**FORM 10-Q/A**

Rayonier Inc. (the Company) is amending its 2002 quarterly Form 10-Q reports following the consolidation of two third-party wood chip manufacturers previously accounted for as unconsolidated suppliers, as disclosed in Note 20-Restatements in the Company's Form 10-K filed on March 21, 2003. The restatement for the quarter ended June 30, 2002, as disclosed in Note 2-Restatements herein, involved reclassifying \$0.3 million from cost of sales to interest expense and adding \$13.6 million to assets and debt. Net income and earnings per share for the periods have not changed due to the restatements. The Condensed Consolidated Financial Statements for the three and six months ended June 30, 2002 and 2001 and as of June 30, 2002 and December 31, 2001 are restated herein.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(unaudited)**

**(Dollar amounts in thousands unless otherwise stated)**

**1. BASIS OF PRESENTATION**

The unaudited financial statements reflect, in the opinion of Rayonier Inc. and subsidiaries ( Rayonier or the Company ), all adjustments (which include normal recurring adjustments) necessary for a fair presentation of the results of operations, the financial position and the cash flows for the periods presented. The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires the use of certain estimates by management (e.g., useful economic lives of assets) in determining the amount of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. There are risks inherent in estimating, and therefore, actual results could differ from those estimates. For a full description of the Company's significant accounting policies, please refer to the Notes to Consolidated Financial Statements in the 2001 Annual Report on Form 10-K.

*New Accounting Standards*

In April 2002, the Financial Accounting Standards Board issued Statement of Accounting Standards No. 145, *Rescission of FASB Statements No 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections*. As allowed by the FASB, the Company early adopted the Standard on April 1, 2002. During the second quarter of 2002, the Company refinanced \$23.1 million of its revenue bonds. In accordance with the Standard, the write-off of the balance of the deferred financing fees of \$0.2 million and the premium of \$0.5 million paid upon the redemption of the original bonds were not classified as an extraordinary item in xthe Company's Condensed Statements of Consolidated Income.

*Reclassifications*

Certain items in prior year's condensed consolidated financial statements have been reclassified to conform to the current year presentation.

**2. RESTATEMENTS**

Subsequent to the issuance of the Company's condensed consolidated financial statements for the three and six months ended June 30, 2002, the Company's management determined that two third-party wood chip manufacturers, Georgia Chips and Fulghum Fibres Collins, Inc., originally accounted for since 1995 as unconsolidated suppliers of wood chips, should be consolidated within the Company's Financial Statements. The Company had entered into agreements with these two third parties whereby they would construct and operate these wood chip processing facilities on property owned by the Company. The Company guaranteed 85% of the notes payable used to finance the construction of these facilities. This guarantee has always been disclosed in the Company's Form 10-K filings in the Notes to Consolidated Financial Statements.

## Edgar Filing: RAYONIER INC - Form 10-Q/A

Although these wood chip manufacturers have the ability and capacity to process chips for other customers, the Company has historically purchased all of the wood chips from these processing facilities.

As a result, the Condensed Consolidated Financial Statements as of June 30, 2002 and December 31, 2001 and for the three and six months ended June 30, 2002 and 2001 have been restated from the amounts previously reported to consolidate these two wood chip manufacturers. Net income and earnings per share for the three and six months ended June 30, 2002 and 2001 have not changed due to the restatement, as the wood chip costs had been included in cost of sales for those periods. Operating income for three and six months ended June 30, 2002 and 2001 has changed to reflect a portion of the facilities' wood chip costs pertaining to an imputed interest charge being reclassified out of cost of sales into interest expense. Interest expense on the construction loans was indirectly passed to Rayonier through invoices for the cost of wood chips it purchased. Property, plant and equipment have been restated for an additional \$14 million and \$15 million, respectively, as of June 30, 2002 and December 31, 2001, with a corresponding increase in debt.

