WHEREAS, on October 27, 2003, the parties entered into a Protocol of Merger of Shares of Tele Centro Oeste Celular Participações S.A. by Telesp Celular Participações S.A. for the conversion of TCO into a wholly-owned subsidiary (Protocol), and the Board of Directors of each Company approved (a) the submission for the approval of the respective shareholders meeting of the Merger of Shares, (b) the Merger of Shares Justification, (c) the entering into of the Protocol and (d) the other resolutions necessary for the approval of the Merger of Shares (capitalized terms have the meaning ascribed to them in the Protocol);

Table of Contents

Participações S.A. for the conversion of TCO into a wholly-owned subsidiary (Amendment), in order to amend certain provisions of the Protocol to reflect the foregoing;

NOW, THEREFORE, the parties agree as follows:

CLAUSE ONE
AMENDMENTS

1.1 Amendment to Section 4.1 Capital Increase. Section 4.1 of the Protocol shall read as follows:

4.1 Capital Increase. Currently, TCP capital stock is R\$4,373,661,469.73. The capital increase as a result of the Merger of Shares shall be of R\$1,012,907,956.77, from R\$4,373,661,469.73 to R\$ 5,386,569,426.50.

1.2 Amendment to Section 7.1 [TEXT DELETED]. Section 7.1 of the Protocol shall read as follows:

7.1 [TEXT DELETED].

TCO book value [TEXT DELETED] is R\$3.03 per thousand shares and TCP book value [TEXT DELETED] is R\$4.14 per thousand shares. These amounts were calculated according to the respective balance sheets as of September 30, 2003 and are greater than those based on the last approved balance sheets (as of December 31, 2002).

It must be pointed out that the book value at market prices, as determined in the report prepared by KPMG Corporate Finance, is less than the book value on the same base date.

[TEXT DELETED].

Under Article 264 of the Corporations Law, KPMG Corporate Finance has prepared reports necessary for the determination of the exchange ratio based on the book value of TCO and of TCP at market prices as of June 30, 2003 (Exchange Ratio Market Prices). The value of the Exchange Ratio Market Prices so determined was 1.24, pursuant to the reports prepared by KPMG Corporate Finance in which positive goodwill (ágios), negative goodwill (deságios) and provisions for losses in investments at controlled companies were not excluded. The value of the Exchange Ratio - Market Prices based on reports in which these items were excluded is 3.

Table of Contents

[TEXT DELETED].

1.3 Amendment to Section 7.3 Conversion of Preferred Shares of TCP into Common Shares. Section 7.3 of the Protocol shall read as follows:

7.3 Conversion of TCP Preferred Shares into Common Shares. In order to allow the consummation of the Merger of Shares, TCP shareholders must approve the conversion of TCP preferred shares into TCP common shares (Conversion), since the implementation of the Merger of Shares based on the Exchange Ratio will cause the issuance by TCP of preferred shares in excess to the number permitted by applicable law.

The number of TCP preferred shares to be converted shall be 78,752,717,772. The calculation was intended to ensure that the limit imposed by applicable law on the issuance of shares was complied with by TCP upon the approval of the Merger of Shares.

The Conversion may be carried out by any TCP preferred shareholder. In the case of holders of TCP American Depositary Receipts (ADRs), they must convert their ADRs into shares, prior to requesting to Convert, because there is no ADR program for TCP common shares.

If TCP shareholders require to convert a number of shares which is greater than the number of shares to be converted, the Conversion will be made pro-rata. In addition, if a number less than the maximum limit for the Conversion is requested, TCP controlling shareholder (Brasilcel N.V.), directly or by its controlled companies, will convert preferred shares in a number equivalent to that which is necessary to achieve the maximum number to be converted. The procedures for the Conversion are those described in the Announcement to Shareholders dated November 19, 2003.

CLAUSE TWO
RATIFICATION

2.1 Ratification. The parties hereby ratify the reading and content of all remaining provisions of the Protocol which were not amended hereby.

