Plan Administrator
Publix Super Markets, Inc.

401(k) SMART Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Publix Super Markets, Inc. 401(k) SMART Plan (the Plan) as of December 31, 2016 and 2015, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

The supplemental information in the accompanying Schedule H, Line 4i, Schedule of Assets (Held at End of Year) as of December 31, 2016 has been subjected to audit procedures performed in conjunction with the audit of the Plan's 2016 financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying Schedule H, Line 4i, Schedule of Assets (Held at End of Year) as of December 31, 2016 is fairly stated in all material respects in relation to the 2016 financial statements as a whole.

PUBLIX SUPER MARKETS, INC.
401(k) SMART PLAN
Notes to Financial Statements

(1) Description of Plan and Summary of Accounting Policies

The following brief description of the Publix Super Markets, Inc. 401(k) SMART Plan (the “Plan”) provides only general information. Participants should refer to the Plan document or the summary plan description for a complete description of the Plan provisions.

(a) General

The Plan is a voluntary defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Employees of Publix Super Markets, Inc. and its wholly owned subsidiaries, Publix Alabama, LLC, Publix Asset Management Company and Publix North Carolina Employee Services, LLC (the “Company” or “Publix”) are eligible to participate in the Plan six months after their hire date, if they are at least 18 years of age. The Plan year is a calendar year.

(b) Plan Amendments

There were no plan amendments during the 2016 and 2015 Plan years.

(c) Contributions

Eligible employees may contribute up to 10% of their eligible compensation, subject to the maximum contribution limits established by federal law. Participants direct the investment allocations of their contributions and the earnings thereon among 12 investment fund options offered under the Plan. The Company may make a discretionary annual matching contribution to the accounts of eligible participants of the Plan as determined by the Company’s Board of Directors. During 2016 and 2015, the Company’s Board of Directors approved a match of 50% of an eligible participant’s contributions up to 3% of eligible compensation, not to exceed a maximum match of \$750 per participant. The match, which is determined as of the last day of the Plan year and paid by the Company in the subsequent Plan year, is in common stock of Publix Super Markets, Inc. (“Publix Stock”). Participants may direct the investment allocations of their matching contributions and the earnings thereon by requesting a transfer from the Publix Stock Fund to any of the other investment fund options offered under the Plan. The Plan Administrator processes transfer requests on the next valuation effective date for Publix Stock.

(d) Participant Accounts

Two separate accounts are maintained for each participant, a Savings Contributions Account and a Matching Contributions Account (the “Accounts”). Plan earnings are allocated and credited to the Accounts as of each valuation date. Each participant’s share of earnings is determined by the Plan Administrator, on a weighted average basis, so that each participant receives a pro-rata share. Forfeitures of non-vested Matching Contributions Accounts of participants and of Accounts of separated participants or beneficiaries that cannot be located after two years are used to reduce future Company matching contributions. Forfeitures totaled \$2,519,910 and \$222,132 as of December 31, 2016 and 2015, respectively. Forfeitures, and earnings thereon, totaling \$2,517,445 and \$220,829 were used to reduce the Company matching contributions for the years ended December 31, 2016 and 2015, respectively. The increase in forfeitures was due to forfeited distribution checks for participants that the Plan Administrator was unable to locate for prior Plan years.

PUBLIX SUPER MARKETS, INC.
401(k) SMART PLAN
Notes to Financial Statements

(e) Vesting

Participants are immediately vested in their contributions and earnings thereon. Company matching contributions and earnings thereon are generally 100% vested upon completing three years of credited service, reaching age 60, total disability or death. Matching contributions cannot be withdrawn or distributed until vested.