Operating income (loss) as stated in the preceding tables and as presented in the Condensed Statements of Consolidated Income is equal to Segment income (loss). The income (loss) items below Operating income in the Condensed Statements of Consolidated Income are not allocated to segments. These items, which include interest (expense) income, miscellaneous income (expense) and income tax (expense) benefit, are not considered by Company management to be part of segment operations.

**6. DISCONTINUED OPERATIONS**

During the second quarter of 2002, the Company sold its New Zealand East Coast timberland operations and associated assets for \$64.4 million. At closing the Company received \$11.9 million in cash and a note receivable for \$52.5 million. The note is payable in interest-bearing monthly payments through December 30, 2002. During June 2002, the Company received its first monthly installment payment of \$2 million on the note receivable. Also, monthly payments have been and will be deposited in a trust, payable to Rayonier at December 30, 2002. In accordance with

## Edgar Filing: RAYONIER INC - Form 10-Q/A

Statement of Financial Accounting Standard ( SFAS ) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the sale and results of operations were recorded as a discontinued operation. The Company recorded an after-tax loss from discontinued operations of approximately \$1.3 million or \$0.05 per share in the second quarter of 2002, consisting of an after-tax loss of approximately \$1.7 million from the sale, net of after-tax income from East Coast operations of \$0.4 million. The Condensed Statements of Consolidated Income, Condensed Statements of Consolidated Cash Flows and related Notes have been reclassified to present the East Coast operations as a discontinued operation. The East Coast operations and associated assets were previously reported in the Company's Timber and Land and Wood Products and Trading segments.

Operating results of the discontinued operation are summarized below:

	Three Months Ended		Six Months Ended June	
	June 30,		30,	
	2002	2001	2002	2001
Net sales	\$ 11,442	\$ 9,658	\$ 19,005	\$ 16,850

**Table of Contents****RAYONIER INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)****(Dollar amounts in thousands unless otherwise stated)**

The Condensed Consolidated Balance Sheets, which have not been reclassified, include assets and liabilities of discontinued operations as follows:

	June 30, 2002	December 31, 2001
Current assets	\$ 2,560	\$ 4,017
Long-term assets		65,822
<b>Total assets</b>	<b>2,560</b>	<b>69,839</b>
Current liabilities	1,767	1,350
Other liabilities		1,366
<b>Net assets of discontinued operations</b>	<b>\$ 793</b>	<b>\$ 67,123</b>

A provision in the Company's original agreement to purchase the East Coast property from the New Zealand government requires the Company, in the event of a sale, to guarantee five years of Crown Forest license obligations, estimated at \$1.2 million per year. However, the purchaser (Huaguang Forests Co. Limited of China) is the primary obligor and has posted a performance bond with the New Zealand government.

**7. FINANCIAL INSTRUMENTS**

The Company is exposed to various market risks, including changes in commodity prices, interest rates and foreign exchange rates. The Company's objective is to minimize the economic impact of these market risks. Derivatives are used, as noted below, in accordance with policies and procedures approved by the Finance Committee of the Board of Directors and are managed by a senior executive committee, whose responsibilities include initiating, managing and monitoring resulting exposures. The Company does not enter into such financial instruments for trading purposes.

In our New Zealand timber operations and at our New Zealand medium density fiberboard (MDF) manufacturing facility, certain normal operating expenses, including contractor and license fees, care and maintenance of timberlands, salaries and wages, wood purchases and other production costs incurred in manufacturing MDF, are denominated in New Zealand dollars. Rayonier hedges US/New Zealand dollar currency rate-risk with respect to these operating expenditures (cash flow hedging).

## Edgar Filing: RAYONIER INC - Form 10-Q/A

In the Company's Condensed Statements of Consolidated Income for the three and six months ended June 30, 2002, gains of approximately \$0.1 million and \$0.4 million, respectively, were recorded on foreign currency contracts reflecting primarily realized gains on contracts that matured, plus the time value changes for outstanding contracts. The Company recorded mark to market after-tax gains on foreign currency contracts of approximately \$0.8 million in Accumulated other comprehensive income (loss) (AOCI) in the Condensed Consolidated Balance Sheet as of June 30, 2002. When the forecasted transactions come to fruition and are recorded, the amounts in AOCI are reclassified to the Condensed Statements of Consolidated Income. The Company expects to reclassify this amount into earnings during the next ten months.

