**PART I.**

**FORWARD-LOOKING STATEMENTS**

Some of the statements in this Annual Report on Form 10-K (this Annual Report ) constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. These statements relate to our operations and are based on our current expectations, estimates and projections. Words such as may, will, could, would, should, anticipate, predict, potential, continue, expects, intends, plans, projects, goals, in our view and similar expressions are used to identify these forward-looking statements. The forward-looking statements contained in this Annual Report include statements about our internal control over financial reporting, our results of operation and our financial condition. Forward-looking statements are only predictions and as such, are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events or our future financial performance that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecast in these forward-looking statements. The reasons for these differences include changes that occur in our continually changing business environment and the risk factors enumerated in Item 1A, Risk Factors. As a result, these statements speak only as of the date they were made, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

**AVAILABLE INFORMATION**

We were incorporated as a business corporation under the laws of the State of Delaware in 1999. Our principal offices are located at 1676 International Drive, McLean, Virginia 22102. Our main telephone number is (703) 747-3000.

Our website address is *www.bearingpoint.com*. Copies of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, as well as any amendments to those reports, are available free of charge through our website as soon as reasonably practicable after they are electronically filed with or furnished to the Securities and Exchange Commission (the SEC ). Information contained or referenced on our website is not incorporated by reference into and does not form a part of this Annual Report.

You may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

In this Annual Report, we use the terms BearingPoint, we, the Company, our Company, our and us to refer to BearingPoint, Inc. and its subsidiaries. All references to years, unless otherwise noted, refer to our twelve-month fiscal year.

**ITEM 1. BUSINESS**

***General***

BearingPoint, Inc. is one of the world's leading providers of management and technology consulting services to Forbes Global 2000 companies as well as government organizations. Our core services, which include management consulting, technology solutions, application services and managed services, are designed to help our clients generate revenue, increase cost-effectiveness, manage regulatory compliance, integrate

## **Table of Contents**

information and transition to next-generation technology. We believe we differentiate our services from others through our results, approach and people. Our collaborative and flexible approach, including our passionate and dedicated people who bring both deep management and technology experience to bear on solving our clients' issues, is well recognized for producing innovative and effective solutions.

In North America, we deliver consulting services through our Public Services, Commercial Services and Financial Services industry groups (our North American Industry Groups), which provide significant industry-specific knowledge and service offerings. Outside of North America, we are organized on a geographic basis—Europe, the Middle East and Africa (EMEA), the Asia Pacific region and Latin America (including Mexico). For a discussion of risks attendant to our international operations, see the discussion in Item 1A, Risk Factors—Risks Related to Our Business.

For more information about our operating segments, see North American Industry Groups and International Operations, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation Segments, and Note 18, Segment Information, of the Notes to Consolidated Financial Statements.

## ***Strategy***

We want to be recognized as the world leader in management and technology consulting, admired for our passion and respected for our ability to solve our clients' most important challenges. We recognize that in 2008, we must show significant progress toward becoming profitable and improving our cash flow. To achieve these objectives, we are organizing our business priorities for 2008 around three overarching strategies:

*Leveraging Opportunities Across Our Global Footprint.* We must strengthen our global delivery model by creating greater opportunities and scaling those offerings and solutions that offer the greatest opportunities for growth and profitability. We believe that operating globally will help us better serve our clients' needs, provide us with an advantage over regional competitors and allow us to maintain a diverse portfolio that can help to sustain our business during economic downturns.

We intend to leverage our best-in-class government solutions and offerings developed in our U.S. Federal, state and local markets to offer them to governments around the world. Optimizing our global capabilities delivered through our Global Development Centers (GDCs) in China, India and the United States (Hattiesburg, Mississippi) and providing highly skilled professionals at a lower cost for application development and support also will be an important part of achieving our goals.

*Attracting, Developing and Retaining a World-Class Employee Base.* As a professional services company, our employees are the cornerstone of our success. We must attract, develop and retain world-class talent. Under the leadership of our new Executive Vice President, Human Resources, our goal is to build a world-class human resources function that will help us hire and retain our employees and provide outstanding training and career opportunities for our people.

We believe that providing a pay-for-performance culture that is communicated both clearly and consistently to our employees will enhance their understanding of how to succeed within our company. In 2008, we will strive to bring more clarity and consistency to our bonus and equity programs to effectively provide proper incentives to motivate and reward our employees for their contributions to the success of our business.

We are committed to reinforcing a culture consistent with our values and improving the quality of our employees' professional lives, and, to do so, we will seek their feedback more frequently and systematically.

*Striving For Operational Excellence and Profitability.* We must strive to drive higher operating margins through operational excellence and financial discipline. We will monitor the metrics that we believe are critical to driving profitability and positive cash flow, and we will hold our employees

**Table of Contents**

accountable for their performance. To further a culture of accountability, each of our operating segments will be measured according to key performance indicators of our business operations. For information on these key performance indicators, see Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation Overview Key Performance Indicators.

In addition, we will continue efforts to align our people pyramid, further reducing the number of managing directors and senior managers, while increasing the number of analysts and consultants to lower our costs of service.

For more information regarding the business priorities we will pursue in 2008 to implement these strategies, see Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation Overview Principal Business Priorities for 2008 and Beyond.

***North American Industry Groups***

Our North American operations are managed on an industry basis, enabling us to capitalize on our significant industry-specific knowledge. This focus enhances our ability to monitor global trends and observe best practice behavior, to design specialized service offerings relevant to the marketplaces in which our clients operate, and to build sustainable solutions. All of our industry groups provide management consulting, technology solutions, application services and managed services to their respective clients.

Our three North American Industry Groups are:

*Public Services* serves a broad range of both public and private clients, including agencies of the U.S. Federal government such as the Departments of Defense, Homeland Security, and Health and Human Services; provincial, state and local governments; public healthcare companies and private sector healthcare agencies; aerospace and defense companies; and higher education clients. We believe that our Public Services business will continue to be our largest revenue producer, generating opportunities for both strong growth in North America and in our international operations by leveraging our differentiated solutions, as well as our experience and expertise, to governments around the world.

*Commercial Services* supports a highly diversified range of clients, including those in the life sciences and energy markets, as well as technology, consumer markets, manufacturing, transportation, communications and private and public utilities. In 2008, our Commercial Services business will focus on providing differentiated solutions to priority segments and accounts, and will transition from lower margin, transactional commodity services to higher margin, value-added services in order to generate sustainable relationships and revenue.

*Financial Services* directs its solutions to many of the world's leading banking, insurance, securities, real estate, hospitality and professional services institutions. In 2008, our Financial Services business will concentrate its focus within high growth markets, deepen relationships with our key accounts and middle market clients, particularly at the C-suite level, and seek to improve profitability by targeting niche markets for our differentiated solutions.

***International Operations***

Our operations outside of North America are organized on a geographic basis, with alignment to our three North American Industry Groups enabling consistency in our global strategy and execution.

## Edgar Filing: BEARINGPOINT INC - Form 10-K

After extensive analysis and discussion, we have concluded that over the long term, we can create more value for our shareholders, our customers and our people by further integrating our businesses and operating model, not further distancing them. Our management team feels strongly that our unique global footprint

## **Table of Contents**

provides us with opportunities to increase profitability by leveraging our global delivery model for multi-national clients and delivering best-in-class government offerings and solutions developed in our U.S. Federal, state, and local markets to governments around the world.

Our three geographic regions are:

*EMEA.* Our EMEA region will continue to be a key part of our strategy. Consequently, in late 2007 we decided to continue to own and operate our EMEA segment as part of our consolidated business rather than move forward with a sale of that business to our EMEA managing directors.

*Asia Pacific.* In Asia Pacific, our growth strategy will focus on taking advantage of client successes to leverage new opportunities within Japan and China, and to improve our profitability in Korea and the South Asia Pacific countries by focusing our solutions on our key client accounts within these countries.

*Latin America.* In Latin America, we have streamlined our in-country operations in order to strategically focus upon the countries in which we believe we will be most successful. We will continue to serve clients within Latin America from our offices in Brazil and Mexico.

## ***Our Joint Marketing Relationships***

As of December 31, 2007, our alliance program had approximately 40 relationships with key technology providers that support and complement our service offerings. Through this program, we have created joint marketing relationships to enhance our ability to provide our clients with high value services. Those relationships typically entail some combination of commitments regarding joint marketing, sales collaboration, training and service offering development.

Our most significant joint marketing and product development technology relationships are with Oracle Corporation, Microsoft Corporation, SAP AG, Hewlett-Packard Company and IBM Corporation. We work together to develop comprehensive solutions to common business issues, offer the expertise required to deliver those solutions, develop new products, build our talent capabilities, capitalize on joint marketing opportunities and remain at the forefront of technology advances.

## ***Competition***

We operate in a highly competitive and rapidly changing market and compete with a variety of organizations that sell services similar to those we offer. Our competitors include specialized consulting firms, systems consulting and implementation firms, former Big 4 and other large accounting and consulting firms, application software firms providing implementation and modification services, service and consulting groups of computer equipment companies, outsourcing companies, systems integration companies, aerospace and defense contractors and general management consulting firms. We also compete with our clients' internal resources. Some of our competitors have significantly greater financial and marketing resources, name recognition and market share than we do.

In 2008, we intend to focus our skills and resources to best capitalize on our competitive advantages, selectively choosing only those offerings, solutions and markets where we can effectively differentiate ourselves from our competition. We feel that deepening our relationships with key, existing clients and through repeat marketing of developed, successful industry offerings and solutions, we will be better positioned to achieve higher margins.

We believe that the principal competitive factors in the markets in which we operate include scope of services, service delivery approach, technical and industry expertise, value added, availability of appropriate talent and resources,

global reach, pricing and relationships.

**Table of Contents**

***Intellectual Property***

Our success has resulted in part from our methodologies and other proprietary intellectual property rights. We rely upon a combination of nondisclosure and other contractual arrangements, non-solicitation agreements, trade secrets, copyright and trademark laws to protect our proprietary rights and the rights of third parties from whom we license intellectual property. We also enter into confidentiality and intellectual property agreements with our employees that limit the distribution of proprietary information. We currently have only a limited ability to protect our important intellectual property rights.

We selectively pursue efforts to capture, protect and commercialize BearingPoint proprietary information. We are striving to identify potentially reusable solutions or other intellectual property sooner in the design process and to take measures that will safeguard our proprietary rights and commercialization opportunities. We anticipate certain of these initiatives will add value to particular client and market categories, and increase our earnings from proprietary assets. Our solution suites, such as our Risk, Compliance and Security Solution Suite, are an example of these efforts.

***Customer Dependence***

During 2007 and 2006, our revenue from the U.S. Federal government, inclusive of government sponsored enterprises, was \$981.6 million and \$983.1 million, respectively, representing 28.4% and 28.5% of our total revenue, respectively. For 2007 and 2006, this included approximately \$378.7 million and \$389.8 million of revenue from the U.S. Department of Defense, respectively, representing approximately 11.0% and 11.3% of our total revenue for 2007 and 2006, respectively. A loss of all or a substantial portion of our contracts with the U.S. Federal government would have a material adverse effect on our business and results of operation. While most of our government agency clients have the ability to unilaterally terminate their contracts, our relationships are seldom with political appointees, and we have not historically experienced a loss of U.S. Federal government business with a change in administration. For more information regarding government proceedings and risks associated with U.S. government contracts, see Item 1A, Risk Factors, Item 3, Legal Proceedings, and Note 11, Commitments and Contingencies, of the Notes to Consolidated Financial Statements.

***Employees***

As of December 31, 2007, we had approximately 17,100 full-time employees, including approximately 14,400 billable professionals.

As management and technology consultants, our future success largely depends upon our ability to attract, motivate and retain world-class talent, particularly professionals with the advanced information technology skills necessary to perform the services we offer. Our professionals possess significant industry experience, understand the latest technology and know how to apply it to solve our clients' business challenges. We are committed to the long-term development of our employees and will continue to dedicate significant resources to making BearingPoint a great place to do great work. We strive to reinforce our employees' commitment to our clients, culture and values through a comprehensive performance management system, innovative training programs, and a competitive compensation philosophy that rewards individual performance and teamwork.

For 2007, our voluntary annualized attrition rate was 24.7%, a slight improvement over our attrition rate of 25.6% in 2006. Reducing attrition remains a top priority, and we have taken steps to enhance our ability to attract and retain our employees. For additional information regarding these efforts, see Management's Discussion and Analysis of Financial Condition and Results of Operation, Principal Business Priorities for 2008 and Beyond, Attract, Develop and Retain a World-Class Employee Base.

**Table of Contents**

**ITEM 1A. RISK FACTORS**

**Risks that Relate to Our Business**

***Our business may be adversely impacted as a result of changes in demand, both globally and in individual market segments, for our consulting and systems integration services.***

Our business tends to lag behind economic cycles; consequently, we may experience rapid decreases in demand at the onset of significant economic downturns while the benefits of economic recovery may take longer to realize. Economic and political uncertainties adversely impact our clients' demand for our services. During an economic downturn, our clients and potential clients often cancel, reduce or defer existing contracts and delay entering into new engagements, thereby reducing new contract bookings. In general, companies also reduce the amount of spending on information technology products and services during difficult economic times, resulting in limited implementations of new technology and smaller engagements.

Our contracts funded by U.S. Federal government agencies, inclusive of government sponsored enterprises, accounted for approximately 28.4% of our revenue in 2007. We depend particularly on contracts funded by clients within the Department of Defense, which accounted for approximately 11.0% of our revenue in 2007. We believe that our U.S. Federal government contracts will continue to be a source of a significant amount of our revenue for the foreseeable future. Our business could be materially harmed if the U.S. Federal government reduces its spending or reduces the budgets of its departments or agencies. Reduced budget and other political and regulatory factors may cause these departments and agencies to reduce their purchases under, or exercise their rights to terminate, existing contracts, or may result in fewer or smaller new contracts to be awarded to us.

***Our operating results will suffer if we are not able to maintain our billing and utilization rates or control our costs.***

Our operating results are largely a function of the rates we are able to charge for our services and the utilization rates, or chargeability, of our professionals. Accordingly, if we are not able to maintain the rates we charge for our services or an appropriate utilization rate for our professionals, or if we cannot manage our cost structure, our operating results will be negatively impacted, we will not be able to sustain our margins and our ability to generate profits will suffer.

Factors affecting the rates we are able to charge for our services include:

our clients' perception of our ability to add value through our services;

our ability to access and use of lower-cost service delivery personnel, as compared to the ability of our competitors to do so;

introduction of new services or products by us or our competitors;

pricing policies of our competitors; and

general economic conditions in the United States and abroad.

Factors affecting our utilization rates include:

seasonal trends, primarily as a result of our hiring cycle and holiday and summer vacations;

our ability to transition employees from completed projects to new engagements;

our ability to forecast demand for our services and thereby maintain an appropriately balanced and sized workforce;

our ability to manage attrition; and

our ability to mobilize our workforce quickly or economically, especially outside the United States.

## Table of Contents

Our operating results are also a function of our ability to control our costs. If we are unable to control these costs, such as costs associated with the production of financial statements, settlement of lawsuits or management of a significantly larger and more diverse workforce, our results of operation could be materially and adversely affected.

***If we are unable to timely and properly implement and operate our new financial reporting system, we may be unable to timely file our SEC periodic reports or conclude that our internal control over financial reporting is effective, either of which could have a material adverse effect on our business, financial condition or results of operation.***

We are currently in the process of replacing our North American financial reporting systems. We expect that once the new North American financial reporting system has been implemented, it will help us to maintain the timely filing of our SEC periodic reports and provide the Company with current and timely financial information and reduce our selling, general and administrative ( SG&A ) expenses. The implementation of a new financial system is complex and subject to many risks, including our ability to manage and implement a financial system of this scope and magnitude. See Risks that Relate to our Failure to Timely File Periodic Reports with the SEC and our Internal Control over Financial Reporting and Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation Principal Business Priorities for 2008 and Beyond Drive Operational Excellence Replace our North American Financial Reporting Systems.

For example, in 2005 our Audit Committee determined that the implementation of our current North American financial systems was attempted without adequate testing and training or sufficient backup capability, which contributed to:

our inability to timely file our SEC periodic reports;

the substantial increase in our SG&A expenses, including finance and accounting and audit costs; and

the material weaknesses identified in our 2004 through 2007 audits and the conclusion by management that our internal control over financial reporting was not effective.

For so long as we are unable to implement and operate our new North American financial system, we will continue to experience a higher than normal probability of the occurrence of these types of risks.

***We continue to incur SG&A expenses as a percentage of revenue at levels significantly higher than those of our competitors. If we are unable to significantly reduce SG&A expenses as a percentage of revenue over the near term, our ability to achieve our goals in net income and profitability will remain in jeopardy.***

In recent years we have experienced exceptionally high levels of SG&A expenses as a percentage of revenue, primarily as a result of continuing issues related to our North American financial reporting systems and our internal controls, higher than average costs associated with hiring and retaining our employees and other assorted costs, including legal expenses associated with various disputes and litigation. During 2007, we incurred external costs of approximately \$83.5 million related to the preparation of our financial statements, our auditors' review and audit of our financial statements and the testing of internal controls, compared with approximately \$128.2 million in 2006. In addition, we also currently expect to incur approximately \$33.5 million in costs in 2008 related to the implementation of our new North American financial reporting system, of which \$8.9 million is expected to be expensed and \$24.6 million is expected to be capitalized, compared with approximately \$25.3 million of such costs in 2007, of which \$10.2 million was expensed and \$15.1 million was capitalized. It is likely that higher than normal SG&A expenses will continue through 2008 and 2009 as we seek to achieve our objectives of timely preparing and filing our

financial statements and SEC periodic reports, remediating material weaknesses in our internal control over financial reporting and completing the replacement of our North American financial reporting systems.

**Table of Contents**

Our ability to reduce future SG&A expenses is dependent, among other things, on:

improving our controls around the financial closing process;

remediating deficiencies in our internal controls;

reducing the amount of time and effort spent to substantiate the accuracy and completeness of our financial results;

reducing redundant systems and activities;

streamlining the input and capture of data;

hiring and retaining skilled finance and accounting personnel while decreasing the number of personnel required to support our financial close process, including reliance on contractors;

achieving further reductions in the number of offices and square feet of space occupied by us; and

achieving further cost savings in our various corporate services, including legal, information technology and human resources.

If we are unable to achieve these objectives, offset these costs through other expense reductions, or if we encounter additional difficulties or setbacks in achieving these objectives, our SG&A expenses could significantly exceed current expected levels, and, consequently, materially and adversely affect our competitive position, financial condition, results of operation and cash flows.

***The systems integration consulting markets are highly competitive, and we may not be able to compete effectively if we are not able to maintain our billing rates or control our costs related to these engagements.***

Systems integration consulting constitutes a significant part of our business. Historically, these markets have included a large number of participants and have been highly competitive. Recent increases in the number and availability of competing global delivery alternatives for systems integration work create ever increasing pricing pressures in these markets. We frequently compete with companies that have greater global delivery capabilities and alternatives, financial resources, name recognition and market share than we do. If we are unable to maintain our billing rates through delivering unique and differentiated systems integration solutions and control our costs through proper management of our workforce, global delivery centers and other available resources, we may lose the ability to compete effectively for this significant portion of our business.

***Contracting with the U.S. Federal government is inherently risky and exposes us to risks that may materially and adversely affect our business.***

We depend on contracts with U.S. Federal government agencies, particularly with the Department of Defense, for a significant portion of our revenue and consequently, we are exposed to various risks inherent in the government contracting process, including the following:

Our government contracts are subject to laws and regulations that provide government clients with rights and remedies not typically found in commercial contracts, which are unfavorable to us. These rights and remedies allow government clients, among other things, to:

establish temporary holdbacks of funds due and owed to us under contracts for various reasons;

terminate our facility security clearances and thereby prevent us from receiving classified contracts;

cancel multi-year contracts and related orders if funds for contract performance for any subsequent year become unavailable;

claim rights in products, systems and technology produced by us;

prohibit future procurement awards with a particular agency if it is found that our prior relationship with that agency gives us an unfair advantage over competing contractors;

**Table of Contents**

subject the award of contracts to protest by competitors, which may require the suspension of our performance pending the outcome of the protest or our resubmission of a bid for the contract, or result in the termination, reduction or modification of the awarded contract; and

prospectively reduce our pricing based upon achieving certain agreed service volumes or other metrics and reimburse any previously charged amounts subsequently found to have been improperly charged under the contract.

Our failure to obtain and maintain necessary security clearances may limit our ability to perform classified work for government clients, which could cause us to lose business. In addition, security breaches in sensitive government systems that we have developed could damage our reputation and eligibility for additional work and expose us to significant losses.

The U.S. Federal government audits and reviews our performance on contracts, pricing and cost allocation practices, cost structure, systems, and compliance with applicable laws, regulations and standards. If the government finds that our costs are not reimbursable, have not been properly determined or are based on outdated estimates of our costs, we may not be allowed to bill for all or part of those costs, or we may have to refund cash that we have already collected, which may materially affect our operating margin and the expected timing of our cash flows.

Government contracting officers have wide latitude in their ability to conclude as to the financial responsibility of companies that contract with agencies of the U.S. Federal government. Officers who conclude that a company is not financially responsible may withhold new engagements and terminate recently contracted engagements for which significant expenditures and outlays already may have been made.

If the government uncovers improper or illegal activities in the course of audits or investigations, we may be subject to civil and criminal penalties and administrative sanctions, including termination of contracts, forfeiture of profits, suspension of payments, fines and suspension or debarment from doing business with U.S. Federal government agencies. These consequences could materially and adversely affect our revenue and operating results. The inherent limitations of internal controls, even when adequate, may not prevent or detect all improper or illegal activities.

Government contracts, and the proceedings surrounding them, are often subject to more extensive scrutiny and publicity than other commercial contracts. Negative publicity related to our government contracts, regardless of its accuracy, may further damage our business by affecting our ability to compete for new contracts.

The impact of any of these occurrences or conditions could affect not only our business with the agency or department involved, but also other agencies and departments within the U.S. Federal government. Depending on the size of the project or the magnitude of the budget reduction, potential costs, penalties or negative publicity involved, any of these occurrences or conditions could have a material adverse effect on our business or our results of operation.

***Our ability to attract, retain and motivate our managing directors and other key employees is critical to the success of our business. We continue to experience sustained, higher-than-industry average levels of voluntary turnover among our workforce, which has impacted our ability to grow our business.***

Our success depends largely on our general ability to attract, develop, motivate and retain highly skilled professionals. Competition for skilled personnel in the consulting and technology services business is intense.

The following additional attrition risks are unique to our business:

In light of our current issues related to our North American financial reporting systems and our internal control over financial reporting, it is particularly critical that we continue to attract and retain experienced finance personnel.

**Table of Contents**

Higher than average attrition creates recruiting, training and retention costs and benefits that place significant demands on our resources.

Our inability to timely file our periodic reports with the SEC from 2005 through 2007 materially and negatively affected our ability to deliver freely tradable equity incentives to our people.

Rumors, misperceptions and misrepresentations regarding our financial stability or ongoing operations may create career uncertainties for our employees.

The continuing loss of significant numbers of our professionals or the inability to attract, hire, develop, train and retain additional skilled personnel for these or other reasons could have a serious negative effect on us, including our ability to obtain and successfully complete important engagements and thus maintain or increase our revenue.

***Our contracts can be terminated by our clients with short notice, or our clients may cancel or delay projects.***

Our clients typically retain us on a non-exclusive, engagement-by-engagement basis, rather than under exclusive long-term contracts. Most of our consulting engagements are less than twelve months in duration. Most of our contracts can be terminated by our clients upon short notice and without significant penalty. Large client projects involve multiple engagements or stages, and there are risks that a client may choose not to retain us for additional stages of a project or that a client will cancel or delay additional planned engagements. These terminations, cancellations or delays could result from factors unrelated to our work product or the progress of the project, but could be related to business or financial conditions of the client or the economy generally. When contracts are terminated, cancelled or delayed, we lose the associated revenue, and we may not be able to eliminate associated costs in a timely manner. Consequently, our operating results in subsequent periods may be adversely impacted.

***If we are not able to keep up with rapid changes in technology or maintain strong relationships with software providers, our business could suffer.***

Our success depends, in part, on our ability to develop service offerings that keep pace with rapid and continuing changes in technology, evolving industry standards and changing client preferences. Our success also depends on our ability to develop and implement ideas for the successful application of existing and new technologies. We may not be successful in addressing these developments on a timely basis, or our ideas may not be successful in the marketplace. Also, products and technologies developed by our competitors may make our services or product offerings less competitive or obsolete. Any of these circumstances could have a material adverse effect on our ability to obtain and successfully complete client engagements.

In addition, we generate a significant portion of our revenue from projects to implement software developed by others. Our future success in the software implementation business depends, in part, on the continuing viability of these companies, their ability to maintain market leadership and our ability to maintain a good relationship with these companies.

***Loss of our joint marketing relationships could reduce our revenue and growth prospects.***

Our most significant joint marketing relationships are with Oracle Corporation, Microsoft Corporation, SAP AG, Hewlett-Packard Company and IBM Corporation. These relationships enable us to increase revenue by providing us additional marketing exposure, expanding our sales coverage, increasing the training of our professionals and developing and co-branding service offerings that respond to customer demand. The loss of one or more of these relationships could adversely affect our business by terminating current joint marketing and product development

efforts or otherwise decreasing our revenue and growth prospects. Because most of our significant joint marketing relationships are nonexclusive, if our competitors are more successful in, among other things, building leading-edge products and services, these entities may form closer or preferred arrangements with other consulting organizations, which could materially reduce our revenue.

**Table of Contents**

***We are not likely to be able to significantly grow our business through mergers and acquisitions in the near term.***

We have had limited success in valuing and integrating acquisitions into our business. Given past experiences, the current competing demands for our capital resources and limitations contained in our senior secured credit facility, we are unlikely to grow our business through significant acquisitions. Our inability to do so may competitively disadvantage us or jeopardize our independence.

***There will not be a consistent pattern in our financial results from quarter to quarter, which may result in increased volatility of our stock price.***

Our quarterly revenue and profitability have varied in the past and are likely to vary significantly from quarter to quarter, making them difficult to predict. This may lead to volatility in our stock price. Factors that could cause variations in our quarterly financial results include:

- the business decisions of our clients regarding the use of our services;
- seasonality, including the number of work days and holidays and summer vacations;
- the stage of completion of existing projects or their termination;
- cost overruns or revenue write-offs resulting from unexpected delays or delivery issues on engagements;
- periodic differences between our clients' estimated and actual levels of business activity associated with ongoing engagements;
- our ability to transition employees quickly from completed projects to new engagements;
- the introduction of new products or services by us or our competitors;
- changes in our pricing policies or those of our competitors;
- our ability to manage costs, including personnel costs and support services costs, particularly outside the United States where local labor laws may significantly affect our ability to mobilize personnel quickly or economically;
- currency exchange fluctuations;
- ongoing costs associated with our efforts to remediate material weaknesses in our internal control over financial reporting, and to produce timely and accurate financial information despite the continuing existence of these material weaknesses;
- changes in, or the application of changes to, accounting principles generally accepted in the United States, particularly those related to revenue recognition; and
- global, regional and local economic and political conditions and related risks, including acts of terrorism.

***Our performance may be negatively affected due to financial, regulatory and operational risks inherent in worldwide operations.***

In 2007, approximately 36.0% of our revenue was attributable to activities outside North America. Our results of operation are affected by our ability to manage risks inherent in our doing business abroad. These risks include exchange rate fluctuation, regulatory concerns, terrorist activity, restrictions with respect to the movement of currency, access to highly skilled workers, political and economic stability, unauthorized and improper activities of employees and our ability to protect our intellectual property. Despite our best efforts, we may not be in compliance with all regulations around the world and may be subject to penalties and fines as a result. These penalties and fines may materially and adversely affect our performance.

## **Table of Contents**

Some of our services are performed in high-risk locations, such as Iraq and Afghanistan, where the country or location is suffering from political, social or economic issues, or war or civil unrest. In those locations, we incur substantial costs to maintain the safety of our personnel. Despite these precautions, the safety of our personnel in these locations may continue to be at risk. Despite our best efforts, we may suffer the loss of our employees or those of our contractors. The risk of these losses and the costs of protecting against them may become prohibitive. If so, we may face taking a decision regarding removing our employees from one or more of these countries and ceasing to seek new work or complete the existing contracts that we have in those countries or regions. Such a decision could, directly or indirectly, materially and adversely affect our current and future revenue, as well as our performance.

### ***We may bear the risk of cost overruns relating to our services, thereby adversely affecting our performance.***

The effort and cost associated with the completion of our systems integration, software development and implementation or other services are difficult to estimate and, in some cases, may significantly exceed the estimates made at the time we commence the services. We often provide these services under level-of-effort and fixed-price contracts. The level-of-effort contracts are usually based on time and materials or direct costs plus a fee. Under these arrangements, we are able to bill our client based on the actual cost of completing the services, even if the ultimate cost of the services exceeds our initial estimates. However, if the ultimate cost exceeds our initial estimate by a significant amount, we may have difficulty collecting the full amount that we are due under the contract, depending upon many factors, including the reasons for the increase in cost, our communication with the client throughout the project, and the client's satisfaction with the services. As a result, we could incur losses with respect to these services even when they are priced on a level-of-effort basis. If we provide these services under a fixed-price contract, we bear the risk that the ultimate cost of the project will materially exceed the price to be charged to the client. If we fail to accurately estimate our costs or the time required to perform under a contract, our ability to generate profits on these contracts may be materially and adversely affected.

### ***We may face legal liabilities and damage to our professional reputation from claims made against our work.***

Many of our engagements involve projects that are critical to the operation of our clients' businesses. If we fail to meet our contractual obligations, we could be subject to legal liability, which could adversely affect our business, operating results and financial condition. The provisions we typically include in our contracts that are designed to limit our exposure to legal claims relating to our services and the applications we develop may not protect us or may not be enforceable in all cases. Moreover, as a consulting firm, we depend to a large extent on our relationships with our clients and our reputation for high caliber professional services and integrity to retain and attract clients and employees. As a result, claims made against our work may be more damaging in our industry than in other businesses. Negative publicity related to our client relationships, regardless of its accuracy, may further damage our business by affecting our ability to compete for new engagements.

### ***Our services may infringe upon the intellectual property rights of others.***

We cannot be sure that our services do not infringe on the intellectual property rights of others, and we may have infringement claims asserted against us. These claims may harm our reputation, cost us money and prevent us from offering some services. In some contracts, we have agreed to indemnify our clients for certain expenses or liabilities resulting from claimed infringements of the intellectual property rights of third parties. In some instances, the amount of these indemnities may be greater than the revenue we receive from the client. Any claims or litigation in this area may be costly and result in large awards against us and, whether we ultimately win or lose, could be time-consuming, may injure our reputation, may result in costly delays or may require us to enter into royalty or licensing arrangements. If there is a successful claim of infringement or if we fail to develop non-infringing technology or license the proprietary rights we require on a timely basis, our

## **Table of Contents**

ability to use certain technologies, products, services and brand names may be limited, and our business may be harmed.

***We have only a limited ability to protect our intellectual property rights, which are important to our success.***

Our success depends, in part, upon our plan to develop, capture and protect re-usable proprietary methodologies and other intellectual property. We rely upon a combination of trade secrets, confidentiality policies, nondisclosure and other contractual arrangements, and patent, copyright and trademark laws to protect our intellectual property rights. Our efforts in this regard may not be adequate to prevent or deter infringement or other misappropriation of our intellectual property, and we may not be able to detect the unauthorized use of, or take appropriate and timely action to enforce, our intellectual property rights.

Depending on the circumstances, we may be required to grant a specific client certain intellectual property rights in materials developed in connection with an engagement, in which case we would seek to cross-license the use of such rights. In limited situations, however, we forego certain intellectual property rights in materials we help create, which may limit our ability to re-use such materials for other clients. Any limitation on our ability to re-use such materials could cause us to lose revenue-generating opportunities and require us to incur additional cost to develop new or modified materials for future projects.

## **Risks that Relate to Our Liquidity**

***Our current cash resources might not be sufficient to meet our expected cash needs over time. Beginning in early 2009, we will begin to become subject to significant required payments under our 2007 Credit Facility and various series of our debentures. We continue to believe that our cash balances, together with cash generated from operating activities and borrowings previously made under our 2007 Credit Facility, will be sufficient to provide adequate funds for our anticipated internal growth, operating needs and debt service obligations. However, if we cannot consistently generate sufficient positive cash flows from operating activities to fund these required payments and service our indebtedness, our business, financial condition and results of operations could be materially and adversely effected.***

We have experienced recurring net losses. We have generated positive cash flows from operating activities in only five quarters since the beginning of 2005. Historically, we have often failed, sometimes significantly, to achieve management's periodic operating budgets and cash forecasts.

For each fiscal year ending on or after December 31, 2008, we are required by our 2007 Credit Facility to repay principal in an amount equal to 50% of our Excess Cash Flow (as defined in the 2007 Credit Facility) for such year on or before the tenth business day when we are required to deliver financial statements for the applicable fiscal year, subject to certain credits for other voluntary payments we have made in any such year and certain exceptions. On April 15, 2009, we are obligated to honor the rights of the holders of our \$200,000,000 5.00% Convertible Senior Subordinated Debentures to demand payment of up to the entire principal amount of those debentures. We currently expect most, if not all, of these debentures to be tendered for payment at that time. We will continue to have varying amounts of maturity payments and/or mandatory payment rights on other series of debentures in 2010, 2011 and beyond. For additional information regarding our debentures and the timing of such option, see "Risks that Relate to Our Liquidity" and Note 6, "Notes Payable," of the Notes to Consolidated Financial Statements. These ongoing, annual required payments will present a significant additional demand on our cash that we have not experienced in prior years. Therefore, we must begin to consistently generate positive cash flows from operating activities if we are to service these payments from cash generated from our business. If we are unable to service our indebtedness, whether in the ordinary course of business or upon acceleration of such indebtedness, our financial condition, cash flows and results of operation would be materially affected.