(f) Notes Receivable from Participants

All actively employed participants with available account balances may apply for a loan from their Accounts. The minimum amount a participant may borrow is \$1,000. The maximum amount a participant may borrow is the lesser of: 1) 50% of the balances in the participant's Savings Contributions Account and vested Matching Contributions Account; or 2) \$50,000, less the participant's highest outstanding loan balance during the previous 12 month period. However, the value of any shares held by the participant in the Publix Stock component of the Publix Stock Fund cannot be borrowed. Participants may initiate one loan each year and may only have one outstanding loan at a time. All administration costs incurred as a result of a loan are paid by the participant. The interest rate is determined by Voya Institutional Plan Services as of the first business day of each calendar quarter based on the United States ("U.S.") prime interest rate as published in the Wall Street Journal. The interest rate on a loan is fixed for the term of the loan. Participant loans are classified as notes receivable from participants in the statements of net assets available for plan benefits and measured at their unpaid principal balance plus any accrued but unpaid interest.

A participant can choose a repayment term of up to five years. Repayments of principal and interest are made through after-tax payroll deductions each pay period. Repayments of principal and interest are credited pro-rata to the participant's Savings Contributions Account and Matching Contributions Account from which the loan was originally funded and reinvested according to the participant's current investment elections. Upon separation of employment, all unpaid principal and accrued but unpaid interest on any loan outstanding is immediately due and payable. Participants may repay a loan in total at any time after the loan has been in effect for at least 90 days and participants must wait 30 days between paying off one loan and initiating a new loan.

(g) Distribution of Benefits

Benefits are recorded when paid.

A participant who reaches age 59½ and who is actively employed by the Company may elect to withdraw all or a portion of his/her Savings Contributions Account and the vested portion of his/her Matching Contributions Account.

Upon separation of service, retirement, disability or death, a participant or his/her beneficiary may elect to receive full distribution of his/her Savings Contributions Account and vested Matching Contributions Account as of the valuation date immediately preceding the date of distribution, subject to certain restrictions on the sale of Publix Stock. If the value of the participant's vested Accounts is \$1,000 or less, the participant generally will receive an automatic distribution from the Plan as soon as administratively practicable. If the value of the participant's vested Accounts exceeds \$1,000 and the participant is not 62 years of age or older, the participant may elect to defer distribution. Payment of a deferred distribution must be made to a participant no later than April 1 of the Plan year immediately following the Plan year in which the participant reaches age 62.

PUBLIX SUPER MARKETS, INC.
401(k) SMART PLAN
Notes to Financial Statements

If the value of a deceased participant's Savings Contributions and Matching Contributions Accounts is \$5,000 or less, the participant's beneficiary generally will receive an automatic distribution from the Plan as soon as administratively practicable. If the value of a deceased participant's Accounts exceeds \$5,000, the beneficiary may elect to defer distribution. Payment of a deferred distribution must be made to a beneficiary other than a surviving spouse by December 31 of the calendar year containing the fifth anniversary of the participant's death. If the beneficiary is the participant's surviving spouse, distribution can be deferred until the participant would have reached age 70½.

(h) Termination of Plan

The Company expects to continue the Plan indefinitely, but is not contractually obligated to do so. The Company reserves the right to discontinue its contributions at any time and the right to amend or discontinue the Plan at any time. If the Plan is ever terminated, participants will be fully vested in all amounts credited to their Matching Contributions Accounts.

(i) Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

(j) Investments

The Plan's investments are stated at fair value. Quoted active market prices are used to value shares of mutual funds. Investment in Publix Stock represented 83.2% and 85.1% of the Plan's net assets available for plan benefits as of December 31, 2016 and 2015, respectively. Because Publix Stock is not traded on an established securities market, the market price of Publix Stock is determined by the Trustee responsible for maintaining custody of the Publix Stock component of the Publix Stock Fund. As part of the process to determine the value of Publix Stock, an independent valuation is obtained. The process includes comparing the Company's financial results to those of comparable companies that are publicly traded ("comparable publicly traded companies"). The purpose of the process is to determine a value for Publix Stock that is comparable to the stock value of comparable publicly traded companies by considering both the results of the stock market and the relative financial results of comparable publicly traded companies. Readily determinable fair value is used to value the Plan's interests in collective investment funds. There are no unfunded commitments or restrictions on redemptions by participants of the collective investment funds.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

(k) Investment Risk

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements and supplemental schedule of the Plan.