At June 30, 2002, the Company held foreign currency forward contracts maturing through April 2003 totaling \$11.0 million (nominal value). The largest amount of contracts outstanding during the first six months of 2002 totaled \$13.1 million (nominal value).

In March 2002, the Company entered into an interest rate swap on \$50 million of 6.15% fixed rate notes payable maturing in February 2004. The swap converts interest payments from fixed rates to floating rates and matures in February 2004. The interest rate swap qualifies as a fair value hedge under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*. As such, the net effect from the interest rate swap is recorded as part of interest expense. The swap agreement settles every May 15, and November 15, until maturity. During the second quarter, the Company's interest expense was reduced by \$0.3 million. Based upon the current interest rates for similar transactions, the fair value of the interest rate swap agreement resulted in an asset of approximately \$0.8 million and an increase in debt of approximately \$0.8 million at June 30, 2002.

**8. LEGAL PROCEEDINGS**

The Company considers the accounting for its environmental liabilities to be one of its critical accounting policies. Between 1985 and 1995, the Company sent contaminated soil excavated in connection with the cleanup of various closed wood processing sites to a third-party processor for recycling. The processing facility closed in 1995 and is the subject of a variety of environmental related charges by the EPA and the Louisiana Department of Environmental Quality. Also in dispute is disposal liability for approximately 150,000 tons of recycled material from Company sites that are still owned and retained by the processor. A consent decree was entered in 1998 approving sale of the processing facility and assumption by the buyer of responsibility for movement of all remaining recycled material to a landfill. The parties have been unable to complete the sale and the consent decree was vacated in May 2002. As a result, the status of the sale of the facility and ultimate responsibility for removal and disposal of the recycled material on-site are now uncertain. There are numerous possible outcomes, including the purchase of the facility by a third-party recycler, that will determine the Company's ultimate liability, if any. None of these outcomes are considered sufficiently probable at this time to warrant the recognition of a liability in the Company's financial statements. The Company is unable to formulate a range of possible losses. As such, the final outcome could have a material adverse effect on the Company's results of operations.

**PART I. FINANCIAL INFORMATION**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The Company has restated its Condensed Consolidated Financial Statements as of June 30, 2002 and December 31, 2001 and for the three and six months ended June 30, 2002 and 2001 related to the consolidation of two-third party wood chip manufacturers as discussed in Note 2-Restatements. The MD&A gives effect to this restatement.

**Critical Accounting Policies**

The preparation of Rayonier's financial statements requires estimates, assumptions and judgements that affect the Company's assets, liabilities, revenues and expenses. The Company bases these estimates and assumptions on historical data and trends, current fact patterns, expectations and other sources of information it believes are reasonable. Actual results may differ from these estimates under different conditions. For a full description of the Company's critical accounting policies, see the Management Discussion and Analysis in the 2001 Annual Report on Form 10-K.

**Segment Information**

Rayonier operates in three reportable segments: Performance Fibers, Timber and Land, and Wood Products and Trading. Performance Fibers includes two business units, Cellulose Specialties and Absorbent Materials. The Timber and Land segment includes two business units, Timber and Land.

**Table of Contents**

The amounts and relative contributions to sales and operating income (loss) attributable to each of Rayonier's reportable business segments were as follows (thousands of dollars):

The income (loss) items below Operating income in the Condensed Statements of Consolidated Income are not allocated to segments. These items, which include interest (expense) income, miscellaneous income (expense) and income tax (expense) benefit, are not considered by Company management to be part of segment operations.

