NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. Description of the Company and Basis of Presentation

Description of the Company

Celanese Corporation and its subsidiaries (collectively the Company) is a leading, global technology and specialty materials company. The Company's business involves processing chemical raw materials, such as methanol, carbon monoxide and ethylene, and natural products, including wood pulp, into value-added chemicals, thermoplastic polymers and other chemical-based products.

Basis of Presentation

The unaudited interim consolidated financial statements for the three and six months ended June 30, 2010 and 2009 contained in this Quarterly Report on Form 10-Q (Quarterly Report) were prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) for all periods presented. The unaudited interim consolidated financial statements and other financial information included in this Quarterly Report, unless otherwise specified, have been presented to separately show the effects of discontinued operations. In this Quarterly Report, the term Celanese US refers to the Company's subsidiary, Celanese US Holdings LLC, a Delaware limited liability company, and not its subsidiaries. The term Purchaser refers to our subsidiary, Celanese Europe Holding GmbH & Co. KG, and not its subsidiaries, except where otherwise indicated.

In the opinion of management, the accompanying unaudited consolidated balance sheets and related unaudited interim consolidated statements of operations, cash flows and shareholders' equity and comprehensive income (loss) include all adjustments, consisting only of normal recurring items necessary for their fair presentation in conformity with US GAAP. Certain information and footnote disclosures normally included in financial statements prepared in accordance with US GAAP have been condensed or omitted in accordance with rules and regulations of the Securities and Exchange Commission (SEC). These unaudited interim consolidated financial statements should be read in conjunction with the Company's consolidated financial statements as of and for the year ended December 31, 2009, as filed on February 12, 2010 with the SEC as part of the Company's Annual Report on Form 10-K (the 2009 Form 10-K).

Operating results for the three and six months ended June 30, 2010 are not necessarily indicative of the results to be expected for the entire year.

In the ordinary course of the business, the Company enters into contracts and agreements relative to a number of topics, including acquisitions, dispositions, joint ventures, supply agreements, product sales and other arrangements. The Company endeavors to describe those contracts or agreements that are material to its business, results of operations or financial position. The Company may also describe some arrangements that are not material but in which the Company believes investors may have an interest or which may have been subject to a Form 8-K filing. Investors should not assume the Company has described all contracts and agreements relative to the Company's business in this Quarterly Report.

Estimates and Assumptions

The preparation of unaudited interim consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the unaudited interim consolidated financial statements and the reported

Edgar Filing: Celanese CORP - Form 10-Q

amounts of revenues, expenses and allocated charges during the reporting period. Significant estimates pertain to impairments of goodwill, intangible assets and other long-lived assets, purchase price allocations, restructuring costs and other (charges) gains, net, income taxes, pension and other postretirement benefits, asset retirement obligations, environmental liabilities and loss contingencies, among others. Actual results could differ from those estimates.

Reclassifications

The Company has reclassified certain prior period amounts to conform to the current period's presentation.

Table of Contents**2. Recent Accounting Pronouncements**

In February 2010, the Financial Accounting Standards Board (FASB) issued FASB Accounting Standards Update 2010-09, *Subsequent Events: Amendments to Certain Recognition and Disclosure Requirements* (ASU 2010-09), which amends FASB Accounting Standards Codification (ASC) Topic 855, *Subsequent Events*. The update provides that SEC filers, as defined in ASU 2010-09, are no longer required to disclose the date through which subsequent events have been evaluated in originally issued and revised financial statements. The update also requires SEC filers to continue to evaluate subsequent events through the date the financial statements are issued rather than the date the financial statements are available to be issued. The Company adopted ASU 2010-09 upon issuance. This update had no impact on the Company's financial position, results of operations or cash flows.

In January 2010, the FASB issued FASB Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which amends FASB ASC Topic 820-10, *Fair Value Measurements and Disclosures*. The update provides additional disclosures for transfers in and out of Levels 1 and 2 and for activity in Level 3 and clarifies certain other existing disclosure requirements. The Company adopted ASU 2010-06 beginning January 15, 2010. This update had no impact on the Company's financial position, results of operations or cash flows.

3. Acquisitions, Dispositions, Ventures and Plant Closures***Acquisitions***

On May 5, 2010, the Company acquired two product lines, Zenite® liquid crystal polymer (LCP) and Thermax polycyclohexylene-dimethylene terephthalate (PCT), from DuPont Performance Polymers. The acquisition will continue to build upon the Company's position as a global supplier of high performance materials and technology-driven applications. These two product lines broaden the Company's Ticona Engineering Polymers offerings within its Advanced Engineered Materials segment, enabling the Company to respond to a globalizing customer base, especially in the high growth electrical and electronics application markets. Pro forma financial information since the acquisition date has not been provided as the acquisition did not have a material impact on the Company's financial information. The Company incurred \$1 million in direct transaction costs as a result of this acquisition.

The Company allocated the purchase price of the acquisition to identifiable intangible assets acquired based on their estimated fair values. The excess of purchase price over the aggregate fair values was recorded as goodwill. Intangible assets were valued using the relief from royalty and discounted cash flow methodologies which are considered a Level 3 measurement under FASB Topic ASC 820, *Fair Value Measurements and Disclosures* (FASB ASC Topic 820). The relief from royalty method estimates the Company's theoretical royalty savings from ownership of the intangible asset. Key assumptions used in this model include discount rates, royalty rates, growth rates, sales projections and terminal value rates. Discount rates, royalty rates, growth rates and sales projections are the assumptions most sensitive and susceptible to change as they require significant management judgment. The key assumptions used in the discounted cash flow valuation model include discount rates, growth rates, cash flow projections and terminal value rates. Discount rates, growth rates and cash flow projections are the most sensitive and susceptible to change as they require significant management judgment. The Company, with the assistance of third-party valuation consultants, calculated the fair value of the intangible assets acquired to allocate the purchase price at the respective acquisition date.

