RIVIERA TOOL CO  
Form 424B2  
August 17, 2006

FILED PURSUANT TO RULE 424(b)(2)  
REGISTRATION NO. 333-126659

SUBJECT TO COMPLETION, DATED AUGUST 11, 2006

INFORMATION CONTAINED HEREIN IS SUBJECT TO COMPLETION OR AMENDMENT. A REGISTRATION STATEMENT RELATING TO THESE SECURITIES HAS BEEN FILED WITH THE SECURITIES AND EXCHANGE COMMISSION. THESE SECURITIES MAY NOT BE SOLD NOR MAY OFFERS TO BUY BE ACCEPTED PRIOR TO THE TIME THE REGISTRATION STATEMENT BECOMES EFFECTIVE. THIS PROSPECTUS SHALL NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY NOR SHALL THERE BE ANY SALE OF THESE SECURITIES IN ANY STATE IN WHICH SUCH OFFER, SOLICITATION OR SALE WOULD BE UNLAWFUL PRIOR TO REGISTRATION OR QUALIFICATION UNDER THE SECURITIES LAWS OF ANY SUCH STATE.

SUBJECT TO COMPLETION  
DATED AUGUST 11, 2006

PROSPECTUS

RIVIERA TOOL COMPANY

3,256,791 SHARES OF COMMON STOCK

(NO PAR VALUE)

-----

This prospectus relates to the sale by Laurus Master Fund, Ltd. ("Laurus") of up to 3,256,791 shares of our common stock consisting of:

- 1,204,820 shares of our common stock issuable by us to Laurus upon exercise by Laurus of the outstanding conversion rights pursuant to a convertible minimum borrowing note,
- 1,401,971 shares of common stock issuable by us to Laurus upon exercise by Laurus of the outstanding conversion rights pursuant to a convertible term note; and
- 650,000 shares of our common stock issuable by us to Laurus upon exercise by Laurus of the outstanding option rights.

The methods of sale of the common stock offered hereby are described under the heading "Plan of Distribution" on page 37. Except with respect to the exercise of the outstanding option rights during the exercise period, we will receive none of the proceeds from the sale of any of the common stock to which this prospectus relates. See "Use of Proceeds and Expenses of the Offering" on page 9. Except for brokerage expenses, fees, discounts and commissions, which will all be paid by Laurus, we will pay all expenses incurred in connection with the offering described in this prospectus.

The prices at which Laurus may sell the shares of common stock that are part of this offering will be determined by the prevailing market price for the shares at the time the shares are sold, a price related to the prevailing market price, at negotiated prices or prices determined, from time to time, by Laurus. See "Plan of Distribution" on page 37.

Our common stock is listed on the American Stock Exchange (Symbol: RTC). On August 9, 2006, the closing price of the shares was \$ .49 per share.

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

See "Market Prices of Riviera Tool Common Stock" on page 11.

THE SHARES OF OUR COMMON STOCK OFFERED OR SOLD UNDER THIS PROSPECTUS INVOLVE A HIGH DEGREE OF RISK. SEE "RISK FACTORS" BEGINNING ON PAGE 4.

-----

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

THE OFFERING

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

### GENERAL

The registration statement of which this prospectus is a part relates to the sale of shares of our common stock issuable to Laurus Master Fund, Ltd. ("Laurus"). Specifically, the shares of our common stock included in this offering consist of:

- 1,204,820 shares of our common stock issuable upon conversion of the convertible minimum borrowing note, issued to Laurus with a conversion price of \$1.66 per share;
- 1,401,971 shares of our common stock issuable upon conversion of the convertible term note, issued to Laurus with a conversion price of \$1.66 per share; and
- 650,000 shares of our common stock issuable upon exercise of an option, issued to Laurus with an exercise price of \$0.01 per share.

On May 17, 2005, Laurus entered into a securities purchase agreement (the "Securities Purchase Agreement") and a security agreement (the "Loan Agreement", and together with the Securities Purchase Agreement, the "Agreements") with us pursuant to which Laurus may convert, subject to certain limitations, the term loan and the revolving loans made thereunder into our common stock at Laurus' option any time up to maturity at a conversion price of \$1.66 per share. Further pursuant to the Securities Purchase Agreement, we agreed to issue Laurus the option to purchase 650,000 shares of our common stock at an exercise price of \$0.01 per share.

On December 9, 2005, we entered into an Omnibus Amendment with Laurus amending the term "Fixed Conversion Price" with respect to the convertible minimum borrowing note. The term "Fixed Conversion Price," with respect solely to the convertible minimum borrowing note, was amended as follows:

"The initial Fixed Conversion Price means \$1.66; provided, however, that in respect of the first \$150,000 of aggregate principal amount (the "Initial Converted Amount") of the Term Note converted into shares of our common stock, the Fixed Conversion Price in respect of such Initial Converted Amount (and the interest and fees associated therewith to the extent converted) shall be equal to \$0.55."

Accordingly, on December 9, 2005, 277,727 shares of our common stock were issued to Laurus in connection with such conversion of principal under the convertible minimum borrowing note.

Had Laurus exercised its conversion rights and option rights in full on August 10, 2006 it would have received 3,256,791 shares of our common stock representing 43% of our outstanding shares of common stock, and been able to offer for resale a total of 3,256,791 shares of our common stock. Under the terms of the Agreements, the number of shares to be obtained by Laurus upon exercise of the conversion rights and option rights held by Laurus cannot exceed the number of shares that, when combined with all other shares of common stock and securities then owned by Laurus, would result in Laurus owning more than 4.99% (212,454 shares) of our outstanding common stock at any given point of time (or 19.99%, or 851,094 shares, in the event that such limitation is suspended upon the occurrence of an "event of default" as defined under the Agreements or any other related agreements). See "Recently Issued Securities" on page 10.

We received net proceeds at the closing in the amount of \$1,212,526.90, after extinguishing indebtedness owed to Comerica Bank ("Comerica") and The HillStreet Fund II, L.P. ("HillStreet") and deducting

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

certain legal fees and expenses associated with the Laurus transactions. We will not receive any of the proceeds from the sale of the shares offered by Laurus. We will receive a maximum of approximately \$6,500 from the exercise of the option rights, assuming all of the options are exercised for cash and in full, of which there can be no assurance. Any proceeds received by us in connection with the exercise of the option rights will be used for working capital and general corporate purposes.

Neither Laurus nor any of its officers, directors or affiliates is an officer, director or affiliate of us, and none of our officers or directors are related to, or, except in connection with the revolving credit facility, has any business relationship with, Laurus.

The conversion and exercise prices for the conversion and option rights issued by us were a function of the market price for our common stock at or about the time each transaction was consummated, computed on the basis of the average high and low prices per share of our common stock on the American Stock Exchange for the ten days ending on May 16, 2005, as quoted on Bloomberg, and arms length negotiations with Laurus.

1

The conversion rights and option rights are exercisable at any time until the maturity date of the term loan and revolving loans. Adjustments in the price and number of common shares issued to Laurus pursuant to the conversion rights and option rights may be made under any of the following circumstances:

- if we, at any time while the conversion rights and option rights are unexpired and not exercised in full, by reclassification or otherwise, change the common stock into the same or a different number of securities of any class or classes;
- if we, at any time while the conversion rights and option rights are unexpired and not exercised in full, subdivide outstanding shares of our common stock into a greater number of shares;
- if we, at any time while the conversion rights and option rights are unexpired and not exercised in full, combine outstanding shares of our common stock into a smaller number of shares of common stock; and
- if we, at any time while the conversion rights and option rights are unexpired and not exercised in full, issue any shares of our common stock or securities convertible into common stock to a person other than Laurus (except as listed in the bullet points above or pursuant to options that may be issued under any employee incentive stock option and/or any qualified stock option plan adopted by us).

In addition, the exercise price of each of the conversion rights and option rights shall be adjusted for any dilutive issuances whereby the exercise price shall be reduced to the weighted average per share offering price of such dilutive issuance.

On July 7, 2005, we received approval from the American Stock Exchange for listing of an additional 754,492 shares of our common stock, such shares representing the maximum number of shares of our common stock currently issuable to Laurus. We will seek American Stock Exchange approval for the balance of shares issuable in connection with the Agreements at an appropriate time in the future.

Right of First Refusal

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

Prior to the incurrence of any additional indebtedness convertible into common stock, and/or the sale or issuance of any convertible equity interests by us, Laurus shall have a right of first refusal with regard to providing such financing on similar terms. Such right of first refusal shall be implemented in accordance with the Agreements.

### Registration Rights

In connection with the Agreements, we entered into a Registration Rights Agreement with Laurus on May 17, 2005 (the "Registration Rights Agreement") pursuant to which we agreed to provide Laurus with registration rights for their shares of our common stock. Under the terms of the Registration Rights Agreement, we are obligated to file an additional registration statement registering the resale of shares of the common stock issuable upon the exercise of conversion rights granted pursuant to an additional minimum borrowing note evidencing an aggregate principal amount of up to \$2,000,000 of loans made pursuant to an additional minimum borrowing note. If the registration statement is not filed within 60 days following the date of the funding of such additional tranches of loans, or declared effective within 60 days thereafter, or if the registration is suspended other than as permitted in the Registration Rights Agreement, we are obligated to pay Laurus certain fees and certain obligations may be deemed to be in default.

### 4.99% Limitation

Under the terms of our Agreements with Laurus, the number of shares to be obtained upon exercise of the conversion rights or option rights cannot exceed the number of shares that, when combined with all other shares of common stock and securities then owned by Laurus, would result in Laurus owning more than 4.99% of our outstanding common stock at any given point of time (or 19.99% in the event that such limitation is suspended upon the occurrence of an "event of default" under any of the Agreements or any other transaction agreements).

## THE COMPANY

### GENERAL

Riviera Tool Company is a designer and manufacturer of large scale, complex stamping die systems used to form sheet metal parts. Most of the stamping die systems sold by us are used in the production of automobile and truck body parts such as roofs, hoods,

2

fenders, doors, doorframes, structural components and bumpers. We were originally incorporated in 1967, and were incorporated in our present form in 1988, under the laws of the State of Michigan. We maintain our executive offices at 5460 Executive Parkway, SE, Grand Rapids, Michigan 49512. Our telephone number is (616) 698-2100

### RECENT DEVELOPMENTS

#### Change in Independent Auditors

On January 13, 2006, Deloitte & Touche LLP ("D&T") informed us that D&T was resigning as our independent outside auditor. We immediately began our process to find another suitable independent outside auditor and D&T agreed to assist us in our transition to such new independent auditor.

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

The reports of D&T on our financial statements for each of the two fiscal years ended August 31, 2005 and 2004 did not contain an adverse opinion, disclaimer of opinion nor was qualified or modified as to uncertainty, audit scope, or accounting principles, except for the reports were modified to reflect substantial doubt as to our ability to continue as a going concern. In connection with the audits of our financial statements for each of the two fiscal years ended August 31, 2005 and 2004, and through the filing of our Quarterly Report on Form 10-Q for the first quarter of fiscal 2006, there were (1) no disagreements with D&T on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of D&T, would have caused D&T to make reference to the matter in its reports and (2) no reportable events. During each of the two fiscal years ended August 31, 2005 and 2004, and through the filing of our Quarterly Report on Form 10-Q for the first quarter of fiscal 2006, no information is required to be reported under Item 304(a)(1)(v) of Regulation S-K.

On February 14, 2006, our Board of Directors announced the appointment of BDO Seidman, LLP as our independent auditor.

### American Stock Exchange Notification

On February 10, 2006, we received notice from the American Stock Exchange ("Amex") that a review of our Form 10-Q for the first quarter ended November 30, 2005 indicated that we did not meet certain of the Amex's continued listing standards, and we have, therefore, become subject to the procedures and requirements of Section 1009 of the Company Guide. Specifically, we are not in compliance with Section 1003(a)(ii) of the Company Guide with shareholders' equity of less than \$4,000,000 and losses from continuing operations and/or net losses in three of our four most recent fiscal years.

On March 13, 2006, we advised the Amex of action we had taken, or will take, that would bring us into compliance with the continued listing standards identified within a maximum of 18 months of receipt of the notice. The Listing Qualifications Department evaluated the plan and granted us a listing extension enabling us to continue our listing during the plan period up to August 9, 2007. During such time we will be subject to periodic review to determine whether we are making progress consistent with the plan. If we do not show progress consistent with the plan, the Amex will review the circumstances and may immediately commence delisting proceedings.

3

### SUMMARY FINANCIAL DATA

The following selected financial data has been derived from our audited financial statements for each of the years ended August 31, 2001, 2002, 2003, 2004 and 2005. For the operating results for each of the nine-month periods ended May 31, 2005, and 2006 the information is unaudited. In the opinion of management, all necessary adjustments, which consist only of normal and recurring accruals, have been included to fairly present the unaudited quarterly results. The following data should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in this prospectus and the financial statements and notes thereto included in this prospectus.

(amounts in thousands, except per share data)

RISK FACTORS

You should carefully consider the risks described below before deciding whether to invest in shares of our common stock. Any investment in our common stock involves a high degree of risk. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us may also impair our operations and business.

If we do not successfully address any of the risks described below, there could be a material adverse effect on our financial condition, operating results and business, and the trading price of our common stock may decline and you may lose all or part of your investment. We cannot assure you that we will successfully address these risks.

WE HAVE A HISTORY OF OPERATING LOSSES, ANTICIPATE INCURRING LOSSES FOR THE FORESEEABLE FUTURE AND MAY NEVER BECOME PROFITABLE.

For the fiscal year ending August 31, 2005, we had an operating loss of approximately \$2,502,000. For each of the quarterly periods ending November 30, 2005 and February 28, 2006, we had operating losses of approximately \$441,000 and \$135,000, respectively. For the three-month and nine-month periods ended May 31, 2006, we had net income of \$18,000 and net loss of \$558,000, respectively.

The report of our auditors with respect to their examination of our financial statements for the year ended August 31, 2005 contains an explanatory paragraph relating to the preparation of our financial statements on a "going concern" basis, and states that we were not in compliance with our loan agreements, have suffered losses from operations and have a retained deficit that raise a substantial doubt about our ability to continue as a going concern. At August 31, 2005 and May 31, 2006, we had an accumulated deficit of approximately \$13,149,000 and \$13,706,000, respectively. While our management is addressing those conditions which have left substantial doubt about our ability to continue as a going concern, there is no certainty that we will be successful in implementing any of the plans of management to restore us to profitability or to otherwise ensure that we will be able to continue as a going concern.