## **Table of Contents**

If we cannot consistently generate sufficient positive cash flows from operating activities, we will need to meet operating shortfalls and required prepayments with existing cash on hand, avail ourselves of the capital or credit markets or implement or seek alternative strategies. These alternative strategies could include seeking improvements in working capital management, reducing or delaying capital expenditures, restructuring or refinancing our indebtedness, seeking additional debt or equity capital and selling assets. There can be no assurances that existing cash will be sufficient, we will have timely access to the capital or credit markets or that any of these strategies can be implemented on satisfactory terms, on a timely basis, or at all.

***Our 2007 Credit Facility imposes a number of restrictions on the way in which we operate our business and may negatively affect our ability to finance future needs, or do so on favorable terms. If we violate these restrictions, we will be in default under the 2007 Credit Facility, which may cross-default to our other indebtedness.***

On May 18, 2007, we entered into a \$400 million senior secured credit facility and on June 1, 2007, we amended and restated the credit facility to increase the aggregate commitments under the facility to \$500 million (the 2007 Credit Facility). The 2007 Credit Facility consists of term loans in an aggregate principal amount of \$300 million (of which \$297.8 million was outstanding as of December 31, 2007) and a letter of credit facility in an aggregate face amount at any time outstanding not to exceed \$200 million (of which \$86.9 million remained available as of December 31, 2007). For more information on our 2007 Credit Facility, see Management's Discussion and Analysis of Financial Condition and Results of Operation—Liquidity and Capital Resources. Under the 2007 Credit Facility, certain of our corporate activities are restricted, which include, among other things, limitations on: disposition of assets; mergers and acquisitions; payment of dividends; stock repurchases and redemptions; incurrence of additional indebtedness; making of loans and investments; creation of liens; prepayment of other indebtedness; and engaging in certain transactions with affiliates. Any event of default under the 2007 Credit Facility or agreements governing our other significant indebtedness could lead to an acceleration of debt under the 2007 Credit Facility or other debt instruments that contain cross-default provisions. If the indebtedness under the 2007 Credit Facility were to be accelerated, our assets may not be sufficient to repay amounts due under the 2007 Credit Facility and the other debt securities then accelerated.

***We may be unable to obtain new surety bonds, letters of credit or bank guarantees in support of client engagements on acceptable terms.***

Some of our clients, primarily in the state and local markets, require us to obtain surety bonds, letters of credit or bank guarantees in support of client engagements. During 2007, we were required by our surety providers to fully collateralize (via cash or letters of credit) our obligations under our surety bonds. We expect this requirement of full collateralization of surety bonds to continue for the foreseeable future. If we cannot obtain or maintain surety bonds, letters of credit or bank guarantees on acceptable terms, we may be unable to maintain existing client engagements or to obtain additional client engagements that require them. In turn, our current and planned revenue, particularly from the State, Local and Education (SLED) sector of our Public Services industry group, could be materially and adversely affected. At December 31, 2007, we had \$86.9 million remaining under the letter of credit facility of our 2007 Credit Facility.

***Downgrades of our credit ratings may increase our borrowing costs and materially and adversely affect our business, financial condition or results of operation.***

On February 6, 2007, Standard & Poor's Rating Services (Standard & Poor's) withdrew our senior unsecured rating of B- and our subordinated debt rating of CCC+ and removed them from CreditWatch. Separately, on December 7, 2007, Moody's confirmed our B2 corporate family rating, assigned us a negative rating outlook and downgraded the ratings of our Series A and B Debentures to Caa1 from B3.

**Table of Contents**

On or after October 31, 2008, the administrative agent under our 2007 Credit Facility may require us to use commercially reasonable efforts to have our corporate credit rated by Moody's or Standard & Poor's. There can be no assurance we could obtain or retain a specific rating or any rating by either entity.

Actions or refusals to act by the rating agencies may affect our ability to obtain financing or the terms on which such financing may be obtained. Our inability to obtain additional financing, or obtain additional financing on terms favorable to us, could hinder our ability to fund general corporate requirements, affect our stock price, limit our ability to retain existing clients or compete for new business, and increase our vulnerability to adverse economic and industry conditions.

***Our leverage may adversely affect our business and financial performance and may restrict our operating flexibility.***

The level of our indebtedness and our ongoing cash flow requirements for debt service and collateral maintenance:

limit cash flow available for general corporate purposes, such as capital expenditures;

limit our ability to obtain, or obtain on favorable terms, additional debt financing in the future;

limit our flexibility in reacting to competitive and other changes in our industry and economic conditions generally;

expose us to a risk that a substantial decrease in net operating cash flows due to economic developments or adverse developments in our business could make it difficult to meet debt service requirements; and

expose us to risks inherent in interest rate fluctuations because borrowings may be at variable rates of interest, which could result in high interest expense in the event of increases in interest rates.

***The holders of our debentures have the right, at their option, to require us to purchase some or all of our debentures upon certain dates or upon the occurrence of certain designated events, which could have a material adverse effect on our liquidity.***

The holders of certain of our debentures have the right (a put right), as of a specified date or upon a designated event, to require us to repurchase all or a portion of our debentures, in each case, at a price in cash equal to the principal amount of the debentures plus accrued and unpaid interest, if any.

**Table of Contents**

The following table lists the maturity date and the put dates of our debentures:

<b>Debentures</b>	<b>Maturity Date</b>	<b>Put Date</b>
\$250.0 Million 2.50% Series A Convertible Subordinated Debentures due 2024 (the Series A Debentures )	December 15, 2024	December 15, 2011 December 15, 2014 December 15, 2019
\$200.0 Million 2.75% Series B Convertible Subordinated Debentures due 2024 (the Series B Debentures and together with Series A Debentures, the Subordinated Debentures )	December 15, 2024	December 15, 2014 December 15, 2019
\$200.0 Million 5.00% Convertible Senior Subordinated Debentures due 2025 (the April 2005 Convertible Debentures )	April 15, 2025	April 15, 2009 April 15, 2013 April 15, 2015 April 15, 2020
\$40.0 Million 0.50% Convertible Senior Subordinated Debentures due 2010 (the July 2005 Convertible Debentures )	July 15, 2010	N/A

If we cannot generate sufficient positive cash flows from operating activities or otherwise honor the put rights or maturities on our debentures with our existing cash balances, there can be no assurance that future borrowings or equity financing will be available for the payment or refinancing of the debentures.

The holders of our debentures also have the right to require us to repurchase any outstanding debentures upon certain dates and designated events. These events include certain change of control transactions and a termination of trading, if our common stock is no longer listed for trading on a U.S. national securities exchange. If we are unable to repurchase any of our debentures when due or otherwise breach any other debenture covenants, we may be in default under the related indentures, which could lead to an acceleration of unpaid principal and accrued interest under the indentures. Any such acceleration could lead to an acceleration of amounts outstanding under our 2007 Credit Facility. In the event of any acceleration of unpaid principal and accrued interest under our 2007 Credit Facility or under the debentures, we will not be permitted to make payments to the holders of the debentures until the unpaid principal and accrued interest under our 2007 Credit Facility have been fully paid.

For additional information regarding our debentures, see Note 6, Notes Payable, of the Notes to Consolidated Financial Statements.

### **Risks that Relate to our Failure to Timely File Periodic Reports with the SEC and our Internal Control over Financial Reporting**

The process, training and systems issues related to financial accounting for our North American operations and the material weaknesses in our internal control over financial reporting continue to materially affect our financial condition and results of operation. So long as we are unable to resolve these issues and remediate these material weaknesses, we will be in jeopardy of being unable to timely file our periodic reports with the SEC as they come due, and it is likely that our financial condition and results of operation will continue to be materially and adversely affected. Furthermore, any subsequent failures to timely file any future periodic reports with the SEC could increase the likelihood or frequency of occurrence and severity of the impact of any of the risks described below.

**Table of Contents**

***Our continuing failure to timely file certain periodic reports with the SEC poses significant risks to our business, each of which could materially and adversely affect our financial condition and results of operation.***

We did not timely file with the SEC our Forms 10-K for 2004, 2005 and 2006 or our Forms 10-Q for 2005, 2006 and 2007. Consequently, from March 16, 2005 to December 3, 2007 we did not timely comply with the reporting requirements under the Securities Exchange Act of 1934 (the "Exchange Act") or the listing rules of the New York Stock Exchange (the "NYSE").

If we are unable to timely file our periodic reports with the SEC, we may be subject to a number of significant risks, including:

If we are not timely in filing our periodic reports on or after October 31, 2008, (i) an event of default could be declared by our lenders under our senior secured credit facility, which may result in the lenders declaring our outstanding loans due and payable in whole or in part, and potentially resulting in a cross-default to one or more series of our convertible subordinated debentures and other indebtedness, and/or (ii) an event of default could be claimed by holders of one or more series of our subordinated debentures, resulting in a cross-default under our senior secured credit facility. See "Risks that Relate to Our Liquidity."

If the NYSE does not grant us extensions to file our periodic reports with the NYSE, it has the right to begin proceedings to delist our common stock. A delisting of our common stock would have a material adverse effect on us by, among other things:

reducing the liquidity and market price of our common stock;

resulting in a possible event of default under and acceleration of our senior secured credit facility and triggering a right to the holders of our debentures to request us to repurchase all then outstanding debentures; and

reducing the number of investors willing to hold or acquire our common stock, thereby restricting our ability to obtain equity financing.

We may have difficulty retaining our clients and obtaining new clients.

We would not be eligible to use a registration statement to offer and sell freely tradable securities, thereby preventing us from accessing the public capital or credit markets or delivering shares under our equity plans.

Any of these events could materially and adversely affect our financial condition and results of operation.

***In 2004, we identified material weaknesses in our internal control over financial reporting, the remediation of which continues to materially and adversely affect our business and financial condition, and as of December 31, 2007, certain material weaknesses remain.***

Our management has conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2007 and has identified a number of material weaknesses in our internal control over financial reporting as of December 31, 2007. These material weaknesses also contributed to management's conclusion as to the effectiveness of our internal control over financial reporting for 2004 through 2006. A detailed description of each of these remaining material weaknesses is described in Item 9A of this Annual Report. Due to these material weaknesses, management has concluded that we did not maintain effective internal control over financial reporting as of December 31, 2007. The existence of these material weaknesses continues to cause us to rely on additional procedures

and other measures as needed to assist us with meeting the objectives otherwise fulfilled by an effective control environment.

Moreover, we continue to experience difficulty in internally producing accurate and timely forecasted financial information due, in part, to issues related to the material control weaknesses and other deficiencies

**Table of Contents**

identified as part of management's assessment of internal control over financial reporting, and, until the filing of our Form 10-Q for the quarterly period ended September 30, 2007, to the delays in filing our periodic reports with the SEC. While we continue to address many of the underlying issues that have affected our ability to produce accurate internal financial forecasts, there can be no assurance that our ability to produce such forecasts has sufficiently improved to enable us to accurately and timely predict and assess the ongoing cash demands or financial needs of our business. Moreover, our difficulties in producing accurate internal financial forecasts could jeopardize the accuracy of any financial guidance we provide publicly.

We have engaged in, and continue to engage in, substantial efforts to address the material weaknesses in our internal control over financial reporting. We cannot be certain that any remedial measures we have taken or plan to take will ensure that we design, implement and maintain adequate controls over our financial processes and reporting in the future or will be sufficient to address and eliminate these material weaknesses. Our inability to remedy these identified material weaknesses or any additional deficiencies or material weaknesses that may be identified in the future, could, among other things, cause us to fail to file our periodic reports with the SEC in a timely manner, result in the need to restate financial results for prior periods, prevent us from providing reliable and accurate financial information and forecasts or from avoiding or detecting fraud, result in the loss of government contracts, or require us to incur further additional costs or divert management resources. Due to its inherent limitations, effective internal control over financial reporting can provide only reasonable assurances that transactions are properly recorded, or that the unauthorized acquisition, use or disposition of our assets, or inappropriate reimbursements and expenditures, will be detected. These limitations may not prevent or detect all misstatements or fraud, regardless of their effectiveness.

Furthermore, in order to sustain the timely production of our financial statements and SEC periodic reports, we must reduce the time required to prepare our financial statement accounts and balances. Until our material weaknesses have been remediated, we will not be able to fully minimize the time required to prepare our financial statement accounts and balances. Our ability to remain timely in our SEC periodic reports will depend on, among other things, our ability to increase the focus of, and maximize the cooperation from, our client engagement teams and other corporate services in providing financial information and updates into our financial closing process on a timely basis. If we are unable to achieve these efficiencies, we may be unable to sustain being timely in our SEC periodic reports.

**Risks that Relate to Our Common Stock**

*The price of our common stock may decline due to the number of shares that may be available for sale in the future.*

Sales of a substantial number of shares of our common stock, or the perception that such sales could occur, could adversely affect the market price of our common stock.

**Table of Contents**

Upon conversion or exercise of our outstanding convertible debt and warrants, including upon certain change of control transactions, we will issue the following number of shares of our common stock, subject to anti-dilution protection and other adjustments:

<b>Convertible Debt and Warrants</b>	<b>Initial Per Share Conversion Price/Exercise Price(\$)</b>	<b>Initial Conversion Dates</b>	<b>Total Approximate Number of Shares</b>
Series A Debentures	\$ 10.50	March 31, 2005(1)	23.8 million
Series B Debentures	10.50	March 31, 2005(1)	19.0 million
April 2005 Convertible Debentures	6.60	April 27, 2005	30.3 million
July 2005 Convertible Debentures	6.75	July 15, 2006	5.9 million
Warrants issued in connection with the July 2005 Senior Debentures (the July 2005 Warrants )	8.00	July 15, 2006	3.5 million
<b>Total</b>			<b>82.5 million</b>

- (1) The holders of the Series A Debentures and Series B Debentures have the right to convert the debentures into shares of common stock only upon the occurrence of certain triggering events. For additional information regarding the triggering events, see Note 6, Notes Payable Series A and Series B Convertible Subordinated Debentures, of the Notes to Consolidated Financial Statements.

As of December 31, 2007, our employees held stock options to purchase 30.7 million shares, representing approximately 14% of our 215,156,077 shares of common stock then outstanding and of which 30.0 million shares are currently vested. An additional number of stock options generally will vest and become exercisable, at the exercise price indicated, during the calendar years indicated below:

<b>Number of Shares</b>	<b>Exercise Price</b>		<b>Average</b>	<b>Calendar Year</b>
	<b>Range</b>			
428,520	\$ 4.71	\$8.77	\$ 8.07	2008
200,000	\$ 7.89	\$8.70	\$ 8.30	2009

Since 2005 we have significantly increased the issuance of equity in the form of restricted stock units ( RSUs ) and performance share units ( PSUs ) (collectively, stock units ) to managing directors and other key employees, as a means of better aligning the interests of these employees with our shareholders and to enhance the retention of current managing directors. As of December 31, 2007, an aggregate of 12.2 million RSUs and 18.2 million PSUs, net of share settlements and forfeitures, were issued and outstanding. The following shares of common stock are expected to be delivered upon settlement of these stock units during the calendar years indicated below (assuming the vesting of PSUs at 100%):

<b>Number of Shares</b>	<b>Calendar Year</b>
-------------------------	----------------------

4,030,861	2008
2,066,161	2009
24,195,155	2010 and thereafter

Under the terms of our 2007 Credit Facility, we are limited in our ability to repurchase shares and apply share withholding for payroll tax obligations due from employees in connection with the settlement of their RSUs. Consequently, upon settlement of these RSUs, our employees are likely to sell significant numbers of their shares into the market in order to pay for their tax withholding obligations.

**Table of Contents**

***There are significant limitations on the ability of any person or company to acquire the Company without the approval of our Board of Directors (the Board ).***

We have adopted a stockholders' rights plan. Under this plan, after the occurrence of specified events that may result in a change of control, our stockholders will be able to purchase stock from us or our successor at half the then current market price. This right will not extend, however, to persons participating in takeover attempts without the consent of our Board or to persons whom the Board determines to be adverse to the interests of the stockholders. Accordingly, this plan could deter takeover attempts.

In addition, our certificate of incorporation and bylaws each contains provisions that may make the acquisition of our company more difficult without the approval of our Board. These provisions include the following, among others:

our Board is classified into three classes, each of which will serve for staggered three-year terms;

a director may be removed by our stockholders only for cause and then only by the affirmative vote of two-thirds of our voting stock;

only our Board or the Chairman of the Board may call special meetings of our stockholders;

our stockholders may not take action by written consent;

our stockholders must comply with advance notice procedures in order to nominate candidates for election to our Board or to place stockholders' proposals on the agenda for consideration at meetings of the stockholders;

if stockholder approval is required by applicable law, any mergers, consolidations and sales of all or substantially all of our assets must be approved by the affirmative vote of at least two-thirds of our voting stock; and

our stockholders may amend or repeal any of the foregoing provisions of our certificate of incorporation or our bylaws only by a vote of two-thirds of our voting stock.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

**ITEM 2. PROPERTIES**

Our properties consist of leased office facilities for specific client contracts and for sales, support, research and development, consulting, administrative and other professional personnel. Our corporate headquarters consists of approximately 235,000 square feet in McLean, Virginia. As of December 31, 2007, we occupied approximately 88 additional offices in the United States and approximately 60 offices in Latin America, Canada, the Asia Pacific region and EMEA. All of our office space generally is leased pursuant to operating leases that expire over various periods during the next 10 years. Portions of our office space are sublet under operating lease agreements that expire over various periods during the next 7 years and are also being marketed for sublease or disposition. Although we believe our facilities are adequate to meet our needs in the near future, our business requires that our lease holdings accommodate the dynamic needs of our various consulting engagements and, given business demands, the makeup of our leasehold portfolio may change within the next twelve-month period to address these demands.

In May 2007, in connection with the settlement of our dispute with KPMG LLP ( KPMG ) regarding the transition services agreement entered into with KPMG in connection with our initial public offering, we amended certain real estate documents relating to a number of properties that we currently sublet from KPMG to either allow us to further sublease these properties to third parties, or to return certain properties we no

## **Table of Contents**

longer utilize to KPMG, in return for a reduction of the amount of our sublease obligations to KPMG for those properties.

### **ITEM 3. LEGAL PROCEEDINGS**

#### ***Overview***

We currently are a party to a number of disputes that involve or may involve litigation or other legal or regulatory proceedings. Generally, there are three types of legal proceedings to which we may be made a party:

Claims and investigations arising from our inability to timely file periodic reports under the Exchange Act, and the restatement of our financial statements for certain prior periods to correct accounting errors and departures from generally accepted accounting principles for those years ( SEC Reporting Matters );

Claims and investigations being conducted by agencies or officers of the U.S. Federal government and arising in connection with our provision of services under contracts with agencies of the U.S. Federal government ( Government Contracting Matters ); and

Claims made in the ordinary course of business by clients seeking damages for alleged breaches of contract or failure of performance, by current or former employees seeking damages for alleged acts of wrongful termination or discrimination, and by creditors or other vendors alleging defaults in payment or performance.

We currently maintain insurance in types and amounts customary in our industry, including coverage for professional liability, general liability and management and director liability. Based on management's current assessment and insurance coverages believed to be available, we believe that the Company's financial statements include adequate provision for estimated losses that are likely to be incurred with regard to all matters of the types described above.

#### ***SEC Reporting Matters***

*2005 Class Action Suits.* In and after April 2005, various separate complaints were filed in the U.S. District Court for the Eastern District of Virginia, alleging that the Company and certain of its current and former officers and directors violated Section 10(b) of the Exchange Act, Rule 10b-5 promulgated thereunder and Section 20(a) of the Exchange Act by, among other things, making materially misleading statements between August 14, 2003 and April 20, 2005 with respect to our financial results in our SEC filings and press releases. On January 17, 2006, the court certified a class, appointed class counsel and appointed a class representative. The plaintiffs filed an amended complaint on March 10, 2006 and the defendants, including the Company, subsequently filed a motion to dismiss that complaint, which was fully briefed and heard on May 5, 2006. We were awaiting a ruling when, on March 23, 2007, the court stayed the case, pending the U.S. Supreme Court's decision in the case of *Makor Issues & Rights, Ltd v. Tellabs*, argued before the Supreme Court on March 28, 2007. On June 21, 2007, the Supreme Court issued its opinion in the *Tellabs* case, holding that to plead a strong inference of a defendant's fraudulent intent under the applicable federal securities laws, a plaintiff must demonstrate that such an inference is not merely reasonable, but cogent and at least as compelling as any opposing inference of non-fraudulent intent. On September 12, 2007, the court dismissed with prejudice this complaint, granting motions to dismiss filed by the Company and the other named defendants. In granting the Company's motion to dismiss, the court ruled that the plaintiff failed to meet the scienter pleading requirements set forth in the Private Securities Litigation Reform Act of 1995, as amended. On September 26, 2007, the plaintiffs filed a motion that seeks a reversal of the court's order dismissing the case or an amendment to the court's order that would allow the plaintiffs to replead. The Company filed its brief on October 17, 2007 and although a hearing on the plaintiffs' motion was scheduled

## **Table of Contents**

for November 16, 2007, the court canceled the hearing as not necessary. On November 19, 2007, the court issued an order denying the plaintiffs' motion to amend or alter the court's September 12, 2007 dismissal of this matter. The plaintiffs have appealed the matter to the U.S. Court of Appeals for the Fourth Circuit.

*2005 Shareholder's Derivative Demand.* On May 21, 2005, we received a letter from counsel representing one of our shareholders requesting that we initiate a lawsuit against our Board and certain present and former officers of the Company, alleging breaches of the officers' and directors' duties of care and loyalty to the Company relating to the events disclosed in our report filed on Form 8-K, dated April 20, 2005. On January 21, 2006, the shareholder filed a derivative complaint in the Circuit Court of Fairfax County, Virginia, that was not served on the Company until March 2006. The shareholder's complaint alleged that his demand was not acted upon and alleged the breach of fiduciary duty claims previously stated in his demand. The complaint also included a non-derivative claim seeking the scheduling of an annual meeting in 2006. On May 18, 2006, following an extensive audit committee investigation, our Board responded to the shareholder's demand by declining at that time to file a suit alleging the claims asserted in the shareholder's demand. The shareholder did not amend the complaint to reflect the refusal of his demand. We filed demurrers on August 11, 2006, which effectively sought to dismiss the matter related to the fiduciary duty claims. On November 3, 2006, the court granted the demurrers and dismissed the fiduciary claims, with leave to file amended claims. As a result of our annual meeting of stockholders held on December 14, 2006, the claim seeking the scheduling of an annual meeting became moot. On January 3, 2007, the plaintiff filed an amended derivative complaint re-asserting the previously dismissed derivative claims and alleging that the Board's refusal of his demand was not in good faith. The Company and the other defendants renewed their motion to dismiss all remaining claims by filing demurrers, which argument was heard on March 23, 2007. On February 20, 2008, the court granted the demurrers and dismissed the claims with prejudice.

*SEC Investigation.* On April 13, 2005, pursuant to the same matter number as its inquiry concerning our restatement of certain financial statements issued in 2003, the staff of the SEC's Division of Enforcement requested information and documents relating to our March 18, 2005 Form 8-K. On September 7, 2005, we announced that the staff had issued a formal order of investigation in this matter. We subsequently have received subpoenas from the staff seeking production of documents and information, including certain information and documents related to an investigation conducted by our Audit Committee. We continue to provide information and documents to the SEC as requested. The investigation is ongoing and the SEC is in the process of taking the testimony of a number of our current and former employees, as well as one of our former directors.

In connection with the investigation by our Audit Committee, we became aware of incidents of possible non-compliance with the Foreign Corrupt Practices Act and our internal controls in connection with certain of our operations in China and voluntarily reported these matters to the SEC and U.S. Department of Justice in November 2005. Both the SEC and the Department of Justice are investigating these matters in connection with the formal investigation described above. On March 27, 2006, we received a subpoena from the SEC regarding information related to these matters and has responded to their requests through the summer of 2006. We have not received any further requests since that time.

### ***Government Contracting Matters***

A significant portion of our business relates to providing services under contracts with the U.S. Federal government or state and local governments, inclusive of government sponsored enterprises. These contracts are subject to extensive legal and regulatory requirements and, from time to time, agencies of the U.S. Federal government or state and local governments investigate whether our operations are being conducted in accordance with these requirements and the terms of the relevant contracts. In the ordinary course of business, various government investigations are ongoing. U.S. Federal government investigations of the Company, whether relating to these contracts or conducted for other reasons, could result in administrative, civil or criminal liabilities, including repayments, fines or penalties being

imposed upon us, or could lead to suspension or debarment from future U.S. Federal government contracting. It cannot be determined at this time

**Table of Contents**

whether any findings, conclusions, penalties, fines or other amounts determined to be applicable to us in any such investigation could have a material effect on our results of operation, outlook or business prospects.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

As previously reported, on November 5, 2007, we held our 2007 Annual Meeting of Stockholders. Set forth below is information concerning each matter submitted to a vote at the meeting.

- (1) *Election of Directors.* Our stockholders elected the following persons as Class I directors to hold office until the annual meeting of stockholders to be held in 2010 and their respective successors have been duly elected and qualified.

Nominee for Class I Director	For	Withhold
Douglas C. Allred	152,960,864	28,469,643
Betsy J. Bernard	153,017,163	28,413,344
Spencer C. Fleischer	179,134,849	2,295,658

- (2) *Ratification of Appointment of Ernst & Young LLP.* Our stockholders ratified the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2007.

For	Against	Abstain
178,240,625	567,529	2,622,353

**Table of Contents**

***Executive Officers of the Registrant***

Information about our executive officers as of February 1, 2008, is provided below.

*Judy A. Ethell*, 49, has been Chief Financial Officer since October 2006 and Executive Vice President Finance and Chief Accounting Officer since July 2005. Previously, she held various positions with PricewaterhouseCoopers LLP between 1982 and 2005. From 2003 to 2005, Ms. Ethell was a Partner and Tax Site Leader of PricewaterhouseCoopers LLP, where her duties included managing client service, human resources, marketing, and management of the St. Louis, Missouri Tax office. From 2001 to 2003, Ms. Ethell was a National Tour Partner (Tax) of PricewaterhouseCoopers LLP.

*F. Edwin Harbach*, 54, has been Chief Executive Officer and a member of our Board since December 2007. Mr. Harbach has also served as our President and Chief Operating Officer from January 2007 to December 2007. From 1976 until his retirement in 2004, Mr. Harbach held various positions with and served in leadership roles at Accenture Ltd, a global management consulting, technology services and outsourcing company, including Chief Information Officer, Managing Partner of Japan and Managing Director of Quality and Client Satisfaction.

*Laurent C. Lutz*, 47, has been General Counsel and Secretary since March 2006. From 1999 to 2006, Mr. Lutz was Assistant General Counsel, Corporate Finance and Securities, of Accenture Ltd, a global management consulting, technology services and outsourcing company.

The term of office of each officer continues until the election and qualification of a successor, or otherwise in the discretion of the Board.

There is no arrangement or understanding between any of the above-listed officers and any other person pursuant to which any such officer was elected as an officer.

None of the above-listed officers has any family relationship with any director or other executive officer. See Item 13, Certain Relationships and Related Transactions, and Director Independence Related Transactions Judy Ethell/Robert Glatz, for information about Ms. Ethell's relationship with Robert Glatz, a former managing director and former member of our management team.

**PART II.**

**ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

***Market Information***

Our common stock is traded on the NYSE under the trading symbol BE.

The following table sets forth the high and low sales prices for our common stock as reported on the NYSE for the quarterly periods indicated.

**Price Range of Common Stock**

	<b>Price Range of Common Stock</b>	
	<b>High</b>	<b>Low</b>
<b>2007</b>		
Fourth Quarter	5.19	2.45
Third Quarter	7.64	3.83
Second Quarter	8.00	6.90
First Quarter	8.56	7.33
<b>2006</b>		
Fourth Quarter	8.89	7.44
Third Quarter	9.00	7.36
Second Quarter	9.59	7.55
First Quarter	9.16	7.77

***Holders***

At December 31, 2007, we had approximately 838 stockholders of record.

***Dividends***

We have never paid cash dividends on our common stock, and we do not anticipate paying any cash dividends on our common stock for at least the next 12 months. We intend to retain all of our earnings, if any, for general corporate purposes, and, if appropriate, to finance the expansion of our business. Our 2007 Credit Facility contains limitations on our payment of dividends. Our future dividend policy will also depend on our earnings, capital requirements, financial condition and other factors considered relevant by our Board.

**Table of Contents*****Equity Compensation Plan Information*****Equity Compensation Plan Information  
(as of December 31, 2007)**

<b>Plan Category</b>	<b>Number of securities to be issued upon exercise of outstanding options, warrants and rights</b>	<b>Weighted-average exercise price of outstanding options, warrants and rights</b>	<b>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))</b>
Equity Compensation Plans Approved by Security Holders	58,494,576	\$ 11.30	46,246,324(1)(2)
Equity Compensation Plans Not Approved by Security Holders	1,950,825(3)	\$ 7.55	
<b>Total</b>	<b>60,445,401</b>	<b>\$ 11.17</b>	<b>46,246,324</b>

(1) Includes 22,098,610 shares of common stock available for grants of stock options, restricted stock, stock appreciation rights and other stock-based awards under our Amended and Restated 2000 Long-Term Incentive Plan (the "LTIP") and 24,147,714 shares of common stock available for issuance under our Amended and Restated Employee Stock Purchase Plan (the "ESPP").

(2) Under the LTIP, the number of shares of common stock authorized for grants or awards is 92,179,333. Under the ESPP, the number of shares of our common stock available for purchase is 3,766,096 shares, plus an annual increase on the first day of each of our fiscal years beginning on July 1, 2001 and ending on June 30, 2026 equal to the lesser of (i) 30 million shares, (ii) three percent of the shares outstanding on the last day of the immediately preceding fiscal year or (iii) a lesser number of shares as determined by our Board or the Compensation Committee of the Board.

(3) Consists of 888,325 outstanding RSUs held by Mr. Harbach; and 1,000,000 outstanding options and 62,500 outstanding RSUs held by Mr. You, all of which were non-LTIP grants.

***Issuer Purchases of Equity Securities***

The following table provides information relating to our purchase of shares of common stock of the Company in 2007:

Period			Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(1)		Approximate Dollar Value of Shares that May Yet Be Purchased Under Publicly Announced Plans or Programs (\$ in millions)(1)
	December 1, 2007	December 31, 2007	Total Number of Shares Purchased	Average Price per Share	
			624,482(2)	\$ 2.59	\$ 64.3

- (1) In July 2001, our Board authorized us to repurchase up to \$100.0 million of our common stock. Any shares so repurchased are held as treasury shares. During 2007, there were no open market purchases by the Company of our common stock.
- (2) In December 2007, as permitted under the LTIP, we acquired an aggregate of 624,482 shares of our common stock for an aggregate price of \$1.6 million in connection with share withholding for payroll tax obligations due from employees and former employees for the issuance of shares of common stock upon settlement of RSUs.

**Table of Contents**

**COMPARATIVE STOCK PERFORMANCE**

Our Peer Group (the Peer Group ) consists of Accenture Ltd, Computer Sciences Corporation, Electronic Data Systems Corporation and Cap Gemini SA. We believe that the members of the Peer Group are most comparable to us in terms of client base, service offerings and size.

The following graph compares the total stockholder return on our common stock from 2003 through 2007 with the total return on the Standard & Poor's ( S&P ) 500 Index and the Peer Group. The graph assumes that \$100 is invested initially and all dividends are reinvested.

**ITEM 6. SELECTED FINANCIAL DATA**

Our selected financial data is derived from our audited Consolidated Financial Statements and related Notes included elsewhere in this report as of and for the years ended December 31, 2007, 2006 and 2005. The selected data as of and for the year ended December 31, 2004, as of and for the six months ended December 31, 2003, and as of and for the year ended June 30, 2003, are also derived from audited financial statements. Through June 30, 2003, our fiscal year ended on June 30. In February 2004, our Board approved a change in our fiscal year-end to a twelve-month period ending December 31. As a requirement of this change, the results for the six-month period from July 1, 2003 to December 31, 2003 were reported as a six-month transition period. Selected financial data should be read in conjunction with Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation, and the Consolidated Financial Statements and the related Notes included herein.

**Balance Sheet Data**

	December 31, 2007	December 31, 2006	December 31, 2005	December 31, 2004	December 31, 2003	June 30, 2003
	(in thousands)					
Cash, cash equivalents, and restricted cash(6)	\$ 468,518	\$ 392,668	\$ 376,587	\$ 265,863	\$ 122,475	\$ 121,790
Total assets	1,981,404	1,939,240	1,972,426	2,182,707	2,211,613	2,150,210
Long-term liabilities(7)	1,538,801	1,078,930	976,501	648,565	408,324	375,991
Total debt	974,643	671,850	674,760	423,226	248,228	277,176
Total liabilities(7)	2,450,693	2,116,541	2,017,998	1,558,009	1,141,618	1,006,990
Total stockholders (deficit) equity(7)	(469,289)	(177,301)	(45,572)	624,698	1,069,995	1,143,220

- (1) During the year ended December 31, 2007, an adjustment of \$7.6 million was recorded, comprised of \$2.5 million within costs of service and \$5.1 million within selling, general and administrative expenses, to true up the stock-based compensation expense calculated with an estimated forfeiture rate and capture the impact of unanticipated forfeitures that occurred in the fourth quarter of 2007.
- (2) During the years ended December 31, 2005 and 2004 and the six months ended December 31, 2003, we recorded goodwill impairment charges of \$166.4 million, \$397.1 million and \$127.3 million, respectively. For additional

**Table of Contents**

information regarding these goodwill impairment charges and international acquisitions, see Note 5, Business Acquisitions, Goodwill and Other Intangible Assets, of the Notes to Consolidated Financial Statements.