Table of Contents

The consideration paid for the product lines and the amounts of the intangible assets acquired recognized at the acquisition date are as follows:

	Weighted Average Life (In years)	(In \$ millions)
Cash consideration		46
Intangible assets acquired		
Trademarks and trade names	indefinite	9
Developed technology	10	7
Covenant not to compete and other	3	11
Customer-related intangible assets	10	6
Goodwill		13
Total		46

In connection with the acquisition, the Company has committed to purchase certain inventory at a future date valued at a range between \$12 million and \$17 million.

In December 2009, the Company acquired the business and assets of FACT GmbH (Future Advanced Composites Technology) (FACT), a German company, for a purchase price of 5 million (\$7 million). FACT develops, produces and markets long-fiber reinforced thermoplastics. As part of the acquisition, the Company entered into a ten year lease agreement with the seller for the property and buildings on which the FACT business is located with an option to purchase the property at various times throughout the lease. The acquired business is included in the Advanced Engineered Materials segment.

Dispositions

In July 2009, the Company completed the sale of its polyvinyl alcohol (PVOH) business to Sekisui Chemical Co., Ltd. (Sekisui) for a net cash purchase price of \$168 million, resulting in a gain on disposition of \$34 million. The net cash purchase price excludes the accounts receivable and payable retained by the Company. The transaction includes long-term supply agreements between Sekisui and the Company and therefore, does not qualify for treatment as a discontinued operation. The PVOH business is included in the Industrial Specialties segment.

Ventures

The Company indirectly owns a 25% interest in its National Methanol Company (Ibn Sina) affiliate through CTE Petrochemicals Company (CTE), a joint venture with Texas Eastern Arabian Corporation Ltd. (which also indirectly owns 25%). The remaining interest in Ibn Sina is held by Saudi Basic Industries Corporation (SABIC). SABIC and CTE entered into the Ibn Sina joint venture agreement in 1981. In April 2010, the Company announced that Ibn Sina will construct a 50,000 ton polyacetal (POM) production facility in Saudi Arabia and that the term of the joint venture agreement was extended until 2032. Upon successful startup of the POM facility, the Company's indirect economic interest in Ibn Sina will increase from 25% to 32.5%. SABIC's economic interest will remain unchanged.

In connection with this transaction, the Company reassessed the factors surrounding the accounting method for this investment and changed the accounting from the cost method of accounting for investments to the equity method of accounting for investments beginning April 1, 2010. Financial information relating to this investment for prior periods has been retrospectively adjusted to apply the equity method of accounting. Effective April 1, 2010, the Company moved its investment in the Ibn Sina affiliate from its Acetyl Intermediates segment to its Advanced Engineered Materials segment to reflect the change in the affiliate's business dynamics and growth opportunities as a result of the future construction of the POM facility. Business segment information for prior periods included in Note 18 has been retrospectively adjusted to reflect the change.

Table of Contents

The retrospective effect of applying the equity method of accounting to this investment to the unaudited interim consolidated statements of operations is as follows:

	Three Months Ended June 30, 2009			Six Months Ended June 30, 2009

Other, net	12	2	(10)

Table of Contents***Plant Closures***

In April 2010, the Company announced it was considering a plan to consolidate its global acetate manufacturing capabilities by proposing the closure of its acetate flake and tow manufacturing operations in Spondon, Derby, United Kingdom. The consolidation is designed to strengthen the Company's competitive position, reduce fixed costs and align future production capacities with anticipated industry demand trends. The consolidation is also driven by a global shift in product consumption. The Company would expect to serve its acetate customers under this proposal by optimizing its global production network, which includes facilities in Lanaken, Belgium; Narrows, Virginia; and Ocotlan, Mexico, as well as the Company's acetate affiliate facilities in China.

During the first quarter of 2010, the Company concluded that certain long-lived assets of the Spondon, Derby, United Kingdom facility were partially impaired. Accordingly, during the six months ended June 30, 2010, the Company recorded long-lived asset impairment losses of \$72 million (Note 13) to Other (charges) gains, net in the unaudited interim consolidated statements of operations. The Spondon, Derby, United Kingdom facility is included in the Consumer Specialties segment.

On July 27, 2010, the Company concluded the formal consultation process with employees and their representatives and is continuing to consider a plan to consolidate its global acetate manufacturing capabilities by closing its acetate flake and tow manufacturing operations in Spondon, Derby, United Kingdom. The Company has made a final offer to the union regarding severance and will continue to negotiate with the labor unions other measures of assistance aimed at minimizing the effects of the plant's closing on the Spondon workforce, including training and outplacement.

In July 2009, the Company announced that its wholly-owned French subsidiary, Acetex Chimie, completed the consultation process with the workers council on its Project of Closure and social plan related to the Company's Pardies, France facility pursuant to which the Company ceased all manufacturing operations and associated activities in December 2009. The Company agreed with the workers council on a set of measures of assistance aimed at minimizing the effects of the plant's closing on the Pardies workforce, including training, outplacement and severance. The Pardies, France facility is included in the Acetyl Intermediates segment.

The exit costs and plant shutdown costs recorded in the unaudited interim consolidated statements of operations related to the Project of Closure (Note 13) are as follows:

	Three Months Ended June 30, 2010	Six Months Ended June 30, 2010
	(In \$ millions)	
Employee termination benefits	(1)	(2)
