THE GABELLI DIVIDEND & INCOME TRUST NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION. The Gabelli Dividend & Income Trust (the "Trust" or the "Fund") is a non-diversified closed-end management investment company organized under the laws of the State of Delaware and registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust sold 7,184 shares to Gabelli Funds, LLC (the "Adviser") for \$137,214 on November 18, 2003. Investment operations commenced on November 28, 2003. See Note 5 for share transactions.

The Trust's investment objective is to provide a high level of total return on its assets with an emphasis on dividends and income. The Trust will attempt to achieve its investment objective by investing, under normal market conditions, at least 80% of its assets in dividend paying securities (such as common and preferred stock) or other income producing securities (such as fixed income debt securities and securities that are convertible into equity securities).

2. SIGNIFICANT ACCOUNTING POLICIES. The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

SECURITY VALUATION. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees (the "Board") so determines, by such other method as the Board shall determine in good faith, to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Adviser.

Portfolio securities primarily traded on foreign markets are generally valued at the preceding closing values of such securities on their respective exchanges or if after the close of the foreign markets, but prior to the close

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

of business on the day the securities are being valued, market conditions change significantly, certain foreign securities may be fair valued pursuant to procedures established by the Board. Debt instruments that are not credit impaired with remaining maturities of 60 days or less are valued at amortized cost, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be valued at their fair value as determined by the Board. Debt instruments having a maturity greater than 60 days for which market quotations are readily available are valued at the latest average of the bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons to the valuation and changes in valuation of similar securities, including a comparison of foreign securities to the equivalent U.S. dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

REPURCHASE AGREEMENTS. The Trust may enter into repurchase agreements with primary government securities dealers recognized by the Federal Reserve Board, with member banks of the Federal Reserve System or with other brokers or dealers that meet credit guidelines established by the Adviser and reviewed by the Board. Under the terms of a typical repurchase agreement, the Trust takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Trust to resell, the obligation at an agreed-upon price and time, thereby determining the yield during

12

THE GABELLI DIVIDEND & INCOME TRUST NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

the Trust's holding period. The Trust will always receive and maintain securities as collateral whose market value, including accrued interest, will be at least equal to 102% of the dollar amount invested by the Trust in each agreement. The Trust will make payment for such securities only upon physical delivery or upon evidence of book entry transfer of the collateral to the account of the custodian. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Trust may be delayed or limited.

OPTIONS. The Trust may purchase or write call or put options on securities or indices. As a writer of put options, the Trust receives a premium at the outset and then bears the risk of unfavorable changes in the price of the financial instrument underlying the option. The Trust would incur a loss if the price of the underlying financial instrument decreases between the date the option is written and the date on which the option is terminated. The Trust would realize a gain, to the extent of the premium, if the price of the financial instrument increases between those dates.

As a purchaser of put options, the Trust pays a premium for the right to sell to the seller of the put option the underlying security at a specified

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

price. The seller of the put has the obligation to purchase the underlying security upon exercise at the exercise price. If the price of the underlying security declines, the Trust would realize a gain upon sale or exercise. If the price of the underlying security increases or stays the same, the Trust would realize a loss upon sale or at expiration date, but only to the extent of the premium paid.

In the case of call options, these exercise prices are referred to as "in-the-money," "at-the-money" and "out-of-the-money," respectively. The Trust may write (a) in-the-money call options when the Adviser expects that the price of the underlying security will remain stable or decline moderately during the option period, (b) covered at-the-money call options when the Adviser expects that the price of the underlying security will remain stable or advance moderately during the option period and (c) out-of-the-money call options when the Adviser expects that the premiums received from writing the call option will be greater than the appreciation in the price of the underlying security above the exercise price. By writing a call option, the Trust limits its opportunity to profit from any increase in the market value of the underlying security above the exercise price of the option. Out-of-the-money, at-the-money and in-the-money put options (the reverse of call options as to the relation of exercise price to market price) may be utilized in the same market environments that such call options are used in equivalent transactions.