- (3) During the year ended December 31, 2004, we recorded a change in accounting principle resulting in a charge of \$0.5 million related to the elimination of a one-month lag in reporting for certain Asia Pacific subsidiaries, as well as a subsidiary within the EMEA region. While the elimination of the one-month lag is considered a change in accounting principle, the effect of the change is included in other income (expense) due to the immateriality of the change in relation to consolidated net loss.
- (4) During the year ended December 31, 2005, we recorded a valuation allowance of \$55.3 million, primarily against our U.S. deferred tax assets to reflect our conclusion that it is more likely than not that these tax benefits would not be realized. For additional information, see Note 14, Income Taxes, of the Notes to Consolidated Financial Statements.
- (5) During the fourth quarter of 2006, the one-month reporting lag in the remaining EMEA entities was eliminated. The elimination of one month of activity increased our 2006 consolidated net loss for the year ended December 31, 2006 by \$1.2 million.
- (6) Restricted cash amounts at December 31, 2007, 2006, 2005 and 2004 were \$1.7 million, \$3.1 million, \$121.2 million and \$21.1 million, respectively. As of December 31, 2003 and June 30, 2003, there was no restricted cash.
- (7) During the year ended December 31, 2007, we recognized an increase of approximately \$119.8 million in liability for unrecognized tax benefits, which was reflected as an increase to the January 1, 2007 balance of accumulated deficit as a result of adopting the provisions of Financial Accounting Standards Board ( FASB ) Interpretation No. 48, Accounting for Uncertainty in Income Taxes, as of January 1, 2007.

**Table of Contents**

**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION**

*The following Management's Discussion and Analysis of Financial Condition and Results of Operation (MD&A) should be read in conjunction with the Consolidated Financial Statements and the Notes to Consolidated Financial Statements included elsewhere in this Annual Report. This Annual Report contains forward-looking statements that involve risks and uncertainties. See Forward-Looking Statements.*

***Overview***

We want to be recognized as the world leader in management and technology consulting, admired for our passion and respected for our ability to solve our clients' most important challenges. We provide strategic consulting applications services, technology solutions and managed services to government organizations, Global 2000 companies and medium-sized businesses in the United States and internationally. In North America, we provide consulting services through our Public Services, Commercial Services and Financial Services industry groups in which we focus significant industry-specific knowledge and service offerings to our clients. Outside of North America, we are organized on a geographic basis, with operations in EMEA, the Asia Pacific region and Latin America.

***Economic and Industry Factors***

We believe that our clients' spending for consulting services is partially correlated to, among other factors, the performance of the domestic and global economy as measured by a variety of indicators such as gross domestic product, government policies, mergers and acquisitions activity, corporate earnings, U.S. Federal and state government budget levels, inflation and interest rates and client confidence levels, among others.

As economic uncertainties increase, clients' interests in business and technology consulting historically have turned more to improving existing processes and reducing costs rather than investing in new innovations. Demand for our services, as evidenced by new contract bookings, also does not uniformly follow changes in economic cycles. Consequently, we may experience rapid decreases in new contract bookings at the onset of significant economic downturns while the benefits of economic recovery may take longer to realize. Mindful of this phenomenon and the potential for increasing economic uncertainty in 2008, our business plan places significant emphasis on continuing our cost reduction and consolidation efforts, monitoring our utilization rates, and making conservative estimates of minimal to no revenue growth in 2008. In terms of achieving our performance goals for 2008, we believe that the historic resiliency of our Public Services business to economic downturns, as well as the level of new bookings obtained in 2007, will aid us in achieving our business goals. Nonetheless, most bookings are subject to cancellation on short notice and we may be unable to rapidly and effectively adjust our cost structure if we experience significant cancellations or deferrals of work.

The markets in which we provide services are increasingly competitive and global in nature. While supply and demand in certain lines of business and geographies may support price increases for some of our standard service offerings from time to time, to maintain and improve our profitability we must constantly seek to improve and expand our unique service offerings and deliver our services at increasingly lower cost levels. Our Public Services industry group, which is our largest, also must operate within the U.S. Federal, state and local government markets where unique contracting, budgetary and regulatory regimes control how contracts are awarded, modified and terminated. Budgetary constraints or reductions in government funding may result in the modification or termination of long-term government contracts, which could dramatically affect the outlook of that business.

## **Table of Contents**

### *Revenue and Income Drivers*

We derive substantially all of our revenue from professional services activities. Our revenue is driven by our ability to continuously generate new opportunities to serve clients, by the prices we obtain for our service offerings, and by the size and utilization of our professional workforce. Our ability to generate new business is directly influenced by the economic conditions in the industries and regions we serve, our anticipation and response to technological change, the type and level of technology spending by our clients and by our clients' perception of the quality of our work. Our ability to generate new business is also indirectly and increasingly influenced by our clients' perceptions of our ability to manage our ongoing issues surrounding our financial position and SEC reporting capabilities.

Our gross profit consists of revenue less our costs of service. The primary components of our costs of service include professional compensation and other direct contract expenses. Professional compensation consists of payroll costs and related benefits associated with client service professional staff (including bonuses, the vesting of various stock awards, tax equalization for employees on foreign and long-term domestic assignments and costs associated with reductions in workforce). Other direct contract expenses include costs directly attributable to client engagements. These costs include out-of-pocket costs such as travel and subsistence for client service professional staff, costs of hardware and software, and costs of subcontractors. If we are unable to adequately control or estimate these costs, or properly anticipate the sizes of our client service and support staff, our profitability will suffer.

Our operating profit reflects our revenue less costs of service and certain additional items that include, primarily, SG&A expenses, which include costs related to marketing, information systems, depreciation and amortization, finance and accounting, human resources, sales force, and other expenses related to managing and growing our business. Write-downs in the carrying value of goodwill and amortization of intangible assets have also reduced our operating profit.

Our operating cash flow is derived predominantly from gross operating profit and how we manage our receivables and payables.

### *Key Performance Indicators*

In evaluating our operating performance and financial condition, we focus on the following key performance indicators: bookings, revenue growth, gross margin (gross profit as a percentage of revenue), utilization, days sales outstanding, free cash flow and attrition.

*Bookings.* We believe that information regarding our new contract bookings provides useful trend information regarding how the volume of our new business changes over time. Comparing the amount of new contract bookings and revenue provides us with an additional measure of the short-term sustainability of revenue growth. Information regarding our new bookings should not be compared to, or substituted for, an analysis of our revenue over time. There are no third-party standards or requirements governing the calculation of bookings. New contract bookings are recorded using then existing currency exchange rates and are not subsequently adjusted for currency fluctuations. These amounts represent our estimate at contract signing of the net revenue expected over the term of that contract and involve estimates and judgments regarding new contracts as well as renewals, extensions and additions to existing contracts. Subsequent cancellations, extensions and other matters may affect the amount of bookings previously reported; however, we do not revise previously reported bookings. Bookings do not include potential revenue that could be earned from a client relationship as a result of future expansion of service offerings to that client, nor does it reflect option years under contracts that are subject to client discretion. We do not record unfunded U.S. Federal contracts as new contract bookings while appropriation approvals remain pending, as there can be no assurances that these approvals will be forthcoming in the near future, if at all. Consequently, there can be

significant differences between the time of contract signing and new contract booking recognition. Our level of bookings provides an indication of how our business is

## Table of Contents

performing: a positive variance between bookings and revenue is indicative of business momentum, a negative variance is indicative of a business downturn. Nonetheless, we do not characterize our bookings, or our engagement contracts associated with new bookings, as backlog because our engagements generally can be cancelled or terminated on short notice or without notice.

*Revenue Growth.* Unlike bookings, which provide only a general sense of future expectations, period-over-period comparisons of revenue provide a meaningful depiction of how successful we have been in growing our business over time.

We believe that it is also useful to monitor net revenue, as well as revenue growth. Net revenue represents the actual amount paid by our clients for the services we provide, as opposed to services provided by others and ancillary costs and expenses. Net revenue is a non-GAAP financial measure. The most directly comparable financial measure in accordance with generally accepted accounting principles in the United States of America ( GAAP ) is revenue. Net revenue is derived by reducing the components of revenue that consist of other direct contract expenses, which are costs that are directly attributable to client engagements. These costs include items such as computer hardware and software, travel expenses for professional personnel and costs associated with subcontractors.

*Gross Margin (gross profit as a percentage of revenue).* Gross margin is a meaningful tool for monitoring our ability to control our costs of service. Analysis of the various cost elements, including professional compensation expense, effects of foreign exchange rate changes and the use of subcontractors, as a percentage of revenue over time can provide additional information as to the key challenges we are facing in our business. The cost of subcontractors is generally more expensive than the cost of our own workforce and can negatively impact our gross profit. While the use of subcontractors can help us to win larger, more complex deals, and also may be mandated by our clients, we focus on limiting the use of subcontractors whenever possible in order to minimize our costs. We also utilize certain adjusted gross margin metrics in connection with the vesting and settlement of certain employee incentive awards. For a discussion of these metrics, see Item 11, Executive Compensation Compensation Discussion and Analysis.

We also monitor contribution margin to better review the profitability of our respective operating segments. Contribution margin is a non-GAAP financial measure. The most directly comparable financial measure in accordance with GAAP is gross margin. Contribution margin is calculated by subtracting, from net revenue, professional compensation, other costs of service, SG&A and certain other allocations, and then dividing by net revenue.

*Utilization.* Utilization represents the percentage of time our consultants are performing work, and is defined as total hours charged to client engagements or to non-chargeable client-relationship projects divided by total available hours for any specific time period, net of holiday and paid vacation hours.

*Days Sales Outstanding ( DSO ).* DSO is an operational metric that approximates the amount of earned revenue that remains unpaid by clients at a given time. DSOs are derived by dividing the sum of our outstanding accounts receivable and unbilled revenue, less deferred revenue, by our average net revenue per day. Average net revenue per day is determined by dividing total net revenue for the most recently ended trailing twelve-month period by 365.

*Free Cash Flow.* Free cash flow is calculated by subtracting purchases of property and equipment from cash provided by operating activities. We believe free cash flow is a useful measure because it allows better understanding and assessment of our ability to meet debt service requirements and the amount of recurring cash generated from operation after expenditures for fixed assets. Free cash flow does not represent our residual cash flow available for discretionary expenditures as it excludes certain mandatory expenditures such as repayment of maturing debt. We use free cash flow as a measure of recurring operating cash flow.

Free cash flow is a non-GAAP financial measure. The most directly comparable financial measure calculated in accordance with GAAP is net cash provided by operating activities.

**Table of Contents**

*Attrition.* Attrition, or voluntary total employee turnover, is calculated by dividing the number of our employees who have chosen to leave the Company within a certain period by the total average number of all employees during that same period. Our attrition statistic covers all of our employees, which we believe provides metrics that are more compatible with, and comparable to, those of our competitors.

Readers should understand that each of the performance indicators identified above are utilized by many companies in our industry and by those who follow our industry. There are no uniform standards or requirements for computing these performance indicators, and, consequently, our computations of these amounts may not be comparable to those of our competitors.

***2007 Highlights***

We are not pleased with our overall performance in 2007. While we made great strides in 2007 toward our goals of becoming timely in the filing of our SEC periodic reports and significantly reducing our SG&A expenses, we realized a net loss of \$362.7 million, as compared to a net loss of \$213.4 million for 2006. We also exceeded our year-end cash balance target for 2007, ending the year with cash and cash equivalents of \$468.5 million.

For the fourth quarter of fiscal 2007, we realized a net loss of \$169.0 million, which was significantly above the average of our net losses incurred in the first three quarters of fiscal 2007. Proactive management actions taken in the fourth quarter and intended to drive further cost savings in 2008 contributed significantly to the magnitude of this loss. These fourth quarter management actions included, among other things, lease and facilities restructuring costs of \$20.6 million and additional severance costs of \$14.4 million. Also contributing to the fourth-quarter loss was \$58.8 million in contract write-downs and loss accruals, a notable net year-over-year increase over the fourth quarter of fiscal 2006. Notwithstanding these fourth-quarter increases, total contract write-downs and loss accruals for the full fiscal year continued to show improvement, as compared to contract write-downs and loss accruals for 2006 and 2005.

Of particular note in 2007 are the following:

New contract bookings for 2007 were \$2,864.9 million, a decrease from new contract bookings of \$3,130.0 million for 2006. Increases in new contract bookings in our EMEA and Asia Pacific regions were more than offset by significant declines in new contract bookings in our other operating segments. Year-over-year decreases in Public Services bookings for 2007 of slightly more than ten percent were substantially attributable to the signing of several exceptionally large, multi-year bookings in our SLED sector in early 2006.

Our revenue for 2007 was \$3,455.6 million, representing an increase of \$11.6 million, or 0.3%, over 2006 revenue of \$3,444.0 million. Revenue increases in Public Services, EMEA, Latin America and Asia Pacific exceeded revenue declines in Financial Services and Commercial Services. In analyzing year-over-year revenue growth for 2007, consideration should also be given to the effect in fiscal 2006 of two previously disclosed settlements within the telecommunications industry and the recognition of certain previously deferred revenue, the net combined effect of which negatively impacted our revenue in 2006.

Our gross profit for 2007 was \$468.5 million, compared to \$550.5 million for 2006. Gross profit as a percentage of revenue decreased to 13.6% during 2007 from 16.0% during 2006. Revenue improvements and significant decreases in other direct contract expenses were more than offset by increases in professional compensation expense, with the most significant portion of these increases attributable to expenses associated with salaries and benefits and stock-based compensation.

During 2006 and 2007, we worked with Hawaiian Telcom Communications, Inc., a telecommunications industry client ( HT ), to resolve issues relating to our delivery of services for the design, build and operation of various information technology systems. In 2006 and 2005, we

**Table of Contents**

accrued losses of \$28.2 million and \$111.7 million, respectively, under our Contract with HT (the HT Contract ). On February 8, 2007, we entered into a Settlement Agreement and Transition Agreement with HT. Pursuant to the Settlement Agreement, we paid \$52 million, \$38 million of which was paid by certain of our insurers, and we waived approximately \$29.6 million of invoices and other amounts otherwise payable by HT to us. Due to the timing of the Settlement Agreement being reached prior to the filing of our 2006 financial statements, the amounts paid by the insurers and the invoices that were waived were reflected in our financial statements as of December 31, 2006, although the \$38 million payment was made subsequent to December 31, 2006. In addition, the Transition Agreement governed our transitioning of the remaining work under the HT Contract to a successor provider, which has been completed. In 2006 and 2005, we incurred losses of \$28.2 million and \$111.7 million, respectively, under the HT Contract.

On June 18, 2007, we entered into a settlement with a telecommunications industry client resolving the client's claims under a client-initiated audit of certain of our time and expense charges relating to an engagement that closed in 2003. In connection with the settlement, we will make six equal annual payments to the client for an aggregate amount of \$24 million, the first payment of which was made on the signing date in return for a full release of the client's claim and the opportunity to perform services for this client in the future.

On May 22, 2007, we settled certain disputes with KPMG that had arisen between our companies related to a transition services agreement executed in 2001. KPMG had asserted that we were liable to it for approximately \$31 million under the agreement for certain technology service termination costs. While neither company admitted any liability under these claims, these claims were mutually released. In addition, we agreed to amend a number of real estate subleases between KPMG and BearingPoint, and to consent to the further subletting of others. The settlement also included cash payments by us to KPMG of an aggregate of \$5 million over a three-year time frame.

We incurred SG&A expenses of \$701.3 million in 2007, representing a decrease of \$46.9 million, or 6.3%, from SG&A expenses of \$748.3 million in 2006. The decrease was primarily due to reduced costs, including subcontracted labor, directly related to the closing of our financial statements, as well as savings from the reduction in the size of our sales force. Partially offsetting these savings was increased compensation expense for additional SG&A personnel, additional recruiting costs incurred, and stock-based compensation expense related to RSUs and PSUs. During 2007, we incurred external costs of approximately \$83.5 million related to the preparation of our financial statements, our auditors' review and audit of our financial statements and the testing of internal controls, compared with approximately \$128.2 million for 2006.

During 2007, we implemented numerous new controls in our efforts toward remediating our material weaknesses in internal control over financial reporting. While some material weaknesses remain (see Item 9A of this Annual Report), senior management continues its focus on the full remediation of material weaknesses and continues our goal of building a strong internal control environment. We currently expect our remaining material weaknesses to be fully remediated in 2008.

In 2007, we realized a net loss of \$362.7 million, or a loss of \$1.68 per share, representing an increase of \$149.3 million over a net loss of \$213.4 million, or a loss of \$1.01 per share, in 2006. This change in net loss was primarily attributable to:

A decrease in gross profit of \$82.0 million;

An increase in interest expense of \$24.0 million due to interest attributable to our 2007 Credit Facility and the acceleration of debt issuance costs resulting from the termination of the 2005 Credit Facility;

and

An increase in income tax expense of \$39.8 million.

Contributing to the net loss for 2007 were \$60.1 million of bonus expense (which includes, among other things, \$6.3 million related to 2006 performance bonuses, \$10.6 million related to performance cash

## **Table of Contents**

awards made in 2007 (described below) and \$30.3 million expected to be paid in 2008 for 2007 performance), \$97.1 million of non-cash compensation expense related to the vesting of stock-based awards, \$20.9 million of lease and facilities restructuring charges, and the previously mentioned \$83.5 million in external costs related to the preparation of our financial statements, our auditors' review and audit of our financial statements and the testing of internal controls.

Effective January 1, 2007, we adopted the provisions of FASB Interpretation No. (FIN) 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 supersedes Statement of Financial Accounting Standards (SFAS) No. 5, Accounting for Contingencies, as it relates to income tax liabilities and changes the standard of recognition that a tax contingency is required to meet before being recognized in the financial statements. Upon adoption of FIN 48 and after examining our existing tax contingencies under the standards of FIN 48, we recognized an increase of approximately \$119.8 million in our long-term liability for unrecognized tax benefits, which was reflected as an increase to the January 1, 2007 balance of accumulated deficit.

Final determination of a significant portion of the Company's tax liabilities that will effectively be settled remains subject to ongoing examination by various taxing authorities, including the Internal Revenue Service. We are actively pursuing strategies to favorably settle or resolve these liabilities for unrecognized tax benefits. If we are successful in mitigating these liabilities, in whole or in part, the majority of the impact will be recorded as an adjustment to income tax expense in the period of settlement.

Utilization for 2007 was 77.2%, compared with 76.2% in 2006.

As of December 31, 2007, our DSOs stood at 77 days, representing a decrease of 5 days, or 6.1%, from our DSOs at December 31, 2006.

Free cash flow for 2007 and 2006 was (\$231.5) million and \$8.1 million, respectively. Net cash (used in) provided by operating activities in 2007 and 2006 was (\$194.2) million and \$58.7 million, respectively. Purchases of property and equipment in 2007 and 2006 were \$37.3 million and \$50.6 million, respectively. The decrease in free cash flow for 2007 was primarily attributable to an increase in net loss, net of non-cash items, the timing of payment of significant amounts of our accounts payable and, to a lesser degree, increases to our combined accounts receivable and unbilled revenue, despite a decrease in DSOs in 2007.

In 2007 we adopted a new Standards of Business Conduct based on best industry practices (to replace our prior Code of Business Conduct and Ethics) and created a Compliance Committee comprised of members of our senior management whose focus is to properly organize and allocate the necessary resources to address broader, Company-wide compliance efforts.

In 2007, we hired Rick Martino as our Executive Vice President, Human Resources. In December 2007, F. Edwin Harbach was promoted to Chief Executive Officer from President and Chief Operating Officer.

During 2007, we spent approximately \$25.3 million in connection with the implementation of our new North American financial reporting system. We finalized decisions regarding the design of, and obtained licenses for the components needed to substantially replace, our existing North American financial reporting systems. This implementation is ongoing, with a number of milestones, such as system integration review, system build review and user test acceptance left to complete. For additional information regarding the implementation of our North American financial reporting systems, see Principal Business Priorities for 2008 and Beyond Drive Operational Excellence.

As of December 31, 2007, we had approximately 17,100 full-time employees, including approximately 14,400 consulting professionals, which represented a decrease in billable headcount of approximately 5.9% from full-time employees and consulting professionals at December 31, 2006 of 17,500 and 15,300, respectively.

## **Table of Contents**

Our voluntary, annualized attrition rate for 2007 was 24.7%, compared to 25.6% for 2006. The highly competitive industry in which we operate and our financial condition continue to make it particularly critical and challenging for us to attract and retain experienced personnel.

In early 2007, we granted approximately 22.4 million PSUs to our highest-performing managing directors and senior managers. The PSUs were issued as single, three-year cliff vesting awards rather than several, smaller, periodic awards, primarily to promote the longer retention of our employees. As of December 31, 2007, approximately 18.2 million PSUs were outstanding. For additional information about the PSUs, see Principal Business Priorities for 2008 and Beyond Attract, Develop and Retain a World-Class Employee Base.

In early 2007, we granted performance cash awards providing for the payment of up to \$50 million to a group of our managing directors and other high-performing senior-level employees, including our executive officers (the Performance Cash Awards ). Generally, 50% of these awards may be earned on December 31 in each of 2007 and 2008, subject to the achievement of the same consolidated business unit contribution target required under the PSUs. If the Performance Cash Awards are not earned in 2007 and 2008, the awards may still be fully earned if compounded average annual growth for the three-year period ended December 31, 2009 is achieved. Amounts earned will be paid by March 31, 2010 or, if the determination of whether amounts have been earned cannot be made by March 31, within 30 days of the determination date. We did not meet the consolidated business unit contribution target for 2007. For additional information regarding consolidated business unit contribution, see Item 11, Executive Compensation Compensation Discussion and Analysis.

For 2006 and 2007, our Managing Director Compensation Plan (the MD Compensation Plan ) was not fully activated because we were not current in the filing of our SEC periodic reports. Even though the target levels of profitability under the MD Compensation Plan were not achieved in either year, we decided to pay performance-based cash bonuses for retention purposes and because we were able to sustain our underlying operations and our core business continued to perform, despite the issues we continue to face with respect to our financial accounting systems and efforts to become timely in our SEC periodic reports. In 2007, we paid performance-based cash bonuses totaling approximately \$50 million (\$33 million to staff, \$17 million to managing directors), based on 2006 performance. In addition, we have accrued performance-based cash bonuses totaling approximately \$30 million (\$15 million to staff, \$15 million to managing directors), to be paid in 2008.

In 2007, upon the recommendation of our Chief Executive Officer, the Compensation Committee of our Board agreed, for 2008, not to activate the provision of our MD Compensation Plan that provides for 20% of a managing director's salary to be paid two fiscal quarters after the compensation has been earned, as determined by the Company's performance. We expect to review the plan this year, in order to revisit whether it is still properly aligned with our current business and employee retention objectives.

During 2007, we continued our partnership with Yale University to create the BearingPoint Leadership Program at Yale School of Management, an innovative education and training program focusing on career and leadership development for our employees. In 2007, approximately 1,500 employees participated in the Yale program, and we currently estimate approximately 2,000 will participate in 2008. Participants are taught a curriculum jointly developed by a faculty composed of both Yale professors and BearingPoint specialists, including a consulting skills workshop for experienced professionals and management skills training for newly hired or promoted managers and managing directors.

In April 2007, the U.S. Defense Contract Audit Agency ( DCAA ) issued a report on its audit of our financial capability, which concluded that our financial condition is acceptable for performing government contracts. The DCAA examined our financial condition and capability to determine if we have adequate financial resources to perform government contracts in the current and near-term (up to one year).

**Table of Contents**

On February 6, 2007, Standard & Poor's withdrew our senior unsecured rating of B- and our subordinated debt rating of CCC+ and removed them from CreditWatch. Separately, on December 7, 2007, Moody's confirmed our B2 corporate family rating, assigned us a negative rating outlook and downgraded the ratings of our Series A Debentures and Series B Debentures to Caa1 from B3.

In early 2007, we launched a new brand strategy and messaging platform to more aggressively increase awareness of BearingPoint as a leading global management and technology company. This included an internal launch of our branding campaign to our employees to help improve communication, increase employee morale and retention, and equip employees with enhanced sales and marketing materials to be more successful in the marketplace. In connection with our new brand strategy, we initiated a fully integrated marketing program featuring our re-designed Internet site, print and online advertising, events, sponsorships, thought leadership, public relations and client references.

In 2007, we received a number of high-profile awards and industry recognition, providing independent, third-party acknowledgement of our significant company achievements and capabilities. These accolades included:

Named "Worldwide Systems Integrator of the Year" by FileNet.

Designated 2007 "Global Systems Integrator of the Year" by Cognos.

Won SAP Pinnacle Award for Thought Leadership in Enterprise Service-Oriented Architecture.

Called a leader in Risk Consulting Services by Forrester.

Listed among leading companies in the *InformationWeek* 500.

Named as one of the "Top 10 Most Trusted Management Consulting Firms" in China by the China Enterprise Confederation.

Effective as of October 22, 2007, our Board approved an amendment to our existing shareholder rights agreement. As amended, a shareholder's right under the agreement to acquire additional shares of stock will not trigger unless (a) a shareholder who is a "passive investor" acquires 20% or more of our common stock or (b) a shareholder who is not a "passive investor" acquires 15% or more of our common stock. Prior to the amendment, these rights were triggered upon a shareholder acquiring 15% or more of our common stock in all instances.

***Principal Business Priorities for 2008 and Beyond***

For 2008, our principal business priorities are to: (1) leverage opportunities across our global footprint; (2) attract, develop and retain a world-class employee base; and (3) strive for operational excellence and profitability. Management's current and planned initiatives to achieve these priorities are set forth below.

*Leverage Opportunities Across our Global Footprint.* We must strengthen our global delivery model to create greater opportunities and scale our offerings and solutions that offer the greatest opportunities for growth and profitability. We believe that operating globally will help us better serve our clients' needs, provide us with an advantage over regional competitors and allow us to maintain a diverse portfolio that can help to sustain our business during economic downturns.

*Leverage our Global Delivery Model.* We remain committed to our global delivery model, and we will continue to deliver consistent, sustainable solutions to our clients worldwide, while maintaining world class on-shore and off-shore capabilities to meet the ever changing needs of our clients. This includes: optimizing our global operating model and delivery capabilities; leveraging our strong Public Services franchise globally; and building market awareness under one global brand.

*Maintain Focus on Key Clients, Marketing and Offerings.* We will continue to selectively target and focus on clients, markets and offerings that we believe will offer the greatest growth, profitability and opportunity. We will strategically leverage our industry and solution expertise along with our

**Table of Contents**

business partners and other core channels to market to effectively deliver our capabilities in these areas.

*Differentiate through our Solutions.* We will continue to target and invest in higher-margin, higher-growth solutions that are relevant to our clients' needs and that we can provide in a compelling, differentiated manner. In 2008, we will invest in a profitable portfolio of solutions, continue to target segments, geographies and accounts where we can grow, lead and be profitable, and focus upon translating our intellectual property and industry experience into innovative solutions to key client needs.

*Attract, Develop and Retain a World-Class Employee Base.* As a professional services company, our employees are the cornerstone of our success. We must attract, develop and retain world-class talent. Under the leadership of our new Executive Vice President, Human Resources, our goal is to build a world-class human resources function that will help us hire and retain our employees and provide outstanding training and career opportunities for our people. Our initiatives for 2008 include:

*Reduce Employee Attrition.* We continue in our efforts to reduce attrition by raising our levels of employee ownership to align the interests of our employees with those of our shareholders, providing improved training opportunities, and seeking to better understand and manage employee career expectations. We experienced additional improvement in our voluntary employee attrition rate during the fourth quarter of 2007, in comparison to the third quarter of 2007. We are optimistic that becoming timely in our financial and SEC periodic reporting and again being able to focus singularly on our business strategy will continue to improve our attrition rates.

*Promote a Pay for Performance Culture.* We believe that providing a pay for performance culture that is communicated both clearly and consistently to our employees will enhance their understanding of how to succeed within our company. In 2008, we will strive to bring more clarity and consistency to our bonus and equity programs to effectively provide proper incentives to motivate and reward our employees for their contributions to the success of our business.

*Increase Employee Share Ownership.* During the fourth quarter of 2007, we became current in the filing of our SEC periodic reports, and were able to sell shares to our employees under our ESPP. We expect to continue to provide our employees with regular opportunities to acquire greater ownership in our company through the ESPP.

*Enhance Employee Training.* We plan to enhance career development and training at all levels, including the expansion of our Yale program, which has been highly successful in training our employees, increasing employee satisfaction and reducing attrition for those who attend the program.

*Monitor Employee Satisfaction.* As part of our efforts to maintain a culture consistent with our values, we will monitor employee satisfaction through regular surveys and hold our leaders accountable for improving the results of these surveys and for taking appropriate actions to address concerns and issues raised.

*Enhance our Equity Award Structure.* In early 2007, we granted approximately 22.4 million PSUs to our highest-performing managing directors and senior managers. The PSUs were issued as single, three-year cliff vesting awards rather than several, smaller, periodic awards, primarily to promote the longer retention of our employees. As of December 31, 2007, approximately 18.2 million PSUs were outstanding.

Due to the complexity and uncertainty involved in determining the likelihood of vesting of the PSUs, as well as the extended timeframe for vesting and settlement, we have some concerns that the PSUs may not significantly incent our employees to remain with the Company. As long as these PSUs continue to remain outstanding, our ability to take any

other retentive actions by issuing additional equity to our employees remains limited.

## **Table of Contents**

We believe that providing equity to our employees is a key element of our incentive compensation, to properly motivate performance, increase their ownership in our business and align their interests with those of our shareholders. As a result, in 2008 we are currently re-evaluating the efficacy of the PSUs as a compensation tool and our ability to consider alternatives to the PSUs that will have clearer retentive value for our employees. Regardless of how we address the existing component of our employees' compensation, we currently do not intend to seek approval from our shareholders for any further increase to our share capacity under the LTIP prior to 2009.

*Drive Operational Excellence.* In order to achieve our business goals, we must take actions that will increase revenue, manage our costs of service and reduce our infrastructure costs. In 2008, we will focus on the following:

*Drive Higher Operating Margins.* We will strive to achieve higher operating margins by targeting revenue growth in strategic markets and through differentiated solutions, managing our costs of service by monitoring our utilization rates, broadening our people pyramid and enhancing our mix of off-shore and on-shore service delivery, and continuing to achieve infrastructure cost reductions through 2008.

*Generate a Culture of Accountability.* We must strive to drive higher operating margins through operational excellence and financial discipline. We will monitor the metrics that we believe are critical to driving profitability and positive cash flow, and we will hold our employees accountable for their performance. To further a culture of accountability, each of our operating segments will be measured according to key performance indicators of their respective business operations. For information on these key performance indicators, see Overview Key Performance Indicators.

*Replace Our North American Financial Reporting Systems.* We are currently in the process of replacing our North American financial reporting systems. To date, we are on schedule and have completed various assessments of our new North American financial system. In early 2008, we anticipate completing the steps necessary to start systems integration testing, such as mock data conversion, increasing involvement by our operating segments, and the development of various reports, interfaces and enhancements. Other major milestones to be completed include: systems integration review, system build review and user test acceptance.

*Strengthen our Balance Sheet.* In 2008, we will continue to seek improvements in our quarterly DSO balances and to increase our operational focus on improving operating margins. We are currently undertaking an extensive review of our current capital structure and considering our alternatives for optimizing the debt and equity components of that structure. In April 2009, holders of our April 2005 Convertible Debentures will have the right to demand payment of the principal of their debentures. We believe that achieving our 2008 operational and financial plans will permit us to honor these obligations by making payments out of our cash balances. Being able to repay these debentures with cash generated from our operations would represent not only a significant de-leveraging of our balance sheet but also a positive affirmation that our core business remains solid and capable of operating profitably.

*Remain Timely in our Financial and SEC Periodic Reporting.* With the filing of this Annual Report, we have become timely in the filing of our SEC periodic reports for the first time since 2005. We have not yet, however, demonstrated our ability to consistently file our SEC periodic reports on a timely basis. While we believe we have made significant improvements in our periodic financial closing process, we will not be able to fully minimize the amount of time required to conduct our periodic financial closing process until we have remediated the material weaknesses in our internal control over financial reporting and fully transitioned to our new North American financial reporting system. Based on our management team's most recent review, we currently expect that all steps necessary to remediate our remaining material weaknesses related to revenue recognition, accounts payable disclosures and our Asia Pacific financial statement close and

reporting process will be completed during 2008. Full remediation can only be achieved, however, after appropriate internal

**Table of Contents**

assessment, including testing and auditing procedures have been completed. As a result, the exact date of full remediation of each material weakness remains subject to change. Until that time, we will continue to maintain our focus on shortening our financial closing process and enhancing our controls in order to remain timely in the filing of our SEC periodic reports.

In 2008, we must demonstrate our ability to consistently file our SEC periodic reports on a timely basis. If we are not timely in filing our periodic reports on or after October 31, 2008, an event of default could be declared by our lenders under our senior secured credit facility, which may result in the lenders declaring our outstanding loans due and payable in whole or in part, and potentially resulting in a cross-default to one or more series of our convertible debentures.

**Segments**

Our reportable segments for 2007 consist of our three North America Industry Groups (Public Services, Commercial Services and Financial Services), our three international regions (EMEA, Asia Pacific and Latin America) and the Corporate/Other category (which consists primarily of infrastructure costs). Revenue and gross profit information about our segments are presented below, starting with each of our industry groups and then with each of our three international regions (in order of size).

Our chief operating decision maker, the Chief Executive Officer, evaluates performance and allocates resources among the segments. Accounting policies of our segments are the same as those described in Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements. Upon consolidation, all intercompany accounts and transactions are eliminated. Inter-segment revenue is not included in the measure of profit or loss for each reportable segment. Performance of the segments is evaluated on operating income excluding the costs of infrastructure functions (such as information systems, finance and accounting, human resources, legal and marketing) as described in Note 18, Segment Information, of the Notes to Consolidated Financial Statements. During 2005, we combined our Communications, Content and Utilities and Consumer, Industrial and Technology industry groups to form the Commercial Services industry group.

