PUBLIX SUPER MARKETS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1)Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Publix Super Markets, Inc. and subsidiaries (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial reporting. Accordingly, the accompanying statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these statements include all adjustments that are of a normal and recurring nature necessary to present fairly the Company's financial position and results of operations. Due to the seasonal nature of the Company's business, the results of operations for the three and nine months ended September 24, 2016 are not necessarily indicative of the results for the entire 2016 fiscal year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 26, 2015.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2)Recently Issued Accounting Standards

In June 2016, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) requiring companies to change the methodology used to measure credit losses on financial instruments. The ASU is effective for reporting periods beginning after December 15, 2019 with early adoption permitted only for reporting periods beginning after December 15, 2018. The Company does not expect the adoption of the ASU to have a material effect on the Company's financial condition or results of operations. The adoption of the ASU will have no effect on the Company's cash flows.

In February 2016, the FASB issued an ASU on lease accounting. The ASU requires the lease rights and obligations arising from lease contracts, including existing and new arrangements, to be recognized as assets and liabilities on the balance sheet. The ASU is effective for reporting periods beginning after December 15, 2018 with early adoption permitted. While the Company is still evaluating the ASU, the Company expects the adoption of the ASU to have a material effect on the Company's financial condition due to the recognition of the lease rights and obligations as assets and liabilities on the Consolidated Balance Sheets. The Company does not expect the adoption of the ASU to have a material effect on the Company's results of operations. The adoption of the ASU will have no effect on the Company's cash flows.

In January 2016, the FASB issued an ASU requiring companies to measure equity securities at fair value with changes in fair value recognized in net earnings as opposed to other comprehensive earnings. The ASU is effective for reporting periods beginning after December 15, 2017. The adoption of the ASU will have an effect on the Company's results of operations. The extent of the effect on results of operations will vary with the changes in the fair value of equity securities. The adoption of the ASU will have no effect on the Company's financial condition or cash flows.

In November 2015, the FASB issued an ASU requiring companies to classify deferred tax assets and liabilities in the noncurrent section of the balance sheet. The ASU is effective for reporting periods beginning after December 15, 2016 with early adoption permitted. The adoption of the ASU will not have a material effect on the Company's financial condition and will have no effect on the Company's results of operations or cash flows.

In May 2014, the FASB issued an ASU on the recognition of revenue from contracts with customers. The ASU requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. The ASU is effective for reporting periods beginning after December 15, 2017 with early adoption permitted only for reporting periods beginning after December 15, 2016. The Company does not expect the

adoption of the ASU to have a material effect on the Company's financial condition, results of operations or cash flows.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(3) Fair Value of Financial Instruments

The fair value of certain of the Company's financial instruments, including cash and cash equivalents, trade receivables and accounts payable, approximates their respective carrying amounts due to their short-term maturity.

The fair value of available-for-sale (AFS) securities is based on market prices using the following measurement categories:

Level 1 – Fair value is determined by using quoted prices in active markets for identical investments. AFS securities that are included in this category are primarily mutual funds, exchange traded funds and equity securities.

Level 2 – Fair value is determined by using other than quoted prices. By using observable inputs (for example, benchmark yields, interest rates, reported trades and broker dealer quotes), the fair value is determined through processes such as benchmark curves, benchmarking of like securities and matrix pricing of corporate, state and municipal bonds by using pricing of similar bonds based on coupons, ratings and maturities. AFS securities that are included in this category are primarily debt securities (tax exempt and taxable bonds).

Level 3 – Fair value is determined by using other than observable inputs. Fair value is determined by using the best information available in the circumstances and requires significant management judgment or estimation. No AFS securities are currently included in this category.

Following is a summary of fair value measurements for AFS securities as of September 24, 2016 and December 26, 2015:

	Fair Value	Level 1	Level 2	Level 3
	(Amounts are in thousands)			
September 24, 2016	\$7,050,581	1,238,503	5,812,078	—
December 26, 2015	6,602,934	1,049,791	5,553,143	—