**Results of Operations**

*Sales and Operating Income*

Sales and operating income for the second quarter of 2002 of \$269 million and \$40 million, respectively, were \$67 and \$25 million lower than the comparable period in the prior year. These declines were primarily due to a major land sale in the second quarter of 2001, that contributed \$59 million in sales and \$33 million in operating income. Excluding that transaction, sales decreased due to lower Performance Fibers volume, absorbent materials prices, Southeast U.S. timber volume and Northwest U.S. timber prices, but operating income increased due to lower Performance Fibers manufacturing costs, higher routine land sales and higher Northwest U.S. timber volumes.

Sales and operating income of \$538 million and \$67 million, respectively, for the six months ended June 30, 2002, were \$68 million and \$35 million lower compared to the same period in the prior year. Excluding the major land sale, sales decreased slightly due to lower Performance Fibers volume and absorbent materials prices, Southeast U.S. timber volume and U.S. timber prices, while operating income was essentially flat.

## **Table of Contents**

### ***Performance Fibers***

Sales for the second quarter of 2002 were \$124 million, down \$22 million from the prior year second quarter due to lower absorbent materials volume and prices and lower cellulose specialties volume partially due to higher in-transit shipments. Operating income for the second quarter of 2002 of \$11 million was \$3 million below the prior year second quarter primarily due to lower fluff pulp prices (the major component of the absorbent materials business), and volumes, partially offset by lower manufacturing costs. Fluff pulp prices are impacted by commodity market paper pulp prices, which declined during 2001 and have continued to fall during 2002 due to the sluggish global economy.

Sales for the six months ended June 30, 2002, were \$253 million, \$31 million below the same period in the prior year due to lower absorbent materials prices and decreases in absorbent materials and cellulose specialties volumes. Operating income for the six months ended June 30, 2002, was \$18 million, \$11 million below the same period in the prior year, mainly due to lower absorbent materials prices and sales volumes, partly offset by favorable manufacturing costs.

### ***Cellulose Specialties***

Sales of \$87 million for the second quarter of 2002 were \$9 million below the prior year second quarter. While prices dropped by 1 percent, there was a 9 percent decrease in volume partly due to higher in-transit shipments. Sales of \$177 million for the six months ended June 30, 2002, were \$9 million below the same period in the prior year, primarily due to a 1 percent decrease in price and a 4 percent decrease in volume. The slight price decrease in both the second quarter and the six months ended June 30, 2002 was due to a change in product mix.

### ***Absorbent Materials***

Sales of \$37 million for the second quarter of 2002 were \$12 million lower than the prior year second quarter. The decrease was primarily due to a 15 percent decline in average fluff pulp prices and approximately 12 percent lower sales volume partially due to higher in-transit shipments. Sales of \$76 million for the six months ended June 30, 2002, were \$23 million below the same period in the prior year as prices were 17 percent lower and volumes were on average 7 percent below the six months ended June 30, 2001.

### ***Timber and Land***

Sales of \$58 million for the second quarter of 2002 were \$52 million below the prior year second quarter. The decrease was primarily due to the \$59 million major land sale that occurred in the second quarter of 2001 and slightly lower timber sales. Operating income of \$32 million for the second quarter of 2002 was \$24 million lower than the prior year second quarter due to the major land sale in 2001. Excluding the major land sale, higher volume in the Northwest U.S and higher routine land sales in 2002 more than offset lower timber volume in the Southeast U.S. and lower prices in the Northwest U.S.

## Edgar Filing: RAYONIER INC - Form 10-Q/A

Sales and operating income of \$119 million and \$61 million, respectively, for the six months ended June 30, 2002, were \$52 million and \$31 million below the same period in the prior year. These decreases were principally due to the major land sale in 2001 and lower timber prices, partly offset by higher volume in the Northwest U.S. and higher routine land sales in 2002.

