The Dealers have advised the Bank that the Dealers propose initially to offer the covered bonds to the public at the public offering price on the cover page of this preliminary prospectus supplement, and to certain dealers at that public offering price less a commission not in excess of 0.200% of the principal amount of the covered bonds. The Dealers may allow, and those dealers may reallow to other dealers, a commission not in excess of 0.125% of the principal amount.

After the initial public offering of the covered bonds is completed, the public offering price and commissions may be changed by the Dealers.

In connection with the sale of the covered bonds, the Dealers may engage in:

over-allotments, in which Dealers selling the covered bonds sell more covered bonds than the Bank actually sold to the Dealers, creating a Dealer short position;

stabilizing transactions, in which purchases and sales of the covered bonds may be made by the Dealers at prices that do not exceed a specified maximum in accordance with Rule 104 of Regulation M under the Securities Exchange Act of 1934; and

Dealer covering transactions, in which Dealers purchase the covered bonds in the open market after the distribution has been completed in order to cover Dealer short positions.

Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade covered bonds on any date prior to three business days before delivery will be required, by virtue of the fact that the covered bonds will initially settle in five business days (T + 5), to specify alternative settlement arrangements to prevent a failed settlement.

THE PORTFOLIO

The statistical and other information contained herein has been compiled by reference to the Loans in the Portfolio securing the covered bonds as of July 31, 2014 (the “**cut-off date**”). The noon exchange rate of Canadian dollars into U.S. dollars on the cut-off date was CDN\$1 = U.S.\$0.9183. Columns stating percentage amounts may not add to 100% due to rounding.

The Loans in the Portfolio are selected on the basis of the seller's Eligibility Criteria set forth in the Mortgage Sale Agreement. The material aspects of such Eligibility Criteria are described under “*Summary of the Principal Documents—Mortgage Sale Agreement—Eligibility Criteria*” in the accompanying prospectus. As of the cut-off date, all Loans in the Portfolio complied with the Eligibility Criteria. One significant indicator of borrower credit quality is arrears and losses. The information presented below under “*Loss Information*” reflects the arrears and losses experience of the Portfolio as at the dates indicated. Any material change to the Eligibility Criteria, which could lead to arrears and losses deviating from the historical experience presented in the table under “*Loss Information*,” will be reported by the Guarantor on periodic reports filed with the SEC on Form 10-D. It is not expected that the characteristics of the Portfolio as of the closing date will differ materially from the characteristics of the Portfolio as of the cut-off date.

The Portfolio was drawn up as at the cut-off date and comprised 63,382 Loans having an aggregate current balance of \$10,561,462,992 as at that date. The Bank originated the Loans in the Portfolio between January 2005 and July 2014.

46,464 Loans in the Portfolio (or 73.34% of the aggregate current balance of the Loans as of the cut-off date) were fixed rate Loans. The remaining 16,918 Loans in the Portfolio (or 26.66% of the aggregate current balance of the Loans as of the cut-off date) were standard variable rate Loans, as described below.

In the prior three years, there have been no repurchases or replacement of Loans in the Portfolio as a result of breaches of representations or warranties and no demands for repurchase or replacement of any Loan.

No Loan in the Portfolio failed to meet the Bank’s Lending Criteria.

The Bank most recently filed a Form ABS-15G on February 14, 2014. The Bank’s Central Index Key is 0000009631.

As of the cut-off date, the Bank's standard five-year variable rate for existing and new borrowers was 3.8% (rate for “open” loans) and 3.1% (rate for “closed” loans) per annum.

Review of the Portfolio

The Bank has performed a review of the Loans in the Portfolio and a review of the disclosure regarding the Loans in this preliminary prospectus supplement and the accompanying prospectus required by Item 1111 of Regulation AB (such disclosure, the “**Rule 193 Information**”). This review was designed and effected to provide the Bank with reasonable assurance that the Rule 193 Information is accurate in all material respects.

S-14

One aspect of the review consisted of a comparison of the statistical information contained in Annex A and Annex B hereto to statistical information relating to all of the Loans in the Portfolio contained in the Bank's data files. The data files are electronic records maintained by the Bank. For this comparison, the data files from the Bank's loan servicing system, including relevant data elements, were extracted from the Bank's information repository system. No material exceptions were found between the statistical information contained in Annex A and Annex B and the data files extracted from the Bank's system.

A second aspect of the review consisted of a sample review by a third party of 652 randomly selected Loan files, which compared certain Loan characteristics selected by the Bank to the applicable information in the data files. No material exceptions were found between the Loan files reviewed and the data extracted from the Bank's system.