(4) Investments

Debt and equity securities are classified as AFS and are carried at fair value. The Company evaluates whether AFS securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the duration of the market value decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or interest payments and the financial health and prospects of the issuer or security. Declines in the value of AFS securities determined to be OTTI are recognized in earnings and reported as OTTI losses. Debt securities with unrealized losses are considered OTTI if the Company intends to sell the debt security or if the Company will be required to sell the debt security prior to any anticipated recovery. If the Company determines that a debt security is OTTI under these circumstances, the impairment recognized in earnings is measured as the difference between the amortized cost and the current fair value. A debt security is also determined to be OTTI if the Company does not expect to recover the amortized cost of the debt security. However, in this circumstance, if the Company does not intend to sell the debt security and will not be required to sell the debt security, the impairment recognized in earnings equals the estimated credit loss as measured by the difference between the present value of expected cash flows and the amortized cost of the debt security. Expected cash flows are discounted using the debt security's effective interest rate. An equity security is determined to be OTTI if the Company does not expect to recover the cost of the equity security. Declines in the value of AFS securities determined to be temporary are reported net of income taxes as other comprehensive losses and included as a component of stockholders' equity.

Interest and dividend income, amortization of premiums, accretion of discounts and realized gains and losses on AFS securities are included in investment income. Interest income is accrued as earned. Dividend income is recognized as income on the ex-dividend date of the equity security. The cost of AFS securities sold is based on the first-in, first-out method.

	\$3,005,302	34,202	149,895	6,680	3,155,197	40,882

There are 329 AFS securities contributing to the total unrealized loss of \$19,217,000 as of September 24, 2016. Unrealized losses related to debt securities are primarily due to interest rate volatility impacting the market value of certain bonds. The Company continues to receive scheduled principal and interest payments on these debt securities. Unrealized losses related to equity securities are primarily due to temporary equity market fluctuations that are expected to recover.

(5) Consolidation of Joint Ventures and Long-Term Debt

From time to time, the Company enters into Joint Ventures (JV), in the legal form of limited liability companies, with certain real estate developers to partner in the development of shopping centers with the Company as the anchor tenant. The Company consolidates certain of these JVs in which it has a controlling financial interest. The Company is considered to have a controlling financial interest in a JV when it has (1) the power to direct the activities of the JV that most significantly impact the JV's economic performance and (2) the obligation to absorb losses or the right to receive benefits from the JV that could potentially be significant to such JV.

The Company evaluates a JV using specific criteria to determine whether the Company has a controlling financial interest and is the primary beneficiary of the JV. Factors considered in determining whether the Company is the primary beneficiary include risk and reward sharing, experience and financial condition of the other JV members, voting rights, involvement in routine capital and operating decisions and each member's influence over the JV owned shopping center's economic performance.

Generally, most major JV decision making is shared between all members. In particular, the use and sale of JV assets, business plans and budgets are generally required to be approved by all members. However, the Company, through its anchor tenant operating lease agreement, has the power to direct the activities that most significantly influence the economic performance of the JV owned shopping center. Additionally, through its member equity interest in the JV, the Company will receive a significant portion of the JV's benefits or is obligated to absorb a significant portion of the JV's losses.

As of September 24, 2016, the carrying amounts of the assets and liabilities of the consolidated JVs were \$102,494,000 and \$53,278,000, respectively. As of December 26, 2015, the carrying amounts of the assets and liabilities of the consolidated JVs were \$141,355,000 and \$64,928,000, respectively. The assets are owned by and the

liabilities are obligations of the JVs, not the Company, except for a portion of the long-term debt of certain JVs guaranteed by the Company. The JVs are financed with capital contributions from the members, loans and/or the cash flows generated by the JV owned shopping centers once in operation. Total earnings attributable to noncontrolling interests for 2016 and 2015 were immaterial. The Company's involvement with these JVs does not have a significant effect on the Company's financial condition, results of operations or cash flows.

PUBLIX SUPER MARKETS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The Company's long-term debt results primarily from the consolidation of loans of certain JVs and loans assumed in connection with the acquisition of certain shopping centers with the Company as the anchor tenant. The Company assumed loans totaling \$63,971,000 during the nine months ended September 24, 2016. The Company assumed loans totaling \$31,759,000 during the nine months ended September 26, 2015. Maturities of JV loans range from April 2017 through June 2017 and have variable interest rates based on a LIBOR index plus 175 to 250 basis points. Maturities of assumed shopping center loans range from January 2017 through January 2027 and have fixed interest rates ranging from 3.7% to 7.5%.