### *Timber*

Sales for the second quarter of 2002 were \$45 million, \$2 million below the prior year second quarter due to a 26 percent decrease in volume in the Southeast U.S. and a 13 percent price decrease in the Northwest U.S., partially offset by an increase in Northwest U.S. volume of 64 percent. Operating income of \$21 million for the second quarter of 2002 was essentially flat compared to the prior year second quarter. Sales of \$88 million and operating income of \$42 million for the six months ended June 30, 2002, were \$20 million and \$15 million lower compared to the same period in the prior year, respectively. The decrease in sales and operating income was due to price reductions in the Northwest and Southeast U.S. of 14 and 5 percent, respectively, as well as lower Southeast U.S. volume of 24 percent. These unfavorable variances were partly offset by higher Northwest U.S. volume of 9 percent.

### *Land*

Sales for the second quarter of 2002 of \$13 million decreased \$50 million from the prior year second quarter and operating income of \$11 million decreased \$24 million, primarily due to the major land sale in 2001. Sales of \$32 million for the six months ended June 30, 2002, were down \$32 million compared to the same period in the prior year.

## **Table of Contents**

Excluding the major land sale, sales and operating income improved \$27 million and \$17 million, respectively, due to higher routine land sales.

### ***Wood Products and Trading***

Sales for the second quarter of 2002 were \$91 million compared to \$83 million in the prior year second quarter. The operating results for the second quarters of both 2002 and 2001 were essentially breakeven. Sales increased due to higher lumber volume attributable to increased operating hours and improved productivity as well as favorable trading activity, partly offset by lower lumber prices compared to 2001. Second quarter 2002 lumber prices were adversely impacted as a result of Canadian producers shipping additional lumber to the U.S. prior to the implementation of the countervailing and anti-dumping duty on Canadian shipments.

Sales for the six months ended June 30, 2002, of \$173 million were \$14 million above the same period in the prior year. The increase was due to higher prices and volumes for both lumber and medium-density fiberboard partially offset by lower trading activity. The operating loss of \$2 million for the six months ended June 30, 2002, was \$5 million favorable compared to the same period in the prior year. This was due to improved trading margins and productivity, and lower lumber manufacturing costs.

### ***Corporate and Other***

Corporate and other expenses for the second quarter of 2002 were \$2 million compared to \$4 million in the prior year second quarter. The improvement resulted from the favorable impact of New Zealand foreign exchange rates and lower stock price-based incentive compensation. Corporate and other expenses for the six months ended June 30, 2002, were \$9 million, \$2 million lower than the same period in the prior year. The decrease primarily resulted from favorable New Zealand foreign exchange rates, slightly offset by higher stock price-based incentive compensation.

### ***Other Income / Expense***

Interest expense for the second quarter of 2002 was \$15 million, a decrease of nearly \$3 million from the prior year second quarter mainly due to lower debt. Interest expense for the six months ended June 30, 2002, was \$31 million compared to \$37 million for the same period in the prior year resulting from lower debt and slightly lower rates.

Interest and miscellaneous income (expense) for the second quarter of 2002 was an expense of \$0.1 million compared to income of \$0.7 million in the prior year second quarter. The unfavorable variance was due principally to \$0.5 million of expense in the second quarter of 2002 for redemption premiums paid to refinance a tax-exempt bond issue at favorable rates.

The effective tax rate for the second quarter of 2002 was 27.8 percent compared to 33.8 percent for the prior year second quarter. The six months ended June 30, 2002, effective tax rate was 28.0 percent compared to 33.6 percent for the same period in the prior year. During the second

## Edgar Filing: RAYONIER INC - Form 10-Q/A

quarter and the six months ended June 30, 2002, the Company's effective tax rate continued to be below the U.S. statutory and 2001 levels due to lower taxes on foreign operations.