SHAREHOLDERS MAY SUFFER DILUTION FROM THE EXERCISE OF EXISTING OPTIONS, WARRANTS AND CONVERSION RIGHTS.

Our common stock may become diluted if warrants and options to purchase our common stock are exercised or additional shares are issued upon conversion pursuant to conversion rights by our Senior Lender, Laurus Master Fund, Ltd. ("Laurus"). The number of shares of our common stock that can currently be purchased upon exercise of warrants is 10,000, upon exercise of options is 831,000 (650,000 of these options are those granted to Laurus) and pursuant to conversion rights is 2,606,791. Under the terms of our Agreements with Laurus, the number of shares to be obtained upon exercise of options or pursuant to conversion rights held by Laurus cannot exceed the number of shares that, when combined with all other shares of common stock and securities then owned by Laurus, would result in Laurus owning more than 4.99% of our outstanding common stock at any given point of time (or 19.99% in the event that such limitation is suspended upon the occurrence of an "event of default" under

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

any of the Agreements or any other transaction agreements). See "The Offering" on page 1 for a more complete description of our agreements with Laurus.

These shares, as well as the eligibility for additional restricted shares to be sold in the future, either pursuant to future registrations under the Securities Act, or an exemption such as Rule 144 under the Securities Act, may have a dilutive effect on the market price of our common stock. The terms upon which we will be able to obtain additional equity capital could also be adversely affected. In addition, the sale of common stock offered by this prospectus, or merely the possibility that these sales could occur, could have an adverse effect on the market price of our common stock.

THE INABILITY TO OBTAIN NECESSARY ADDITIONAL CAPITAL IN THE FUTURE ON ACCEPTABLE TERMS COULD DELAY US FROM EXECUTING OUR BUSINESS PLAN OR PREVENT US FROM DOING SO ENTIRELY.

We expect to need additional capital in the future to fund our operations, finance investments in equipment and corporate infrastructure, expand our domestic and global sub-supplier network, increase the range of services we offer and respond to competitive pressures and perceived opportunities. Cash flow from operations and cash on hand may not be sufficient to cover our operating expenses and capital investment needs. We cannot assure you that additional financing will be available on terms acceptable to us, if at all. A failure to obtain additional funding could prevent us from making expenditures that are needed to allow us to grow or maintain our operations. Increases in business can temporarily reduce our working capital due to cash flow lags.

6

If we raise additional funds by selling equity securities, the relative equity ownership of our existing investors could be diluted or the new investors could obtain terms more favorable than previous investors. If we raise additional funds through debt financing, we could incur significant borrowing costs. The failure to obtain additional financing when required could result in us being unable to grow as required to maintain profitable operations.

WE HAVE SIGNIFICANT OUTSTANDING INDEBTEDNESS AND DEBT SERVICE OBLIGATIONS.

In order to finance our operations we have incurred indebtedness. Our credit facility with Laurus is secured by substantially all of our assets. In addition to certain limited financial covenants, our credit facility restricts our ability to incur additional indebtedness or to pledge our assets. As of August 31, 2005 and May 31, 2006, we are in compliance with all of the terms of our credit facility with Laurus. There can be no assurance, however, that we will be able to comply with the terms of this credit facility in the future. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 16 for additional information on our outstanding indebtedness.

Our business is subject to all of the risks associated with substantial leverage, including the risk that available cash may not be adequate to make required payments. Our ability to satisfy outstanding debt obligations from cash flow will be dependent upon our future performance and will be subject to financial, business and other factors, many of which will be beyond our control. In the event that we do not have sufficient cash resources to satisfy our repayment obligations, we would be in default, which would have a material adverse effect on our business. To the extent that we are required to use cash resources to satisfy interest payments to the holders of outstanding debt

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

obligations, we will have fewer resources available for other purposes. There is no assurance that we will not increase our leverage in the future, whether as a result of operational or financial performance, acquisition or otherwise.

AN INCREASE IN INTEREST RATES WOULD INCREASE THE COST OF SERVICING OUR DEBT AND COULD REDUCE OUR PROFITABILITY.

Borrowings under our secured credit facility with Laurus bear or will bear interest at variable rates and expose us to interest rate risk. If interest rates increase, whether because of an increase in market interest rates or an increase in our own cost of borrowing, our debt service obligations for our variable rate indebtedness would increase even though the amount of borrowings remained the same, and our net income could be materially adversely affected. As of August 31, 2005, our total outstanding debt of approximately \$15.8 million included interest rate sensitive debt of approximately \$11.7 million (by its original terms), which had a weighted average interest rate of approximately 8.7% per annum. As of May 31, 2006, outstanding interest rate sensitive debt totaled approximately \$13.3 million, with a weighted average interest rate of approximately 9.7% per annum.

OUR REVENUE WOULD DECLINE SIGNIFICANTLY IF WE LOSE ONE OR MORE OF OUR MOST SIGNIFICANT CUSTOMERS WHICH COULD HAVE A SIGNIFICANT ADVERSE IMPACT ON US.

A significant portion of our revenues are concentrated among a few large customers. For the year ended August 31, 2005, our largest customer represented approximately \$3.4 million or 18% of total revenue, while the next three largest customers represented approximately \$4.8 million or 25% of total revenue. Our three largest customers represented 84% and 63% of total revenue for each of the fiscal years ended 2005 and 2004, respectively. For the three and nine months ended May 31, 2006, our three largest customers represented approximately 60% and 52%, respectively, of total revenues. The loss of any of the foregoing customers could have a significant adverse impact on us.

THERE IS NO ASSURANCE THAT WE WILL REMAIN LISTED ON AN ACTIVE TRADING MARKET.

Although our common stock is quoted on the American Stock Exchange ("Amex"), there can be no assurance that we will, in the future, be able to meet all the requirements for continued quotation thereon. Amex recently approved a plan submitted by us to regain compliance with our continued listing requirements by August 9, 2007. Although we believe we can achieve our plan, there can be no assurance that we can successfully do so. In the absence of an active trading market or if our common stock cannot be traded on the American Stock Exchange, our common stock could instead be traded on the Electronic Bulletin Board or on the Pink Sheets. In such event, the liquidity and stock price in the secondary market may be adversely affected. In addition, in the event our common stock was delisted, broker-dealers have certain regulatory burdens imposed upon them, which may discourage broker-dealers from effecting transactions in our common stock, further limiting the liquidity of our common stock.

7

OUR STOCK PRICE IS VOLATILE.

Our stock price, like that of other small cap companies, is subject to significant volatility because of factors such as quarterly variations in our operating results, changes in revenue or earnings estimates by the investment community and speculation in the press or investment community. In addition, our stock price is affected by unfavorable global economic and market conditions. If

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

such conditions deteriorate, our stock price could decline.

WE DEPEND ON OUR SENIOR MANAGEMENT, THE LOSS OF WHOM WOULD HAVE AN ADVERSE IMPACT ON US.

We presently are dependent upon the executive abilities of our President and Chief Executive Officer, Kenneth K. Rieth, our Chief Financial Officer, Peter C. Canepa, and our other executive officers. Our business and operations to date chiefly have been implemented under the direction of these individuals, who presently are, and in the future will be, responsible for the implementation of our anticipated plans and programs. The loss or unavailability of the services of one or more of our principal executives would have an adverse effect on us. Given our present financial condition, we may encounter difficulty in our ability to recruit and ultimately hire any replacement or additional executive officers having similar background, experience and qualifications as those of our current executive officers.

THE MARKETS SERVED BY US ARE HIGHLY CYCLICAL AND OUR BUSINESS COULD BE MATERIALLY ADVERSELY AFFECTED AS A RESULT OF GENERAL ECONOMIC AND MARKET CONDITIONS.

We are subject to the effects of general global economic and market conditions. The automotive industry is highly cyclical and dependent on consumer spending. Economic factors adversely affecting automotive production and consumer spending could adversely impact our business. If economic and market conditions deteriorate, our business, results of operations or financial condition could be materially adversely affected. An economic downturn may also impact substantially leveraged companies, such as ourselves, more than similarly situated companies with less leverage.

LABOR INTERRUPTIONS COULD HAVE AN ADVERSE IMPACT ON OUR BUSINESS.

Within the automotive supply industry substantially all of the hourly employees of the OEMs and many Tier I suppliers are represented by labor unions, and work pursuant to collective bargaining agreements. The failure of any of our significant customers to reach agreement with a labor union on a timely basis, resulting in either a work stoppage or strike, could have an adverse impact on our business.

OUR BUSINESS COULD BE MATERIALLY ADVERSELY AFFECTED AS A RESULT OF WAR OR ACTS OF TERRORISM.

Terrorist acts or acts of war may cause damage or disruption to our employees, facilities, customers and partners, which could have a material adverse effect on our business, results of operations or financial condition. Such conflicts may also cause damage or disruption to transportation and communication systems and to our ability to manage logistics in such an environment, including receipt of materials and distribution of products.

WE ARE SUBJECT TO ENVIRONMENTAL REGULATION, WHICH COULD HAVE AN ADVERSE IMPACT ON US.

We are subject to the requirements of federal, state and local environmental and occupational health and safety laws and regulations. Although we have made and will continue to make expenditures to comply with environmental requirements, these requirements are constantly evolving, and it is impossible to predict whether compliance with these laws and regulations may have a material adverse effect on us in the future. If a release of hazardous substances occurs on or from our property or from any of our disposals at offsite disposal locations, or if contamination is discovered at any of our current or former properties, we may be held liable, and the amount of such liability could be material.

FORWARD-LOOKING INFORMATION

Some of the statements contained in or incorporated by reference in this prospectus discuss our plans and strategies for our respective businesses or state other forward-looking statements, as this term is defined in the Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "estimate," "expect," "plan," "intend," "should," "seek," "will," and similar expressions are intended to identify these forward-looking statements, but are not the exclusive means of identifying them. These forward-looking statements reflect the current views of our management. However, various risks, uncertainties and contingencies could cause our actual results, performance or achievements to differ materially from those expressed in, or implied by, these statements, including the following:

- our success or failure to implement our business strategies; and
- other factors discussed under the heading "Risk Factors;" and
- elsewhere in this prospectus.

We assume no obligation to update any forward-looking statements contained in this prospectus, whether as a result of new information, future events or otherwise. For a discussion of important risks of an investment in our securities, including factors that could cause actual results to differ materially from results referred to in the forward-looking statements, see "Risk Factors" on page 4. You should carefully consider the information set forth under the caption "Risk Factors." In light of these risks, uncertainties and assumptions, the forward-looking events discussed in or incorporated by reference in this prospectus might not occur.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the Commission a registration statement under the Securities Act of 1933, as amended, with respect to the shares of common stock offered hereby on Form S-1. This prospectus is a part of that registration statement. The rules and regulations of the Commission allow us to omit some information included in the registration statement from this document.

In addition, we file reports, proxy statements and other information with the Commission under the Securities Exchange Act of 1934, as amended. Please call the Commission at 1-800-SEC-0330 for further information on the public reference rooms. You may read and copy this information at the following location of the Commission:

Public Reference Section  
Room 1024  
450 Fifth Street, N.W.  
Judiciary Plaza  
Washington D.C. 20549

The Commission maintains an Internet World Wide Web site (<http://www.SEC.gov>) that contains our reports, proxy statements and other information about us and other companies who file electronically with the Commission.

OUR COMMON STOCK IS TRADED ON THE AMERICAN STOCK EXCHANGE.

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

We have not authorized anyone to give any information or make any representation about us that differs from, or adds to, the information in this document or in our documents that are publicly filed with the Commission. Therefore, if anyone does give you different or additional information, you should not rely on it.

If you are in a jurisdiction where it is unlawful to offer to exchange or sell, or to ask for offers to exchange or buy, the securities offered by this document or to ask for proxies, or if you are a person to whom it is unlawful to direct these activities, then the offer presented by this document does not extend to you.

The information contained in this document speaks only as of its date unless the information specifically indicates that another date applies.

9

### USE OF PROCEEDS AND EXPENSES OF THE OFFERING

We will not receive any of the proceeds from the sale of the shares offered by Laurus. We will receive a maximum of approximately \$6,500 from the exercise of the option rights, assuming all of the options are exercised for cash and in full, of which there can be no assurance. Any proceeds received by us in connection with the exercise of the option rights will be used for working capital and general corporate purposes. With the exception of any brokerage fees and commission, which are the obligation of Laurus, we are responsible for the fees, costs and expenses of this offering, which are estimated to be \$75,000, inclusive of our legal and accounting fees, printing costs and other miscellaneous fees and expenses.

The conversion and exercise of the conversion and options rights hereunder will result in the discharge of indebtedness under the Agreements to the extent debt outstanding under the convertible minimum borrowing notes, convertible revolving note, or convertible term note is reduced thereby. Debt outstanding under the convertible term note accrues interest at the prime rate (as published in the Wall Street Journal from time to time) plus 4% and debt outstanding under the convertible minimum borrowing notes and convertible revolving note accrues interest at the prime rate (as published in the Wall Street Journal from time to time) plus 1.25%; provided, however, that in each instance such interest rates shall not be less than 6.50%. Each of the notes will mature on May 17, 2008. The proceeds received in connection with the debt incurred pursuant to the Agreements were used as follows:

PROCEEDS RECIPIENT -----	AMOUNT -----
Riviera Tool Company (working capital and general corporate purposes)	\$1,212,526.90
Comerica Bank (extinguishment of debt)	\$4,290,847.73
Laurus Capital Management, L.L.C. (Management Fees)	\$ 475,200.00
The HillStreet Fund II, L.P. (extinguishment of debt)	\$3,208,166.67
HillStreet Capital II (extinguishment of debt)	\$ 6,758.70
Laurus Capital Management, L.L.C. (Due Diligence and Documentation Fees)	\$ 35,000.00

### MARKET PRICES OF RIVIERA TOOL COMMON STOCK

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

Our common stock is listed and traded on the American Stock Exchange. Our common stock commenced trading on the American Stock Exchange on March 7, 1997, through an initial public offering of our common stock. Prior to that date, there was no public market for our common stock. The following table sets forth the high and low closing bid quotations per share on the American Stock Exchange, based upon information supplied by The Wall Street Journal.

FISCAL PERIOD	MARKET PRICE	
	HIGH	LOW
2003:		
- First Quarter	\$1.49	\$1.04
- Second Quarter	2.45	1.01
- Third Quarter	3.55	1.75
- Fourth Quarter	5.10	2.81
2004:		
- First Quarter	\$5.10	\$3.10
- Second Quarter	5.70	3.66
- Third Quarter	4.99	3.16
- Fourth Quarter	3.70	1.86
2005:		
- First Quarter	\$2.60	\$1.75
- Second Quarter	2.05	1.05
- Third Quarter	1.69	1.05
- Fourth Quarter	1.55	0.85
2006:		
- First Quarter	\$0.96	\$0.050
- Second Quarter	1.00	0.51
- Third Quarter	0.83	0.53

10

On August 9, 2006, the last reported sale price of our common stock on the American Stock Exchange was \$.49.