(6) Retirement Plan

The Company has a trustee, noncontributory Employee Stock Ownership Plan (ESOP) for the benefit of eligible employees. Since the Company's common stock is not traded on an established securities market, the ESOP includes a put option for shares of the Company's common stock distributed from the ESOP. Shares are distributed from the ESOP primarily to separated vested participants and certain eligible participants who elect to diversify their account balances. Under the Company's administration of the ESOP's put option, if the owners of distributed shares desire to sell their shares, the Company is required to purchase the shares at fair value for a specified time period after distribution of the shares from the ESOP. The fair value of distributed shares subject to the put option totaled \$476,766,000 and \$427,226,000 as of September 24, 2016 and December 26, 2015, respectively. The cost of the shares held by the ESOP totaled \$2,672,714,000 and \$2,526,652,000 as of September 24, 2016 and December 26, 2015, respectively. Due to the Company's obligation under the put option, the distributed shares subject to the put option and the shares held by the ESOP are classified as temporary equity in the mezzanine section of the condensed consolidated balance sheets and totaled \$3,149,480,000 and \$2,953,878,000 as of September 24, 2016 and December 26, 2015, respectively. The fair value of the shares held by the ESOP totaled \$8,818,886,000 and \$9,201,171,000 as of September 24, 2016 and December 26, 2015, respectively.

(8) Subsequent Event

On October 3, 2016, the Company declared a quarterly dividend of \$0.2225 per share or \$170,600,000, payable November 1, 2016 to stockholders of record as of the close of business October 14, 2016.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company is engaged in the retail food industry, operating supermarkets in Florida, Georgia, Alabama, South Carolina, Tennessee and North Carolina. The Company plans to expand its retail operations into Virginia in 2017. As of September 24, 2016, the Company operated 1,127 supermarkets. For the nine months ended September 24, 2016, 20 supermarkets were opened (including two replacement supermarkets) and 111 supermarkets were remodeled. Seven supermarkets were closed during the period. Of the two replacement supermarkets opened during the nine months ended September 24, 2016, one replaced two of the supermarkets closed during the same period and one replaced a supermarket closed in 2015 that was replaced on site. The five remaining supermarkets closed during the nine months ended September 24, 2016 will be replaced on site in subsequent periods. In the normal course of operations, the Company replaces supermarkets and closes supermarkets that are not meeting performance expectations. The impact of future supermarket closings is not expected to be material.

Results of Operations

Sales

Sales for the three months ended September 24, 2016 were \$8.0 billion as compared with \$7.8 billion for the three months ended September 26, 2015, an increase of \$184.4 million or 2.4%. The increase in sales for the three months ended September 24, 2016 as compared with the three months ended September 26, 2015 was partially due to a 0.9% increase in comparable store sales (supermarkets open for the same weeks in both periods, including replacement supermarkets). Sales for supermarkets that are replaced on site are classified as new supermarket sales since the replacement period for the supermarket is generally 9 to 12 months. Sales for the nine months ended September 24, 2016 were \$24.9 billion as compared with \$24.1 billion for the nine months ended September 26, 2015, an increase of \$727.0 million or 3.0%. The increase in sales for the nine months ended September 24, 2016 as compared with the nine months ended September 26, 2015 was primarily due to a 1.8% increase in comparable store sales. Comparable store sales for the three and nine months ended September 24, 2016 increased primarily due to product cost inflation.

Gross profit

Gross profit (sales less cost of merchandise sold) as a percentage of sales was 26.5% and 26.8% for the three months ended September 24, 2016 and September 26, 2015, respectively. Gross profit as a percentage of sales was 27.4% and 27.7% for the nine months ended September 24, 2016 and September 26, 2015, respectively. The decrease in gross profit as a percentage of sales for the three and nine months ended September 24, 2016 as compared with the three and nine months ended September 26, 2015 was primarily due to changes in promotional activities and pricing strategies.

Operating and administrative expenses

Operating and administrative expenses as a percentage of sales were 20.6% and 20.5% for the three months ended September 24, 2016 and September 26, 2015, respectively. Operating and administrative expenses as a percentage of sales were 20.1% and 20.2% for the nine months ended September 24, 2016 and September 26, 2015, respectively. Operating and administrative expenses as a percentage of sales for the three and nine months ended September 24, 2016 as compared with the three and nine months ended September 26, 2015 remained relatively unchanged.

Investment income

Investment income was \$29.0 million and \$35.4 million for the three months ended September 24, 2016 and September 26, 2015, respectively. Investment income was \$82.2 million and \$116.5 million for the nine months ended September 24, 2016 and September 26, 2015, respectively. The decrease in investment income for the three and nine months ended September 24, 2016 as compared with the three and nine months ended September 26, 2015 was primarily due to a decrease in realized gains on the sale of equity securities.

