**PROSPECTUS SUPPLEMENT NO. 1
TO THE PROSPECTUS DATED JULY 21, 2010
Resolute Energy Corporation**

This Prospectus Supplement No. 1 updates, amends and supplements our Prospectus dated July 21, 2010.

We have attached to this Prospectus Supplement No. 1 the Quarterly Report on Form 10-Q for the quarter ended June 30, 2010, as filed with the Securities and Exchange Commission on August 12, 2010. The attached information updates, amends and supplements our Prospectus dated July 21, 2010.

This Prospectus Supplement No. 1 should be read in conjunction with the Prospectus. To the extent information in this Prospectus Supplement No. 1 differs from, updates or conflicts with information contained in the Prospectus, the information in this Prospectus Supplement No. 1 is the more current information.

Investing in our common stock involves a high degree of risk. You should review carefully the Risk Factors beginning on page 11 of the Prospectus dated July 21, 2010 and on page 30 of the Quarterly Report on Form 10-Q for the quarter ended June 30, 2010 for a discussion of certain risks that you should consider.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is August 17, 2010.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. The use of any statements containing the words anticipate, intend, believe, estimate, project, expect, plan, should or similar expressions are intended to identify such statements. Forward-looking statements included in this report relate to, among other things, expected future production, expenses and cash flows in 2010, the nature, timing and results of capital expenditure projects, amounts of future capital expenditures, our plans with respect to reinvestment of our cash flow, our plans with respect to hedging, our future debt levels and liquidity and future compliance with covenants under our revolving credit facility. Although we believe that the expectations reflected in such forward-looking statements are reasonable, those expectations may prove to be incorrect. All forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Except as required by law, we undertake no obligation to update any forward-looking statement. Factors that could cause actual results to differ materially from our expectations include, among others, those factors referenced in the Risk Factors section of this report and our Annual Report on Form 10-K for the year ended December 31, 2009, and such things as:

volatility of oil and gas prices, including reductions in prices that would adversely affect our revenue, income, cash flow from operations, liquidity and reserves;

discovery, estimation, development and our ability to replace oil and gas reserves;

our future cash flow, liquidity and financial position;

the success of our business and financial strategy, hedging strategies and plans;

the amount, nature and timing of our capital expenditures, including future development costs;

a lack of available capital and financing;

the effectiveness and results of our CO₂ flood program;

the success of the development plan and production from our oil and gas properties and particularly the Aneth Field Properties;

the timing and amount of future production of oil and gas;

the completion and success of exploratory drilling in the Bakken trend of the Williston Basin;

availability of drilling and production equipment;

timing of restoration of compression of failure at Western Gas Resources Highlight Plant;

inaccuracy in reserve estimates and expected production rates;

our operating costs and other expenses;

the success in marketing oil and gas;

competition in the oil and gas industry;

operational problems affecting, or uninsured or underinsured losses affecting our operations;

the impact and costs related to compliance with or changes in laws or regulations governing our oil and natural gas operations;

our relationship with the Navajo Nation and Navajo Nation Oil and Gas Company, as well as the timing of when certain purchase rights held by Navajo Nation Oil and Gas Company become exercisable;

the impact of weather and the occurrence of disasters, such as fires, floods and other events and natural disasters;

environmental liabilities;

anticipated CO₂ supply which is currently being sourced exclusively from Kinder Morgan;

risks related to our level of indebtedness;

Table of Contents

developments in oil and gas-producing countries;

loss of senior management or technical personnel;

acquisitions and other business opportunities (or the lack thereof) that may be presented to and pursued by us;
and

other factors, many of which are beyond our control.

Table of Contents**RESOLUTE ENERGY CORPORATION****Notes to Condensed Consolidated Financial Statements****Note 1 Organization and Nature of Business**

Resolute Energy Corporation (Resolute or the Company), a Delaware corporation incorporated on July 28, 2009, was formed to consummate a business combination with Hicks Acquisition Company I, Inc. (HACI), a Delaware corporation incorporated on February 26, 2007. Resolute is an independent oil and gas company engaged in the acquisition, exploration, development, and production of oil, gas and natural gas liquids (NGL). The Company conducts all of its activities in the United States of America, principally in the Paradox Basin in southeastern Utah and the Powder River Basin in Wyoming.

HACI was a blank check company that was formed to acquire one or more businesses or assets. HACI's initial public offering (the Offering) was consummated on October 3, 2007, and HACI received proceeds of approximately \$529.1 million. HACI sold to the public 55,200,000 units (one share and one warrant) at a price of \$10.00 per unit. Simultaneous with the consummation of the Offering, HACI consummated the private sale of 7,000,000 warrants (Sponsor Warrants) to HH-HACI, L.P., a Delaware limited partnership (Sponsor), at a price of \$1.00 per Sponsor Warrant, generating gross proceeds, before expenses, of \$7.0 million (Private Placement). Net proceeds received from the consummation of both the Offering and Private Placement of Sponsor Warrants totaled approximately \$536.1 million, net of underwriter's commissions and offering costs. HACI had neither engaged in any operations nor generated any operating revenue prior to the business combination with Resolute.

On September 25, 2009 (Acquisition Date), HACI consummated a business combination under the terms of a Purchase and IPO Reorganization Agreement (Acquisition Agreement) with Resolute and Resolute Holdings Sub, LLC (Sub), whereby, through a series of transactions, HACI's stockholders collectively acquired a majority of the outstanding shares of Resolute common stock (the Resolute Transaction). Immediately prior to the consummation of the Resolute Transaction, Resolute owned, directly or indirectly, 100% of the equity interests of Resolute Natural Resources Company, LLC (Resources), WYNR, LLC (WYNR), BWNR, LLC (BWNR), RNRC Holdings, Inc. (RNRC) and Resolute Wyoming, Inc. (RWI), and owned a 99.996% equity interest in Resolute Aneth, LLC (Aneth), (collectively, Predecessor Resolute). The entities comprising Predecessor Resolute prior to the Resolute Transaction were wholly owned by Sub (except for Aneth, which was owned 99.996%), which in turn was a wholly owned subsidiary of Resolute Holdings, LLC (Holdings).

Note 2 Basis of Presentation and Summary of Significant Accounting Policies**Basis of Presentation**

The Resolute Transaction was accounted for using the acquisition method, with HACI as the accounting acquirer, and resulted in a new basis of accounting reflecting the fair values of the Predecessor Resolute assets and liabilities at the Acquisition Date. Accordingly, the accompanying condensed consolidated financial statements are presented on Resolute's new basis of accounting. HACI is the surviving entity for accounting purposes, and periods prior to September 25, 2009 reflected in this report represent activity related to HACI's formation, its initial public offering and identification and consummation of a business combination. The operations of Predecessor Resolute have been incorporated beginning September 25, 2009. The condensed consolidated financial statements include the historical accounts of HACI and, subsequent to the Acquisition Date, include Resolute and its subsidiaries.

The unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial reporting and Regulation S-X for interim financial reporting. Except as disclosed herein, there has been no material change in our basis of presentation from the information disclosed in the notes to Resolute's consolidated financial statements for the year ended December 31, 2009. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the interim financial information, have been included. Operating results for the periods presented are not necessarily indicative of the results that may be expected for the full year. All intercompany balances and transactions have been eliminated in consolidation.

In connection with the preparation of the condensed consolidated financial statements, Resolute evaluated subsequent events after the balance sheet date. Certain prior period amounts have been reclassified to conform to the current period presentation.

Table of Contents**Significant Accounting Policies**

The significant accounting policies followed by Resolute are set forth in *Note 2 Summary of Significant Accounting Policies* to Resolute's consolidated financial statements for the year ended December 31, 2009. These unaudited condensed consolidated financial statements are to be read in conjunction with the consolidated financial statements appearing in Resolute's Annual Report on Form 10-K and related notes for the year ended December 31, 2009.

Deferred Financing Costs

Deferred financing costs are amortized over the estimated life of the related obligation. The unamortized balance of these costs was approximately \$3.8 million as of June 30, 2010.

Capitalized Interest

Interest is capitalized when associated with significant investments in unproved properties and major development projects that are excluded from current depreciation, depletion and amortization calculations and on which exploration or development activities are in progress. Capitalized interest is calculated by multiplying the Company's weighted-average interest rate on debt by the amount of identified costs. As such, excluded oil and gas costs are transferred to unproved properties, any associated capitalized interest is also transferred. Capitalized interest totaled \$0.1 million for the three and six month periods ended June 30, 2010.

Assumptions, Judgments and Estimates

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make various assumptions, judgments and estimates to determine the reported amounts of assets, liabilities, revenue and expenses, and in the disclosures of commitments and contingencies. Changes in these assumptions, judgments and estimates will occur as a result of the passage of time and the occurrence of future events. Accordingly, actual results could differ from amounts previously established.

Significant estimates with regard to the condensed consolidated financial statements include the estimate of proved oil and gas reserve volumes and the related present value of estimated future net cash flows and the ceiling test applied to capitalized oil and gas properties, the estimated cost and timing related to asset retirement obligations, the estimated fair value of derivative assets and liabilities, the estimated expense for share based compensation and depletion, depreciation, and amortization.

Reclassifications

Certain reclassifications have been made to prior financial data to conform to the current presentation.

Note 3 Accounting Standards Update

In January of 2010, the Financial Accounting Standards Board (FASB) issued additional guidance to improve disclosure requirements related to fair value measurements and disclosures. Specifically, this guidance requires disclosures about transfers in and out of Level 1 and 2 fair value measurements, activity in Level 3 fair value measurements (see Note 14 for Level 1, 2 and 3 definitions), greater disaggregation of the amounts on the condensed consolidated balance sheets that are subject to fair value measurements and additional disclosures about the valuation techniques and inputs used in fair value measurements. This guidance is effective for interim and annual reporting periods beginning after December 31, 2009, except for disclosure of Level 3 fair value measurement roll forward activity, which is effective for annual reporting periods beginning after December 15, 2010. This guidance was adopted in the first quarter of 2010 and had no impact on the condensed consolidated financial statements other than the additional disclosures.

Note 4 Asset Retirement Obligation

Asset retirement obligations relate to future costs associated with the plugging and abandonment of oil and gas wells, removal of equipment and facilities from leased acreage and returning such land to its original condition. The fair value of a liability for an asset retirement obligation is recorded in the period in which it is incurred and the cost of such liability is recorded as an increase in the carrying amount of the related long-lived asset by the same amount. The liability is accreted each period and the capitalized cost is depleted on a units-of-production basis as part of the full cost pool. Revisions to estimated retirement obligations result in adjustments to the related capitalized asset and corresponding liability.

Edgar Filing: Resolute Energy Corp - Form 424B3

The restricted cash of \$14.8 million located on the Company's condensed consolidated balance sheet at June 30, 2010 in non-current other assets is legally restricted for the purpose of settling asset retirement obligations related to Predecessor Resolute's purchase of properties from a subsidiary of ExxonMobil Corporation and its affiliates.

- 6 -

Table of Contents

Resolute's estimated asset retirement obligation liability is based on estimated economic lives, estimates as to the cost to abandon the wells in the future, and federal and state regulatory requirements. The liability is discounted using a credit-adjusted risk-free rate estimated at the time the liability is incurred or revised. Revisions to the liability could occur due to changes in estimated abandonment costs or well economic lives, or if federal or state regulators enact new requirements regarding the abandonment of wells. Asset retirement obligations are valued utilizing Level 3 fair value measurement inputs.