The following table reconciles the Company's income tax provision at the U.S. statutory tax rate to the reported provision and effective tax rate for the second quarters of 2002 and 2001 (in millions):

	Three months ended June 30,			
	2002	%	2001	%
Income tax provision from continuing operations at U.S. statutory rate	\$ 8.5	35.0	\$ 16.6	35.0

Foreign operations	(1.2)	(5.1)	(0.2)	(0.5)
Foreign sales corporations	(0.8)	(3.4)	(1.2)	(2.5)
Permanent differences	0.1	0.5	0.2	0.4

	\$ 6.8	27.8%	\$ 16.1	33.8%
Income tax provision from continuing operations as reported	\$ 6.8	27.8%	\$ 16.1	33.8%

### *Income from Continuing Operations*

Income from continuing operations for the second quarter of 2002 was \$18 million, or \$0.62 per diluted common share, compared to \$31 million, or \$1.14 per diluted common share, for the prior year second quarter. The decrease is primarily due to the major land sale in 2001 partially offset by higher routine land sales in 2002 and lower interest expense and corporate and other operating

## **Table of Contents**

costs. Income from continuing operations of \$27 million, or \$0.94 per diluted common share, for the six months ended June 30, 2002, was \$17 million lower than the same period in the prior year. The decrease was due to the absence of the major land sale in 2001 and lower timber harvest volume, partially offset by higher routine land sales.

### ***Income (loss) from Discontinued Operations***

The Company had a loss of \$1.3 million or \$0.05 per share from discontinued operations in the second quarter of 2002. This consisted of income from operations of \$0.4 million and a loss of \$1.7 million on the sale of the discontinued operations. For the six months ended June 30, 2002, the loss from discontinued operations was \$0.9 million or \$0.04 per share.

### ***Other Items***

The Company expects third quarter 2002 earnings to be lower than second quarter primarily due to seasonal volume declines in the Northwest U.S. timber operations.

## **Liquidity and Capital Resources**

### ***Cash Flow***

Cash flow provided by operating activities from continuing operations of \$130 million for the six months ended June 30, 2002, was \$18 million lower than the same period in the prior year. The decrease was primarily from lower income in 2002 due to the absence of the major land sale, partially offset by lower working capital requirements. Cash provided by operating activities from continuing operations for the six months ended June 30, 2002, financed capital expenditures of \$34 million, dividends of \$20 million and debt payments of \$84 million (net). Cash flow used for financing activities for the six months ended June 30, 2002, was supplemented by \$14 million in new capital from the exercise of stock options, but reflected a decrease of \$20 million from same period in the prior year due to higher debt repayments (net), in 2001. The Company repurchased 22,900 of its common shares during the six months ended June 30, 2002, for \$1.1 million. No shares were repurchased in the first six months of 2001. Cash from discontinued operations provided an additional \$19 million in 2002. On June 30, 2002, the Company had cash investments of \$30.8 million, an increase of \$25 million from year-end. The cash investments consisted of marketable securities with maturities at date of acquisition of 90 days or less.

The discussion below is presented to enhance the reader's understanding of Rayonier's ability to generate cash, its liquidity and its ability to satisfy rating agency and creditor requirements. This information includes two measures of financial results: EBITDA and Free Cash Flow. EBITDA is defined as earnings from continuing operations before significant non-recurring items, provision for dispositions, interest expense, income taxes, depreciation, depletion, amortization and the non-cash cost of land sales. Free Cash Flow is defined as EBITDA plus or minus significant non-recurring items, changes in working capital and long-term assets and liabilities (excluding the non-cash costs of land sales), less income taxes, interest expense, custodial capital spending and prior-year dividend levels. These two measures are not defined by Generally Accepted Accounting Principles, ( GAAP ). The discussion of EBITDA and Free Cash Flow is not intended to conflict with or change any of the GAAP disclosures described above, but to provide supplementary information that management deems to be relevant to analysts, investors and

## Edgar Filing: RAYONIER INC - Form 10-Q/A

creditors. EBITDA and Free Cash Flow as defined may not be comparable to similarly titled measures reported by other companies.

EBITDA for the second quarter of 2002 was \$79 million, \$53 million below the prior year second quarter. The decrease was primarily due to the major land sale in 2001, which contributed \$58 million to EBITDA, plus lower absorbent materials and timber prices, lower lumber and performance fibers manufacturing costs. These decreases were partly offset by higher routine land sales and lumber prices. EBITDA for the six months ended June 30, 2002, was \$153 million, \$57 million below the same period in the prior year, due to the major land sale in 2001.