Income tax expense

The effective income tax rate was 27.2% and 31.4% for the three months ended September 24, 2016 and September 26, 2015, respectively. The effective income tax rate was 30.9% and 32.5% for the nine months ended September 24, 2016 and September 26, 2015, respectively. The decrease in the effective income tax rate for the three and nine months ended September 24, 2016 as compared with the three and nine months ended September 26, 2015 was primarily due to an increase in qualified inventory donations and investment related tax credits.

Net earnings

Net earnings were \$421.1 million or \$0.55 per share and \$412.3 million or \$0.53 per share for the three months ended September 24, 2016 and September 26, 2015, respectively. Net earnings as a percentage of sales were 5.2% and 5.3% for the three months ended September 24, 2016 and September 26, 2015, respectively. Net earnings as a percentage of sales for the three months ended September 24, 2016 as compared with the three months ended September 26, 2015 remained relatively unchanged. Net earnings were \$1,481.2 million or \$1.92 per share and \$1,444.0 million or \$1.86 per share for the nine months ended September 24, 2016 and September 26, 2015, respectively. Net earnings as a percentage of sales were 6.0% for the nine months ended September 24, 2016 and September 26, 2015.

Liquidity and Capital Resources

Cash and cash equivalents, short-term investments and long-term investments totaled \$7,355.1 million as of September 24, 2016, as compared with \$6,955.1 million as of December 26, 2015 and \$7,151.8 million as of September 26, 2015. The increase from the third quarter of 2015 to the third quarter of 2016 was primarily due to the Company generating cash in excess of the amount needed for operations, capital expenditures, common stock repurchases and dividend payments.

Net cash provided by operating activities

Net cash provided by operating activities was \$2,618.8 million and \$2,377.6 million for the nine months ended September 24, 2016 and September 26, 2015, respectively. The increase in net cash provided by operating activities for the nine months ended September 24, 2016 as compared with the nine months ended September 26, 2015 was primarily due to increases in net earnings and non-cash expenses.

Net cash used in investing activities

Net cash used in investing activities was \$1,645.0 million and \$1,563.3 million for the nine months ended September 24, 2016 and September 26, 2015, respectively. The primary use of net cash in investing activities for the nine months ended September 24, 2016 was funding capital expenditures and net increases in investment securities. Capital expenditures totaled \$1,110.5 million. These expenditures were incurred in connection with the opening of 20 new supermarkets (including two replacement supermarkets) and remodeling 111 supermarkets. Expenditures were also incurred for supermarkets and remodels in progress, new or enhanced information technology hardware and applications and the acquisition of shopping centers with the Company as the anchor tenant. For the nine months ended September 24, 2016, the payment for investments, net of the proceeds from the sale and maturity of such investments, was \$538.8 million.

Net cash used in financing activities

Net cash used in financing activities was \$1,021.4 million and \$894.3 million for the nine months ended September 24, 2016 and September 26, 2015, respectively. The increase in net cash used in financing activities for the nine months ended September 24, 2016 as compared with the nine months ended September 26, 2015 was due to increases in net common stock repurchases and dividend payments. Net common stock repurchases totaled \$469.8 million and \$413.9 million for the nine months ended September 24, 2016 and September 26, 2015, respectively. The Company currently repurchases common stock at the stockholders' request in accordance with the terms of the Employee Stock Purchase Plan (ESPP), Non-Employee Directors Stock Purchase Plan (Directors Plan), 401(k) Plan and ESOP. The amount of common stock offered to the Company for repurchase is not within the control of the Company, but is at the discretion of the stockholders. The Company expects to continue to repurchase its common stock, as offered by its stockholders from time to time, at its then current value for amounts similar to those in prior years. However, with the exception of certain shares distributed from the ESOP, such purchases are not required and the Company retains the right to discontinue them at any time.

Dividends

For the nine months ended September 24, 2016, the Company paid one quarterly dividend of \$0.20 per share and two quarterly dividends of \$0.2225 per share for a total of \$0.645 per share or \$497.3 million. For the nine months ended September 26, 2015, the Company paid one semiannual dividend of \$0.39 per share and one quarterly dividend of \$0.20 per share for a total of \$0.59 per share or \$458.3 million.

On October 3, 2016, the Company declared a quarterly dividend of \$0.2225 per share or \$170.6 million, payable November 1, 2016 to stockholders of record as of the close of business October 14, 2016.