The following table provides a reconciliation of Resolute's asset retirement obligations for the six months ended June 30, (in thousands):

	2010
Asset retirement obligations at beginning of period	\$ 10,438
Additional liability incurred	4
Accretion expense	398
Liabilities settled	(1,746)
Revisions to previous estimates	17
Asset retirement obligations at June 30, 2010	9,111
Less current asset retirement obligations	240
Long term asset retirement obligations	\$ 8,871

Note 5 Oil and Gas Properties

Resolute uses the full cost method of accounting for oil and gas producing activities. All costs incurred in the acquisition, exploration and development of properties, including costs of unsuccessful exploration, costs of surrendered and abandoned leaseholds, delay lease rentals and the fair value of estimated future costs of site restoration, dismantlement and abandonment activities, improved recovery systems and a portion of general and administrative expenses are capitalized on a country-wide basis (the Cost Center).

Resolute conducts tertiary recovery projects on certain of its oil and gas properties in order to recover additional hydrocarbons that are not recoverable from primary or secondary recovery methods. Under the full cost method, all development costs are capitalized at the time incurred. Development costs include charges associated with access to and preparation of well locations, drilling and equipping development wells, test wells, and service wells including injection wells, and acquiring, constructing, and installing production facilities and providing for improved recovery systems. Improved recovery systems include all related facility development costs and the cost of the acquisition of tertiary injectants, primarily purchased carbon dioxide (CO₂). The development cost related to the purchase of CO₂s incurred solely for the purpose of gaining access to incremental reserves that would not be recoverable without the injection of such CO₂. The accumulation of injected CO₂, in combination with additional purchased and recycled CO₂, provides future economic value over the life of the project.

In contrast, other costs related to the daily operation of the improved recovery systems are considered production costs and are expensed as incurred. These costs include, but are not limited to, compression, electricity, separation, re-injection of recovered CO₂ and water, and reservoir pressure maintenance.

Capitalized general and administrative and operating costs include salaries, employee benefits, costs of consulting services and other specifically identifiable costs related to acquisition, exploration and development activities and do not include costs related to production operations, general corporate overhead or similar activities. Resolute capitalized general and administrative and operating costs related to its acquisition, exploration and development activities of \$0.4 million and \$0.6 million for the three and six month periods ended June 30, 2010, respectively.

Investments in unproved properties are not depleted, pending determination of the existence of proved reserves. The Company's investments in unproved properties are related to exploration plays in the Black Warrior Basin in Alabama, the Big Horn Basin in Wyoming and the Williston Basin in North Dakota. Unproved properties are assessed at least annually to ascertain whether impairment has occurred. Unproved properties whose costs are individually

significant are assessed individually by considering the primary lease terms of the properties, the holding period of the properties, and geographic and geologic data obtained relating to the properties. Where it is not practical to assess individually the amount of impairment of properties for which costs are not individually significant, such properties are grouped for purposes of assessing impairment. The amount of impairment assessed is added to the costs to be amortized or is reported as a period expense, as appropriate.

No gain or loss is recognized upon the sale or abandonment of undeveloped or producing oil and gas properties unless the sale represents a significant portion of oil and gas properties and the gain or loss significantly alters the relationship between the capitalized costs and proved oil reserves of the Cost Center.

Depletion and amortization of oil and gas properties is computed on the unit-of-production method based on proved reserves. Amortizable costs include estimates of asset retirement obligations and future development costs of proved reserves,

Table of Contents

including, but not limited to, costs to drill and equip development wells, constructing and installing production and processing facilities, and improved recovery systems, including the cost of required future CO₂ purchases.

Pursuant to full cost accounting rules, Resolute must perform a ceiling test each quarter on its proved oil and gas assets. The ceiling test requires that capitalized costs less related accumulated depletion and deferred income taxes for the Cost Center may not exceed the sum of (1) the present value of future net revenue from estimated production of proved oil and gas reserves using current prices, excluding the future cash outflows associated with settling asset retirement obligations that have been accrued on the balance sheet, and a discount factor of 10%; plus (2) the cost of properties not being amortized, if any; plus (3) the lower of cost or estimated fair value of unproved properties included in the costs being amortized, if any; less (4) income tax effects related to differences in the book and tax basis of oil and gas properties (the full cost ceiling). Should the net capitalized costs for the Cost Center exceed the full cost ceiling, an impairment charge would be recognized to the extent of the excess capitalized costs.

The Company's full cost pool is primarily comprised of assets attributable to the Resolute Transaction. In accordance with Regulation S-X Article 4-10 and rules for full cost accounting for proved oil and gas properties, Resolute performed a ceiling test at June 30, 2010 and at December 31, 2009 using its reserve estimates prepared in accordance with the recently promulgated Securities and Exchange Commission (SEC) rules. At June 30, 2010, the full cost ceiling exceeded capitalized costs. At December 31, 2009, total capitalized costs exceeded the full cost ceiling by approximately \$150 million; however, no impairment was recognized at December 31, 2009, as the Company requested and received an exemption from the SEC to exclude the Resolute Transaction from the full cost ceiling assessment for a period of twelve months following the acquisition, provided the Company can demonstrate that the fair value of the acquired properties exceeds the carrying value in the interim periods through June 30, 2010. The request for exemption was made because the Company could demonstrate beyond a reasonable doubt that the fair value of the Resolute Transaction oil and gas properties exceed unamortized cost at the Acquisition Date and at December 31, 2009.

At the Acquisition Date, Resolute valued its oil and gas properties using NYMEX forward strip prices for a period of five years and then held prices flat thereafter. The Company also used various discount rates and other risk factors depending on the classification of reserves. Management believes this internal pricing model reflected the fair value of the assets acquired.

While commodity prices have increased since the Acquisition Date, the Company recognizes that due to the volatility associated with oil and gas prices, future realized commodity prices could be lower. If that were to occur and were deemed to be other than temporary, the Company would assess the Resolute Transaction properties for impairment during the exemption period. Further, if the Company cannot demonstrate that fair value exceeds the unamortized carrying costs during the exemption period, the Company will recognize impairment.

Note 6 Acquisitions and Divestitures

The unaudited pro forma consolidated financial information in the table below summarizes the results of operations of the Company as though the Resolute Transaction had occurred as of the beginning of the period presented. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the period presented or that may result in the future. The pro forma adjustments made are based on certain assumptions that Resolute believes are reasonable based on currently available information.

The unaudited pro forma financial information for the three and six months ended June 30, 2009 combine the historical results of HACI and Predecessor Resolute.

	Three Months Ended June 30, 2009	Six Months Ended June 30, 2009
	(in thousands, except per share amount)	
Total revenue	\$ 30,024	\$ 52,512

Edgar Filing: Resolute Energy Corp - Form 424B3

Operating income (loss)	2,820	(20,775)
Net loss	(30,866)	(40,096)
Basic and diluted net loss per share	\$ (0.62)	\$ (0.80)

Note 7 Earnings per Share

The Company computes earnings per share using the two class method. Basic net income per share is computed using the weighted average number of common shares outstanding during the period. Diluted net income per share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potentially dilutive shares consist of the incremental shares issuable under the outstanding warrants and outstanding earnout shares, which are shares of Company common stock (with voting rights) that will be forfeited if the price of the Company's common stock does not exceed \$15.00 per share for 20 trading days in any 30 day trading period within five years from the

- 8 -

Table of Contents

date of the Resolute Transaction (Earnout Shares). Warrants entitle the holder to purchase one share of the Company's common stock at a price of \$13.00 per share and expire on September 25, 2014.

The treasury stock method is used to measure the dilutive impact of potentially dilutive shares. Dilutive potential common shares for the three and six months ended June 30, 2010 included (i) 1,108,000 shares of time-based restricted stock; (ii) and 137,000 of the 552,000 shares of restricted stock subject to a market condition.

Additionally, the warrants and earnout shares had no dilutive impact for the respective periods as (i) 34,600,000 warrants were anti-dilutive as their exercise price is greater than the average price of the Company's common stock during the three and six months then ended; (ii) 13,800,000 warrants were considered contingently issuable as the last sales price of the Company's common stock, through June 30, 2010, has not exceeded \$13.75 for any 20 days within any 30 day trading period; and (iii) Earnout Shares are considered contingently issuable and are not included in the earnings per share calculation until all necessary conditions for issuance are satisfied. Therefore, the impact of 48,400,000 warrants and 3,665,000 shares of restricted stock outstanding during the period were not included in the calculation of earnings per share. There was a loss during the three and six months ended June 30, 2009, and all potentially dilutive shares were anti-dilutive. Accordingly, 76,000,000 warrants were excluded from the calculation of diluted loss per share.

The liquidation rights of the holders of the Company's common stock and common stock subject to redemption are identical, except with respect to redemption rights for dissenting shareholders in an acquisition by the Company. As a result, the undistributed earnings for periods prior to the Resolute Transaction were allocated based on the contractual participation rights of the common stock and common stock subject to redemption as if the earnings for the year had been distributed. The undistributed earnings were allocated to common stock subject to redemption based on their pro-rata right to income earned on Offering proceeds by the trust. Subsequent to the Resolute Transaction, no common stock subject to redemption remains outstanding. For the three and six months ended June 30, 2009 there were 16,560,000 shares of common stock subject to redemption. Net income available to common stock subject to redemption for the three and six month periods ended June 30, 2009 was \$38,000, or \$0.00 per share, and \$0.1 million, or \$0.01 per share, respectively.

Note 8 Related Party Transactions

HACI agreed to pay up to \$10,000 a month for office space and general and administrative services to Hicks Holdings Operating LLC (Hicks Holdings), an affiliate of HACI's founder and chairman of the board, Thomas O. Hicks. Services commenced after the effective date of the Offering and were terminated during 2009 due to the consummation of the Resolute Transaction.

Note 9 Long Term Debt

Resolute's credit facility is with a syndicate of banks led by Wells Fargo Bank, National Association (the Credit Facility) with Resolute as the borrower. The Credit Facility specifies a maximum borrowing base as determined by the lenders. The determination of the borrowing base takes into consideration the estimated value of Resolute's oil and gas properties in accordance with the lenders' customary practices for oil and gas loans. On March 30, 2010, the Company entered into an amended and restated credit facility agreement. Under the terms of the restated agreement, the borrowing base was increased from \$240.0 million to \$260.0 million and the maturity date was extended to March 2014. At Resolute's option, the outstanding balance under the Credit Facility accrues interest at either (a) the London Interbank Offered Rate, plus a margin which varies from 2.25% to 3.0% or (b) the Alternative Base Rate defined as the greater of (i) the Administrative Agent's Prime Rate, (ii) the Federal Funds Effective Rate plus 0.5%, or (iii) an adjusted London Interbank Offered Rate plus 1%, plus a margin which ranges from 1.25% to 2.0%. Each such margin is based on the level of utilization under the borrowing base. As of June 30, 2010, the weighted average interest rate on the outstanding balance under the Credit Facility was 3.18%.

The borrowing base is re-determined semi-annually, and the amount available for borrowing could be increased or decreased as a result of such re-determinations. Under certain circumstances, either Resolute or the lenders may request an interim re-determination. As of June 30, 2010, outstanding borrowings were \$119.1 million and unused availability under the borrowing base was \$137.6 million. The borrowing base availability has been reduced by \$3.3 million in conjunction with letters of credit issued to vendors at June 30, 2010. To the extent that the borrowing base, as adjusted from time to time, exceeds the outstanding balance, no repayments of principal are required prior to

maturity. The Credit Facility is collateralized by substantially all of the proved oil and gas assets of Aneth and RWI, and is guaranteed by Resolute's subsidiaries.

The Credit Facility includes terms and covenants that place limitations on certain types of activities, the payment of dividends, and require satisfaction of certain financial tests. Resolute was in compliance with all terms and covenants of the Credit Facility at June 30, 2010.

As of August 10, 2010, Resolute had borrowings of \$121.1 million under the borrowing base, resulting in an unused availability of \$135.6 million.

