven by contract transitions, which contributed \$12 million due to additional energy revenue sharing; partially offset by decreased same store revenue of \$7 million, primarily driven by \$4 million in lower energy pricing and \$2 million in lower energy production.

Energy revenue from non-EfW operations decreased by \$29 million, driven by an \$18 million decrease related to economically dispatching biomass facilities and lower market pricing, and \$10 million in lower steam revenue resulting from the exchange of ownership interests in a facility in China during March 2016.

Table of Contents

Recycled Metals Revenue

Recycled Metals Revenue by Type (in millions):	Three Months Ended June 30,		Six Months Ended June 30,		Variance Increase (Decrease)
	2016	2015	2016	2015	
Ferrous Metal	\$11	\$11	\$19	\$21	—(2)
Non-Ferrous Metal	6	6	11	12	—(1)
Total	\$17	\$17	\$30	\$33	—(3)

Tons Sold by Type (in thousands) ⁽¹⁾	Three Months Ended June 30,		Six Months Ended June 30,		Variance Increase (Decrease)	
	2016	2015	2016	2015	Three Month	Six Month
Ferrous Metal	77	85	163	161	(8)	2
Non-Ferrous Metal	9	8	17	15	1	2

(1) Covanta share only.

Recycled Metals Revenue (in millions):	Three Months Ended		
	2016	2015	2014
March 31,	\$13	\$16	\$21
June 30,	17	17	25
September 30,	—	16	26
December 31,	—	12	21
Total for the year ended December 31,	N/A	\$61	\$93

For the three month comparative period, recycled metals revenue was flat on both a consolidated and North America segment basis. Although the indices for metals pricing were down for the period, our overall metals pricing improved slightly due to the quality of product from our centralized metals processing facility, which, upon processing and cleaning of residue, resulted in a reduction in net tons recovered and sold.

For the six month comparative period, recycled metals revenue decreased by \$3 million on both a consolidated and North America segment basis, attributable to a \$5 million decrease in prices, offset by a \$2 million increase in volumes. Although the indices for metals pricing were down for the period, such decrease was partially offset by an improvement in the quality of product from our centralized metals processing facility.

Other Operating Revenue

Other operating revenue increased \$2 million and \$3 million on a consolidated basis for the three month and six month comparative period, respectively, primarily due to higher construction revenue related to facility improvement projects at the Pinellas County EfW facility, partially offset by decreased revenue from the Durham-York project, which has been completed.

Operating Expense

Plant Operating Expense

North America segment (in millions):	Three Months Ended June 30,		Six Months Ended June 30,		Variance Increase (Decrease)
	2016	2015	2016	2015

All other	231	207	451	408	24	43
Plant operating expense	\$313	\$292	\$622	\$574	21	48

⁽¹⁾ Plant maintenance costs include our internal maintenance team and non-facility employee costs for facility scheduled and unscheduled maintenance and repair expense.

27

Table of Contents

For the three month comparative period, plant operating expenses on a consolidated and North America segment basis increased by \$14 million and \$21 million, respectively.

Plant operating expenses from EfW operations in our North America segment increased by \$9 million due to higher same store costs (\$5 million), increased expense resulting from contract transitions (\$2 million) and higher expense resulting from transactions (\$2 million).

Plant operating expenses from non-EfW operations in our North America segment increased by \$12 million primarily due to newly acquired environmental services businesses (\$11 million), the New York City MTS contract (\$2 million), the start-up of our centralized metals processing facility (\$2 million) and higher incentive compensation (\$6 million), partially offset by economically dispatching biomass facilities (\$9 million).

Consolidated plant operating expenses reflect an additional \$7 million decrease due to the exchange of ownership interests in three EfW facilities located in China during March 2016.

For the six month comparative period, plant operating expenses on a consolidated and North America segment basis increased by \$40 million and \$48 million, respectively.