We have not historically paid cash dividends on our common stock. The payment of common stock cash dividends is within the discretion of our Board of Directors, with prior written consent of Laurus; however, in view of the current working capital needs and in order to finance future growth, it is unlikely that we will pay any cash dividends on our common stock in the foreseeable future.

11

### OUR BUSINESS

#### GENERAL

We are a designer and manufacturer of large scale, complex stamping die systems used to form sheet metal parts. Most of the stamping die systems sold by

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

us are used in the production of automobile and truck body parts such as roofs, hoods, fenders, doors, door frames, structural components and bumpers. The following table sets forth our sales (in millions) and percentage of total sales by major customers, DaimlerChrysler, Ford Motor Company, General Motors Corporation, Mercedes-Benz and BMW (the "OEM's") in fiscal years 2003, 2004 and 2005.

CUSTOMER -----	YEAR ENDED AUGUST 31,					
	2003		2004		2005	
	AMOUNT	%	AMOUNT	%	AMOUNT	%
Suppliers of Mercedes-Benz .....	\$19.2	56%	\$20.8	84%	\$ 5.7	29%
BMW .....	0.3	1	--	--	--	--
- Suppliers of BMW .....	3.0	10	--	--	--	--
DaimlerChrysler AG .....	1.9	6	0.2	1	1.4	7
- Suppliers of DaimlerChryslerAG .....	1.0	1	0.3	1	5.0	26
Ford Motor Company .....	0.9	1	--	--	--	--
- Suppliers of Ford Motor Co. ....	2.4	7	--	--	--	--
General Motors Corporation .....	0.5	2	0.9	4	3.4	18
- Suppliers of General Motors Corporation .....	0.2	--	0.5	2	1.6	8
Other auto and truck manufacturers and their suppliers .....	4.7	16	2.0	8	2.2	12
Total Sales .....	\$34.1	100%	\$24.7	100%	\$19.3	100%
	=====	====	=====	====	=====	====

We were originally incorporated in 1967 and were incorporated in our present form in 1988, under the laws of the State of Michigan.

### INDUSTRY TRENDS

The principal factor affecting tooling demand is the level of capital spending by our customers on manufacturing equipment for use in the production of new products or models and, in our case, predominantly the automotive industry. The market for U.S. produced tooling has both cyclical and structural factors that create tooling product demand.

The cyclical factors are associated with the consumer demand levels as well as capital spending in various end-use sectors. Generally, tooling sales are less dependent on the level of automotive unit sales, but are more dependent on the introduction of new and updated product designs into the marketplace. The introduction of a new automotive model creates a demand for new tooling. This new tooling then creates the product parts that are assembled into the new models. Some slight variations in the production platform, such as changes to the drive train of an automobile, may involve no new tooling but may entail slight modifications in existing tooling in order to allow the production of components with these minor modifications. For the most part, the vast majority of new models require completely new tooling.

The structural factors affecting automotive tooling demand include the OEMs trend to shorter product cycles (30-36 month product cycle) as well as compressed tooling lead times (9-12 months). Additionally, the implementation of globalized manufacturing strategies, including the increasing competitiveness of foreign toolmakers, as well as the capture of domestic industry production share by offshore-based firms, affect domestic automotive tooling demand.

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

### PRODUCTS AND SERVICES

Dies. Our dies are used in the high-speed production of sheet metal stamped parts and assemblies. Production of such parts is a multiple step process involving a series of dies. Typically, the first die is used to cut the appropriate size metal blank from a sheet or coil of steel. The next die draws the metal blank into its primary shape and subsequent dies are used to bend edges or corners, create flanges, trim-off excess metal and pierce assembly holes. A customer usually orders only one series of dies for each separate part. Normally, the dies do not require replacement due to usage because the life of well-maintained dies is sufficient to carry production to the point when styling changes dictate production of new dies. The dies manufactured by us generally include automation features,

12

adding to the complexity of design and construction. These automation features facilitate rapid introduction and removal of the work piece or raw material into and out of the die, thereby increasing production speeds and reducing labor cost for part manufacturers.

Engineering of Product and Process. As the OEMs continue their efforts to reduce lead times of new model launches, we produce concurrently, rather than sequentially, many of our tool designs and manufacturing processes. In certain instances, before the final design by the customer is complete, we already have ordered many of the raw materials, such as steel, and may have begun various machining operations. Typically, we will receive part data or descriptions in the form of electronic files, which the customer wants us to use in developing a tool to produce that part. The tool design is then created by us, utilizing computer aided-design ("CAD") software. We then utilize computer software that simulates the metal-forming process within the die. This simulation data is then utilized in final die design to reduce the need for expensive and time-consuming reworking of the die during the tryout process. Upon completion of tool design, we develop the computer programs (computer-aided-manufacturing ("CAM") software) which drive the cutter paths on the machine tools. These machine tools fabricate many components for the tool. A variety of machine tools are utilized to cut and polish the various parts and surfaces of the tool, including our high-speed machining centers and 5-axis machining centers, all of which are computer-numerically-controlled ("CNC"). The process of utilizing high-speed CNC machining centers reduces the traditional requirement for expensive and time-consuming hand finishing. After the tool components are produced or purchased, they are assembled and fitted together.

Prototype Tooling and Parts. Prototype tooling and parts are utilized during the design phase of new models. The automobile manufacturers validate the fit and function of the respective components and assemblies and the repeatability of the respective production processes using these tools. The parts manufactured from prototype tools are also often used in crash testing.

Typically, prototype tools associated with the primary metal forming operations are manufactured from an alloy casting or mild steel and subsequently machined using the mathematical database and related CNC programs. After machining, the prototype tools are assembled and tested to validate the integrity and repeatability of the final manufacturing process. The results of the validation process are incorporated into the mathematical database, which will then be used to manufacture the final production tools. After testing the primary forming operations, prototype parts are manufactured using special means, such as computerized laser-cutting machines, to trim off excess scrap and

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

to incorporate various slots and holes. These parts are then sent to the automobile manufacturers for further testing and evaluation. The results of this testing and evaluation may require the incorporation of additional design and manufacturing process modifications prior to construction of the production tooling.

### MANUFACTURING

The manufacturing process starts when we are awarded a tooling contract. The engineering process commences when an electronic "model" of the part to be produced is transmitted to us as a mathematical database or electronic files. Our engineers use the mathematical database to generate computer-aided die designs and die face cutter path programs. These cutter path programs are used by the machine tools to manufacture the inner workings of the die. Most material is removed and the cutting is done by CNC machine tools, which utilize the computer-generated cutter path programs to cut and polish the various parts of the tool. After the tool components are produced or purchased, they are assembled and fitted together. Finally, after the die is constructed, we produce a "tryout" or run of parts. These parts are then evaluated statistically for process repeatability and dimensional validation on our coordinate measuring machine. During this automated validation process, the tool is statistically compared to the mathematical database.

On average, 10 months elapse from the time we are awarded a contract until the final set of dies is shipped to the customer.

### QS 9000/TE CERTIFICATION

We are certified under the Tooling and Equipment Supplement ("TE Supplement") QS-9000 and ISO-9000 Quality Standards. The TE Supplement/QS-9000 standard was developed jointly by DaimlerChrysler, Ford, and General Motors to establish a single set of quality requirements for their tooling suppliers. ISO 9000 is an international quality standard for all industries.

The TE Supplement has become the international standard of all quality systems in the tooling industry, designed to ensure that systems are in place to prevent defects from occurring in the design, manufacturing and validation phases of our processes. We, by receiving the TE Supplement/QS-9000 certification, have demonstrated that our quality systems are in place to meet customer requirements.

13

### RAW MATERIALS

The steel, castings and other components utilized by us in the manufacturing process are available from many different sources and we are not dependent on any single source. We typically purchase our raw materials on a purchase order basis as needed and have generally been able to obtain adequate supplies of raw materials for our operations.

### MARKETING AND SALES

Our marketing emphasis is on DaimlerChrysler (including Mercedes Benz), Ford, General Motors, and BMW and their respective tier one suppliers. We maintain relationships with DaimlerChrysler (including Mercedes-Benz), Ford, General Motors, and BMW that directly accounted for approximately 25%, in the aggregate, of our revenues in 2005. For the year ended August 31, 2005, DaimlerChrysler, Ford, General Motors, Mercedes-Benz, BMW and their respective

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

tier one suppliers accounted for approximately 88%, in the aggregate, of our revenues. For the year ended August 31, 2004, DaimlerChrysler, Ford, General Motors, Mercedes-Benz and BMW and their respective tier one supplier directly accounted for 92%, in the aggregate, of our revenues.

We typically sell our tooling systems to either OEMs directly or to manufacturers of products under contract with such OEMs (tier one suppliers). Sales efforts are conducted primarily by our Vice President of Sales, President, senior management and project management personnel. Frequent contact is made with domestic and foreign automobile manufacturers, their purchasing agents, and platform managers and tier one suppliers. Typically, our sales process begins when a package or request for quotation is received from the tier one supplier or OEM. Generally, we recommend process and design changes to improve the cost and quality of a product. We maintain a computer database with historical information regarding dies we have previously manufactured. This database assists us in quoting prices for dies and enables us to respond to most quotation requests quickly and accurately. If a customer decides to accept our quotation, a purchase order is issued subject to price adjustments for engineering changes as requested by the customer. Bids generally are awarded based on technological capability, price, quality and past performance.

### BACKLOG AND SEASONALITY

Our backlog of awarded contracts, which are all believed to be firm, was approximately \$9.2 million and \$11.0 million as of May 31, 2006 and May 31, 2005, respectively. We expect all backlog contracts will be reflected in sales during fiscal years ended August 31, 2006 and 2007. Our sales of stamping dies do not follow a seasonal pattern; however, the timing of new model introductions and existing model restyling tooling programs are dependent on DaimlerChrysler, Ford, General Motors, Mercedes-Benz, BMW and their respective introduction of new models.

### COMPETITION

Large, complex automotive stamping dies are manufactured primarily by three supplier groups: a) domestic independent tool and die manufacturers, b) foreign independent tool and die manufacturers, and c) captive or in-house tool and die shops owned and operated by OEMs.

The independent tool and die manufacturer industry has significant barriers to entry, which can reduce competition in the large-scale die market. These barriers include the highly capital intensive and technically complex requirements of the industry. Additionally, attracting and retaining employees skilled in the use of advanced design and manufacturing technology is a multi-year process. A new competitor most likely would lack much of the credibility and historical customer relationships that take years to develop.

Finally, the OEMs maintain in-house, captive tool and die capacity in order to meet a portion of their needs. General Motors, for example, maintains the largest captive capacity and, based on estimates from various trade publications, supplies an estimated 75-80% of their own die construction needs. Ford produces approximately 50% and DaimlerChrysler 25% of their own respective needs. Independent suppliers, like us, tend to have a competitive advantage over the OEMs' in-house die shops due to the OEMs' higher cost structure.

With the advent of simultaneous engineering in the automobile industry, proximity of the OEMs' design engineers may influence the placement of contracts. However, foreign competition may have certain advantages over domestic die manufacturers including lower capital costs, currency exchange advantages, government assistance and lower labor costs.

SIGNIFICANT CUSTOMERS

We maintain relationships with DaimlerChrysler (including Mercedes-Benz), Ford, General Motors, and BMW, which directly accounted for approximately 25%, in the aggregate, of our revenues in 2005. For the year ended August 31, 2005, DaimlerChrysler, Ford, General Motors, Mercedes-Benz and BMW and their respective tier one suppliers accounted for approximately 88%, in the aggregate, of our revenues.

EMPLOYEES

Our work force consists of approximately 135 full-time employees, of which approximately 30 are managerial and engineering personnel. The balance consists of hourly employees engaged in manufacturing and indirect labor support. Included among these hourly workers are approximately 85 skilled tradesmen who are either journeymen tool and die makers or machinists. None of our employees are covered by a collective bargaining agreement. We have not experienced any work stoppages and consider our relations with our employees to be good. We have a discretionary contribution 401(K) plan. We have no pension liabilities arising from any defined benefit plan.

ENVIRONMENTAL MATTERS

We are subject to environmental laws and regulations concerning emissions to the air, discharges to waterways, and generation, handling, storage, transportation, treatment and disposal of waste materials. We also are subject to other Federal and state laws and regulations regarding health and safety issues. We believe that we are currently in material compliance with applicable environmental and health and safety laws and regulations.

DESCRIPTION OF PROPERTY

Our facilities are located in Grand Rapids, Michigan, and consist of approximately 177,000 square feet of space, of which 28,000 square feet is utilized for office, engineering and employee service functions. Constructed in 1989, the facility is leased with a lease term expiring in 2018. The facility lease provides for annual payments of \$944,847 plus an escalation of base rent of approximately \$.14 per square foot. We have an option to renew this lease for an additional ten-year term at a rate based upon the then prevailing market rates for similar properties. We believe our facilities are modern, well maintained, adequately insured and suitable for their present and intended uses.

LEGAL PROCEEDINGS

We are not presently a party to any legal proceeding.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The matters discussed in this Management's Discussion and Analysis of Financial Condition and Results of Operations contain certain forward-looking statements. For this purpose, any statements contained in this report that are not statements of historical fact may be deemed to be forward-looking

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

statements. Without limiting the foregoing, words such as "may", "will", "expect", "believe", "anticipate", or "continue", the negative or other variation thereof, or comparable terminology, are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending upon a variety of factors, including continued market demand for the types of products and services produced and sold by us.

### GENERAL OVERVIEW

We are a designer and manufacturer of large scale, complex stamping die systems used to form sheet metal parts. Most of the stamping die systems, sold by us, are used in the high-speed production of automobile and truck body parts such as doors, frames, structural components and bumpers. A majority of our sales are to DaimlerChrysler (including Mercedes-Benz), Ford Motor Company, General Motors Corporation, BMW and their tier one suppliers of sheet metal stamped parts and assemblies.

### RECENT DEVELOPMENTS

#### Change in Independent Auditors

On January 13, 2006, Deloitte & Touche LLP ("D&T") informed us that D&T was resigning as our independent outside auditor. We immediately began our process to find another suitable independent outside auditor and D&T agreed to assist us in our transition to such new independent auditor.