**Year Ended December 31, 2007 Compared to Year Ended December 31, 2006**

*Revenue.* Our revenue for 2007 was \$3,455.6 million, an increase of \$11.6 million, or 0.3%, over 2006 revenue of \$3,444.0 million. The following tables present certain revenue information and performance metrics for each of our reportable segments during 2007 and 2006. Amounts are in thousands, except percentages. For additional geographical revenue information, please see Note 18, Segment Information, of the Notes to Consolidated Financial Statements.

*Public Services* revenue increased in 2007 due to significant revenue growth in our Emerging Markets, SLED and Civilian sectors. Revenue growth within these sectors was partially derived from expected increases in work on several large existing multi-year contracts signed in prior years. Revenue in our Defense sector declined somewhat, due to congressional decisions regarding ongoing funding by the U.S. government of the continuing war on terrorism and combat operations in Iraq and Afghanistan, as well as increased budgetary pressures on U.S. defense spending. The non-governmental portion of our Healthcare sector also experienced revenue declines.

*Commercial Services* revenue decreased in 2007. While we experienced significant revenue growth in our Energy sector as client demand for the Company's industry-specific solutions increased, overall, revenue decreased due to declines in the Communications and Media, High Technology and Manufacturing sectors. These declines were due, in part, to decreased business levels caused by consolidation within the telecommunications industry and disputes with two significant telecommunications clients in that sector.

*Financial Services* revenue decreased in 2007 due to significant revenue declines across all of its industry sectors. Revenue decreases were attributable to several factors, including the winding down of the segment's largest client engagement during 2007. The continuing effects of losses of senior staff in certain of our higher rate business sectors also attributed to revenue declines in 2007. In addition, difficulties in securing long-term client commitments and delays by clients in implementing new initiatives given the recently reported industry-wide losses related to asset write-downs all had a negative effect on revenue on a year-over-year basis.

*EMEA* revenue increased in 2007, primarily as a result of the favorable impact of the strengthening of foreign currencies, primarily the Euro, against the U.S. dollar, but also due to significant revenue increases in France, Russia and Switzerland. Revenue growth in France was due to an expanding systems implementation practice while revenue growth in Russia and Switzerland was generally attributable to increased demand for our consulting services in those markets. These increases were partially offset by revenue declines in Spain and the United Kingdom. Revenue in the United Kingdom declined due to the reduction in the volume of work provided to multi-national clients in 2007, and the decline in revenue in

Spain was attributable to our strategic decision to reduce our activities in this country.

*Asia Pacific* revenue increased in 2007, primarily as a result of the favorable impact of the strengthening of foreign currencies against the U.S. dollar. Significant revenue growth was achieved in Japan and to a lesser extent in China. These increases continue to be offset by lower revenue in Australia, Korea and New Zealand. Japanese revenue increased due to continued revenue growth from systems implementation contracts and projects involving compliance with Japan's Financial Instruments and Exchange Law. This growth began in 2006 and has continued throughout 2007.

**Table of Contents**

China revenue increased as a result of significant new contracts signed with several large multi-national clients in 2007. Lower revenue in Australia and New Zealand resulted from the winding down or completion of several significant client engagements and partially due to deteriorating market conditions.

*Latin America* revenue increased in 2007, with Brazil and Mexico contributing equally to the growth in U.S. dollars. The favorable impact of the strengthening of the Brazilian Real against the U.S. dollar served to offset local currency revenue declines in Brazil.

*Corporate/Other:* Our Corporate/Other segment does not contribute significantly to our revenue.

*Gross Profit.* During 2007, our revenue increased \$11.6 million and total costs of service increased \$93.6 million when compared to 2006, resulting in a decrease in gross profit of \$82.0 million, or 14.9%. Gross profit as a percentage of revenue decreased to 13.6% for 2007 from 16.0% for 2006. The change in gross profit for 2007 compared to 2006 resulted primarily from the following:

Professional compensation expense increased as a percentage of revenue to 53.4% for 2007, compared to 49.8% for 2006. We experienced a net increase in professional compensation expense of \$129.9 million, or 7.6%, to \$1,846.6 million for 2007 over \$1,716.6 million for 2006. The increase in professional compensation was primarily due to merit-based annual salary increases, increases in stock-based compensation expense for PSUs, RSUs and, to a lesser extent, cash bonuses.

Other direct contract expenses decreased as a percentage of revenue to 23.7% for 2007 compared to 26.0% for 2006. We experienced a net decrease in other direct contract expenses of \$77.4 million, or 8.6%, to \$819.6 million for 2007 from \$897.0 million for 2006. The decrease was driven primarily by reduced subcontractor expenses as a result of increased use of our internal resources. In addition, the decline was driven by higher other direct contract expenses recorded in the first quarter of 2006 related to the HT Contract.

Other costs of service as a percentage of revenue increased to 8.7% for 2007 from 7.3% for 2006. We experienced a net increase in other costs of service of \$49.8 million, or 19.9%, to \$300.0 million for 2007 from \$250.2 million for 2006. The increase was primarily due to an increase in non-billable employees over the prior year, due in part to the redeployment of existing employees from client-facing roles to practice support roles, which resulted in related salaries and expenses now being reflected in other costs of service rather than professional compensation expense.

In 2007 we recorded, within the Corporate/Other operating segment, a charge of \$20.9 million for lease and facilities restructuring costs, compared to a \$29.6 million charge for lease and facilities restructuring costs in 2006. These costs for 2007 related primarily to the fair value of future lease obligations associated with office space, primarily within the EMEA and North America regions, which we will no longer be using.

**Table of Contents**

*Gross Profit by Segment.* The following tables present certain gross profit and margin information and performance metrics for each of our reportable segments for years 2007 and 2006. Amounts are in thousands, except percentages.

	Year Ended December 31,			%

Changes in gross profit by segment were as follows:

*Public Services* gross profit remained relatively unchanged in 2007. Significant year-over-year revenue increases were offset by a significant increase in professional compensation expense of \$78.1 million, or 13.2%, over 2006, and additional costs and revenue write-downs of approximately \$15 million were taken on two of our SLED sector contracts. The increase in professional compensation expense was associated with the hiring of additional personnel needed to meet the demand for our services, as well as bonus payments and accruals, and increases in stock-based compensation expense.

*Commercial Services* gross profit remained relatively unchanged in 2007, with declines in subcontractor expenses, professional compensation and reimbursable client expenses being partially offset by reductions in revenue and contract losses. In 2006, Commercial Services gross profit was negatively impacted by losses of

approximately \$86.2 million attributable to settlements reached with two telecommunications clients, as compared to losses of approximately \$16.7 million in 2007, primarily in connection with a single Communications and Media sector project.

*Financial Services* gross profit significantly decreased in 2007, primarily due to significantly lower revenue combined with a decline in higher margin engagements in the total mix of engagements.

## **Table of Contents**

Declines in revenue were partially offset by declines in compensation expense, reimbursable client expenses and subcontractor expenses. These declines in costs of services were at a slower pace than the declines in revenue, resulting in lower gross profits in 2007 as compared to 2006.

*EMEA* gross profit increased in 2007, primarily due to overall higher revenue in the EMEA region as well as improved profitability in Germany, France and Switzerland as a result of higher utilization and lower costs. This increase was partially offset by an increase in professional compensation due to a larger number of additional personnel to meet the demand for our services and, to a lesser extent, an increase in other costs of services. The increases in professional compensation and other costs of services were partially offset by decreases in costs associated with subcontractors due largely to our effort to increase the use of internal resources.

*Asia Pacific* gross profit increased in 2007, due to increased revenue and improvements in profitability and staff utilization in our Japanese business. In addition, positive growth in gross profit in the region was realized from decreases in other direct contract expenses as a result of decreased subcontractor usage in Japan, which were substantially offset by higher professional compensation costs as well as increased contract loss reserves of \$12.1 million recorded during 2007 as compared to 2006.

*Latin America* gross profit decreased in 2007, due to significant increases in compensation expense, other direct contract expenses and contract write-offs. These increases were driven by an increase in employee compensation recognized as a result of statutory overtime regulations and other employee benefits in Brazil, and to a lesser extent by increased subcontractor expenses in Mexico.

*Corporate/Other* consists primarily of rent expense and other facilities related charges.

*Amortization of Purchased Intangible Assets.* We did not incur any amortization expense in 2007 as our intangible assets were fully amortized. Amortization of purchased intangible assets was \$1.5 million in 2006.

*Selling, General and Administrative Expenses.* Selling, general and administrative expenses decreased \$46.9 million, or 6.3%, to \$701.3 million for 2007 from \$748.3 million for 2006. Selling, general and administrative expenses as a percentage of gross revenue decreased to 20.3% for 2007 from 21.7% for 2006. The decrease was primarily due to reduced costs directly related to the closing of our financial statements, primarily subcontracted labor, as well as savings from the reduction in the size of our sales force. Partially offsetting these savings was increased compensation expense for additional SG&A personnel, additional recruiting costs incurred and stock-based compensation expense related to RSUs and PSUs.

*Interest Income.* Interest income was \$12.1 million and \$8.7 million in 2007 and 2006, respectively. Interest income is earned primarily from cash and cash equivalents, including money-market investments. The increase in interest income was due to a higher level of cash invested in money markets during 2007.

*Interest Expense.* Interest expense was \$61.2 million and \$37.2 million in 2007 and 2006, respectively. Interest expense is attributable to our debt obligations, consisting of interest due along with amortization of loan costs and loan discounts. The increase in interest expense was due to interest attributable to our 2007 Credit Facility, the acceleration of debt issuance costs resulting from the termination of the 2005 Credit Facility, and, to a lesser extent, higher interest rates on our debt obligations.

*Insurance Settlement.* During 2006, related to the Settlement Agreement with HT, we recorded \$38.0 million for an insurance settlement. For additional information, see Note 11, Commitments and Contingencies, of the Notes to Consolidated Financial Statements.

*Other (Expense) Income, net.* Other expense, net, was \$8.6 million in 2007, and other income, net, was \$8.7 million in 2006. The balances in each period primarily consisted of foreign currency exchange gains and losses.

**Table of Contents**

*Income Tax Expense.* We incurred income tax expense of \$72.2 million for the year ended December 31, 2007 and income tax expense of \$32.4 million for the year ended December 31, 2006. The principle reasons for the differences between the effective income tax rate on loss from continuing operations of (24.9)% and (17.9)% for years ended December 31, 2007 and 2006, respectively, and the U.S. Federal statutory income tax rate were: nondeductible meals and entertainment expense of \$19.0 million and \$22.0 million; increases to deferred tax asset valuation allowance of \$125.6 million and \$76.8 million; state and local income taxes of \$(12.4) million and \$(6.7) million; foreign recapitalization and restructuring of \$17.3 million and \$5.4 million; foreign taxes of \$17.4 million and \$(3.8) million; income tax reserves of \$12.5 million and \$8.4 million; non-deductible interest of \$7.8 million and \$10.7 million; foreign dividend income of \$1.0 million and \$13.6 million; and other non-deductible items of \$17.4 million and \$10.0 million, respectively.

*Net Loss.* For 2007, we incurred a net loss of \$362.7 million, or a loss of \$1.68 per share. Contributing to the net loss for 2007 were \$60.1 million of bonus expense (which includes, among other things, \$6.3 million related to 2006 performance bonuses, \$10.6 million related to the Performance Cash Awards and \$30.3 million expected to be paid in 2008 for 2007 performance), \$97.1 million of non-cash compensation expense related to the vesting of stock-based awards, \$20.9 million of lease and facilities restructuring charges, and the previously mentioned \$83.5 million in external costs related to the preparation of our financial statements, our auditors' review and audit of our financial statements and the testing of internal controls. For 2006, we incurred a net loss of \$213.4 million, or a loss of \$1.01 per share. Contributing to the net loss for 2006 were \$48.2 million of losses related to the previously mentioned settlements with telecommunications clients, \$57.4 million of bonus expense, \$53.4 million of non-cash compensation expense related to the vesting of stock-based awards, \$29.6 million of lease and facilities restructuring charges and the previously mentioned \$33.6 million year-over-year increase in external costs related to the closing of our financial statements.

**Year Ended December 31, 2006 Compared to Year Ended December 31, 2005**

*Revenue.* Our revenue for 2006 was \$3,444.0 million, an increase of \$55.1 million, or 1.6%, over 2005 revenue of \$3,388.9 million. The following tables present certain revenue information and performance metrics for each of our reportable segments during 2006 and 2005. Amounts are in thousands, except percentages. For additional geographical revenue information, please see Note 18, Segment Information, of the Notes to Consolidated Financial Statements.

	Year Ended December 31,			%

*Public Services* revenue increased in 2006, with strong revenue growth in certain sectors, particularly in the SLED and Emerging Markets sectors. SLED revenue increased due to significant increases in revenue from a number of our key clients. Emerging Markets revenue increased primarily from revenue increases on several large existing multi-year contracts and also from revenue associated with several new contracts signed in 2006. Revenue declined in our Civilian business sector due to reduced information technology spending and an increasingly competitive environment.

*Commercial Services* revenue decreased in 2006, primarily due to a \$57.5 million year-over-year decrease in revenue associated with the HT Contract and a reduction of \$20.0 million in revenue related to the resolution of a billings dispute with another large telecommunications client regarding an engagement completed in 2003. Reduced customer demand for our services, particularly in the telecommunications industry, also affected our revenue. These decreases were partially offset by the recognition in 2006 of approximately \$22.3 million in previously deferred revenue.

*Financial Services* revenue increased in 2006, primarily due to revenue growth in our Insurance and Banking sectors, offset by declines in our Global Markets sector. Insurance sector revenue increased in response to industry-wide demand for major technology updates and upgrades to operational systems. Banking sector revenue increases were attributable to existing client engagements and the introduction of some new clients into our traditional client base. Global Markets sector revenue declined as we increased the proportion of work derived from lower rate per hour offshore resources in response to client demand, which affected our revenue.

*EMEA* revenue increased in 2006, primarily due to strong revenue growth in the United Kingdom, France, Ireland and Switzerland. Revenue growth in the United Kingdom was driven by our continued expansion in that region, while France continued to benefit from an expanding systems integration practice and additional penetration into the French public sector market in 2006. Ireland and Switzerland revenue growth were generally attributable to increased demand for consulting services in local markets. Revenue in Germany declined due to a combination of the impact of adjustments in billable headcount precipitated by the restructuring of our German practice, increased pressure on pricing, and a reduction in the spending levels of

German public sector clients.

*Asia Pacific* revenue increased in 2006, primarily due to significant revenue growth in Australia and Japan. Australian revenue increased primarily due to a significant new client engagement in the telecommunications industry. Japanese revenue increased due to revenue growth from system implementation contracts and projects involving compliance with Japan's Financial Instruments and Exchange Law, though a substantial portion of this revenue growth was derived from the use of subcontractors. Asia Pacific revenue was negatively affected in 2006 by the weakening of foreign currencies against the U.S. dollar, primarily the Japanese Yen.

**Table of Contents**

*Latin America* revenue increased in 2006, primarily as a function of the weakening of the U.S. dollar against local currencies in Latin America (particularly the Brazilian Real), along with local currency revenue growth and increasing engagement hours in Brazil, offset by deteriorating revenue in Mexico. Revenue in Brazil increased due to the addition of significant client engagements, while revenue in Mexico declined as they continue to restructure the business to position itself for future growth.

*Corporate/Other:* Our Corporate/Other segment does not contribute significantly to our revenue.

*Gross Profit.* During 2006, our revenue increased \$55.1 million and total costs of service decreased \$137.4 million when compared to 2005, resulting in an increase in gross profit of \$192.5 million, or 53.8%. Gross profit as a percentage of revenue increased to 16.0% for 2006 from 10.6% for 2005. The change in gross profit for 2006 compared to 2005 resulted primarily from the following:

Professional compensation expense decreased as a percentage of revenue to 49.8% for 2006, compared to 52.2% for 2005. We experienced a net decrease in professional compensation expense of \$53.8 million, or 3.0%, to \$1,716.6 million for 2006 from \$1,770.4 million for 2005. The decrease in 2006 from 2005 was primarily due to higher professional compensation expense recorded in 2005 (as compared to 2006) related to the loss accrual for the HT Contract. Stock compensation expense for 2006 was \$41.0 million, as compared to \$76.3 million for 2005. Cash bonuses earned in 2006 by our highest-performing employees were \$49.0 million, as compared to \$17.8 million earned in 2005.

Other direct contract expenses decreased as a percentage of revenue to 26.0% for 2006 compared to 28.7% for 2005. We experienced a net decrease in other direct contract expenses of \$75.8 million, or 7.8%, to \$897.0 million for 2006 from \$972.8 million for 2005. The decrease in 2006 from 2005 was primarily due to other direct contract expenses recorded in 2005 related to the loss accrual for the HT Contract. In addition, the decline was driven by reduced subcontractor expenses as a result of the increased use of internal resources and a decrease of resales of procured materials.

Other costs of service as a percentage of revenue decreased to 7.3% for 2006 from 7.6% for 2005. We experienced a net decrease in other costs of service of \$7.9 million, or 3.1%, to \$250.2 million for 2006 from \$258.1 million for 2005. The decrease in 2006 from 2005 was primarily attributable to a reduction in administrative support and related costs for our operating segments.

In 2006 we recorded, within the Corporate/Other operating segment, a charge of \$29.6 million for lease and facilities restructuring costs, compared to a \$29.6 million charge for lease, facilities and other exit activities in 2005. These costs for 2006 related primarily to the fair value of future lease obligations associated with office space, primarily within the EMEA and North America regions, which we will no longer be using.

**Table of Contents**

*Gross Profit by Segment.* The following tables present certain gross profit and margin information and performance metrics for each of our reportable segments for years 2006 and 2005. Amounts are in thousands, except percentages.

	Year Ended December 31,			%
	2006	2005	\$ Change	Change

n/m = not meaningful

Changes in gross profit by segment were as follows:

*Public Services* gross profit increased in 2006 despite a substantial reduction in gross profits in our SLED practice and increases in professional compensation expense related to hiring needs related to demand for our services.

*Commercial Services* gross profit increased in 2006, despite significantly lower revenue, primarily due to a \$45.5 million year-over-year reduction in losses from the HT Contract. Other factors contributing to the increase in gross profit were the cost savings realized from 2005 workforce realignments and reduced subcontractor expenses as a result of the increased use of internal resources.

*Financial Services* gross profit increased in 2006, due to higher revenue combined with a decline in compensation expenses. The decrease in compensation expenses is primarily due to more efficient utilization of Company shared staff in this segment and efficient use of offshore resources.

*EMEA* gross profit increased in 2006, due primarily to higher revenue and improved profitability in France and Ireland along with significantly improved profitability in Spain as a result of higher utilization and lower costs. Slight declines in compensation expense and other direct contract expenses also contributed to the increase in gross profit, though compensation expense for 2006

## **Table of Contents**

continued to be affected by severance and other costs related to the internal restructuring of the Company's German practice.

*Asia Pacific* gross profit increased in 2006, primarily due to significant improvements in profitability and staff utilization in the Company's Australian and Chinese businesses. Due to the high demand for resources in the Japanese market and limited availability of qualified personnel, increases in subcontractor expenses served to depress the growth of gross profit in the Company's Japanese operation. Significant regional improvements in compensation expense derived from the 2005 workforce reductions in Japan and China were substantially offset by additional compensation expenses associated with the use of the Company's personnel from outside the region in connection with a significant new telecommunications industry engagement in Australia.

*Latin America* gross profit increased in 2006, due to higher revenue offset by an increase in compensation expenses, driven by higher billable headcount to meet the growth of our business in the region, predominantly Brazil.

*Corporate/Other* consists primarily of rent expense and other facilities related charges.

*Amortization of Purchased Intangible Assets.* Amortization of purchased intangible assets decreased \$0.7 million to \$1.5 million in 2006 from \$2.3 million for 2005.

*Goodwill Impairment Charges.* In 2006, there was no goodwill impairment charge. In 2005, a goodwill impairment loss of \$166.4 million was recognized. For 2005, it was determined that the carrying amount of our EMEA and Commercial Services segments' goodwill exceeded the implied fair value of that goodwill by \$102.2 million and \$64.2 million, respectively.

*Selling, General and Administrative Expenses.* Selling, general and administrative expenses decreased \$2.6 million, or 0.3%, to \$748.3 million for 2006 from \$750.9 million for 2005. Selling, general and administrative expenses as a percentage of gross revenue decreased to 21.7% for 2006 from 22.2% for 2005. The decrease was primarily due to costs savings from the reduction in the size of the Company's sales force and reducing other business development expenses. Offsetting these decreases were increases in costs for finance and accounting, primarily for sub-contracted labor and other costs directly related to the 2005 financial statement close. In addition, the Company incurred additional SG&A expenses during 2006 related to an agreement with Yale University, as described above.

*Interest Income.* Interest income was \$8.7 million and \$9.0 million in 2006 and 2005, respectively. Interest income is earned primarily from cash and cash equivalents, including money-market investments. The slight decrease in interest income was due to lower levels of cash available to be invested in money markets during 2006 as compared to 2005.

*Interest Expense.* Interest expense was \$37.2 million and \$33.4 million in 2006 and 2005, respectively. Interest expense is attributable to our debt obligations, consisting of interest due along with amortization of loan costs and loan discounts. The increase in interest expense was due to higher average debt balances in 2006 as compared to 2005.

*Insurance Settlement.* During 2006, related to the Settlement Agreement with Hawaiian Telcom Communications, Inc., we recorded \$38.0 million for an insurance settlement. See Note 11, "Commitments and Contingencies," of the Notes to Consolidated Financial Statements for more information.

*Other Income/Expense, net.* Other income, net, was \$8.7 million in 2006, and other expense, net, was \$13.6 million in 2005. The balances in each period primarily consist of realized foreign currency exchange gains and losses.

*Income Tax Expense.* We incurred income tax expense of \$32.4 million for the year ended December 31, 2006 and income tax expense of \$122.1 million for the year ended December 31, 2005. The principal reasons

**Table of Contents**

for the difference between the effective income tax rate on loss from continuing operation of (17.9)% and (20.4)% for years ended December 31, 2006 and 2005, respectively, and the U.S. Federal statutory income tax rate are the nondeductible goodwill impairment charge of \$0 million and \$118.5 million; nondeductible meals and entertainment expense of \$22.0 million and \$19.6 million; increase to deferred tax asset valuation allowance of \$76.8 million and \$223.0 million; state and local income taxes of \$(6.7) million and \$(12.7) million; impact of foreign recapitalization of \$5.4 million and \$82.0 million; foreign taxes of \$(3.8) million and \$13.7 million; income tax reserves of \$8.4 million and \$18.6 million; non-deductible interest of \$10.7 million and \$7.7 million; foreign dividend income of \$13.6 million and \$9.3 million and other non-deductible items of \$10.0 million and \$3.7 million, respectively.

*Net Loss.* For 2006, we incurred a net loss of \$213.4 million, or a loss of \$1.01 per share. Contributing to the net loss for 2006 were \$48.2 million of losses related to the previously mentioned settlements with telecommunication clients, \$57.4 million accrued for bonuses payable to our employees, \$53.4 million of non-cash compensation expense related to the vesting of stock-based awards, \$29.6 million of lease and facilities restructuring charges and the previously mentioned \$33.6 million year-over-year increase in external costs related to the closing of our financial statements. For 2005, we incurred a net loss of \$721.6 million, or a loss of \$3.59 per share. Included in our results for 2005 were a \$166.4 million goodwill impairment charge, \$111.7 million of operating losses related to the HT Contract, \$81.8 million of non-cash compensation expense related to the vesting of Retention RSUs, a \$55.3 million increase in the valuation allowance primarily against our U.S. deferred tax assets, and \$29.6 million of lease and facilities restructuring charges.

***Obligations and Commitments***

As of December 31, 2007, we had the following obligations and commitments to make future payments under contracts, contractual obligations and commercial commitments (amounts are in thousands):

<b>Contractual Obligations</b>	<b>Total</b>	<b>Payments due by Period</b>			
		<b>Less than 1 year</b>	<b>1-3 years</b>	<b>3-5 years</b>	<b>More than 5 years</b>
Long-term debt(1)	\$ 1,493,597	\$ 56,276	\$ 136,406	\$ 374,515	\$ 926,400
Operating leases	312,489	83,984	123,822	65,469	39,214
Purchase obligations(2)	100,114	44,300	38,452	10,822	6,540
Obligations under the pension and postretirement medical plans	55,228	3,805	8,462	9,734	33,227
Total(3)	\$ 1,961,428	\$ 188,365	\$ 307,142	\$ 460,540	\$ 1,005,381

(1) Long-term debt includes both principal and interest scheduled payment obligations. Certain of our long-term debt allow the holders the right to convert the debentures into shares of our common stock or cash (at the Company's option) in earlier periods than presented above. For additional information, see Note 6, Notes Payable, of the Notes to Consolidated Financial Statements.

(2) Purchase obligations include material agreements to purchase goods or services, principally software and telecommunications services, that are enforceable and legally binding and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Purchase obligations exclude agreements that are cancelable without

penalty. From time to time, our operating segments, particularly our Public Services segment, enter into agreements with vendors in the normal course of business that support existing contracts with our clients ( client vendor agreements ). The vast majority of these client vendor agreements involve subcontracts for services to be provided by third-party vendors. These agreements may be in the form of teaming agreements or may be a client requirement, and can span multiple years, depending on the duration of the underlying arrangement with our clients. We are liable for payments to vendors under these client vendor agreements. We are unable to cancel some of these client vendor agreements unless the related agreement with our client is terminated and/or upon payment of a penalty. However, our clients are generally obligated by contract to reimburse us, directly or indirectly, for payments we make to vendors under these agreements. We are not aware of any payments we have been required to make to vendors after a related client contract has been terminated. We currently estimate that the total payments we could be obligated to make under all client vendor agreements known to us would

**Table of Contents**

be approximately \$99,000, however, we are unable to identify which of these agreements might constitute purchase obligations.

- (3) The above table does not reflect unrecognized tax benefits of \$314,961. Due to uncertainty regarding the completion of tax audits and possible outcomes, the estimate of obligations related to unrecognized tax benefits cannot be made. For additional information, see Note 14, Income Taxes, to the Consolidated Financial Statements.

***Liquidity and Capital Resources***

The following table summarizes the cash flow statements for 2007, 2006 and 2005 (amounts are in thousands):

	<b>Year Ended December 31,</b>			<b>2006 to 2007 Change</b>
	<b>2007</b>	<b>2006</b>	<b>2005</b>	
Net cash provided by (used in):				
Operating activities	\$ (194,187)	\$ 58,680	\$ (113,071)	\$ (252,867)
Investing activities	(35,942)	67,570	(141,043)	(103,512)
Financing activities	290,566	(7,316)	274,152	297,882
Effect of exchange rate changes on cash and cash equivalents	16,807	15,297	(9,508)	1,510
Net increase in cash and cash equivalents	\$ 77,244	\$ 134,231	\$ 10,530	\$ (56,987)

*Operating Activities.* Net cash used in operating activities during 2007 increased \$252.9 million over 2006. This increase was primarily attributable to an increase in net loss, net of non-cash items, the timing of payment of significant amounts of accounts payable and, to a lesser degree, increases to our combined accounts receivable and unbilled revenue despite a decrease in DSOs during 2007.

Net cash provided by operating activities during 2006 increased \$171.8 million over 2005. This increase was primarily attributable to improved profitability and a decrease in accounts receivable, as our DSOs decreased to 82 days at December 31, 2006 from 94 days at December 31, 2005, providing an additional \$136.3 million. These items were partially offset by the cash outflow to support the professional services and related expenses required under the HT Contract, and, to a lesser extent, payments made for the Peregrine settlement of \$36.9 million.

*Investing Activities.* Net cash used in investing activities during 2007 was \$35.9 million, and net cash provided by investing activities during 2006 was \$67.6 million. Capital expenditures were \$37.3 million and \$50.6 million during 2007 and 2006, respectively. In 2007 and 2006, \$1.4 million and \$118.2 million, respectively, of restricted cash posted as collateral for letters of credit and surety bonds was released.

Net cash provided by investing activities during 2006 increased \$208.6 million over 2005. This increase was predominantly due to the change in the amount of restricted cash posted as collateral for letters of credit and surety bonds. The requirement to deposit and maintain cash collateral terminated as part of the March 31, 2006 amendment to the 2005 Credit Facility, and such cash collateral was released to us. The increase was offset by an increase of \$9.7 million in capital expenditures in 2006 over 2005.

*Financing Activities.* Net cash provided by financing activities during 2007 was \$290.6 million, resulting primarily from the proceeds received from the Term Loans under the 2007 Credit Facility with an aggregate principal amount of \$300.0 million. Net cash used in financing activities during 2006 was \$7.3 million, primarily due to repayments of our Japanese term loans.

In addition, issuances of common stock under the ESPP generated \$12.4 million, \$0 and \$14.9 million in cash during 2007, 2006 and 2005, respectively. Because we were not current in our SEC periodic reports in 2006 and 2005, we were unable to issue freely tradable shares of our common stock and had not issued shares

## **Table of Contents**

under the LTIP or ESPP since early 2005. These sources of financing became available to us again once we became current in our SEC periodic reports in 2007.

### ***Additional Cash Flow Information***

2007. At December 31, 2007, we had global cash balances of \$468.5 million. Our 2007 Credit Facility consists of (1) term loans in the aggregate principal amount of \$300 million (of which \$297.8 million was outstanding as of December 31, 2007) and (2) a letter of credit facility in an aggregate face amount at any time outstanding not to exceed \$200 million (of which \$86.9 million remained available as of December 31, 2007). Borrowings under the 2007 Credit Facility will be used for general corporate purposes, including the payment of obligations outstanding under our prior credit facility, and payment of the fees and expenses of the 2007 Credit Facility. For additional information regarding the 2007 Credit Facility, see 2007 Credit Facility.

Our decision to obtain the 2007 Credit Facility was based, in part, on the fact that our North American cash balances have been negatively affected in the second quarter of 2007 by, among other things, cash collection levels not maintaining pace with the levels achieved in the fourth quarter of 2006 and payments made in connection with (1) the uninsured portion of the settlement of the dispute with HT, (2) ongoing costs relating to the design and implementation of our new North American financial reporting system, (3) ongoing costs relating to production and completion of our financial statements, (4) other additional accrued expenses for 2006 paid in the second quarter of 2007, and (5) our expectations at the time that operations would not generate cash before the latter part of 2007.

*Outlook.* We currently expect that our operations will begin to provide rather than use cash in the second half of 2008. Based on current internal estimates, we nonetheless believe that our cash balances, together with cash generated from operation and borrowings made under our 2007 Credit Facility, will be sufficient to provide adequate funds for our anticipated internal growth, operating needs and debt service obligations. We are currently undertaking a detailed analysis of our current capital structure with our financial advisors, as well as alternative strategies intended to further improve our capital structure, global cash balances and their accessibility, if current internal estimates for cash uses for 2008 prove incorrect. These activities include initiating further cost reduction efforts, seeking improvements in working capital management, reducing or delaying capital expenditures, reorganizing our internal corporate structure, refinancing or seeking additional debt or equity capital and selling assets. However, our ability to execute on any of these strategies could be significantly impacted by numerous factors, including changes in the economic or business environment, financial market volatility, the performance of our business, and the terms and conditions in our various bank financing and indenture agreements.

Based on the foregoing and our current state of knowledge of the outlook for our business, we currently believe that our existing cash balances and cash flows expected to be generated from operation will be adequate to finance our working capital needs for the next twelve months. However, actual results may differ from current expectations for many reasons, including losses of business that could result from our failure to timely file periodic reports with the SEC, the occurrence of any event of default that could provide our lenders with a right of acceleration (e.g., non-payment), possible delisting from the New York Stock Exchange, further downgrades of our credit ratings or unexpected demands on our current cash resources (e.g., to settle lawsuits).

For additional information regarding various risk factors that could affect our outlook, see Item 1A, Risk Factors. If cash provided from operation is insufficient and/or our ability to access the capital or credit markets is impeded, our business, operation, results and cash flow could be materially and adversely affected.

**Table of Contents*****Debt Obligations***

The following tables present a summary of the activity in our debt obligations for 2007 and 2006 (amounts are in thousands):

	<b>Balance December 31, 2006</b>	<b>Borrowings</b>	<b>Repayments</b>	<b>Other(1)</b>	<b>Balance December 31, 2007</b>
Convertible debentures	\$ 671,490	\$	\$	\$ 4,121	\$ 675,611
Term Loans under the 2007 Credit Facility		300,000	(2,250)		297,750
Other	360	2,853	(1,931)		1,282
Total notes payable	\$ 671,850	\$ 302,853	\$ (4,181)	\$ 4,121	\$ 974,643

	<b>Balance December 31, 2005</b>	<b>Borrowings</b>	<b>Repayments</b>	<b>Other(1)</b>	<b>Balance December 31, 2006</b>
Convertible debentures	\$ 668,054	\$	\$	\$ 3,436	\$ 671,490
Yen-denominated term loan (January 31, 2003)	2,803		(2,802)	(1)	
Yen-denominated term loan (June 30, 2003)	1,402		(1,442)	40	
Other	2,501		(2,262)	121	360
Total notes payable	\$ 674,760	\$	\$ (6,506)	\$ 3,596	\$ 671,850

(1) Other changes in notes payable consist of amortization of notes payable discount and foreign currency translation adjustments.

At December 31, 2007, we had total outstanding debt of \$974.6 million, compared to total outstanding debt of \$671.9 million at December 31, 2006. The \$302.8 million increase in total outstanding debt was mainly attributable to the proceeds received from the Term Loans received under the 2007 Credit Facility (described below).