Plant operating expenses from EfW operations increased by \$20 million, impacted by higher plant maintenance (\$10 million), primarily related to the timing and scope of scheduled maintenance performed, other higher same store costs (\$4 million), increased expense resulting from contract transitions (\$4 million) and higher expense resulting from transactions (\$2 million).

Plant operating expenses from non-EfW operations in our North America segment increased by \$28 million primarily due to newly acquired environmental services businesses (\$25 million), the New York City MTS contract (\$9 million), the start-up of our centralized metals processing facility (\$3 million) and higher incentive compensation (\$9 million), partially offset by economically dispatching biomass facilities (\$18 million).

Consolidated plant operating expenses reflect an additional \$7 million decrease due to the exchange of ownership interests in three EfW facilities located in China during March 2016.

Other Operating Expense

Other operating expenses in our North America segment decreased by \$8 million for the three months comparative period, primarily as a result of the completion of construction projects at the Honolulu and Durham-York EfW facilities.

Other operating expenses in our North America segment decreased by \$6 million for the six months comparative period, primarily as a result of the completion of construction projects at the Honolulu and Durham-York EfW facilities, partially offset by construction activity at the Pinellas County EfW facility.

General and Administrative Expense

Consolidated general and administrative expenses increased by \$2 million for the three month period primarily due to expenses related to higher incentive compensation.

Consolidated general and administrative expenses decreased by \$3 million for the six month period primarily due to lower expenses related to executive separation agreements in 2015, partially offset by higher incentive compensation.

Impairment Charges

During the three months ended June 30, 2016, due to operational difficulties and the decline in the scrap metals market, we recorded an impairment to our investment in the Tarteck joint venture of \$3 million, pre-tax, which represented our portion of the carrying value in excess of the fair value of the entity.

During the six months ended June 30, 2016, we recorded impairment charges totaling \$19 million, of which \$13 million was related to the closure of our Pittsfield EfW facility. In March 2016, we exercised an early termination option available under our steam sale agreement for our Pittsfield EfW facility that will be effective on or about March 2017. Upon termination of the steam agreement, we intend to cease operations at the Pittsfield facility. As a result, we recorded a non-cash impairment charge of \$13 million, pre-tax, which was calculated based on the estimated cash flows for this facility during its remaining operations.

Operating Income

Excluding the impairment charges discussed above, operating income was flat on a consolidated basis and decreased \$1 million on a North America segment basis for the three month comparative period. Operating income was

impacted primarily by lower

28

Table of Contents

energy market prices and higher incentive compensation, offset by the contribution of new businesses and the 2015 construction profit reduction for Durham York.

Excluding the impairment charges discussed above, operating income decreased on a consolidated basis and North America segment basis by \$6 million and \$7 million, respectively, for the six month comparative period. Operating income was impacted primarily by lower energy and recycled metal revenue (both driven by lower market prices), higher EfW plant operating expense, largely due to the timing and scope of scheduled maintenance performed, and higher incentive compensation, offset by the contribution of new businesses, higher EfW waste pricing, lower general and administrative expense due to executive separation expense incurred in 2015, and the construction profit reduction for Durham-York in 2015.

CONSOLIDATED RESULTS OF OPERATIONS — NON-OPERATING INCOME ITEMS

Three and Six Months Ended June 30, 2016 and 2015

Other Expense:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015		Variance Increase (Decrease)	
	2016	2015	2016	2015	Three Month	Six Month

Other expense:

Interest expense	\$34	\$33	\$68	\$68	\$1	\$—
Loss on extinguishment of debt	—	2	—	2	(2)	(2)
Other expense, net	(2)	(1)	—	1	(1)	(1)
Total other expense	\$32	\$34	\$68	\$71	(2)	(3)

Income Tax (Expense) Benefit:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015		Variance Increase (Decrease)	
	2016	2015	2016	2015	Three Month	Six Month

(In millions, except percentages)

CONSOLIDATED RESULTS OF OPERATIONS:

Income tax (expense) benefit			\$(3)	\$40	\$7	\$30	\$(43)	\$(23)
Effective income tax rate			14%	81%	9%	38%	N/A	N/A

During the six months ended June 30, 2016, the change in effective tax rate primarily resulted from changes in the mix of earnings and the change from forecasted pre-tax income in 2015 to forecasted pre-tax loss in 2016.