Capital expenditures projection

Capital expenditures for the remainder of 2016 are expected to be approximately \$390 million, primarily consisting of new supermarkets, remodeling existing supermarkets, new or enhanced information technology hardware and applications and the acquisition of shopping centers with the Company as the anchor tenant. The shopping center acquisitions are financed with internally generated funds and assumed debt, if prepayment penalties for the debt are determined to be significant. This capital program is subject to continuing change and review.

Cash requirements

In 2016, the cash requirements for operations, capital expenditures, common stock repurchases and dividend payments are expected to be financed by internally generated funds or liquid assets. Based on the Company's financial position, it is expected that short-term and long-term borrowings would be available to support the Company's liquidity requirements, if needed.

Forward-Looking Statements

From time to time, certain information provided by the Company, including written or oral statements made by its representatives, may contain forward-looking information as defined in Section 21E of the Securities Exchange Act of 1934. Forward-looking information includes statements about the future performance of the Company, which is based on management's assumptions and beliefs in light of the information currently available to them. When used, the words "plan," "estimate," "project," "intend," "expect," "believe" and other similar expressions, as they relate to the Company, intended to identify such forward-looking statements. These forward-looking statements are subject to uncertainties and other factors that could cause actual results to differ materially from those statements including, but not limited to, the following: competitive practices and pricing in the food and drug industries generally and particularly in the Company's principal markets; results of programs to increase sales, including private label sales; results of programs to control or reduce costs; changes in buying, pricing and promotional practices; changes in shrink management; changes in the general economy; changes in consumer spending; changes in population, employment and job growth in the Company's principal markets; and other factors affecting the Company's business within or beyond the Company's control. These factors include changes in the rate of inflation, changes in federal, state and local laws and regulations, adverse determinations with respect to litigation or other claims, ability to recruit and retain employees, increases in operating costs including, but not limited to, labor costs, credit card fees and utility costs, particularly electric rates, ability to construct new supermarkets or complete remodels as rapidly as planned and stability of product costs. Other factors and assumptions not identified above could also cause the actual results to differ materially from those set forth in the forward-looking statements. Except as may be required by applicable law, the Company assumes no obligation to publicly update these forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company does not utilize financial instruments for trading or other speculative purposes, nor does it utilize leveraged financial instruments. There have been no material changes in the market risk factors from those disclosed in the Company's Form 10-K for the year ended December 26, 2015.

Item 4. Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer each concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and that such information has been accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure. There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation that occurred during the quarter ended September 24, 2016 that have materially affected, or are reasonably likely to materially affect, the internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As reported in the Company's Form 10-K for the year ended December 26, 2015, the Company is subject from time to time to various lawsuits, claims and charges arising in the normal course of business. The Company believes its recorded reserves are adequate in light of the probable and estimable liabilities. The estimated amount of reasonably possible losses for lawsuits, claims and charges, individually and in the aggregate, is considered to be immaterial. In the opinion of management, the ultimate resolution of these legal proceedings will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A. Risk Factors

There have been no material changes in the risk factors from those disclosed in the Company's Form 10-K for the year ended December 26, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

Shares of common stock repurchased by the Company during the three months ended September 24, 2016 were as follows (amounts are in thousands, except per share amounts):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
June 26, 2016 through	706	\$43.95	N/A	N/A
July 30, 2016				
July 31, 2016 through	2,644	41.90	N/A	N/A
August 27, 2016				
August 28, 2016 through	1,371	41.90	N/A	N/A
September 24, 2016				
Total	4,721	\$42.21	N/A	N/A

Common stock is made available for sale by the Company only to its current employees and members of its Board of Directors through the ESPP and Directors Plan and to participants of the 401(k) Plan. In addition, common stock ⁽¹⁾ is provided to employees through the ESOP. The Company currently repurchases common stock subject to certain terms and conditions. The ESPP, Directors Plan, 401(k) Plan and ESOP each contain provisions prohibiting any transfer for value without the owner first offering the common stock to the Company.

The Company's common stock is not traded on an established securities market. The amount of common stock offered to the Company for repurchase is not within the control of the Company, but is at the discretion of the stockholders. The Company does not believe that these repurchases of its common stock are within the scope of a publicly announced plan or program (although the terms of the plans discussed above have been communicated to the participants). Thus, the Company does not believe that it has made any repurchases during the three months ended September 24, 2016 required to be disclosed in the last two columns of the table.