SWAP AGREEMENTS. The Trust may enter into interest rate swap or cap transactions. The use of interest rate swaps and caps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an interest rate swap, the Trust would agree to pay to the other party to the interest rate swap (which is known as the "counterparty") periodically a fixed rate payment in exchange for the counterparty agreeing to pay to the Trust periodically a variable rate payment that is intended to approximate the Trust's variable rate payment obligation on the Series B and Series C Preferred Stock. In an interest rate cap, the Trust would pay a premium to the counterparty and, to the extent that a specified variable rate index exceeds a predetermined fixed rate, would receive from the counterparty payments of the difference based on the notional amount of such cap. Interest rate swap and cap transactions introduce additional risk because the Trust would remain obligated to pay preferred stock dividends when due in accordance with the Articles Supplementary even if the counterparty defaulted. If there is a default by the counterparty to a swap contract, the Trust will be limited to contractual remedies pursuant to the agreements related to the transaction. There is no assurance that the swap contract counterparties will be able to meet their obligations pursuant to the swap contracts or that, in the event of default, the Trust will succeed in pursuing contractual remedies. The Trust thus assumes the risk that it may be delayed in or prevented from obtaining payments owed to it pursuant to the swap contracts. The creditworthiness of the swap contract counterparties is closely monitored in order to minimize this risk. Depending on the general state of short term interest rates and the returns on the Trust's portfolio securities at that point in time, such a default could negatively affect the Trust's ability

to make dividend payments for the Series B and Series C Preferred Stock. In addition, at the time an interest rate swap or cap transaction reaches its scheduled termination date, there is a risk that the Trust will not be able to obtain a replacement transaction or that the terms of the replacement will not

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

be as favorable as on the expiring transaction. If this occurs, it could have a negative impact on the Trust's ability to make dividend payments on the Series B and Series C Preferred Stock.

The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Unrealized gains related to swaps are reported as an asset and unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps is reported as unrealized gains or losses in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of swap agreements. Swap agreements involve, to varying degrees, elements of market and counterparty risk, and exposure to loss in excess of the related amounts reflected in the Statement of Assets and Liabilities.

The Trust has entered into one interest rate swap agreement with Citibank N.A. Under the agreement the Trust receives a variable rate of interest and pays a respective fixed rate of interest on the nominal value of the swap. Details of the swap at June 30, 2005 are as follows:

NOTIONAL AMOUNT -----	FIXED RATE -----	VARIABLE RATE* (RATE RESET MONTHLY) -----	TERMINATION DATE -----
\$100,000,000	4.01%	3.15%	June 2, 2010

*Based on Libor (London Interbank Offered Rate).

FUTURES CONTRACTS. The Trust may engage in futures contracts for the purpose of hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase. Such investments will only be made if they are economically appropriate to the reduction of risks involved in the management of the Trust's investments. Upon entering into a futures contract, the Trust is required to deposit with the broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by the Trust each day, depending on the daily fluctuation of the value of the contract. The daily changes in the contract are included in unrealized appreciation/depreciation on investments and futures contracts. The Trust recognizes a realized gain or loss when the contract is closed. At June 30, 2005, there were no open futures contracts.

There are several risks in connection with the use of futures contracts as a hedging device. The change in value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with the change in value of the hedged investments. These contracts may involve market risk in excess of the unrealized gain or loss reflected in the Statement of Assets and Liabilities. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

FORWARD FOREIGN EXCHANGE CONTRACTS. The Trust may engage in forward foreign exchange contracts for hedging a specific transaction with respect to either the currency in which the transaction is denominated or another currency as deemed appropriate by the Adviser. Forward foreign exchange contracts are valued at the forward rate and are marked-to-market daily. The change in market value is included in unrealized appreciation/depreciation on investments and foreign

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

currency translations. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

14

THE GABELLI DIVIDEND & INCOME TRUST NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

The use of forward foreign exchange contracts does not eliminate fluctuations in the underlying prices of the Trust's portfolio securities, but it does establish a rate of exchange that can be achieved in the future. Although forward foreign exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. These contracts may involve market risk in excess of the unrealized gain or loss reflected in the Statement of Assets and Liabilities. In addition, the Trust could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts. At June 30, 2005, there were no open forward foreign exchange contracts.