Table of Contents**Note 10 Income Taxes**

Income tax expense during interim periods is based on applying an estimated annual effective income tax rate to year-to-date income, plus any significant unusual or infrequently occurring items which are recorded in the interim period. The provision for income taxes for the three and six month periods ended June 30, 2010 and 2009 differ from the amount that would be provided by applying the statutory U.S. federal income tax rate of 35% to income before income taxes. This difference relates primarily to state income taxes and estimated permanent differences.

The following table summarizes the components of the provision for income taxes (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Current income tax benefit (expense)	\$ (73)	\$ 48	\$ (108)	\$ 74
Deferred income tax benefit (expense)	(11,410)	(7)	(14,060)	1,105
Total income tax benefit (expense)	\$ (11,483)	\$ 41	\$ (14,168)	\$ 1,179

The Company has not recorded a reserve for any uncertain tax positions as of June 30, 2010 or 2009.

The Company is subject to the following material taxing jurisdictions: U.S. federal, Colorado and Utah. The tax years that remain open to examination by the Internal Revenue Service are the years 2006 through 2009. The tax years that remain open to examination by Colorado and Utah are 2005 through 2009.

Note 11 Stockholders Equity and Equity Based Awards**Preferred Stock**

The Company is authorized to issue up to 1,000,000 shares of preferred stock, par value \$0.0001 with such designations, voting and other rights and preferences as may be determined from time to time by the Board of Directors. No shares were issued and outstanding as of June 30, 2010 or December 31, 2009.

Common Stock

The authorized common stock of the Company consists of 225,000,000 shares. The holders of the common shares are entitled to one vote for each share of common stock. In addition, the holders of the common stock are entitled to receive dividends when, as and if declared by the Board of Directors.

Of the 54,815,825 shares of common stock outstanding at June 30, 2010, 3,250,000 are classified as Earnout Shares. Earnout Shares are common stock of Resolute subject to forfeiture in the event that the market price earnout target of \$15.00 per share is not met by September 25, 2014. The Earnout Shares have voting rights and are transferable; however, they are not registered for resale and do not participate in dividends until the trigger price is met.

Prior to consummation of the Resolute Transaction, holders of 30% of public common stock, less one share, had the right to vote against any acquisition proposal and demand conversion of their shares for a pro rata portion of cash and marketable securities held in trust, less certain adjustments. As a result, HACI classified 16,559,999 of the total 69,000,000 common shares issued during 2007 as common stock, subject to possible redemption for \$160.8 million. The common stock subject to redemption participated in income earned by Offering funds held in trust prior to the Resolute Transaction. Income or loss attributable to common stock subject to redemption was considered in the calculation of earnings per share and the deferred interest attributable to common stock subject to possible redemption was classified as temporary equity. Upon consummation of the Resolute Transaction, the \$160.8 million temporary equity was reclassified to common stock and additional paid-in capital and 11,592,084 shares were redeemed. The deferred interest attributable to the shares of common stock not redeemed of \$1.9 million was reclassified to stockholders equity.

Share-Based Compensation

The Company accounts for share-based compensation in accordance with FASB ASC Topic 718, *Stock Compensation*.

On July 31, 2009, the Company adopted the 2009 Performance Incentive Plan (the Incentive Plan), providing for long-term share based awards intended as a means for the Company to attract, motivate, retain and reward directors, officers, employees and other eligible persons through the grant of awards and incentives for high levels of individual performance and improved financial performance of the Company. Share-based awards are also intended to further align the interests of award recipients and the Company s stockholders. The Company s Board of Directors or one or more committees appointed by the Company s Board of Directors will administer the Incentive Plan. The maximum number of shares of Company common stock that may be issued pursuant to awards under the Incentive Plan is 2,657,744.

- 10 -

Table of Contents

The Incentive Plan authorizes stock options, stock appreciation rights, restricted stock, restricted stock units, stock bonuses and other forms of awards that may be granted or denominated in Company common stock or units of Company common stock, as well as cash bonus awards. The Incentive Plan retains flexibility to offer competitive incentives and to tailor benefits to specific needs and circumstances. Any award may be paid or settled in cash at the Company's option.

During the three months ended June 30, 2010, pursuant to the Incentive Plan, the Company granted 1,655,800 shares of restricted stock to employees. Shares of restricted stock vest if employees continue to be employed at specified dates in the future and if certain performance metrics are satisfied. For 2010, two-thirds of each grant of restricted stock is time-based, as the shares will vest based on continued employment in four equal tranches. The first tranche will generally vest on December 31, 2010. The remaining tranches will generally vest on each successive December 31st, with the final tranche generally vesting on December 31, 2013. The remaining one-third of each grant is subject to the satisfaction of pre-established performance targets. The performance-based shares will vest in equal tranches beginning December 31, 2010 if there has been a 10% annual appreciation in the trading price of the Company's common stock, compounded annually, from the twenty trading day average stock price at December 31, 2009, which was \$11.134. At the end of each year, the twenty trading day average share price will be measured, and if the 10% threshold is met, the stock subject to the performance criteria will vest. If the 10% threshold is not met, shares that have not vested will be carried forward to the following year. In that way, an underperforming year can be offset by an over-performing year. At December 31, 2013, any unvested shares will vest if the cumulative test is met or will be forfeited if the test is not met. Vesting will accelerate on an individual's death or disability or, in the discretion of the Board of Directors or Compensation Committee, on certain change in control events. The compensation expense to be recognized for the time-based awards was measured based on the Company's traded stock price on the dates of grant, utilizing an estimated forfeiture rate of 5%. The compensation expense to be recognized for the performance-based awards was measured based on the estimated fair value at the date of grant using a binomial lattice model that incorporates a Monte Carlo simulation. For the three and six months ended June 30, 2010, the Company recorded \$1.3 million of stock based compensation expense for this award. Unrecognized compensation expense of approximately \$16.8 million, at June 30, 2010 will be recognized over the future vesting periods of 3.5 years.

The valuation model for the performance portion of the award used the following assumptions:

Grant Year	Average Expected Volatility	Expected Dividend Yield	Risk-Free Interest Rate
2010	70.5% - 72.1%	0.0%	1.65% - 1.75%

Due to the limited historical data on Resolute's stock, the Company's elected a peer group to estimate the expected volatility. Companies included in the peer group had similar market cap, leverage and were all heavily weighted in oil sales. The average expected volatility is based on 3.5 year historical volatility levels. Risk-free interest rates reflect the yield on an average of three and five year zero coupon U.S. Treasury bonds, based on the shares' contractual terms.

On March 16, 2010, certain of the Company's directors were granted a total of 5,492 shares of Company common stock under the Incentive Plan. One quarter of each Board of Director award was granted without restriction with the remainder vesting over a service period ending on March 16, 2013. The compensation expense to be recognized for the awards was measured based on the Company's traded stock price on March 16, 2010.

On September 25, 2009, the Company and Sub entered into a Retention Bonus Award Agreement calling for the award to employees of the Company of 200,000 shares of Company common stock that would otherwise have been issued to Sub in the Resolute Transaction. Fifty percent of each employee award was awarded without restriction and fifty percent of each employee award was granted contingent upon the employee remaining employed by the Company for one year following the closing of the Resolute Transaction. As of June 30, 2010, employees had forfeited 15,039 shares under this agreement, leaving 84,961 shares unvested. The compensation expense to be recognized for the awards was measured based on the Company's traded stock price at the date of the Resolute Transaction. For the three and six months ended June 30, 2010, the Company recorded \$0.2 million and \$0.4 million

of stock based compensation expense for this award, respectively. The remaining expense will be recognized over the remaining vesting period ending on September 25, 2010.

Note 12 Employee Benefits

The Company offers a variety of health and benefit programs to all employees, including medical, dental, vision, life insurance and disability insurance. The Company's executive officers are generally eligible to participate in these employee benefit plans on the same basis as the rest of the Company's employees. The Company offers a 401(k) plan for all eligible employees. Employee benefit plans may be modified or terminated at any time by the Company's Board of Directors.

- 11 -

Table of Contents***Time Vested Cash Awards***

Prior to the Resolute Transaction, certain employees of Predecessor Resolute held time vested cash awards (Awards). All of the Awards bear simple interest of 15% per annum commencing January 1, 2008, and are payable in three installments, with the first installment paid on January 1, 2009 and the remaining two installments payable on January 1, 2010 and 2011. The Awards are accounted for as deferred compensation. The annual payments are paid contingent upon the employee s continued employment with Resolute and there is potential for forfeiture of the Awards. Accordingly, Resolute will accrue the Awards and related return for the respective year on an annual basis. For the six months ended June 30, 2010, \$0.1 million of compensation expense related to the Awards was recognized.

Note 13 Derivative Instruments

Resolute enters into commodity derivative contracts to manage its exposure to oil and gas price volatility. Resolute has not elected to designate derivative instruments as hedges under the provisions of FASB ASC Topic 815, *Derivatives and Hedging*. As a result, these derivative instruments are marked to market at the end of each reporting period and changes in the fair value are recorded in the accompanying condensed consolidated statements of operations. Realized and unrealized gains and losses from Resolute s price risk management activities are recognized in other income (expense), with realized gains and losses recognized in the period in which the related production is sold. The cash flows from derivatives are reported as cash flows from operating activities unless the derivative contract is deemed to contain a financing element. Derivatives deemed to contain a financing element are reported as financing activities in the condensed consolidated statement of cash flows. Commodity derivative contracts may take the form of futures contracts, swaps or options.

For financial reporting purposes, Resolute does not offset the fair value amounts of derivative assets and liabilities with the same counterparty. See Note 14 for the location and fair value amounts of Resolute s commodity derivative instruments reported in the condensed consolidated balance sheet at June 30, 2010.

The table below summarizes the location and amount of commodity derivative instrument losses reported in the condensed consolidated statements of operations (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Other income (expense):				
Realized losses	\$ (1,416)	\$	\$ (3,551)	\$
Unrealized gains	25,642		27,987	
Total gains on derivative instruments	\$ 24,226	\$	\$ 24,436	\$

As of June 30, 2010, Resolute had entered into certain commodity swap contracts. The following table represents Resolute s commodity swaps through 2013:

Year	Bbl per Day	Oil (NYMEX WTI) Weighted Average Hedge	MMBtu per Day	Gas (NYMEX HH) Weighted Average Hedge Price per
		Price per Bbl		MMBtu
2010	3,650	\$ 67.24	3,800	\$ 9.69
2011	3,250	\$ 68.26	2,750	\$ 9.32
2012	3,250	\$ 68.26	2,100	\$ 7.42
2013	2,000	\$ 60.47	1,900	\$ 7.40

Edgar Filing: Resolute Energy Corp - Form 424B3

Resolute also uses basis swaps in connection with gas swaps in order to fix the price differential between the NYMEX Henry Hub price and the index price at which the gas production is sold. The table below sets forth Resolute's outstanding basis swaps as of June 30, 2010.

Year	Index	MMBtu per Day	Weighted Average Hedged Price Differential per MMBtu
2010 - 2013	Rocky Mountain NWPL	1,800	\$ 2.10

As of June 30, 2010, Resolute had entered into certain commodity collar contracts. The following table represents Resolute's commodity collars.

Year	Bbl per Day	Oil (NYMEX WTI) Weighted Average Hedge Price per Bbl
2010	200	\$ 105.00-151.00

- 12 -

Table of Contents**Credit Risk and Contingent Features in Derivative Instruments**

Resolute is exposed to credit risk to the extent of nonperformance by the counterparties in the derivative contracts discussed above. All counterparties are lenders under Resolute's Credit Facility. Accordingly, Resolute is not required to provide any credit support to its counterparties other than cross collateralization with the properties securing the Credit Facility. Resolute's derivative contracts are documented with industry standard contracts known as a Schedule to the Master Agreement and International Swaps and Derivative Association, Inc. Master Agreement (ISDA). Typical terms for each ISDA include credit support requirements, cross default provisions, termination events and set-off provisions. Resolute has set-off provisions with its lenders that, in the event of counterparty default, allow Resolute to set-off amounts owed under the Credit Facility or other general obligations against amounts owed for derivative contract liabilities.