***Debt Ratings***

On February 6, 2007, Standard & Poor's withdrew our senior unsecured rating of B- and our subordinated debt rating of CCC+ and removed them from CreditWatch. Separately, on December 7, 2007, Moody's confirmed our B2 corporate family rating, assigned us a negative rating outlook and downgraded the ratings of our Series A and B Debentures to Caa1 from B3.

***2007 Credit Facility***

On May 18, 2007, we entered into a \$400.0 million senior secured credit facility and on June 1, 2007, we amended and restated the credit facility to increase the aggregate commitments under the facility from \$400.0 million to \$500.0 million. The 2007 Credit Facility consists of (1) term loans in an aggregate principal amount of \$300.0 million (the Term Loans ) and (2) a letter of credit facility in an aggregate face amount at any time outstanding not to exceed \$200.0 million (the LC Facility ). The LC Facility is supported by cash deposits made on our behalf by the lenders. If the Company fails to repay any disbursement on a letter of credit and these cash deposits are used to reimburse the issuing bank, the amount of any cash deposits used for such purpose will be considered as additional loans to the Company (the LC Loans and, together with the Term Loans, the Loans ). Interest on the Term Loans under the 2007 Credit Facility is calculated, at the Company's option, at a rate per annum equal to either (1) 3.5% plus the London Interbank Offered Rate

## Table of Contents

( LIBOR ) or (2) 2.5% plus a base rate equal to the higher of (a) the federal funds rate plus 0.5% and (b) UBS AG, Stamford Branch's prime commercial lending rate. Interest on the LC Loans is similarly calculated at the Company's option at a rate per annum equal to either (1) 4.0% plus LIBOR or (2) 4.0% plus a base rate computed in the same manner as the Term Loans, a rate equal to 3.5% plus the London Interbank Offered Rate, or LIBOR, or (2) at a rate equal to 2.5% plus the higher of Debt issuance costs of \$18.8 million, mainly comprised of underwriting, commitment, and legal fees, were capitalized into other non-current assets and are being amortized to interest expense over the life of the Loans. As of December 31, 2007, we had \$297.8 million outstanding under the Term Loans and an aggregate of approximately \$113.1 million of letters of credit issued and outstanding. The Company is charged fees for the LC Facility's continued availability, which totals 4.125% per annum on the total amount of cash deposits made available from time to time by the lenders under the LC Facility to collateralize their obligation to fund demands made on letters of credit issued under the LC Facility. We are separately charged a fronting fee of 0.1875% per annum on the average daily aggregate outstanding face amount of all letters of credit issued.

Our obligations under the 2007 Credit Facility are secured by first priority liens and security interests in substantially all of our assets and most of our material domestic subsidiaries, as guarantors of such obligations (including a pledge of 65% of the stock of certain of our foreign subsidiaries), subject to certain exceptions.

The 2007 Credit Facility requires us to make prepayments of outstanding Loans and cash collateralize outstanding letters of credit in an amount equal to (i) 100% of the net proceeds received from property or asset sales (subject to exceptions), (ii) 100% of the net proceeds received from the issuance or incurrence of additional debt (subject to exceptions), (iii) 100% of all casualty and condemnation proceeds (subject to exceptions), (iv) 50% of the net proceeds received from the issuance of equity (subject to exceptions) and (v) for each fiscal year ending on or after December 31, 2008, the difference between (a) 50% of the Excess Cash Flow (as defined in the 2007 Credit Facility) and (b) any voluntary prepayment of the Loans or the LC Facility (subject to exceptions). If the Loans are prepaid or the LC Facility is reduced prior to May 18, 2008 with other indebtedness or another letter of credit facility, we may be required to pay a prepayment premium of 1% of the principal amount of the Loans so prepaid or LC Facility so reduced if the cost of such replacement indebtedness of letter of credit facility is lower than the cost of the 2007 Credit Facility. In addition, we are required to pay \$750,000 in principal plus any accrued and unpaid interest at the end of each quarter, commencing on June 29, 2007 and ending on March 31, 2012.

The 2007 Credit Facility contains affirmative and negative covenants, customary representations, warranties and covenants, certain of which include exceptions for events that would not have a material adverse effect on the Company's business, results of operation, financial condition, assets or liabilities.

The *affirmative covenants* include, among other things: the delivery of unaudited quarterly and audited annual financial statements, all in accordance with generally accepted accounting principles; certain monthly operating metrics and budgets; compliance with applicable laws and regulations (excluding, prior to October 31, 2008, compliance with certain filing requirements under the securities laws); maintenance of existence and insurance; after October 31, 2008, as requested by the Administrative Agent, reasonable efforts to maintain credit ratings; and maintenance of books and records (subject to the material weaknesses previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2005).

The *negative covenants*, which (subject to exceptions) restrict certain of our corporate activities, include, among other things, limitations on: disposition of assets; mergers and acquisitions; payment of dividends; stock repurchases and redemptions; incurrence of additional indebtedness; making of loans and investments; creation of liens; prepayment of other indebtedness; and engaging in certain transactions with affiliates.

Events of default under the 2007 Credit Facility include, among other things: defaults based on nonpayment, breach of representations, warranties and covenants, cross-defaults to other debt above \$10 million, loss of lien on collateral,

invalidity of certain guarantees, certain bankruptcy and insolvency

## **Table of Contents**

events, certain ERISA events, judgments against us in an aggregate amount in excess of \$20 million that remain unpaid, and change of control events. For more information regarding the interplay of these covenants with the terms applicable to our convertible debentures, see [Repurchase of Debentures at the Option of the Holders](#).

Under the terms of the 2007 Credit Facility, we are not required to become current in the filing of our SEC periodic reports until October 31, 2008. Until October 31, 2008, our failure to provide annual audited or quarterly unaudited financial statements, to keep our books and records in accordance with GAAP or to timely file our SEC periodic reports will not be considered an event of default under the 2007 Credit Facility.

The 2007 Credit Facility replaced our 2005 Credit Facility, which was terminated on May 18, 2007. For information about the 2005 Credit Facility, see [Discontinued 2005 Credit Facility](#).

### ***Repurchase of Debentures at the Option of the Holders***

The holders of our April 2005 Convertible Debentures have the option to require us to repay all or any portion of such debentures on certain dates at their face amount (plus accrued interest for which the record date has not passed). The first such date is April 15, 2009, and it is possible that we may be required to fund the repayment of the full \$200 million face amount of these debentures (plus such interest) on that date. In addition, the holders of our Series A Debentures and our Series B Debentures have an option to require us to repurchase all or a portion of these debentures. For additional information regarding our debentures and the timing for such option, see Item 1A, [Risk Factors](#) [Risks that Relate to Our Liquidity](#), and Note 6, [Notes Payable](#), of the Notes to Consolidated Financial Statements.

The 2007 Credit Facility contains a restrictive covenant (Section 6.10(a)) that limits our ability to make any *voluntary or optional* payment or prepayment on or redemption or acquisition for value of these debentures (emphasis added). Our contractual obligation to repay these debentures upon the exercise by a holder of its right to require us to do so pursuant to the indenture is an affirmative mandatory obligation, and is not voluntary or optional on our part. This restrictive covenant therefore does not prohibit us from honoring our obligation to repay the debentures. By comparison, the Discontinued 2005 Credit Facility made no such distinction, flatly stating that we could not make prepayment on, or redemption or acquisition for value of, or any prepayment or redemption as a result of any asset sale, change of control, termination of trading or similar event of any of our debentures.

If one or more holders require us to repay the debentures and we have sufficient cash on hand to make payment, nothing in the credit agreement prohibits us from taking this action. If we do not have sufficient cash on hand, we would seek to raise any additional funds we needed by incurring additional indebtedness as otherwise permitted by the terms of the credit agreement.

### ***Discontinued 2005 Credit Facility***

On July 19, 2005, we entered into a \$150.0 million Senior Secured Credit Facility (the [2005 Credit Facility](#)). Our 2005 Credit Facility, as amended, provided for up to \$150.0 million in revolving credit and advances. Advances under the revolving credit line were limited by the available borrowing base, which was based upon a percentage of eligible accounts receivable and unbilled receivables.

In 2005 and 2006, we entered into five amendments to the 2005 Credit Facility. Among other things, these amendments revised certain covenants contained in the 2005 Credit Facility, including the extensions of the filing deadlines for our 2005, 2006 and 2007 SEC periodic reports and an increase in the amounts of civil litigation payments that we are permitted to pay and in the aggregate amount of investments and indebtedness that we are permitted to make and incur with respect to our foreign subsidiaries. In addition, in 2007 we obtained several limited

waivers that, among other things, waived the delivery requirement of our SEC periodic reports to the lenders under the facility.

## **Table of Contents**

The 2005 Credit Facility was terminated on May 18, 2007. On that date, all outstanding obligations under the 2005 Credit Facility were paid or assumed under the 2007 Credit Facility, and all liens and security interests under the 2005 Credit Facility were released.

### ***Guarantees and Indemnification Obligations***

In the normal course of business, we have indemnified third parties and have commitments and guarantees under which we may be required to make payments in certain circumstances. These indemnities, commitments and guarantees include: indemnities to third parties in connection with surety bonds; indemnities to various lessors in connection with facility leases; indemnities to customers related to intellectual property and performance of services subcontracted to other providers; indemnities to directors and officers under the organizational documents and agreements with them; and guarantees issued between subsidiaries on intercompany receivables. The duration of these indemnities, commitments and guarantees varies, and in certain cases, is indefinite. Certain of these indemnities, commitments and guarantees do not provide for any limitation of the maximum potential future payments we could be obligated to make. We estimate that the fair value of these agreements was minimal. Accordingly, no liabilities have been recorded for these agreements as of December 31, 2007.

We are also required, in the course of business, particularly with certain of our Public Services clients, largely in the state and local markets, to obtain surety bonds, letters of credit or bank guarantees for client engagements. At December 31, 2007, we had \$80.9 million in outstanding surety bonds and \$113.1 million in letters of credit extended to secure certain of these bonds. The issuers of our outstanding surety bonds may, at any time, require that we post collateral (cash or letters of credit) to fully secure these obligations.

From time to time, we enter into contracts with clients whereby we have joint and several liability with other participants and/or third parties providing related services and products to clients. Under these arrangements, we and other parties may assume some responsibility to the client or a third party for the performance of others under the terms and conditions of the contract with or for the benefit of the client or in relation to the performance of certain contractual obligations. In some arrangements, the extent of our obligations for the performance of others is not expressly specified. Certain of these guarantees do not provide for any limitation of the maximum potential future payments we could be obligated to make. As of December 31, 2007, we estimate we had assumed an aggregate potential contract value of approximately \$41.4 million to our clients for the performance of others under arrangements described in this paragraph. These contracts typically include recourse provisions that would allow us to recover from the other parties all but approximately \$0.1 million if we are obligated to make payments to the clients that are the consequence of a performance default by the other parties. To date, we have not been required to make any payments under any of the contracts described in this paragraph. We estimate that the fair value of these agreements was minimal. Accordingly, no liabilities have been recorded for these contracts as of December 31, 2007.

### ***Critical Accounting Policies and Estimates***

The preparation of our Consolidated Financial Statements in conformity with GAAP requires that management make estimates, assumptions and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenue and expenses during the reporting period. Management's estimates, assumptions and judgments are derived and continually evaluated based on available information, historical experience and various other assumptions that are believed to be reasonable under the circumstances. Because the use of estimates is inherent in GAAP, actual results could differ from those estimates. The areas that we believe are our most critical accounting policies include:

revenue recognition,

valuation of accounts receivable,

valuation of goodwill,

## **Table of Contents**

accounting for income taxes,

valuation of long-lived assets,

accounting for leases,

restructuring charges,

legal contingencies,

retirement benefits,

accounting for stock-based compensation,

accounting for intercompany loans, and

accounting for employee global mobility and tax equalization.

A critical accounting policy is one that involves making difficult, subjective or complex accounting estimates that could have a material effect on our financial condition and results of operation. Critical accounting policies require us to make assumptions about matters that are highly uncertain at the time of the estimate, and different estimates that we could have used, or changes in the estimate that are reasonably likely to occur, may have a material impact on our financial condition or results of operation.

### ***Revenue Recognition***

We earn revenue from three primary sources: (1) technology integration services where we design, build and implement new or enhanced system applications and related processes, (2) services to provide general business consulting, such as system selection or assessment, feasibility studies, business valuations and corporate strategy services, and (3) managed services in which we manage, staff, maintain, host or otherwise run solutions and systems provided to our customers. Contracts for these services have different terms based on the scope, deliverables and complexity of the engagement, which require management to make judgments and estimates in recognizing revenue. Fees for these contracts may be charged based upon time-and-material, cost-plus or fixed price.

Technology integration services represent a significant portion of our business and are generally accounted for under the percentage-of-completion method in accordance with Statement of Position ( SOP ) 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts ( SOP 81-1 ). A portion of the Company s revenue is derived from arrangements that include software developed and/or provided by the Company. The Company recognizes software license fees included in these arrangements as revenue in accordance with SOP 97-2, Software Revenue Recognition, as amended by SOP 98-9 by applying the provisions of SOP 81-1, as appropriate. Software license fee revenue is generally included in the Company s technology integration service revenue, which is recognized using the percentage-of-completion method. Under the percentage-of-completion method, management estimates the percentage-of-completion based upon costs to the client incurred as a percentage of the total estimated costs to the client. When total cost estimates exceed revenue, we accrue for the estimated losses immediately. The use of the percentage-of-completion method requires significant judgment relative to estimating total contract revenue and costs, including assumptions relative to the length of time to complete the project, the nature and complexity of the work to be performed, and anticipated changes in estimated salaries and other costs. Incentives and award payments are included in estimated revenue using the percentage-of-completion method when the realization of such amounts is

deemed probable upon achievement of certain defined goals. Estimates of total contract revenue and costs are continuously monitored during the term of the contract and are subject to revision as the contract progresses. When revisions in estimated contract revenue and costs are determined, such adjustments are recorded in the period in which they are first identified. Revenue arrangements entered into with the same client that are accounted for under SOP 81-1 are accounted for on a combined basis when they: are negotiated as a package with an overall profit margin objective; essentially

## **Table of Contents**

represent an agreement to do a single project; involve interrelated activities with substantial common costs; and are performed concurrently or sequentially.

Revenue for general business consulting services is recognized as work is performed and amounts are earned in accordance with Staff Accounting Bulletin ( SAB ) No. 101, Revenue Recognition in Financial Statements, as amended by SAB No. 104, Revenue Recognition ( SAB 104 ). We consider amounts to be earned once evidence of an arrangement has been obtained, services are delivered, fees are fixed or determinable and collectibility is reasonably assured. For contracts with fees based on time-and-materials or cost-plus, we recognize revenue over the period of performance. Depending on the specific contractual provisions and nature of the deliverable, revenue may be recognized on a proportional performance model based on level of effort, as milestones are achieved or when final deliverables have been provided. Revenue arrangements entered into with the same client that are accounted for under SAB 104 are accounted for on a combined basis when they are entered into at or near the same time, unless it is clearly evident that the contracts are not related to one another.

For our managed service arrangements, we typically implement or build system applications for customers that we then manage or run for periods that may span several years. Such arrangements include the delivery of a combination of one or more of our service offerings and are governed by Emerging Issues Task Force Issue 00-21, Accounting for Revenue Arrangements with Multiple Deliverables. In managed service arrangements in which the system application implementation or build has standalone value to the customer, and we have sufficient objective evidence of fair value for the managed or run services, we bifurcate the total arrangement into two units of accounting based on the residual method: (i) the system application implementation, or build, which is recognized as technology integration services using the percentage-of-completion method under SOP 81-1 and (ii) the managed or run services, which are recognized under SAB 104 ratably over the estimated life of the customer relationship. In instances where we are unable to bifurcate a managed service arrangement into separate units of accounting, the total contract is recognized as one unit of accounting under SAB 104. In such instances, total fees and direct and incremental costs related to the system application implementation or build are deferred and recognized together with managed or run services upon completion of the system application implementation or build ratably over the estimated life of the customer relationship. Certain managed service arrangements may also include transaction-based services in addition to the system application implementation or build and managed services. Fees from transaction-based services are recognized as earned if we have sufficient objective evidence of fair value for such transactions; otherwise, transaction fees are spread ratably over the remaining life of the customer relationship period when we determine these fees are realizable. The determination of fair value requires us to use significant judgment. We determine the fair value of service revenue based upon our recent pricing for those services when sold separately and/or prevailing market rates for similar services.

Revenue on cost-plus-fee contracts is recognized to the extent of costs incurred plus an estimate of the applicable fees earned. We consider fixed fees under cost-plus-fee contracts to be earned in proportion to the allowable costs incurred in performance of the contract.

Revenue includes reimbursements of travel and out-of-pocket expenses with equivalent amounts of expense recorded in other direct contract expenses. In addition, we generally enter into relationships with subcontractors where we maintain a principal relationship with the customer. In such instances, subcontractor costs are included in revenue with offsetting expenses recorded in other direct contract expenses.

Unbilled revenue consists of recognized recoverable costs and accrued profits on contracts for which billings had not been presented to clients as of the balance sheet date. We anticipate that the collection of these amounts will occur within one year of the balance sheet date. Billings in excess of revenue recognized for which payments have been received are recorded as deferred revenue until the applicable revenue recognition criteria have been met.

## **Table of Contents**

### ***Valuation of Accounts Receivable***

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. Assessing the collectibility of customer receivables requires management judgment. We determine our allowance for doubtful accounts by specifically analyzing individual accounts receivable, historical bad debts, customer concentrations, customer credit-worthiness, current economic and accounts receivable aging trends, and changes in our customer payment terms. Our valuation reserves are periodically re-evaluated and adjusted as more information about the ultimate collectibility of accounts receivable becomes available. Upon determination that a receivable is uncollectible, the receivable balance and any associated valuation reserve is written off.

### ***Valuation of Goodwill***

Goodwill is the amount by which the cost of acquired net assets in a business acquisition exceeds the fair value of net identifiable assets on the date of purchase. We assess the impairment of goodwill and identifiable intangible assets on at least an annual basis on April 1 and whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable, as prescribed in the SFAS No. 142, *Goodwill and Other Intangible Assets* ( SFAS 142 ).

An impairment review of the carrying amount of goodwill is conducted if events or changes in circumstances indicate that goodwill might be impaired. Factors we consider important that could trigger an impairment review include significant underperformance relative to historical or projected future operating results, identification of other impaired assets within a reporting unit, the more-likely-than-not expectation that a reporting unit or a significant portion of a reporting unit will be sold, significant adverse changes in business climate or regulations, significant changes in senior management, significant changes in the manner of our use of the acquired assets or the strategy for our overall business, significant negative industry or economic trends, a significant decline in our stock price for a sustained period, or a significant unforeseen decline in our credit rating. Determining whether a triggering event has occurred includes significant judgment from management.

The goodwill impairment test prescribed by SFAS 142 requires us to identify reporting units and to determine estimates of the fair value of our reporting units as of the date we test for impairment unless an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. As of December 31, 2007, our reporting units consisted of our three North America Industry Groups and our three international regions. To identify impairment, the fair value of the reporting unit is first compared to its carrying value. If the reporting unit's allocated carrying value exceeds its fair value, we undertake a second evaluation to assess the required impairment loss to the extent that the carrying value of the goodwill exceeds its implied fair value. The fair value of a reporting unit is the amount for which the unit as a whole could be bought or sold in a current transaction between willing parties. We estimate the fair values of our reporting units using a combination of the discounted cash flow valuation model and comparable market transaction models. Those models require estimates of future revenue, profits, capital expenditures and working capital for each unit as well as comparability with recent transactions in the industry. We estimate these amounts by evaluating historical trends, current budgets, operating plans and industry data. Determining the fair value of reporting units and goodwill includes significant judgment by management and different judgments could yield different results.

### ***Accounting for Income Taxes***

Provisions for federal, state and foreign income taxes are calculated on reported pre-tax earnings based on current tax law and also include, in the current period, the cumulative effect of any changes in tax rates from those used previously in determining deferred tax assets and liabilities. Such provisions differ from the amounts currently receivable or payable because certain items of income and expense are recognized in different time periods for

financial reporting purposes than for income tax purposes. Significant judgment is required in determining income tax provisions and evaluating tax positions.

## **Table of Contents**

We establish reserves for income tax when, despite the belief that our tax positions are fully supportable, there remains uncertainty in a tax position in our previously filed income tax returns. For tax positions where it is more likely than not that a tax benefit will be sustained, we have recorded the largest amount of tax benefit with a greater than 50% likelihood of being realized upon settlement with a taxing authority that has full knowledge of all relevant information. For income tax positions where it is not more likely than not that a tax benefit will be sustained, no tax benefit has been recognized in the Consolidated Financial Statements. For additional information, see Note 14, Income Taxes, of the Notes to the Consolidated Financial Statements.

The majority of our deferred tax assets at December 31, 2007 consisted of federal, foreign and state net operating loss carryforwards that will expire between 2008 and 2027. During 2007, the valuation allowance against federal, state and certain foreign net operating loss and foreign tax credit carryforwards increased \$60.4 million over the year ended 2006, due to additional losses.

Since our inception, various foreign, state and local authorities have audited us in the area of income taxes. Those audits included examining the timing and amount of deductions, the allocation of income among various tax jurisdictions and compliance with foreign, state and local tax laws. In evaluating the exposure associated with various tax filing positions, we accrue charges for exposures related to uncertain tax positions.

During 2005, the Internal Revenue Service commenced a federal income tax examination for the tax periods ended June 30, 2001, June 30, 2003, December 31, 2003, December 31, 2004 and December 31, 2005. During 2007, the Internal Revenue Service opened the examination for the tax period ended June 30, 2002. We are unable to determine the ultimate outcome of these examinations, but we believe that we have established appropriate reserves related to apportionment of income between jurisdictions, the impact of the restatement items and certain filing positions. We are also under examination from time to time in foreign, state and local jurisdictions, including a current German income tax audit for the periods ended December 31, 2001 and December 31, 2002.

At December 31, 2007, we believe we have appropriately accrued for exposures related to uncertain tax positions. To the extent we were to prevail in matters for which accruals have been established or be required to pay amounts in excess of reserves, our effective tax rate in a given financial statement period may be materially impacted.

During 2007, a statute of limitations expired in one of our foreign taxing jurisdictions. As a result, we recognized a total decrease of \$9.1 million in our tax reserve, \$1.7 million of which was recognized as a reduction to our income tax expense for the year ended December 31, 2007. During 2006 and 2005, none of the established reserves expired based on the statute of limitations with respect to certain tax examination periods. In addition, an increase to the reserve for tax exposures of \$14.2 million, \$13.8 million and \$51.6 million, was recorded as an income tax expense for additional exposures in 2007, 2006 and 2005, respectively, including interest and penalties.

The carrying value of our net deferred tax assets assumes that we will be able to generate sufficient future taxable income in certain tax jurisdictions to realize the value of these assets. If we are unable to generate sufficient future taxable income in these jurisdictions, a valuation allowance is recorded when it is more likely than not that the value of the deferred tax assets is not realizable. Management evaluates the realizability of the deferred tax assets and assesses the need for any valuation allowance. In 2007, we determined that it was more likely than not that a significant amount of our deferred tax assets primarily in the U.S. may not be realized; therefore, we recorded a valuation allowance against those deferred assets.

### ***Valuation of Long-Lived Assets***

Long-lived assets primarily include property and equipment and intangible assets with finite lives (purchased software, capitalized software, and customer lists). In accordance with SFAS No. 144, Accounting for the Impairment

or Disposal of Long-Lived Assets, we periodically review long-lived assets for impairment

## **Table of Contents**

whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable or that the useful lives are no longer appropriate. Each impairment test is based on a comparison of the undiscounted cash flows expected to result from the use and eventual disposition of the asset to the carrying amount of the asset. If an impairment is indicated, the asset is written down to its estimated fair value based on a discounted cash flow analysis. Determining the fair value of long-lived assets includes significant judgment by management, and different judgments could yield different results.

### ***Accounting for Leases***

We lease office facilities under non-cancelable operating leases that expire at various dates through 2017, and may include options that permit renewals for additional periods. Rent abatements and escalations are considered in the determination of straight-line rent expense for operating leases. Leasehold improvements made at the inception of or during the lease are amortized over the shorter of the asset life or the lease term. We receive incentives to lease office facilities in certain areas, which are recorded as a deferred credit and recognized as a reduction to rent expense on a straight-line basis over the lease term.

### ***Restructuring Charges***

We periodically record restructuring charges resulting from restructuring our operation (including consolidation and/or relocation of operation), changes in our strategic plan or management responses to increasing costs or declines in demand. The determination of restructuring charges requires management to utilize significant judgment and estimates related to expenses for employee benefits, such as costs of severance and termination benefits, and costs for future lease commitments on excess facilities, net of estimated future sublease income. In determining the amount of lease and facilities restructuring charges, we are required to estimate such factors as future vacancy rates, the time required to sublet excess facilities and sublease rates. These estimates are reviewed and potentially revised on a quarterly basis based on available information and known market conditions. If our assumptions prove to be inaccurate, we may need to make changes in these estimates that could impact our financial position and results of operation.

### ***Legal Contingencies***

We are currently involved in various claims and legal proceedings. We periodically review the status of each significant matter and assess our potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable and the amount can be reasonably estimated, we accrue a liability for the estimated loss. We use significant judgment in both the determination of probability and the determination as to whether an exposure is reasonably estimable. Due to the uncertainties related to these matters, accruals are based only on the best information at that time. As additional information becomes available, we reassess the potential liability related to our pending claims and litigation and may revise our estimates. Such revisions in the estimates of potential liabilities could have a material impact on our financial position and results of operation. We expense legal fees as incurred.

### ***Retirement Benefits***

Our pension plans and postretirement benefit plans are accounted for using actuarial valuations required by SFAS No. 87, Employers Accounting for Pensions, SFAS No. 106, Employers Accounting for Postretirement Benefits Other Than Pensions, and SFAS 158, Employer s Accounting for Defined Benefit Pension and Other Postretirement Plans. The pension plans relate to our plans for employees in Germany and Switzerland. Accounting for retirement plans requires management to make significant subjective judgments about a number of actuarial assumptions, including discount rates, salary growth, long-term return on plan assets, retirement, turnover, health care cost trend rates and mortality rates. Depending on the assumptions and estimates used, the pension and postretirement benefit

expense could vary within a range of outcomes and have a material effect on our financial position and results of operation. In addition, the assumptions can materially affect accumulated benefit obligations and future cash funding. For 2007, the discount rate to

## **Table of Contents**

determine the benefit obligation for the pension plans was 5.1%. The discount rate reflects the rate at which the pension benefits could be effectively settled. The rate is based upon comparable high quality corporate bond yields with maturities consistent with expected pension payment periods. A 100 basis point increase in the discount rate would decrease the 2008 pension expense for the plans by approximately \$1.6 million. A 100 basis point decrease in the discount rate would increase the 2008 pension expense for the plans by approximately \$1.4 million. The expected long-term rate of return on assets for 2007 was 4.5%. This rate represents the average of the long-term rates of return for the defined benefit plan weighted by the plan's assets as of December 31, 2007. To develop this assumption, we considered historical asset returns, the current asset allocation and future expectations of asset returns. The actual long-term rate of return from July 1, 2003 until December 31, 2007 was 31.2%. A 100 basis point increase or decrease in the expected long-term rate of return on the plans' assets would have had an approximately \$0.3 million impact on our 2008 pension expense. As of December 31, 2007, the pension plan had a \$3.6 million unrecognized actuarial gain that will be expensed over the average future working lifetime of active participants.

We also offer a postretirement medical plan to the majority of our full-time U.S. employees and managing directors who meet specific eligibility requirements. For 2007, the discount rate to determine the benefit obligation was 6.1%. The discount rate reflects the rate at which the benefits could be effectively settled. The rate is based upon comparable high quality corporate bond yields with maturities consistent with expected retiree medical payment periods. A 100 basis point increase or decrease in the discount rate would have approximately a \$3.2 million impact on the 2007 retiree medical expense for the plan. As of December 31, 2007, the postretirement medical plan had \$0.5 million in unrecognized actuarial gains that will be expensed over the average future working lifetime of active participants.

### ***Accounting for Stock-Based Compensation***

We have various stock-based compensation plans under which we have granted stock options, restricted stock awards and stock units to certain officers, employees and non-employee directors. We also have the ESPP, which included our "BE an Owner" program, that allows for employees to purchase Company stock at a discount. We granted both service-based and performance-based stock units and stock options during 2007. The fair value is generally fixed on the date of grant based on the number of stock units or stock options issued and the fair value of the Company's stock on the date of grant. For the performance-based stock units and stock options, each quarter we compare the actual performance results with the performance conditions to determine the probability of the award fully vesting. The determination of successful compliance with the performance conditions requires significant judgment by management, as differing outcomes may have a significant impact on current and future stock compensation expense.

We adopted SFAS No. 123(R), "Share-Based Payment" (SFAS 123(R)), on January 1, 2006. This standard requires that all share-based payments to employees be recognized in the statements of operation based on their fair values. We have used the Black-Scholes model to determine the fair value of our stock option awards. Under the fair value recognition provisions of SFAS 123(R), share-based compensation is measured at the grant date based on the fair value of the award and is recognized as expense over the requisite service period. Determining the fair value of share-based awards at the grant date requires judgment, including estimating stock price volatility and employee stock option exercise behaviors. If actual results differ significantly from these estimates, stock-based compensation expense and our results of operation could be materially impacted. As stock-based compensation expense recognized in the Consolidated Statements of Operation is based on awards that ultimately are expected to vest, the amount of expense has been reduced for estimated forfeitures. SFAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience. If factors change and we employ different assumptions in the application of SFAS 123(R), the compensation expense that we record in future periods may differ significantly from what we have recorded in the current period.

We adopted the modified prospective transition method permitted under SFAS 123(R) and consequently have not adjusted results from prior years. Under the modified prospective transition method, the 2006

## **Table of Contents**

compensation cost includes expense relating to the remaining unvested awards granted prior to December 31, 2005 along with new grants made during 2006. For grants which vest based on certain specified performance criteria, the grant date fair value of the shares is recognized over the requisite period of performance once achievement of criteria is deemed probable. For grants that vest through the passage of time, the grant date fair value of the award is recognized over the vesting period.

We elected the alternative transition method as outlined in FASB Staff Position ( FSP ) 123(R)-3, Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards, to calculate the historical pool of excess tax benefits available to offset tax shortfalls in periods following the adoption of SFAS 123(R).

The after-tax stock-based compensation expense impact of adopting SFAS 123(R) for the year ended December 31, 2006 was \$25.7 million with a \$0.12 per share reduction to diluted earnings per share. Prior to the adoption of SFAS 123(R), we used the intrinsic value method of accounting prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, including FIN 44, Accounting for Certain Transactions Involving Stock Compensation, for our plans. Under this accounting method, stock option compensation awards that are granted with an exercise price at the current fair value of our common stock as of the date of the award generally did not require compensation expense to be recognized in the Consolidated Statements of Operations. Stock-based compensation expense recognized for our employee stock option plans, restricted stock units and restricted stock awards was \$85.8 million in 2005, net of tax.

As of December 31, 2007, there was \$0.4 million, \$28.4 million and \$137.0 million of total unrecognized compensation cost, net of expected forfeitures, related to nonvested options, RSUs and PSUs, respectively, granted under the LTIP. That cost is expected to be recognized over a weighted-average period of one year, 2.2 years and 2.0 years, respectively.

### ***Accounting for Intercompany Loans***

Intercompany loans are classified between long- and short-term based on management's intent regarding repayment. Translation gains and losses on short-term loans are recorded in other (expense) income, net, in our Consolidated Financial Statements and similar gains and losses on long-term loans are recorded as other comprehensive income in our Consolidated Statements of Changes in Stockholders' Equity (Deficit). Accordingly, changes in management's intent relative to the expected repayment of these intercompany loans will change the amount of translation gains and losses included in our Consolidated Financial Statements.

### ***Accounting for Employee Global Mobility and Tax Equalization***

We have a tax equalization policy designed to ensure that our employees on domestic long-term and foreign assignments will be subject to the same level of personal tax, regardless of the tax jurisdiction in which the employee works. We record for tax equalization expenses in the period incurred. If the estimated tax equalization liability, including related interest and penalties, is determined to be greater or less than amounts due upon final settlement, the difference is recorded in the current period.

### ***Recently Issued Accounting Pronouncements***

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements ( SFAS 157 ). SFAS 157 establishes a single authoritative definition of fair value, sets a framework for measuring fair value and expands on required disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning January 1, 2008 and will be applied prospectively. In February 2008, the FASB issued a Staff Position that will (1) partially defer the effective date of SFAS 157 for one year for certain nonfinancial assets and nonfinancial liabilities and (2) remove certain

leasing transactions from the scope of SFAS 157. The adoption of SFAS 157 and its related pronouncements are not expected to have a material effect on our consolidated financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FAS 115 ( SFAS 159 ). The new statement allows entities

**Table of Contents**

to choose, at specific election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. SFAS 159 is effective for the fiscal year beginning January 1, 2008. We have elected not to apply the fair value option to any of our financial instruments.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations*, which replaces SFAS No. 141, *Business Combinations*. This Statement establishes principles and requirements for how an acquirer: recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree; recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This Statement applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. We do not expect this Statement to have a significant impact on our Consolidated Financial Statements.

**ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to a number of market risks in the ordinary course of business. These risks, which include interest rate risk and foreign currency exchange risk, arise in the normal course of business rather than from trading activities.

***Interest Rate Risk***

Our exposure to potential losses due to changes in interest rates is minimal as our outstanding debt obligations have fixed interest rates. The fair value of our debt obligations may increase or decrease for various reasons, including fluctuations in the market price of our common stock, fluctuations in market interest rates and fluctuations in general economic conditions.