FOREIGN CURRENCY TRANSLATIONS. The books and records of the Trust are maintained in United States (U.S.) dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates prevailing at the end of the period, and purchases and sales of investment securities, income and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses, which result from changes in foreign exchange rates and/or changes in market prices of securities, have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Trust and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

FOREIGN SECURITIES. The Trust may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the ability to repatriate funds, less complete financial information about companies and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME. Securities transactions are accounted for as of the trade date with realized gain or loss on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded as earned. Dividend income is recorded on the ex-dividend date.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS. Distributions to common shareholders are recorded on the ex-dividend date. Income distributions and capital gain distributions are determined in accordance with Federal income tax regulations, which may differ from that determined under U.S. generally accepted accounting principles. These differences are primarily due to differing

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

treatments of income and gains on various investment securities held by the Trust, timing differences and differing characterizations of distributions made by the Trust.

Distributions to shareholders of the Trust's 5.875% Series A Cumulative Preferred Stock, Series B Auction Market Cumulative Preferred Stock and Series C Auction Market Cumulative Preferred Stock ("Cumulative Preferred Stock") are recorded on a daily basis and are determined as described in Note 5.

For the year ended December 31, 2004, reclassifications were made to decrease accumulated net investment income by \$556,558 and to decrease accumulated net realized loss on investments, options and foreign currency transactions by \$556,558.

The tax character of distributions paid during the year ended December 31, 2004 was as follows:

PROVISION FOR INCOME TAXES. The Trust intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). It is the Trust's policy to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for Federal income taxes is required.

Dividends and interest from non-U.S. sources received by the Trust are generally subject to non-U.S. withholding taxes at rates ranging up to 30%. Such withholding taxes may be reduced or eliminated under the terms of applicable U.S. income tax treaties, and the Trust intends to undertake any procedural steps required to claim the benefits of such treaties.

As of December 31, 2004, the components of accumulated earnings/(losses) on a tax basis were as follows:

Net unrealized appreciation on investments	\$143,293,748
Net unrealized appreciation on foreign currency	1,898
Other	(97,578)

Total	\$143,198,068

3. AGREEMENTS AND TRANSACTIONS WITH AFFILIATES. The Trust has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser which provides that the Trust will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Trust's average weekly net assets including liquidation value of the preferred stock. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Trust's portfolio and oversees the administration of all aspects of the Trust's business and affairs. The Adviser has agreed to reduce the management fee on the incremental assets attributable to the Cumulative Preferred Stock if the total return of the net asset value of the Common Shares of the Trust, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate or net swap expense of the Cumulative Preferred Stock for the fiscal year.

The Trust's total return on the net asset value of the Common Shares is monitored on a monthly basis to assess whether the total return on the net asset value of the Common Shares exceeds the stated dividend rate of each particular series of Cumulative Preferred Stock for the period. For the six months ended June 30, 2005, the Trust's total return on the net asset value of the Common Shares exceeded the stated dividend rate or net swap expense of Series C Auction Market Cumulative Preferred Stock. Thus, management fees were accrued on these assets. The Trust's total return on the net asset value of the Common Shares did not exceed the stated dividend rate or net swap expense of 5.875% Series A Cumulative Preferred Stock and Series B Auction Market Cumulative Preferred Stock. Thus, management fees with respect to the liquidation value of those preferred stock assets in the amount of \$892,603 were not accrued.

During the six months ended June 30, 2005, Gabelli & Company, Inc. ("Gabelli & Company"), an affiliate of the Adviser, received \$391,100 in brokerage commissions as a result of executing agency transactions in portfolio securities on behalf of the Trust.

THE GABELLI DIVIDEND & INCOME TRUST
NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

The cost of calculating the Trust's net asset value per share is a Trust expense pursuant to the Advisory Agreement. During the six months ended June 30, 2005, the Trust reimbursed the Adviser \$22,500 in connection with the cost of computing the Trust's net asset value, which is included in miscellaneous expenses in the Statement of Operations.

