Item 1 - Report to Shareholders

Welcome, Shareholder:

In this report, you'll learn about how your investment in Morgan Stanley Insured California Municipal Securities performed during the annual period. We will provide an overview of the market conditions, and discuss some of the factors that affected performance during the reporting period. In addition, this report includes the Trust's financial statements and a list of Trust investments.

Market forecasts provided in this report may not necessarily come to pass. There is no assurance that the Trust will achieve its investment objective. The Trust is subject to market risk, which is the possibility that market values of securities owned by the Trust will decline and, therefore, the value of the Trust shares may be less than what you paid for them. Accordingly, you can lose money investing in this Trust.

FUND REPORT

For the year ended October 31, 2003

MARKET CONDITIONS

Over the past 12 months the tone of the U.S. economy shifted from weak to accelerating growth culminating in 8.2 percent GDP growth in the third quarter of 2003. One of the most closely watched economic indicators, employment strength, was in negative territory for much of the period. Repeated comments from government and private sector economists suggesting that the U.S. economy

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

might be entering a deflationary period also weighed heavily on investors during much of the year. At the same time, ongoing budgetary and fiscal difficulties at the state and local levels contributed to ratings downgrades for many municipal bonds. The Federal Reserve Board attempted to allay these fears and keep the economy moving forward by cutting the federal funds target rate twice to a level of 1.0 percent.

The uncertain economic climate had an effect on the municipal bond market. While yields on intermediate-and long-term bonds ended the period roughly where they began, the road between those two points was decidedly bumpy. The 12-month period can be divided into two distinct market environments. The first, which lasted from October 2002 to mid-June 2003, saw municipal yields fall by roughly 75 basis points to levels not seen since the late 1960s. Plummeting yields led to a surge in issuance as municipalities moved to lock in new low financing rates and, in the case of older bonds, low refinancing costs. Record levels of supply met with strong demand by investors in search of tax-exempt income to offset low money market rates. Also, the relatively attractive yield of municipal bonds versus Treasuries created demand from institutional taxable investors who "crossed-over" to purchase municipals.

The municipal market reversed abruptly in mid-June, when yields began to climb from their lows and investors shifted their attention to the improving equity market. Participation from cross-over investors also evaporated as taxable yields rose faster than those of tax-exempts. Issuance remained strong through July, but declined over the last three months as yields rose. These forces combined to push municipal-bond yields above their historic lows, ending the fiscal year near where they began.

California faced a host of economic and fiscal problems during the year, including a multi-billion dollar budget deficit that led Moody's and Standard & Poor's to downgrade the state's general obligations in February. California issuers sold approximately \$51 billion in debt during the first 10 months of 2003, an increase of 35 percent compared to the same period in 2002. Because of fiscal and credit concerns, valuations of the state's general obligation bonds declined during the period.

PERFORMANCE ANALYSIS

The net asset value (NAV) of Morgan Stanley Insured California Municipal Securities (ICS) decreased from \$15.56 to \$15.24 per share for the fiscal year ended October 31, 2003. Based on this change plus reinvestment of tax-free dividends totaling \$0.685 per share, a short-term capital gain distribution of \$0.041 per share and a long-term capital gain distribution of \$0.231 per share, the Trust's total NAV return was

2

4.79 percent. ICS's value on the New York Stock Exchange (NYSE) decreased from \$14.15 to \$13.83 per share during the same period. Based on this change plus reinvestment of tax-free dividends, the Trust's total market return was 4.57 percent. On October 31, 2003, ICS's NYSE market price was at a 9.20 percent discount to its NAV. Past performance is no guarantee of future results.

Monthly dividends for the fourth quarter of 2003 were declared in September. Beginning with the October payment the monthly payment decreased from \$0.0575 to \$0.0525 per share. The new dividend reflects the level of the Trust's undistributed net investment income and projected earnings power. The Trust's level of undistributed net investment income was \$0.112 per share on October 31, 2003 versus \$0.128 per share as of October 31, 2002.

From a strategic point of view, with interest rates at multi-decade lows, we

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

also became increasingly concerned that the next significant shift in interest rates might be upward. As a result, we began to establish a hedge position by selling Treasury futures to reduce the portfolio's duration (a measure of interest rate sensitivity). This allowed us to maintain an average maturity target range of 20 years in order to take advantage of the steepness of the municipal yield curve. Nevertheless, market yields on new investments were lower than the book yields on portfolio holdings called for redemption. The portfolio's duration was 8.1 years. We continued to emphasize revenue bonds in sectors tied to reliable income streams from essential services such as municipal electric, transportation and water and sewer. As of October 31, 2003, the Trust's net assets of \$58 million were diversified across 33 credits in 11 long-term sectors.

The Trust's procedure for reinvesting all dividends and distributions in common shares is through purchases in the open market. This method helps support the market value of the Trust's shares. In addition, we would like to remind you that the Trustees have approved a procedure whereby the Trust may, when appropriate, purchase shares in the open market or in privately negotiated transactions at a price not above market value or net asset value, whichever is lower at the time of purchase. During the 12-month period ended October 31, 2003, the Trust purchased and retired 111,400 shares of common stock at a weighted average market discount of 8.44 percent.