The table below presents principal cash flows (net of discounts) and related weighted average interest rates by scheduled maturity dates for our debt obligations as of December 31, 2007:

<p style="text-align: center;"><b>Expected Maturity Date</b>  <b>Year ended December 31,</b>  <b>(In thousands U.S. Dollars, except interest rates)</b></p>							<b>Fair Value</b>
<b>2008</b>	<b>2009</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>Thereafter</b>	<b>Total</b>	
U.S. Dollar Functional Currency Series A Convertible Subordinated Debentures					\$ 250,000	\$ 250,000	\$ 146,875
Average fixed interest rate					2.50%	2.50%	
U.S. Dollar Functional							

Currency Series B Convertible Subordinated Debentures						\$ 200,000	\$ 200,000	\$ 106,000
Average fixed interest rate						4.10%	4.10%	
U.S. Dollar Functional Currency								
Currency Series C Convertible Subordinated Debentures						\$ 200,000	\$ 200,000	\$ 167,760
Average fixed interest rate						5.00%	5.00%	
U.S. Dollar Functional Currency								
Convertible Senior Subordinated Debentures(1)						\$ 40,000	\$ 40,000	\$ 24,346
Average fixed interest rate						0.50%	0.50%	
U.S. Dollar Functional Currency								
Term Loans under the 2007 Credit Facility	\$ 3,000	\$ 3,000	\$ 3,000	\$ 3,000	\$ 285,750		\$ 297,750	\$ 297,750
Average fixed interest rate	8.88%	8.88%	8.88%	8.88%	8.88%		8.88%	
U.S. Dollar Functional Currency								
Other	\$ 700	\$ 582					\$ 1,282	\$ 1,282
Average fixed interest rate	8.49%	8.49%					8.49%	

(1) The fair value was estimated using the Black-Scholes model with an expected volatility of 37.29%, risk-free interest rate of 3.06%, an expected life of 2.5 years, and an expected dividend yield of zero.

**Table of Contents**

***Foreign Currency Exchange Risk***

We operate internationally and are exposed to potentially adverse movements in foreign currency rate changes. Any foreign currency transaction, defined as a transaction denominated in a currency other than the U.S. dollar, will be reported in U.S. dollars at the applicable exchange rate. Assets and liabilities are translated into U.S. dollars at exchange rates in effect at the balance sheet date and income and expense items are translated at average rates for the period.

We have foreign exchange exposures related primarily to short-term intercompany loans denominated in non-U.S. dollars to certain of our foreign subsidiaries. The potential gain or loss in the fair value of these intercompany loans that would result from a hypothetical change of 10% in exchange rates would have been approximately \$3.1 million and \$6.9 million as of December 31, 2007 and 2006, respectively. For additional information, see Note 2, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements.

**ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

See the index included on Page F-1, Index to Consolidated Financial Statements.

**ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

As previously reported, on February 5, 2007, the Chairman of the Audit Committee of the Board (the Audit Committee) was notified by our independent registered public accounting firm, PricewaterhouseCoopers LLP (PwC), that PwC was declining to stand for re-election and that the client-auditor relationship between the Company and PwC would cease upon PwC's completion of services related to the audit of our annual financial statements for 2006 and related 2006 quarterly reviews.

During the Company's years ended December 31, 2005 and December 31, 2006, and through June 28, 2007, there were no disagreements between the Company and PwC on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure that, if not resolved to PwC's satisfaction, would have caused it to make reference to the matter in connection with its report on the Company's consolidated financial statements for the relevant year, and there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K, except that the Company disclosed that material weaknesses existed in its internal control over financial reporting for 2006 and 2005. The material weaknesses identified are discussed in Item 9A of the Company's Annual Reports on Form 10-K for the year ended December 31, 2006 and for the year ended December 31, 2005. The Company has authorized PwC to respond fully to any inquiries of its successor concerning the material weaknesses. PwC's audit reports on the Company's consolidated financial statements for the years ended December 31, 2006 and December 31, 2005 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles.

On February 9, 2007, the Audit Committee of the Board, as part of its periodic review and corporate governance practices, determined to engage Ernst & Young LLP (Ernst & Young) as the Company's independent registered public accounting firm commencing with the audit for the year ending December 31, 2007. Ernst & Young also has been engaged as the independent registered public accounting firm for the 401(k) Plan, commencing with the audit for the 401(k) Plan's year ending December 31, 2007. During the Company's years ended December 31, 2005 and December 31, 2006, and through February 9, 2007, neither the Company, nor anyone on its behalf, consulted with Ernst & Young with respect to either (i) the application of accounting principles to a specified transaction, either

completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements for 2006 or 2005, and no written report or oral advice was provided by Ernst & Young to the Company that Ernst & Young concluded was an important factor considered

## **Table of Contents**

by the Company in reaching a decision as to the accounting, auditing, or financial reporting issue for 2006 or 2005 or (ii) any matter that was the subject of either a disagreement as defined in Item 304(a)(1)(iv) of Regulation S-K or a reportable event as described in Item 304(a)(1)(v) of Regulation S-K.

## **ITEM 9A. CONTROLS AND PROCEDURES**

### ***Evaluation of Disclosure Controls and Procedures***

As of the end of the period covered by this Annual Report, management performed, with the participation of our Chief Executive Officer and our Chief Financial Officer, an evaluation of the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, to allow timely decisions regarding required disclosures. Based on the evaluation performed, with the participation of our Chief Executive Officer and our Chief Financial Officer, we concluded that as of December 31, 2007, because of the existence of material weaknesses discussed below, the Company's disclosure controls and procedures were not effective.

We believe that because we performed substantial additional procedures to compensate for the material weaknesses, our consolidated financial statements included in this Annual Report are fairly stated in all material respects.

### ***Management's Report on Internal Control over Financial Reporting***

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with GAAP. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projection of any evaluation of effectiveness to future periods is subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management has conducted, with the participation of our Chief Executive Officer and our Chief Financial Officer, an assessment, including testing of the effectiveness of our internal control over financial reporting as of December 31, 2007. Management's assessment of internal control over financial reporting was conducted using the criteria in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. In connection with management's

**Table of Contents**

assessment of our internal control over financial reporting, we identified the following material weaknesses in our internal control over financial reporting as of December 31, 2007:

We did not maintain effective controls over the completeness, accuracy, existence, valuation and disclosure of revenue, costs of service, accounts receivable, unbilled revenue, deferred contract costs, and deferred revenue. Specifically, we did not maintain effective controls, including monitoring by management, outside of our North American region to provide reasonable assurance that we had adequately evaluated customer contracts regarding the proper application of GAAP. Although numerous new controls over the accounts noted above have been implemented in our North American region, certain of these controls are not fully remediated or have not been operating for a sufficient amount of time to be deemed effective.

We did not maintain effective controls over the completeness, accuracy and timeliness of the recording of accounts payable, accrued liabilities, other current and non-current liabilities. Specifically, we did not design effective controls over our period-end reporting to capture and accrue costs incurred but not yet invoiced by third party suppliers and contractors. In addition, we did not maintain adequate controls over the approval and processing of purchase orders.

We did not maintain effective controls over our financial statement close and reporting process in our Asia Pacific region. Specifically, we did not maintain effective controls over the recording of recurring and non-recurring journal entries, nor did we provide reasonable assurance that accounts were complete and accurate and agreed to detailed support and that reconciliations of accounts were properly performed, reviewed and approved.

These material weaknesses affect substantially all of our financial statement accounts and disclosures and therefore, until the underlying control deficiencies are remediated, could result in a material misstatement of our annual or interim consolidated financial statements. Because of the material weaknesses described above, management has concluded that we did not maintain effective internal control over financial reporting as of December 31, 2007, based on the *Internal Control – Integrated Framework* issued by COSO.

The effectiveness of our internal control over financial reporting as of December 31, 2007 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is included elsewhere in this Item 9A.

***Remediation of Material Weaknesses in Internal Control over Financial Reporting***

We have engaged in, and continue to engage in, substantial efforts to address the material weaknesses in our internal control over financial reporting. Certain of these efforts commenced over a year ago and will continue at least through a portion of fiscal 2008 and potentially beyond. The Company has implemented an automated workflow tool designed to aid in the reporting, tracking, and implementing of remediation activities. These remediation activities are being developed and deployed under the direction of our senior executive management. In addition, these activities are monitored on a weekly basis against formal documented plans and are reviewed on a monthly basis through an Internal Controls Steering Committee, which includes the participation of both the Chief Financial Officer and Chief Executive Officer.

Management is committed to continuing efforts aimed at fully achieving an operationally effective control environment in 2008. The remediation efforts noted above are subject to the Company's internal control assessment, testing and evaluation processes. While these efforts continue, we will rely on additional procedures and other measures as needed to assist us with meeting the objectives otherwise fulfilled by an effective control environment.

***Changes in Internal Control over Financial Reporting***

Senior management implemented significant changes in internal control over financial reporting. These changes represent material changes that have materially affected or are reasonably likely to materially affect,

## **Table of Contents**

our internal control over financial reporting and they occurred throughout fiscal 2007, but were not considered to be sufficiently mature prior to the fourth quarter of 2007, at which time they were deemed to be sustainable and having achieved their desired impact. These improvements in our internal control over financial reporting have enabled us to significantly strengthen our control environment, the completeness and accuracy of underlying accounting data, and the timeliness with which we are able to close our books. The areas remediated were attained through:

Ongoing training efforts with regard to the application of GAAP and mandatory training with respect to the Foreign Corrupt Practices Act and Standards of Business Conduct;

Implementation of numerous formal management financial review monitoring controls;

Implementation of certain controls designed to identify non-routine and significant transactions; and

Strengthening of policies and procedures across the organization.

### ***Report of Ernst & Young LLP, Independent Registered Public Accounting Firm, on Internal Control over Financial Reporting***

Board of Directors and Stockholders of BearingPoint, Inc.:

We have audited BearingPoint, Inc.'s internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). BearingPoint, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become

inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Table of Contents**

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. The following material weaknesses have been identified and included in management's assessment:

the Company did not maintain effective controls over the completeness, accuracy, existence, valuation and disclosure of revenue, costs of service, accounts receivable, unbilled revenue, deferred contract costs, and deferred revenue,

the Company did not maintain effective controls over the completeness, accuracy and timeliness of the recording of accounts payable, accrued liabilities, other current and non-current liabilities, and;

the Company did not maintain effective controls over the financial statement close and reporting process in its Asia Pacific region.

These material weaknesses were considered in determining the nature, timing, and extent of audit tests applied in our audit of the 2007 consolidated financial statements, and this report does not affect our report dated February 26, 2008 on those financial statements.

In our opinion, because of the effect of the material weaknesses described above on the achievement of the objectives of the control criteria, BearingPoint, Inc. has not maintained effective internal control over financial reporting as of December 31, 2007, based on the COSO criteria.

/s/ Ernst & Young LLP  
McLean, Virginia

**ITEM 9B. OTHER INFORMATION**

None.

**Table of Contents**

**PART III.**

**ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

Our Board currently consists of ten directors. Our directors are divided into three classes serving staggered three-year terms. Information about our directors as of February 1, 2008 is provided below. For information about our executive officers, please see Executive Officers of the Registrant included in Part I of this Annual Report.

***Class I Directors Whose Terms Expire in 2010***

**Douglas C. Allred**, age 57, has been a member of the Board since January 2000. Mr. Allred is a private investor. Mr. Allred retired from his position as Senior Vice President, Office of the President, of Cisco Systems, Inc. in 2003. Mr. Allred was Senior Vice President, Customer Advocacy, Worldwide Consulting and Technical Services, Customer Services, and Cisco Information Technology of Cisco Systems, Inc. from 1991 to 2002.

**Betsy J. Bernard**, age 52, has been a member of the Board since March 2004. Ms. Bernard is a private investor. Ms. Bernard was President of AT&T Corporation from 2002 to 2003. From 2001 to 2002, Ms. Bernard was President and Chief Executive Officer of AT&T Consumer. Ms. Bernard is a director of The Principal Financial Group, a global financial institution, and Telular Corporation, a provider of fixed cellular solutions and wireless security systems and monitoring solutions.

**Spencer C. Fleischer**, age 54, has been a member of the Board since July 2005. Mr. Fleischer is a senior managing member and Vice Chairman of Friedman Fleischer & Lowe GP II, LLC, a company sponsoring and managing several investment funds that make investments in private and public companies, and has served in such capacity since 1998. Mr. Fleischer was appointed to the Board in accordance with the terms of the securities purchase agreement, dated July 15, 2005, relating to the July 2005 Convertible Debentures among the Company and certain affiliates of Friedman Fleischer & Lowe, LLC. If Mr. Fleischer ceases to be affiliated with the purchasers or ceases to serve on our Board, so long as the purchasers collectively hold at least 40% of the original principal amount of the July 2005 Convertible Debentures, the purchasers or their designee have the right to designate a replacement director to the Board.

***Class II Directors Whose Terms Expire in 2008***

**Wolfgang H. Kemna**, age 49, has been a member of the Board since April 2001. Mr. Kemna is Chief Executive Officer of Living-e AG, a German-based software provider of publishing and productivity software and has served in such capacity since July 2007. From 2004 to 2007, Mr. Kemna was a managing director of Steeb Anwendungssysteme GmbH, a wholly owned subsidiary of SAP AG ( SAP ). Mr. Kemna was Executive Vice President of Global Initiatives of SAP from 2002 to 2004 and a member of SAP 's extended executive board from 2000 to 2004.

**Albert L. Lord**, age 62, has been a member of the Board since February 2003. Mr. Lord is a vice chairman and Chief Executive Officer of SLM Corporation, commonly known as Sallie Mae, since January 2008. Mr. Lord was Vice Chairman and Chief Executive Officer of Sallie Mae from 1997 to 2005 and Chairman from 2005 to January 2008.

**Eddie R. Munson**, age 57, has been a member of the Board since October 2007. Mr. Munson is a retired partner with KPMG and has more than 30 years of auditing experience focusing on the financial services, government and automotive industries. From 1996 to 2004, Mr. Munson was a member of KPMG 's board of directors, where he was a

member of the pension committee and chair of the committees responsible for

## **Table of Contents**

partner rights and board nominations. Most recently, Mr. Munson was the national partner in charge of KPMG's University Relations and Campus Recruiting programs. Mr. Munson is a director of United American Healthcare Corporation.

**J. Terry Strange**, age 64, has been a member of the Board since April 2003. Mr. Strange retired from KPMG where he served as Vice Chair and Managing Partner of the U.S. Audit Practice from 1996 to 2002. During this period, Mr. Strange also served as the Global Managing Partner of the Audit Practice of KPMG International and was a member of its International Executive Committee. Mr. Strange is a director of New Jersey Resources Corp., an energy services holding company, Group 1 Automotive, Inc., a holding company operating in the automotive retailing industry, and Newfield Exploration Company, an independent crude oil and natural gas exploration and production company.

### ***Class III Directors Whose Terms Expire in 2009***

**F. Edwin Harbach**, age 54, has been Chief Executive Officer and a member of the Board since December 2007. Mr. Harbach also served as the Company's President and Chief Operating Officer from January 2007 to December 2007. From 1976 until his retirement in 2004, Mr. Harbach held various positions with and served in leadership roles at Accenture Ltd, a global management consulting, technology services and outsourcing company, including chief information officer, Managing Partner of Japan and Managing Director of Quality and Client Satisfaction.

**Roderick C. McGeary**, age 57, has been a member of the Board since August 1999 and Chairman of the Board since November 2004. From March 2005 until December 2007, Mr. McGeary served the Company in a full-time capacity, focusing on clients, employees and business partners. From 2004 until 2005, Mr. McGeary served as our Chief Executive Officer. From 2000 to 2002, Mr. McGeary was the Chief Executive Officer of Brience, Inc., a wireless and broadband company. Mr. McGeary is a director of Cisco Systems, Inc., a worldwide leader in networking for the Internet, and Dionex Corporation, a manufacturer and marketer of chromatography systems for chemical analysis. On December 31, 2007, Mr. McGeary retired as an employee of the Company. Mr. McGeary will continue serving as Chairman of the Board.

**Jill S. Kanin-Lovers**, age 55, has been a member of the Board since May 2007. Ms. Kanin-Lovers served as Senior Vice President of Human Resources & Workplace Management at Avon Products, Inc. from 1998 to 2004. Ms. Kanin-Lovers is a member of the board of directors of Dot Foods, Inc., one of the nation's largest food redistributors, Heidrick & Struggles, a leading global search firm, and First Advantage Corporation, a leading provider of risk mitigation and business solutions.

No family relationships exist between any of the directors or between any director and any executive officer of the Company.

### ***Presiding Director of Executive Sessions of Non-Management Directors***

Our non-management directors who are not employees of the Company meet separately on a regular basis. The Board has designated Douglas C. Allred as the Presiding Director for all meetings of the executive sessions of non-management directors.

### ***Audit Committee***

Our Audit Committee is currently composed of Messrs. Strange (Chair), Kemna, Lord and Munson. The Board has affirmatively determined that each member of the Audit Committee has no material relationship with the Company (either directly or as a partner, stockholder or officer of the Company) and is independent of the Company and its

management under the listing standards of the NYSE and the applicable regulations of

## **Table of Contents**

the SEC. The Board has determined that both Messrs. Strange and Munson qualify as an Audit Committee Financial Expert.

### ***Compensation Committee Interlocks and Insider Participation***

Our Compensation Committee is currently composed of Mses. Kanin-Lovers (Chair) and Bernard, and Messrs. Allred and Munson. During 2007, the committee members initially were Mr. Allred (Chair), Ms. Bernard and Mr. Strange. Ms. Kanin-Lovers was appointed to the Compensation Committee on May 10, 2007 and on June 18, 2007, Mr. Strange stepped down from the committee. On November 5, 2007, the Board re-aligned its committees, and on that date, Mr. Munson was appointed to the Compensation Committee and Ms. Kanin-Lovers replaced Mr. Allred as Chair of the committee. No member of the Compensation Committee is a former or current officer or employee of the Company or any of the Company's subsidiaries. To the Company's knowledge, there are no other relationships involving members of the Compensation Committee requiring disclosure in this Annual Report.

### ***Standards of Business Conduct***

On May 10, 2007, the Board approved the Standards of Business Conduct, which superseded our prior Code of Business Conduct and Ethics as of May 31, 2007. The Standards of Business Conduct was developed as part of our commitment to enhancing our culture of integrity and our corporate governance policies. The Standards of Business Conduct reflects changes in law and regulation, best practices and updates to the Company's policies. In addition, the Standards of Business Conduct contains new or enhanced policies and/or procedures relating to violations of the Standards of Business Conduct, conflicts of interest (including those related to the giving and receiving of gifts and entertainment), financial disclosures, the importance of maintaining the confidentiality of Company, client and competitor information, data privacy and protection, Company property, investor and media relations, records management, and lobbying/political activities. The Standards of Business Conduct applies to all of our directors and employees, including our principal executive officer, principal financial officer and principal accounting officer. The Standards of Business Conduct is posted on our website, at [www.bearingpoint.com](http://www.bearingpoint.com). We intend to satisfy the disclosure requirement regarding any amendment to, or waiver of, a provision of the Standards of Business Conduct for our Chief Executive Officer, Chief Financial Officer, Corporate Controller or persons performing similar functions, by posting such amendment or waiver on our website within the applicable deadline that may be imposed by government regulation following the amendment or waiver.

### ***Committee Charters***

Our Corporate Governance Guidelines, Audit Committee Charter, Compensation Committee Charter and Nominating and Corporate Governance Committee Charter are posted on the Company's website, at [www.bearingpoint.com](http://www.bearingpoint.com). A printed copy of these documents, as well as the Standards of Business Conduct, is available free of charge to any person who makes a request to our Investor Relations team at BearingPoint, Inc., 25 Independence Blvd., 4th Floor, Warren, New Jersey 07059, or by calling 908-607-2100.

### ***Annual Certifications***

The certifications by our Chief Executive Officer and Chief Financial Officer regarding the quality of our public disclosures are filed as Exhibits 31.1 and 31.2, respectively, to this Annual Report. We have also submitted to the NYSE a certificate of our Chief Executive Officer certifying that he is not aware of any violation by the Company of the NYSE corporate governance listing standards.

**Table of Contents**

***Annual Meeting***

We currently expect to hold our Annual Meeting of Stockholders in the fourth quarter of 2008. The Board's Nominating and Corporate Governance Committee is currently undertaking a review of our corporate governance structure, assessing the Board's current composition and determining its future needs, and considering its recommendations for nominees to the Board at our next annual meeting of stockholders. We may, as a result of this review, propose changes to our corporate governance structure, certain of which may be included in the agenda at our next annual meeting of stockholders. If the date of our stockholder meeting is changed by more 30 days from the anniversary date of our 2007 stockholder meeting, the deadlines for shareholder proposals, including proposals for director recommendations and nominations, will change. If any such change occurs, we will provide these new deadlines, either in a Form 10-Q, Form 8-K or by other permitted means.

***Communications with Board of Directors***

The Board welcomes your questions and comments. If you would like to communicate directly with our Board, our non-management directors of the Board as a group or Mr. Allred, as the Presiding Director, then you may submit your communication to our General Counsel and Corporate Secretary by writing to them at the following address:

BearingPoint, Inc.  
c/o General Counsel and Corporate Secretary  
8725 W. Higgins Road  
Chicago, IL 60631

All communications and concerns will be forwarded to our Board, our non-management directors as a group or our Presiding Director, as applicable. We also have established a dedicated telephone number for communicating concerns or comments regarding compliance matters to the Company. The phone number is 1-800-206-4081 (or 240-864-0229 for international callers), and is available 24 hours a day, seven days a week. The Standards of Business Conduct prohibits any retaliation or other adverse action against any person for raising a concern. If you wish to raise your concern in an anonymous manner, you may do so by calling the telephone number listed above.

***Section 16(a) Beneficial Ownership Reporting Compliance***

Under the U.S. Federal securities laws, directors and executive officers, as well as persons who beneficially own more than ten percent of our outstanding common stock, must report their initial ownership of the common stock and any changes in that ownership to the SEC. The SEC has designated specific due dates for these reports, and we must identify in this Annual Report those persons who did not file these reports when due. Based solely on a review of copies of Forms 3, 4 or 5 filed by us on behalf of our directors and executive officers or otherwise provided to us and copies of Schedule 13Gs, we believe that all of our directors, executive officers and greater than ten percent stockholders complied with their applicable filing requirements for 2007.

**Table of Contents**

**ITEM 11. EXECUTIVE COMPENSATION**

***Compensation Discussion and Analysis***

The Compensation Committee of our Board of Directors (the "Committee") determines the compensation of our executive officers, including making individual compensation decisions, and reviewing and monitoring the compensation programs applicable to our executive officers. This discussion describes the Committee's determination of 2007 compensation for our named executive officers—our Chief Executive Officer, Chief Financial Officer, Chief Operating Officer and General Counsel and Secretary.

In 2007, there were several changes in our executive management team. In January 2007, F. Edwin Harbach was appointed as our Chief Operating Officer, replacing Richard Roberts. As a result, the Committee did not make any determinations regarding Mr. Roberts' 2007 compensation. Furthermore, in December 2007, Harry You left the Company, and Mr. Harbach was promoted to the position of Chief Executive Officer. Also in December 2007, Roderick McGeary retired as an employee of the Company, terminating his service as an executive officer of the Company, although he continues in his role as Chairman of the Board. As a result, the Committee did not make any 2007 bonus determinations for Mr. You or Mr. McGeary.

***Overall Compensation Philosophy and Objectives***

Overall, our compensation philosophy is to enhance corporate performance and stockholder value by aligning the financial interests of our executive officers with those of our stockholders. We strive to implement this philosophy by paying for performance, based upon both individual performance and Company performance. Our goal is to design compensation programs that will:

attract and retain the best possible talent;

recognize and reward outstanding individual performance;

motivate our people to deliver quality service to our clients, in order to drive client satisfaction and the profitability of our company, resulting in positive returns for our stockholders;

provide for cash and long-term incentive compensation at levels that are competitive with companies within our industry and of similar size (targeting total compensation to remain at approximately the 50th percentile); and

communicate metrics openly and transparently, to influence employee performance and accountability.

***How Compensation is Determined***

The Committee devotes a substantial portion of its time in determining the compensation of our executive officers. This process includes reviewing market data, sharing best practices gained through prior experience, determining appropriate milestones to assess Company performance, and discussing appropriate levels of compensation based upon both individual and Company performance. In addition, the Committee engages a compensation consultant for independent guidance and expertise. For 2007, we engaged Towers Perrin to provide its counsel related to various executive compensation matters.

As part of the process, the Committee considers peer benchmarking information, which is used to assess the level of our executive officer compensation relative to a group of peer companies, and to compare the mix of total

compensation. For 2007, the Committee reviewed market comparisons for all companies participating in the Towers Perrin U.S. Executive Compensation Databank within the business services or information

## **Table of Contents**

technology industries (the Peer Companies ). This broad industry peer group for 2007 consisted of 33 companies:

Accenture Ltd	Cisco Systems, Inc.	Gartner, Inc.
ADVO, Inc.	Convergys Corporation	The GEO Group, Inc.
APAC Customer Services, Inc.	eFunds Corporation	IKON Office Solutions, Inc.
ARAMARK Corporation	Electronic Data Systems Corporation	IMS Health Incorporated
Automatic Data Processing, Inc.	EMC Corporation	Jackson Hewitt Tax Service Inc.
H&R Block, Inc.	Emdeon Corporation	Pitney Bowes Inc.
Booz Allen Hamilton Inc.	Equifax Inc.	R.R. Donnelly & Sons Company
CB Richard Ellis Group, Inc.	Equity Office Properties Trust	The Reynolds and Reynolds Company
CDI Corp.	First Data Corporation	Robert Half International Inc.
Ceridian Corporation	Fiserv, Inc.	Unisys Corporation
CheckFree Corporation	G&K Services, Inc.	WPP Group plc

In addition, the Committee reviewed its compensation decisions against compensation data for 12 direct peer companies, provided through a survey prepared by Watson Wyatt. These companies were:

Accenture Ltd	Hewlett-Packard Company
Affiliated Computer Services, Inc.	International Business Machines Corporation
Computer Sciences Corporation	Marsh & McLennan Companies, Inc.
Electronic Data Systems Corporation	Oracle Corporation
EMC Corporation	Sun Microsystems, Inc.
First Data Corporation	Unisys Corporation

The Committee determines executive compensation based upon the total amount of compensation relative to the Peer Companies, with the general goal of setting the level of compensation at approximately the 50th percentile. For 2007, the Committee focused primarily on the total amount of compensation rather than the mix of compensation (i.e., cash/noncash or long-term/short-term), because the mix of our executive officers' compensation has not been comparable to the Peer Companies. This is primarily due to the state of our business at the time we hired these individuals, which included issues related to our North American financial reporting systems, internal controls and various investigations and related litigation. We paid signing bonuses and long-term incentive compensation awards as part of their employment arrangements, to induce them to join the Company and to offset the compensation or benefits they would have received if they remained with their previous employers.

As part of its decision-making process, the Committee meets with the Chief Executive Officer to discuss the annual performance of each executive officer (and in the case of the Chief Executive Officer, the Committee meets with both the Chairman of the Board and the Presiding Director). The Committee then deliberates and determines the executive officer's compensation, taking into account management's recommendations, the executive officer's individual performance and Company performance. The Committee balances its analysis by considering the Company's performance within our industry, any challenges or business issues faced or overcome by the Company, as well as each individual's current contribution and expected future contribution to Company performance. Furthermore, the Committee assesses the reasonableness of the compensation package based upon its review of compensation for the Peer Companies and guidance provided by its compensation consultant.

*Appointment of Ed Harbach as Chief Executive Officer.* In December 2007, Mr. Harbach was appointed as our Chief Executive Officer, to replace Mr. You. In determining Mr. Harbach's 2008 compensation as Chief Executive Officer, the Committee reviewed market information provided by the same databank maintained by

## **Table of Contents**

Towers Perrin that comprised the Peer Companies, but adjusted for 2008 participation. The Peer Companies for 2008 were the following 38 companies:

Accenture Ltd	Dendrite International, Inc.	IKON Office Solutions, Inc.
ADVO, Inc.	eBay Inc.	IMS Health Incorporated
APAC Customer Services, Inc.	eFunds Corporation	Iron Mountain Incorporated
ARAMARK Corporation	Electronic Data Systems Corporation	
Automatic Data Processing, Inc.		Kelly Services, Inc.
	EMC Corporation	MacDonald, Dettwiler and Associates
Booz Allen & Hamilton, Inc.	Equifax Inc.	Oracle Corporation
The Brink's Company	First Data Corporation	Pitney Bowes Inc.
CA, Inc.	Fiserv, Inc.	Robert Half International Inc.
Ceridian Corporation	G&K Services, Inc.	Symantec Corporation
CheckFree Corporation	Gartner, Inc.	TeleTech Holdings, Inc.
CitiStreet	The GEO Group, Inc.	Unisys Corporation
Convergys Corporation	GTECH Holdings Corp	Viad Corp
Deluxe Corporation	H&R Block, Inc.	

In addition, the results of this market data were compared against compensation data for a select sample of 9 professional services firms from the 2007 Towers Perrin International Professional Services Executive Compensation Survey. These direct peer companies were selected because they were the companies in Towers Perrin's database that management felt provided comprised the most comparable peer group to the direct peer list previously used by the Company.

Accenture Ltd	Gartner, Inc.
Booz Allen Hamilton, Inc.	International Business Machines Corporation
Capgemini U.S. LLC	Science Applications International Corporation
Deloitte Consulting LLP	Unisys Corporation
Diamond Management & Technology Consultants, Inc.	

The Committee decided to provide a total compensation package for Mr. Harbach that would fall approximately at the 50th percentile of compensation reported. When determining Mr. Harbach's compensation, the Committee considered the signing bonus and equity awards made to Mr. Harbach upon joining the Company in 2007. Furthermore, Mr. Harbach's previously executed employment arrangements were either terminated or amended, as part of the Committee's desire to provide a compensation package that reflected market best practices and was more closely aligned with the standard terms utilized in agreements with our other managing directors. The Committee believes that while the level of compensation for its executive officers must remain market competitive, it is also important to more closely align certain employment terms and conditions with those applicable to our managing directors, to provide consistency with respect to our performance expectations for our most senior level of executives. For additional information about Mr. Harbach's new employment arrangements, see Employment Agreements Employment Agreement for F. Edwin Harbach, below.

### ***Principal Components of Executive Officer Compensation***

The principal elements of our executive officer compensation program consist of base salary, annual cash incentive payments and, at appropriate intervals, long-term incentive compensation in the form of grants of stock-based awards.

We also provide deferred compensation plans, health and welfare (including medical), retirement and other perquisites and benefits to our executive officers that also available to our managing directors.

We have utilized employment agreements and other agreements as the primary manner for structuring the compensation of our executive officers. Certain terms and conditions of our employment agreements with our executive officers reflected our strong desire, at the time of hire, to induce these individuals to join our

## **Table of Contents**

company, given their level of expertise and experience and the specific issues we faced at that time. While we expect to continue to use employment agreements and other agreements as a method of attracting executive talent and to continue providing competitive compensation for our executive officers, our goal is to further align the terms of employment with our executive officers with the standard terms and conditions that apply to the vast majority of our managing directors, unless specific situations necessitate other alternatives.

### *Fixed Compensation*

*Base Salaries.* Base salaries for our executive officers are determined by evaluating the responsibilities of the position, the experience and performance of the individual and market information comparing such salaries to the competitive marketplace for executive talent, with emphasis on our primary competitors in the management and technology consulting industry. The Committee considers salary adjustments based upon the recommendation of the Chief Executive Officer (other than with respect to his salary) and the Committee's evaluation of Company performance and individual performance, taking into account any additional or new responsibilities assumed by the individual executive officer in connection with promotions or organizational changes. Our philosophy is that, base salary should comprise a smaller percentage of total compensation for our executive officers, with a greater percentage tied to Company performance. Because our executive officers are the primary decision-makers and policy-makers for our Company, we believe it is appropriate to directly link a larger percentage of their compensation with Company performance, to hold them accountable for the decisions that they make.

Base salary information for our executive officers can be found in the Summary Compensation Table included in this Annual Report. The Committee decided to increase the base salaries of our executive officers by 4% (with the exception of Mr. Harbach, whose 2007 salary was specified in his employment agreement), which was the standard salary increase provided to the Company's managing directors for 2007. The Committee reviewed the performance of the Company and the individual executive officers before determining that they, too, should receive this increase in base salary. The Committee determined the increase was appropriate, given the tasks management had performed in the past and the objectives it had outlined for the future.

As part of its analysis, the Committee assessed each executive officer's proposed base salary for 2007 with relevant market data provided by Towers Perrin. In all cases except for Mr. You, proposed 2007 base salaries were between the 50th to 75th percentile of the Peer Companies. Mr. You's proposed base salary was significantly below market, falling within the 25th to 50th percentile of the Peer Companies. The Committee did not, however, increase Mr. You's base salary but decided to make up the shortfall by increasing Mr. You's equity-based compensation. This decision was made not only to better balance the mix of Mr. You's cash and non-cash compensation, but also to strengthen the link between Mr. You's compensation and the Company's 2007 performance. Information about the RSU grants awarded to Mr. You in 2007 can be found in the Grants of Plan-Based Awards table included in this Annual Report.

In January 2007, Mr. Harbach was appointed as our Chief Operating Officer. Mr. Harbach's base salary for 2007, set forth in his employment agreement with the Company, was \$700,000. Mr. Harbach's base salary was considered to be competitive compared to relevant market, which was between the 50th to 75th percentile of chief operating officer compensation for the Peer Companies. The Committee agreed with management's recommendation that, in light of the business issues the Company faced at that time, it was appropriate to offer a salary at a level higher than the 50th percentile, in order to attract a senior executive with Mr. Harbach's experience and expertise.

