Explanatory Note

This Amendment No. 1 on Form 10-Q/A ("Form 10-Q/A") to the Registrant's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2005 is being filed with the U.S. Securities and Exchange Commission to restate the Registrant's consolidated financial statements as of and for the quarterly period ended September 30, 2005 for the purpose of providing a corrected Consolidated Statement of Cash Flows. The restatement of the Registrant's consolidated financial statements in this Form 10-Q/A primarily corrects and reclassifies the presentation of the cash flow for acquisitions from financing activities to investing activities. Except as set forth in this Form 10-Q/A, all other Items included in the Registrant's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2005 are unaffected by the changes described above and have been omitted from this amendment. The information in this Form 10-Q/A is stated as of September 30, 2005 and except as specifically noted herein, does not reflect any subsequent information or events.

ARROW FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

September 30, 2005

(Dollars in Thousands)

1. Financial Statement Presentation

In the opinion of the management of Arrow Financial Corporation (Arrow), the accompanying unaudited consolidated interim financial statements contain all of the adjustments necessary to present fairly the financial position as of September 30, 2005 and December 31, 2004; the results of operations for the three-month and nine-month periods ended September 30, 2005 and 2004; the changes in shareholders' equity for the nine-month periods ended September 30, 2005 and 2004; and the cash flows for the nine-month periods ended September 30, 2005 (restated) and 2004. All such adjustments are of a normal recurring nature. The unaudited consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements of Arrow for the year ended December 31, 2004, included in Arrow's 2004 Annual Report on Form 10-K.

Restatement of the Consolidated Statement of Cash Flows: During the third quarter of 2006, Arrow determined that it was necessary to restate our previously issued financial statements for the quarterly period ended September 30, 2005 to correct certain misclassifications in the Consolidated Statement of Cash Flows.

The restatement principally involves the reclassification of certain cash flows related to Arrow's acquisition of three HSBC Bank U.S.A., N.A. branches in the second quarter of 2005. Those cash flows, totaling \$47,083, should have been presented as investing activities as opposed to financing activities in the Consolidated Statement of Cash Flows for the nine months ended September 30, 2005. The reclassification of these cash flows affects the subtotals of cash flows from investing and financing activities but does not affect the total amount of net increase (decrease) in cash and cash equivalents as presented in the Consolidated Statement of Cash Flows.

In addition to the foregoing, in the previously filed Consolidated Statement of Cash Flows for the nine months ended September 30, 2005, under operating activities, the line item (Increase) Decrease in Interest Receivable incorrectly excluded an amount, (\$666), that was instead included under Increase in Other Assets, and the line item Increase (Decrease) in Interest Payable incorrectly excluded an amount, \$329, that was instead included under Increase (Decrease) in Other Liabilities. However, this change did not affect the total for Net Cash Provided by Operating

Activities. Under supplemental disclosures, Interest Paid incorrectly included an amount, \$329, that was a correction commensurate to the change identified in the previous sentence.

In order to conform to common industry presentation practice, and more readily correspond to changes in balance sheet captions, Arrow has combined in the restated Consolidated Statements of Cash Flows, and will combine in future filed Consolidated Statements of Cash Flows, the line item (Increase) Decrease in Interest Receivable and Increase in Other Assets into a single line item, Net Increase in Other Assets and will combine the line items Increase (Decrease) in Interest Payable and Increase (Decrease) in Other Liabilities into a single line item Net Increase (Decrease) in Other Liabilities. The combination of these line items, for all periods presented, has no effect on the amount of net cash provided by operating activities as disclosed in the previously filed Consolidated Statements of Cash Flows.

The restatement does not affect Arrow's Consolidated Statements of Income, Consolidated Balance Sheets or Consolidated Statements of Changes in Stockholders' Equity for the affected period. Accordingly, Arrow's previously reported net income, earnings per share, total assets and regulatory capital as of and for the nine-month period ended September 30, 2005 remain unchanged.