Supplementary Financial Information — Adjusted Earnings Per Share (“Adjusted EPS”) (Non-GAAP Discussion)
We use a number of different financial measures, both United States generally accepted accounting principles (“GAAP”) and non-GAAP, in assessing the overall performance of our business. To supplement our results prepared in accordance with GAAP, we use the measure of Adjusted EPS, which is a non-GAAP financial measure as defined by the Securities and Exchange Commission (“SEC”). The non-GAAP financial measure of Adjusted EPS is not intended as a substitute or as an alternative to diluted earnings (loss) per share as an indicator of our performance or any other measure of performance derived in accordance with GAAP. In addition, our non-GAAP financial measures may be different from non-GAAP financial measures used by other companies, limiting their usefulness for comparison purposes. We use the non-GAAP financial measure of Adjusted EPS to enhance the usefulness of our financial information by providing a measure which management internally uses to assess and evaluate the overall performance and highlight trends in the ongoing business.

Adjusted EPS excludes certain income and expense items that are not representative of our ongoing business and operations, which are included in the calculation of diluted earnings per share in accordance with GAAP. The following items are not all-inclusive, but are examples of reconciling items in prior comparative and future periods. They would include the results of operations of our insurance subsidiaries, impairment charges, the effect of derivative instruments not designated as hedging instruments, significant gains or losses from the disposition or restructuring of businesses, gains and losses on assets held for sale, transaction-related costs, income and loss on the extinguishment of debt and other significant items that would not be representative of our ongoing business.

In order to provide a meaningful basis for comparison, we are providing information with respect to our Adjusted EPS for the three and six months ended June 30, 2016 and 2015, reconciled for each such period to diluted loss per share, which is believed to be the most directly comparable measure under GAAP (in millions, except per share amounts):

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Diluted loss per share	\$(0.23)	\$(0.05)	\$(0.51)	\$(0.33)
Reconciling items ^(a)	0.01	(0.01)	0.10	0.14
Adjusted EPS	\$(0.22)	\$(0.06)	\$(0.41)	\$(0.19)

(a) Additional information is provided in the Reconciling Items table below.

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Reconciling Items				
Impairment charges ^(a)	\$4	\$24	\$19	\$24
Severance and reorganization costs ^(b)	1	—	2	6
Loss on extinguishment of debt	—	2	—	2
Effect on income of derivative instruments not designated as hedging instruments	(3) —	1	—
Effect of foreign exchange gain on indebtedness	—	(1) (1) 1

Pro forma income tax impact ^(c)	(1) (11) (8) (14
Legal entity restructuring charge	—	(15) —	—
Total reconciling items, net of tax	\$1	\$(1) \$13	\$19
Diluted earnings per share impact	\$0.01	\$(0.01)	\$0.10	\$0.14
Weighted average diluted shares outstanding	129	132	129	132

(a) During the three months ended June 30, 2016, we recorded a non-cash impairment totaling \$4 million, of which \$3 million related to an investment in a joint venture to recover and recycle metals.

During the six months ended June 30, 2016, we recorded non-cash impairment charges totaling \$19 million, of which \$13 million was related to the pending closure of our Pittsfield EfW facility in March 2017.

The six months ended June 30, 2015 includes an impairment charge of our biomass assets totaling \$24 million.

See Results of Operations - Impairment charges discussion above.

- (b) For the six months ended June 30, 2015, comprised of costs incurred in connection with separation agreements related to the departure of two executive officers, of which \$4 million related to non-cash compensation.
- (c) We calculate the federal and state tax impact of each item using the statutory federal tax rate and applicable blended state rate.