The reports of D&T on our financial statements for each of the two fiscal years ended August 31, 2005 and 2004 did not contain an adverse opinion, disclaimer of opinion nor was qualified or modified as to uncertainty, audit scope, or accounting principles, except for the reports were modified to reflect substantial doubt as to our ability to continue as a going concern. In connection with the audits of our financial statements for each of the two fiscal years ended August 31, 2005 and 2004, and through the filing of our Quarterly Report on Form 10-Q for the first quarter of fiscal 2006, there were (1) no disagreements with D&T on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of D&T, would have caused D&T to make reference to the matter in its reports and (2) no reportable events. During each of the two fiscal years ended August 31, 2005 and 2004, and through the filing of our Quarterly Report on Form 10-Q for the first quarter of fiscal 2006, no information is required to be reported under Item 304(a)(1)(v) of Regulation S-K.

On February 14, 2006, our Board of Directors announced the appointment of BDO Seidman, LLP as our independent accountant.

#### Amex Notification

On February 10, 2006, we received notice from the Amex that a review of our Form 10-Q for the first quarter ended November 30, 2005 indicated that we did not meet certain of the Amex's continued listing standards, and we have, therefore, become subject to the procedures and requirements of Section 1009 of the Company Guide. Specifically, we are not in compliance with Section 1003(a)(ii) of the Company Guide with shareholders' equity of less than \$4,000,000 and losses from continuing operations and/or net losses in three of our four most recent fiscal years.

On March 13, 2006, we advised the Amex of action we had taken, or will take, that would bring us into compliance with the continued listing standards identified within a maximum of 18 months of receipt of the notice. The Listing Qualifications Department evaluated the plan and granted us a listing extension

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

enabling us to continue our listing during the plan period up to August 9, 2007. During such time we will be subject to periodic review to determine whether we are making progress consistent with the plan. If we do not show progress consistent with the plan, the Amex will review the circumstances and may immediately commence delisting proceedings.

16

### CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our Financial Statements. These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. These principles require the use of estimates and assumptions that affect amounts reported and disclosed in the financial statements and related notes. The accounting policies that may involve a higher degree of judgment, estimates and complexity include revenue recognition using percentage of completion estimates and the assessment of asset impairments. We use the following methods and assumptions in our estimates.

- Revenue recognition - We recognize revenue on time and material contracts utilizing the completed-contract method. Revenue is recognized on all other contracts utilizing the percentage-of-completion method. Under the completed-contract method, the contract is considered complete when all costs except for insignificant items have been incurred and the customer has approved the project. Under the percentage-of-completion method, estimated contract earnings are based on total estimated contract profits multiplied by the ratio of labor hours incurred to total estimated labor hours on the contract. Provisions for total estimated losses on contracts in process are recognized in the period such losses are determined. Changes in job performance, conditions and estimated profitability may result in revisions to costs and income and are recognized in the period such revisions are determined.
- Net book value of long-lived assets - We review long-lived assets for impairment if changes in circumstances or the occurrence of events suggest the remaining value may not be recoverable. This review is performed using estimated future cash flows. If the carrying value of a long-lived asset is considered to be impaired, an impairment charge is recorded for the amount that the carrying value of the long-lived asset exceeds its fair value.

### NEW ACCOUNTING STANDARDS

In December, 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 123 (R), "Share-Based Payments" that requires compensation costs related to share-based payment transactions to be recognized in the financial statements. With limited exceptions, the amount of compensation cost will be measured based on the grant date fair value of the equity or liability instruments issued. In addition, liability awards will be re-measured each reporting period. Compensation costs will be recognized over the period that an employee provides services in exchange for the award. SFAS No. 123 (R) replaces SFAS No. 123, "Accounting for Stock-Based Compensation", and supercedes Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations. SFAS No. 123 (R) became effective on September 1, 2005 and was not material.

### BASIS OF PRESENTATION

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During 2005, we sustained a loss from operations of \$498,282 and a net loss of \$2,502,248. This loss resulted in an accumulated deficit of \$13,148,735 as of August 31, 2005. These factors, among other things, raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should we be unable to continue as a going concern.

We believe that the revolving line of credit and the funds generated from operations, will be sufficient to cover anticipated cash needs through fiscal 2006. However, depending on our level of future sales, terms of such sales, financial performance and cash flow of existing contracts, such financing may not be sufficient to support operations. Therefore, we may be required to seek additional sources of funding.

### IMPAIRMENT OF LONG-LIVED ASSETS

We review long-lived assets for impairment if changes in circumstances or the occurrence of events suggest the remaining value may not be recoverable. An asset is deemed impaired and written down to its fair value if estimated related total future undiscounted cash flows are less than its book (carrying) value. In performing our evaluation of long-lived assets for impairment, we utilized undiscounted cash flows based on the assets estimated remaining useful lives. In developing the projections, we estimated revenues for each year and estimated resulting margins based upon various assumptions including future market pricing trends and historical financial costs. The analysis concluded that the estimated total undiscounted future cash flows were in excess of the carrying value of long-lived assets. Had the

17

analysis concluded that the total undiscounted future cash flows been below the carrying value, an impairment charge of the difference between the carrying value and the lower of the total discounted cash flows or fair value would have been recorded.

### RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our Financial Statements and the Notes thereto included elsewhere herein.

COMPARISON OF THE THREE MONTHS ENDED MAY 31, 2006 TO THE THREE MONTHS ENDED MAY 31, 2005.

REVENUES - Revenues for the three months ended May 31, 2006 totaled \$6.1 million as compared to \$4.7 million for the three months ended May 31, 2005, an increase of \$1.4 million or 30%. This was a result of our beginning the third quarter of 2006 with a contract backlog of \$11.2 million as compared to a \$10.1 million contract backlog in 2005, an increase of 11%. This increased backlog resulted in our experiencing a 21% increase in direct labor hours during the third quarter of 2006, as compared to 2005, resulting in an increase in third quarter revenues.

Our backlog of awarded contracts, which are all believed to be firm, was approximately \$9.2 million and \$11 million as of May 31, 2006 and May 31, 2005

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

respectively. We expect all backlog contracts to be reflected in sales during fiscal years ending August 31, 2006 and 2007.

**COST OF SALES** - Cost of goods sold increased from \$4.1 million for the third quarter of fiscal 2005 to \$5.0 million for 2006 however as a percent of sales, decreased from 87.6% for 2005 to 80.8% for 2006. Direct costs (materials and labor) increased by \$800,000, from \$1.8 million for 2005 to \$2.6 million for 2006. Engineering expense decreased by \$64,000 from \$596,000 for 2005 to \$532,000 for 2006. Lastly, of the cost of goods sold, manufacturing overhead increased by \$100,000 from \$1.7 million for 2005 to \$1.8 million for 2006. Additional details of these changes in cost of sales for the third quarter of fiscal 2005 and 2006 are as follows:

- Direct materials expense remained at \$0.5 million for 2006 and as a percent of sales decreasing from 14.1% in 2005 to 10.9%. The decrease in percent of sales was largely due to higher contract volume requirements and related revenues. Outside services expense increased from \$0.1 million for 2005 to \$0.5 million for 2006 and as a percent of sales from 2.0% to 8.2%. This was largely due to us incurring expenses related to our outsourced revenue during the third quarter of 2006. The balance of the outside services expense decrease was due to higher sales volumes and corresponding increases in outsourcing certain design services.
- Direct labor expense increased from \$1.1 million for 2005 to \$1.5 million for 2006 and as a percent of sales from 22.8% to 24.2%. This change was a result of us incurring a 21% increase in direct labor hours, from 59,000 hours in 2005 to 71,500 in 2006. Of the total direct labor expense, regular or straight time increased by \$211,000 however decreased a percent of sales from 16.4% for 2005 to 16.0% for 2006. Overtime expense increased from \$303,000 for 2005 to \$503,000 for 2006 and as a percent of sales from 6.4% for 2005 to 8.2% for 2006.
- Engineering expense decreased from \$596,000, 12.7% of sales, for 2005 to \$532,000, and 8.7% of sales, for 2006. This was due to us maintaining lower project management personnel during 2006 as compared to 2005.
- Manufacturing overhead was \$1.7 million or 35.9% of sales for 2005 as compared to \$1.8 million or 28.9% of sales for 2006. During 2006, increases in manufacturing overhead were largely due to a \$37,000 increase in payroll taxes, a \$23,000 increase in medical insurance expense, a \$22,000 increase in perishable tooling expense, a \$14,000 increase in utilities expense and an \$11,000 increase in indirect labor. These were offset by a decrease of \$30,000 in depreciation expense. The increase of approximately 6.0% of manufacturing overhead was largely due to the increase in sales volumes.

**SELLING AND ADMINISTRATIVE EXPENSE.** Selling and administrative expense increased slightly from \$660,000 for the third quarter of 2005 to \$670,000 for 2006. As a percent of sales, selling and administrative expense decreased from 14.1% for 2005 to 10.9% for 2006. This decrease was a result of higher sales volume and decreases in certain professional advisory fees. The largest selling and administrative expense increases included \$73,000 in bad debt expense, \$71,000 in public company expenses and \$25,000 in the State of Michigan Single Business tax. These increases were offset by a decrease of \$140,000 in professional and

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

legal fees expense and \$7,000 in insurance expense.

The decrease in professional and legal expenses related to our former primary lender requiring us to retain the services of a consulting company and the lender's legal counsel at our expense during the second quarter of 2005. During the third quarter of 2005, such expenses totaled approximately \$158,000.

INTEREST EXPENSE. Interest expense increased from \$348,000 for the third quarter of 2005, to \$431,000 for 2006. This increase was largely due to our increased debt levels during the third quarter of 2006 as compared to 2005. For the third quarter of 2006, we utilized \$76,387 of cash in operating activities as compared to utilizing cash of \$1,103,008 in 2005 (financed with borrowings on revolving line of credit).

COMPARISON OF THE NINE MONTHS ENDED MAY 31, 2006 TO THE NINE MONTHS ENDED MAY 31, 2005.

REVENUES - Revenues for the nine months ended May 31, 2006 totaled \$19.1 million as compared to \$14.2 million for the nine months ended May 31, 2005, an increase of \$4.9 million or 35%. This was a result of us beginning fiscal 2006 with a contract backlog of \$13.7 million as compared to \$2.4 million in 2005, an increase of 471%. This increased backlog resulted in us incurring approximately 217,000 shop floor hours in 2006 as compared to 186,000 during the same period of 2005, an increase of 31,000 hours or 17%.

COST OF SALES - Cost of goods sold increased from \$12.3 million for the nine months ended May 31, 2005 to \$16.4 million for the nine months ended May 31, 2006 however, as a percent of sales, cost of goods sold decreased from 86.5% for 2005 to 85.7% for 2006. Direct costs (materials and labor) increased by \$3.8 million, from \$5.7 million for 2005 to \$9.5 million for 2006. Engineering expense increased by \$45,000 from \$1.55 million for 2005 to \$1.6 million for 2006. Lastly, of the cost of goods sold, manufacturing overhead increased by \$300,000 from \$5.0 million for 2005 to \$5.3 million for 2006. Additional details of these changes in cost of sales for the nine months ended May 31, 2005 and May 31, 2006 are as follows:

- Direct materials expense increased from \$1.5 million to \$3.2 million for the first three quarters of 2005 and 2006, respectively. The increase in direct materials was a result of increased contract backlog and revenues in 2006. Outside services expense increased from \$0.5 million for 2005 to \$2.0 million for 2006 and as a percent of sales from 3.7% to 10.4%. The increase in outside services is a result of our placing or subcontracting certain construction portions of contracts to other suppliers.
- Direct labor expense increased from \$3.6 million for 2005 to \$4.3 million for 2006 however, as a percent of sales, direct labor expense decreased from 25.6% to 22.3%. This change was a result of our incurring a 17% increase in direct labor hours, from 186,000 hours in 2005 to 217,000 in 2006. Of the total direct labor expense, regular or straight time increased by \$342,000 however, as a percent of sales, it decreased from 16.8% for 2005 to 14.3% for 2006. Overtime expense increased from \$1.3 million for 2005 to \$1.5 million for 2006, as a percent of sales, decreasing from 8.8% for 2005 to 8.0% for 2006.
- Engineering expense increased from \$1.5 million, 11.0% of sales, for 2005 to \$1.6 million, and 8.4% of sales, for 2006. This increase was due to our increasing the level of engineering personnel staffing required to fulfill the design and project management portions of contracts.
- Manufacturing overhead was \$5.0 million or 35.4% of sales for 2005 as

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

compared to \$5.3 million or 27.6% of sales for 2006. During 2006, increases in manufacturing overhead were largely due to a \$106,000 increase in manufacturing supplies expense, a \$65,000 increase in supervisor salaries and indirect labor expense, a \$52,000 increase in perishable tooling expense, a \$52,000 increase in medical insurance premiums, a \$42,000 increase in payroll tax expense and a \$40,000 increase in utilities expense. These increases were offset by a \$92,000 decrease in depreciation expense.

19

SELLING AND ADMINISTRATIVE EXPENSE - Selling and administrative expense decreased from \$2.1 million for the first three quarters of 2005 to \$1.8 million for 2006. As a percent of sales, selling and administrative expense decreased from 14.8% for 2005 to 9.6% for 2006. During 2006, increases in selling and administrative expense were largely due to an \$156,000 increase in public company expenses, a \$65,000 increase in the State of Michigan Single Business tax, a \$59,000 increase in bad debt expense and a \$38,000 increase in director fees expense. These increases were offset by a \$523,000 decrease in legal and professional expenses, a \$30,000 decrease in travel expenses and a \$40,000 decrease in supervisor salaries expense.

The decrease in professional and legal expenses related to our former primary lender requiring us to retain the services of a consulting company and the lender's legal counsel at our expense during 2005. During the first three quarters of 2005, such expenses totaled approximately \$511,000.

INTEREST EXPENSE - Interest expense increased from \$1.1 million for 2005 to \$1.3 million for 2006. This increase was largely due to our increased debt levels during the first three quarters of 2006 as compared to 2005. For the first three quarters of 2006, we utilized \$1.7 million of cash in operating activities (financed with borrowings on revolving line of credit) as compared to generating cash of \$6.8 million in 2005 (utilized to reduce revolving line of credit).

FEDERAL INCOME TAXES - For the nine months ended May 31, 2006, we recorded a valuation allowance of approximately \$190,000 to reduce our deferred tax assets resulting from income tax benefit. For the three months ended May 31, 2006, we recorded a decrease in the deferred tax asset valuation allowance of approximately \$6,000 to offset the income tax benefit.