The Consolidated Statement of Cash Flows for the nine-month period ended September 30, 2005, as previously reported and as restated, is reflected on the following page.

4. Stock-Based Compensation Plans

As allowed by SFAS No. 123, Share-Based Payment, Arrow accounts for its stock-based compensation plans under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. No stock-based employee compensation cost has been reflected in net income for stock awards granted under these plans (other than for certain stock appreciation rights attached to options granted in 1992 and earlier, all of which have been exercised as of January 2002), as all awards granted under these plans have been options having an exercise price equal to the market value of the underlying common stock on the date of grant. However, options granted do generally impact diluted earnings per share by increasing the weighted average diluted shares outstanding and thereby decreasing diluted earnings per share as compared to basic earnings per share.

There were no options granted in the first nine months of 2005. The weighted-average fair value of options granted during 2004 was \$8.01 per option. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants in 2004: dividend yield of 2.88%; expected volatility of 28.4%; risk free interest rate of 3.78%; and expected lives of 7.0 years.

Arrow also sponsors an Employee Stock Purchase Plan (ESPP) under which employees purchased Arrow's common stock at a 15% discount below market price at the time of purchase for the first two months of 2005 and prior to then.

This discount was changed to 5% discount below market price for all subsequent purchases. Under APB 25, a plan with a discount of 15% or less is not considered compensatory and expense is not recognized. Under SFAS No. 123, however, a stock purchase plan with a discount in excess of 5% is considered a compensatory plan and thus the ESPP was considered a compensatory plan for the first two months of 2005, and the entire discount for that period was considered compensation expense in the pro forma disclosures set forth below. The effects of applying SFAS No. 123 on pro forma net income in the recently completed period may not be representative of the effects on pro forma net income for future periods.

The following table illustrates the effect on net income and earnings per share if we had applied the fair value recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation, to stock-based employee compensation plans.

	Three Months Ended		Nine Months Ended

In December 2004, the FASB issued a revised SFAS No. 123 (SFAS No. 123R), Share-Based Payment. SFAS No. 123R requires that we measure the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award on the grant date. That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (i.e. the vesting period), which is typically four years for Arrow. In a press release dated April 14, 2005, the SEC delayed the effective date of SFAS No. 123R to the first quarter of 2006.

5. Guarantees

Arrow does not issue any guarantees that would require liability-recognition or disclosure, other than its standby letters of credit. Standby and other letters of credit are conditional commitments issued by Arrow to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements, including bond financing and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. Typically, these instruments have terms of twelve months or less. Some expire unused, and therefore, the total amounts do not necessarily represent future cash requirements. Some have automatic renewal provisions.

For letters of credit, the amount of the collateral obtained, if any, is based on management's credit evaluation of the counter-party. Arrow had approximately \$3.3 million of standby letters of credit on September 30, 2005, most of which will expire within one year and some of which were not collateralized. At that date, all the letters of credit were for private borrowing arrangements. The fair value of the Arrow's standby letters of credit at September 30, 2005 was insignificant.

6. Retirement Plans (In Thousands)

The following table provides the components of net periodic benefit costs for the three months ended September 30:

	Pension		Postretirement	
	Benefits		Benefits	
	<u>2005</u>	<u>2004</u>	<u>2005</u>	<u>2004</u>
Service Cost	\$355	\$246	\$ 1	\$ 62

Net Periodic Benefit Cost	<u>\$180</u>	<u>\$113</u>	<u>\$ 3</u>	<u>\$359</u>

The following table provides the components of net periodic benefit costs for the nine months ended September 30:

	Pension		Postretirement	
	Benefits		Benefits	
	<u>2005</u>	<u>2004</u>	<u>2005</u>	<u>2004</u>
Service Cost	\$1,152	\$ 738	\$ 90	\$150
Interest Cost	1,583	1,038	223	368
Expected Return on Plan Assets	(2,385)	(1,581)	---	---
Amortization of Prior Service Cost (Credit)	(140)	96	(11)	(17)
Amortization of Transition Obligation	---	---	50	83
Amortization of Net Loss	<u>371</u>	<u>48</u>	<u>81</u>	<u>135</u>
Net Periodic Benefit Cost	<u>\$ 581</u>	<u>\$ 339</u>	<u>\$433</u>	<u>\$719</u>

We previously disclosed in our financial statements for the year ended December 31, 2004 that we do not expect to make a contribution to the qualified defined benefit pension plan during 2005. However, in the second quarter of 2005 we determined that it was appropriate to contribute approximately \$792 thousand to the plan, the maximum actuarially recommended contribution for the 2005 plan year.

In December 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) became law in the United States, however, final regulations were not issued until January 2005. The Act introduced a prescription drug benefit under Medicare as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D under the Act. The measures of the accumulated non-pension postretirement benefit obligation at September 30, 2005 and net periodic non-pension postretirement benefit cost for the third quarter of 2005 reflect the benefit associated with the subsidy.

7. Recently Issued Accounting Pronouncements

In January 2003, the FASB issued FASB Interpretation No. 46 (FIN 46), Consolidation of Variable Interest Entities . The objective of this interpretation was to provide guidance on how to identify a variable interest entity (VIE) and determine when the assets, liabilities, non-controlling interests, and results of operations of a VIE need to be included in a company s consolidated financial statements. FIN 46 was effective for all VIE s created after January 31, 2003. However, the FASB postponed that effective date to December 31, 2003. In December 2003, the FASB issued a revised FIN 46 (FIN 46 R), which further delayed this effective date until March 31, 2004 for VIE s created prior to February 1, 2003, except for special purpose entities, which were required to adopt either FIN 46 or FIN 46 R as of December 31, 2003. The requirements of FIN 46 R resulted in the deconsolidation of our wholly-owned subsidiary trusts, formed to issue redeemable preferred securities (trust preferred securities) to the public, the proceeds of which are used by the trust to acquire subordinated debt of Arrow. Under final rules issued February 28, 2005 by the Federal Reserve Board, trust preferred securities may continue to qualify as Tier 1 capital for bank regulatory purposes, in an amount not to exceed 25% of Tier 1 capital. The final rule limits restricted core capital elements to a percentage of the sum of core capital elements, net of goodwill less any associated deferred tax liability. We have issued trust preferred securities in 2003 and 2004 totaling \$20 million. Up to half of total capital may consist of so-called "Tier 2" capital, comprising a limited amount of subordinated debt, preferred stock not qualifying as Tier 1 capital, certain other instruments and a limited amount of the allowance for loan losses.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Arrow Financial Corporation:

We have reviewed the consolidated balance sheet of Arrow Financial Corporation and subsidiaries (the Company) as of September 30, 2005, and the related consolidated statements of income for the three-month and nine-month periods ended September 30, 2005 and 2004, and the consolidated statements of changes in shareholders equity and cash flows for the nine-month periods ended September 30, 2005 and 2004. These consolidated financial statements are the responsibility of the Company s management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Arrow Financial Corporation and subsidiaries as of December 31, 2004, and the related consolidated statements of income, changes in shareholders' equity and cash flows for the year then ended (not presented herein); and in our report dated March 7, 2005, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2004, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

As discussed in Note 1 to the consolidated financial statements, the Company has restated its financial statements for the nine-month period ended September 30, 2005.

Item 4: Controls and Procedures

Senior management, including the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of Arrow's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of September 30, 2005. Based upon that evaluation, including the effects of the restatement of the Consolidated Statement of Cash Flows as described in Note 1 to the Consolidated Financial Statements, senior management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective. Further, there were no changes made in our internal control over financial reporting that occurred during the most recent fiscal quarter that had materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