31

Supplementary Financial Information — Adjusted EBITDA (Non-GAAP Discussion)

To supplement our results prepared in accordance with GAAP, we use the measure of Adjusted EBITDA, which is a non-GAAP financial measure as defined by the SEC. This non-GAAP financial measure is described below, and is not intended as a substitute and should not be considered in isolation from measures of financial performance prepared in accordance with GAAP. In addition, our use of non-GAAP financial measures may be different from non-GAAP financial measures used by other companies, limiting their usefulness for comparison purposes. The presentation of Adjusted EBITDA is intended to enhance the usefulness of our financial information by providing a measure which management internally uses to assess and evaluate the overall performance of its business and those of possible acquisition candidates, and highlight trends in the overall business.

We use Adjusted EBITDA to provide further information that is useful to an understanding of the financial covenants contained in the credit facilities of our most significant subsidiary, Covanta Energy, and as additional ways of viewing aspects of its operations that, when viewed with the GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provide a more complete understanding of our core business. The calculation of Adjusted EBITDA is based on the definition in Covanta Energy's Credit Facilities, which we have guaranteed. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation and amortization, as adjusted for additional items subtracted from or added to net income. Because our business is substantially comprised of that of Covanta Energy, our financial performance is substantially similar to that of Covanta Energy. For this reason, and in order to avoid use of multiple financial measures which are not all from the same entity, the calculation of Adjusted EBITDA and other financial measures presented herein are measured on a consolidated basis for continuing operations, less the results of operations of our insurance subsidiaries. Under the Credit Facilities, Covanta Energy is required to satisfy certain financial covenants, including certain ratios of which Adjusted EBITDA is an important component. Compliance with such financial covenants is expected to be the principal limiting factor which will affect our ability to engage in a broad range of activities in furtherance of our business, including making certain investments, acquiring businesses and incurring additional debt. Covanta Energy was in compliance with these covenants as of June 30, 2016. Failure to comply with such financial covenants could result in a default under the Credit Facilities, which default would have a material adverse effect on our financial condition and liquidity. Adjusted EBITDA should not be considered as an alternative to net income or cash flow provided by operating activities as indicators of our performance or liquidity or any other measures of performance or liquidity derived in accordance with GAAP.

In order to provide a meaningful basis for comparison, we are providing information with respect to our Adjusted EBITDA for the three and six months ended June 30, 2016 and 2015, respectively, reconciled for each such period to net loss and cash flow provided by operating activities, which are believed to be the most directly comparable measures under GAAP. The following is a reconciliation of Net Loss to Adjusted EBITDA (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Net Loss Attributable to Covanta Holding Corporation	\$(29)	\$(6)	\$(66)	\$(43)
Depreciation and amortization expense	51	50	103	98
Interest expense, net	34	33	68	68
Income tax expense (benefit)	3	(40)	(7)	(30)
Impairment charges ^(a)	4	24	19	24
Loss on extinguishment of debt	—	2	—	2
Debt service billing in excess of revenue recognized	1	—	2	1
Severance and reorganization costs	1	—	2	2
Non-cash compensation expense ^(b)	4	3	9	11
Capital type expenditures at service fee operated facilities ^(c)	12	14	23	22

Other ^(d)	1	3	5	7
Total adjustments	111	89	224	205
Adjusted EBITDA	\$82	\$83	\$158	\$162

(a) See Adjusted EPS - Note (a) and Results of Operations - Impairment charges above.

(b) The six months ended June 30, 2015 included \$4 million of costs incurred in connection with separation agreements related to the departure of two executive officers.

(c) Adjustment for impact of adoption of FASB ASC 853 - Service Concession Arrangements. These types of expenditures at our service fee operated facilities were historically capitalized prior to adoption of this accounting standard effective January 1, 2015.

(d) Includes certain other items that are added back under the definition of Adjusted EBITDA in Covanta Energy's credit agreement.

(a) See Adjusted EBITDA - Note (c).