The Trust is assuming its portion of the allocated cost of the Gabelli

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

Funds' Chief Compliance Officer in the amount of \$14,108 for the period of January 1, 2005 through June 30, 2005 which is included in payroll expenses in the Statement of Operations.

4. PORTFOLIO SECURITIES. Costs of purchases and proceeds from the sales of securities, other than short-term securities, for the six months ended June 30, 2005 aggregated \$286,675,741 and \$111,396,351, respectively.

Option contracts written for the Trust during the six months ended June 30, 2005 was as follows:

	NUMBER OF CONTRACTS	PREMIUMS
Options outstanding at December 31, 2004	400	\$ 56,549
Options written	--	--
Options exercised	--	--
Options closed	(400)	(56,549)
	----	-----
Options outstanding at June 30, 2005	--	\$ --
	=====	=====

5. CAPITAL. The Declaration of Trust permits the Trust to issue an unlimited number of Common Shares of beneficial interest (par value \$.001). The Board of the Trust authorized the repurchase of its shares on the open market when the shares are trading at a discount of 7.5% or more (or such other percentage as the Board may determine from time to time) from the net asset value of the shares. During the six months ended June 30, 2005, the Trust repurchased 40,000 shares of beneficial interest in the open market at a cost of \$732,684 and an average discount of approximately 10.39% from its net asset value. All shares of beneficial interest repurchased have been retired.

Transactions in shares of beneficial interest were as follows:

The Trust's Declaration of Trust, as amended, authorize the issuance of an unlimited number of shares of \$0.001 par value Cumulative Preferred Stock. The Cumulative Preferred Stock is senior to the Common Shares and results in the financial leveraging of the Common Shares. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on shares of the Cumulative Preferred Stock are cumulative. The Trust is required by the 1940 Act and by the Statements of Preferences to meet certain asset coverage tests with respect to the Cumulative Preferred Stock. If the Trust fails to meet these requirements and does not correct such failure, the Trust may be required to redeem, in part or in full, the 5.875% Series A, Series B Auction Market Cumulative Preferred Stock and Series C Auction Market Cumulative Preferred Stock at a redemption price of \$25, \$25,000, and \$25,000, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements.

THE GABELLI DIVIDEND & INCOME TRUST
NOTES TO FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

Additionally, failure to meet the foregoing asset coverage requirements could restrict the Trust's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Trust's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

On October 12, 2004, the Trust received net proceeds of \$77,255,000 (after underwriting discounts of \$2,520,000 and estimated offering expenses of \$225,000) from the public offering of 3,200,000 shares of 5.875% Series A Cumulative Preferred Stock. Commencing October 12, 2009 and thereafter, the Trust, at its option, may redeem the 5.875% Series A Cumulative Preferred Stock in whole or in part at the redemption price at any time. During the six months ended June 30, 2005, the Trust did not repurchase any shares of 5.875% Series A Cumulative Preferred Stock. At June 30, 2005, 3,200,000 shares of the 5.875% Series A Cumulative Preferred Stock were outstanding and accrued dividends amounted to \$52,222.

On October 12, 2004, the Trust received net proceeds of \$217,425,000 (after underwriting discounts of \$2,200,000 and estimated offering expenses of \$375,000) from the public offering of 4,000 shares of Series B and 4,800 shares of Series C Auction Market Cumulative Preferred Stock, respectively. The dividend rate, as set by the auction process, which is generally held every 7 days, is expected to vary with short-term interest rates. The dividend rates of Series B Auction Market Cumulative Preferred Stock ranged from 2.00% to 3.50% from January 1, 2005 through June 30, 2005. The dividend rates of Series C Auction Market Cumulative Preferred Stock ranged from 2.21% to 3.51% from January 1, 2005 through June 30, 2005. Existing shareholders may submit an order to hold, bid or sell such shares on each auction date. Series B and C Auction Market Cumulative Preferred Stock shareholders may also trade shares in the secondary market. The Trust, at its option, may redeem the Series B and C Auction Market Cumulative Preferred Stock in whole or in part at the redemption price at any time. During the six months ended June 30, 2005, the Trust did not redeem any shares of Series B and C Auction Market Cumulative Preferred Stock. At June 30, 2005, 4,000 and 4,800 shares of the Series B and C Auction Market Cumulative Preferred Stock were outstanding with an annualized dividend rate of 3.50% and 3.15% and accrued dividends amounted to \$19,444 and \$73,500, respectively.