The maximum amount of loss in the event of all counterparties defaulting is \$0 as of June 30, 2010, due to the set-off provisions noted above.

Note 14 Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The guidance establishes market or observable inputs as the preferred sources of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. The guidance establishes a hierarchy for determining the fair values of assets and liabilities, based on the significance level of the following inputs:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Significant inputs to the valuation model are unobservable.

An asset or liability subject to the fair value requirements is categorized within the hierarchy based on the lowest level of input that is significant to the fair value measurement. Resolute's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Following is a description of the valuation methodologies used by Resolute as well as the general classification of such instruments pursuant to the hierarchy.

As of June 30, 2010, Resolute's commodity derivative instruments were required to be measured at fair value on a recurring basis. Resolute used the income approach in determining the fair value of its derivative instruments, utilizing present value techniques for valuing its swaps and basis swaps and option-pricing models for valuing its collars. Inputs to these valuation techniques include published forward index prices, volatilities, and credit risk considerations, including the incorporation of published interest rates and credit spreads. Substantially all of these inputs are observable in the marketplace throughout the full term of the contract, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace and are therefore designated as Level 2 within the valuation hierarchy.

The following is a listing of Resolute's assets and liabilities required to be measured at fair value on a recurring basis and where they are classified within the hierarchy as of June 30, 2010 (in thousands):

Description	Level 1	Level 2	Level 3
Assets			
Commodity swaps	\$	\$ 5,388	\$
Commodity collars		1,038	
Current assets: derivative instruments	\$	\$ 6,426	\$

Commodity swaps	\$	\$ 4,155	\$
Other assets: derivative instruments	\$	\$ 4,155	\$
Liabilities			
Commodity swaps	\$	\$ 13,311	\$
Current liabilities: derivative instruments	\$	\$ 13,311	\$
Commodity swaps	\$	\$ 34,345	\$
Long term liabilities: derivative instruments	\$	\$ 34,345	\$

- 13 -

Table of Contents**Note 15 Commitments and Contingencies****CO₂ Take-or-Pay Agreements**

Resolute is party to a take-or-pay purchase agreement with a supplier, under which Resolute has committed to buy specified volumes of CO₂. The purchased CO₂ is for use in Resolute's tertiary enhanced recovery projects in Aneth Field. Resolute is obligated to purchase a minimum daily volume of CO₂ or pay for any deficiencies at the price in effect when delivery was to have occurred. The CO₂ volumes planned for use on the enhanced recovery projects exceed the minimum daily volumes provided in these take-or-pay purchase agreements. Therefore, Resolute expects to avoid any payments for deficiencies.

The contract was entered into on May 25, 2005, was amended on July 1, 2007, and has a ten year term. Future commitments as of June 30, 2010 under this purchase agreement amounted to approximately \$51.3 million through June 2016 based on prices in effect on June 30, 2010.

The annual minimum CO₂ purchase obligation by year is as follows (in thousands):

Year	CO₂ Purchase Commitments
2010	\$ 5,355
2011	14,162
2012	11,084
2013	10,708
2014	4,755
Thereafter	5,256
Total	\$ 51,320

Notes to Combined Statements of Operations and of Cash Flows (UNAUDITED)

Note 1 Description of the Companies and Business

Resolute Natural Resources Company, LLC (Resources), previously a Delaware corporation incorporated on January 22, 2004 and converted to a limited liability company on September 30, 2008, Resolute Aneth, LLC (Aneth), a Delaware limited liability company established on November 12, 2004, WYNR, LLC (WYNR), a Delaware limited liability company established on August 25, 2005, BWRN, LLC (BWRN), a Delaware limited liability company established on August 19, 2005, RNRC Holdings, Inc. (RNRC), a Delaware corporation incorporated on September 19, 2008 and Resolute Wyoming, Inc. (RWI) (formerly Primary Natural Resources, Inc. (PNR)), a Delaware corporation incorporated on November 21, 2003 (the change of name to RWI was effective September 29, 2008) (together, Predecessor Resolute or the Companies) are engaged in the acquisition, exploration, development, and production of oil, gas and natural gas liquids (NGL), primarily in the Paradox Basin in southeastern Utah and the Powder River Basin in Wyoming. The Companies are wholly owned subsidiaries of Resolute Holdings Sub, LLC (Sub), which in turn is a wholly owned subsidiary of Resolute Holdings, LLC (Holdings).

Note 2 Basis of Presentation and Significant Accounting Policies

Basis of Presentation

On September 25, 2009 (Acquisition Date), Hicks Acquisition Company I, Inc. (HACI) consummated a business combination under the terms of a Purchase and IPO Reorganization Agreement (Acquisition Agreement) with Resolute Energy Corporation (Resolute), pursuant to which, through a series of transactions, HACI 's stockholders collectively acquired a majority of the outstanding equity of the Companies (Resolute Transaction), and Resolute owns, directly or indirectly, 100% of the equity interests of Resources, WYNR, BWRN, RNRC, and RWI, and indirectly owns a 99.996% equity interest in Aneth.

The accompanying unaudited combined statements of operations and of cash flows of Predecessor Resolute have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial reporting and Regulation S-X for interim financial reporting. No combined balance sheet of Predecessor Resolute is required to be presented as the condensed consolidated balance sheets of Resolute Energy Corporation include the acquired balances. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the interim financial information, have been included. Operating results for the periods presented are not necessarily indicative of the results that may be expected for the full year. These companies are under common ownership and common management. All intercompany balances and transactions have been eliminated in combination.

Significant Accounting Policies

The significant accounting policies followed by Resolute are set forth in Note 2 to Predecessor Resolute 's combined financial statements for the period ended September 24, 2009 appearing in Resolute 's Annual Report on Form 10-K for the year ended December 31, 2009. These unaudited combined interim financial statements are to be read in conjunction with the combined financial statements and related notes for the period ended September 24, 2009.

Assumptions, Judgments, and Estimates

The preparation of the combined interim financial statements in conformity with GAAP requires management to make various assumptions, judgments and estimates to determine the reported amounts of assets, liabilities, revenue and expenses, and in the disclosures of commitments and contingencies. Changes in these assumptions, judgments and estimates will occur as a result of the passage of time and the occurrence of future events. Accordingly, actual results could differ from amounts previously established.

Significant estimates with regard to the combined financial statements include the estimated carrying value of unproved properties, the estimate of proved oil and gas reserve volumes and the related present value of estimated

future net cash flows and the ceiling test applied to capitalized oil and gas properties, the estimated cost and timing related to asset retirement obligations, the estimated fair value of derivative assets and liabilities, the estimated expense for equity based compensation and depletion, depreciation, and amortization.

- 17 -

Table of Contents**Note 3 Oil and Gas Properties**

Predecessor Resolute uses the full cost method of accounting for oil and gas producing activities. All costs incurred in the acquisition, exploration and development of properties, including costs of unsuccessful exploration, costs of surrendered and abandoned leaseholds, delay lease rentals and the fair value of estimated future costs of site restoration, dismantlement and abandonment activities, improved recovery systems and a portion of general and administrative expenses are capitalized within the cost center.

Predecessor Resolute conducts tertiary recovery projects on certain of its oil and gas properties in order to recover additional hydrocarbons that are not recoverable from primary or secondary recovery methods. Under the full cost method, all development costs are capitalized at the time incurred. Development costs include charges associated with access to and preparation of well locations, drilling and equipping development wells, test wells, and service wells including injection wells; acquiring, constructing, and installing production facilities and providing for improved recovery systems. Improved recovery systems include all related facility development costs and the cost of the acquisition of tertiary injectants, primarily purchased CO₂. The development cost related to CO₂ purchases are incurred solely for the purpose of gaining access to incremental reserves not otherwise recoverable. The accumulation of injected CO₂, in combination with additional purchased and recycled CO₂, provide future economic value over the life of the project.

In contrast, other costs related to the daily operation of the improved recovery systems are considered production costs and are expensed as incurred. These costs include, but are not limited to, compression, electricity, separation, re-injection of recovered CO₂ and water. Costs incurred to maintain reservoir pressure are also expensed as incurred.

Capitalized general and administrative and operating costs include salaries, employee benefits, costs of consulting services and other specifically identifiable costs and do not include costs related to production operations, general corporate overhead or similar activities. Predecessor Resolute capitalized general and administrative and operating costs of \$0.1 million and \$0.1 million related to its acquisition, exploration and development activities for the three and six months ended June 30, 2009, respectively.

Investments in unproved properties are not depleted, pending determination of the existence of proved reserves. Unproved properties are assessed periodically to ascertain whether impairment has occurred. Unproved properties whose costs are individually significant are assessed individually by considering the primary lease terms of the properties, the holding period of the properties, and geographic and geologic data obtained relating to the properties. Where it is not practicable to assess individually the amount of impairment of properties for which costs are not individually significant, such properties are grouped for purposes of assessing impairment. The amount of impairment assessed is added to the costs to be amortized, or is reported as a period expense as appropriate.

Pursuant to full cost accounting rules, Predecessor Resolute performed a ceiling test each quarter on its proved oil and gas assets. The ceiling test requires that capitalized costs less related accumulated depletion and deferred income taxes for each cost center may not exceed the sum of (1) the present value of future net revenue from estimated production of proved oil and gas reserves using current prices, excluding the future cash outflows associated with settling asset retirement obligations that have been accrued on the balance sheet, and a discount factor of 10%; plus (2) the cost of properties not being amortized, if any; plus (3) the lower of cost or estimated fair value of unproved properties included in the costs being amortized, if any; less (4) income tax effects related to differences in the book and tax basis of oil and gas properties. Should the net capitalized costs for a cost center exceed the sum of the components noted above, an impairment charge would be recognized to the extent of the excess capitalized costs. As a result of this limitation on capitalized costs, the accompanying combined financial statements include a provision for an impairment of oil and gas property cost for the three and six months ended June 30, 2009 of \$0 and \$13.3 million, respectively.

No gain or loss is recognized upon the sale or abandonment of undeveloped or producing oil and gas properties unless the sale represents a significant portion of oil and gas properties and the gain or loss significantly alters the relationship between the capitalized costs and proved oil reserves of the cost center.

Depletion and amortization of oil and gas properties is computed on the unit-of-production method based on proved reserves. Amortizable costs include estimates of asset retirement obligations and future development costs of proved reserves, including, but not limited to, costs to drill and equip development wells, constructing and installing

production and processing facilities, and improved recovery systems, including the cost of required future CO₂ purchases.

- 18 -

Table of Contents**Note 4 Asset Retirement Obligations**

Asset retirement obligations relate to future costs associated with the plugging and abandonment of oil and gas wells, removal of equipment and facilities from leased acreage and returning such land to its original condition. The fair value of a liability for an asset retirement obligation is recorded in the period in which it is incurred and the cost of such liability increases the carrying amount of the related long-lived asset by the same amount. The liability is accreted each period and the capitalized cost is depleted on a units-of-production basis as part of the full cost pool. Revisions to estimated asset retirement obligations result in adjustments to the related capitalized asset and corresponding liability.

Predecessor Resolute's estimated asset retirement obligation liability is based on estimated economic lives, estimates as to the cost to abandon the wells in the future, and federal and state regulatory requirements. The liability is discounted using a credit-adjusted risk-free rate estimated at the time the liability is incurred or revised. Revisions to the liability could occur due to changes in estimated abandonment costs or well economic lives, or if federal or state regulators enact new requirements regarding the abandonment of wells.