For additional discussion related to management's use of non-GAAP measures, see Liquidity and Capital Resources — Supplementary Financial Information — Free Cash Flow (Non-GAAP Discussion) below.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are our cash and cash equivalents, cash flow generated from our ongoing operations, and available capacity under our credit facilities, which we believe will collectively allow us to meet our liquidity needs. For additional information regarding our credit facilities and other debt, see Item 1. Financial Statements - Note 6. Consolidated Debt. We typically receive cash distributions from our North America segment projects on a monthly basis. Our primary future cash requirements will be to fund capital expenditures to maintain our existing businesses, service our debt, invest in the growth of our business, and return capital to our shareholders. We believe that our liquidity position and ongoing cash flow from operations will be sufficient to finance these requirements for at least the next twelve months.

In 2016, we expect to generate net cash from operating activities which will meet or exceed our cash requirements for both capital expenditures to maintain our existing assets and for ongoing dividends to shareholders. We intend to utilize existing cash balances and debt financing to fund investments in the growth of our business in 2016, including our committed investments in the Dublin EfW facility (utilizing non-recourse project financing arranged in 2014), the Essex County EfW facility (utilizing proceeds from the tax-exempt bond issuance completed in 2015), and other growth investments (utilizing our borrowings under the Revolving Credit Facility). In order to offset a portion of the indebtedness incurred to finance these investments in the growth of our business, as well as borrowings incurred to fund share repurchases completed in late 2015 and early 2016 (referenced above), we intend upon receipt to utilize a portion of the anticipated proceeds from the sale of our ownership interest in Sanfeng Environment to CITIC Limited, or approximately \$50 million, to repay borrowings under our Revolving Credit Facility. For additional information regarding the financing arrangements referenced above, see Item 8. Financial Statements and Supplementary Data - Note 11. Consolidated Debt of our Annual Report on Form 10-K for the year ended December 31, 2015.

Beyond 2016, we expect that our financial results will be affected by several factors, including: market prices, contract transitions, new contracts, rates of new business growth in our environmental services operations, acquisitions and other growth investments, continuous improvement initiatives, and our ability to manage facility production and operating costs. In addition, we expect our Dublin EfW facility to commence commercial operations in late 2017, after which we expect it to contribute meaningfully to our financial results. In addition, under our capital allocation policy, we intend to use any excess cash flow from operations above the amount of these on-going requirements to either invest in growth opportunities, repay indebtedness, and/or repurchase stock. If and as we identify attractive growth investment opportunities that exceed our expected cash flow from operations, we will continue to consider utilizing debt financing to the extent that it is available in the market on acceptable terms.

We have substantial indebtedness, including \$1.1 billion that will mature through 2020. We generally intend to refinance these instruments prior to maturity with like-kind financing in the bank loan and/or debt capital markets in

order to maintain a capital structure comprised primarily of long-term debt, which we believe appropriately matches the long-term nature of our assets and contracts.

The loan documentation governing the Credit Facilities contains various affirmative and negative covenants, as well as financial maintenance covenants (financial ratios), that limit our ability to engage in certain types of transactions. We were in compliance with all of the affirmative and negative covenants under the Credit Facilities as of June 30, 2016. We do not anticipate our existing debt covenants to restrict our ability to undertake additional financing.

For additional information regarding the covenants under our Credit Facilities, see Item 8. Financial Statements and Supplementary Data — Note 11. Consolidated Debt of our Annual Report on Form 10-K for the year ended December 31, 2015.

Table of Contents

Other Factors Affecting Liquidity

As of June 30, 2016, we held cash balances of \$108 million, of which \$46 million were held by international subsidiaries and not generally available for near-term liquidity in our domestic operations. As of June 30, 2016, we had restricted cash of \$138 million, of which \$13 million was designated for future payment of project debt principal.

Restricted funds held in trust are primarily amounts received and held by third-party trustees relating to certain projects we own. We generally do not control these accounts and these funds may be used only for specified purposes. As of June 30, 2016, we had unused and available capacity under our Revolving Credit Facility of \$347 million and were in compliance with all of the covenants under our Credit Facilities. For additional information regarding the Credit Facilities, see Item 1. Financial Statements — Note 6. Consolidated Debt.