Accordingly, the capital stock of TCP shall, after the Merger of Shares and taking into consideration the Conversion described in the Protocol of Merger and which is the subject matter of the notice to the shareholders published on November 20, 2003, be hereinafter represented by 1,506,996,292,267 shares, being 502,334,815,006 common shares and 1,004,661,477,261 preferred shares. It must be noticed that TCP's shares in TCO shall be held as TCP's equity and that TCO does not own any share whatsoever in TCP.

1.2 Section Four of the Justification. Section Four of the Justification shall hereinafter read as follows:

"[TEXT DELETED].

TCO book value [TEXT DELETED] is R\$3.03 per thousand shares and TCP book value [TEXT DELETED] is R\$4.14 per thousand shares. These amounts were calculated according to the respective balance sheets as of September 30, 2003 and are greater than those based on the last approved balance sheets (as of December 31, 2002).

Table of Contents

It must be pointed out that the book value at market prices, as determined in the report prepared by KPMG Corporate Finance, is less than the book value on the same base date.

[TEXT DELETED].

Under the terms of Article 264 of the Brazilian Corporate Law, KPMG Corporate Finance has prepared reports necessary for the determination of the exchange ratio based on the book value of TCO and of TCP at market prices as of June 30, 2003 (Exchange Ratio Market Prices). The value of the Exchange Ratio Market Prices so determined was 1.24, pursuant to the reports prepared by KPMG Corporate Finance in which positive goodwill (ágios), negative goodwill (deságios) and provisions for losses in investments at controlled companies were not excluded. The value of the Exchange Ratio Market Prices based on reports in which these items were excluded is 3. [TEXT DELETED].

SECTION TWO
RATIFICATION

TELE CENTRO OESTE CELULAR PARTICIPAÇÕES S.A.

Telesp Celular Participações S.A. (TCP) and Tele Centro Oeste Celular Participações S.A. (TCO) hereby clarify the following, in continuation of the implementation of the merger of shares of TCO by TCP (Merger of Shares):

1. TCP capital increase as a result of the Merger of Shares. With the consummation of the tender offer for the acquisition of common shares of TCO resulting from the acquisition of its control by TCP (OPA), the amount of the capital increase of TCP as a result of the Merger of Shares may be determined. The increase will be of R\$1,012,907,956.77, from R\$4,373,661,469.73 to R\$ 5,386,569,426.50.
2. Issuance of TCP shares as a result of the Merger of Shares. The consummation of the OPA also allowed us to determine the number of shares to be issued as a result of the Merger of Shares: 335,211,939,758 total shares, being 14,198,232,698 common shares and 321,013,707,060 preferred shares. Therefore, after the conversion of preferred shares into common shares described in the announcement to shareholders published on November 20, 2003 (Conversion) and the Merger Shares, TCP capital stock will be represented by 1,506,996,292,267 shares, being 502,334,815,006 common shares and 1,004,661,477,261 preferred shares.
3. Exchange Ratio calculated based on the book value at market prices methodology. An eventual discrepancy between the methodology adopted by KPMG Corporate Finance in the preparation of the valuation reports (laudos) to determine the book value measured at market prices and that resulting from a literal interpretation of Article 264 of the Corporations Law was verified. The effect of this literal interpretation would be the exclusion of amounts relating to positive goodwill (ágio), negative goodwill (deságio) and provisions for losses in the investments held by TCP. The companies have requested KPMG Corporate Finance to also prepare a report (laudo) applying such methodology. This report (laudo) is available to the shareholders who wish to obtain additional information about the transaction in the companies' websites and in the IPE system. [TEXT DELETED].

The amendments to the *protocolo* and *justificação* are available in the websites of TCP and TCO and in the IPE system of the *Comissão de Valores Mobiliários*.

The remaining terms and conditions of the Merger of Shares and the Conversion may be found in the Public Announcement (Fato Relevante) of TCP and TCO dated October 28, 2003 and the Announcement to Shareholders published on November 20, 2003 or at TCP's *Assessoria de Relações com Acionistas e Informações Públicas*, at (011) 5105-