The following table provides a reconciliation of Predecessor Resolute's asset retirement obligation for the six months ended June 30, 2009 (in thousands):

	Six Months Ended June 30, 2009
Asset retirement obligations at beginning of period	\$ 9,828
Accretion expense	471
Additional liability incurred	
Liabilities settled	(611)
Revisions to previous estimates	560
Asset retirement obligations at end of period	10,248
Less current asset retirement obligations	1,183
Long-term asset retirement obligations	\$ 9,065

Note 5 Related Party Transactions

Resources has received payments due Holdings for Holdings' transactions not related to Predecessor Resolute. Such payments have not yet been fully reimbursed to Holdings. Payments to Holdings are reflected on the combined statements of cash flows under the caption Accounts Payable - Holdings.

Note 6 Long Term Debt**First Lien Facility**

Predecessor Resolute's credit facility was with a syndicate of banks led by Wachovia Bank, National Association (the First Lien Facility) with Aneth as the borrower. At Aneth's option, the outstanding balance under the First Lien Facility accrued interest at either (a) the London Interbank Offered Rate, plus a margin which varied from 1.5% to 3.5%, or (b) the Alternative Base Rate defined as the greater of (i) the Administrative Agent's Prime Rate, (ii) the Administrative Agent's Base CD rate plus 1%, or (iii) the Federal Funds Effective Rate plus 0.5%, plus a margin which varied from 0% to 2.0%. Each such margin was based on the level of utilization under the borrowing base. As of June 30, 2009 the weighted average interest rate on the outstanding balance under the facility was approximately 3.89%.

On September 25, 2009, Resolute repaid \$99.5 million outstanding under the First Lien Facility with cash received from the Resolute Transaction.

Second Lien Facility

Edgar Filing: Resolute Energy Corp - Form 424B3

Predecessor Resolute's term loan was with a group of lenders, with Wilmington Trust FSB as the agent (the Second Lien Facility) and with Aneth as the borrower. Balances outstanding under the Second Lien Facility accrued interest at either (a) the adjusted London Interbank Offered Rate plus the applicable margin of 4.5%, or (b) the greater of (i) the Administrative Agent's Prime Rate, (ii) the Administrative Agent's Base CD rate plus 1%, or (iii) the Alternative Base Rate, plus the applicable margin of 3.5%. As of June 30, 2009 the weighted average interest rate on the outstanding balance under the facility was approximately 4.77%.

On September 25, 2009, Resolute repaid all amounts outstanding under the Second Lien Facility with cash received from the Resolute Transaction.

- 19 -

Table of Contents**Note 7 Income Taxes**

Income tax expense during interim periods is based on applying an estimated annual effective income tax rate to year-to-date income, plus any significant unusual or infrequently occurring items which are recorded in the interim period. The provision for income taxes for the three and the six months ended June 30, 2009 differs from the amount that would be provided by applying the statutory U.S. federal income tax rate of 35% to income before income taxes primarily related to state income taxes and estimated permanent differences.

The following table summarizes the components of the provision for income taxes (in thousands):

	For the Three Months Ended June 30, 2009	For the Six Months Ended June 30, 2009
Current income tax expense		
Federal	\$ 3	\$ (12)
State		
Deferred income tax benefit (expense)	6,587	5,519
Valuation allowance*	(6,587)	(15,311)
Total income tax benefit (expense)**	\$ 3	\$ (9,804)

* Resolute recorded a full valuation allowance against its deferred tax asset at June 30, 2009, as Predecessor Resolute believed that this asset may not be realized if it was unable to generate future taxable income.

** Tax expense (benefit) is calculated based on taxable income of RNRC and RWI, which are taxable entities. Aneth, Sub, BWNR and

WYNR are pass-through entities for federal and state income tax purposes. As such, neither current nor deferred income taxes are recognized by these entities.

Note 8 Shareholder s/Member s Equity and Equity Based Awards

Common Stock

At June 30, 2009, RNRC and RWI each had 1,000 shares of common stock, par value \$0.01 and \$1.00 per share, authorized, issued and outstanding.

Member s Equity

At June 30, 2009, member s equity included Aneth, WYNR, BWNR and Resources.

Incentive Interests

Resources

Incentive Units were granted by Holdings to certain of its members who were also officers, as well as to other employees of Resources. The Incentive Units were intended to be compensation for services provided to Resources. The original terms of the five tiers of Incentive Units are as follows. Tier I units vest ratably over three years, but are subject to forfeiture if payout is not realized. Tier I payout is realized at the return of members invested capital and a specified rate of return. Tiers II through V vest upon certain specified multiples of cash payout. Incentive Units are forfeited if an employee of Predecessor Resolute is either terminated for cause or resigns as an employee. Any Incentive Units that are forfeited by an individual employee revert to the founding senior managers of Predecessor Resolute and, therefore, the number of Tier II through V Incentive Units is not expected to change.

On June 27, 2007, Holdings made a capital distribution of \$100 million to its equity owners from the proceeds of the Second Lien Facility. This distribution caused both the Tier I payout to be realized and the Tier I Incentive Units to vest. As a result of the distribution, management determined that it was probable that Tiers II-V incentive unit payouts would be achieved.

Predecessor Resolute recorded \$1.9 million of equity based compensation expense in general and administrative expense in the combined statements of operations for the six months ended June 30, 2009.

Predecessor Resolute amortizes the estimated fair value of the Incentive Units over the remaining estimated vesting period using the straight-line method. The estimated weighted average fair value remaining of the Incentive Units was calculated using a discounted future net cash flows model. No Incentive Units vested during the six months ended June 30, 2009.

Table of Contents

At June 30, 2009, there were 17,797,801 incentive units outstanding, of which 6,190,539 were not vested and have a weighted average grant date fair value of \$2.08 per unit. There were no grants or forfeitures during the six months ended June 30, 2009.

Note 9 Derivative Instruments

Predecessor Resolute enters into commodity derivative contracts to manage its exposure to oil and gas price volatility. Predecessor Resolute has not elected to designate derivative instruments as cash flow hedges under the provisions of FASB ASC Topic 815, *Derivatives and Hedging*. As a result, these derivative instruments are marked to market at the end of each reporting period and changes in the fair value are recorded in the accompanying combined statements of operations. Realized and unrealized gains and losses from Predecessor Resolute's price risk management activities are recognized in other income (expense), with realized gains and losses recognized in the period in which the related production is sold. The cash flows from derivatives are reported as cash flows from operating activities unless the derivative contract is deemed to contain a financing element. Derivatives deemed to contain a financing element are reported as financing activities in the statement of cash flows. Commodity derivative contracts may take the form of futures contracts, swaps or options.

As of June 30, 2009, Predecessor Resolute had entered into certain commodity swap contracts. The following table represents Predecessor Resolute's commodity swaps at June 30, 2009 with respect to its estimated oil and gas production from proved developed producing properties through 2013:

Year	Bbl per Day	Oil (NYMEX WTI) Weighted Average Hedge Price per	MMBtu per Day	Gas (NYMEX HH) Weighted Average Hedge Price per
		Bbl		MMBtu
2009	3,900	\$ 62.75	1,800	\$ 9.93
2010	3,650	\$ 57.83	3,800	\$ 9.69
2011	3,250	\$ 68.26	2,750	\$ 9.32
2012	3,250	\$ 68.26	2,100	\$ 7.42
2013	2,000	\$ 60.47	1,900	\$ 7.40

Predecessor Resolute also used basis swaps in connection with gas swaps in order to fix the price differential between the NYMEX Henry Hub price and the index price at which the gas production is sold. The table below sets forth Predecessor Resolute's outstanding basis swaps as of June 30, 2009.

Year	Index	MMBtu per Day	Weighted Average Hedged Price Differential per
			MMBtu
2009 - 2013	Rocky Mountain NWPL	1,800	\$ 2.10

As of June 30, 2009, Predecessor Resolute had entered into certain commodity collar contracts. The following table represents Predecessor Resolute's commodity collars at June 30, 2009 with respect to its estimated oil and gas production from proved developed producing properties:

Year	Bbl per Day	Oil (NYMEX WTI) Weighted Average Hedge Price per Bbl	MMBtu per Day	Gas (NYMEX HH) Weighted Average Hedge Price per MMBtu
2009	250	\$ 105.00-151.00	3,288	\$ 5.00-9.35
2010	200	\$ 105.00-151.00		

The table below summarizes the location and amount of commodity derivative instrument gains and losses reported in the combined statements of operations for the periods presented below (in thousands):

	Three Months Ended June 30, 2009	Six Months Ended June 30, 2009
Other income (expense)		
Realized gains	\$ 3,718	\$ 14,039
Unrealized losses	(54,894)	(55,355)
Total: gain on derivative instruments	\$ (51,176)	\$ (41,316)

Table of Contents**Note 10 Fair Value Measurements**

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* clarifies the definition of fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Predecessor Resolute fully adopted FASB ASC Topic 820 as of January 1, 2009. The full adoption did not have a material impact on Predecessor Resolute's combined financial statements or its disclosures.

FASB ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exact price) in an orderly transaction between market participants at the measurement date. The statement establishes market or observable inputs as the preferred sources of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. The statement establishes a hierarchy for grouping these assets and liabilities, based on the significance level of the following inputs:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Significant inputs to the valuation model are unobservable.

An asset or liability subject to the fair value requirements is categorized within the hierarchy based on the lowest level of input that is significant to the fair value measurement. Predecessor Resolute's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Following is a description of the valuation methodologies used by Predecessor Resolute as well as the general classification of such instruments pursuant to the hierarchy.

As of June 30, 2009, Predecessor Resolute's commodity derivative instruments were required to be measured at fair value. Predecessor Resolute used the income approach in determining the fair value of its derivative instruments, utilizing present value techniques for valuing its swaps and basis swaps and option-pricing models for valuing its collars. Inputs to these valuation techniques include published forward index prices, volatilities, and credit risk considerations, including the incorporation of published interest rates and credit spreads. Substantially all of these inputs are observable in the marketplace throughout the full term of the contract, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace and are therefore designated as Level 2 within the valuation hierarchy.

Note 11 Commitments and Contingencies**CO₂ Take-or-Pay Agreements**

Predecessor Resolute entered into two take-or-pay purchase agreements, each with a different supplier, under which Predecessor Resolute has committed to buy specified volumes of CO₂. The purchased CO₂ is for use in Predecessor Resolute's tertiary enhanced recovery projects in Aneth Field. In each case, Predecessor Resolute is obligated to purchase a minimum daily volume of CO₂ or pay for any deficiencies at the price in effect when delivery was to have occurred. The CO₂ volumes planned for use on the enhanced recovery projects exceed the minimum daily volumes provided in this take-or-pay purchase agreement. Therefore, Predecessor Resolute expects to avoid any payments for deficiencies.

One contract was effective July 1, 2006, with a four year term. As of June 30, 2009, future commitments under this purchase agreement amounted to approximately \$3.3 million, based on prices in effect at June 30, 2009. The second contract was entered into on May 25, 2005, was amended on July 1, 2007, and had a ten year term. Future commitments under this purchase agreement amounted to approximately \$36.8 million through June 2016 based on prices in effect on June 30, 2009. The annual minimum obligation by year is as follows:

Year	Commitments (millions)
2009	\$ 6.0
2010	9.8

Edgar Filing: Resolute Energy Corp - Form 424B3

2011	7.5
2012	5.9
2013	5.7
Thereafter	5.3
Total	\$ 40.2

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

References to the Company, us or we refer to Resolute Energy Corporation (Resolute), a corporation formed to consummate a business combination on September 25, 2009 (the Acquisition Date), between Hicks Acquisition Company I, Inc. (HACI), Resolute and Resolute Holdings Sub, LLC. Predecessor Resolute refers to Resolute Natural Resources Company, LLC (Resources), WYNR, LLC (WYNR), BWNR, LLC (BWNR), RNRC Holdings, Inc. (RNRC), and Resolute Wyoming, Inc. (RWI) (formerly known as Primary Natural Resources, Inc. (PNR)), and Resolute Aneth, LLC (Aneth) (the Resolute Transaction).