LIQUIDITY AND CAPITAL RESOURCES - During the nine-month period ended May 31, 2006 our cash used in operating activities was \$1.7 million. This largely resulted from an increase of \$3.8 million in account receivables and a \$1.1 million increase in accounts payable and accrued liabilities. From investing activities, we incurred a decrease in other assets of \$135,000 and utilized \$111,000 for additions to property, plant and equipment. We financed our increase in working capital requirements with \$2.4 million of borrowings on our revolving line of credit, net of \$1.0 million utilized to reduce other debt (of which \$150,000 was term debt, which was converted to common stock).

We believe that the revolving line of credit and the funds generated from operations will be sufficient to cover anticipated cash needs for the foreseeable future. However, depending on our level of future sales, terms of such sales, financial performance and cash flow of existing contracts, such financing may not be sufficient to support operations. Therefore, we may be required to seek additional sources of funding.

FISCAL 2005 COMPARED TO FISCAL 2004

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

### REVENUE.

Total revenue decreased from approximately \$24.7 million in 2004 to \$19.3 million in 2005, a decrease of 22%. This decrease was a result of us experiencing a low contract backlog of \$2.5 million as of August 31, 2004, which resulted in a decrease of 22% in shop floor hours and lower sales in fiscal 2005.

Our backlog of awarded contracts, which are all believed to be firm, was approximately \$13.7 million and \$2.5 million as of August 31, 2005 and 2004, respectively, an increase of 448%. We expect all backlog contracts will be reflected in sales during fiscal years ending August 31, 2006 and 2007.

### COST OF GOODS SOLD.

Cost of goods sold decreased from \$30.0 million for 2004 to \$17.0 million for 2005 and, as a percent of sales, decreasing from 122% for 2004 to 88% for 2005. Direct costs (materials and labor) decreased by \$12.3 million, from \$20.6 million for 2004 to \$8.3 million for 2005. Engineering expense decreased by \$0.2 million from \$2.4 million for 2004 to \$2.2 million for 2005. Lastly, of the cost of goods sold, manufacturing overhead decreased by \$0.5 million from \$7.0 million for 2004 to \$6.5 million for 2005. Additional details of these changes in cost of sales for 2004 and 2005 are as follows:

- Direct materials expense decreased from \$4.2 million for 2004 to \$2.8 million for 2005 and as a percent of sales from 17% to 15%. This decrease was largely due to lower contract material requirements during 2005 as compared to 2004. During 2005, our contract mix included an increase in die component machining work for the OEMs. Such contracts have lower direct material requirements as compared to construction contracts as the materials are supplied by the customer. Outside services expense

20

decreased from \$9.7 million for 2004 to \$0.4 million for 2005 and as a percent of sales from 39% to 2%. This decrease was largely due to us incurring \$7.2 million of expense related to our outsourced projects in 2004. The balance of the outside services expense was due to lower sales volumes and internalizing of certain machining work, which was historically outsourced.

- Direct labor expense decreased by 26% from \$6.7 million for 2004 to \$5.0 million for 2005 and, as a percent of sales, decreasing from 27% to 26%. This change was a result of us incurring a 22% decrease in direct labor hours, from 318,000 hours in 2004 to 249,000 in 2005. Of the total direct labor expense, regular or straight time decreased 24% or \$1.1 million and, as a percent of sales, decreased from 18% for 2004 to 17% for 2005. Overtime expense decreased 30% or \$0.7 million, from \$2.3 million for 2004 to \$1.6 million for 2005 and, as a percent of sales, decreasing from 9% for 2004 to 8% for 2005.
- Engineering expense decreased from \$2.4 million, or 10% of sales, for 2004 to \$2.2 million, or 11% of sales, for 2005. This decrease was largely as a result of a \$0.2 million decrease in engineering salaries and related payroll taxes expense.
- Manufacturing overhead was \$6.5 million or 34% of sales for 2005 as compared to \$7.0 million or 28% of sales for 2004. During 2005,

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

decreases in manufacturing overhead were largely attributed to decreases of \$154,000 in labor and payroll tax expenses, \$148,000 in manufacturing supplies expense, \$86,000 in health and workers compensation insurance expense, \$77,000 in depreciation expense and \$52,000 in building maintenance and supplies expense. The increase of approximately 6% of manufacturing overhead, as a percent of sales, was largely due to lower overhead absorption resulting from lower sales volumes in 2005.

### SELLING AND ADMINISTRATIVE EXPENSE.

Selling and administrative expense for 2005 increased to \$2.8 million or 15% of sales, from \$2.0 million or 8% of sales in 2004. This increase was largely a result of us incurring an additional \$0.7 million in legal and professional fees during 2005. The largest increase related to our former primary lender, Comerica Bank, requiring us to retain the services of a consulting company and reimburse the lender's legal counsel. Such expenses totaled approximately \$0.5 million. The remaining increases in legal and professional expenses were incurred in regards to our litigation, refinancing and S-1 filing.

### INTEREST EXPENSE.

Interest expense increased from \$0.9 million for 2004 to \$1.6 million for 2005. During the first three quarters of 2005 we were under a Forbearance Agreement with our then primary lender - Comerica Bank. Under such agreement we were charged a higher interest rate on our debt (from prime plus 1.25% in 2004 to prime plus 4% in 2005) as well as an additional \$0.1 million in forbearance fees during 2005.

### OTHER EXPENSE - SUBORDINATED DEBT FINANCING COSTS.

During the third quarter of 2005, we retired our \$3.0 million subordinated debt with Hillstreet Capital. This subordinated debt was paid prior to the scheduled retirement and resulted in us expensing approximately \$0.3 million of debt issuance costs during 2005. These debt issuance costs were originally capitalized at the time of the transaction (fiscal 2004) and were being amortized over the original repayment schedule.

### FISCAL 2004 COMPARED TO FISCAL 2003

#### REVENUE.

Total revenue decreased from approximately \$34 million in 2003 to \$25 million in 2004, a decrease of 28%. This decrease was a result of us completing our significant tooling programs for a major European automaker for a sports utility vehicle and a new "crossover" vehicle to be manufactured in the United States. Our customer for these vehicles is the Tier 1 supplier to Mercedes-Benz for these particular vehicles. During the fourth quarter of 2004, we had significant difficulties in completing the contracts, which had a severe negative effect on revenue, cost of sales, and related earnings. We, due to many various circumstances, incurred significant cost overruns on many of the parts under the contracts. Many of these cost overruns involve customer timing changes, material specification changes and us outsourcing the completion of many dies to meet customer deadlines. All of the aforementioned issues resulted in us incurring approximately \$4.0 million in additional outsourcing costs and \$3.5 million in additional labor costs. We accrued \$5.2 million of estimated losses on these contracts and others as of August 31, 2004. The outsourcing costs were incurred as a result of us having certain "bottlenecks" in our production. These bottlenecks were a result of changes to material specifications combined with an increase in the number of engineering changes required. The material specification changes involved customer changes from a grade of steel we had previous experience with to a new grade of high-strength steel which, not only

had we had no

21

experience working with, was also new to the customer. As a result of this new material, we could not simulate the flow of the steel in the dies. Due to the lack of historical data as to the material flow, we, in some cases, had to re-cut the dies up to eight times to get the part within specifications with this material. This created capacity constraints in our machining and tryout areas. As a result of these constraints, the customer required that we utilize specified outside die shops to complete certain dies, which were constructed internally. The customer decided that our internal capacity had become overburdened as a result of the rework being performed by us to obtain part specifications with the new high-strength steel. Had we not outsourced this work, the customer may have cancelled the contracts and charged us for all of the added costs incurred. In addition, the customer may have discontinued the scheduled progress payments, which would have caused severe cash-flow problems for us. Management took the position that by outsourcing this work directly, the added costs were better controlled and prevented potential cash-flow difficulties.

Despite the aforementioned fourth quarter problems, we did realize an overall profit on these two programs. The total amount of revenue on these contracts was \$43.0 million with a net margin of \$0.2 million.

#### COST OF GOODS SOLD.

Cost of goods sold decreased from \$30.7 million for 2003 to \$30.0 million for 2004. However, as a percent of sales, cost of goods sold increased from 90% for 2003 to 122% for 2004. Direct costs (materials and labor) decreased by \$0.8 million, from \$21.4 million for 2003 to \$20.6 million for 2004. Engineering expense remained consistent at \$2.4 million for both 2003 and 2004. Lastly, of the cost of goods sold, manufacturing overhead remained consistent at \$7.0 million for 2004 versus \$6.9 million for 2003. Additional details of these changes in cost of sales for 2003 and 2004 are as follows:

- Direct materials expense decreased from \$6.4 million for 2003 to \$4.2 million for 2004 and as a percent of sales from 19% to 17%. This decrease was largely due to lower contract material requirements during 2004 as compared to 2003. Outside services expense increased from \$9.4 million for 2003 to \$9.7 million for 2004 and increased as a percent of sales from 27% to 39%. Of the outsourced services expense for 2004, approximately \$4.0 million of the \$9.7 million was in excess of amounts estimated for certain jobs and created extensive cost overruns on those particular jobs as described in the aforementioned Revenue section.
- Direct labor expense increased from \$5.7 million for 2003 to \$6.7 million for 2004 and as a percent of sales, direct labor increased from 17% to 27%. This change was a result of us incurring a 4% increase in direct labor hours, from 304,000 hours in 2003 to 318,000 in 2004. Of the total direct labor expense, regular or straight time increased by \$0.7 million and as a percent of sales increased from 11% for 2003 to 18% for 2004. Overtime expense increased from \$1.9 million for 2003 to \$2.3 million for 2004 and as a percent of sales increased from 6% for 2003 to 9% for 2004. We incurred added labor costs of approximately \$3.5 million related to the construction and buy-off difficulties noted above.

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

### SELLING AND ADMINISTRATIVE EXPENSE.

Selling and administrative expense for 2004 increased by \$0.3 million to \$2.0 million as compared to \$1.7 million for 2003. As a percent of sales, selling and administrative expense increased from 5% for 2003 to 8% for 2004. This largely consisted of increases of \$141,000 in administrative and sales salaries, \$79,000 in State of Michigan Single Business Tax, \$50,000 in deferred compensation expense and \$38,000 in public company expenses.

### INTEREST EXPENSE.

Interest expense increased from \$0.8 million for 2003 to \$0.9 million for 2004. This increase was largely due to us incurring additional interest expense related to issuance of \$3.0 million subordinated debt during the fourth quarter of 2004.

### FEDERAL INCOME TAX.

Our effective income tax rates were 0% for the years ended August 31, 2003, 2004 and 2005. We had approximately \$164,000 of alternative minimum tax credits as of August 31, 2005, the use of which does not expire, and federal net operating loss carryforwards of \$7,304,000, which expire, if unused, in fiscal 2022, 2023 and 2025. We have a valuation allowance of \$3,737,000 and \$4,615,000 at August 31, 2004 and 2005, respectively, for net deferred tax assets, which may not ultimately be realized.

### LIQUIDITY AND CAPITAL RESOURCES.

For the fiscal year ended August 31, 2005, our cash flow generated from operating activities was \$3.5 million. This largely resulted from a decrease of \$7.8 million in accounts receivable, net of allowance for uncollectible accounts receivable, a \$2.2 million increase in contracts in process and a \$1.4 million decrease in accounts payable. From investing activities, we incurred \$0.2 million in additions to property, plant and equipment and a \$0.6 million decrease in other assets consisting largely of debt financing costs, which were expensed prior to the scheduled amortization due to retirement of the related debt. We used net cash in financing activities of

22

\$3.6 million. The cash used in financing activities included our May 17, 2005 new senior financing with gross proceeds of \$9.2 million. We applied \$4.3 million to retire our previous senior debt facility with Comerica Bank, \$3.2 million to retire our subordinated debt with Hillstreet, and \$0.5 million in fees to Laurus (new lender). The net remaining funds, \$1.2 million, were utilized for general working capital purposes. Subsequent to this financing, we have borrowed \$2.5 million under the Convertible Revolving Working Capital Credit Line to finance the increase in our contracts in process.

On May 17, 2005, we entered into a new senior loan facility agreement with Laurus as evidenced by the Agreements. Pursuant to these Agreements, we received a Term Loan in the aggregate principal amount of \$3.2 million as well as a Revolving Credit Facility with a maximum availability of \$10.0 million. Each of the Term Loan and any loans under the Revolving Facility shall be convertible by Laurus into shares of our common stock at a rate of \$1.66 per share. In addition, as part of the agreement, we issued an option to purchase 650,000 shares of our Common Stock at an exercise price of \$.01.

We, in issuing an option for 650,000 shares at \$.01 per share, triggered price

Edgar Filing: RIVIERA TOOL CO - Form 424B2

protection provisions in previously issued warrants. Under the previous warrant agreements, if we issued warrants or options below the strike price of the warrants, the exercise price of the outstanding warrants would adjust to the lower exercise price. We had previous warrants for 315,792 shares of common stock with 157,896 shares priced at an exercise price of \$5.07 per share and 157,896 priced at \$5.53 per share. During 2005, certain warrant holders exercised such warrants at the adjusted price and we issued an additional 210,528 shares of common stock.

We believe that the revolving line of credit and the funds generated from operations, will be sufficient to cover anticipated cash needs through fiscal 2006. However, depending on the level of future sales, and the terms of such sales, an expanded credit line or other financial instruments may be necessary to finance increases in trade accounts receivable and contracts in process. We believe we will be able to obtain such expanded credit line and/or other financing, if required.

The table below presents our significant contractual obligations as of August 31, 2005:

	TOTAL	LESS THAN 1 YEAR	1-3 YEARS	3-5 YEARS	MORE THAN 5 YEARS
Debt (1) .....	\$12,755,555	\$3,430,704	\$ 9,324,851	\$ --	\$ --
Operating Lease .....	15,192,322	988,298	2,052,467	2,154,899	9,996,658

We are exposed to market risk from changes in interest rates on our debt obligations. We do not currently use any derivative financial instruments to manage our interest rate risk.

INFLATION

We have no long-term, fixed price supply contracts. Although the average set of dies takes approximately ten months from inception to shipment, any significant direct material costs are incurred at the beginning of the die manufacturing process. Historically, we have been able to reflect increases in the prices of labor and material in our selling prices, however under current industry pricing pressures, we are unsure if this will continue to be the case in the future.

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

### DIRECTORS

Listed below are the names of our Directors, the year in which such Director's respective term expires, and a brief account of the business experience of each Director during the past five years.

