(d)

As per Rules 80 and 81, natural gas supply, storage or transportation capacity transactions are not reported hereunder. Services provided by or to Dominion Resources Services, Inc. ("DRS") are billed pursuant to standard at-cost service agreements between DRS and Dominion Resources, Inc. subsidiaries. Information with respect to transactions under such agreements is not provided in this report, but is provided by Form U-13-60.

(e)

Amounts shown are in thousands.

Page 9

ITEM 3 - ASSOCIATE TRANSACTIONS (continued)

(f)

Services provided by DTECH to Dresden Energy, LLC and Dominion Equipment III, Inc. as agent for Fairless Energy, LLC are provided pursuant to service agreements dated August 1, 2002 in the form of Exhibits D and E respectively, to the DRI Form U-9C-3 filed for the third quarter of 2002.

(g)

Services provided by DTECH to Dominion Nuclear Connecticut, Inc. are provided pursuant to a service agreement dated June 1, 2004, which is attached hereto, as Exhibit B.

(h)

Services provided by DTECH to Pleasants Energy, LLC are provided pursuant to service agreements dated August 1, 2002 in the form of Exhibit B to the DRI Form U-9C-3 filed for the second quarter of 2003.

(i)

Services provided by DTECH to DTI are provided pursuant to a service agreement dated January 1, 2004 in the form of Exhibit C to the DRI Form U-9C-3 filed for the first quarter of 2004.

(j)

Services provided by DTECH to Dominion Elwood Services Company, Inc. are provided pursuant to a service agreement dated November 1, 2004 filed in the form of Exhibit B to the U-9C-3 for the first quarter of 2005.

(k)

Services provided by DTECH to Kincaid Generation, L.L.C. are provided pursuant to a service agreement dated April 1, 2004 in the form of Exhibit C to the DRI Form U-9C-3 filed for the third quarter of 2004.

(l)

Services provided by DTECH to Dominion Energy Manchester Street, Inc. are provided pursuant to a service agreement dated January 1, 2005, which is attached hereto, as Exhibit C.

(m)

Services provided by DTECH to Dominion Energy Salem Harbor, LLC are provided pursuant to a service agreement dated January 1, 2005, which is attached hereto, as Exhibit D.

(n)

Services provided by DTECH to Dominion Energy Brayton Point, LLC are provided pursuant to a service agreement dated January 1, 2005, which is attached hereto, as Exhibit E.

(o)

Services provided by Field Services to DTI are provided pursuant to a service agreement dated April 23, 2001 filed in the form of Exhibit A(e) to the CNG Form U-9C-3 filed for the second quarter of 2002.

(p)

Services provided by Field Services to Dominion Appalachian Development, Inc. are provided pursuant to a service agreement dated May 1, 2002 in the form of Exhibit A(g) to the CNG Form U-9C-3 filed for the second quarter of 2002.

(q)

Services provided by Field Services to Dominion Exploration and Production, Inc. are provided pursuant to a purchase gas agreement dated July 21, 1998 filed in form Exhibit C to the Form U-9C-3 filed for the first quarter of 2005.

(r)

Services provided by Dominion Cove Point LNG, LP to DTI are provided pursuant to service agreements dated January 1, 2004 in the form of Exhibit B to the DRI Form U-9C-3 filed for the first quarter of 2004.

EXHIBIT B

SERVICE AGREEMENT
BETWEEN
DOMINION TECHNICAL SOLUTIONS AND
DOMINION NUCLEAR CONNECTICUT, INC.

This document defines the services provided to Dominion Nuclear Connecticut, Inc. by Dominion Technical Solutions. These services are detailed in the chapters that follow. A pricing schedule and a contact listing for this agreement is provided.

Duration

: This service agreement will be in effect from June 1, 2004 (or the actual execution date) through December 31, 2005. The Director - Electric Transmission Operations and the Millstone Director of Nuclear Engineering must agree to any changes to this agreement.

Pricing

: Pricing is based upon time and materials in accordance with the pricing schedules in Appendix "A". As you will note we have included SBU overheads and the SAP billing surcharge according to our agreement with the Virginia SCC for work with other affiliates within Dominion.