The following discussion and analysis should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2009, as well as with the financial statements and related notes thereto contained elsewhere in this report. Due to the nature of the Resolute Transaction, two sets of financial statements are presented in this Form 10-Q. The first set covers the reporting company, Resolute, for the three and six month periods ended June 30, 2010 and the historical operations of HACI for the three and six months periods ended June 30, 2009. The second set covers the predecessor company, Predecessor Resolute, for the three and six month periods ended June 30, 2009. The following discussion is presented in one combined section relating to the business of Resolute for the periods ended June 30, 2010 and the comparative data with respect to Predecessor Resolute and HACI for the periods ended June 30, 2009.

Overview

Resolute is an independent oil and gas company engaged in the acquisition, exploration, development and production of oil, gas and hydrocarbon liquids. Resolute's strategy is to grow through acquisition, exploration, exploitation and industry standard enhanced oil recovery projects.

Resolute focuses its efforts on increasing reserves and production while controlling costs at a level that is appropriate for long-term operations. Resolute's future earnings and cash flow from existing operations are dependent on a variety of factors including commodity prices, exploitation and recovery activities and its ability to manage its overall cost structure at a level that allows for profitable production.

Resolute's management uses a variety of financial and operational measurements to analyze its operating performance. These measurements include: (i) production levels, trends and prices, (ii) reserve and production volumes and trends, (iii) operating expenses and general and administrative expenses, (iv) operating cash flow and (v) EBITDA. The analysis of these measurements are to be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in Resolute's Annual Report on Form 10-K for the year ended December 31, 2009.

Factors That Significantly Affect Resolute's Financial Results

Revenue, cash flow from operations and future growth depend substantially on factors beyond Resolute's control, such as economic, political and regulatory developments and competition from other sources of energy. Crude oil prices have historically been volatile and may be expected to fluctuate widely in the future. Sustained periods of low prices for crude oil could materially and adversely affect Resolute's financial position, its results of operations, the quantities of oil and gas that it can economically produce, and its ability to obtain capital.

Like all businesses engaged in the exploration for and production of oil and gas, Resolute faces the challenge of natural production declines. As initial reservoir pressures are depleted, oil and gas production from a given well decreases. Thus, an oil and gas exploration and production company depletes part of its asset base with each unit of oil or gas it produces. Resolute attempts to overcome this natural decline by implementing secondary and tertiary recovery techniques and by acquiring or discovering more reserves than it produces. Resolute's future growth will depend on its ability to enhance production levels from existing reserves and to continue to add reserves in excess of production. Resolute will maintain its focus on costs necessary to produce its reserves as well as the costs necessary to add reserves through production enhancement, drilling and acquisitions. Resolute's ability to make capital expenditures to increase production from existing reserves and to acquire more reserves is dependent on availability of capital resources, and can be limited by many factors, including the ability to obtain capital in a cost-effective manner and to timely obtain permits and regulatory approvals.

Results of Operations

Through September 24, 2009, HACI's efforts had been primarily limited to organizational activities, activities relating to its initial public offering, activities relating to identifying and evaluating prospective acquisition candidates, and activities relating to general corporate matters; HACI had not generated any revenue, other than interest income earned on the proceeds of its initial public offering.

- 23 -

Table of Contents

For the purposes of management's discussion and analysis of results of operations of Resolute, management has analyzed the Company's operational results for the three and six months ended June 30, 2010, in comparison to the three and six months ended June 30, 2009 of Predecessor Resolute, except where indicated.

The following tables reflect the components of our production and sales prices and sets forth our costs and expenses on a barrels of oil equivalent (Boe) basis for the three and six months ended June 30, 2010 and 2009 for Resolute and Predecessor Resolute, respectively.

	Resolute Three Months Ended June 30, 2010 2009		Predecessor Resolute Three Months Ended June 30, 2009
Net Sales:			
Total sales (MBoe)	661		679
Average daily sales (Boe/d)	7,266		7,464
Average Sales Price (\$/Boe):			
Average sales price (excluding derivative settlements)	\$ 61.46		\$ 44.21
Average sales price (including derivative settlements)	59.32		49.68
Operating Expenses (\$/Boe):			
Lease operating	\$ 18.44		\$ 16.86
Production and ad valorem taxes	8.79		5.67
General and administrative	5.80		2.53
General and administrative (excluding non-cash compensation expense)	3.73		1.12
Depletion, depreciation, amortization and accretion	16.97		11.39
	Resolute Six Months Ended June 30, 2010 2009		Predecessor Resolute Six Months Ended June 30, 2009
Net Sales:			
Total sales (MBoe)	1,297		1,372
Average daily sales (Boe/d)	7,164		7,578
Average Sales Price (\$/Boe):			
Average sales price (excluding derivative settlements)	\$ 63.06		\$ 38.29
Average sales price (including derivative settlements)	60.32		47.03
Operating Expenses (\$/Boe):			
Lease operating	\$ 19.60		\$ 17.69
Production and ad valorem taxes	9.36		5.35
General and administrative	5.00		2.81
General and administrative (excluding non-cash compensation expense)	3.81		1.41
Depletion, depreciation, amortization and accretion	16.91		11.63

Comparison of Quarter Ended June 30, 2010 to Quarter Ended June 30, 2009

Revenue. Revenue from oil and gas activities increased to \$40.6 million during 2010, from \$30.0 million during 2009. Total production decreased 2.7% during 2010 as compared to 2009, from 679 MBoe to 661 MBoe. In addition to natural production declines, the overall production decrease was partially attributed to compression failure at the Western Gas Resources Hilight Plant and the fact that the Company continues to maintain more than 50% of its coalbed methane production shut in due to uneconomic product prices for that gas. Another significant contributing factor was that, for most of 2009, the Company curtailed its capital programs due to low product prices and the Company's limited financial liquidity. Had those capital projects not been curtailed, results therefrom could have contributed production to help offset the normal production declines in the Company's producing fields. Management estimates that production constraints at the Hilight plant resulted in a reduction in production volumes of approximately 5.8 MBoe, or 64 Boe per day during the quarter ended June 30, 2010, as compared to what the field was capable of producing if unconstrained. Resolute has been advised by the operator of the Hilight Plant that full restoration of compression availability is expected to occur prior to September 30, 2010.

- 24 -

Table of Contents

The production decrease was more than offset by an increase in average sales price, excluding derivatives settlements, from \$44.21 per Boe in 2009 to \$61.46 per Boe in 2010.

Operating Expenses. Lease operating expenses include labor, field office rent, vehicle expenses, supervision, transportation, minor maintenance, tools and supplies, workover expenses, and other customary charges. Resolute and Predecessor Resolute assess lease operating expenses in part by monitoring the expenses in relation to production volumes and the number of wells operated.

Lease operating expenses increased to \$12.2 million during 2010, from \$11.5 million during 2009. The \$0.7 million, or 6.1%, increase, was attributable to increases in company labor, equipment and maintenance costs, utilities and fuel, compression and gathering, and workover expense and was offset by a decrease in contract labor.

Production and ad valorem taxes increased to \$5.8 million during 2010, from \$3.8 million during 2009. The \$2.0 million, or 52.6%, increase was primarily attributable to the 35.4% increase in revenue. Additionally, production and ad valorem taxes were 14.3% of total revenue in 2010 as compared to 12.8% of total revenue in 2009. The remainder of the increase in the 2010 expense results from higher estimated ad valorem taxes in 2010 as compared to 2009.

Depletion, depreciation, amortization and accretion expenses increased to \$11.2 million during 2010, as compared to \$7.7 million during 2009. The \$3.5 million, or 45.5%, increase is principally due to an increase in the depletion, depreciation and amortization rate from \$11.39 per Boe in 2009 to \$16.97 per Boe in 2010, which reflects the higher carrying value of proved oil and gas properties in 2010 as a result of the Resolute Transaction at September 25, 2009.

Pursuant to full cost accounting rules, Resolute performs a ceiling test each quarter on its proved oil and gas assets. There were no provisions for impairment of oil and gas property in 2010 for Resolute or in 2009 for Predecessor Resolute.

General and administrative expenses include the costs of employees and executive officers, related benefits, office leases, professional fees and other costs not directly associated with field operations. Resolute and Predecessor Resolute monitor general and administrative expenses in relation to the amount of production and the number of wells operated.

General and administrative expenses for Resolute increased to \$3.8 million during 2010, as compared to \$1.7 million during 2009. The \$2.1 million, or 124.0%, increase in general and administrative expenses principally resulted from a \$0.6 million increase in professional services and consulting fees, an increase of \$0.8 million in personnel costs, and a \$0.4 million increase in stock based compensation.

Other Income (Expense). All oil and gas derivative instruments are accounted for under mark-to-market accounting rules, which provide for the fair value of the contracts to be reflected as either an asset or a liability on the balance sheet. The change in the fair value during an accounting period is reflected in the income statement for that period. During 2010, the gain on oil and gas derivatives was \$24.2 million, consisting of \$25.6 million of unrealized gains less \$1.4 million of realized losses on derivative settlements. During 2009, the loss on oil and gas derivatives was \$51.2 million, consisting of unrealized losses of \$54.9 million offset by \$3.7 million of realized gains.

Interest expense was \$1.3 million during 2010, as compared to \$6.0 million during 2009. The \$4.7 million, or 78.3%, decrease is attributable to a 72.3% reduction in average outstanding borrowings and lower interest rates.

Income Tax Benefit (Expense). Income tax expense recognized during 2010 was \$11.5 million, or 37.6% of income before income taxes, as compared to an income tax benefit of \$41,000, or 34.2% of loss before income taxes, for Resolute in 2009. The change in the effective rate reflects the differing tax jurisdictions in which Resolute operates following the Resolute Transaction.

Comparison of Six Months Ended June 30, 2010 to Six Months Ended June 30, 2009

Revenue. Revenue from oil and gas activities increased to \$81.8 million during 2010, from \$52.5 million during 2009. Total production decreased 5.5% during 2010 as compared to 2009, from 1,372 MBoe to 1,297 MBoe. In addition to natural production declines, the overall production decrease was partially attributed to the compression failure at the Western Gas Resources Hilight Plant, the shut-down of a portion of the Company's coalbed methane production in Wyoming, and curtailment of the Company's capital programs due to low product prices and the Company's limited financial liquidity. Management estimates that production constraints at the Hilight plant resulted in a reduction in production volumes of approximately 21.9 MBoe, or 121 Boe per day during the six months ended

June 30, 2010, as compared to what the field was capable of producing if unconstrained.

The production decrease was more than offset by an increase in average sales price, excluding derivatives settlements, from \$38.29 per Boe in 2009 to \$63.06 per Boe in 2010.

- 25 -

Table of Contents

Operating Expenses. Lease operating expenses increased to \$25.4 million during 2010, from \$24.3 million during 2009. The \$1.1 million, or 4.5%, increase, was attributable to increases in company labor, equipment and maintenance costs, utilities and fuel, and workover expense, offset by decreases in contract labor and compression, gathering and other costs.

Production and ad valorem taxes increased to \$12.1 million during 2010, from \$7.3 million during 2009. The \$4.8 million, or 65.8%, increase was primarily attributable to the 55.8% increase in revenue. Additionally, production and ad valorem taxes were 14.8% of total revenue in 2010, compared to 14.0% of total revenue in 2009. The remainder of the increase in the 2010 expense results from higher estimated ad valorem taxes in 2010 as compared to 2009.

Depletion, depreciation, amortization and accretion expenses increased to \$21.9 million during 2010, as compared to \$15.9 million during 2009. The \$6.0 million, or 37.7%, increase is principally due to an increase in the depletion, depreciation and amortization rate from \$11.63 per Boe in 2009 to \$16.91 per Boe in 2010, which reflects the higher carrying value of proved oil and gas properties in 2010 as a result of the Resolute Transaction at September 25, 2009.