NAME -----	POSITION -----	TERM EXPIRES -----	AGE ---
Kenneth K. Rieth...	President and Chief Executive Officer	2008	47
Dr. Jay S. Baron...	Director	2007	40
James V. Gillette..	Director	2008	49
J.DannEngels.....	Director	2006	50

KENNETH K. RIETH. Mr. Rieth has been Chief Executive Officer and President of Riviera Tool Company since 1980.

DR. JAY S. BARON. Dr. Jay S. Baron has been a Director of Riviera Tool Company since 2002. Dr. Baron holds a Ph.D. and Master's Degree in Industrial and Operations Engineering. Dr. Baron currently is Director of Manufacturing Systems for Altarum - Center for Automotive Research. Previously, Dr. Baron was the Manager of Manufacturing Systems for the University of Michigan's OSAT department.

JAMES V. GILLETTE. Mr. Gillette has been a Director of Riviera Tool Company since January 2004. Mr. Gillette currently is Director of Supplier Analysis of CSM Worldwide, a provider of specialized global automotive industry advice to commercial and investment banks, private equity firms, investment analysts and others. Previously, Mr. Gillette spent thirteen years as vice president of automotive forecasting at IRN, Inc.

J. DANN ENGELS. Mr. Engels has been a Director of Riviera Tool Company since January 2005. Mr. Engels holds Bachelor degrees in Letters and Engineering Industrial and Operations Engineering. In addition, he holds Masters' Degrees in both Mechanical Engineering and Industrial and Operations Engineering. Mr. Engels is the founder and director of Global Rush, an international automotive parts and tooling sourcing strategist, Optiprise, a lean manufacturing consulting business, and ISC Software, a materials handling software developer.

### EXECUTIVE OFFICERS AND SIGNIFICANT EMPLOYEES

NAME -----	POSITION -----	AGE ---
Kenneth K. Rieth...	President, CEO and Director	47
Peter C. Canepa....	Secretary, Treasurer and CFO	47
Thomas J. Winters..	Vice President of Sales	64

Mr. Rieth's biography is set forth above.

PETER C. CANEPA. Mr. Canepa has been our Chief Financial Officer, Secretary and Treasurer since March 1994.

THOMAS J. WINTERS. Mr. Winters has been our Vice President of Sales since 1997.

## EXECUTIVE COMPENSATION

Directors who are employees of Riviera Tool Company receive no additional compensation for serving on the board of directors. On an annual basis, a non-employee director receives a fee of \$5,000.

The following table provides information about the compensation of our Chief Executive Officer and two other most highly compensated executive officers at fiscal years ended August 31, 2003, 2004, and 2005. Two additional tables provide detailed information about the employees' stock options.

## SUMMARY COMPENSATION TABLE

NAME AND PRINCIPAL POSITION	FISCAL YEAR	ANNUAL SALARY	COMPENSATION BONUS (1)	OTHER ANNUAL COMPENSATION	RESTRICTED STOCK AWARD	SECURITIES UNDERLYING OPTIONS SAR

Peter C. Canepa - Secretary, Treasurer and CFO.....	--	--	30,000 (2)	\$0
Thomas J. Winters Vice President of Sales...	--	--	30,000 (2)	\$0

26

- (1) On November 2, 1998, Mr. Rieth was granted a stock option for 50,000 shares, exercisable at \$6.625 per share under the 1998 Key Employee Stock Option Plan, expiring November 2, 2008. On November 24, 2000, Mr. Rieth was granted a stock option for 50,000 shares, exercisable at \$3.75 per share after November 24, 2000 and expires November 2, 2009.
- (2) On November 2, 1998, Messrs. Winters and Canepa were granted stock options for 10,000 shares each, exercisable at \$6.625 per share under the 1996 Incentive Employee Stock Option Plan, as amended, expiring November 2, 2008. On November 24, 2000, Messrs. Winters and Canepa were granted stock options for 20,000 shares each, exercisable at \$3.75 per share after November 24, 2000 and expire November 2, 2009.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of the compensation committee during the fiscal year ended 2005 were J. Dann Engels, James V. Gillette and Dr. Jay S. Baron. Neither Messrs. Engels, Gillette nor Dr. Baron were ever an officer or employee of us or any of our subsidiaries, and none of them had any relationship requiring disclosure by us under Item 404 of Regulation S-K for the fiscal year ended 2005.

COMPENSATION COMMITTEE REPORT

The duty of the Committee is to recommend to the Board of Directors the remuneration arrangements for Kenneth K. Rieth, our President and Chief Executive Officer, as well as grant stock options under our 1996 Incentive Stock Option Plan, as amended, and the 1998 Key Employee Stock Option Plan. Our Board of Directors has given Mr. Rieth the authority to set the compensation for senior management.

COMPENSATION PROGRAMS

BASE SALARY

The Committee reviews each officer's salary annually. In determining appropriate salary levels, consideration is given to scope of responsibility, experience, Company and individual performance as well as pay practices of other companies relating to executives with similar responsibility.

In addition, with respect to the base salary of Mr. Rieth, the Compensation Committee has acknowledged the longevity of Mr. Rieth's service and our belief that Mr. Rieth is an excellent representative within the industry. In assessing Mr. Rieth's compensation, the committee engaged an independent firm to

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

perform a review of his proposed compensation. Upon completion of such review, the Board of Directors established Mr. Rieth's base salary on April 25, 2003. This base compensation consists of a regular payroll payment of \$250,000 per year plus an annual bonus equal to 3.5% of our income from operations before such bonus expense. Mr. Canepa received a base salary of \$140,000 for fiscal 2005.

### BONUS AWARDS

Our officers may be considered for annual cash bonuses, which are awarded to recognize and reward corporate and individual performance based on meeting specified goals and objectives. The plan in effect for fiscal 2005 for Mr. Rieth did not provide a bonus to Mr. Rieth. In determining a bonus to Mr. Rieth, the Committee reviews compensation levels and financial results available to it for chief executive officers for similarly sized companies as well as those located near our headquarters. Mr. Rieth recommends to the Committee Mr. Canepa's bonus based on his review of corporate and his individual performances as well as the performance bonus the management team awards to our employees other than Messrs. Canepa and Rieth.

### STOCK OPTIONS

Under our 1996 Incentive Stock Option Plan, as amended, stock options may be granted to our key employees including Messrs. Rieth and Canepa. The number of options granted is determined by the subjective evaluation of the person's ability to influence our long-term growth and profitability. For fiscal 2005, no stock options were issued under such plan.

Under our 1998 Key Employee Stock Option Plan, stock options may be granted to our key employees and directors including Messrs. Rieth, Baron, Engels, Gillette and Canepa. The number of options granted is determined by the subjective evaluation of the person's ability to influence our long-term growth and profitability. For fiscal 2005, no stock options were issued under such plan.

27

Stock options are granted with an exercise price equal to the market price of the Common Shares on the date of grant. Since the value of an option bears a direct relationship to our stock price, it is an effective incentive for employees to create value for shareholders. The Committee therefore views stock options as an important component of our future compensation policy.

The Compensation Committee

James V. Gillette  
Jay S. Baron, Secretary  
J. Dann Engels

### STOCK PERFORMANCE GRAPH

The following line graph compares the cumulative total shareholder return for our Common Shares with the cumulative total return of the Standards & Poors 500 Composite Index and an index of our peer companies.

The comparison assumes \$100 was invested on August 31, 2000 in our Common Shares, the S & P 500 Composite Index and the peer group. The companies in the peer group, all of which are in the automotive industry, are as follows:

SELLING SECURITYHOLDER

Laurus may from time to time offer and sell pursuant to this prospectus any or all of the shares of common stock listed below. When we refer to "Laurus" in this prospectus, we mean those persons listed in the table below, as well as the pledgees, donees, assignees, transferees, successors and others who later hold any of Laurus' interests. In the event that Laurus enters into a transaction with a pledgee, donee, assignee, transferee or successor, we will amend or supplement this prospectus to specifically name such individual as a

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

"Selling Securityholder".

We have agreed to file a registration statement, of which this prospectus is a part, to register the shares of Laurus set forth in the table below in order to permit Laurus to sell these shares from time to time as described in "Plan of Distribution" on page 37.

We cannot determine the actual number of shares of our common stock that we will issue, because of the variables discussed in this prospectus. Shares of our common stock sold to Laurus will not be freely tradeable by Laurus until they are registered under applicable securities laws or an exemption from such registration is available. However, we are required to register for sale all shares of our common stock issued or issuable to Laurus in connection with the Agreements.

The table below sets forth the number of shares being registered for sale as of the date of this prospectus and sets forth the number of shares of common stock known by us to be beneficially owned by Laurus as of May 31, 2006. Laurus has not had a material relationship with us within the past three years other than as a result of the ownership of our shares of common stock or other securities as described in this prospectus and other than in connection with providing the credit facility discussed in this prospectus. The shares offered by this prospectus may be offered from time to time by Laurus. The percent of beneficial ownership for Laurus is based on 4,257,601 shares of our common stock outstanding as of May 31, 2006. Laurus may have acquired, sold or transferred, in transactions exempt from registration requirements of the Securities Act of 1933, as amended, some or all of their common stock since the date as of which the information in the table is presented. We are not making any representation that any shares covered by this prospectus will or will not be offered for resale. Laurus reserves the right to accept or reject, in whole or in part, any proposed sale of shares.

Information about Laurus may change over time. Any changed information will be set forth in prospectus supplements. From time to time, additional information concerning ownership of our common stock may rest with certain holders thereof not named in the table below and of whom we are unaware.

SELLING SECURITYHOLDER	NUMBER OF SHARES OF COMMON STOCK BENEFICIALLY OWNED (1)	NUMBER OF SHARES OF COMMON STOCK TO BE SOLD	NUMBER OF SHAR COMMON STOC BENEFICIALLY O AFTER OFFERI
Laurus Master Fund, Ltd. (2)	3,256,791	3,256,791	-0-

\* Less than one percent (1%).

(1) The figures for the number of shares and the percentage of shares beneficially owned by Laurus after the offering are based on the assumption that Laurus will sell all of the shares registered for sale hereby. Because Laurus may offer all, some or none of the shares pursuant to this prospectus, and because there are currently no agreements, arrangements or understandings with respect to the sale of any of the shares, no estimate can be given as to the number of shares that will be held by Laurus after completion of the sale of shares hereunder. See "Plan of Distribution" On page 37.

(2) The number of shares being offered in this prospectus represent the maximum number of shares issuable in connection with the exercise of the conversion

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

rights having exercise prices of \$1.66 per share and option rights having an exercise price of \$0.01 per, as such number may be adjusted upon the occurrence of dilutive events in accordance with Rule 416 under the Securities Act.

Laurus has not informed us of its current plans with respect to the disposition of shares of our common stock which are covered by this prospectus.

32

### DESCRIPTION OF RIVIERA TOOL COMMON STOCK

The following summary of our common stock is subject in all respects to applicable Michigan law, our articles of incorporation and our by-laws. See "Where You Can Find More Information" on page 3.

#### General

The authorized capital stock of Riviera Tool consisted of 9,798,575 shares of common stock and 205,000 shares of preferred stock, no par value. As of May 31, 2006, 4,257,601 shares of common stock were issued and outstanding and no shares of preferred stock were issued and outstanding. Our shares of common stock, when issued in accordance with the various conversion rights and option rights, will be validly issued and outstanding and will be fully paid and non-assessable.

#### Transfer Agent and Registrar

Continental Stock Transfer & Trust, 17 Battery Place, New York, New York 10064 is the transfer agent and registrar of our common stock.

#### Board of Directors

Our by-laws provide that the Board of Directors is divided into three classes with each class elected for a three-year term. The Board currently consists of four members.

#### Dividends

We have never declared or paid any cash dividends on our common stock. We presently intend to retain all future earnings for use in our business and do not anticipate paying any cash dividends on our common stock in the foreseeable future.

#### Michigan Anti-Takeover Laws

Under Chapter 7A of the Michigan Business Corporation Act, "business combinations" (defined to include, among other transactions, mergers, consolidations, certain dispositions of assets or shares, and certain recapitalizations) between certain corporations or their domestic subsidiaries and an "interested shareholder" (defined as the direct or indirect beneficial owner of at least 10% of the voting power of a covered corporation's outstanding shares or an affiliate of the corporation which had such 10% ownership within the preceding two years) can only be consummated if approved by at least 90% of the votes of each class of the corporation's shares entitled to vote thereon and by at least two-thirds of such votes not held by the interested shareholder or its affiliates, unless certain price and other conditions imposed by Chapter 7A are satisfied. The board of directors may elect to exempt business combinations with a particular interested shareholder from the requirements of Chapter 7A at

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

any time before the interested shareholder attains that status.

Under Chapter 7B of the Michigan Business Corporation Act, "control shares" (defined to mean shares, which when added to all other shares of the corporation owned by a person or with respect to which that person may exercise or direct the exercise of voting power, would entitle that person, immediately after the acquisition of the shares, to exercise or direct the exercise of voting power in the election of directors in excess of threshold levels of 20%, 33 1/2% or a majority of all voting power) acquired in a "control share acquisition" (defined to include the acquisition, directly or indirectly, by any person of ownership of or the power to exercise the voting power with respect to, issued and outstanding control shares) have the same voting rights as were accorded the shares before the control share acquisition only to the extent granted by resolution approved by the shareholders of the corporation. To have such a resolution considered by the shareholders of the corporation, the acquiring person must deliver an "acquiring person statement" to the corporation and the Michigan Department of Commerce, Corporations, Securities and Land Development Bureau. To be approved by the shareholders, the resolution must be approved by a majority of the votes cast by the holders of the common stock and a majority of the votes cast by the holders of shares of each class or series entitled to vote thereon, excluding "interested shares" (defined to include shares held by the acquiring person or member of his group, an officer of the corporation and any director who is also an employee of the corporation). The practical effect of Chapter 7B of the Michigan Business Corporation Act is to require that a person making a tender offer for shares of a corporation condition the offer on shareholder approval of the person's right to vote the shares to be acquired.

33

If authorized by a corporation's articles of incorporation or bylaws, control shares acquired in a control share acquisition with respect to which no acquiring person statement has been filed may be redeemed by the corporation at any time more than 60 days after the end of the control share acquisition at "fair value." If authorized by the corporation's articles of incorporation or bylaws, control shares acquired in a control share acquisition which are not accorded full voting rights may be redeemed by the corporation at "fair value." Unless otherwise provided in the corporation's articles of incorporation or bylaws, in the event that control shares acquired in a control share acquisition are accorded full voting rights and the acquiring person has acquired a majority of all voting power of the corporation, the shareholders of the corporation, other than the acquiring person, have dissenters' rights. "Fair value" means a value not less than the highest price paid per share by the acquiring person in the control share acquisition.