### *Variable Compensation*

*Cash Awards.* The Committee makes cash award determinations each year based upon its pay for performance philosophy. For 2007, our executive officers were awarded the annual cash awards set forth in

## Table of Contents

the Bonus column of the Summary Compensation Table included in this Annual Report. Awards earned for performance during one year are paid in the following year. For 2007, all of our executive officers were eligible to receive a maximum cash award equal to 100% of their respective base salaries, as set forth in their respective employment agreements. Under these agreements, Mr. Harbach is entitled to receive a minimum cash award equal to 40% of his base salary for 2007, provided that he received a meets expectation performance rating for 2007. Ms. Ethell and Mr. Lutz are entitled to receive cash awards based on the achievement of reasonable, pre-established performance goals.

In addition to the milestones set forth in their employment agreements, the Committee determined that the performance of our executive officers would be measured, in part, against the achievement of corporate performance milestones. The Committee's plan required the achievement of two goals: (1) the Company must be current in its periodic SEC reports as of December 31, 2007; and (2) for 2007, the Company must achieve at least 90% of (a) the Company's 2007 gross profit plan of \$930 million and (b) the Company's 2007 earnings before interest and taxes (EBIT) plan of \$(99) million, with certain adjustments to be made to reflect actual stock compensation expense. In addition, the corporate portion will be increased to the extent that actual gross profit and EBIT exceed this minimum average threshold. The Committee selected gross profit and EBIT as measures it felt were appropriate for gauging the overall health of the Company, given its past performance and expectations for the future. The Company was current in its periodic SEC reports as of December 31, 2007 but did not achieve either the gross profit or EBIT plans.

For 2007, after reviewing Mr. Harbach's tenure as Chief Operating Officer, his short tenure as Chief Executive Officer in December of 2007 and his employment arrangements, the Committee determined to award Mr. Harbach a cash bonus equal to \$350,046, or 50% of his 2007 base salary. Mr. Harbach's employment agreements required that his cash bonus for 2007 be, at a minimum, 40% of his base salary, if Mr. Harbach received a minimum meets expectations performance rating by the Committee. After reviewing Mr. Harbach's accomplishments as Chief Operating Officer during 2007 and the expansion of his role and responsibilities as Chief Executive Officer, the Committee strongly believed that Mr. Harbach's 2007 performance had met the minimum meets expectations requirement and in fact exceeded its expectations. The Committee based its determination that Mr. Harbach's 2007 operational efforts were integral to many of the Company's achievements in 2007, including the reduction of infrastructure costs and the Company being current in its periodic SEC reports as of December 31, 2007. The Committee further expressed its confidence in Mr. Harbach's ability to successfully implement the Company's business goals and objectives for 2008. As a result, the Committee decided that Mr. Harbach should receive a cash incentive award at a level greater than the minimum 40% threshold. At the same time, however, the Company decided that awarding Mr. Harbach a more significant cash award bonus was not appropriate, given the Company's 2007 financial performance. The Committee's determination was also based, in part, on the following considerations:

F. Edwin Harbach:	<p>excellent communication to the Board regarding Company issues and challenges, and operational vision and goals;</p> <p>development of metrics and scorecard to monitor Company performance;</p> <p>operational improvements related to the participation of our engagement teams in providing financial information and updates into the financial closing process;</p> <p>successful transition to new responsibilities and duties as Chief Executive Officer; and evaluations by Board members.</p>
-------------------	--

The Committee then proceeded to evaluate Ms. Ethell's and Mr. Lutz's individual performance. With respect to both Ms. Ethell and Mr. Lutz, the Committee recognized their significant and important contributions in the Company's achievement in 2007 of becoming current in its SEC periodic reports. The Committee strongly believed that becoming current in its periodic SEC reporting was essential to the Company's ability to achieve its future performance goals, and agreed that its expectations were surpassed with respect to management's ability to achieve what it considered to

be the Company's most important

## **Table of Contents**

objective for 2007. As a result, the Committee decided to award each of Ms. Ethell and Mr. Lutz a cash incentive award equal to \$260,047, or 50% of their respective base salaries in 2007. At the same time, however, the Company decided that awarding Ms. Ethell and Mr. Lutz a more significant cash award bonus was not appropriate, given the Company's 2007 financial performance. In addition, the Committee discussed and based its determinations, in part, on the following:

Judy Ethell:	instrumental in Company's ability to become current in its SEC periodic reports; progress achieved with respect to the remediation of internal control issues and Sarbanes-Oxley efforts; achievement of cost reductions within finance; and feedback provided by peers and direct reports, gathered through the Company's 360 degree review process.
Laurent Lutz:	instrumental in Company's ability to become current in its SEC periodic reports; successful resolution of contract disputes and litigation; negotiation and structuring of the 2007 Credit Facility; development and leadership of legal and compliance functions; and quality of analysis and guidance provided to the Board and its committees.

### *Long-Term Incentive Compensation*

While we have maintained parity with our major competitors on base cash compensation for our executive officers, comparisons with our Peer Companies indicate that our long-term incentive equity awards continue to lag behind our competitors.

*Performance Share Units.* In 2007, we issued performance share units ( PSUs ) to certain of our executive officers to help balance the mix of fixed and variable compensation of our executive officers. Information about these grants can be found in the "Grants of Plan-Based Awards" table included in this Annual Report. Award amounts were based upon each executive officer's individual performance and responsibilities and roles within the Company and by assessing and comparing the executive officer's total compensation, including previously granted incentive awards and the balance of fixed and variable compensation. Mr. Harbach did not receive a PSU award since he received a grant of RSUs earlier in the year as part of his employment arrangement with the Company, and the Committee determined that his amount of compensation, and his mix of total compensation, were appropriate without making additional grants.

The vesting of the PSUs is tied to the achievement of performance targets of both minimum growth in consolidated business unit contribution ( CBUC ) and total shareholder return. The Committee supported management's decision to use CBUC as a performance metric as a way of measuring the core growth of our industry groups, and to use total shareholder return as a "best practice" performance metric important to our stockholders. CBUC is defined as (i) consolidated net revenue less (ii) professional compensation, other costs of service and sales, general and administrative expense (excluding stock compensation expense, bonus expense, interest expense and infrastructure expense). While we currently believe that the minimum CBUC target may be achieved by 2009, there can be no assurance that our total shareholder return performance (in comparison to the S&P 500), will permit vesting of the PSUs.

Due to the complexity and uncertainty involved in determining the likelihood of vesting of the PSUs, as well as the extended timeframe for vesting and settlement, we have some concerns that the PSUs may not significantly incent our employees to remain with the Company. As long as these PSUs continue to remain outstanding, our ability to take any other retentive actions by issuing additional equity to our employees remains limited. As a result, management is

re-evaluating the efficacy of the PSUs as a compensation tool and our ability to consider alternatives to the PSUs that will have clearer retentive value for our employees. We expect that our executive officers would be included in any of these alternatives that may be pursued.

## **Table of Contents**

Regardless of how we address the existing component of our employees' compensation, we currently do not intend to seek approval from our shareholders for any further increase to our share capacity under our Long-Term Incentive Plan (the "LTIP") prior to 2009.

*Restricted Stock Units.* We granted restricted stock units ("RSUs") for various purposes, including employment offers for new executive officer candidates. In 2007, we made the following RSU awards to our Named Executive Officers (additional information can be found in the "Grants of Plan-Based Awards" table included in this Annual Report):

Mr. Lutz received a grant of RSUs in accordance with his employment arrangements with the Company, which provided that once the Company became current in its SEC periodic reports, Mr. Lutz's long-term incentive award would be paid in RSUs rather than in cash. At the time of Mr. Lutz's hire in 2006, we could not issue RSUs due to the existence of a blackout period under our 401(k) plan pursuant to Regulation BTR. After we took steps to amend the 401(k) plan, the blackout period ended as of September 14, 2006.

Mr. Harbach received a grant of RSUs as part of his employment arrangement with the Company.

Mr. You and Mr. McGeary received grants of RSUs as part of their bonus compensation for our 2006 fiscal year.

*Stock Options.* While no executive officers were issued stock options in 2007, Mr. Harbach did receive an award of stock options to purchase up to 1,232,600 shares of our common stock (with an exercise price equal to \$2.76 per share) on January 2, 2008, in connection with his appointment as Chief Executive Officer. The award vests in four equal increments (25%) on January 2 in each year of 2009 through 2012.

To date, we have not instituted any equity ownership requirements for our executive officers. We did not consider any such policy in 2007, since our equity programs were suspended for most of the year, as we were not current in our SEC periodic reports. Now that we are current, we expect to consider an equity ownership policy for our executive officers and directors in 2008.

## *Other Compensation*

*Deferred Compensation Plans.* We have a "Deferred Compensation Plan" and a "Managing Directors Deferred Compensation Plan" for our managing directors and other highly compensated executives. The two plans are substantially identical and permit a select group of management and highly compensated employees to accumulate additional income for retirement and other personal financial goals by making elective deferrals of compensation to which they will become entitled to in the future. Our deferred compensation plans are nonqualified and unfunded, and participants are unsecured general creditors of the Company as to their accounts. None of our executive officers have participated in our deferred compensation plans.

*Other Benefits.* Our executive officers are eligible for the same health and welfare programs as our other employees. Our retirement program for U.S. employees includes a 401(k) program. We match the individual employee's contribution to the program of 25% of the first 6% of pre-tax eligible compensation contributed to the plan, and, at our discretion, may make additional discretionary contributions of up to 25% of the first 6% of pre-tax eligible compensation contributed to the plan. Employee contributions to the 401(k) program for our executive officers are limited by federal law. We do not make up for the impact of these statutory limitations through any type of nonqualified deferred compensation or other program.

*Perquisites and Other Compensation.* Certain of our executive officers have received perquisites such as reimbursements of moving expenses and legal fees and gross-up payments in connection with the same as set forth in their respective employment agreements. As part of Mr. Harbach's employment arrangement as Chief Executive Officer of the Company, Mr. Harbach will be reimbursed for his rental of an apartment in New York

**Table of Contents**

City during part of 2007 and 2008, which is his primary office location (Mr. Harbach resides in Florida). The Committee will review its decision to provide this reimbursement to Mr. Harbach at each lease renewal date.

***Regulatory Considerations***

The Internal Revenue Code contains a provision that limits the tax deductibility of certain compensation paid to our executive officers to the extent it is not considered performance-based compensation under the Internal Revenue Code. We have adopted policies and practices to facilitate compliance with Section 162(m) of the Internal Revenue Code. It is intended that awards granted under the LTIP to such persons will qualify as performance-based compensation within the meaning of Section 162(m) and regulations under that section.

In making decisions about executive compensation, we also consider the impact of other regulatory provisions, including the provisions of Section 409A of the Internal Revenue Code regarding non-qualified deferred compensation and the change-in-control provisions of Section 280G of the Internal Revenue Code. In accordance with recent IRS guidance interpreting Section 409A, the LTIP will be administered in a manner that is in good faith compliance with Section 409A. The Board intends that any awards under the LTIP satisfy the applicable requirements of Section 409A. Generally, Section 409A is inapplicable to incentive stock options and restricted stock and also to nonqualified stock options so long as the exercise price for the nonqualified option may never be less than the fair market value of the common stock on the date of grant.

**REPORT OF THE COMPENSATION COMMITTEE  
OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION**

The Compensation Committee of the Board of Directors has reviewed and discussed the Compensation Discussion and Analysis section of this Annual Report on Form 10-K with the Company's management and, based on such review and discussion, recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K.

Harry L. You(8) <i>former Chief Executive Officer</i>	2007	791,229		122,346	3,056,537		107,237	4,077,349
	2006	750,000	58,500	938,900	2,519,300		331,828	4,598,528

(1) Unless otherwise noted, Bonus amounts consist of performance-based cash bonuses accrued in the fiscal year for which the bonus has been earned. We have entered into employment agreements with Mr. Harbach, Ms. Ethell and Mr. Lutz that set forth the terms of their compensation. Mr. You also had an employment agreement that set forth the terms of his compensation. All Other Compensation does not include matching contributions to be made by the Company under the 401(k) Plan for 2007, since these amounts are not finalized for payment until the following year.

(2)

Amounts reflected in the table as 2007 equity compensation reflect the amount recognized for financial statement reporting purposes in 2007 in accordance with SFAS 123(R) for equity award expense. These amounts reflect the Company's accounting expense for these awards, and do not correspond to the actual value that may be recognized by the named executive officers. Whether and to what extent a named executive officer realizes value will depend on various factors, including actual operating performance, stock price fluctuations and the named executive officer's continued employment. For a discussion of the assumptions used by the Company in calculating these amounts, see Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation Accounting for Stock-Based Compensation, and Note 13, Stock-Based Compensation, of the Notes to Consolidated Financial Statements. For information regarding 2007 Stock Awards and Option Awards, see Grants of Plan-Based Awards.

- (3) Mr. Harbach's annual base salary for 2007 was \$700,000. The amount reported as Mr. Harbach's salary is the amount actually paid in 2007. Mr. Harbach's Bonus amount for 2007 consists of a signing bonus of \$1,000,000 and a \$350,046 cash incentive award for his 2007 performance. Mr. Harbach's All Other Compensation consists of \$98,704 in reimbursements for costs associated with a furnished apartment in New York City for Mr. Harbach's use (including a monthly rental payment of \$10,000 beginning on September 15, 2007, certain expenses incidental to the maintenance, furnishing and upkeep of the apartment and costs related to Mr. Harbach's moving expenses) and \$53,660 in tax equalization payments with respect to the reimbursement of certain state taxes paid by Mr. Harbach resulting from work performed outside his state of residence. Mr. Harbach served as our President and Chief Operating Officer until December 3, 2007, when he became our Chief Executive Officer. In connection with Mr. Harbach's promotion, Mr. Harbach's annual salary was increased to \$900,214, effective December 31, 2007, with a target bonus of \$900,214. In February 2008, we agreed to make Mr. Harbach's new base salary effective as of December 1, 2007, to align more closely with the date of his promotion. The incremental salary to be paid to Mr. Harbach will be made in 2008. For additional information regarding Mr. Harbach's 2008 employment arrangements, see Employment Agreements Employment for F. Edwin Harbach.
- (4) Ms. Ethell's All Other Compensation consists of \$76,669 in legal fees reimbursed by the Company and tax equalization payments with respect to the reimbursement of these legal fees, which amounts were paid in 2007,

## Table of Contents

incurred in connection with the previously disclosed replacement of certain equity grants in 2006, and \$1,910 in tax equalization payments with respect to the reimbursement of certain state taxes paid by Ms. Ethell resulting from work performed outside her state of residence.

- (5) Mr. Lutz's Bonus amount for 2007 consists of a \$375,000 cash retention bonus paid on the first anniversary of the effective date of his employment agreement and a \$260,047 cash incentive award for his 2007 performance. Mr. Lutz's All Other Compensation consists of \$10,777 in tax equalization payments with respect to the reimbursement of certain state taxes paid by Mr. Lutz resulting from work performed outside his state of residence.
- (6) Upon his appointment as General Counsel of the Company in March 2006, Mr. Lutz was granted a multi-year award under our LTIP with an aggregate value of \$1.75 million. Grants under the award were to be made in cash until the earlier of (i) the date an effective registration statement on Form S-8 is filed or is on file, and (ii) the date, if any, we cease to be a reporting company under the Exchange Act. Subsequent to that event, the award would consist of grants of RSUs having an aggregate value of \$1.75 million, less amounts previously paid in cash. Mr. Lutz received cash payments (which reduced the value of the RSUs to be granted) of \$525,000 on July 1, 2006 and June 30, 2007. On October 22, 2007, the Company filed a registration statement on Form S-8, which became effective on the same day. As a result, we were obligated, pursuant to the terms of his employment agreement, to provide Mr. Lutz with an equity grant having an aggregate value of \$700,000, which was the amount remaining from his initial award, after taking into account cash payments previously made. Therefore, we granted Mr. Lutz 146,444 RSUs, which number was based on the closing price of our common stock on the first business day after the filing of the registration statement. Of the 146,444 RSUs, 36,611 RSUs vested and settled on December 31, 2007 and an additional 36,611 RSUs will vest on December 31 in each of 2008, 2009 and 2010.
- (7) Effective as of January 8, 2007, Mr. Roberts no longer served as our Chief Operating Officer.
- (8) Mr. You served as our Chief Executive Officer until he left the Company on December 3, 2007. Mr. You's All Other Compensation consists of \$17,848 in commuting expenses, \$8,730 in tax equalization payments with respect to the reimbursement of certain state taxes paid by Mr. You resulting from work performed outside his state of residence, \$7,810 for temporary living accommodations and \$72,849 in accrued and unused personal days paid in connection with his leaving the Company.

## **Grants of Plan-Based Awards**

The following table provides information relating to equity awards made in 2007 to our named executive officers.

Compensation	Estimated Future Payouts Under Non-Equity	Estimated Future Payouts Under Equity Incentive Plan Awards	All All Other Other Stock Option Awards: Awards Number Number or of of Base of Securities Stock Underlying			Grant Date Fair Value and Option
			Exercise Price of			
			of			
			of

			(\$)	(\$)	(\$)	(#)					
Edwin Harbach(2)	1/8/2007	1/8/2007							888,325		\$ 7,000,00
Andy A. Dell(3)	3/13/2007	3/13/2007				0	306,905	767,263			3,477,23
Robert C. Guretz(4)	3/13/2007	3/13/2007				0	383,632	959,080			4,346,54
	10/23/2007	2/24/2006					146,444				700,00
Derrick C. McGeary(5)	2/12/2007	2/12/2007					29,197				239,99
	3/13/2007	3/13/2007				0	255,754	639,385			2,897,69
Richard J. Roberts(6)	3/13/2007	3/13/2007				0	63,939	159,848			724,42
Harry L. Sroufe(7)	2/12/2007	2/12/2007					72,992				599,99
	3/13/2007	3/13/2007				0	959,079	2,397,698			10,866,36

(1) Amounts reflected in the "Grant Date Fair Value of Stock and Option Awards" column reflect the amount recognized for financial statement purposes in 2007 in accordance with SFAS 123(R) for equity award expense. These amounts reflect the Company's accounting expense for these awards, and do not correspond to the actual value that may be recognized by the named executive officers. Whether and to what extent a named executive officer realizes value will depend on various factors, including actual operating performance, stock price fluctuations and the named executive officer's continued employment. For a discussion of the assumptions used by the Company in calculating these amounts, see Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operation—Accounting for Stock-Based Compensation," and Note 13, "Stock-Based Compensation," of the Notes to Consolidated Financial Statements.

(2) Mr. Harbach was granted 888,235 RSUs on January 8, 2007, of which 222,081 RSUs vested on January 8, 2008, 222,081 RSUs will vest on January 8 in each of 2009 and 2010, and 222,082 RSUs will vest on January 8, 2011, in connection with his appointment as Chief Operating Officer of the Company. In addition, on January 2, 2008, Mr. Harbach was granted the following awards in connection with his promotion to Chief Executive Officer of the

**Table of Contents**

Company: (i) stock options to purchase up to 1,232,600 shares of our common stock (at an exercise price of \$2.76 per share), 25% of which will vest on January 2 in each of 2009 through 2012, and (iii) 199,275 RSUs of which 49,818 will vest on January 2, 2009 and 49,819 will vest on January 2 in each of 2010 through 2012.

- (3) Ms. Ethell was granted 306,905 PSUs on March 13, 2007. The PSUs will vest on December 31, 2009 if two performance-based metrics are achieved. For more information, see Equity Compensation Programs PSU Program.
- (4) Mr. Lutz was granted the following awards: (i) 383,632 PSUs were granted on March 13, 2007; and (ii) 146,444 RSUs were granted as of October 23, 2007 in connection with his employment agreement, of which 36,611 RSUs vested on December 31, 2007, and 36,611 RSUs will vest on December 31 in each of 2008 through 2010. The PSUs will vest on December 31, 2009 if two performance-based metrics are achieved. For more information on the RSU grant, see Footnote 6 to the Summary Compensation Table, and for more information on the PSU grant, see Equity Compensation Programs PSU Program.
- (5) Mr. McGeary was granted the following awards: (i) 29,197 RSUs were granted on February 12, 2007, of which 7,299 RSUs vested on February 12, 2008, 7,299 RSUs will vest on February 12 in each of 2009 and 2010, and 7,300 RSUs will vest on February 12, 2011; and (ii) 255,754 PSUs were granted on March 13, 2007. Effective as of December 31, 2007, the vesting of the RSUs was accelerated and the PSUs were forfeited in connection with Mr. McGeary's retirement from the Company.
- (6) Mr. Roberts was granted 63,939 PSUs on March 13, 2007. The PSUs will vest on December 31, 2009 if two performance-based metrics are achieved. For more information, see Equity Compensation Programs PSU Program.
- (7) Mr. You was granted the following awards: (i) 72,992 RSUs were granted on February 12, 2007, of which 18,248 RSUs were scheduled to vest on February 12 in each of 2008, 2009, 2010 and 2011; and (ii) 959,079 PSUs were granted on March 13, 2007. The PSUs were scheduled to vest on December 31, 2009 if two performance-based metrics were achieved. When Mr. You left the Company, both of these awards were forfeited.

**Table of Contents****Outstanding Equity Awards at Fiscal Year-End (December 31, 2007)**

The following table provides information regarding the value of all unexercised options and unvested restricted stock units previously awarded to our named executive officers as of December 31, 2007.

(1) Due to the terms of the PSUs and the fact that no determinations regarding the vesting of PSUs can be made until December 31, 2009, PSU awards are not included in this table.

(2)

Mr. Harbach received a grant of 888,325 RSUs on January 8, 2007, of which 222,081 RSUs vested on January 8, 2008, 222,081 RSUs will vest on January 8 in 2009 and 2010, and 222,082 RSUs will vest on January 8, 2011. Mr. Harbach did not receive a grant of RSUs in 2007, since he received the RSU grant earlier in the year. In addition, the amounts reflected above do not include grants made on January 2, 2008 in connection with Mr. Harbach's promotion to Chief Executive Officer. For information regarding these grants, see Footnote 1 to Grants of Plan-Based Awards.

- (3) On September 19, 2006, Ms. Ethell was granted stock options to purchase up to 600,000 shares of our common stock, of which 25% vested upon grant, 25% vested on July 1, 2007 and, subject to achievement of certain performance criteria, 25% will vest on July 1 in each of 2008 and 2009. On September 19, 2006, Ms. Ethell was also granted: (i) 292,000 RSUs, of which 204,400 RSUs vested upon grant, 29,200 RSUs vested on July 1, 2007, and, subject to achievement of certain performance criteria, 29,200 RSUs will vest on July 1 in each of 2008 and 2009; and (ii) 94,000 RSUs, of which 23,500 RSUs vested upon grant, 23,500 RSUs vested on July 1, 2007, and, subject to achievement of certain performance criteria, and 23,500 RSUs will vest on July 1 in each of 2008 and 2009. In addition, on March 13, 2007, Ms. Ethell was granted 306,905 PSUs, which will vest on December 31, 2009 if two performance-based metrics are achieved. For more information, please see Equity Compensation Programs PSU Program.
- (4) On October 23, 2007, Mr. Lutz was granted 146,444 RSUs, of which 36,611 RSUs vested on December 31, 2007 and 36,611 will vest on December 31 in each of 2008 through 2010. In addition, on March 13, 2007, Mr. Lutz was granted 383,632 PSUs, which will vest on December 31, 2009 if two performance-based metrics are achieved. For more information, see Equity Compensation Programs PSU Program.
- (5) Mr. McGeary was granted the following awards: (i) Effective as of September 25, 2006, Mr. McGeary was granted 29,411 RSUs, of which 7,352 RSUs vested on January 1, 2007 and 7,353 RSUs will vest on January 1 in each of 2008 through 2010; and (ii) on February 12, 2007, Mr. McGeary was granted 29,197 RSUs, of which 7,299 RSUs vested on February 12, 2008, 7,299 RSUs will vest on February 12 in each of 2009 and 2010 and 7,300 RSUs will vest on February 12, 2011. In addition, on March 13, 2007, Mr. McGeary was granted 255,754 PSUs. Effective as of December 31, 2007, the vesting of the RSUs was accelerated, and the PSUs were forfeited, in connection with Mr. McGeary's retirement from the Company.

**Table of Contents**

- (6) As of December 31, 2007, all of Mr. Roberts' stock options grants were fully vested. Effective as of September 25, 2006, Mr. Roberts was granted 93,177 RSUs, of which 23,294 RSUs vested on January 1 in each of 2007 and 2008, 23,294 RSUs will vest on January 1, 2009 and 23,295 RSUs will vest on January 1, 2010. On March 13, 2007, Mr. Roberts was also granted 63,939 PSUs, which will vest on December 31, 2009 if two performance-based metrics are achieved. For more information, see *Equity Compensation Programs* PSU Program.
- (7) Mr. You was granted stock options to purchase up to 2,000,000 shares of our common stock, which options vest 25% on March 18 in each of 2006 through 2009. In connection with Mr. You leaving the Company on December 3, 2007, Mr. You's vested stock options will expire on March 3, 2008.
- (8) As of December 3, 2007, all unvested RSUs and PSUs were forfeited in connection with Mr. You leaving the Company.

**Option Exercises and Stock Vested**

The following table provides information with respect to restricted stock units that vested during 2007 with respect to our named executive officers. No options were exercised in 2007.

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise(#)	Value Realized on Exercise(\$)	Number of Shares Acquired on Vesting(#)	Value Realized on Vesting\$(1)
F. Edwin Harbach		\$		\$
Judy A. Ethell			52,700	385,237
Laurent C. Lutz			36,611	103,609
Roderick C. McGeary(2)			58,608	202,915
Richard J. Roberts			23,294	183,324
Harry L. You			62,500	471,875

- (1) Amounts reflect the value of awards realized by the named executive officer and are computed by multiplying the number of vested shares by the closing price of the Company's stock on the date of vesting.
- (2) Effective December 31, 2007, pursuant to the terms of his award agreement, the vesting of all RSUs granted to Mr. McGeary was accelerated in connection with his retirement from the Company.

***Pension Benefits***

Our only retirement plan for our U.S.-based employees, including our named executive officers, is the 401(k) Plan. We do not have a pension plan in which our named executive officers are eligible to participate.

***Nonqualified Deferred Compensation Plans***

We have a Deferred Compensation Plan and a Managing Directors Deferred Compensation Plan, which are designed to permit a select group of management and highly compensated employees who contribute materially to our continued growth, development and future business success to accumulate additional income for retirement and other personal financial goals through plans that enable the participants to make elective deferrals of compensation to which they will become entitled to in the future. Our deferred compensation plans are nonqualified and unfunded, and participants are unsecured general creditors of the Company as to their accounts. Our managing directors, including our named executive officers, and other highly compensated executives selected by the plans administrative committee are eligible to participate in the plans. To date, none of our named executive officers has participated in any of our deferred compensation plans.

## **Table of Contents**

### ***Employment Agreements***

*Managing Director Agreements.* We have entered into a Managing Director Agreement (a "Managing Director Agreement") with each of our approximately 660 managing directors, including our named executive officers. Pursuant to the Managing Director Agreement, we provide up to six months' pay for certain terminations of employment by us. In addition, the Managing Director Agreement contains non-competition and non-solicitation provisions for a period of up to two years after such executive's termination of employment or resignation.

With respect to our named executive officers, we entered into the following employment agreements. Generally, each of these arrangements provided for participation in all benefit, fringe and perquisite plans, practices, programs, policies and arrangements generally provided to senior executives of the Company at a level commensurate with the executive's position.

*Employment Agreement for F. Edwin Harbach.* Effective December 31, 2007, we entered into the following arrangements with Mr. Harbach, in connection with his promotion to Chief Executive Officer. In establishing his new arrangements, as well as terminating or amending the agreements previously executed with Mr. Harbach when he first joined the Company, we have endeavored to adjust Mr. Harbach's compensation to reflect his new position as Chief Executive Officer and also to more closely align most of the terms of his employment agreements with current standard terms utilized in agreements with our other managing directors. Mr. Harbach's employment agreement provides for the following:

*Termination of Prior Agreements.* Effective as of December 31, 2007, Mr. Harbach's previous employment agreement, Managing Director Agreement and Special Termination Agreement were terminated. Mr. Harbach's annual base salary and bonus compensation for 2007 can be found in the Summary Compensation Table above, and information regarding his equity awards are included under Outstanding Equity Awards at Fiscal Year-End (December 31, 2007), in each instance pursuant to his previous employment agreement.

*Compensation.* Mr. Harbach's compensation for 2008 will be:

Mr. Harbach's annual base salary for 2008 is \$900,214. In addition, starting in 2008, Mr. Harbach will be eligible for an annual performance bonus with a target amount of 100% of his annual base salary for the year for which the performance bonus is being awarded, based on his ability to achieve all performance objectives as established for the applicable year by the Compensation Committee.

On January 2, 2008, Mr. Harbach received a grant of 199,275 RSUs and a grant of stock options pursuant to the LTIP, with an exercise price of \$2.76 per share, to purchase 1,232,600 shares of common stock of the Company. The RSUs and the stock options vest in equal 25% increments on each of the next four anniversary dates of such grant date, provided that Mr. Harbach's employment has not terminated prior to such date. Furthermore, all of the RSUs will vest upon the termination of Mr. Harbach's employment due to his death, disability or retirement.

Effective as of December 31, 2007, the terms of Mr. Harbach's prior RSU grant of 888,325 restricted stock units awarded to him in January 2007 was amended to provide that in the event of a Change in Control (as defined in the LTIP), the RSUs will become 100% vested and nonforfeitable effective as of the date of such Change in Control, provided that Mr. Harbach's employment has not terminated prior to such date. This amendment conforms the vesting of the RSUs upon a change in control to that contained in all other RSU awards granted by the Company. Previously, the RSUs would have vested only upon (i) a Change in Control and (ii) Mr. Harbach's termination by the Company for any reason other than for

cause within three years following a Change in Control.

**Table of Contents**

*Living Expenses.* Mr. Harbach will be reimbursed for monthly rental payments for his current apartment lease in New York City. The Compensation Committee of the Board will review its decision to provide this reimbursement at each lease renewal date.

*Indemnification.* We agreed to indemnify Mr. Harbach with respect to his activities on behalf of the Company to the fullest extent permitted by law and the Company's Articles of Incorporation.

*Termination Payments.* Mr. Harbach is entitled to certain termination payments under his employment agreement, which are described below under Potential Payments upon Termination of Employment or Change in Control.

In addition, Mr. Harbach and the Company entered into a new Managing Director Agreement and Special Termination Agreement, effective as of December 31, 2007.

*Managing Director Agreement.* Mr. Harbach's Managing Director Agreement is the standard form currently utilized for all new managing directors of the Company. The Managing Director Agreement contains noncompetition and non-solicitation provisions for a period of two years after his termination or resignation.

*Special Termination Agreement.* The term of Mr. Harbach's Special Termination Agreement is three years (subject to potential one-year extensions) or, if longer, two years after a Change in Control. If, after a Change in Control and during the term of the Special Termination Agreement, the Company terminates Mr. Harbach's employment other than for Cause or Disability (as defined in the Special Termination Agreement) or if he terminates his employment within 60 days after any decrease of his base salary by 20% or more after such Change in Control, Mr. Harbach is entitled to certain benefits, including the payment of approximately one year's compensation (based on salary plus potential bonus).

*Employment Agreement for Judy A. Ethell.* Effective as of July 1, 2005, we entered into the following arrangements with Judy A. Ethell, our Chief Financial Officer:

*Compensation.* Information regarding Ms. Ethell's annual base salary and bonus compensation can be found in the Summary Compensation Table above. Information regarding equity awards issued to Ms. Ethell pursuant to her employment arrangements are included under Outstanding Equity Awards at Fiscal Year-End (December 31, 2007), above.

*Indemnification.* We agreed to indemnify Ms. Ethell with respect to her activities on behalf of the Company, for any failure of the Company to comply with Section 409A of the Internal Revenue Code of 1986, as amended, and for certain other matters.

*Termination Payments.* Ms. Ethell is entitled to certain termination payments under her employment agreement, which are described below under Potential Payments upon Termination of Employment or Change in Control.

*Employment Agreement for Laurent C. Lutz.* Effective as of October 17, 2006, the Board determined that Laurent C. Lutz, our General Counsel and Secretary, was an executive officer of the Company. Effective as of February 27, 2006, we had entered into the following arrangements with Mr. Lutz:

*Compensation.* Information regarding Mr. Lutz's annual base salary and bonus compensation can be found in the Summary Compensation Table above. Information regarding equity awards issued to Mr. Lutz and

non-equity incentive plan compensation awarded to Mr. Lutz are included under Outstanding Equity Awards at Fiscal Year-End (December 31, 2007) and Grants of Plan-Based Awards, above.

*Indemnification.* We agreed to indemnify Mr. Lutz in the event that any activity he undertakes on behalf of the Company is challenged as being in violation of any agreement he may have with a prior employer and for certain other matters. In addition, Mr. Lutz is entitled to receive a gross-up for any

## **Table of Contents**

payment to him under any of his agreements that would be subject to a surtax imposed by Section 409A of the Internal Revenue Code or for any interest or penalties thereon.

*Termination Payments.* Mr. Lutz is entitled to certain termination payments under his employment agreement, which are described below under Potential Payments upon Termination of Employment or Change in Control.

*Employment Agreement for Harry L. You.* Effective as of December 3, 2007, Mr. You left the Company. Pursuant to the terms of his employment agreement, Mr. You was paid for all accrued and unused personal days.

### ***Potential Payments upon Termination or Change in Control***

*Severance Payments under Managing Director Agreements.* Under our Managing Director Agreements, we provide up to six months' pay for terminations of employment by us other than for cause, as defined in the agreements. In addition, these agreements contain non-competition and non-solicitation provisions for a period of up to two years after such executive's termination of employment or resignation.

