DESWELL INDUSTRIES, INC.
ANNOUNCES EPS OF \$0.61 PER SHARE FOR THE THIRD QUARTER

- OPERATING INCOME UP 3% -
- THIRD QUARTER DIVIDEND OF \$0.24 PER SHARE -

HONG KONG (February 4, 2002) - Deswell Industries, Inc. (Nasdaq: DSWL) today

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

announced its results for the third quarter and nine months ended December 31, 2001.

Net sales for the quarter were \$20.2 million, a decrease of 5% compared to sales of \$21.4 million in the third quarter ended December 31, 2000. Operating income increased 3% to \$3.4 million, compared to \$3.3 million in the previous year. Net income for the quarter decreased 4% to \$3.4 million, compared to \$3.6 million in the previous year. The decrease is mainly attributed to less interest income as a result of the decline in interest rates this year. Diluted earnings per share decreased 7% to \$0.61 based on 5,622,000 weighted average shares outstanding, compared to \$0.66 based on 5,454,000 weighted average shares outstanding in the third quarter ended December 31, 2000.

Net sales for the nine months ended December 31, 2001 were \$64.3 million, an increase of 1% compared to sales of \$64.0 million for the corresponding period in 2000. Operating income remained the same at \$11.2 million for both periods. Net income was \$10.4 million, compared to \$10.4 million in the previous year. Diluted earnings per share decreased 3% to \$1.86 based on 5,612,000 weighted average shares outstanding, compared to \$1.92 based on 5,407,000 weighted average shares outstanding for the nine months ended December 31, 2000.

The Company's balance sheet remains strong. The Company's cash and cash equivalents for the nine months increased to \$32.3 million, compared to \$25.3 million on March 31, 2001. The Company has no long-term borrowings.

Mr. Richard Lau, Chairman and Chief Executive Officer, commented, "Like many OEM manufacturers, our business continues to be impacted by the economic slowdown, which has resulted in delayed orders from some customers. We are proud of the fact that despite a very slight decline in revenue during the quarter, operating income increased due to a reduction in selling, general & administrative expenses.

Mr. Lau continued, "We will commence construction in March of a new plastic manufacturing plant in Dongguan. Construction is expected to be complete by August 2002. The new facility will expand the capacity of our plastics division by approximately 40 percent and enable us to accept additional business we anticipate from existing customers. Additionally, we have strengthened our marketing team and added some seasoned professionals from the industry. We believe that our performance will gradually improve in the coming year."

THIRD QUARTER DIVIDENDS

The Company also announced that on February 2, 2002 its board of directors declared a dividend of \$0.24 per share for the third quarter. The dividend will be payable on February 25, 2002 to shareholders of record as of February 11, 2002.

Deswell manufactures injection-molded plastic parts and components, electronic products and subassemblies, and metallic products for original equipment manufacturers ("OEMs") and contract manufacturers at its factories in the People's Republic of China. The Company produces a wide variety of plastic parts and components used in the manufacture of consumer and industrial products; printed circuit board assemblies using surface mount ("SMT"), and pin-through hole ("PHT") interconnection technologies; and finished products such as telephones, telephone answering machines, sophisticated studio-quality audio

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

equipment and computer peripherals. The Company's customers include Kyocera Mita Industrial Co. (H.K.) Limited, Epson Precision (H.K.) Ltd., Nantai Electronics (Shenzhen) Co. Ltd., Inter-Tel Incorporated, Vtech Communications Ltd., Peavey Electronics Corporation and Emerson.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(U.S. DOLLARS IN THOUSANDS EXCEPT PER SHARE DATA)

1. MANAGEMENT'S STATEMENT

In the opinion of Management, the accompanying unaudited financial statements contain all adjustments (all of which are normal and recurring in nature) necessary to present fairly the financial position of Deswell Industries, Inc. (the Company) at December 31, 2001 and March 31, 2001, the results of operations for the quarters and nine months ended December 31, 2001 and December 31, 2000, and the cash flows for the nine months ended December 31, 2001 and December 31, 2000. The notes to the Consolidated Financial Statements

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

that are contained in the Form 20-F Annual Report filed on July 10, 2001 under the Securities Exchange Act of 1934 should be read in conjunction with these Consolidated Financial Statements.

2. INVENTORIES

	December 31, 2001	March 31, 2001
Inventories by major categories:		
Raw materials	\$ 6,722	\$ 6,129
Work in progress	3,806	2,947
Finished goods	2,421	2,958
	\$ 12,949	\$ 12,034

3. EARNINGS PER SHARE

The basic net income per share and diluted net income per share are computed in accordance with the Statement of Financial Accounting Standards No.128 "Earnings Per Share".

The basic net income per share is computed by dividing income available to common holders by the weighted average number of common shares outstanding during the period. Diluted net income per share gives effect to all dilutive potential common shares outstanding during the period. The weighted average number of common shares outstanding is adjusted to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. In computing the dilutive effect of potential common shares, the average stock price for the period is used in determining the number of treasury shares assumed to be purchased with the proceeds from exercise of options.

The net income for the quarters and nine months ended December 31, 2001 and 2000 were both from the Company's continuing operations.

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

GENERAL

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

The Company's revenues are derived from the manufacture and sale of (i) injection-molded plastic parts and components, (ii) electronic products and subassemblies and (iii) metallic parts and components. The Company carries out all of its manufacturing operations in southern China, where it is able to take advantage of the lower overhead costs and inexpensive labor rates as compared to Hong Kong.