The provisions of Chapter 7B automatically apply to us, although our board of directors or our shareholders may elect to remove us from the application of Chapter 7B. Our board of directors has no plans to elect to remove such application and is not aware of any plans or proposals to do so. Further, none of the provisions discussed above has been included in our Articles of Incorporation or Bylaws.

The foregoing discussion concerning the provisions of the Michigan Business Corporation Act is qualified in its entirety by reference to such Michigan Business Corporation Act provisions.

Securities and Exchange Commission on Indemnification

Our by-laws provide for a broad right for indemnification for any

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

person who is or was involved in any manner in any threatened, pending, or completed investigation, claim, action, suit, or proceeding by reason of the fact that the person had agreed to become a director, officer, employee, or agent of our company.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been informed that in the opinion of the Commission this type of indemnification is against public policy as expressed in the Act and is, therefore unenforceable. In the event that a claim for indemnification against liabilities arising under the Securities Act (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by any director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of the submitted issue.

### Voting Rights

Each share of common stock is entitled to one vote in the election of directors and other matters. Common stockholders are not entitled to preemptive or cumulative voting rights.

### Registration Rights

In connection with the Agreements, we entered into a Registration Rights Agreement with Laurus on May 17, 2005 (the "Registration Rights Agreement") pursuant to which we agreed to provide Laurus with registration rights for their shares of our common stock. Under the terms of the Registration Rights Agreement, we are obligated to file an additional registration statement registering the resale of shares of the common stock issuable upon the exercise of conversion rights granted pursuant to an additional minimum borrowing note evidencing an aggregate principal amount of up to \$2,000,000 of loans made pursuant to an additional minimum borrowing note. If the registration statement is not filed within 60 days following the date of the funding of such additional tranches of loans, or declared effective within 60 days thereafter, or if the registration is suspended other than as permitted in the Registration Rights Agreement, we are obligated to pay Laurus certain fees and certain obligations may be deemed to be in default.

34

### PLAN OF DISTRIBUTION

Laurus and any of our pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. Laurus may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

block as principal to facilitate the transaction;

- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- broker-dealers may agree with Laurus to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise; or
- any other method permitted pursuant to applicable law.

Laurus may also sell shares under Rule 144 under the Securities Act of 1933, if available, rather than under this prospectus.

Broker-dealers engaged by Laurus may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from Laurus (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. Laurus does not expect these commissions and discounts relating to its sales of shares to exceed what is customary in the types of transactions involved.

In connection with the sale of our common stock or interests therein, Laurus may enter into hedging transactions with broker-dealers or other financial institutions. Laurus may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

Laurus and any broker-dealers or agents that are involved in selling the shares may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Laurus has informed us that it does not have any agreement or understanding, directly or indirectly, with any person to distribute our common stock.

We have agreed to indemnify Laurus against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because Laurus may be deemed to be an "underwriter" within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Laurus has advised us that it has not entered into any agreements, understandings or arrangements with any underwriter or broker-dealer regarding the sale of the shares. There is no underwriter or coordinating broker acting in connection with the proposed sale of the shares by Laurus.

We agreed to keep this prospectus effective until the earlier of (i) the date on which all the shares have been sold or (ii) the date on which the shares may be sold immediately without registration under the Securities Act and without volume restrictions pursuant to Rule 144(k), as determined by our counsel. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of the distribution. In addition, Laurus will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of our common stock by Laurus or any other person. We will make copies of this prospectus available to Laurus and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

We will pay all expenses associated with filing and maintaining the effectiveness of this registration statement. With the exception of any brokerage fees and commission which are the obligation of Laurus, we are responsible for the fees, costs and expenses of this offering which are estimated to be \$75,000, inclusive of our legal and accounting fees, printing costs, "blue sky," filing and other miscellaneous fees and expenses.

#### LEGAL MATTERS

Certain legal matters with respect to the validity of our common stock will be passed upon for us by Law Weathers & Richardson, P.C., 800 Bridgewater Place, 333 Bridge Street N.W., Grand Rapids, Michigan, 49504. Law Weathers & Richardson, P.C. does not have any interests in us and has never been employed by us on a contingent basis.

#### EXPERTS

The financial statements as of August 31, 2005 and 2004, and for each of the three years in the period ended August 31, 2005, included in this prospectus have been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report appearing herein (which report expresses an unqualified opinion on the financial statements and includes an explanatory paragraph referring to matters that raise a substantial doubt our ability to continue as a going concern) and have been so included in reliance upon the report of such firm given upon their authority as experts in accounting and auditing.

#### CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

We have had no disagreements on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures with any of our accountants for the year ended August 31, 2005.

On January 13, 2006, Deloitte & Touche LLP ("D&T") informed us that

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

D&T was resigning as our independent outside auditor. We immediately began our process to find another suitable independent outside auditor and D&T agreed to assist us in our transition to such new independent auditor.

The reports of D&T on our financial statements for each of the two fiscal years ended August 31, 2005 and 2004 did not contain an adverse opinion, disclaimer of opinion nor was qualified or modified as to uncertainty, audit scope, or accounting principles, except for the reports were modified to reflect substantial doubt as to our ability to continue as a going concern. In connection with the audits of our financial statements for each of the two fiscal years ended August 31, 2005 and 2004, and through the filing of our Quarterly Report on Form 10-Q for the first quarter of fiscal 2006, there were (1) no disagreements with D&T on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of D&T, would have caused D&T to make reference to the matter in its reports and (2) no reportable events. During each of the two fiscal years ended August 31, 2005 and 2004, and through the filing of our Quarterly Report on Form 10-Q for the first quarter of fiscal 2006, no information is required to be reported under Item 304(a)(1)(v) of Regulation S-K.

On February 14, 2006, our Board of Directors announced the appointment of BDO Seidman, LLP as our independent auditor.

F-4

RIVIERA TOOL COMPANY  
NOTES TO CONDENSED FINANCIAL STATEMENTS

MAY 31, 2006

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim condensed financial statements (the "Financial Statements") of Riviera Tool Company (the "Company") have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, the Financial Statements do not include all the information and footnotes normally included in the annual financial statements prepared in accordance with generally accepted accounting principles. The August 31, 2005 amounts are derived from the audited financial statements as of and for the year ended August 31, 2005 contained herein on page F-8

In the opinion of management, the Financial Statements reflect all adjustments (consisting only of normal recurring adjustments) necessary to present fairly such information in accordance with generally accepted accounting principles. The Financial Statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Form 10-K dated November 30, 2005, for the fiscal year ended August 31, 2005.

The Financial Statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During fiscal 2005, the Company sustained a loss from operations of \$498,282 and a net loss of \$2,502,248. This loss resulted in an accumulated deficit of \$13,148,735 as of August 31, 2005. These factors, among other things, raise substantial doubt about the Company's ability to continue as a going concern. For the three-month and nine-month periods ended May 31, 2006, the Company had net income of \$18,390 and a net loss of \$557,764, respectively. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company believes that the revolving line of credit and the funds generated from operations, will be sufficient to cover anticipated cash needs for the foreseeable future. However, depending on the Company's level of future sales, terms of such sales, financial performance and cash flow of existing contracts such financing may not be sufficient to support operations. Therefore, the Company may be required to seek additional sources of funding.

The results of operations for the three-month and nine-month periods ended May 31, 2006 may not be indicative of the results to be expected for the full year.

NOTE 2 - COSTS AND BILLINGS ON CONTRACTS IN PROCESS

Costs and billings on contracts in process are as follows:

Edgar Filing: RIVIERA TOOL CO - Form 424B2

	MAY 31, 2006	AUGUST 31, 2005
	-----	-----
Costs incurred on contracts in process under the percentage of completion method .....	\$12,995,257	\$7,042,817
Estimated gross profit/(loss) .....	444,000	(25,000)
	-----	-----
Total .....	13,439,257	7,017,817
Less progress payments received and progress billings to date .....	10,512,810	4,173,373
	-----	-----
Costs in excess of billings on contracts in process .....	\$ 2,926,447	\$2,844,444
	-----	-----

Included in estimated gross profit as of May 31, 2006 and August 31, 2005, are jobs with losses accrued of \$659,516 and \$190,430, respectively.

	=====	=====

On December 9, 2005, the Company agreed to convert \$150,000 of principal of its Convertible Term Note into 272,727 shares of common stock at a conversion rate of \$.55 per share. Under such conversion, the Company was not required to pay the Convertible Term Note monthly installment for January 2006 (\$96,970) with the balance (\$53,030) being applied towards the February payment.

F-7

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders  
 Riviera Tool Company  
 Grand Rapids, Michigan

We have audited the accompanying balance sheets of Riviera Tool Company (the "Company") as of August 31, 2005 and 2004, and the related statements of operations, common stockholders' equity and cash flows for each of the three years in the period ended August 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of Riviera Tool Company as of August 31, 2005 and 2004, and the results of its operations and its cash flows for each of the three years in the period ended August 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that Riviera Tool Company will continue as a going concern. As discussed in Note 2 to the financial statements, at August 31, 2005, the Company has significant current debt, was not in compliance with certain terms of its debt agreements, and had losses from operations and a retained deficit that raise substantial doubt about its ability to continue as a going concern. Management's discussion concerning these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

RIVIERA TOOL COMPANY  
NOTES TO FINANCIAL STATEMENTS

NOTE 1 -- NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS.

Riviera Tool Company (the "Company") designs, develops and manufactures custom and complex large scale metal stamping die systems used in the high-speed production of sheet metal stamped parts and assemblies for the automotive industry. These systems are mainly sold to DaimlerChrysler, Ford Motor Company, General Motors Corporation, Mercedes-Benz, BMW and their tier one suppliers of sheet metal stamped parts and assemblies.

USE OF ESTIMATES.

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Although management believes the estimates are reasonable, actual results could differ from those estimates.

### SIGNIFICANT ESTIMATES.

The most significant estimates made by the Company are in the determination and recognition of revenue on contracts in process. Management's best estimates of costs to complete are based on costs incurred, engineers' cost projections, experience with customers or particular die systems and other analyses. Although management's estimates are not expected to materially change in the near term, the costs the Company could ultimately incur could differ from the amounts estimated.

### REVENUE RECOGNITION.

The Company recognizes revenue on time and material contracts utilizing the completed-contract method. Revenue is recognized on all other contracts utilizing the percentage-of-completion method. Under the completed-contract method, the contract is considered complete when all costs have been incurred and the project has been approved by the customer. Under the percentage-of-completion method estimated contract earnings are based on total estimated contract profits multiplied by the ratio of labor hours incurred to total estimated labor hours on the contract. Provisions for total estimated losses on contracts in process are recognized in the period such losses are determined. Changes in job performance, conditions and estimated profitability may result in revisions to costs and income and are recognized in the period such revisions are determined.

### ACCOUNTS RECEIVABLE.

As of August 31, 2004 and 2005, the Company had a \$0 and \$153,124 reserve for estimated uncollectible accounts receivable, and had \$162,795 and \$84,365 of unbilled accounts receivable (completed contracts for which revenue earned exceeds amounts billed), respectively.

### INVENTORIES.

Inventories are recorded at the lower of cost (first-in, first-out method) or market.

### PROPERTY, PLANT AND EQUIPMENT.

Property, plant and equipment are recorded at cost. Depreciation is computed using the straight-line method over the useful life of the asset for financial reporting purposes as follows:

F-13

RIVIERA TOOL COMPANY  
NOTES TO FINANCIAL STATEMENTS

NOTE 1 -- NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

### PROPERTY, PLANT AND EQUIPMENT - CONTINUED

ASSET -----	USEFUL LIVES -----
- Leasehold Improvements .....	7-20
- Office Furniture and Fixtures .....	3-10
- Machinery and Equipment .....	5-20
- Computer Equipment and Software .....	5-20
- Transportation Equipment .....	5-10

Expenditures for maintenance and repairs are charged to expense as incurred. The Company capitalizes interest cost associated with construction in process. There was no capitalized interest in 2003, 2004 and 2005.

#### IMPAIRMENT OF LONG-LIVED ASSETS.

The Company reviews long-lived assets for impairment if changes in circumstances or the occurrence of events suggest the remaining value may not be recoverable. An asset is deemed impaired and written down to its fair value if estimated related total future undiscounted cash flows are less than its book (carrying) value. The Company, in performing its evaluation of long-lived assets for impairment, utilized financial projections for five future years including total undiscounted cash flow. The analysis concluded that the estimated total undiscounted future cash flows were in excess of the carrying value of long-lived assets. Had the analysis concluded that the total undiscounted future cash flows been below the carrying value, an impairment charge of the difference between the carrying value and the lower of the total discounted cash flows or fair value would have been recorded.

#### PERISHABLE TOOLING.

Perishable tools are generally used up over five years, reported at cost as non-current assets in the balance sheet and amortized evenly over their useful lives.

#### INCOME TAXES.

Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future. Such deferred income tax asset and liability computations are based upon enacted tax laws and rates applicable to periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

#### EARNINGS PER SHARE.

Basic earnings per share ("EPS") excludes dilution and is computed by dividing earnings/(loss) available to common stockholders by the weighted-average common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised. Diluted EPS is computed by

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

increasing the weighted average number of shares outstanding by the dilutive effect, if any, of the issuance of common stock for options outstanding under the 1996 Incentive Employee Stock Option Plan, as amended, 1998 Key Employee Stock Option Plan, convertible debt and the other non-employee options. Weighted average shares issuable upon the exercise of stock options that were not included in the (loss) earnings per share calculations were 650,000 in the period ended August 31, 2005.

### STOCK-BASED COMPENSATION.

The Company has adopted Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-based Compensation," and as permitted by this standard, will continue to apply the recognition and measurement principles prescribed under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", to its stock-based compensation (see Note 10). No stock-based compensation cost is

F-14

### RIVIERA TOOL COMPANY NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 -- NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

##### STOCK-BASED COMPENSATION - CONTINUED.

reflected in net income (loss), as all options granted under its plan had an exercise price equal to the market value of the underlying common stock on the date of grant. Had the Company applied the fair value recognition principles of SFAS No. 123, there would be no impact on net income (loss) as of August 31, 2003, 2004 and 2005.

##### BUSINESS SEGMENT REPORTING.

Based on the nature of its operations and products, the Company considers its business to be a single operating segment.