Predecessor Resolute included a ceiling test provision for impairment of oil and gas property costs in 2009 of \$13.3 million. There was no provision for impairment of oil and gas property in 2010 for Resolute.

General and administrative expenses for Resolute increased to \$6.5 million during 2010, as compared to \$3.9 million during 2009. The \$2.6 million, or 67.7%, increase in general and administrative expenses principally resulted from a \$1.4 million increase in professional services and consulting fees, an increase of \$1.0 million in personnel costs, a \$0.6 million increase in corporate overhead and a \$0.4 million decrease in stock based compensation.

Other Income (Expense). All oil and gas derivative instruments are accounted for under mark-to-market accounting rules, which provide for the fair value of the contracts to be reflected as either an asset or a liability on the balance sheet. The change in the fair value during an accounting period is reflected in the income statement for that period. During 2010, the gain on oil and gas derivatives was \$24.4 million, consisting of \$28.0 million of unrealized gains less \$3.6 million of realized losses on derivative settlements. During 2009, the loss on oil and gas derivatives was \$41.3 million, consisting of unrealized losses of \$55.4 million offset by \$14.1 million of realized gains.

Interest expense was \$2.4 million during 2010, as compared to \$12.2 million during 2009. The \$9.8 million, or 80.3%, decrease is attributable to a 73.3% reduction in average outstanding borrowings and lower interest rates.

Income Tax Benefit (Expense). Income tax expense recognized during 2010 was \$14.2 million, or 37.3% of income before income taxes, as compared to income tax benefit of \$1.2 million, or 34.0% of loss before income taxes, for Resolute in 2009. The change in the effective rate reflects the differing tax jurisdictions in which Resolute operates in following the Resolute Transaction.

Liquidity and Capital Resources

Resolute's primary sources of liquidity are cash generated from operations and amounts available under its revolving Credit Facility.

For the purposes of management's discussion and analysis of liquidity and capital resources, management has analyzed the cash flows and capital resources for the six months ended June 30, 2010 for Resolute in comparison to the six months ended June 30, 2009 for Resolute and Predecessor Resolute.

	Resolute Six Months Ended June 30, 2010 2009		Predecessor Resolute Six Months Ended June 30, 2009
	(in thousands)		(in thousands)
Cash provided by (used in) operating activities	\$ 26,018	\$ (1,066)	\$ 13,122
Cash provided by (used in) investing activities	(30,833)	351	(9,527)
Cash provided by (used in) financing activities	5,437		(4,827)

Net cash provided by operating activities was \$26.0 million for the first six months of 2010 compared to \$13.1 million for the comparable six months of 2009. Cash flows from operating activities in 2010 reflected a change from a net loss in 2009 to net income in 2010.

Resolute plans to reinvest a sufficient amount of its cash flow in its development operations in order to maintain its production over the long term, and plans to use external financing sources as well as cash flow from operations and cash reserves to increase its production.

- 26 -

Table of Contents

Net cash used in investing activities was \$30.8 million for the six months in 2010 compared to net cash used of \$9.5 million in 2009. The primary investing activities for the six months of 2010 and 2009 were capital expenditures of \$29.2 million and \$8.0 million, respectively. The 2010 capital expenditures were comprised of \$18.0 million in leasehold costs as a result of the acquisition of undeveloped leasehold acreage in Williams County, North Dakota, \$7.0 million in CO₂ acquisition and \$5.8 million in other capital expenditures.

In March 2010, Resolute agreed to acquire a 47.5% working interest in approximately 61,000 gross leasehold acres in Williams County, North Dakota. As of June 30, 2010, Resolute has acquired interests in a total of 72,500 gross (22,200 net) undeveloped leasehold acres located within the Bakken shale trend of the Williston Basin. Although the Middle Bakken formation will be the primary objective, secondary objectives include the Three Forks, Madison and Red River formations. Resolute expects to participate in drilling three horizontal wells in this area during the latter part of 2010.

Net cash provided by financing activities was \$5.4 million for the six months in 2010 compared to net cash used in financing activities of \$4.8 million for the six months in 2009. The primary financing activities in the first six months of 2010 were \$9.5 million in net bank borrowings less \$4.0 million in deferred financing costs related to the amended credit agreement entered into by the Company on March 30, 2010. Primary financing activities in the six months of 2009 were \$3.6 million in net payments under the Credit Facility.

If cash flow from operating activities does not meet expectations, Resolute may reduce its expected level of capital expenditures and/or fund a portion of its capital expenditures using borrowings under its Credit Facility, issuances of debt and equity securities or from other sources, such as asset sales. There can be no assurance that needed capital will be available on acceptable terms or at all. Resolute's ability to raise funds through the incurrence of additional indebtedness could be limited by the covenants in its credit facility. If Resolute is unable to obtain funds when needed or on acceptable terms, it may not be able to complete acquisitions that may be favorable to it or finance the capital expenditures necessary to maintain production or proved reserves.

Resolute plans to continue its practice of hedging a significant portion of its production through the use of various derivative transactions. Resolute's existing derivative transactions do not qualify as cash flow hedges, and the Company anticipates that future transactions will receive similar accounting treatment. Hedge arrangements are generally settled within five days of the end of the month. As is typical in the oil and gas industry, however, Resolute does not generally receive the proceeds from the sale of its crude oil production until the 20th day of the month following the month of production. As a result, when commodity prices increase above the fixed price in the derivative contracts, Resolute will be required to pay the derivative counterparty the difference between the fixed price in the derivative contract and the market price before receiving the proceeds from the sale of the hedged production. If this occurs, Resolute may use working capital borrowings to fund its operations.

Revolving Credit Facility

Resolute's credit facility is with a syndicate of banks led by Wells Fargo Bank, National Association (the Credit Facility) with Resolute as the borrower. The Credit Facility specifies a maximum borrowing base as periodically determined by the lenders. The determination of the borrowing base takes into consideration the estimated value of Resolute's oil and gas properties in accordance with the lenders' customary practices for oil and gas loans. On March 30, 2010, the Company entered into an amended and restated credit facility agreement. Under the terms of the restated agreement, the borrowing base was increased from \$240.0 million to \$260.0 million and the maturity date was extended to March 2014. At Resolute's option, the outstanding balance under the Credit Facility accrues interest at either (a) the London Interbank Offered Rate, plus a margin which varies from 2.25% to 3.0% or (b) the Alternative Base Rate defined as the greater of (i) the Administrative Agent's Prime Rate, (ii) the Federal Funds Effective Rate plus 0.5%, or (iii) an adjusted London Interbank Offered Rate plus 1%, plus a margin which ranges from 1.25% to 2.0%. Each such margin is based on the level of utilization under the borrowing base. As of June 30, 2010, the weighted average interest rate on the outstanding balance under the Credit Facility was 3.18%.

The borrowing base is re-determined semi-annually, and the amount available for borrowing could be increased or decreased as a result of such re-determinations. Under certain circumstances, either Resolute or the lenders may request an interim re-determination. As of June 30, 2010, outstanding borrowings were \$119.1 million and unused availability under the borrowing base was \$137.6 million. The borrowing base availability has been reduced by

\$3.3 million in conjunction with letters of credit issued to vendors at June 30, 2010. To the extent that the borrowing base, as adjusted from time to time, exceeds the outstanding balance, no repayments of principal are required prior to maturity. The Credit Facility is collateralized by substantially all of the proved oil and gas assets of Aneth and RWI, and is guaranteed by Resolute's subsidiaries.

- 27 -

Table of Contents

The Credit Facility includes terms and covenants that place limitations on certain types of activities, the payment of dividends, and require satisfaction of certain financial tests. Resolute was in compliance with all terms and covenants of the Credit Facility at June 30, 2010.

As of August 10, 2010, Resolute had borrowings of \$121.1 million under the borrowing base, resulting in an unused availability of \$135.6 million.

Off Balance Sheet Arrangements

Resolute does not have any off-balance sheet financing arrangements other than operating leases. Resolute has not guaranteed any debt or commitments of other entities or entered into any options on non-financial assets.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**Commodity Price Risk and Hedging Arrangements**

Resolute's major market risk exposure is in the pricing applicable to oil and gas production. Realized pricing on Resolute's unhedged volumes of production is primarily driven by the spot market prices applicable to oil production and the prevailing price for gas. Pricing for oil production has been volatile and unpredictable for several years, and Resolute expects this volatility to continue in the future. The prices Resolute receives for unhedged production depends on many factors outside of Resolute's control.

Resolute periodically hedges a portion of its oil and gas production through swaps, puts, calls, collars and other such agreements. The purpose of the hedges is to provide a measure of stability to Resolute's cash flows in an environment of volatile oil and gas prices and to manage Resolute's exposure to commodity price risk.

Under the terms of Resolute's Credit Facility the form of derivative instruments to be entered into is at Resolute's discretion, not to exceed 85% of its anticipated production from proved developed producing properties, utilizing economic parameters specified in its Credit Facility.

By removing the price volatility from a significant portion of Resolute's oil production, Resolute has mitigated, but not eliminated, the potential effects of changing prices on the cash flow from operations for those periods. While mitigating negative effects of falling commodity prices, certain of these derivative contracts also limit the benefits Resolute would receive from increases in commodity prices. It is Resolute's policy to enter into derivative contracts only with counterparties that are major, creditworthy financial institutions deemed by management as competent and competitive market makers. At June 30, 2010, all of Resolute's counterparties are members of the Credit Facility bank syndicate.

As of June 30, 2010, Resolute had entered into certain commodity swap contracts. The following table represents Resolute's commodity swaps with respect to its oil and gas production through 2013:

Year	Bbl per Day	Oil (NYMEX WTI)		Gas (NYMEX HH)	
		Weighted Average Hedge Price per Bbl	MMBtu per Day	Weighted Average Hedge Price per MMBtu	MMBtu per Day
2010	3,650	\$ 67.24	3,800	\$ 9.69	
2011	3,250	\$ 68.26	2,750	\$ 9.32	
2012	3,250	\$ 68.26	2,100	\$ 7.42	
2013	2,000	\$ 60.47	1,900	\$ 7.40	

Resolute also uses basis swaps in connection with gas swaps in order to fix the price differential between the NYMEX Henry Hub price and the index price at which the gas production is sold. The table below sets forth Resolute's outstanding basis swaps as of June 30, 2010:

Year	Index	MMBtu per Day	Weighted Average Hedged Price Differential per MMBtu
2010 2013	Rocky Mountain NWPL	1,800	\$2.10

Edgar Filing: Resolute Energy Corp - Form 424B3

As of June 30, 2010, Resolute had entered into certain commodity collar contracts. The following table represents Resolute's commodity collars with respect to its oil and production:

Year	Bbl per Day	Oil (NYMEX WTI) Weighted Average Hedge Price per Bbl
2010	200	\$105.00-151.00

- 28 -

Table of Contents

Interest Rate Risk

At June 30, 2010, Resolute has \$119.1 million of outstanding debt. Interest is calculated under the terms of the agreement based on a LIBOR spread. A 10% increase in LIBOR would result in an estimated \$0.1 million increase in annual interest expense. Resolute does not currently intend to enter into any derivative arrangements to protect against fluctuations in interest rates applicable to its outstanding indebtedness.

Credit Risk and Contingent Features in Derivative Instruments

Resolute is exposed to credit risk to the extent of nonperformance by the counterparties in the derivative contracts discussed above. All counterparties are also lenders under Resolute's Credit Facility. For these contracts, Resolute is not required to provide any credit support to its counterparties other than cross collateralization with the properties securing the Credit Facility. Resolute's derivative contracts are documented with industry standard contracts known as a Schedule to the Master Agreement and International Swaps and Derivative Association, Inc. Master Agreement (ISDA). Typical terms for the ISDAs include credit support requirements, cross default provisions, termination events, and set-off provisions. Resolute has set-off provisions with its lenders that, in the event of counterparty default, allow Resolute to set-off amounts owed under the Credit Facility or other general obligations against amounts owed for derivative contract liabilities.