**Table of Contents**

Below is a reconciliation of Income from Continuing Operations to EBITDA for the respective periods (in millions except diluted per share amounts):

	Three months ended June 30,			
	2002	Per Share	2001	Per Share
Income from continuing operations	\$ 17.5	0.62	\$ 31.5	1.14
Add: Income tax expense	6.8	0.24	16.1	0.58
Interest expense	15.3	0.54	17.9	0.65

<b>EBITDA</b>	<b>\$ 152.8</b>	<b>5.42</b>	<b>\$ 209.3</b>	<b>7.59</b>

Free cash flow decreased \$45 million, to \$56 million for the first six months of 2002. The decrease resulted primarily from lower income in 2002 due to the absence of the 2001 major land sale and a \$24 million increase in cash and short-term investments during the six months ended June 30, 2002, over the same period in the prior year. These were partially offset by lower working capital requirements.

Below is a reconciliation of Cash Provided by Operating Activities of Continuing Operations to Free Cash Flow for the respective periods (in millions):

	Six months ended June 30,	
	2002	2001
Cash provided by operating activities of continuing operations	\$ 130.5	\$ 148.7

Free Cash Flow	\$ 55.5	\$ 100.9
----------------	---------	----------

***Debt***

At June 30, 2002, debt was \$782 million, a reduction of \$83 million from December 31, 2001, and the debt-to-capital ratio was 51.6 percent compared to 55.0 percent at December 31, 2001. Net debt, defined as debt less cash invested, was \$751 million at June 30, 2002, and the net debt-to-capital ratio was 50.6 percent. Net debt is not a measure defined by GAAP and is provided as supplementary information relevant to analysts, investors and creditors. The Company refinanced \$23.1 million of its tax-exempt revenue bonds in the second quarter of 2002.

As of June 30, 2002, Rayonier had \$300 million available under its committed revolving credit facilities. In conjunction with the Company's long-term debt, certain covenant restrictions are required on the ratio of EBITDA to interest expense and EBITDA to total debt. In addition, there are covenant requirements in effect for Rayonier Timberlands Operating Company ( RTOC ) on the ratio of cash flow available for fixed charges to fixed charges and the ratio of debt to cash flow available for fixed charges. The covenants listed below are calculated on a trailing 12-month basis.

**Table of Contents**

The most restrictive long-term debt covenants in effect for Rayonier as of June 30, 2002, were as follows:

	Covenant	Actual ratio at
	Requirement	June 30, 2002
EBITDA to consolidated interest expense should not be less than	2.50 to 1	4.34 to 1
Total debt to EBITDA should not exceed	4.00 to 1	2.81 to 1
Consolidated cash flow available for fixed charges to consolidated fixed charges should not be less than	1.65 to 1	1.98 to 1
Consolidated debt to consolidated cash flow for fixed charges may not exceed	4.25 to 1	3.63 to 1

In addition to the covenants listed above, the revolving credit agreements include customary covenants that limit the incurrence of debt, the disposition of assets and the making of certain payments between RTOC and Rayonier. The Company is currently in compliance with all of these covenants.

The Company has on file with the Securities and Exchange Commission shelf registration statements to offer \$150 million of new public debt securities. The Company believes that internally generated funds, combined with available external financing, will enable Rayonier to fund capital expenditures, share repurchases, working capital and other liquidity needs for the foreseeable future.

During the second quarter of 2002, the Company guaranteed five years of Crown forest timberland lease obligations estimated at \$1.2 million per year in conjunction with the sale of its New Zealand East Coast operations. See Note 6. *Discontinued Operations* in the Notes to the Condensed Consolidated Financial Statements for additional information regarding the guarantee. No other material changes in guarantees or financial instruments such as letters of credit and surety bonds occurred during the first six months of 2002.