*Severance Payments under Employment Agreements.* Under our employment agreements with Mr. Harbach, Ms. Ethell and Mr. Lutz, we state that upon termination of the individual's employment by us without cause or by the individual for good reason, (as defined in the agreements), within 30 days after our receipt of a fully executed release, we will make a severance payment to the individual. These severance payments are significantly higher than those that we would pay under our Managing Director Agreements.

*Termination Payments under Special Termination Agreements.* We have entered into special termination agreements (each, a Special Termination Agreement) with certain key personnel. The purpose of the Special Termination Agreement is to ensure that these executives are properly protected in the event of a change in control of the Company, thereby enhancing our ability to hire and retain them. The terms of the Special Termination Agreements vary up to a maximum of three years, which terms automatically renew for additional one-year terms unless we give notice that the agreement will not be renewed, or, if later, two years after a change in control. The protective provisions of the Special Termination Agreement become operative only upon a change in control, as defined in the agreement.

All Special Termination Agreements signed on or after August 1, 2006 specify that if, after a change in control and during the term of the agreement, we terminate the executive's employment other than for cause (as defined in the agreements) or the executive terminates his employment because his salary was reduced by at least 20%, the executive is entitled to certain benefits. Generally, Special Termination Agreements signed before August 1, 2006 specify that if, after a change in control and during the term of the agreement, we terminate the executive's employment other than for cause or if the executive terminates his employment for specified reasons (including if his responsibilities have been materially reduced or adversely modified or his compensation has been reduced), the executive is entitled to certain benefits. Under the Special Termination Agreements, these benefits generally include the payment of approximately one year's compensation, based on salary plus bonus as specified in the agreement, continued coverage under our welfare benefit plans (e.g., medical, life insurance and disability insurance) for up to two years at no cost, and outplacement counseling.

The Special Termination Agreements that we entered into with Ms. Ethell and Messrs. Lutz and Roberts differ, in some respects, from the standard form of Special Termination Agreement. Mr. Harbach's Special Termination Agreement was amended, effective December 31, 2007, to conform to the standard form. For a discussion of potential payments to our named executive officers, pursuant to their respective Special Termination Agreements, upon a change in control and other triggering events, please see the table below.

**Table of Contents**

**Potential Payments  
Upon Termination of Employment or Change-in-Control  
as of December 31, 2007**

The table below sets forth the potential payments that generally would have been payable to each of our named executive officers as of December 31, 2007 if:

the named executive officer's employment were terminated by us without Cause (as defined in such named executive officer's employment agreement) or by the named executive officer for Good Reason (as defined in such named executive officer's employment agreement); and

the named executive officer's employment (a) were terminated by us within two years after a Change in Control (as defined in such named executive officer's Special Termination Agreement) for any reason other than Cause (as defined in such named executive officer's Special Termination Agreement) or if the executive became permanently disabled or was unable to work for a period of 180 consecutive days, (b) (i) were involuntarily terminated by us (other than for Cause) or (ii) were terminated by the named executive officer following a reduction or adverse change in the named executive officer's duties or compensation, in each case within six months prior to a Change in Control and in anticipation of a Change in Control or (c) were terminated by the named executive officer during the term of the Special Termination Agreement but after a Change in Control if one of the events specified in such named executive officer's Special Termination Agreement has occurred.

Name	Termination of Employment(1)(2)	Change in Control(2)(3)
F. Edwin Harbach	\$ 2,815,886(4)	5,642,648(5)
Judy A. Ethell	1,298,693(6)	7,457,748(7)
Laurent C. Lutz	2,031,039(8)	8,095,839(9)
Richard J. Roberts	317,763(10)	2,006,024(11)

\* Mr. McGeary retired from the Company, effective December 31, 2007, and Mr. You's departure from the Company was effective on December 3, 2007.

- (1) Amounts set forth in the table for Mr. Harbach, Ms. Ethell and Mr. Lutz reflect the severance payments payable under their respective employment agreements. If Mr. Harbach, Ms. Ethell or Mr. Lutz's employment is not terminated (i) by us without Cause (as defined in such named executive officer's employment agreement) or (ii) by the named executive officer for Good Reason (as defined in such named executive officer's employment agreement), then such named executive officer may still be eligible to receive payments representing earned but unpaid salary and bonus amounts, any unpaid accrued personal days or unreimbursed business expenses and any other amounts due under the Company's benefit plans. If Mr. Harbach, Ms. Ethell or Mr. Lutz does not qualify for payment under any of the provisions of their respective employment agreements, they may be eligible to receive severance payments under their respective Managing Director Agreements if their employment is terminated other than for Cause (as defined in the respective Managing Director Agreement) or for no reason. Such payments would generally consist of all earned and unpaid base salary plus a payment equal to three months' pay at such named executive officer's current base salary. Amounts payable under the Managing Director Agreements for Mr. Harbach, Ms. Ethell and Mr. Lutz as of December 31, 2007 would have been \$175,000, \$130,000 and \$130,000, respectively. Amounts set forth in the table for Mr. Roberts reflect the severance payments payable under his Managing Director Agreement.

- (2) The dollar amounts in the table with respect to RSUs and PSUs that accelerate upon a termination, Change in Control or other triggering event assume a \$2.83 per share price for our common stock (the closing price on December 31, 2007).
- (3) Amounts set forth in the table for Mr. Harbach, Ms. Ethell, Mr. Lutz and Mr. Roberts reflect the termination payments payable governed under their respective Special Termination Agreements upon a Change of Control (as defined in such agreements). Even if Mr. Harbach, Ms. Ethell or Mr. Lutz is not eligible to receive the payments set forth in the table above upon a change in control (as defined in the Special Termination Agreements), all unvested options, RSUs and PSUs held will immediately vest upon the occurrence of a Change of Control (as defined under the LTIP) pursuant to such named executive officer's employment agreement. In addition, the Change of Control provisions under the LTIP generally provide that any unvested portion of stock option grants, RSUs and PSUs will vest upon the occurrence of a Change of Control (as defined in the LTIP). See Change of Control Provisions Under the LTIP

**Table of Contents**

below. Furthermore, if such named executive officer is not eligible to receive the payments and other benefits specified in his or her Special Termination Agreement upon a change in control, such named executive officer may be eligible to receive the payments payable upon termination of employment under such individual's employment agreement, as specified in this table and the related footnotes.

- (4) Under Mr. Harbach's employment agreement in effect as of December 31, 2007, Mr. Harbach would have been entitled to the following: (i) payment equal to two times the sum of his (A) annual base salary (\$700,000) and (B) bonus compensation of \$350,046, (ii) payment of accrued and unused personal days (\$65,310), (iii) payment of premiums under the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended for a period of 18 months after termination (\$21,995), and (iv) the vesting of an additional 222,081 RSUs that would have vested within the first anniversary of the termination date (\$628,489).
- (5) Under Mr. Harbach's Special Termination Agreement in effect as of December 31, 2007, Mr. Harbach would have been entitled to the following: (i) payment equal to the sum of his (A) annual base salary in 2007 (\$700,000) and (B) bonus compensation of \$350,046, (ii) for a period of 2 years after his termination, continuation of medical, dental, life insurance, disability, accidental death and dismemberment benefits and other welfare benefits, subject to certain exceptions (\$21,897), (iii) pursuant to the terms of Mr. Harbach's RSU grant, in the event of a Change in Control, the vesting of all unvested RSUs (an additional 888,325 RSUs valued at \$2,513,960), (iv) reimbursement for outplacement services, (v) payment of any earned but unpaid salary, bonus or incentive compensation and (vi) an additional tax gross-up payment of \$2,056,745, which excludes tax gross-up payments that may be payable under his Special Termination Agreement to offset the impact of excise taxes that may be imposed under provisions of the Internal Revenue Code.
- (6) Under Ms. Ethell's employment agreement, Ms. Ethell would have been entitled to (i) payment equal to the sum of her (A) annual base salary (\$520,000) and (B) target bonus (\$520,000), (ii) payment of accrued and unused personal days (\$94,412), (iii) payment of premiums under the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended, for a period of 18 months after termination (\$15,140), and the vesting of an additional 150,000 options and 52,700 RSUs that would have vested within the first anniversary of the termination date (\$149,141).
- (7) Under Ms. Ethell's Special Termination Agreement, Ms. Ethell would have been entitled to the following: (i) payment equal to 299% of the sum of her (A) annual base salary in 2007 (\$520,000) and (B) target bonus for 2007 (\$520,000), (ii) for a period of 2 years after her termination, continuation of medical, dental, life insurance, disability, accidental death and dismemberment benefits and other welfare benefits, subject to certain exceptions (\$15,546), (iii) if Ms. Ethell's employment is terminated by us (other than for Cause) or there is a reduction or adverse change in Ms. Ethell's duties or compensation and Ms. Ethell terminates her employment within six months prior to a Change of Control and in anticipation of a Change of Control, the vesting of all unvested options, RSUs and PSUs (an additional 300,000 options, 105,400 RSUs and 306,905 PSUs (assuming the PSUs vest at 100%) valued at \$1,166,823), (iv) reimbursement for outplacement services, (v) payment of any earned but unpaid salary, bonus or incentive compensation and (vi) an additional tax gross-up payment of \$3,165,779, which excludes tax gross-up payments that may be payable under her Special Termination Agreement to offset the impact of excise taxes that may be imposed under provisions of the Internal Revenue Code.
- (8) Under Mr. Lutz's employment agreement, Mr. Lutz would have been entitled to (i) payment equal to the sum of his (A) annual base salary (\$520,000) (or, in the event of termination by Good Reason (as defined in his employment agreement), 1 and 1/2 times annual base salary) and (B) target bonus (\$520,000), (ii) payment of accrued and unused personal days (\$64,197), (iii) payment of premiums under the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended for a period of 18 months after termination (\$21,995), (iv) vesting of an additional 36,611 RSUs scheduled to vest on the next vesting date following the termination

date (\$103,609) and (v) an additional tax gross-up payment of \$801,238.

- (9) Under Mr. Lutz's Special Termination Agreement, Mr. Lutz would have been entitled to the following:
- (i) payment equal to 299% of the sum of his (A) annual base salary in 2007 (\$520,000) and (B) target bonus for 2007 (\$520,000), (ii) for a period of 2 years after his termination, continuation of medical, dental, life insurance, disability, accidental death and dismemberment benefits and other welfare benefits, subject to certain exceptions (\$20,932), (iii) if Mr. Lutz's employment is terminated by us (other than for Cause) or there is a reduction or adverse change in Mr. Lutz's duties or compensation and Mr. Lutz terminates his employment within six months prior to a Change of Control and in anticipation of a Change of Control, the vesting of all unvested RSUs and PSUs (an additional 109,833 RSUs and 383,632 PSUs (assuming the PSUs vest at 100%) valued at \$1,396,506), (iv) reimbursement for outplacement services, (v) payment of any earned but unpaid salary, bonus or incentive compensation and (vi) an additional tax gross-up payment of \$3,193,801, which excludes tax gross-up payments that may be payable under his Special Termination Agreement to offset the impact of excise taxes that may be imposed under provisions of the Internal Revenue Code. In addition, pursuant to his employment agreement, Mr. Lutz would have been entitled, as of December 31, 2007, to the acceleration of the remaining portion of his unpaid retention bonus (\$375,000) upon a Change in Control (as defined in his Special Termination Agreement).

## **Table of Contents**

- (10) Under Mr. Roberts' Managing Director Agreement, Mr. Roberts would have been entitled to payment equal to six months of his base salary (\$635,525).
- (11) Under Mr. Roberts' Special Termination Agreement, Mr. Roberts would have been entitled to the following:
- (i) payment equal to the sum of his (A) annual base salary in 2007 (\$635,525) and (B) potential bonus or incentive compensation (20% of base salary or \$127,105),
  - (ii) for a period of 2 years after his termination, continuation of medical, dental, life insurance, disability, accidental death and dismemberment benefits and other welfare benefits, subject to certain exceptions (\$18,154),
  - (iii) if Mr. Roberts' employment is terminated by us (other than for Cause) or (ii) there is a reduction or adverse change in Mr. Roberts' duties or compensation and Mr. Roberts terminates his employment within six months prior to a Change of Control and in anticipation of a Change of Control, the vesting of all unvested RSUs and PSUs (an additional 69,883 RSUs and 63,939 PSUs (assuming the PSUs vest at 100%) valued at \$378,716),
  - (iv) reimbursement for outplacement services,
  - (v) payment of any earned but unpaid salary, bonus or incentive compensation and
  - (vi) an additional gross-up payment of \$846,524, which excludes tax gross-up payments that may be payable under his Special Termination Agreement to offset the impact of excise taxes that may be imposed under provisions of the Internal Revenue Code.

*Change of Control Provisions Under the LTIP.* In addition to the provisions in the agreements referred to above, in the event of certain Changes of Control of the Company, any non-vested portion of stock option grants and RSUs, and other awards made under the LTIP will generally vest, and any contractual transfer restrictions on restricted stock or other shares issued upon the settlement of RSUs will be released except under the PSU awards. If such a Change of Control were to occur, all stock options not yet exercisable, including those of our named executive officers set forth in the table captioned Outstanding Equity Awards at Fiscal Year-End (December 31, 2007) would vest. Upon a Change of Control, for PSU awards, the growth target in consolidated business unit contribution will be waived and the acquiring company may (i) substitute the PSUs for the right to receive the acquiring company's stock with the same vesting and settlement schedule, (ii) accelerate and settle in cash the ratable number of PSUs that would vest through the date of Change in Control and replace the remaining PSUs with a cash incentive bonus program that provides for an opportunity to earn up to the value of the remaining PSUs, or (iii) if neither of the above options is selected, then the PSUs will vest and settle and be payable within 10 days of the change of control.

### ***Managing Director Compensation Plan***

In January 2006, the Compensation Committee of the Board approved and authorized the development of our MD Compensation Plan. The MD Compensation Plan was designed to be a comprehensive cash and equity-based compensation program for the managing directors of the Company and was intended to replace the previous cash-based compensation program for such individuals. Generally, all managing directors, including our named executive officers, are eligible to participate in the MD Compensation Plan. The primary goal of the MD Compensation Plan is to align the compensation of our managing directors with those of our stockholders, and the plan is designed to offer transparency into the Company's executive compensation program, align company performance and individual performance, provide a fair and objective basis for assessing performance, link managing director roles and responsibilities to the Company's business objectives, and enhance the accountability of the Company's executives. Under the MD Compensation Plan, a managing director's compensation may include the following components: (i) RSUs; (ii) target compensation (which may be cash or equity); (iii) performance compensation; and (iv) additional breakthrough awards.

We did not activate the MD Compensation Plan for 2007 because we were not, at that time, current in the filing of our SEC periodic reports. We were unable to provide for bonuses under the MD Compensation Plan since the plan has not yet been fully activated and the target levels of profitability set forth under the MD Compensation Plan were not

achieved due to our ongoing issues related to our financial accounting systems and internal controls and their related impact on our ability to become current in our SEC periodic reports and deliver shares of common stock under equity-based awards.

In 2007, upon the recommendation of our Chief Executive Officer, the Compensation Committee of our Board agreed, for 2008, not to activate the provision of our MD Compensation Plan that provides for 20% of a managing director's salary to be paid two fiscal quarters after the compensation has been earned, as

**Table of Contents**

determined by the Company's performance. We expect to review the plan this year, in order to revisit whether it is still properly aligned with our current business and employee retention objectives.

***Director Compensation***

Non-employee directors, those who are not employed by us on a full-time or other basis, receive compensation for their service on our Board. The goals for non-employee director compensation are to fairly pay directors for their service, to align directors' interests with the long-term interests of our stockholders and to have a structure that is transparent. An employee director receives no additional compensation for their service on the Board.

In 2007, non-employee director compensation included the following elements:

an annual fee of \$40,000;

a meeting fee of \$2,000 for attendance in person at any meeting of the Board or a committee of the Board and \$1,000 for attendance by telephone (members of the Audit Committee are paid \$2,000 for attendance at any Audit Committee meeting, whether they attended in person or by telephone);

a grant of stock options to purchase up to 15,000 shares of common stock upon initial election to the Board; and

a grant of stock options to purchase up to 5,000 shares of common stock upon initial election as the Chair of the Audit Committee.

Under the 2000 Amended and Restated LTIP, automatic grant of restricted stock awards ceased as of January 1, 2007. The Company may, in its discretion, provide discretionary grants. The Compensation Committee determined to grant 8,000 shares of restricted shares of common stock for service performed in 2007.

On December 31, 2007, Roderick McGeary, Chairman of the Board, retired as an employee of the Company. On January 1, 2008, the Compensation Committee of the Board approved an annual fee of \$150,000 payable to Mr. McGeary, as compensation for his ongoing services as Chairman of the Board. This fee is in addition to the \$40,000 annual fee payable to the Company's non-employee directors.

In January 2008, the Nominating and Corporate Governance Committee of the Board performed a review of our non-employee director compensation policy and determined not to make any changes to non-employee director compensation for 2008, although it agreed to consider re-addressing the policy later in the year.

**2007 Director Compensation Table**

Name	Fees Earned or Paid		Stock Awards	Option Awards	Total
	in Cash \$(1)		\$(4)	\$(5)(6)	(\$)
Douglas C. Allred	\$ 85,000	\$	15,520	\$	\$ 100,520
Betsy J. Bernard	84,000		15,520		99,520
Spencer C. Fleischer	84,000		15,520		99,520

Edgar Filing: BEARINGPOINT INC - Form 10-K

Jill S. Kanin-Lovers(2)	71,000	15,520	30,946	117,466
Wolfgang H. Kemna	85,000	15,520		100,520
Albert L. Lord	94,000	15,520		109,520
Eddie R. Munson(3)	51,000	15,520	6,662	73,182
J. Terry Strange	124,000	15,520		139,520

**Table of Contents**

- (1) Unless otherwise noted, Fees Earned or Paid in Cash amounts consist of amounts paid for Board service rendered in 2007.
- (2) Ms. Kanin-Lovers was elected to the Board on May 10, 2007.
- (3) Mr. Munson was elected to the Board on October 19, 2007.
- (4) Reflects the dollar amount recognized for financial statement reporting purposes in accordance with SFAS 123(R) with respect to grants of restricted stock awarded for 2007 service. On January 18, 2008, each director was granted 8,000 shares of restricted common stock for services rendered in 2007, each with a fair value of \$15,520. In accordance with SFAS 123(R), fair value is calculated using the closing price of our common stock on the date of grant.
- (5) Reflects the dollar amount recognized for financial statement reporting purposes, in accordance with SFAS 123(R) with respect to stock option awards granted during 2007. In accordance with SFAS 123(R), fair value was estimated using the Black-Scholes option-pricing model.
- (6) Outstanding equity awards for each non-employee director is as follows (for a complete description of the beneficial ownership by our directors, see Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters ):

Name	Outstanding Stock Awards at December 31, 2007(1)	Outstanding Option Awards at December 31, 2007
Douglas C. Allred	36,000	15,000
Betsy J. Bernard	24,000	15,000
Spencer C. Fleischer	16,000	15,000
Jill S. Kanin-Lovers		15,000
Wolfgang H. Kemna	36,000	15,000
Albert L. Lord	32,000	15,000
Eddie R. Munson		15,000
J. Terry Strange	32,000	20,000

- (1) Does not include 8,000 shares of restricted stock granted on January 18, 2008 to each non-employee director as part of that director's equity compensation for services rendered in 2007.

We also reimburse directors for reasonable travel expenses related to attending a Board, Committee or other Company-related business meetings, and provide liability insurance for our directors and officers.

**Table of Contents****ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS*****Beneficial Ownership of More Than Five Percent***

The following table sets forth the only persons known by us, as of February 15, 2008, to be beneficial owners or more than five percent of our common stock.

Name and Address of 5% Holders of Common Stock	Number of Shares	Common Stock
		Percentage of Shares Outstanding
Ariel Capital Management, LLC(1) 200 E. Randolph Drive, Suite 2900 Chicago, IL 60601	41,516,556	19.3%
Glenview Capital Management, LLC(2) 767 Fifth Avenue, 44th Floor New York, NY 10153	20,599,344	9.4
Whitebox Advisors, LLC(3) 3033 Excelsior Boulevard Minneapolis, MN 55416	16,990,113	7.3
North Run Capital, LP(4) One International Place, Suite 2401 Boston, MA 02110	16,709,700	7.8
Franklin Resources, Inc.(5) One Franklin Parkway San Mateo, CA 94403-1906	13,496,210	6.3
Noonday Asset Management, LP(6) 227 West Trade Street, Suite 2140 Charlotte, NC 28202	11,825,600	5.5
Tracer Capital Management L.P.(7) 540 Madison Avenue, 33rd Floor New York, NY 10022	11,685,813	5.4

(1) Represents shares beneficially held by Ariel Capital Management, LLC ( Ariel ), as reported on a Schedule 13G/A filed on January 10, 2008. Ariel has sole voting power with respect to 33,042,381 shares and sole dispositive power with respect to 41,516,556 shares. These shares are beneficially owned by investment advisory clients of Ariel.

(2) Represents shares beneficially held by Glenview Capital Management, LLC ( Glenview ) and Lawrence M. Robbins, as reported on a Schedule 13G/A filed on February 14, 2008. Glenview serves as investment manager to various entities and as such may be deemed to have voting and dispositive power with respect to 20,599,344 shares, of which 4,924,244 shares are issuable upon conversion of certain convertible debentures of the Company. Mr. Robbins is the Chief Executive Officer of Glenview.

(3)

Represents shares beneficially held by Whitebox Advisors, LLC and its various related entities (collectively, Whitebox ), as reported on a Schedule 13G filed on February 14, 2008. Whitebox serves as investment manager to various entities and as such may be deemed to have voting and dispositive power with respect to 16,990,113 shares, of which all shares are issuable upon the conversion of certain convertible debentures of the Company.

- (4) Represents shares beneficially held by North Run Capital, LP, North Run GP, LP, North Run Advisors, LLC, Todd B. Hammer and Thomas B. Ellis ( North Run ), as reported on a Schedule 13G/A filed on February 14, 2008. North Run has sole voting and dispositive powers with respect to 16,709,700 shares.
- (5) Represents shares beneficially held by Franklin Resources, Inc., Charles B. Johnson, Rupert H. Johnson, Jr. and Franklin Templeton Investments Corp. (collectively Franklin Resources ), as reported on a Schedule 13G filed on February 6, 2008. Franklin Resources has sole voting and dispositive power for up to 13,496,210 shares. These shares are beneficially owned by one or more open or closed end investment companies or other managed accounts that are investment management clients of investment managers that are direct and indirect subsidiaries of Franklin Resources, Inc.
- (6) Represents shares beneficially held by the Noonday Funds, the Farallon Funds, and its various advisors, managing members, management company and general partner (collectively, Noonday ), as reported on a Schedule 13G/A filed on January 4, 2008. Noonday has voting and dispositive powers for up to 11,825,600 shares.
- (7) Represents shares beneficially held by Tracer Capital Management L.P. ( Tracer ), Riley McCormack and Matt Hastings, as reported on a Schedule 13G filed on February 14, 2008. Tracer serves as investment manager to various entities and as such may be deemed to have voting and dispositive power with respect to 11,685,813 shares. Mr. McCormack and Mr. Hastings are the sole limited partners of Tracer.

**Table of Contents****Security Ownership of Directors and Executive Officers**

The following table sets forth, as of February 15, 2008, information regarding the beneficial ownership of our common stock held by (i) each of our directors and named executive officers and (2) all of our directors and executive officers as a group. To our knowledge, except as otherwise indicated, each of the persons or entities listed below has sole voting and investment power with respect to the shares beneficially owned by him or her. Beneficial ownership is determined in accordance with Rule 13d-3 under the Exchange Act, pursuant to which a person or group of persons is deemed to have beneficial ownership of any shares that he or she has the right to acquire within 60 days of February 15, 2008. Any shares that a person has the right to acquire within 60 days of February 15, 2008 are deemed to be outstanding for that person but are not deemed to be outstanding for any other person.

\* Less than 1% of our common stock outstanding.

(1) The address for all persons listed is c/o BearingPoint, Inc., 1676 International Drive, McLean, Virginia 22102 USA.

(2) Represents 222,081 vested RSUs.

(3) Includes 58,400 vested RSUs, and 300,000 shares of common stock that may be acquired through the exercise of stock options. Also includes 141,600 shares of common stock and 30,000 vested RSUs held by Robert R. Glatz, Ms. Ethell's spouse.

(4) Includes 15,000 shares of common stock that may be acquired through the exercise of stock options.

(5) Includes 15,000 shares of common stock that may be acquired through the exercise of stock options.

(6)

Includes 15,000 shares of common stock that may be acquired through the exercise of stock options within 60 days of December 31, 2007. Mr. Fleischer is a senior managing member of Friedman Fleischer & Lowe GP II, LLC, a Delaware limited liability company ( FFL GP ). FFL GP is the general partner of Friedman Fleischer & Lowe GP II, L.P., which is the general partner of each of Friedman Fleischer & Lowe Capital Partners II, L.P. ( FFL Capital Partners ), FFL Parallel Fund II, L.P. ( FFL Parallel Fund ) and FFL Executive Partners II, L.P. ( FFL Executive Partners, and together with FFL Capital Partners and FFL Parallel Fund, the FFL Funds ). The FFL Funds are the owners of record of \$40 million of initial principal amount of 0.50% Convertible Senior Subordinated Debentures due July 2010 and warrants to purchase up to 3.5 million shares of common stock. Mr. Fleischer disclaims any beneficial ownership of the securities owned by the FFL Funds, except to the extent of his pecuniary interest therein, if any.

- (7) Includes 15,000 shares of common stock that may be acquired through the exercise of stock options.
- (8) Includes 15,000 shares of common stock that may be acquired through the exercise of stock options.

**Table of Contents**

- (9) On December 31, 2007, Mr. McGeary retired as an employee of the Company. Mr. McGeary will continue to serve as the Chairman of our Board. Effective as of his retirement as an employee of the Company, all unvested RSUs become vested. Includes 51,256 vested RSUs and 472,928 shares of common stock that may be acquired through the exercise of stock options.
- (10) Includes 20,000 shares of common stock that may be acquired through the exercise of stock options.
- (11) Effective as of January 8, 2007, Mr. Roberts no longer served as our Chief Operating Officer, as a result of the appointment of F. Edwin Harbach as our President and Chief Operating Officer. Includes 4,301 shares held through a family trust, 196,370 vested RSUs and 381,708 shares of common stock that may be acquired through the exercise of stock options.
- (12) Includes 62,500 vested RSUs and 1,000,000 shares of common stock that may be acquired through the exercise of stock options.
- (13) Does not include Mr. Roberts or Mr. You as they were not executive officers nor, in the case of Mr. You, a director, on December 31, 2007.

**Table of Contents**

**ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**

***Related Party Transaction Policies***

The Audit Committee of our Board has the primary responsibility for reviewing, approving or ratifying any related party transactions, which include certain transactions that we may enter into with our directors or executive officers (or their immediate family members), or certain shareholders of the Company. Our legal department assists the Audit Committee in implementing procedures and processes to obtain information regarding any such related party transactions, including information obtained from our directors and officers through annual questionnaires. The Audit Committee makes all decisions with respect to whether a transaction meets the criteria of a related party transaction.

***Related Transactions***

*Friedman Fleischer & Lowe, LLC /Spencer C. Fleischer*

On July 15, 2005, we issued \$40,000,000 aggregate principal amount of our July 2005 Convertible Debentures and common stock warrants to purchase up to 3,500,000 shares of our common stock pursuant to a securities purchase agreement, dated July 15, 2005 (the "FF&L Purchase Agreement"), among the Company and certain affiliates of Friedman Fleischer & Lowe, LLC (the "FF&L Purchasers"). In accordance with the terms of the FF&L Purchase Agreement, Mr. Spencer C. Fleischer was appointed to our Board as a Class I Director, effective July 15, 2005. Mr. Fleischer is a senior managing member and Vice Chairman of Friedman Fleischer & Lowe GP II, LLC, the general partner of Friedman Fleischer & Lowe GP II, LP, which is the general partner of several investment funds that make investments in private and public companies in the United States and Bermuda; he has served in this capacity since 1998. If Mr. Fleischer ceases to be affiliated with the FF&L Purchasers or ceases to serve on the Board, so long as the FF&L Purchasers together hold at least 40% of the original principal amount of the July 2005 Senior Debentures, the FF&L Purchasers or their designees have the right to designate a replacement director to our Board. In connection with the Supplemental Indentures entered into for the Subordinated Debentures and the April 2005 Convertible Debentures and the payment of a consent fee to the holders of the April 2005 Convertible Debentures equal to 1.00% of the outstanding principal amount of the April 2005 Convertible Debentures on November 9, 2006 and an additional consent fee of 0.25% on October 27, 2007, we paid to the holders of the July 2005 Convertible Debentures an amount equal to 1.00% of the outstanding principal amount of the July 2005 Convertible Debentures and an additional 0.25%, respectively.

*Judy Ethell/Robert Glatz*

On October 8, 2007, the Company and Robert R. Glatz, Executive Vice President, entered into a Separation and Release of Claims Agreement regarding the terms of his departure from the Company. Mr. Glatz is the spouse of Judy A. Ethell, our Chief Financial Officer. Under the terms of the agreement, among other things: (a) Mr. Glatz's employment with the Company terminated effective as of October 31, 2007; (b) the Company paid Mr. Glatz cash severance of \$1 million; and (c) in connection with the grant of 300,000 RSUs made to Mr. Glatz on August 22, 2005, the vesting of 30,000 RSUs were accelerated on October 31, 2007, and 30,000 unvested RSUs were forfeited. As part of Mr. Glatz's employment, Mr. Glatz was paid: (a) \$520,988 in salary in 2007 and (b) \$300,000 as bonus for his services in 2006, which was paid in 2007. In connection with his employment, Mr. Glatz was also provided with, and participated in, other benefits that are provided to other executives of the Company.

***Director Independence***

The Board has reviewed each director's independence. As a result of this review, the Board affirmatively determined that each of Messrs. Allred, Fleischer, Kemna, Lord, Munson and Strange, and Ms. Bernard and

**Table of Contents**

Kanin-Lovers has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company). Furthermore, each of these directors is independent of the Company and its management under the listing standards of the NYSE currently in effect and, with respect to members of the Audit Committee, the applicable regulations of the SEC. Mr. Harbach is an employee of the Company and while Mr. McGeary resigned as an employee of the Company as of December 31, 2007, he is not considered an independent director under the NYSE's listing standards due to his recent employment with the Company.

In connection with the Board's determination of Mr. Fleischer's independence, the Board re-examined Mr. Fleischer's status as a senior managing member of one of the Company's convertible debt holders. After considering all relevant facts and circumstances, the Board determined Mr. Fleischer's relationship was not material and does not impair the independence of Mr. Fleischer. Although Mr. Fleischer is invited to attend committee meetings from time to time, he is not a member of our Audit Committee, Compensation Committee or Nominating and Corporate Governance Committee. For more information about Mr. Fleischer's appointment to the Board and his relationship to one of our convertible debt holders, please see Friedman Fleischer & Lowe, LLC /Spencer C. Fleischer.

**ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES***Audit Committee Pre-Approval Policies*

The Audit Committee has adopted policies and procedures for approving all audit and permissible non-audit services performed by our independent auditors. Consistent with these policies, all engagements of the independent auditor to perform any audit services and non-audit services have been pre-approved by the Audit Committee. No services provided by our independent auditor were approved by the Audit Committee pursuant to the de minimis exception to the pre-approval requirement set forth in paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

*Independent Registered Public Accountants' Fees*

For fiscal years 2007 and 2006, our independent registered public accountants, Ernst & Young LLP and PricewaterhouseCoopers LLP, respectively, billed us the fees and expenses set forth below in connection with services rendered:

<b>Type of Fee</b>	<b>Fiscal Year Ended December 31,</b>	
	<b>2007</b>	<b>2006</b>
Audit Fees(1)	\$ 31,595,000	\$ 30,211,000
Audit-Related Fees(2)	805,000	275,000
Tax Fees(3)	449,000	960,000
All Other Fees(4)	2,187,000	15,000
<b>Total</b>	<b>\$ 35,036,000</b>	<b>\$ 31,461,000</b>

- (1) Audit fees include audits of consolidated financial statements, reviews of unaudited quarterly financial statements and services that are normally provided by independent auditors in connection with statutory and regulatory filings.

- (2) Audit-related fees include assurance and related services provided by our independent auditors that are reasonably related to the performance of the audit or review of our consolidated financial statements and are not included above under Audit Fees. These services principally include audits of employee benefit plans, accounting consultations, and other services in connection with regulatory reporting requirements.
- (3) Tax services principally include consultation in connection with tax compliance, tax consultations and tax planning.
- (4) All other fees include licenses to technical accounting research software and, for 2007, an EMEA due diligence review.

**REPORT OF ERNST & YOUNG LLP,  
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Board of Directors and Stockholders of BearingPoint, Inc.:

We have audited the accompanying consolidated balance sheet of BearingPoint, Inc. as of December 31, 2007, and the related statements of operations, changes in stockholders' equity (deficit), and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2007 financial statements referred to above present fairly, in all material respects, the consolidated financial position of BearingPoint, Inc. at December 31, 2007, and the consolidated results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 14 to the consolidated financial statements, the Company adopted Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, effective January 1, 2007.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), BearingPoint, Inc.'s internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 26, 2008 (included in Item 9A) expressed an adverse opinion thereon.

**REPORT OF PRICEWATERHOUSECOOPERS LLP,  
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders of BearingPoint, Inc.:

In our opinion, the consolidated financial statements listed in the accompanying index present fairly, in all material respects, the financial position of BearingPoint, Inc. and its subsidiaries (the Company) at December 31, 2006, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 2 to the consolidated financial statements, the Company changed the manner in which it accounts for share-based compensation in 2006 and the manner in which it accounts for defined benefit pension and other postretirement plans effective December 31, 2006.