Requests

: All work request for Engineering, Construction, Material Procurement, and Technical Services for substations by Dominion Technical Solutions shall be made by authorized station personnel. Initial contact can be made according to the contact listings in Appendix "B". A Letter of Authorization (LOA) for the work must be sent to the person on top of the contact listing even if the initial contact was by telephone. Emergency telephone numbers are provided for work request outside of normal business hours.

Billing

: A WBS element will be set up that defaults to the Dominion Service Company for any work Dominion Technical Solutions may perform for Dominion Nuclear Connecticut, Inc. The WBS element will be used for labor and SAP will be set up to add the appropriate overhead markups per the pricing schedule. Specific purchased materials will be charged directly to Dominion Nuclear Connecticut, Inc. at cost. The Service Company will automatically invoice Dominion Nuclear Connecticut, Inc. each month based upon any charges that have been made to the Dominion Nuclear Connecticut, Inc. WBS element. This invoice will be entered as revenue to the Dominion Technical Solutions income statement.

1.0 Dominion Technical Solutions

Description of Services Provided

Dominion Technical Solutions provides the following Engineering, Project Management, Construction and Technical Support services on a routine or "as requested" basis:

1.1 System Protection Engineering

- Protection and Control Design, including the related engineering and construction specifications, cost estimating, application analysis, communications paths, and Computer Aided Design and Drafting (CADD).

1.2 Substation Engineering

- Design engineering and construction specifications for substation additions/modifications.

1.3 Project Management and Support

- Provides turnkey project management for construction of transmission lines and substations. Permitting, routing, scheduling, surveying, real estate acquisition, Materials Management, and cost tracking and analysis.

1.4 Construction Support Services

- Direct construction activities which includes scheduling, tracking, and staging of materials, construction development, and selection of contractors.

1.5 Electrical Equipment Technical Support Services

- Provide Oil Quality testing services on GSU, Station Service transformers, Reserve Station Service transformers, and Substation Power Transformers.
- Provide transformer oil dissolved gas analysis (DGA) lab testing and interpretation of test results on a routine basis.
- Initial test data and all future test sample data will be included in Transmission Field Operations - Substations DGA database and trended accordingly.
- Provide transformer maintenance technical support services.
- Provide circuit breaker maintenance technical support services.
- Provide oil processing technical support services.
- Maintain electrical equipment nameplate data in the Transmission Operations Substations equipment database.
- Provide thermal scan support for the electrical system including labor and scan equipment.
- Provide Station control battery testing services

- Provide Station ground grid testing services

1.6 Protective Relaying Technical Support Services

- Perform routine testing of protective relays. This includes inspection, as found tests, application of settings, calibration, cleaning, and documentation.
- Perform routine operational checks of protective relay control schemes.
- Perform routine testing of transformer gauges and alarms.
- Insulation testing of protective relay and control circuits.
- Perform Current and Potential Transformer ratio and insulation tests.
- Provide special test such as generator synchronizing relay verification, electrical disturbance analyzer installation, temporary fault recorder installation and remote interrogation of microprocessor relays.
- Respond to technical questions and request for technical support from station personnel.
- Provide lab services such as repair of broken relays, relay evaluations, and investigate problems with relays.

Service Level Provided

Services requested by the customer will be provided as needed. If the requested services are required on site, an advance notice of one week will be required prior to date the services are needed. If the on site services requested are delayed or canceled without prior notice, all cost incurred will be billed.

Transformer oil dissolved gas analysis (DGA) services will be scheduled through Electric Transmission Field Operations - Substations computerized maintenance management system (CNMS) at the intervals set by the customer. Oil syringes will be provided to the customer and should be returned within 2 weeks. The test results and the interpretation of those results should be available within 30 days. This service will be billed on a per sample basis.

SERVICE AGREEMENT
BETWEEN
DOMINION TECHNICAL SOLUTIONS AND
DOMINION ENERGY MANCHESTER STREET, INC.

This document defines the services provided to Dominion Energy Manchester Street, Inc. by Dominion Technical Solutions. These services are detailed in the chapters that follow. A pricing schedule and a contact listing for this agreement is provided.