***New Accounting Standards***

In April 2002, the Financial Accounting Standards Board issued Statement of Accounting Standards No. 145, *Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections*. As allowed by the FASB, the Company early adopted the Standard on April 1, 2002. During the second quarter of 2002, the Company refinanced \$23.1 million of its revenue bonds. In accordance with the Standard, the write-off of the balance of the deferred financing fees of \$0.2 million and the premium of \$0.5 million paid upon the redemption of the original bonds were not classified as an extraordinary item in the Company's Condensed Statements of Consolidated Income.

**PART I. FINANCIAL INFORMATION****Item 3. Quantitative and Qualitative Disclosures About Market Risk**

**Market Risk**

The Company is exposed to various market risks, including changes in commodity prices, foreign exchange rates and interest rates. The Company's objective is to minimize the economic impact of these market risks. Derivatives are used, as noted above, in accordance with policies and procedures approved by the Finance Committee of the Board of Directors and are managed by a senior executive committee whose responsibilities include initiating, managing and monitoring resulting exposures. The Company does not enter into financial instruments for trading purposes. See Note 7. Financial Instruments included in this Form 10-Q.

The fair market value of long-term fixed interest rate debt is subject to interest rate risk; however, Rayonier intends to hold most of its debt until maturity. During the first quarter of 2002, the Company entered into an interest rate swap in order to achieve a desired ratio of fixed and floating interest rates in its portfolio. As of June 30, 2002, the interest rate swap's fair market value resulted in an asset of \$0.8 million. Generally, the fair market value of fixed-interest-rate debt will increase as interest rates fall and decrease as interest rates rise.

Circumstances surrounding the Company's exchange rate risk, commodity price risk and interest rate risk remain unchanged from December 31, 2001. For a full description of the Company's market risk, please refer to Item 7, *Management Discussion and Analysis of Financial Condition and Results of Operations*, in the 2001 Annual Report on Form 10-K.

**Table of Contents****Safe Harbor**

*Comments about market trends and anticipated earnings and sales volumes are forward-looking and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The following important factors, among others, could cause actual results to differ materially from those expressed in the forward-looking statements: changes in global market trends and world events that could impact customer demand; interest rate and currency movements; fluctuations in demand for cellulose specialties, absorbent materials, timber and wood products; the impact of such market factors on the company's timber sales in the U.S. and New Zealand; adverse weather conditions; changes in production costs for wood products and performance fibers, particularly for raw materials such as wood, energy and chemicals; unexpected delays in the closing of land sale transactions or collection of proceeds from installment sales; and implementation or revision of governmental policies and regulations affecting the environment, import and export controls and taxes. For additional factors that could impact future results, please see the Company's 2001 Annual Report on Form 10-K on file with the Securities and Exchange Commission.*

**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

Between 1985 and 1995, the Company sent contaminated soil excavated in connection with the cleanup of various closed wood processing sites to a third-party processor for recycling. The processing facility closed in 1995 and is the subject of a variety of environmental related charges by the EPA and the Louisiana Department of Environmental Quality. Also in dispute is disposal liability for approximately 150,000 tons of recycled material from Company sites that are still owned and retained by the processor. A consent decree was entered in 1998 approving sale of the processing facility and assumption by the buyer of responsibility for movement of all remaining recycled material to a landfill. The parties have been unable to complete the sale and the consent decree was vacated in May 2002. As a result, the status of the sale of the facility and ultimate responsibility for removal and disposal of the recycled material on-site are now uncertain. There are numerous possible outcomes, including the purchase of the facility by a third-party recycler, that will determine the Company's ultimate liability, if any. None of these outcomes are considered sufficiently probable at this time to warrant the recognition of a liability in the Company's financial statements. The Company is unable to formulate a range of possible losses. As such, the final outcome could have a material adverse effect on the Company's results of operations.

**Item 4. Submission of Matters to a Vote of Security Holders**

The Annual Meeting of Shareholders of the Company was held on May 16, 2002. At that meeting, three directors were elected as follows (there were no broker non-votes with respect to the election of directors):