##### NEW ACCOUNTING STANDARDS.

In December, 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 123 (R), "Share-Based Payments" that will require compensation costs related to share-based payment transactions to be recognized in the financial statements. With limited exceptions, the amount of compensation cost will be measured based on the grant date fair value of the equity or liability instruments issued. In addition, liability awards will be re-measured each reporting period. Compensation costs will be recognized over the period that an employee provides services in exchange for the award. SFAS No. 123 (R) replaces SFAS No. 123, "Accounting for Stock-Based Compensation", and supercedes Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations. SFAS No. 123 (R) becomes effective at the beginning of our fiscal year ending August 31, 2006. We expect that the impact of adopting SFAS No. 123 (R) will not be material.

#### NOTE 2 -- BASIS OF PRESENTATION

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During 2005, the Company sustained

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

a loss from operations of \$498,282 and a net loss of \$2,502,248. This loss resulted in an accumulated deficit of \$13,148,735 as of August 31, 2005. These factors, among other things, raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company believes that the revolving line of credit and the funds generated from operations, will be sufficient to cover anticipated cash needs through fiscal 2006. However, depending on Company's primary lenders' willingness to extend the due date of the overadvance facility as well as the level of future sales, terms of such sales, financial performance and cash flow of existing contracts such financing may not be sufficient to support operations. Therefore, the Company may be required to seek additional sources of funding.

### NOTE 3 -- SALES TO MAJOR CUSTOMERS

The nature of the Company's business is such that a limited number of customers comprise a majority of its business in any given year, even though the specific customers will differ from year to year. The following table summarizes the Company's sales to customers that represent more than 10% of the annual sales, in the particular year presented, of the Company (in 000's):

F-15

### RIVIERA TOOL COMPANY NOTES TO FINANCIAL STATEMENTS

### NOTE 3 -- SALES TO MAJOR CUSTOMERS - CONTINUED

CUSTOMER -----	AUGUST 31					
	2003	%	2004	%	2005	%
-----	-----	---	-----	---	-----	---
- General Motors .....	\$ 450	1%	\$ 938	4%	\$ 3,425	18%
- L+W Engineering .....	--	--	--	--	2,429	13%
- DaimlerChrysler AG ..	1,925	6%	209	1%	1,372	7%
- Oxford Automotive ...	19,152	56%	18,640	75%	1,022	5%
- Others .....	12,557	37%	4,902	20%	11,026	57%
Total Sales .....	\$34,084	100%	\$24,689	100%	\$19,274	100%

Outstanding account receivables from three of these customers represented approximately 90 percent and 60 percent at August 31, 2004 and 2005 of the total accounts receivable, respectively.

During the year ended August 31, 2005, Gestamp Alabama ("Gestamp"), the alleged successor to Oxford Automotive, Inc. ("Oxford") and Mercedes-Benz U.S. International, Inc. ("MBUSI") brought a civil action against the Company. On August 1, 2005, the Company reached a Settlement Agreement and Mutual Release with Gestamp and MBUSI. Under such settlement, Gestamp and MBUSI paid certain claims against the Company by its' subcontractors and the Company has agreed to provide certain services to Gestamp and MBUSI over the next three years. The value of such services total \$1.8 million which was accrued and expensed in

Edgar Filing: RIVIERA TOOL CO - Form 424B2

fiscal 2004 and is recorded as a liability of the Company on its August 31, 2005 balance sheet.

NOTE 4 -- COSTS AND BILLINGS ON CONTRACTS IN PROCESS

Costs and billings on contracts in process are as follows:

	AUGUST 31	
	2004	2005
- Costs incurred on contracts in process under the percentage-of-completion method .....	\$22,265,744	\$7,042,817
- Estimated net gross loss .....	(4,250,000)	(25,000)
Total .....	18,015,744	7,017,817
- Less progress payments received and billings to date	17,586,991	4,173,373
- Plus costs incurred on contracts in process under the completed contract method .....	240,390	--
Costs in excess of billings on contracts in process .....	\$ 669,143	\$2,844,444

Included in estimated gross loss for 2004 and 2005 are contracts with estimated losses accrued of \$5,190,491 and \$190,430, respectively.

NOTE 5 -- INVENTORIES

Inventories consist of the following:

	AUGUST 31

On May 17, 2005, the Company executed a new senior loan facility agreement with Laurus Master Fund LTD. ("Laurus"). Under such financing, the Company entered into a Securities Purchase Agreement and a Security Agreement (collectively, the "Agreements"). Pursuant to these agreements, the Company received a Secured Convertible Term Loan (the "Term Loan") in the aggregate principal amount of \$3.2 million as well as a Revolving Credit Note (the "Revolving Facility") with a maximum availability of \$10.0 million. The Agreement is subject to certain restrictions and various covenants, including a borrowing base formula of ninety percent of eligible accounts receivable and fifty percent of the lesser of work-in-process inventory or \$5 million. The Term Loan monthly installments may be paid in Company common stock if the average closing price of the Company's common stock for five trading days prior to due date is greater or equal to 115% of the fixed conversion price (\$1.66) and the amount of such conversion does not exceed 25% of the aggregate trading dollar volume of the Company's common stock for the period of 22 trading days immediately preceding such amortization date. The Revolving Facility shall be convertible by Laurus into shares of the

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

Company's common stock at a rate of \$1.66 per share. In addition, the Company issued an option to purchase 650,000 shares of its Common Stock at an exercise price of \$.01.

Laurus has agreed that it shall not convert either the Term Loan or any loans under the Revolving Facility into shares of the Company's Common Stock in amounts that would cause it to obtain an aggregate beneficial ownership of the Company's Common Stock exceeding 4.99% at any given time (or 19.99% in the event such limitation is suspended upon the occurrence of an "event of default" under any of the Agreements or any other transaction agreements). The Company and Laurus agreed to customary terms and conditions including, but not limited to, the filing of a registration statement within 60 days from the date of the Agreements of shares of the Company's Common Stock issuable (i) upon exercise of the Option, (ii) upon conversion of the Term Loan, and (iii) upon conversion of up to \$2.0 million under the Revolving Facility. The Company has an obligation to register an additional \$2.0 million under the Revolving Facility upon issuance by the Company of an additional note evidencing such indebtedness.

The Company used the proceeds from the Term Loan, Revolving Facility and Overformula to extinguish, in full, its indebtedness owed to Comerica Bank, its former secured lender, and The HillStreet Fund II, L.P., its subordinated secured lender, as well as for general working capital purposes. In connection with the transactions described herein, Laurus received fees and was reimbursed by the Company for its expenses in the aggregate amount of \$510,200.

The Company, in issuing an option for 650,000 shares at \$.01 per share, triggered price protection in relationship to previously issued warrants. Under the previous warrant agreements, if the Company issued warrants or options

#### NOTE 7 -- LONG-TERM AND SUBORDINATED DEBT - CONTINUED

below the strike price, the exercise price of the outstanding warrants would adjust to the lower exercise price. The Company had previous warrants for 315,792 shares of common stock with 157,896 shares priced at an exercise price of \$5.07 per share and 157,896 priced at \$5.53 per share. Of these warrants, 210,528 shares were exercised during 2005.

Effective November 10, 2005, the company received a waiver of noncompliance with Section 3 of its security agreement with its lender such that the overadvance loan shall not trigger an event of default and extending the overadvance loan through January 31, 2006.

Minimum scheduled principal payments on long-term debt to maturity as of August 31, 2005, are as follows:

FISCAL YEAR ENDED AUGUST 31, -----	AMOUNT -----
- 2006 .....	\$ 3,430,704
- 2007 .....	1,445,612
- 2008 .....	7,713,710
- 2009 .....	165,529

Edgar Filing: RIVIERA TOOL CO - Form 424B2

- 2010 .....	---
	-----
Total .....	\$12,755,555
	=====

The estimated fair value of the Company's notes payable approximates its carrying amount.

NOTE 8 -- FEDERAL INCOME TAXES

The provision for federal income taxes is as follows:

	AUGUST 31		
	2003	2004	2005
	----	-----	----
- Current expense .....	\$--	\$--	\$--
- Deferred expense (benefit) .....	--	--	--
	---	---	---
Income tax expense (benefit) .....	\$--	\$--	\$--
	===	===	===

The difference between the federal statutory tax rate and the Company's effective rate was:

	AUGUST 31		
	2003	2004	2005
	----	-----	----
- Federal statutory tax rate .....	34%	(34%)	(34%)
- Effect of valuation allowance .....	(36%)	34%	34%
- Other items .....	2%	--	--
	---	---	---
Effective tax rate .....	--	--	--
	===	===	===

The details of the net deferred tax liability are as follows:

	AUGUST 31	
	2004	2005
	-----	-----
Deferred tax liabilities:		
- Depreciation .....	\$ (3,323,376)	\$ (3,287,537)

RIVIERA TOOL COMPANY  
NOTES TO FINANCIAL STATEMENTS

NOTE 9 -- OPERATING LEASES

On June 26, 2003, the Company renegotiated its operating lease for its manufacturing and office facilities. The new noncancellable lease began November 1, 2003 and expires on October 31, 2018. The agreement provides for annual lease payments plus an escalation of approximately \$.14 per square foot for the lease term. The Company has an option to renew this lease for an additional 10-year term at a rate based upon the then prevailing market rates for similar-type properties.

Generally accepted accounting principles require that rent expense related to this type of lease be recognized ratably over the term of the lease. The difference between the rent payments made and the amount of expense recognized has been recorded as accrued lease expense (a liability). For the year ended August 31, 2003, the cash payments made exceeded the lease expense by \$35,045. For the years ended August 31, 2004 and 2005, the lease expense exceeded the cash payments by \$100,204 and \$156,990, respectively. The Company has various operating leases, including the noncancellable operating lease noted above, for facilities that expire during the next 15 years. Rent expense under these leases for the years ended August 31, 2003, 2004 and 2005 amounted to \$1,120,250, \$1,098,955, and \$1,155,522, respectively.

The following is a schedule of future minimum rent payments required under operating leases that have initial or remaining noncancellable lease terms in excess of one year as of August 31, 2005.

YEAR ENDED AUGUST 31, -----	LEASE PAYMENTS -----
- 2006 .....	\$ 988,298
- 2007 .....	1,013,135
- 2008 .....	1,039,332
- 2009 .....	1,064,351
- 2010 .....	1,090,548
- 2011 and after .....	9,996,658
	-----
Total minimum payments required ....	\$15,192,322

NOTE 10 -- RETIREMENT PLANS

## Edgar Filing: RIVIERA TOOL CO - Form 424B2

The Company has a profit-sharing plan that covers substantially all employees. The plan includes a 401(k) deferred-compensation option. The plan, as established, allows for discretionary contributions as determined annually by the Company's Board of Directors. No discretionary contribution was made for the years-ended August 31, 2003, 2004, and 2005. The Company also matches and contributes up to 15 percent of the employees' contributions, up to 2% of an employee's annual wage. Effective January 1, 2002, the Company, until further notice, suspended its matching share of the employees' contribution.

The Company has an Executive Deferred Compensation Plan with an officer who retired December 31, 2004. Under the plan, upon the earlier of death or termination of executive's employment with the Company on or after attainment of age 65, the Company shall pay to the executive, his heirs and assignees a retirement benefit equal to \$50,000 per year for five years. The retirement benefit will commence on the first day of the second month following the death or termination of his employment with the Company on or after attainment of age 65. The retirement benefit shall continue with four additional payments of \$50,000 each. Death of the executive after the commencement of payments shall not reduce or eliminate subsequent payments due. At the time of retirement, the Company had a key-man life insurance policy for \$250,000 on such executive. During fiscal 2005, the Company transferred such policy to the retired individual based upon a value of \$100,000. In addition, the Company paid \$107,840 during fiscal 2005 to such retiree and is scheduled to retire the remaining liability of \$42,160 in fiscal 2006.

### RIVIERA TOOL COMPANY NOTES TO FINANCIAL STATEMENTS

#### NOTE 11 -- STOCK OPTION PLANS

The Company's 1996 Stock Option Plan (the "Option Plan") was adopted by the Board of Directors and approved by the stockholders on October 31, 1996. Under the Option Plan, 250,000 shares of Common Stock were reserved for issuance and are intended to qualify as incentive stock options under the Internal Revenue Code of 1986, as amended. Stock options granted to Company personnel under the option plan are at exercise prices equal to the market value of the stock on the date of grant. The options vest one year from the date of option grant and the recipients must be employed by the Company at the time of exercise.

The Company's 1998 Key Employee Stock Option Plan (the "Key Option Plan") was adopted by the Board of Directors and approved by the stockholders on December 16, 1998. Under the Key Option Plan, 200,000 shares of Common Stock were reserved for issuance and do not qualify as incentive stock options under the Internal Revenue Code of 1986, as amended. Stock options granted to Company personnel and Directors under the option plan are at exercise prices equal to the market value of the stock on the date of grant. The options vest one year from the date of option grant and recipients must be employed by the Company at the time of exercise.

As permitted by SFAS No. 123, "Accounting for Stock-based Compensation," the Company continues to apply the provisions of Accounting Principles Board Opinion No. 25, which recognizes compensation expense under the intrinsic value method. The compensation cost, estimated under the fair value-based method defined in SFAS No. 123, was not significant.

A summary of the status of the Option Plan and Key Option Plan during the years' presented is as follows (no stock options were granted previous to fiscal 1999 under the 1996 Stock Option Plan and the 1998 Key Employee Stock Option Plan):

RIVIERA TOOL COMPANY  
NOTES TO FINANCIAL STATEMENTS

NOTE 12 -- WARRANTS AND OPTION

On March 16, 2004, the Company sold 394,737 shares of common stock in a private placement with four accredited investors for \$1,500,000. In connection with this purchase, the Company issued Series A Warrants for eighty percent warrant

Edgar Filing: RIVIERA TOOL CO - Form 424B2

coverage of the initial shares purchased (315,792 shares) with half of such warrants having an exercisable price of 110% of the average of the 20 consecutive Closing Prices immediately prior to the March 16, 2004 (exercise price of \$5.07 per share) and the other half with an exercise price of 120% of the average of the 20 consecutive Closing Prices immediately prior to the March 16, 2004 (exercise price of \$5.53 per share). Such Series A Warrants are exercisable for five years commencing six months from the Closing date. In addition, the Company issued Series A Warrants to purchase up to 20,000 shares of common stock at the same price to the broker of the transaction.

In conjunction with the May 17, 2005 senior loan facility agreement, the Company issued options to purchase 650,000 shares at \$.01 per share. The issuance of the 650,000 share option triggered a price protection clause related to the above issued warrants. Such price protection was to expire in September of 2005. Under the warrant agreements, if the Company issued warrants or options below the strike price (\$5.07 and \$5.53), the exercise price of the outstanding warrants would adjust to the lower exercise price. Of these warrants, 210,528 shares were exercised during 2005.