The holders of Cumulative Preferred Stock have voting rights equivalent to those of the holders of common stock (one vote per share) and will vote together with holders of Common Shares as a single class. In addition, the 1940 Act requires that along with approval of a majority of the holders of Common Shares, approval of a majority of the holders of any outstanding shares of Cumulative Preferred Stock, voting separately as a class, would be required to: (a) adopt any plan of reorganization that would adversely affect the Cumulative Preferred Stock, and (b) take any action requiring a vote of security holders, including, among other things, changes in the Trust's subclassification as a closed-end investment company or changes in its fundamental investment restrictions.

6. OTHER MATTERS. The Adviser and/or affiliates have received subpoenas from the Attorney General of the State of New York and the SEC requesting information on mutual fund shares trading practices. Gabelli Asset Management Inc., the

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

Adviser's parent company, is responding to these requests for documents and testimony. The Trust does not believe that these matters will have a material adverse effect on the Trust's financial position or the results of its operations.

7. INDEMNIFICATIONS. The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

8. SUBSEQUENT EVENT. The Trust filed a registration statement with the Securities and Exchange Commission for an offering of fixed rate and auction market preferred stock. The actual amount of capital to be raised, the dividend rate(s) and the timing of the offering have not been determined and will be announced at a later date. The proceeds raised will be used for investment purposes.

AUTOMATIC DIVIDEND REINVESTMENT AND VOLUNTARY CASH PURCHASE PLANS

ENROLLMENT IN THE PLAN

It is the Policy of The Gabelli Dividend & Income Trust ("Trust") to automatically reinvest dividends payable to common shareholders. As a "registered" shareholder you automatically become a participant in the Trust's Automatic Dividend Reinvestment Plan (the "Plan"). The Plan authorizes the Trust to issue shares to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Trust. Plan participants may send their stock certificates to EquiServe Trust Company ("EquiServe") to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distribution in cash must submit this request in writing to:

The Gabelli Dividend & Income Trust
c/o EquiServe
P.O. Box 43010
Providence, RI 02940-3010

Shareholders requesting this cash election must include the shareholder's name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan may contact EquiServe at (800) 336-6983.

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

SHAREHOLDERS WISHING TO LIQUIDATE REINVESTED SHARES held at EquiServe must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address and account number. The cost to liquidate shares is \$2.50 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

If your shares are held in the name of a broker, bank or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of "street name" and re-registered in your own name. Once registered in your own name your dividends will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in "street name" at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of Common Shares distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Trust's Common Shares is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued Common Shares valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Trust's Common Shares. The valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange trading day, the next trading day. If the net asset value of the Common Shares at the time of valuation exceeds the market price of the Common Shares, participants will receive Common Shares from the Trust valued at market price. If the Trust should declare a dividend or capital gains distribution payable only in cash, EquiServe will buy Common Shares in the open market, or on the New York Stock Exchange or elsewhere, for the participants' accounts, except that EquiServe will endeavor to terminate purchases in the open market and cause the Trust to issue shares at net asset value if, following the commencement of such purchases, the market value of the Common Shares exceeds the then current net asset value.

21

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for Federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

The Trust reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by EquiServe on at least 90 days' written notice to participants in the Plan.

VOLUNTARY CASH PURCHASE PLAN

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Trust. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Edgar Filing: GABELLI DIVIDEND & INCOME TRUST - Form N-CSRS

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to EquiServe for investments in the Trust's shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. EquiServe will use these funds to purchase shares in the open market on or about the 1st and 15th of each month. EquiServe will charge each shareholder who participates \$0.75, plus a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to EquiServe, P.O. Box 43010, Providence, RI 02940-3010 such that EquiServe receives such payments approximately 10 days before the 1st and 15th of the month. Funds not received at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by EquiServe at least 48 hours before such payment is to be invested.

For more information regarding the Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Trust.