Duration

: This service agreement will be in effect from January 1, 2005 (or the actual execution date) through December 31, 2010. The Director - Electric Transmission Operations and the Managing Director - Fossil & Hydro Operations must agree to any changes to this agreement.

Pricing

: Pricing is based upon time and materials in accordance with the pricing schedules in Appendix "A". As you will note we have included SBU overheads and the SAP billing surcharge according to our agreement with the Virginia SCC for work with other affiliates within Dominion.

Requests

: All work request for Engineering, Construction, Material Procurement, and Technical Services for substations by Dominion Technical Solutions shall be made by authorized station personnel. Initial contact can be made according to the contact listings in Appendix "B". A Letter of Authorization (LOA) for the work must be sent to the person on top of the contact listing even if the initial contact was by telephone. Emergency telephone numbers are provided for work request outside of normal business hours.

Billing

: A WBS element will be set up that defaults to the Dominion Service Company for any work Dominion Technical Solutions may perform for Dominion Energy Manchester Street, Inc. The WBS element will be used for labor and SAP will be set up to add the appropriate overhead markups per the pricing schedule. Specific purchased materials will be charged directly to Dominion Energy Manchester Street, Inc. at cost. The Service Company will automatically invoice Dominion Energy Manchester Street, Inc. each month based upon any charges that have been made to the Dominion Energy Manchester Street, Inc. WBS element. This invoice will be entered as revenue to the Dominion Technical Solutions income statement.

1.0 Dominion Technical Solutions

Description of Services Provided

Dominion Technical Solutions provides the following Engineering, Project Management, Construction and Technical Support services on a routine or "as requested" basis:

1.1 System Protection Engineering

- Protection and Control Design, including the related engineering and construction specifications, cost estimating, application analysis, communications paths, and Computer Aided Design and Drafting (CADD).

1.2 Substation Engineering

- Design engineering and construction specifications for substation additions/modifications.

1.3 Project Management and Support

- Provides turnkey project management for construction of transmission lines and substations. Permitting, routing, scheduling, surveying, real estate acquisition, Materials Management, and cost tracking and analysis.

1.4 Construction Support Services

- Direct construction activities which includes scheduling, tracking, and staging of materials, construction development, and selection of contractors.

1.5 Electrical Equipment Technical Support Services

- Provide Oil Quality testing services on GSU, Station Service transformers, Reserve Station Service transformers, and Substation Power Transformers.
- Provide transformer oil dissolved gas analysis (DGA) lab testing and interpretation of test results on a routine basis.
- Initial test data and all future test sample data will be included in Transmission Field Operations - Substations DGA database and trended accordingly.
- Provide transformer maintenance technical support services.

- Provide circuit breaker maintenance technical support services.
 - Provide oil processing technical support services.
 - Maintain electrical equipment nameplate data in the Transmission Operations Substations equipment database.
 - Provide thermal scan support for the electrical system including labor and scan equipment.
 - Provide Station control battery testing services
 - Provide Station ground grid testing services
-

1.6 Protective Relaying Technical Support Services

- Perform routine testing of protective relays. This includes inspection, as found tests, application of settings, calibration, cleaning, and documentation.
- Perform routine operational checks of protective relay control schemes.
- Perform routine testing of transformer gauges and alarms.
- Insulation testing of protective relay and control circuits.
- Perform Current and Potential Transformer ratio and insulation tests.
- Provide special test such as generator synchronizing relay verification, electrical disturbance analyzer installation, temporary fault recorder installation and remote interrogation of microprocessor relays.
- Respond to technical questions and request for technical support from station personnel.
- Provide lab services such as repair of broken relays, relay evaluations, and investigate problems with relays.

Service Level Provided

Services requested by the customer will be provided as needed. If the requested services are required on site, an advance notice of one week will be required prior to date the services are needed. If the on site services requested are delayed or canceled without prior notice, all cost incurred will be billed.

Transformer oil dissolved gas analysis (DGA) services will be scheduled through Electric Transmission Field Operations - Substations computerized maintenance management system (CNMS) at the intervals set by the customer. Oil syringes will be provided to the customer and should be returned within 2 weeks. The test results and the interpretation of those results should be available within 30 days. This service will be billed on a per sample basis.