During the three months ended June 30, 2016, dividends declared to stockholders were \$33 million, or \$0.25 per share. Such amounts were paid in July 2016. During the six months ended June 30, 2016, we repurchased 1.2 million shares of our common stock at a weighted average cost of \$15.29 for an aggregate amount of \$18 million. We expect to repurchase outstanding shares from time to time, the amount and timing of future repurchases may vary depending on market conditions and the level of operating, financing and other investing activities. As of June 30, 2016, the amount remaining under our currently authorized share repurchase program was \$66 million.

Our projected contractual obligations are consistent with amounts disclosed in our Form 10-K for the year ended December 31, 2015. For additional information regarding the Union County EfW Capital Lease, see Item 1. Financial Statements — Note 6. Consolidated Debt, for additional information on other commitments, see Item 1. Financial Statements — Note 12. Commitments and Contingencies - Other Matters.

Sources and Uses of Cash Flow for the Six Months Ended June 30, 2016 and 2015:

Net cash provided by operating activities for the six months ended June 30, 2016 was \$58 million, an increase of \$27 million from the prior year period. The increase was primarily due to favorable working capital of \$36 million, partially offset by a decrease in operating performance of \$6 million, as discussed above in our Results of Operations. The favorable working capital impact was primarily driven by the absence of bonus payments during 2016, which had been \$34 million in the prior year.

Net cash used in investing activities for the six months ended June 30, 2016 was \$191 million, a net decrease of \$52 million from the prior year period. The decrease was principally attributable to reduced acquisition spending of \$39 million and decreased purchases of property, plant and equipment totaling \$11 million. The property, plant and equipment decrease was principally attributable to lower Dublin construction project expenditures of \$17 million and lower New York City contract expenditures of \$16 million, partially offset by increased maintenance capital expenditures of \$13 million and Essex County EfW emissions control system expenditures of \$5 million.

Net cash provided by financing activities for the six months ended June 30, 2016 was \$143 million, a net decrease of \$52 million from the prior period. The decrease was primarily attributable to lower net borrowings under the revolving credit facility of \$61 million and stock repurchases totaling \$20 million, partially offset by increased borrowings related to our Dublin facility totaling \$32 million.

Supplementary Financial Information — Free Cash Flow (Non-GAAP Discussion)

To supplement our results prepared in accordance with GAAP, we use the measure of Free Cash Flow, which is a non-GAAP measure as defined by the SEC. This non-GAAP financial measure is not intended as a substitute and should not be considered in isolation from measures of liquidity prepared in accordance with GAAP. In addition, our use of Free Cash Flow may be different from similarly identified non-GAAP measures used by other companies, limiting its usefulness for comparison purposes. The presentation of Free Cash Flow is intended to enhance the usefulness of our financial information by providing measures which management internally uses to assess and evaluate the overall performance of its business and those of possible acquisition candidates, and highlight trends in the overall business.

We use the non-GAAP financial measure of Free Cash Flow as a criterion of liquidity and performance-based components of employee compensation. Free Cash Flow is defined as cash flow provided by operating activities, excluding the cash flow provided by or used in our insurance subsidiaries, less maintenance capital expenditures, which are capital expenditures primarily to maintain our existing facilities. We use Free Cash Flow as a measure of

liquidity to determine amounts we can reinvest in our core businesses, such as amounts available to make acquisitions, invest in construction of new projects, make principal payments on debt, or return capital to our stockholders through dividends and/or stock repurchases. For additional discussion related to management's use of non-GAAP measures, see Consolidated Results of Operations — Supplementary Financial Information — Adjusted EBITDA and Adjusted EPS (Non-GAAP Discussion) above.