QUARTER ENDED DECEMBER 31, 2001 COMPARED TO QUARTER ENDED DECEMBER 31, 2000

The Company's net sales for the quarter ended December 31, 2001 were \$20,217,000, a decrease of \$1,159,000, or 5.4%, as compared to the corresponding period in 2000. The decrease in sales was mainly related to a decrease in sales of injection-molded plastic products of \$1,313,000 offset by the increase in sales of electronic and metallic products of \$154,000. This represented a decrease of 9.8% and an increase of 1.9%, respectively, as compared with the net sales in the corresponding period in the prior year.

The gross profit for the quarter ended December 31, 2001 was \$7,225,000, representing a gross profit margin of 35.7%. This compares with the overall gross profit and gross profit margin of \$7,619,000 or 35.6% respectively for the quarter ended December 31, 2000.

Selling, general and administrative expenses for the quarter ended December 31, 2001 were \$3,778,000, or 18.7% of total net sales, compared with \$4,282,000 or 20.0% of total net sales for the quarter ended December 31, 2000. The decrease in selling, general and administrative expenses of \$504,000 over the corresponding period was mainly attributed to the strict control on these expenses.

As a result of the decrease in sales revenue and selling, general & administrative expenses, operating income was \$3,447,000 for the quarter ended December 31, 2001; an increase of \$110,000 or 3.3% as compared with the corresponding quarter in the prior year.

Minority interest represents the 49% minority interest in both the electronics and metallic subsidiaries. The decrease in minority interest to \$78,000 for the quarter ended December 31, 2001 from \$87,000 for the quarter ended December 31, 2000 reflects the decreased profits generated by the electronic and metallic business.

As a result of the above factors, net income was \$3,430,000 for the quarter ended December 31, 2001, a decrease of \$159,000 or 4.4%, as compared to the quarter ended December 31, 2000 and net income as a percentage of net sales increased slightly to 17.0% from 16.8%.

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

NINE MONTHS ENDED DECEMBER 31, 2001 COMPARED TO NINE MONTHS

ENDED DECEMBER 31, 2000

The Company's net sales for the nine months ended December 31, 2001 were \$64,290,000, an increase of \$319,000 or 0.5% as compared to corresponding period in 2000. The increase in sales was mainly related to increase in sales of electronic and metallic products of \$1,762,000 offset by the decrease in sales of plastic injection-molding products of \$1,443,000. This represented an increase of 6.8% and a decrease of 3.8%, respectively, as compared with the net sales in the corresponding period in the prior year.

The gross profit for the nine months ended December 31, 2001 was \$22,312,000, representing a gross profit margin of 34.7%. This compares with the overall gross profit and gross profit margin of \$23,029,000 or 36.0% for the nine months ended December 31, 2000. The decrease in the overall gross profit margin of 1.3% was mainly attributed to the combined effect of the increase in resin costs and electronics component costs in the plastic and electronic division respectively.

Selling, general and administrative expenses for the nine months ended December 31, 2001 were \$11,103,000, amounting to 17.3% of total net sales, as compared to \$11,801,000 or 18.4% of total net sales for the nine months ended December 31, 2000. The decrease in selling, general and administrative expenses of \$698,000 over the corresponding period was mainly attributed to the strict control on these expenses.

As a result, operating income was \$11,209,000 for the nine months ended December 31, 2001, a decrease of \$19,000 or 0.2% as compared with the corresponding period in the prior year.

Minority interest represents the 49% minority interest in both the electronics and metallic subsidiaries. The decrease in minority interest to \$744,000 for the nine months ended December 31, 2001 from \$916,000 for the nine months ended December 31, 2000 reflects the decreased profits generated by the electronic and metallic business.

As a result of the above factors, net income was \$10,434,000 for the nine months ended December 31, 2001, an increase of \$77,000 or 0.7%, as compared to the nine months ended December 31, 2000 and net income as a percentage of net sales remained at 16.2%.

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

LIQUIDITY AND CAPITAL RESOURCES

Traditionally, the Company has relied primarily upon internally generated funds and short-term borrowings (including trade finance facilities) to finance its operations and expansion, although capital expenditure has been partly financed by long-term debt, including capital leases.

As of December 31, 2001, the Company had a working capital surplus of \$54,271,000. This compares with a working capital surplus of \$47,356,000 at March 31, 2001. The increase in working capital was mainly attributed to the net cash generated from operating activities offset by a dividend distribution of \$5,880,000 and the capital investment of \$2,216,000 during the nine months ended December 31, 2001.

The Company has generated sufficient funds from its operating activities to finance its operations and there is little need for external financing other than short-term borrowings that are used to finance accounts receivable and are generally paid from cash generated from operations. The Company has outstanding short-term borrowings of \$482,000 and no long-term debt at December 31, 2001.

As of December 31, 2001, the Company had in place general banking facilities with six financial institutions aggregating approximately \$18,224,000. Such facilities, which are subject to annual review, include overdrafts, letters of credit, import facilities, trust receipt financing, bills negotiation facilities, factoring facilities as well as fixed loans. As of December 31, 2001, the Company had (i) unused credit facilities of \$17,198,000 (ii) cash and cash equivalents of \$32,347,000 and (iii) restricted cash of \$2,827,000. The restricted cash of 2,750,000 and leasehold land and buildings of \$1,355,000 have been pledged as collateral for those credit facilities. The Company also had \$77,000 pledged as deposit for custom duties in Dongguan, China.

The Company expects that working capital requirements and capital additions will continue to be funded through a combination of cash on hand, internally generated funds and existing facilities.