A third aspect of the review consisted of a review of the Rule 193 Information related to descriptions of the transaction documents in this preliminary prospectus supplement and the accompanying prospectus. For this part of the review, the Bank and its legal counsel reviewed the Rule 193 Information consisting of descriptions of portions of the transaction documents and compared that Rule 193 Information to the related transaction documents. The Bank and its legal counsel also reviewed the Rule 193 Information consisting of descriptions of legal and regulatory provisions that may materially affect the performance of the Loans or payments on the covered bonds.

In addition to the elements of the review of the Rule 193 Information that were specifically conducted for purposes of this transaction as described above, with respect to Rule 193 Information relating to credit approvals and exceptions to credit policies, the Bank has observed the regular, ongoing application of its internal control procedures. These include audits, quality assurance reviews and portfolio level analyses following origination to assess compliance with the Bank's underwriting policies. These audits, quality assurance reviews and portfolio level analyses are reviewed by a policy review committee as well as group risk management and other partners on a regular basis.

All Rule 193 Information consisting of textual disclosures of factual information and not otherwise described above was reviewed and approved by the Bank.

After undertaking the elements of the review described above, the Bank has found and concluded that it has reasonable assurance that the Rule 193 Information in this preliminary prospectus supplement and the accompanying prospectus is accurate in all material respects.

The review of disclosure relating to the description of the transaction documents and legal and regulatory matters and the reviews of statistical information and certain Loans characteristics were performed with the assistance of third parties engaged by the Bank. The Bank determined the nature, extent and timing of the review and the level of assistance provided by the third parties and by the Bank. The Bank has ultimate authority and control over, and assumes all responsibility for, the review and the findings and conclusions of the review. The Bank attributes all findings and conclusions of the review to itself.

HISTORICAL PORTFOLIO DATA

The cover pool was not established until July 30, 2013. Historical pool information regarding the performance of the Loans in the Portfolio is contained in this Annex. Historical pool information contained in this Annex that relates to the performance of the Loans for periods commencing prior to December 2008 does not form a part of this preliminary prospectus supplement, the accompanying prospectus or the registration statement relating to the covered bonds. Historical performance information about the Loans in the Portfolio for periods prior to December 2008 is not provided as such information is not available for such years and cannot be obtained without unreasonable effort and expense. Columns stating percentage amounts may not add to 100% due to rounding.

The following vintage tables present historical loan information about the Loans in the Portfolio as of May 29, 2014 in respect of arrears as at the dates specified in respect of Loans originated in specific years. As at May 29, 2014 there have been no losses in the Portfolio since the First Transfer Date. “Vintage 2008,” for example, indicates all Loans in the Portfolio originated in the calendar year 2008, including Loans refinanced solely with respect to rate or term in subsequent years. All of the Loans originated by the Bank are secured by a mortgage with first ranking priority on residential property in Canada. All such Loans are originated in accordance with the Bank's lending criteria at the time of offer of the Loan. There are no material differences between the lending and origination criteria used to originate the Loans and the Bank's lending and origination criteria described in the accompanying prospectus. Notwithstanding any change to the lending criteria or other terms applicable to new Loans, new Loans and their related security may only be assigned to the Portfolio if those new Loans comply with the Seller's representations and warranties set out in the Mortgage Sale Agreement, including a representation that those new Loans were originated in accordance with the Seller's lending criteria applicable at the time of their origination. The Seller is obliged to repurchase Loans that are in breach of these representations and warranties. See “*Summary of the Principal Documents—Mortgage Sale Agreement—Repurchase of Loans*” in the accompanying prospectus.

Historical pool information on prepayments on the Loans is not being provided because prepayment and repayment rates should not affect the maturities of the covered bonds. The single pool of Loans held by the Guarantor supports an ongoing issuance of covered bonds by the Bank. As Loans repay or prepay, reducing the size of the Portfolio, the Seller is required to add Loans to the Portfolio in order to maintain compliance with the Asset Coverage Test. See “*Summary of the Principal Documents—Guarantor Agreement—Asset Coverage Test*” in the accompanying prospectus. Any new Loans may only be assigned to the Portfolio if those new Loans comply with the Seller's lending criteria, the material aspects of which are described under “Loan Origination and Lending Criteria” in the accompanying prospectus.

For collection purposes, a Loan is considered delinquent when a scheduled payment is 30 days or more past due. In the tables below, a Loan for which a scheduled payment is less than 30 days past due is categorized as “Current.”
