MAJOR TRANSACTION

Further to the announcement dated 28 April 2006 relating to the Construction Agreement for AsiaSat 5, a Space Systems/Loral 1300 satellite bus with 26 C-band and 14 Ku-band transponders, the Directors announced that on 8 May 2006, AsiaSat, a wholly owned subsidiary of the Company, entered into a Launch Contract with the Launch Contractor, an independent third party which does not have any connection with the Company and is not associated with the Directors, chief executive officer and substantial shareholder of the Company and any of its subsidiaries or any of their associates as defined in the Listing Rules, for the launch of AsiaSat 5.

As announced earlier on 28 April 2006, the total consideration for commissioning AsiaSat 5, including the contract price under the Launch Contract, the Construction Agreement and the cost of the launch insurance, is estimated at approximately US\$180.00 million (equivalent to HK\$1,404.00 million*) and the Launch Contract, when taken together with the Construction Agreement and the related insurance, will constitute a major transaction of the Company and is subject to the approval of the shareholders of the Company under the Listing Rules. The Company's controlling shareholder, Bowenvale Limited, which owns approximately 69 per cent. of the issued share capital of the Company, intends to grant its approval to the Company on the Construction Agreement, Launch Contract and the commissioning of AsiaSat 5 as required under the Listing Rules.

The Company has applied to the Stock Exchange for a waiver from full compliance with rules 14.58(4) and 14.66(1) of the Listing Rules in relation to the disclosure of the aggregate value of consideration under the Launch Contract.

A circular giving details of the Construction Agreement, the Launch Contract and the commissioning of AsiaSat 5 will be sent to the shareholders in compliance with the Listing Rules and in any event no later than 26 June 2006 as disclosed in the announcement of the Company dated 28 April 2006.

INTRODUCTION

Further to the announcement of the Company dated 28 April 2006 relating to the Construction Agreement for AsiaSat 5, a Space Systems/Loral 1300 satellite bus with 26 C-band and 14 Ku-band transponders, the Directors announced that on 8 May 2006, AsiaSat, a wholly owned subsidiary of the Company, entered into a Launch Contract with the Launch Contractor, an independent third party which does not have any connection with the Company and is not associated with the Directors, chief executive officer and substantial shareholder of the Company and any of its subsidiaries or any of their associates as defined in the Listing Rules, for the launch of AsiaSat 5. Please refer to the aforesaid

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

announcement of the Company for further details of the Construction Agreement.

LAUNCH CONTRACT

DATE

8 May 2006

PARTIES

1. The Launch Contractor, an independent third party which does not have any connection with the Company and is not associated with the Directors, chief executive officer and substantial shareholder of the Company and its subsidiaries and their respective associates as defined in the Listing Rules.
2. AsiaSat, a wholly owned subsidiary of the Company

SUBJECT MATTER

The Launch Contractor shall provide services associated with the launch of AsiaSat 5 in the Baikonur Space Centre in Kazakhstan. Under the terms of the Launch Contract, the launch service shall be completed upon the launch of AsiaSat 5, which is scheduled to take place between 1 July 2008 and 31 December 2008 and such schedule can be extended by AsiaSat by written notice in accordance with the terms of the Launch Contract. It is expected that AsiaSat 5 will be launched in the second half of 2008.

TOTAL COST FOR THE COMMISSIONING OF ASIASAT 5

The Directors estimated that the total consideration for the commissioning of AsiaSat 5, including the contract price under the Launch Contract and the Construction Agreement, and the costs of the launch insurance, ground facilities for telemetry, tracking and control, related expenses and capitalised interest under arrangements with various third parties, will be at approximately US\$180.00 million (equivalent to HK\$1,404.00 million*). This estimation is subject to a number of factors including timely completion of AsiaSat 5, certain delays or postponements in launching, the in-orbit performance of AsiaSat 5 after launching. The estimated cost for commissioning of AsiaSat 5 will be fully funded by internal resources of AsiaSat. The contract price under the Launch Contract will be paid in cash by instalments over a period ending one month after the launch and will be fully funded by internal resources of AsiaSat.

The contract price and the terms of the Launch Contract were negotiated on an arm's length basis having regard to the value of similar launching service quoted by other launch contractors and based on a similar acquisition made previously by AsiaSat of a satellite in 2000**.

REASONS AND BENEFITS OF THE COMMISSIONING OF ASIASAT 5

The new AsiaSat 5 will replace AsiaSat 2 at the orbital location of 100.5 degrees East and allow our market competitiveness, strategic position of satellites and the offering of the very best services to be sustained for the years ahead. It will replace all current functions of AsiaSat 2 in C band coverage, and in Ku band, provide additional dedicated coverage for South Asia plus a steerable beam.

The C band payload of AsiaSat 5 will be similar to that of AsiaSat 2 save for some performance upgrades. As for the Ku band payload, its coverage over China

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

is significantly upgraded and additional coverage is also provided for in South Asia covering, inter alia, India, Pakistan and Bangladesh. In addition, the satellite will carry a steerable antenna that will allow capacity of Ku band to be deployed in a consistent manner with the market demand anywhere in Asia.

The Directors are of the view that the transaction has been conducted in the ordinary and usual course of business of the Company, on normal commercial terms and the terms of the transaction are fair and reasonable and in the interest of the

shareholders of the Company as a whole.

INFORMATION TO SHAREHOLDERS

The total consideration for commissioning AsiaSat 5, including the contract price under the Launch Contract, the Construction Agreement and the cost of the launch insurance, is estimated to be approximately US\$180.00 million (equivalent to approximately HK\$1,404.00 million*) and the Launch Contract, when taken together with the Construction Agreement and the related insurance, will constitute a major transaction of the Company and is subject to the approval of the shareholders of the Company under the Listing Rules. The Company's controlling shareholder, Bowenvale Limited, which owns approximately 69 per cent. of the issued share capital of the Company, intends to grant its approval to the Company on the Construction Agreement, Launch Contract and the commissioning of AsiaSat 5 as required under the Listing Rules.

The Company has applied to the Stock Exchange for a waiver from full compliance with rules 14.58(4) and 14.66(1) of the Listing Rules in relation to the disclosure of the aggregate value of consideration under the Launch Contract.

A circular giving details of the Construction Agreement, the Launch Contract and the commissioning of AsiaSat 5 will be sent to the shareholders in compliance with the Listing Rules and in any event no later than 26 June 2006 as disclosed in the announcement of the Company dated 28 April 2006.

DEFINITIONS

Terms used in this announcement shall have the following meanings:

- | | |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| "AsiaSat 5" | The new Space Systems/Loral 1300 satellite bus, with 26 C-band and 14 Ku-band transponders, to be constructed and launched pursuant to the Construction Agreement and the Launch Contract; |
| "AsiaSat" | Asia Satellite Telecommunications Company Limited, a wholly owned subsidiary of the Company incorporated in Hong Kong with its registered office in Hong Kong, SAR; |
| "Company" | Asia Satellite Telecommunications Holdings Limited incorporated under the laws of Bermuda, with its principle business being the provision of satellite services to broadcasting and telecommunications markets; |
| "Construction Agreement" | The agreement dated 28 April 2006 entered into by |

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

AsiaSat and the construction contractor for the construction of AsiaSat 5. Details of this transaction was published in the Company's announcement on the same day;

- "Directors" The directors of the Company;