Table of Contents

Purchases of property, plant and equipment are also referred to as capital expenditures. Capital expenditures that (a) primarily maintain existing facilities are classified as maintenance capital expenditures. The following table provides the components of total purchases of property, plant and equipment:

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Maintenance capital expenditures	\$(32)	\$(29)	\$(68)	\$(55)
Capital expenditures associated with organic growth initiatives	(8)	(10)	(22)	(18)
Capital expenditures associated with the New York City contract	(2)	(6)	(3)	(19)
Capital expenditures associated with the Essex County EfW emissions control system	(8)	(5)	(18)	(13)
Capital expenditures associated with construction of the Dublin EfW facility	(48)	(59)	(73)	(90)
Total capital expenditures associated with growth investments	(66)	(80)	(116)	(140)
Total purchases of property, plant and equipment	\$(98)	\$(109)	\$(184)	\$(195)

(b) Growth investments include investments in growth opportunities, including organic growth initiatives, technology, business development and other similar expenditures.

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015	
Capital expenditures associated with growth investments	\$(66)	\$(80)	\$(116)	\$(140)
Acquisitions, net of cash acquired	—	(48)	(9)	(48)
Total growth investments	\$(66)	\$(128)	\$(125)	\$(188)

(c) Excludes borrowings under Revolving Credit Facility. Calculated as follows:

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2015
Proceeds from borrowings on long-term debt	\$-165	\$-165
Refinanced long-term debt	—(162)	—(162)
Less: Financing costs related to issuance of long-term debt	—(1)	—(1)
Net proceeds from issuance of corporate debt	\$-2	\$-2

(d) Calculated as follows:

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2015
Proceeds from borrowings on project debt	\$-59	\$-59
Refinanced project debt	—(42)	—(42)
Less: Financing costs related to the issuance of project debt	—(2)	—(2)
Net proceeds from issuance of project debt	\$-15	\$-15

(e) During the six months ended June 30, 2015, we financed \$15 million of equipment purchases related to the New York City contract.

(f) Calculated as follows:

	Three Months Ended	Six Months Ended
--	--------------------	------------------

	Ended		June 30,	
	June 30,		June 30,

Recent Accounting Pronouncements

See Item 1. Financial Statements — Note 2. Recent Accounting Pronouncements for information related to new accounting pronouncements.

Discussion of Critical Accounting Policies and Estimates

In preparing our condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"), we are required to use judgment in making estimates and assumptions that affect the amounts reported in our financial statements and related notes. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Many of our critical accounting policies are subject to significant judgments and uncertainties which could potentially result in materially different results under different conditions and assumptions. Future events rarely develop exactly as forecast, and the best estimates routinely require adjustment. Management believes there have been no material changes during the six months ended June 30, 2016 to the items discussed in Discussion of Critical Accounting Policies in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations of our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of business, our subsidiaries are party to financial instruments that are subject to market risks arising from changes in commodity prices, interest rates, foreign currency exchange rates, and derivative instruments. Our use of derivative instruments is very limited and we do not enter into derivative instruments for trading purposes. There have been no material changes during the six months ended June 30, 2016 to the items discussed in Item 7A. Quantitative and Qualitative Disclosures About Market Risk of our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 4. CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of Covanta's disclosure controls and procedures, as required by Rule 13a-15(b) and 15d-15(b) under the Securities Exchange Act of 1934 (the "Exchange Act") as of June 30, 2016. Our disclosure controls and procedures are designed to reasonably assure that information required to be disclosed by us in reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure and is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Our Chief Executive Officer and Chief Financial Officer have concluded that, based on their reviews, our disclosure controls and procedures were not effective to provide such reasonable assurance, because the previously reported material weaknesses discussed below have not yet been remediated. We have advised our audit committee of these deficiencies in our internal control over financial reporting, and the fact that these deficiencies constitute "material weaknesses."

A material weakness in internal control over financial reporting is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis by our internal controls. Because such material weaknesses were determined to exist, we performed additional procedures to ensure our consolidated financial statements included in this quarterly report on Form 10-Q presented fairly, in all material respects, our financial position, results of operations and cash flows for the periods presented in conformity with accounting principles generally accepted in the United States.