Morgan Stanley Insured California Municipal Securities
NOTES TO FINANCIAL STATEMENTS - OCTOBER 31, 2003

1. Organization and Accounting Policies

Morgan Stanley Insured California Municipal Securities (the "Trust") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Trust's investment objective is to provide current income which is exempt from both federal and California income taxes. The Trust was organized as a Massachusetts business trust on October 14, 1993 and commenced operations on February 28, 1994.

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

The following is a summary of significant accounting policies:

A. Valuation of Investments -- (1) portfolio securities are valued by an outside independent pricing service approved by the Trustees. The pricing service uses both a computerized grid matrix of tax-exempt securities and evaluations by its staff, in each case based on information concerning market transactions and quotations from dealers which reflect the bid side of the market each day. The portfolio securities are thus valued by reference to a combination of transactions and quotations for the same or other securities believed to be comparable in quality, coupon, maturity, type of issue, call provisions, trading characteristics and other features deemed to be relevant; (2) futures are valued at the latest sale price on the commodities exchange on which they trade unless it is determined that such price does not reflect their market value, in which case they will be valued at their fair value as determined in good faith under procedures established by and under the supervision of the Trustees; and (3) short-term debt securities having a maturity date of more than sixty days at time of purchase are valued on a mark-to-market basis until sixty days prior to maturity and thereafter at amortized cost based on their value on the 61st day. Short-term debt securities having a maturity date of sixty days or less at the time of purchase are valued at amortized cost.

B. Accounting for Investments -- Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Realized gains and losses on security transactions are determined by the identified cost method. Discounts are accreted and premiums are amortized over the life of the respective securities. Interest income is accrued daily.

C. Futures Contracts -- A futures contract is an agreement between two parties to buy and sell financial instruments or contracts based on financial indices at a set price on a future date. Upon entering into such a contract, the Trust is required to pledge to the broker cash, U.S. Government securities or other liquid portfolio securities equal to the minimum initial margin requirements of the applicable futures exchange. Pursuant to the contract, the Trust agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments known as variation margin are recorded by the Trust as unrealized gains and losses. Upon

12

Morgan Stanley Insured California Municipal Securities
NOTES TO FINANCIAL STATEMENTS - OCTOBER 31, 2003 continued

closing of the contract, the Trust realizes a gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

D. Federal Income Tax Policy -- It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable and nontaxable income to its shareholders. Accordingly, no federal income tax provision is required.

E. Dividends and Distributions to Shareholders -- Dividends and distributions to shareholders are recorded on the ex-dividend date.

F. Use of Estimates -- The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

2. Investment Management Agreement

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

Pursuant to an Investment Management Agreement with Morgan Stanley Investment Advisors Inc. (the "Investment Manager"), the Trust pays the Investment Manager a management fee, calculated weekly and payable monthly, by applying the annual rate of 0.35% to the Trust's weekly net assets.

3. Security Transactions and Transactions with Affiliates

The cost of purchases and proceeds from sales of portfolio securities, excluding short-term investments, for the year ended October 31, 2003 aggregated \$17,939,753 and \$20,115,194, respectively. Included in the aforementioned are sales of \$1,013,650 with other Morgan Stanley funds including a net realized gain of \$32,901.

Morgan Stanley Trust, an affiliate of the Investment Manager, is the Trust's transfer agent. At October 31, 2003, the Trust had transfer agent fees and expenses payable of approximately \$1,200.

4. Preferred Shares of Beneficial Interest

The Trust is authorized to issue up to 1,000,000 non-participating preferred shares of beneficial interest having a par value of \$.01 per share, in one or more series, with rights as determined by the Trustees, without approval of the common shareholders. The preferred shares have a liquidation value of \$50,000 per share plus the redemption premium, if any, plus accumulated but unpaid dividends, whether or not declared, thereon to the date of distribution. The Trust may redeem such shares, in whole or in part, at the original purchase price of \$50,000 per share plus accumulated but unpaid dividends, whether or not declared, thereon to the date of redemption.

13

Morgan Stanley Insured California Municipal Securities NOTES TO FINANCIAL STATEMENTS - OCTOBER 31, 2003 continued

Upon issuance, the Trust will be subject to certain restrictions relating to the preferred shares. Failure to comply with these restrictions could preclude the Trust from declaring any distributions to common shareholders or purchasing common shares and/or could trigger the mandatory redemption of preferred shares at liquidation value.

The preferred shares, entitled to one vote per share, generally vote with the common shares but vote separately as a class to elect two Trustees and on any matters affecting the rights of the preferred shares.

As of October 31, 2003, there were no preferred shares outstanding.

5. Common Shares of Beneficial Interest

Transactions in common shares of beneficial interest were as follows:

	SHARES -----	PAR VALUE -----	CAPITAL PAID IN EXCESS OF PAR VALUE -----

	=====	=====	=====

* The Trustees have voted to retire the shares purchased.