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the participation of Nicholas J. Sutton, our Chief Executive Officer, and Theodore Gazulis, our Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2010. Based on the evaluation, those officers have concluded that:

our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There has not been any change in the Company's internal control over financial reporting that occurred during the quarterly period ended June 30, 2010, that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Resolute is not a party to any other material pending legal or governmental proceedings, other than ordinary routine litigation incidental to its business. While the ultimate outcome and impact of any proceeding cannot be predicted with certainty, Resolute's management believes that the resolution of any of its pending proceedings will not have a material adverse effect on its financial condition or results of operations.

ITEM 1A. RISK FACTORS

Information about material risks related to Resolute's business, financial condition and results of operations for the six months ended June 30, 2010, does not materially differ from those set out in Part I, Item 1A of the Annual Report on Form 10-K for the year ended December 31, 2009, except as described below. These risks and those described below are not the only risks facing the Company.

Registration rights held by certain of our stockholders may have an adverse effect on the market price of our common stock.

The Company's recently effective Registration Statement on Form S-1 (File No. 333-167894) (the "Registration Statement") registered for resale 12,859,193 shares of Company common stock by certain selling stockholders identified therein (the "Resale Shares"). The sale of the Resale Shares in the public market pursuant to the Registration Statement could adversely affect the market price of our common stock or impact our ability to raise additional equity capital.

In addition under a Registration Rights Agreement entered into in connection with the Resolute Transaction, holders of registrable securities have the right to demand registration under the Securities Act of all or a portion of their registrable securities subject to amount and time limitations. Holders of the registrable securities may demand four registrations. Additionally, whenever (i) we propose to register any of our securities under the Securities Act and (ii) the method we select would permit the registration of registrable securities, holder of registrable securities have the right to request the inclusion of their registrable securities in such registration. The resale of these shares in the public market upon exercise of the registration rights described above may also adversely affect the market price of our common stock or impact our ability to raise additional equity capital. Parties to the Registration Rights Agreement have right to request registration of (i) shares representing 24.6% of our outstanding common stock at June 30, 2010, and (ii) an additional 20,800,000 shares purchasable on exercise of outstanding warrants.

Exhibit 10.1

June 1, 2010

Mr. Dale E. Cantwell
669 Emerson Street
Denver, Colorado 80218

Dear Dale:

This letter agreement (the ***Letter Agreement***) sets forth the terms and conditions of your consulting arrangement with Resolute Energy Corporation, a Delaware corporation (***Resolute***). You will serve Resolute in a consulting capacity for a period commencing on June 1, 2010 and continuing for up to 12 months (the ***Consulting Term***). Notwithstanding the Consulting Term, you or Resolute may terminate this consulting arrangement at any time, for any reason or no reason, upon written notice.

During the Consulting Term, you will consult with and advise Resolute as requested by the President or CEO with respect to the following matters with the ultimate goal of mentoring and training Resolute employees to completely handle all projects (the ***Consulting Services***):

You will continue to have a major role in the CO₂ compression reconfiguration and gas plant project in the Aneth and McElmo Units of Greater Aneth Field. This will be your major focus and you will work with Vice President of Operations and the senior members of the project team to (i) bring the Aneth Unit portion of Phase I of this project to substantial completion, (ii) to advance the McElmo Creek Unit portion of Phase 1 to the beginning of major construction point, and (iii) to advance substantially the gas plant engineering and planning. As part of this effort, you will assist in the recruiting of the additional senior personnel needed to successfully pursue the project.

You will continue to work on the potential joint venture and/or marketing arrangements with Kinder Morgan regarding the compression and plant facilities to be constructed in the Greater Aneth Field, and the natural gas to be separated at such facilities.

You will continue to assist on crude oil, natural gas and natural gas liquids marketing strategies, and you will help train Pat Flynn in these areas.

You will continue to assist with respect to CO₂ procurement and contracting strategies.

You will provide context and history as requested regarding past practices and operating decisions generally.

You will assist and consult on other matters as mutually agreed upon.

Your status while performing the Consulting Services will be that of an independent contractor and not that of an employee of Resolute. No income tax or payroll tax will be withheld or paid by the Company on your behalf for any payment under this Agreement, except as may be required by law for payments to independent contractors. You will be responsible for payment of your estimated federal, state and local income taxes, self-employment taxes, social security

Page 2

taxes and any other taxes, fees and withholdings that may accrue relative to your compensation hereunder. You must obtain and keep current, at your own expense, all permits, certificates, and licenses necessary for you to perform the Consulting Services, if any. As of June 1, 2010, you will not be able to participate in Resolute's employee benefit plans, including, without limitation, participation in the Company's 401(k) Plan.

As compensation for the Consulting Services, Resolute shall pay you \$30,000 per month, due and payable monthly on a mutually convenient schedule. In addition, you will be paid a cash bonus of \$300,000 at the end of the Consulting Term provided you have contributed in good faith (recognizing that you do not have control to cause such events to occur) toward the goals of (i) substantially completing the Aneth Unit portion of Phase 1 of the compression reconfiguration by such time, and (ii) bringing to the major construction phase the McElmo Creek portion of such project and advancing the planning for the gas plant project. In the event you are performing the Consulting Services in good faith and Resolute terminates this agreement prior to the end of the Consulting Term then the \$300,000 bonus shall be immediately payable. In addition, Resolute will reimburse you for the reasonable expenses you incur in relation to the Consulting Services.

You shall use your reasonable efforts to exercise the level of care and skill ordinarily exercised by other professional consultants acting under similar circumstances in performing your obligations under this Letter Agreement. Resolute agrees to indemnify you to the same extent officers and directors of Resolute are indemnified under the Amended and Restated Certificate of Incorporation of Resolute and their respective indemnification agreements, for liability, loss and expense that arise out of or relate to you by reason of providing the Consulting Services. You also hereby acknowledge that you remain subject to the terms and conditions of that certain Confidentiality and Noncompete Agreement, by and between you and Resolute Natural Resources Company, dated as of January 23, 2004 (the ***Confidentiality and Noncompete Agreement***). Upon expiration of the Consulting Term or upon termination of this Letter Agreement, you agree to return all Related Parties' Business Records (as such term is defined in the Confidentiality and Noncompete Agreement) in your possession.

You are solely responsible for all of your own insurance and shall at all times maintain such types and amounts of insurance coverage (including liability insurance) as is acceptable or required by Resolute. No workers' compensation insurance or unemployment compensation insurance will be obtained by Resolute on your behalf. You shall solely be responsible for obtaining unemployment compensation insurance and workers' compensation insurance for yourself, and you shall solely be responsible for complying with all applicable workers' compensation and unemployment compensation laws.

Notices. All notices required or permitted under this Agreement shall be in writing and shall be deemed effective upon personal delivery or upon deposit in the United States Post Office, by registered or certified mail, postage prepaid, addressed as follows:

Ms. Janet W. Pasque
7015 South Cook Way
Centennial, Colorado 80122

Dear Janet:

This letter agreement (the ***Letter Agreement***) sets forth the terms and conditions of your consulting arrangement with Resolute Energy Corporation, a Delaware corporation (***Resolute***). You will serve Resolute in a consulting capacity for a period commencing on June 1, 2010 and terminating on December 31, 2010 (the ***Consulting Term***).

Notwithstanding the Consulting Term, you or Resolute may terminate this consulting arrangement at any time, for any reason or no reason, upon written notice.

During the Consulting Term, you will consult with and advise the officers and Board of Directors of Resolute, as requested by them, with respect to (i) executive level support for Resolute's land development, (ii) acquisition and divestiture efforts, (iii) the training and transition of Bill Alleman into the position of Vice President, Land, (iv) the executive search process and hiring of an Acquisitions and Divestitures executive, and (v) any other matters involving Resolute's business and affairs as requested by the CEO or President (the ***Consulting Services***).

Your status while performing services under this Letter Agreement will be that of an independent contractor and not that of an employee of Resolute.

No income tax or payroll tax will be withheld or paid by the Company on your behalf for any payment under this Agreement, except as may be required by law for payments to independent contractors. You will be responsible for payment of your estimated federal, state and local income taxes, self-employment taxes, social security taxes and any other taxes, fees and withholdings that may accrue relative to your compensation hereunder. You must obtain and keep current, at your own expense, all permits, certificates, and licenses necessary for you to perform the Consulting Services, if any. As of June 1, 2010, you will not be able to participate in Resolute's employee benefit plans, including, without limitation, participation in the Company's 401(k) Plan.

As compensation for the Consulting Services, Resolute shall pay you \$30,000 per month, due and payable monthly on a mutually convenient schedule, for the period during which this Letter Agreement remains in force. Resolute will reimburse you for the reasonable expenses you incur in relation to the Consulting Services. In consideration of your entering into this Agreement, Resolute agrees that you are eligible for a cash bonus under the terms of Resolute's Short Term

Incentive program as described in Resolute's 2010 Proxy Statement pro-rated for the 5/12ths of 2010 that you served as Senior Vice President. If you perform the Consulting Services in good faith, the CEO in his discretion may increase the pro-rating fraction by any amount up to 1. If you are performing the Consulting Services in good faith and Resolute terminates this Agreement prior to the end of the Consulting Term without cause, the pro-rating fraction will automatically be increased to 1.

You hereby agree to use your reasonable efforts to exercise the level of care and skill ordinarily exercised by other professional consultants acting under similar circumstances in performing your obligations under this Letter Agreement. Resolute agrees to indemnify you to the same extent officers and directors of Resolute are indemnified under the Amended and Restated Certificate of Incorporation of Resolute and their respective indemnification agreements, for liability, loss and expense that arise out of or relate to you by reason of providing the Consulting Services. You also hereby acknowledge that you remain subject to the terms and conditions of that certain Confidentiality and Noncompete Agreement, by and between you and Resolute Natural Resources Company, dated as of January 23, 2004 (the ***Confidentiality and Noncompete Agreement***). Upon expiration of the Consulting Term or upon termination of this Letter Agreement, you agree to return all Related Parties' Business Records (as such term is defined in the Confidentiality and Noncompete Agreement) in your possession.

You are solely responsible for all of your own insurance and shall at all times maintain such types and amounts of insurance coverage (including liability insurance) as is acceptable or required by Resolute. No workers' compensation insurance or unemployment compensation insurance will be obtained by Resolute on your behalf. You shall solely be responsible for obtaining unemployment compensation insurance and workers' compensation insurance for yourself, and you shall solely be responsible for complying with all applicable workers' compensation and unemployment compensation laws.

All notices required or permitted under this Agreement shall be in writing and shall be deemed effective upon personal delivery or upon deposit in the United States Post Office, by registered or certified mail, postage prepaid, addressed as follows:

Resolute:

Resolute Energy Corporation
1675 Broadway, Suite 1950
Denver, Colorado 80202

Consultant:

Janet W. Pasque
7015 South Cook Way
Centennial, Colorado 80122

This Letter Agreement and the Confidentiality and Noncompete Agreement embody the complete agreement and understanding among the parties regarding the Consulting Services. This Letter Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Delaware without regard to conflict of law principles thereunder.

**CERTIFICATION OF THE CHIEF EXECUTIVE OFFICER
PURSUANT TO**

SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Nicholas J. Sutton, Chief Executive Officer of Resolute Energy Corporation, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Resolute Energy Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Resolute Energy Corporation (the Company) on Form 10-Q for the period ended June 30, 2010, as filed with the Securities and Exchange Commission on the date hereof (the Report), the undersigned hereby certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- 1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- 2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