PUBLIX SUPER MARKETS, INC.
401(k) SMART PLAN
Notes to Financial Statements

(1) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

(2) Administration of the Plan

Voya Institutional Trust Company, the Primary Trustee for the Plan, is responsible for the investment funds and other assets in which the employee contributions are invested, excluding Publix Stock. Tina P. Johnson is the Trustee responsible for the Publix Stock component of the Publix Stock Fund. Voya Institutional Plan Services serves as the third-party Plan Administrator. Officers and employees of the Company perform certain administrative functions for the Plan with no compensation from the Plan. The Plan administration costs are paid by the Company, except as follows:

Loan fees of \$528,675 and \$540,600 for the years ended December 31, 2016 and 2015, respectively, were deducted from the Accounts of participants who received loans and were paid to the third-party Plan Administrator.

Administrative fees of \$405,855 and \$373,692 for the years ended December 31, 2016 and 2015, respectively, were deducted from the Accounts of former employees and beneficiaries and were paid to the third-party Plan Administrator.

Florida stamp taxes of \$184,327 and \$186,616 for the years ended December 31, 2016 and 2015, respectively, were deducted from the Accounts of participants who received loans in the state of Florida and were paid to the third-party Plan Administrator. The third-party Plan Administrator is responsible for reporting and remitting Florida stamp taxes to the Florida Department of Revenue.

Expedited check fees of \$109,081 and \$104,107 for the years ended December 31, 2016 and 2015, respectively, were deducted from the net distribution, loan and withdrawal proceeds issued to participants who elected overnight delivery of their checks and were paid to the third-party Plan Administrator.

 401(k) SMART PLAN
 Notes to Financial Statements

The Plan's investments [including gains (losses) on investments bought and sold, as well as held during the year] (depreciated) appreciated in value by (\$286,243,059) and \$437,406,718, during 2016 and 2015, respectively.

The fair value of investments is based on market prices using the following measurement categories:

Level 1 - Fair value is determined by using quoted prices in active markets for identical investments. Investments included in this category are the mutual funds.

Level 2 - Fair value is determined by using other than quoted prices in active markets. By using observable inputs (such as similar securities), the fair value is determined through the use of models or other valuation methodologies (such as benchmarking of similar securities and using readily determinable fair value where the fair value per share is determined and published on a regular basis on a non-active market and is the basis for current transactions).

Investments included in this category are Publix Stock and collective investment funds.

Level 3 - Fair value is determined by using other than observable inputs. Fair value is determined by using the best information available in the circumstances and requires significant management judgment or estimation. No investments are included in this category.

Following is a summary of fair value measurements for investments as of December 31, 2016 and 2015:

	Level 1	Level 2	Level 3	Total
December 31, 2016

(5)Related-Party Transactions

Certain Plan investments are collective investment and mutual funds managed by State Street Global Advisors (“State Street”), the investment management division of State Street Bank and Trust Company. State Street Bank and Trust Company is the Custodian for the Plan under the direction of Voya Institutional Trust Company. Voya Institutional Plan Services serves as the third-party Plan Administrator.

In addition to Publix Stock, the transactions involving State Street investments qualify as party-in-interest transactions. Certain administration costs paid to Voya Institutional Plan Services also are considered party-in-interest transactions.

The Plan received cash dividend payments on Publix Stock of \$62,382,345 and \$56,310,747 for the years ended December 31, 2016 and 2015, respectively. Such dividends were invested in the cash component of the Publix Stock Fund. (7) Tax Status

The Plan, as amended and restated as of January 1, 2013, received a favorable tax determination letter, dated April 3, 2014, from the Internal Revenue Service (“IRS”) under Internal Revenue Code (“IRC”) Section 401(a). As such, the Plan’s design is exempt from federal income taxes under IRC Section 501(a). Though the Plan has been amended since January 1, 2013, the Plan Administrator believes the Plan continues to be qualified and the Plan has been and is currently being operated in compliance with the applicable requirements of the IRC and the Plan document.

U.S. generally accepted accounting principles require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