6. Dividends To Common Shareholders

On September 23, 2003, the Trust declared the following dividends from net investment income:

AMOUNT PER SHARE	RECORD DATE	PAYABLE DATE
-----	-----	-----
\$0.0525	November 7, 2003	November 21, 2003
\$0.0525	December 5, 2003	December 19, 2003

7. Expense Offset

The expense offset represents a reduction of the custodian fees for earnings on cash balances maintained by the Trust.

14

Morgan Stanley Insured California Municipal Securities
NOTES TO FINANCIAL STATEMENTS - OCTOBER 31, 2003 continued

8. Risks Relating to Certain Financial Instruments

The Trust may invest a portion of its assets in residual interest bonds, which are inverse floating rate municipal obligations. The prices of these securities are subject to greater market fluctuations during periods of changing prevailing interest rates than are comparable fixed rate obligations.

At October 31, 2003, the Trust did not hold positions in residual interest bonds.

To hedge against adverse interest rate changes, the Trust may invest in financial futures contracts or municipal bond index futures contracts ("futures contracts").

These futures contracts involve elements of market risk in excess of the amount reflected in the Statement of Assets and Liabilities. The Trust bears the risk of an unfavorable change in the value of the underlying securities.

At October 31, 2003, the Trust had outstanding futures contracts.

9. Federal Income Tax Status

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations which may differ from generally accepted accounting principles. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net investment income and net realized capital gains for tax purposes are reported as distributions of paid-in-capital.

The tax character of distributions paid was as follows:

	FOR THE YEAR ENDED OCTOBER 31, 2003	FOR THE YEAR ENDED OCTOBER 31, 2002
	-----	-----
Tax-exempt income.....	\$2,649,458	\$2,824,666
Ordinary income.....	160,235	138,917
Long-term capital gains.....	901,817	1,459,019
	-----	-----
Total distributions.....	\$3,711,510	\$4,422,602
	=====	=====

15

Morgan Stanley Insured California Municipal Securities NOTES TO FINANCIAL STATEMENTS - OCTOBER 31, 2003 continued

As of October 31, 2003, the tax-basis components of accumulated earnings were as follows:

Undistributed tax-exempt income.....	\$ 306,010
Undistributed ordinary income.....	14,394
Undistributed long-term gains.....	754,731

Net accumulated earnings.....	1,075,135
Net unrealized appreciation.....	2,950,872

Total accumulated earnings.....	\$4,026,007
	=====

As of October 31, 2003, the Trust had temporary book/tax differences attributable to book amortization of discounts on debt securities and mark-to-market of open futures contracts and permanent book/tax differences attributable to tax adjustments on debt securities sold by the Trust. To reflect reclassifications arising from the permanent differences, accumulated undistributed net investment income was charged and accumulated undistributed net realized gain was credited \$16,620.

Morgan Stanley Insured California Municipal Securities
INDEPENDENT AUDITORS' REPORT

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

To the Shareholders and Board of Trustees of
Morgan Stanley Insured California Municipal Securities:

We have audited the accompanying statement of assets and liabilities of Morgan Stanley Insured California Municipal Securities (the "Trust"), including the portfolio of investments, as of October 31, 2003, and the related statements of operations for the year then ended and changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2003, by correspondence with the custodian and broker. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Morgan Stanley Insured California Municipal Securities as of October 31, 2003, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Item 2. Code of Ethics.

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

(a) The Trust has adopted a code of ethics (the "Code of Ethics") that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the Trust or a third party.

(b) No information need be disclosed pursuant to this paragraph.

(c) Not applicable.

(d) Not applicable.

(e) Not applicable.

(f)

(1) The Trust's Code of Ethics is attached hereto as Exhibit A.

(2) Not applicable.

(3) Not applicable.

Item 3. Audit Committee Financial Expert.

The Trust's Board of Trustees has determined that it has two "audit committee financial experts" serving on its audit committee, each of whom are "independent" Trustees: Dr. Manuel H. Johnson and Joseph J. Kearns. Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and Board of Trustees in the absence of such designation or identification.

Item 4. Principal Accountant Fees and Services

Applicable only for reports covering fiscal years ending on or after December 15, 2003.

Item 5. Audit Committee of Listed Registrants.

Item 6. [Reserved.]

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Edgar Filing: MORGAN STANLEY INSURED CALIFORNIA MUNICIPAL SEC - Form N-CSR

The Trust invests in exclusively non-voting securities and therefore this item is not applicable.

Item 8. [Reserved.]

Item 9 - Controls and Procedures

(a) The Trust's principal executive officer and principal financial officer have concluded that the Trust's disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Trust in this Form N-CSR was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

There were no significant changes or corrective actions with regard to significant deficiencies or material weaknesses in the Trust's internal controls or in other factors that could significantly affect the Trust's internal controls subsequent to the date of their evaluation.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

2

Item 10 Exhibits

(a) The Code of Ethics for Principal Executive and Senior Financial Officers is attached hereto.

(b) A separate certification for each principal executive officer and principal financial officer of the registrant are attached hereto as part of EX-99.CERT.