As we continue to evaluate and work to improve our internal control over financial reporting, management may determine that it is necessary to take additional measures to address control deficiencies or may determine that it is necessary to modify the remediation plans described below. The operation of each of the control changes will need to be observed for a period of time before management is able to conclude that the material weaknesses have been remediated. If not remediated, these material weaknesses could result in a material misstatement to our consolidated financial statements. Management continues to monitor implementation of its remediation plans and timetables and

believes the efforts described below will effectively remediate both material weaknesses.

Income Taxes

During the quarter ended June 30, 2016, our Chief Executive Officer and Chief Financial Officer concluded that we did not maintain effective internal control over the determination and reporting of the provision for state income taxes, and more specifically, over the precision of the review to ensure the accuracy of the state income tax rate applied to certain cumulative deferred tax balances.

37

Table of Contents

Since first reporting this material weakness during the quarter ended June 30, 2015, we have continued to observe the operation of each of the control changes effected as part of our remediation efforts, for the purpose of evaluating their effectiveness over a period of time sufficient for management to conclude whether the reported material weakness has been remediated. Although the control changes have been implemented, we have concluded that the period of time over which the operating effectiveness of newly implemented and modified controls was not yet sufficient for our Chief Executive Officer and Chief Financial Officer to conclude that this material weakness has been effectively remediated.

Municipally-Owned Facility Construction Accounting

During the quarter ended June 30, 2016, our Chief Executive Officer and Chief Financial Officer concluded that we have not yet remediated the previously-reported material weakness relating to the estimation and timeliness of the reporting of certain costs on municipally-owned construction projects. As originally reported during the quarter ended September 30, 2015, we did not maintain effective internal control over the estimation and timeliness of the reporting of certain costs associated with a maintenance outage conducted to perform certain remediation work on the Durham-York project and initial start-up operations of the project. At the time the material weakness was determined to exist in 2015, the Durham-York project was our only municipally-owned project in original construction or start-up, and is now completed and is in commercial operations. When long-term construction revenue contracts for facilities that are municipally owned move to a projected net loss position, as the Durham-York contract did in the quarter ended June 30, 2015, all changes to the projected net loss are required to be recorded in the period those changes are identified.

During the quarter ended September 30, 2015, we estimated incremental costs for the Durham-York project expected to be incurred to conduct outages to modify certain equipment and to conduct initial start-up operations. During the quarter ended September 30, 2015, we determined that our prior estimate was not sufficiently accurate, and required refinement to our projected net loss. We determined that our inability to estimate such outage and start-up costs with sufficient accuracy during the period they were identified constituted a “material weakness” in our internal controls over financial reporting.

Since this material weakness was originally reported, we implemented and commenced observation of the operation of each of the control changes, as previously disclosed, for the purpose of evaluating their effectiveness over a period of time sufficient for management to conclude whether the material weakness has been remediated. We have also observed the operation and accuracy of our cost estimating procedures on our Dublin project (which is not a municipally-owned project), the extent to which those procedures were affected by the material weakness in cost estimating on municipally owned projects, and implemented the same improvements to the Dublin procedures in order to mitigate the potential for inaccuracies in our financial statements.

Our management, including our Chief Executive Officer and Chief Financial Officer, believes that any disclosure controls and procedures or internal controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must consider the benefits of controls relative to their costs. Inherent limitations within a control system include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by unauthorized override of the control. While the design of any system of controls is to provide reasonable assurance of the effectiveness of disclosure controls, such design is also based in part upon certain assumptions about the likelihood of future events, and such assumptions, while reasonable, may not take into account all potential future conditions. Accordingly, because of the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and may not be prevented or detected.

Changes in Internal Control over Financial Reporting

Except as noted in the preceding paragraphs, there has not been any change in our system of internal control over financial reporting during the quarter ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.
